ADVISORY COMMITTEE TO THE PROGRAM COMMITTEE OF THE HEALTH PROFESSIONALS SERVICES PROGRAM

Legal Basis: M.S. 214.32.

HEALTH PROFESSIONALS SERVICES PROGRAMS, 1380 ENERGY LANE, #202

ST. PAUL, MN 55108

Telephone: 6516433456

Appointing Authority: Program Committee to the Health Professionals Service Program

Compensation: None

Powers and Duties include: The Health Professionals Services Program is designed to monitor the treatment and continuing care of regulated health professionals who may be unable to practice with reasonable skill and safety, if their illness is not appropriately managed. The enabling legislation provides a non-disciplinary tool for health licensing boards to deal with impaired health professionals who recognize their illness and the need for continuing care and/or practice limitations. The committee will provide input to the Program Committee, program and board staff.

Member Restrictions include: An advisory committee is established to advise the program committee consisting of: (1) one member appointed by each of the following: the Minnesota Academy of Physician Assistants, the Minnesota Dental Association, the Minnesota Chiropractic Association, the Minnesota Licensed Practical Nurse Association, the Minnesota Medical Association, the Minnesota Nurses Association, and the Minnesota Podiatric Medicine Association; (2) one member appointed by each of the professional associations of the other professions regulated by a participating board not specified in clause (1); and (3) two public members, as defined by section 214.02. Members of the advisory committee shall be appointed for two years and members may be reappointed. Additional Information on how appointments are made: Biennial Notice of Appointments to Program Manager. Biennially on November 1st of odd numbered years, the program manager will notify each participating association of the need to make a new appointment or confirm the continuation of the current appointee by the coming January 15th. Each participating association must notify the program manager in writing on or before January 15th of the even numbered year of who their representative is and who their alternate is (if they use an alternate). HPSP does not offer members a per-diem (Payment) for participating on the Committee. Participation on the Committee is voluntary. "Public member" means a person who is not, or never was, a member of the profession or occupation being licensed or regulated or the spouse of any such person, or a person who does not have or has never had, a material financial interest in either the providing of the professional service being licensed or regulated or an activity directly related to the profession or occupation being licensed or regulated.

Summary of Activities include: See Powers and Duties. The Health Professionals Services Program is invested in obtaining public member participation on the Advisory Committee to the Program Committee. Public members must meet the definition described in Minn. Stat. 214.02. Ideally, public members are interested in enhancing public safety in health care by promoting early intervention, diagnosis, and treatment of health professionals with potentially impairing illnesses; and by providing monitoring services as an alternative to board discipline. HPSP will attempt to obtain public members by asking current Advisory Committee members for the names of potentially interested persons. Please note that Minn. Stat. 214.02 restricts many interested persons from being appointed as a public member.

Legal Basis: M.S. 144.998
MDH, PO BOX 64882
ST PAUL, MN 55164-0882
Telephone: 6512013661

Appointing Authority: Commissioners of Health, Pollution Control, and Agriculture; Speaker House; Senate Majority Leader
Compensation: Expenses

Powers and Duties include: Make recommendations to the Commissioner of Health and the legislature on priorities for environmental health tracking and biomonitoring. These include recommendations to study specific chronic diseases, environmental health exposures, chemicals, communities and geographical areas. Make recommendations on aspects of the design, implementation, and evaluation of the environmental health tracking and biomonitoring system.

Member Restrictions include: The committee shall have 13 members; specifications and restrictions for each are detailed in M.S. 144.998. The commissioner of Health shall appoint 9 members, the commissioners of the Pollution Control Agency and the Department of Agriculture shall each appoint one (1) member, and the Speaker of the House and the Senate Majority Leader shall each appoint one (1) member. None of the members may be lobbyists registered under chapter 10A. As specified, a particular subset of 10 of the 13 members must have backgrounds or training in designing, implementing, and interpreting health tracking and biomonitoring studies or in related fields of science, including epidemiology, biostatistics, environmental health, laboratory sciences, occupational health, industrial hygiene, toxicology, and public health.

