2014 BUSINESS ASSISTANCE REPORT

Introduction

The business subsidy law, Minnesota Statutes §116J.993 through §116J.995, provides a mechanism for taxpayers to learn about state and local funds used for business subsidies and financial assistance. The law applies to state and local government agencies with the authority to provide business subsidies including Job Opportunity Building Zone (JOBZ) and financial assistance. Grantors are required to submit a Minnesota Business Assistance Form (MBAF) to the Minnesota Department of Employment and Economic Development (DEED) for each agreement signed since July 1, 1995 for two years after the benefit date or until all goals are met, whichever is later.

Under the law, local government agencies in communities with a population of more than 2,500 and state agencies with authority to grant subsidies must submit a report to DEED, regardless of whether they have awarded business subsidies. Local government agencies in communities with a population of 2,500 or less are exempt from filing the MBAF unless they have awarded a subsidy in the past five years. Of the 652 state and local government agencies that were required to file in 2014 either because of population size, previous business subsidy activity or current activity in 2013, 282 agencies (43.3 percent) submitted a MBAF and 370 agencies (56.7 percent) did not submit a form (see Appendix A). DEED is required to complete a report that summarizes submitted MBAFs every even-numbered year.

Forms summarized in this report are primarily reported by local government agencies and are primarily local aid. Examples of local aid include loans, grants, tax abatements and tax increment financing. Some, but not all, state subsidies are captured in this report but are only reflected if the local entity receiving the subsidy submits their report. Minnesota Investment Fund loans provided by DEED and reported by local government agencies are also summarized in the report.

State government agencies are also required to report if they have the authority to award business subsidies. Eligible business assistance loans and grants reported from the Minnesota Department of Agriculture, Minnesota Agricultural and Economic Development Board, Iron Range Resources and Rehabilitation Board, and Minnesota Rural Finance Authority are summarized in this report. The Minnesota Job Creation Fund and the Greater Minnesota Job Expansion Program are new programs and will be reported in the next business assistance reporting cycle. Public facilities funding programs, flood recovery funding programs, housing financing, federal loan funds and angel tax credits are not subject to business subsidy reporting. DEED monitors and reports on all agency run programs, and the annual program summaries can be found at DEED's website located at <http://mn.gov/deed/about/what-we-do/agency-results/program-summaries/index.jsp>.

Data Collection

Reports can be filed to DEED by mailing a hard copy or using the online application launched in 2004. Because reporting requirements changed in 1999, for business assistance agreements entered into by agencies between July 1, 1995 and July 31, 1999, agencies use the 1999 MBAF to fulfill reporting requirements. For agreements entered between August 1, 1999 and December 31, 2013, agencies use the standard MBAF form. A separate form is now required for financial assistance of \$25,000 and greater that is excluded from the definition of “business subsidy” by Minnesota Statutes §116J.993, subdivision 3, clause (1), and of business loans and loan guarantees from \$75,000 and \$150,000 for agreements signed on or after January 1, 2008. For agreements prior to that period agencies use the standard MBAF form.

A separate JOBZ MBAF reporting form was developed to address recommendations in the 2008 JOBZ Program Evaluation Report from the Office of the Legislative Auditor. Two reports summarizing JOBZ MBAF activity in CY 2012 and CY 2013 will be available by December 1, 2014.

Forms summarized in this report cover non-JOBZ business assistance agreements reached between July 1, 1995 and December 31, 2013 and financial assistance agreements reached between July 1, 1995 and December 31, 2007 that were submitted to DEED by June 1, 2014. These forms and forms submitted by government agencies after June 1, 2014 are available on DEED’s website. The report includes all forms received by September 30, 2014.

