Purpose of the Demographic Report

This report is intended as a quick reference for persons seeking demographic information regarding the Minnesota State Colleges and Universities workforce. It includes employee data from all 32 colleges and universities as of the spring of 2010.

The demographic report has been a work-in-progress and has changed with each release because of refinements in data collection and analysis as well as in response to new issues raised by the readers.

The FTE data is for the period 7/1 through 6/30 of each fiscal year. The headcount data is as of March 1st of each year. Unless otherwise indicated, the headcount data is a duplicated headcount, meaning that employees with concurrent appointments in more than one bargaining unit, or with more than one college or university will be counted more than once.

Included in this report is information that breaks down the number of employees by bargaining units and by type of institution or other variables applicable to the employee group.

This report also addresses issues affecting Human Resources management in the System, including:

- Growth in System employment over the past 5 years
- Aging of the System workforce and what it means for the System
- Layoffs and proportional employment
- Resignations and other separations
- Gender, Racial and Ethnic makeup of the faculty and staff

Comments and suggestions regarding this report are welcome and should be addressed to Linda Skallman, Office of the Chancellor, Human Resources Division at linda.skallman@so.mnscu.edu.

Measures of Employment

Duplicated Headcount – Each employee is counted once for each bargaining unit, college and university they are associated with as of the effective date of the data. For example, a classified staff member who also teaches one course at the same college would be counted twice in a breakdown of Headcount by Bargaining Unit, but only once in a breakdown of Headcount by Institution.

Unduplicated Headcount – Each employee is counted only once. Unduplicated headcounts are possible when each employee has only one value for the variables under analysis. For example, it is possible to determine an unduplicated headcount for the variable of Gender because each employee’s record contains only one of three values (female, male, no data). It is not possible to break down an unduplicated headcount by a variable when it is possible for one employee to have two or more values for that variable, e.g. when employees have concurrent appointments in two or more bargaining units, or with two or more colleges or universities within the System.

Full Time Equivalent – A measure of the percentage of a normal work year that the employee worked or was on paid leave. For hourly employees, FTE is based on the number of hours worked (including overtime) or on paid leave, divided by 2,088 hours. For salaried non-faculty employees, the FTE is the number of days paid, divided by the number of contractually agreed-to duty days in the academic year. Faculty may be paid for more than 1.0 FTE during the course of a fiscal year. Unlike either of the Headcount measures, any unit of FTE can only be counted once, whether the analysis is done by job class, bargaining unit, college/university, or any other unit of analysis.

Comparison of Duplicated and Unduplicated Headcounts versus FTE

March 1 of FY	Duplicated Headcount	Unduplicated Headcount	FTE for FY
2006	18,162	17,455	14,521
2007	19,486	17,780	14,950
2008	19,734	17,991	15,276
2009	19,346	18,300	15,600
2010	19,521	18,516	15,671

Employee Bargaining Units and Employee Groups

The State executive branch and Minnesota State Colleges and Universities are covered by the provisions of Minnesota Statute Chapter 179A, the Minnesota Public Employment Labor Relations Act (PELRA). This statute defines sixteen (16) bargaining units for executive branch employees. Each of these units is represented by a union certified as the exclusive representative for that unit. Minnesota State Colleges and Universities has employees in twelve (12) of those bargaining units.

There are also certain groups of employees excluded from bargaining unit coverage under Minnesota Statute Chapter 179A. They are managerial employees, confidential employees, those who do not work enough hours (less than 14 hours per week or less than 67 days per calendar year) to be included in their normal bargaining unit, pharmacists and dentists. These include:

- Health Treatment Professionals who are unrepresented
- Confidential Employees excluded from bargaining units
- Insufficient Work Time Employees (Non-bargaining unit employees)
- Classified Managers covered by the State's Managerial Plan
- Administrators covered by the Personnel Plan for Administrators

Employees by bargaining unit or employee group
(Duplicated Headcount as of March 1, 2010)

Instructional Faculty

Bargaining Unit Represented by Inter Faculty Organization (IFO)

IFO represents instructional faculty, counselors, coaches and librarians at the state universities.

Figure 1	State Universities				
	Tenured/ Tenure Track	Non-Tenure Track	Fixed Term	Adjunct	Totals
Professor	929	4	2		935

Adjunct Faculty				1,203	1,203
Totals	2,067	23	429	1,203	3,722

Bargaining Unit Represented by Minnesota State College Faculty (MSCF)

MSCF represents instructional faculty, counselors, and librarians at the community colleges, technical colleges and consolidated colleges. Customized Training Faculty teach hourly based instruction not offered for or directly transferable to college credit or college credit courses offered under contract to a specific customer.

