Dear Members of the Minnesota Legislature:

As required by Minn. Stat. Sec. 16A.501(b), which was enacted in Laws 2010, ch. 189, sec. 28, I am pleased to present our report on the amount and percentage of each agency's capital appropriation that is used to pay for the costs of staff directly attributable to capital programs or projects funded with state general obligation bond proceeds and agency compliance with policies of the Commissioner of Minnesota Management and Budget as to use of general obligation bond proceeds to pay staff costs.

January 15, 2015

**Agencies' Use of Capital Appropriations
for Staff Costs Attributable to
Capital Programs or Projects**

Report to the Legislature

January 15, 2015

*As required by
Minn. Stat. Sec. 16A.501(b)*

ESTIMATED COSTS OF PREPARING THIS REPORT

The cost information reported below is the estimated cost of preparing this report document. Special funding was not appropriated for the costs of preparing this report.

In accordance with Minn. Stat. Sec. 3.197, the estimated cost incurred by Minnesota Management & Budget in preparing this report is less than \$1,000.

BACKGROUND

During 2009, MMB decided to formalize a policy regarding agencies' use of general obligation bond appropriations to pay for staff costs incurred in delivering a capital project or program. It decided to do so after discovering that some agencies were charging staff costs without specific legislative authorization to do so and were doing so in an inconsistent manner. Some agencies were charging staff costs based on a flat percentage of project costs and others were tracking actual employee hours spent.

On October 20, 2009, MMB issued its "Policy Regarding Use of General Obligation Bond Proceeds to Fund Staff Costs", a copy of which is attached as **Exhibit B** to this report. In that policy, MMB stated that its policy would apply to bonding appropriations authorized in the 2010 legislative session and to earlier bonding appropriations that contained specific statutory authority to use G.O. bond proceeds to pay costs of staff directly involved in delivering a capital project or program.

MMB's goal in implementing the new policy was to establish uniformity across agencies in the procedures used by agencies to charge staff costs to bonding appropriations and to establish MMB oversight of the process. The policy requires each agency desiring to charge staff costs to bonding appropriations to submit a plan to MMB for its approval. The plan must indicate how the agency intends to track staff costs charged to each bonding appropriation, and such tracking must be by employee, by project or program and by hour spent. Each agency must report staff costs charged to bonding appropriations to its MMB executive budget officer on a quarterly basis and certify that such time is properly capitalizable as a cost of the project or program in accordance with applicable accounting principles.

The 2010 bonding bill (Laws 2010, ch. 189), 2011 bonding bill (Laws 2011, First Special Session, ch. 12), 2012 bonding bill (Laws 2012, ch. 293), 2012 special session flood and windstorm disaster relief bill (Laws 2012, First Special Session, ch. 1), 2013 bonding bill (Laws 2013, ch. 136) and 2014 bonding bill (Laws 2014, ch. 294) specifically authorized agencies to use capital appropriations to pay staff costs directly attributable to the capital program or project in accordance with accounting policies adopted by the Commissioner of MMB. The 2010 bonding bill (Laws 2010, ch. 189) imposed a new reporting requirement for MMB as discussed below.

THE REPORTING REQUIREMENT

Section 28 of the 2010 bonding bill (codified as Minn. Stat. Sec. 16A.501(b)) requires MMB to report to the Legislature by January 15 of each year as to the amount and percentage of each agency's capital appropriation that is used to pay for the costs of staff directly attributable to capital programs or projects funded with state general obligation bond proceeds. The report must also address agency compliance with policies of the Commissioner of MMB as to use of general obligation bond proceeds to pay staff costs and any changes to the Commissioner's policies.

AGENCY REPORTING AND COMPLIANCE

The following 13 agencies have submitted plans to MMB to charge staff costs to one or more bonding appropriations and such plans were approved by MMB: Administration, Board of Water and Soil Resources, Department of Natural Resources, Minnesota Historical Society, Metropolitan Council, Pollution Control Agency, Department of Transportation, University of Minnesota, Minnesota State Colleges and Universities, the Minnesota Zoo, Department of Human Services, Department of Education and the Department of Employment and Economic Development.

To date, the following nine agencies have submitted one or more quarterly reports of staff costs charged to bonding appropriations: Administration, Department of Natural Resources, Minnesota Historical Society, Pollution Control Agency, Department of Transportation, University of Minnesota, Minnesota State Colleges and Universities, the Minnesota Zoo and the Department of Employment and Economic Development. The data that appears on the spreadsheet attached as **Exhibit A** to this report includes amounts spent on staff costs for the current reporting period.

The following three agencies indicated that they did not intend to charge staff costs to bonding appropriations and thus did not submit a plan for charging staff costs to MMB: Department of Corrections, Military Affairs and Department of Public Safety. For the Departments of Corrections and Public Safety, their capital appropriations for construction projects for state-owned assets are administered by the Department of Administration and thus they may not have submitted plans for that reason.

The following agencies, who have received capital appropriations since 2010, neither submitted a plan to MMB nor did they indicate that they did not intend to charge staff costs to bonding appropriations: Amateur Sports, Minnesota State Academies, Perpich Center for Arts Education, Public Facilities Authority and Veterans Affairs. In the case of the State Academies, Perpich Center and Veterans Affairs, their capital appropriations for construction projects for state-owned assets are administered by the Department of Administration and thus they may not have submitted plans for that reason.

With respect to MMB's assessment of the degree of agency compliance with the Commissioner of MMB's policy regarding staff costs, we believe that the agencies are attentive to and endeavor to comply with MMB's policy. Our policy does not require agencies to inform MMB if they do not intend to charge staff costs to capital appropriations, and thus no conclusion as to compliance can be drawn for the agencies who did not submit plans, unless they specifically stated they did not intend to charge staff costs as discussed above. Similarly, the four agencies who submitted plans but have not submitted quarterly reports may have decided not to charge staff costs to bonding appropriations.

