ADVISORY COMMITTEE TO THE PROGRAM COMMITTEE OF THE HEALTH PROFESSIONALS SERVICES PROGRAM

LEGAL BASIS: M.S. 214.32

HEALTH PROFESSIONALS SERVICES PROGRAMS

1380 ENERGY LANE, Suite 202

ST PAUL, MN 55108

TELEPHONE: 651-643-3456

Appointing Authority: Program Committee to the Health Professionals Service Program

Compensation: None

Powers and Duties include: The Health Professionals Services Program (HPSP) is designed to monitor the treatment and continuing care of regulated health professionals who may be unable to practice with reasonable skill and safety, if their illness is not appropriately managed. The enabling legislation provides a non-disciplinary tool for health licensing boards to deal with impaired health professionals who recognize their illness and the need for continuing care and/or practice limitations. The committee will provide input to the program committee, program and board staff.

Member Restrictions include: An advisory committee is established to advise the program committee consisting of: (1) one member appointed by each of the following: the Minnesota Academy of Physician Assistants, the Minnesota Dental Association, the Minnesota Chiropractic Association, the Minnesota Licensed Practical Nurse Association, the Minnesota Medical Association, the Minnesota Nurses Association, and the Minnesota Podiatric Medicine Association; (2) one member appointed by each of the professional associations of the other professions regulated by a participating board not specified in clause (1); and (3) two public members, as defined by section 214.02. Members of the advisory committee shall be appointed for two years and members may be reappointed. Additional Information on how appointments are made: Biennial Notice of Appointments to Program Manager. Biennially on November 1 of odd-numbered years the program manager will notify each participating association of the need to make a new appointment or confirm the continuation of the current appointee by the coming January 15. Each participating association must notify the program manager in writing on or before January 15 of the even-numbered year of who their representative is and who their alternate is (if they use an alternate). HPSP does not offer members a per-diem (payment) for participating on the committee. Participation on the committee is voluntary. "Public member" means a person who is not, or never was, a member of the profession or occupation being licensed or regulated or the spouse of any such person, or a person who does not have or has never had, a material financial interest in either the providing of the professional service being licensed or regulated or an activity directly related to the profession or occupation being licensed or regulated.

Summary of Activities include: See Powers and Duties. The HPSP is invested in obtaining public member participation on the advisory committee to the program committee. Public members must meet the definition described in Minnesota Statutes 214.02. Ideally, public members are interested in enhancing public safety in health care by promoting early intervention, diagnosis, and treatment of health professionals with potentially impairing illnesses; and by providing monitoring services as an alternative to board discipline. HPSP will attempt to obtain public members by asking current advisory committee members for the names of potentially interested persons. Please note that Minnesota Statutes 214.02 restricts many interested persons from being appointed as a public member.

Meetings are held at: 2829 University Avenue, Minneapolis.