Overview

Because the statute requires DEED to track each individual project awarded, grantors are required to submit information annually for each project for two years or until each project achieves its goals, whichever is later. Grantors (local and state government agencies) are responsible for reporting and updating their business and financial assistance projects as required by the business subsidy law. DEED also sends postcards annually to grantors to remind them to report on eligible business and financial assistance and previously reported assistance until all goals and obligations are met.¹ In 2013, DEED sent out letters to each grantor to report on any outstanding business and financial assistance projects between July 1, 1995 and December 31, 2013. DEED received updates on 170 projects and revealing that goals were met for more than 95 of them. DEED will continue to send out letters during non-reporting years for any past due projects.

This report summarizes business subsidy agreements signed in 2013. Agreements signed in previous years are updated and summarized in Appendices (B-Q).

Business assistance activity has varied significantly from year to year as reported by state and local government agencies. Non-JOBZ activity peaked in 2000 with 196 agreements, falling to 20 agreements in 2013.

¹For recipients that have not yet met all their obligations stipulated in their business and financial assistance agreements, there are several reasons why this may occur. First, the recipient may have more time to meet its goals and obligations stipulated in their agreement. Recipients or businesses have two years from the benefit date to meet specific wage and job goals and in some cases local government agencies may have a five year requirement to remain on the premises where the subsidy is provided. Also in the case of TIF or tax abatement, like JOBZ projects, recipients are required to report for the duration of the TIF or tax abatement which may be as long as 10 to 12 years from the benefit date. Second, some projects may not have been updated for several years due to staffing changes at local government agencies. Reporting on these projects may be delayed even after receiving a notice from DEED.

Overview of Non-JOBZ Findings

The total value of business assistance agreements has also varied significantly from year to year, from a total value of \$611.2 million for 2000 activity to \$13.9 million for 2008 activity (see Table 1).

July 1, 1995 – July 31, 1999

Government agencies reported in 2000 through 2014 that there were 393 eligible business assistance agreements. Of the 393 business assistance agreements reached between July 1, 1995 and July 31, 1999, agencies reported that 368 recipients (93.6 percent) had achieved all stipulated goals and obligations compared to 25 recipients (6.4 percent) that have yet to achieve all goals and obligations. The total value of those 368 agreements that met all goals was \$161.0 million (92.4 percent) compared to \$13.3 million (7.6 percent) that had yet to achieve all goals and obligations. Business assistance provided totaled \$174.3 million (see Appendix Q).

Public Hearing and Adopted Criteria

According to M.S. §116J.994 business subsidies may not be granted until the grantor has held a public hearing and adopted criteria for awarding business subsidies. Grantors are also required to submit a copy of their adopted criteria policies to DEED if they award business subsidies.

There were 554 agencies required to hold a public hearing in or prior to 2014 in accordance with the statute because of population or previous activity (see Appendix R). The distribution of agencies that reported holding a public hearing is as follows:

- 439 agencies or 79.2 percent reported holding a public hearing in compliance with the statute; and,
- 115 agencies or 20.8 percent did not report holding a public hearing on the MBAF.

Of the 554 agencies that were required to submit criteria to DEED, the distribution of the criteria submitted by agencies is as follows:

- 433 agencies or 78.2 percent submitted criteria; and,
- 121 agencies or 21.8 percent did not submit criteria.

Recipients that Failed to Fulfill All Goals and Obligations through 2012

Under the law, DEED is required to report the number of business assistance agreements for grantors that did not meet their goals for two years after the benefit date or until the goals are met, whichever is later. As of 2014, there were 13 business assistance agreements reported by government agencies between August 1, 1999 and December 2013 in which recipients had failed to fulfill all goals and obligations in the business assistance agreement. The total value of assistance awarded was \$5.0 million and the outstanding value of assistance that was subject to repayment was \$1.0 million (see Appendix S). For the same period, there were 58 business assistance agreements that were terminated by government agencies. The total value of assistance awarded was \$45.0 million and the outstanding value of assistance that was subject to repayment was \$5.8 million (see Appendix T).