Figure 2	Community Colleges	Community & Technical Colleges	Technical Colleges	Totals
Unlimited Full-time	647	1,798	383	2,828
Unlimited Part-time	8	86	34	128

Totals	1,363	3,517	790	5,670

Administrators and University Administrative Faculty

Bargaining Unit Represented by Minnesota State University Association of Administrative & Service Faculty (MSUAASF)

MSUAASF represents state university unclassified professional positions in academic and academic support programs at the state universities, including financial aid directors, registrars, development and alumni directors, student union and housing coordinators.

Figure 3	State Universities				
	Permanent	Probationary	Fixed Term	Externally Funded	Totals

Range A	1			1	2
Totals	349	235	76	87	747

**Includes 4 physicians in the Student Health Services area.*

Administrators

Employees Covered by the Personnel Plan for Administrators

The positions in the Personnel Plan for Administrators are unclassified positions that are defined as managerial by Minnesota Statute Chapter 43A. The positions are presidents, chief academic officers, chief financial officers, chief student affairs officers, academic deans and other managers in academic and academic support programs.

Figure 4	State Colleges	State Universities	Office of the Chancellor	Totals
Executive (Chancellor, Presidents & Vice Chancellors)	25	7	5	37
Other Administrators	322	159	61	542
Totals	347	166	66	579

Staff

Bargaining Units Represented by American Federation of State, County, and Municipal Employees (AFSCME)

Positions covered by the AFSCME collective bargaining agreement include: general maintenance workers, groundskeepers, food service workers, campus security officers, clerical workers, plumbers, carpenters, account clerks, and licensed practical nurses.

AFSCME Units (Figure 5)	State Colleges	State Universities	Office of the Chancellor	Totals

Totals	2,246	1,475	47	3,768

Bargaining Unit Represented by Minnesota Nurses Association (MNA)

MNA represents positions that are typically assigned to classifications in the Registered Nurse series.

Figure 6	State Colleges	State Universities	Office of the Chancellor	Totals
Classified MNA	4	14	0	18
Totals	4	14	0	18

Bargaining Unit Represented by Minnesota Government Engineers Council (MGEC)

MGEC represents professional engineers and engineering specialists.

Figure 7	State Colleges	State Universities	Office of the Chancellor	Totals
Classified	0	8	0	8
Totals	0	8	0	8

Bargaining Unit Represented by Minnesota Association of Professional Employees

MAPE represents both classified and academic unclassified positions. The classified positions represented by MAPE include general professional positions such as computer-related professionals and accounting professionals. The academic unclassified professional positions represented by MAPE are generally in academic and academic support programs in the state colleges, such as financial aid specialists, minority student advocates, equity coordinators, student activity coordinators, and customized training representatives.

Unclassified Academic Supervisors	173		2	175
Totals	334	123	17	474

Employees Covered by the Commissioner's and Managerial Plans

Confidential employees are governed by the Commissioner's Plan. These are employees who: (1) have access to labor relations information as that term is defined in section 13.37, subdivision 1, paragraph (c); or (2) actively participate in the meeting and negotiating on behalf of the public employer. This group also includes classified pharmacists and dentists who are covered by the Medical Addendum to the Commissioner's Plan. In Unit 220, there are some classified managerial employees covered by the managerial plan promulgated by MMB.

Commissioner's Plan and Managerial Plan (Figure 10)	State Colleges	State Universities	Office of the Chancellor	Totals

Managerial Plan	13	14	13	40
Totals	135	80	48	263

Non-Bargaining Unit Employees

All classified and unclassified staff positions in this unit are part-time and do not work enough hours (less than 14 hours per week or less than 67 days per calendar year) to be covered by their normal bargaining unit agreement.

All faculty members in this unit are defined in Minnesota Statute Chapter 179A as: an individual employed as an instructor in an adult vocational education program for less than 300 hours in a fiscal year or hired by a state college or state university to teach one course for three or fewer credits for one semester in a year.

Figure 11	State Colleges	State Universities	Office of the Chancellor	Totals

Non-bargaining staff	298	21	0	319
Totals	1,983	469	0	2,452

Growth in System employment over the past 5 years

Comparison of Percentage Change in Student Enrollment and Total System Employment (FTE) FY05 to FY10

(Figure 12)

Over the past five years, System employment has increased by 10.6 percent while enrollment increased by 14.8 percent. The data indicates that during the period from 2009 to 2010 employment flattened out as enrollment went through a growth spurt. This may be an indication of two opposing results of an economic downturn. Enrollment surges when the state's general workforce returns to the colleges and universities to gain new skills, while System employment remains stable or declines due to restricted budgets.

Percentage Change in FTE Employment by Employee Role FY05 to FY10

(Figure 13)

Increases in System employment have not been the same across all employee groups. Over the ten year period, the percentage increases in Supervisory employees has outpaced the rate of growth in enrollment as well as the increases in employment of Staff, Instructional Faculty and Administrators/Managers. In the 2009-2010 period employment of Staff and Administrators/Managers has leveled off or declined, while employment of Faculty and Supervisors has continued to increase, and enrollment has surged again.

