LETTER FROM THE CHAIR

I am pleased to present the Interstate Commission for Juveniles (ICJ) fiscal year 2014 Annual Report. The information and statistics contained in this publication provide a clear picture of the mission, accomplishments and operations of this organization. This report also offers insight into the Commission's fiscal priorities, committee work, and statistical data regarding juvenile interstate movement. ICJ continues to lead by setting and achieving aggressive goals as outlined in our strategic plan.

Committees were hard at work for fiscal year 2014. After an extensive effort to improve the Juvenile Interstate Data System's performance, the Technology Committee enhanced the training efforts supporting the system and its users. As the National Office and compact office staff worked to make sure information entered is accurate and complete, the Technology Committee continued to prioritize fixes and determine needed enhancements to establish JIDS as a useful tool. The Training Committee developed training bulletins, best practices, and online sessions to ensure states have the most current information, and the Rules Committee continued their efforts to analyze the rules and draft proposals for clarification. The Finance Committee attentively monitored the budget throughout the year and recommended funding an additional representative from each state to attend the ICJ Annual Business Meeting. After much deliberation, the Executive Committee favored a live stream of the meeting, whereby interested parties can view the trainings and business meeting from their office. Additionally, the AAICPC/ICJ MOU Workgroup continues to draft best practice guidelines for dual jurisdiction cases. Finally, I asked the Compliance Committee to develop a protocol for 'State Offices in Transition' after two member states were rendered ineffective due to operational and personnel changes. The Compliance Committee will present the outcome of this project to the full Commission in October 2014.

ICJ is still a relatively young organization, but with Commission members consistently volunteering their time and talent to participate in the business of the Commission, and the National Office staff diligently supporting their efforts, significant results are being realized. On behalf of the Executive Committee, I want to thank those who contribute to the mission of this Compact. The Commission's accomplishments are a direct result of your dedication.

Sincerely,

Patrick J. Pendergast
Chairman

LOOKING AHEAD TO FISCAL YEAR 2015

The overwhelming consensus for the Commission's strategic goals included ensuring a reliable, working data system, well tested and solidly written rules, active and engaged members, multi-faceted training, and enforcing compliance.

As the Commission enters fiscal year 2015, they continue to achieve these goals, which are foundational to their mission to promote public safety, victims' rights, and juvenile accountability.

With a two-year rule making cycle now in effect, the Rules Committee is finishing its comprehensive review of the rules to ensure they are consistent and understood so modifications are standard. This includes educating stakeholders so rule interpretations and applications are uniform. Thus, the Training Committee strategically redesigned their Commissioner training curriculum to foster and engage the decision-making body. This new approach to orientate new Commissioners will begin in fiscal year 2015.

For the Commission to fulfill its mission, the difficult and sometimes unpleasant work of compliance and enforcement must be in place. Enforcement efforts are a priority for fiscal year 2015. The Commission will determine compliance standards and develop a procedure for governing and investigating compliance.

On October 27–30, 2014, the Commission will conduct its seventh Annual Business Meeting in Charleston, South Carolina. With training sessions on secure detention, compliance matters, and dual jurisdiction cases involving the Interstate Compact on the Placement of Children (ICPC), plus a session on human trafficking led by national experts, this meeting promises to be informative and dynamic. To reinforce staff participation and involvement, this meeting will have a live stream option available to Compact Offices and field staff.

Fiscal year 2015 will begin with an exciting transition. On July 1, 2014, the Commission welcomes Georgia to the Compact.

The Committees and Workgroup of the Commission are tirelessly working to promote the Commission's mission. Below, find a synopsis of their efforts for fiscal year 2014.

In fiscal year 2014, the workgroup continued its mission to foster communication, collaboration, and cooperation between ICJ and AAICPC through drafting best practices for dual involvement cases. With two ICJ rules in place providing clarity on handling cases of mutual interest, the workgroup is finalizing best practice scenarios, which include runaways, family settings, and residential placements. Moving forward, the workgroup will finalize these best practices and promote education and training for both Compacts.

The Compliance Committee addressed issues with two states who were not fulfilling their responsibilities and obligations under the Compact to provide adequate resources and support to their respective state ICJ offices. At the Compliance Committee's recommendation, the Executive Committee took steps to alert officials in both states and approved technical and training assistance to prevent formal compliance action and a finding of default. The outcome was a positive one, resulting in both states meeting the Commission's expectations. In consideration of the likelihood of similar future situations, Commission Chair Pendergast requested the Compliance Committee appoint an Ad Hoc Committee to develop a protocol for "State Offices in Transition" to help states facing personnel and operational changes.

STRATEGIC INITIATIVES

- 1 Enhance both compliance and enforcement.
- 2 Minimize changes to the rules and increase their understanding.
- 3 Refine processes with stabilization of rules and forms, along with enhancing features of JIDS.
- 4 Enhance state ICJ compact office staff participation in decision-making, meetings, missions, and goals.

Region meetings provide an opportunity for member states to share information, voice concerns and resolve issues. This year, regional meetings included discussions on JIDS, rules, detaining juveniles, conducting home evaluations prior to adjudication, and Georgia becoming a member of the Commission. Regions also considered the benefits and drawbacks of eliminating the Application for Compact Services/Memorandum of Understanding and Waiver Form. The South Region is putting forth two rule amendments for fiscal year 2015 and the Midwest Region is working on a rule for failed placements. Additionally, the West Region formed a small workgroup to address concerns regarding Washington's determinate sentencing/placement authority statute and submitted two rule amendments to be voted on at this year's Annual Business Meeting.

REPORT OF INDEPENDENT AUDITORS

To the Governing Board
The Council of State Governments
Lexington, Kentucky

Report on the Financial Statements

We have audited the accompanying financial statements of The Council of State Governments (a nonprofit organization, the Council), which comprise the statements of financial position as of June 30, 2013 and 2012, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by *Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations* is presented for purposes of additional analysis and is not a required part of the financial statements. The combining statements of financial position and activities, and the schedules of amounts due to and due from managed organizations are presented for purposes of additional analysis and are not a required part of the financial statements. The combining information on pages 15 through 18 is presented for purposes of additional analysis rather than to present the financial position, results of operations, and cash flows of the individual departments the Council. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated [date of report] on our consideration of the Council's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Council's internal control over financial reporting and compliance.