Fiscal Year 2014 Open Appointments Annual Compilation and Statistical Report

Summary of Activities include: During FY2014, the Environmental Health Tracking and Biomonitoring (EHTB) Advisory Panel held three full panel meetings and four task force meetings. The panel provided critical external guidance and recommendations to support the work of the Minnesota Department of Health's (MDH) Biomonitoring Program and the Minnesota Environmental Public Health Tracking Program. The panel reviewed new perfluorochemical (PFC) biomonitoring project protocols for the East Metro project, and recommended continued PFC monitoring in the participants who were tested in 2008 and 2010. The panel also advised expanding the testing to include adults who moved to Oakdale since 2006, when the efforts to reduce PFCs in drinking water began. This work is expected to provide added assurance to the community that actions taken to protect public health are working to reduce exposure over time. The panel also reviewed results from an MDH study to validate novel test methods for monitoring mercury exposure in newborns. This work involved a cord blood to newborn blood spot comparison study in collaboration with Dr. Ruby Nguyen at the University of Minnesota. The panel recommended continued analyses by the MDH laboratory and further methods enhancements, which are now ongoing. Planning is underway on the panel recommended project to learn whether Minnesota newborns are exposed to harmful levels of mercury before birth, funded by the 2013 Legislature. The panel reviewed the project methods and provided guidance in selecting the specimen type, and the target communities. The panel also held four meetings of a task force to consider and recommend strategies for sustaining long term program funding in the future, consistent with the strategic plan for "Protecting Future Generations." Recommendations and an action plan were developed with input from the panel. The panel provided important guidance to the Minnesota Environmental Public Health Tracking program (Mn Tracking), advising MDH on program priorities, data sources, and new methods for addressing community needs, racial/ethnicity disparities and environmental justice. In FY2014, guided by the panel's recommendations, Minnesota added new data tracking developmental disabilities, arsenic in private wells, health insurance coverage, pesticide poisonings, and updated air quality data. Working with the CDC National Tracking Network, new tools were added including: Community Environmental Health Profiles, the Health Impact Assessment Toolkit, mapping of data at sub-county levels, and a report on the economic burden of environmentally-related diseases in children. In December 2013, the Minnesota Tracking data portal team received a Governor's Award for Continuous Improvement, which recognized the value of this work for increasing productivity and enhancing the efficiency of state government services, providing broad access to public health data through our online data portal: Minnesota Public Health Data Access.

A new ancillary storage facility was constructed and security improvements were made using a portion of the \$900,000 appropriated by the 1996 Legislature. Member Restrictions include: The task force shall consist of no more than 15 members, appointed as follows: a) commissioner of the Minnesota Department of Education, commissioner of the Minnesota Department of Human Rights, and commissioner of the Minnesota Department of Public Safety; b) four members from the Legislature, one appointed by the Senate majority leader, one appointed by the Senate minority leader, one appointed by the speaker of the House, and one appointed by the House minority leader; c) The governor will appoint up to eight additional members, who shall serve at the pleasure of the Governor, and may include individuals with backgrounds and expertise in health professions, pediatrics, psychology or psychiatry; with expertise or special knowledge of legal policy; with experience as advocates for students who have been subjected to bullying; and with teaching or school administration careers; d) at the task force's first meeting, its members will elect one of them to serve as their chair.

Summary of Activities include: The task force has held a number of listening sessions all across the state where the group heard from students and parents whose lives were directly affected by school bullying. The task force brought in a number of national experts who presented various aspects of bullying prevention from student discipline to cooperative support models. The group broke into subcommittees which tasked to create definitions for bullying and harassment. Other subcommittees focused on discipline, training and implementation, as well as data collection and accountability. The group examined existing model policies in order to discover their strong and weak points. The group examined bullying prevention laws and policies in other states and used that information to create a set of best practices. Work was not done in an education silo. The group considered non-educational aspects such as student mental health, human services, and human rights.

Meetings are held at: Minnesota Department of Education, Conference Center A, Room 13, Roseville.

Compensation: \$50 per diem (for citizen members) plus expenses

Powers and Duties include: The Legislature established the commission for the purpose of developing and maintaining rational and consistent sentencing standards which reduce sentencing disparity, increase proportionality in sanctions, and ensure more equitable and uniform sentencing for convicted felons. The following are the specifically stated goals of the sentencing guidelines system. 1) To promote public safety by recommending the harshest sanctions for violent offenders who pose the greatest danger to public safety and coordinating sentencing practices with correctional resources to assure that prison resources are available for these violent offenders. 2) To promote uniformity in sentencing so that offenders who are convicted of similar types of crimes and have similar types of criminal records are similarly sentenced. 3) To establish proportionality in sentencing by recommending the most severe sanctions for those offenders who are convicted of serious violent offenses even with no criminal record, those who have repeat violent criminal records, and those who have more extensive nonviolent criminal records. 4) To provide truth and certainty in sentencing by having the judge pronounce a fixed sentence that requires the offender to serve at least two thirds of the pronounced time as opposed to an indeterminate and symbolic sentence of zero to the statutory maximum sentence and a parole board that ultimately decides when to release an offender. 5) To coordinate sentencing practices with correctional resources by informing the Legislature of the impact of the existing sentencing policy on correctional resources and the impact of any proposed changes to the sentencing system. To achieve the mission and goals stated above, the agency and commission evaluate sentencing policy and practices, modifies sentencing policy; determines the impact of policy on correctional resources; and provides training, implementation, and information services to the criminal justice community and the public. The criminal justice system is extremely dynamic and the commission must consider whether to make changes to the sentencing guidelines in order to continue to fulfill its mission. The commission presents recommendations to the Legislature each year for changes to the sentencing guidelines.