Summary of Activities include: During the first half of 2011, the EHTB Advisory Panel made recommendations about the development and enhancement of a web-based system that would allow secure access to EHTB data, as required by a cooperative agreement with CDC; reviewed the selection process and criteria for adding new content areas to the tracking program; voted to recommend exposure to environmental tobacco smoke (ETS) as new content for tracking; reviewed preliminary data for adding arsenic in private wells as new content for tracking; provided advice for the analysis and interpretation of laboratory data for two biomonitoring pilot projects; and recommended criteria for assessing risk and vulnerability as ways to identify appropriate target populations for an ongoing biomonitoring program in Minnesota. During the second half of 2011, the EHTB Advisory Panel reviewed and commented on preliminary findings of the follow-up PFC biomonitoring study in the East Metro and reviewed data and analyses from the Lake Superior Mercury in Newborns biomonitoring study. The panel offered recommendations for interpretation and communication of the results with the public. Panel members voted to recommend a follow-up study that would compare mercury levels in umbilical cord blood with mercury levels in newborn blood spots. A second motion passed by the panel recommended that the EHTB program seek resources in future to investigate sources of mercury exposure in other populations in the state. In 2012, the Advisory Panel reviewed Phase 2 findings from the follow-up PFC study in the East Metro. The panel recommended a 3rd study of this population to ensure that PFC blood levels are continuing to decline. Specific aims for a cord-blood-to-newborn-blood-spot comparison study developed by the EHTB staff. The panel voted to recommend the cord: newborn blood comparison study, with an amendment; and voted to recommend that EHTB staff should do so in a collaboration with Dr. Ruby Nguyen at the University of Minnesota. The panel also voted to recommend that EHTB staff should pursue the specific aims developed in response to the panel's motion that the EHTB program should seek resources to investigate sources of mercury exposure in other populations in the state.

The purpose of the renovations is to make the Residence multifunctional while respecting its architectural and historical integrity. The following are recent accomplishments. An updated master plan for the residence was completed in 1997 by MacDonald & Mack Architects. In 1996 the ADA (accessibility) improvements on the first floor and lower level were completed and the woodwork in the dining room, foyer, and surrounding hallways was refinished. The dining room was also refurbished with new drapes and the chairs repaired and reupholstered with the guidance of Nakashian-O'Neil, interior design consultant. A new ancillary storage facility was constructed and security improvements were made using a portion of the \$900,000 appropriated by the 1996 legislature. In 1997 the library was refurbished with new blinds and furniture, and some items were reupholstered. In 1998 new china and crystal glassware was purchased. The slate roof on the residence was replaced with new slate roof and improved kitchen ventilation in 1999.

Member Restrictions include: The Task Force shall consist of no more than 15 members, appointed as follows: a) The Commissioner of the Minnesota Department of Education, the Commissioner of the Minnesota Department of Human Rights, and the Commissioner of the Minnesota Department of Public Safety; b) Four members from the Minnesota State Legislature, one appointed by the Senate Majority Leader, one appointed by the Senate Minority Leader, one appointed by the Speaker of the House, and one appointed by the House Minority Leader; c) The Governor will appoint up to eight additional members, who shall serve at the pleasure of the Governor, and may include individuals with backgrounds and expertise in health professions, pediatrics, psychology or psychiatry; with expertise or special knowledge of legal policy; with experience as advocates for students who have been subjected to bullying; and with teaching or school administration careers; d) At the Task Force's first meeting, its members will elect one of them to serve as their chair.

Summary of Activities include: The task force has held a number of listening sessions all across the state where the group heard from students and parents whose lives were directly affected by school bullying. The task force brought in a number of national experts who presented various aspects of bullying prevention from student discipline to cooperative support models. The group broke into subcommittees which tasked to create definitions for bullying and harassment. Other subcommittees focused on discipline, training and implementation, as well as data collection and accountability. The group examined existing model policies in order to discover their strong and weak points. The group examined bullying prevention laws and policies in other states and used that information to create a set of best practices. Work was not done in an education silo. The group considered non-educational aspects such as student mentalhealth, human services, and human rights.

MN SENTENCING GUIDELINES COMMISSION

Legal Basis: M.S. 244.09.