Public Purpose for Assistance Agreements

Minnesota Statutes §116J.994 requires that business and financial assistance agreements state a public purpose. Of the 20 business assistance agreements entered into in 2013, there were 48 public purposes identified in these agreements because several agencies reported more than one public purpose for each project. Increasing the tax base, 15 agreements (31.3 percent) and creating high quality job growth, 13 agreements (27.1 percent) accounted for the largest share of public purpose reported by government agencies. Other types of public purpose included enhancing economic diversity and job retentions, six agreements (12.5 percent) each; and job retention and other, 4 agreements (8.3 percent) each.

2013 Activity Findings

Forms summarized in this section of the report encompass business and financial assistance agreements reached between January 1, 2013 and December 31, 2013. Under the business subsidy law, agencies are required to submit a MBAF form for two years after the benefit date or until goals are met, whichever is later.

Type and Value of Assistance Provided

Of the \$14.4 million in subsidies awarded by state, county and local government agencies, amounts ranged from \$64,000 for a grant to a \$1.5 million Tax Increment Financing (TIF). The median value was \$535,304 for agreements awarded.

Grants and TIF were the most common types of subsidies provided. Of the 20 business subsidies reported by government agencies, there were 28 types of business subsidies reported because several agencies reported more than one type of assistance for each project. As Table 5 illustrates, of the 28 types of business subsidies reported by government agencies, grants were involved in seven (25.0 percent) agreements and TIF was involved in seven agreements (25.0 percent).

TIF accounted for the most assistance provided \$5.2 million (36.3 percent), followed by grants, \$3.2 million (22.5 percent).

Goals and Actual Performance

Grantors are required to identify the types of goals that recipients receiving business assistance were expected to achieve. Grantors are also required to indicate the progress made toward these goals.

Under the law, if the assistance agreement includes specific wage and job goals than those goals must be attained within two years of the benefit date. Assistance agreements can also include other goals. Of the 20 eligible business assistance agreements entered into by agencies between January 1, 2013 and December 31, 2013, 17 agreements (85.0 percent) established specific job and wage goals.

Of the 17 business assistance agreements that were reported by agencies that established specific wage goals, four agreements (23.5 percent) have attained specific job and wage goals; and 13 agreements (76.5 percent) reported that the recipient had not attained specific job and wage goals. Agencies reported that recipients had more time to meet their goals.

There were nine business assistance agreements that were reported by agencies that established other job creation and/or retention goals. Three agreements (33.3 percent) had attained their goals and six agreements (66.7 percent) had not attained their goals. Agencies reported that recipients had more time to meet their goals.

There were five business assistance agreements that were reported by agencies that established goals other than wage and job goals. Of the five agreements reported by agencies that established goals other than wage and job goals, two agreements (40.0 percent) had attained their goals and three agreements (60.0 percent) had not attained their goals. Agencies reported that recipients had more time to meet their goals.

Actual Performance

Of the 20 business assistance agreements reached between January 1, 2013 and December 31, 2013, agencies reported that five recipients (25.0 percent) had achieved all stipulated goals and obligations, compared to 15 recipients (75.0 percent) that have yet to achieve all goals and obligations. Agencies reported that recipients had more time to meet their goals and obligations. The total value of the five agreements that met all goals was \$4.1 million (28.4 percent) compared to \$10.3 million (71.6 percent) that had yet to achieve all goals and obligations. The total value of business assistance provided was \$14.4 million.

Full-time Job Creation and Wages

The business assistance agreement must include goals for the number of jobs created, which may include separate goals for wages and the number of full-time or part-time jobs created.

Of the 20 eligible business assistance agreements, agencies reported a full-time job creation goal of 646 jobs with an average hourly health and non-health benefit ranging between \$3.46 and \$5.00 (see Table 6). Agencies reported 305 actual full-time jobs created and that recipients had more time to meet their job creation and wage goals. The distribution of full-time job creation and wage goals and actual performance can be seen in Table 6.