Member Restrictions include: The 11 members include one judge of the Court of Appeals and one district court judge to be appointed by the chief justice of the Supreme Court; one public defender; one county attorney; one peace officer; one probation officer; three public members, one of whom must be a victim of a crime defined as a felony; and the chief justice of the Supreme Court and the commissioner of Corrections or their designees. The term of any member appointed or reappointed by the governor after the first Monday in January is coterminous with the governor.

Summary of Activities include: The sentencing guidelines have been in effect since 1980. The guidelines have provided more uniform and proportional sentences for convicted felons. The commission appropriately modifies the guidelines each year to accommodate new laws, address problems with the guidelines, or address other concerns about sentences. The research and monitoring functions of the agency have provided critical and important information to policy makers, including information on the impact of new laws and policies on correctional resources.

Meetings are held at: There is no set meeting location, however, the meetings have been routinely held within the Capitol Complex.

STATEWIDE GEOSPATIAL ADVISORY COUNCIL

LEGAL BASIS: M.S. 16B.99; SF-1270
 CAROLYN PARNELL, CIO MnGEO
 300 CENTENNIAL OFFICE BUILDING
 658 CEDAR STREET
 ST PAUL, MN 55155
 TELEPHONE: 651-201-2499

Appointing Authority: Chief Information Officer - OET/MN.IT Services

Compensation: None

Powers and Duties include: This council, authorized by legislation, advises the Minnesota Geospatial Information Office (MnGeo) about issues, policies, priorities, and investments needed to improve services statewide through the coordinated, affordable, reliable, and effective use of geospatial technology. This is a policy-oriented council that will be supplemented and supported by work teams and technical committees. The council must represent a cross-section of organizations that include counties, cities, universities, business, nonprofit organizations, federal and state agencies, tribal governments, and other stakeholder groups that benefit from geospatial technology. To ensure that council members represent the required cross-section of interests, applicants other than those in the At-Large category must provide a written endorsement from an organization that matches an identified stakeholder category from their executive officer, board director, or equivalent. Organizations may endorse more than one applicant and an applicant may apply as an endorsed candidate for more than a single category. In the event that qualified applications are not received for any of the target categories, the appointing authority reserves the right to substitute an at-large representative for that category. Members are expected to facilitate two-way communication between their sector and the council. In addition to the appointed members, the council will include the state chief geospatial information officer as a non-voting, ex-officio member. The term of office for appointed members will be for a term expiring on June 30, 2015. Meetings will be held four times a year, usually in St. Paul. Please see our website at: <http://www.mngeo.state.mn.us/councils/statewide/index.html>.

Member Restrictions include: The 23 members must represent a cross section of organizations including counties, cities, universities, business, non-profit organizations, tribal government, federal agencies, and state agencies. No more than 20 percent of the members may be employees of a state agency. All appointed members will be voting members.

Summary of Activities include: The council meets regularly to discuss policy and provide recommendations related to the use and management of geographic information resources in Minnesota. For specific activities, see the council's website:

www.mngeo.state.mn.us/councils/statewide/index.html.

Meetings are held at: St. Paul.