Minn. Stat. Sec. 16A.501(b) requires MMB to discuss any changes to its policies regarding the charging of staff costs to bonding appropriations. MMB has not changed the policy adopted on October 20, 2009 and discussed above. However, MMB did attach an

addendum to the policy in 2014 that provides some general direction to agencies on what is a capitalizable staff cost.

(1) Other funds were ultimately used by the agency for staff costs initially paid with bond dollars.												
(2) Appropriation is entirely for program implementation.												
(3) Staff costs reported in connection with this appropriation were for the following projects: St. Croix Crossing, Winona Bridge, TH 53, and Dresbach Bridge. Detailed records are on file at both MMB and MnDOT.												
(4) "Amount Previously Spent" was adjusted from the amount reported at end of 1Q FY14 due to a reporting error.												

**Policy Regarding Use of General Obligation Bond Proceeds to Fund Staff Costs
Minnesota Management and Budget**

October 20, 2009

Objective:

To account for the use of general obligation bond proceeds that agencies use to fund the capitalizable costs of staff directly involved in delivering a capital project. State agencies are strongly encouraged to charge the time of state employees working on capital projects to non-bond funding sources because of the undesirable practice of amortizing such salary costs over the 20 year life of state general obligation bonds.

Definitions:

Capitalizable costs of staff means the portion of the compensation of employees working directly on a capital project that is directly related to that capital project based on the compensation of each such employee (including employee benefits) and payroll taxes paid by the agency for such employee and the amount of time actually spent by such employee on the project that is properly capitalized as a cost of a project under generally accepted accounting principles and federal tax law. Agencies may use bond proceeds only for out-of-pocket capital costs and not for depreciation, amortization, overhead, general administration, or similar costs.

Capital project means the acquisition or betterment of public land and buildings and other public improvements, the costs of which are properly capitalized under generally accepted accounting principles.

Policy:

1. Agencies intending to use general obligation bond proceeds to fund the capitalizable costs of staff directly involved in delivering a capital project authorized in a bonding bill must notify Minnesota Management and Budget (MMB) of their intention prior to expending any bond appropriations for that purpose.
2. Staff time expended on capital projects are required to be tracked by each individual project in a form and manner acceptable to MMB. Agencies should submit a memorandum to their Executive Budget Officer (EBO) outlining their proposed process for tracking and reporting agency staff time directly expended on completing authorized capital projects for review and approval by MMB.

Criteria for Reporting Format:

Reporting of staff time spent on capital projects funded from general obligation bond proceeds must reflect the following criteria:

1. Time must be tracked by each project individually.
2. Each individual recording time must be identified.
3. Time must be tracked on a daily basis.

Policy Implementation:

Each agency must submit a report detailing the time expended on implementing capital projects to their respective EBO on a quarterly basis. Each agency must certify that such time is properly capitalizable as a cost of the appropriate project in accordance with applicable accounting principles. EBOs shall review the reports and notify the Capital Projects Coordinator if any issues are noted. The Capital Projects Coordinator will work with the agency in question to resolve any issues that are identified. If the agency and the Capital Projects Coordinator are unable to resolve any issues, the Assistant Commissioner will make a final determination, in consultation with bond counsel as needed, as to the resolution of any issues.

Upon completion of each capital project undertaken, the agency will provide written notification to its EBO and no further reimbursement for any capitalizable costs may be made.

Effective Date of Policy:

This policy will be effective with bonding appropriations authorized in the 2010 legislative session. Agencies that already have explicit statutory authority for prior bond authorizations to use general obligation bond proceeds to fund the costs of staff directly involved in delivering a capital project must still submit a plan to track those costs to MMB for its review and approval prior to using any general obligation bond funds for such purposes.

Jennifer Hassemer, Capital Bonding Coordinator, (651) 201-8079

Alisha Cowell, Capital Budget Coordinator, (651) 259-3782

Kristin Hanson, Assistant Commissioner, (651) 201-8030

ADDENDUM
Capitalizable Staff Costs – Guiding Principles

In response to questions MMB has received regarding what is a capitalizable staff cost under generally accepted accounting principles, the following table provides some general direction. If a specific scenario is not covered in these examples, consult with your agency’s capital asset coordinator. Please refer to the formal policy for all rules that apply to the use of general obligation bond proceeds for costs of staff directly working on a capital project.

ALLOWABLE STAFF COSTS	Examples
Staff time spent actively delivering a capital project	<ul style="list-style-type: none"> • Performing construction activities • Working as a project manager • Overseeing compliance with construction contract or other project-specific requirements
NON-ALLOWABLE STAFF COSTS	Examples
Staff time spent on pre-planning activities (before funding decisions are made or before project is sited)	<ul style="list-style-type: none"> • Site selection activities • Preparing grant applications and requests for proposals • Reviewing requests for funding
Staff time spent developing and monitoring the grant agreement and other post-construction activities	<ul style="list-style-type: none"> • Drafting grant agreements • Processing grant payments • Post-completion audits or monitoring
DEPENDS ON FACTS	Examples
Discuss situations not addressed above with agency capital asset coordinators to determine if a particular cost is properly capitalizable under GAAP, or with MMB	<ul style="list-style-type: none"> • Travel costs <ul style="list-style-type: none"> ○ Would the project not be acquired or constructed “but for” the travel? ○ Would the salary of the travelling person be an allowable “staff cost” under MMB’s policy? • Technical assistance and audits <ul style="list-style-type: none"> ○ Not allowable if ancillary to delivery of project
