DIRECTORY OF MINNESOTA ORGANIC FARMS

THE MINNESOTA DEPARTMENT OF AGRICULTURE developed this directory to benefit organic farmers and buyers in Minnesota.

FARMERS, use it to:

- Assess production and market opportunities, as well as areas of saturation.
- Contact other growers.
- Form production and/or marketing alliances.

BUYERS, use it to:

- Find farmers already growing an organic product you want to buy.
- Find groups of organic farmers in a particular county or region.
- Contact farmers.

Organic has always been about a sense of community. This directory is a vital tool in linking various constituencies of the organic community. It specifically identifies farmers and their neighbors who are farming organically. It enables buyers to connect directly with organic farmers in order to promote a vital industry.

*-John Bobbe, Executive Director
Organic Farmers' Agency for Relationship Marketing, Inc.*

We compiled this directory for farms who sell to each other and to processors, traders, retailers, chefs, and other intermediate or large-scale buyers. **If you are seeking organic or other local products for home use, try the Minnesota Grown Directory** at www.minnesotagrown.com

Note: This is a voluntary directory and 215 of the estimated 700 certified organic farms in the state asked to be listed. No farm was included without its permission. An electronic version is available at www.mda.state.mn.us/organic. To comment, request additional copies, or to be listed in future editions call 651-201-6012.