Cumulative Change in FTE Employment by Bargaining Unit or Employee Group
FY05 to FY10

(Figure 14)

Bargaining Unit or Employee Group	2006	2007	2008	2009	2010

Grand Total	355.19	783.70	1,110.32	1,494.01	1,505.00

In terms of Full Time Equivalents, most of the growth in System employment has been in the 2 Instructional Faculty units and the General Professional and University Administrative Faculty units. These 4 units account for 82 percent of the growth in employment from FY 2005 through FY2010.

Growth in the general professional unit has been primarily in the Information Technology Specialist classification series across all Sectors of the System and in the Academic Professional classification series in the colleges.

Growth in the University Administrative Faculty unit mirrors growth in Academic Professional class series, as many of the positions in this unit perform duties parallel to the work performed by Academic Professionals.

Total Increase in FTE is these classifications		1,371.88

Most of the growth in FTE employment over the past five years has been in Job Classes involved in the core business of the System. Significant growth occurred in the Instructional Faculty, as well as the Academic Professional and Supervisor class series, the College Laboratory Assistant 2 class and in the University Administrative Faculty unit. The positions in these classifications provide instruction and academic support to the students. Additional growth occurred in the Information Technology Specialist class series. The growth in the ITS series was spread across the colleges, universities and the System Office. Employees in the other classifications on this list above also provide direct or indirect services to students, by working in bookstores, and in the offices providing registration, financial aid, advising and other student support services.

Growth in FTE Employment by Funding Source
FY05 to FY10

(Figure 16)

Funding Source	Colleges	System Office	Universities	Total
DNR Special Grant	0.00	0.00	0.02	0.02
Federal Grants	44.82	9.78	70.08	124.68
General Fund	859.01	66.50	349.69	1275.20
Local Special Revenue	15.77	1.56	58.35	75.68
Misc. Funds	0.98	0.00	4.08	5.06
Private Grants	6.15	-0.19	4.71	10.67
Revenue Fund Res Hall	0.00	0.00	-0.12	-0.12
State Operating Grants	8.42	0.00	5.39	13.81
Grand Total	935.15	77.65	492.2	1505.00

The vast majority of employment growth was supported by the General Fund appropriation from the Legislature.

Distribution of FTE Employment by Employee Role and System Sector
FY05 – FY10

Staff Total	38.03%	38.19%	38.40%	38.62%	39.18%	38.90%
Supervisors						
Colleges	2.00%	2.01%	2.05%	2.10%	2.11%	2.15%
System Office	0.12%	0.12%	0.11%	0.12%	0.12%	0.13%
Universities	0.80%	0.81%	0.77%	0.78%	0.83%	0.82%
Supervisors Total	2.93%	2.93%	2.93%	3.01%	3.05%	3.09%
Grand Total	100.00%	100.00%	100.00%	100.00%	100.00%	100.00%

Each cell in the table above indicates the percentage of total System FTE assigned to each combination of Employee Role and Sector for each fiscal year. For example, the use of Supervisors in the System Office has remained fairly constant at 0.11 to 0.13 percent of total System FTE, while the use of Supervisors in the college sector has increased from 2.00 to 2.15 percent of total System FTE. Faculty FTE across the System has declined from 55.25 percent in FY 2005 to 54.14 percent of total System FTE in FY 2010.

Aging of the System Workforce

Cornell University studied available demographic data on System employees, including gender, age, length of service, job category, type of retirement plan, etc. and found that the sole statistically significant predictor of retirement age that is available in our HRIS is the employee’s age. Over the past ten years, the average retirement age for employees across all employee groups has been slightly above age 63.

Over 70 percent of the employees who retire from the System retire at or after age 60. System-wide, over 15 percent of the Unlimited and Seasonal workforce is age 60 or above. The Administrator/Manager group and the IFO – University Faculty group have the highest of percentage of age 60 + employees, between 23 and 24 percent.

Percentage of Unlimited and Seasonal Employees at or Above Age 60
By Major Employee Group

(Figure 19)

Employee Group	60 and over
Administrators and Managers	23.90%
AFSCME - Clerical & Office	13.76%
AFSCME - Craft, Maint. & Labor	15.13%
AFSCME - Service	15.21%
AFSCME - Technical	15.84%
IFO - University Faculty	23.34%
MAPE - General Prof.	7.34%
MMA - Supervisory	11.04%
MSCF - College Faculty	16.86%
MSUAASF - Univ. Admin.	9.17%
Unrep - Confidential	8.21%
Total	15.48%

The System’s workforce is not unique in this respect. Other employers, public and private, will be competing for employees with the education and experience the System requires in order to fulfill its mission.