309 ADMINISTRATION BUILDING; 50 SHERBURNE AVE

ST. PAUL, MN 55155

Telephone: 6512960144

Appointing Authority: Governor and Chief Justice of the Supreme Court

Compensation: \$50 per diem (for citizen members) plus expenses

Powers and Duties include: The legislature established the Sentencing Guidelines Commission for the purpose of developing and maintaining rational and consistent sentencing standards which reduce sentencing disparity, increase proportionality in sanctions, and ensure more equitable and uniform sentencing for convicted felons. The following are the specifically stated goals of the sentencing guidelines system. 1) To promote public safety by recommending the harshest sanctions for violent offenders who pose the greatest danger to public safety and coordinating sentencing practices with correctional resources to assure that prison resources are available for these violent offenders. 2) To promote uniformity in sentencing so that offenders who are convicted of similar types of crimes and have similar types of criminal records are similarly sentenced. 3) To establish proportionality in sentencing by recommending the most severe sanctions for those offenders who are convicted of serious violent offenses even with no criminal record, those who have repeat violent criminal records, and those who have more extensive nonviolent criminal records. 4) To provide truth and certainty in sentencing by having the judge pronounce a fixed sentence that requires the offender to serve at least two thirds of the pronounced time as opposed to an indeterminate and symbolic sentence of zero to the statutory maximum sentence and a parole board that ultimately decides when to release an offender. 5) To coordinate sentencing practices with correctional resources by informing the legislature of the impact of the existing sentencing policy on correctional resources and the impact of any proposed changes to the sentencing system. To achieve the mission and goals stated above, the agency and commission evaluate sentencing policy and practices, modifies sentencing policy; determines the impact of policy on correctional resources; and provides training, implementation, and information services to the criminal justice community and the public. The criminal justice system is extremely dynamic and the commission must consider whether to make changes to the sentencing guidelines in order to continue to fulfill its mission. The commission presents recommendations to the legislature each year for changes to the sentencing guidelines.

Member Restrictions include: The eleven members include one judge of the Court of Appeals and one district court judge to be appointed by the Chief Justice of the Supreme Court; one public defender; one county attorney; one peace officer; one probation officer; three public members, one of whom must be a victim of a crime defined as a felony; and the Chief Justice of the Supreme Court and the Commissioner of Corrections or their designees. The term of any member appointed or reappointed by the Governor after the first Monday in January 1991 is coterminous with the Governor.

Summary of Activities include: The sentencing guidelines have been in effect since 1980. The guidelines have provided more uniform and proportional sentences for convicted felons. The Commission appropriately modifies the guidelines each year to accommodate new laws, address problems with the guidelines, or address other concerns about sentences. The research and monitoring functions of the agency have provided critical and important information to policy makers, including information on the impact of new laws and policies on correctional resources.

Meetings are held at: No set meeting location, however, the meetings have been routinely held at the Dept. of Corrections, central office.

300 CENTENNIAL BLDG; 658 CEDAR ST.

ST PAUL, MN 55155

Telephone: 6512012499

Appointing Authority: Chief Information Officer - Administration

Compensation: None

Powers and Duties include: This council, authorized by legislation, advises the Minnesota Geospatial Information Office (MnGeo) about issues, policies, priorities, and investments needed to improve services statewide through the coordinated, affordable, reliable, and effective use of geospatial technology. This is a policy-oriented council that will be supplemented and supported by work teams and technical committees. The council must represent a cross-section of organizations that include counties, cities, universities, business, nonprofit organizations, federal and state agencies, tribal governments, and other stakeholder groups that benefit from geospatial technology. To ensure that council members represent the required cross-section of interests, applicants other than those in the At-Large category must provide a written endorsement from an organization that matches an identified stakeholder category from their executive officer, board director, or equivalent. Organizations may endorse more than one applicant and an applicant may apply as an endorsed candidate for more than a single category. In the event that qualified applications are not received for any of the target categories, the appointing authority reserves the right to substitute an At-Large representative for that category. In addition to the appointed members, the council will include the state chief geospatial information officer as a non-voting, ex-officio member. The term of office for appointed members will be for a term expiring on June 30, 2013. Meetings will be held four times a year. Please see our website at: www.mngeo.state.mn.us/councils/statewide/index.html

Member Restrictions include: By statute, members must represent a cross section of organizations including counties, cities, universities, business, non-profit organizations, tribal government, federal agencies, and state agencies. No more than 20% of the members may be employees of a State agency. All appointed members will be voting members.

Summary of Activities include: The Council meets regularly to discuss policy and provide recommendations related to the use and management of geographic information resources in Minnesota. For specific activities, see the Council's website: www.mngeo.state.mn.us/councils/statewide/index.html.