The System will need to identify key job categories that are going to be affected by pending retirements and engage in workforce planning, succession planning and workforce development to close any gaps between projected needs and projected availability of qualified candidates.

Layoffs and Proportional Employment

Recent budgetary driven layoffs have renewed the focus of some employee representatives on Minnesota Statute 43A.046, which addresses staff reductions. This statute reads:

“In order to maximize delivery of services to the public, if layoffs of state employees are necessary, each agency with more than 50 full-time equivalent employees must reduce at least the same percentage of management and supervisory personnel as line and support personnel.”

This law was enacted in response to state employee unions testifying that managers and supervisors were seldom, if ever, laid off while line and the support staff bears the brunt of budget cuts. There are several nuances to the statutory language that need explanation. First, layoffs occur every year, and are not always related to budget problems. Therefore, the notion that the statute only merits attention during budget problems is false.

Permanent Layoffs by Employee Unit and Fiscal Year
FY01 through FY10
(Figure 20)

Barg Unit or Employee Group	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010
AFSCME - Craft, Maint. & Labor		1		2		1		1		1
AFSCME - Service	1	4	2	4	8	4		1	4	6
AFSCME - Health Care Non-Prof.										1
MNA - Health Care Prof.	2						1			
AFSCME - Clerical & Office	2	5	6	12	7	4	2	4	12	7
AFSCME - Technical	12	7	8	4	3	3	4	8	11	5
IFO - University Faculty						1				
MSCF - College Faculty	37	25	22	27	38	14	16	5	14	14
MSUAASF - Univ. Admin & Serv.		1					1	2	1	1
MAPE - General Professional	7	13	15	12	15	10	11	3	8	8
MMA - Supervisors		3	2		2	3	1	3	3	4
Unrep. - Confidential		3	2	1						
Unrep. - Classified Managers	1			1						
System Totals	62	62	57	63	73	40	36	27	53	47

Second, most line and support personnel attain permanent status and the associated seniority-based layoff rights, while many managerial employees are ‘at will’ employees, without layoff rights. This distinction most likely resulted in the use of the word ‘reduce’ later in the sentence. Theoretically, the ‘reductions’ in employment can take the form of holding positions vacant after resignations or retirements. It is very time-consuming and difficult to document compliance with the statute by documenting ‘reductions’ of every type. Therefore, the System Office has adopted a practice of monitoring the levels of employment in the managerial/supervisory classifications versus staff and faculty classifications. The following table indicates that managerial and supervisory employment has remained a fairly constant percentage of total system employment over the past ten years, totaling 6.86 % of the total in 2001 and 6.96% in 2010.

(Figure 21)

	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010
Admin./Mgr./Supv.	6.86%	6.88%	6.67%	6.67%	6.72%	6.72%	6.73%	6.82%	6.93%	6.96%
Faculty/Staff	93.14%	93.12%	93.33%	93.33%	93.28%	93.28%	93.27%	93.18%	93.07%	93.04%
Grand Total	100.00%	100.00%	100.00%	100.00%	100.00%	100.00%	100.00%	100.00%	100.00%	100.00%

Resignations and Other Separations in FY 2010

(Figure 22)

In Fiscal Year 2010, 75 percent of employees who resigned from employment with the System (excluding transfers to other state agencies) left after 5 or fewer years of service. A similar analysis of all the Executive Branch, conducted by Minnesota Management and Budget, yielded similar results. This data confirms the new reality that most new members of the labor force will work for multiple employers over the course of their careers. Relatively frequent turnover does present a challenge to the employer if a significant amount of time and effort is spent training and developing workers.

A review of the FY2010 resignation data for employees with 5 or fewer years of service shows ten or more resignations in the following job classes.

(Figure 23)

Class Title	FY10 Quits
State University Faculty	40
Community College Faculty	24
MSUAASF Range B	16
College Laboratory Assistant 1	13
MnSCU Academic Professional 1	13
Technical College Faculty	12
General Maintenance Worker	11
MSUAASF Range C	10
Group Total	139

The resignation rates (number of quits divided by number of positions in the class) vary from class to class on this list, of course. Looking at the raw number of quits does give us clues as to where the System is spending time and money advertising, recruiting,

screening candidates and processing appointments for new employees. Most of the job classes on this list also appeared on the list of job classes with significant growth in the past ten years, with the single exception being the College Laboratory Assistant 1. The System should determine whether making an effort to reduce voluntary quits in these classifications would be more cost effective than the recruiting and development costs associated with new hires.

Fiscal Year 2010 Separation Analysis

(Figure 24)

Separations by Type, Gender and Race/Ethnic Group	Death		Dismissal		Layoff		Non-Renewal/Non-Cert		Resignation		Retirement		Termination		Transfer		Grand Total
	Female	Male	Female	Male	Female	Male	Female	Male	Female	Male	Female	Male	Female	Male	Female	Male
