#### AT A GLANCE

- 20,075 children served by the program in 2013
- 6,620 new cases filed in 2013
- Two year general fund budget of \$25,512,000
- 235 employees with a total FTE complement of 170.57 and 353 volunteers
- 100% coverage on mandated cases alleging a child is abused or neglected
- Guardian ad Litem program in each of the judicial districts

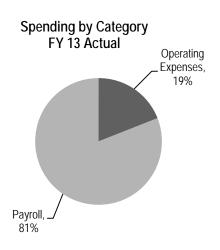

# PURPOSE

The State Guardian ad Litem Board contributes to the statewide outcome of **strong and stable families and communities by** giving abused and neglected children a voice to be heard throughout court proceedings

The guardian ad litem in each case works to ensure better outcomes for children are achieved.

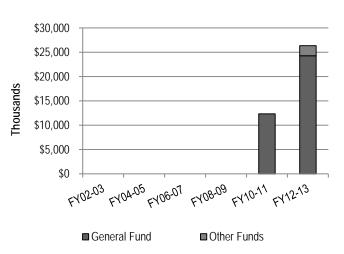

- Children are safe.
- Permanency planning begins on Day 1.
- Children spend the least amount of time under court jurisdiction.
- Children receive appropriate services including trauma informed care.
- Parents participate in services that reflect the best interests of the child.
- Physical and mental health, educational and cultural needs of children are met.
- Children are reunited with parents if it is in the best interests of the child.
- If reunification with parents is not in the best interest of the child, adoption is the preferred option.
- Children do not re-enter the child protection system.

#### **BUDGET**

Source: BPAS

# Historical Spending

Source: Consolidated Fund Statement

In 2010, the Legislature created the State Guardian ad Litem Board to move the State Guardian ad Litem Program out of the state court system and establish an independent guardian ad litem program. Historical spending begins with FY11. The State Guardian ad Litem Board has a general biennial budget of \$25,512,000 with payroll consisting of 81% and operating expenses 19%. The total budget is funded by general fund appropriations and fees received for certain court appointments to represent children.

#### **STRATEGIES**

In order to accomplish the mission, the Guardian ad Litem Board utilizes the following strategies:

- A guardian ad litem is appointed for every child alleged to be abused or neglected as required by law.
- The program accommodates as resources permit the unmet and critical need to assist the court with custody cases.
  - The guardian ad litem provides information to the court through investigation, report writing and testimony about the child's current situation and what has happened to the child.
  - The guardian ad litem makes recommendations to the court about what the child needs to be safe and what permanent plans are in the best interest of the child.
  - The guardian ad litem advocates for the child so the child obtains a safe, nurturing and permanent home as quickly as possible.
  - A guardian ad litem is given the necessary training and tools to perform their statutory duties.
  - A database is created to measure outcomes for children and program performance.
  - The guardian ad litem works as part of the Children's Justice Initiative Team.

#### **RESULTS**

| Type of Measure | Name of Measure<br>Children Reaching Permanency                               | Previous | Current | Dates      |
|-----------------|---|----------|---------|------------|
| Quantity        | Number of children returned home or reached permanency within 7-12 months     | 2,346    | 2,395   | 2012, 2013 |
| Results         | Percentage of children returned home or reached permanency within 7-12 months | 74%      | 72%     | 2012, 2013 |

#### Recommendation:

The Governor recommends \$1 million in FY 2016 and \$1 million in FY 2017 for the State Guardian ad Litem Board to eliminate a deficit which the program has experienced for the past three fiscal years. The request is a 7.8% increase to starting base budget.

### Rationale/Background:

The State Guardian ad Litem Board separated from the court system in July of 2010 and encountered several funding issues resulting in a deficit of approximately \$1 million for each of the past three fiscal years. Issues include the decision to move the Guardian ad Litem Program from an independent contractor model to an employee model resulting in costs paid to employees which previously were not paid to independent contractors; costs related to establishing an independent agency which have been absorbed with the agency budget and an annual cut of \$300,000 made to the program's base budget starting in FY12.

The change item is needed for the guardian ad litem program to continue providing the current level of service to children and maintain compliance with state and federal mandates. The program is federally mandated to cover abuse and neglect filings in juvenile court and by state law on abuse and neglect cases in family and juvenile courts. Additionally, the court has discretion as to whether to appoint a guardian ad litem in other dissolution/custody matters.

The annual budget for the Guardian ad Litem program is \$12,756,000 of which 70% goes to providing direct services to children and families. Indirect costs include administration, training, recruitment and attorney representation. At the current funding level, the program is able to provide appointments close to 100 % of mandated cases and serve over 20,000 children. In addition to the fiscal issues experienced by the program, the number of new cases coming into the program has increased each year since 2009 with an 8% increase from 2009-2013.

#### Proposal:

If the deficit is not funded, services to children need to be reduced by 8%. There are several considerations to be aware of in discussing which children no longer receive guardian ad litem services. Because of the Federal mandate for abused and neglected children in juvenile court, both congressional and legislative agreement would be required to remove this mandate. Additionally, the guardian ad litem is independent from the child welfare system and often may be the only person who is assigned to the child from the beginning of the case through permanency. Eliminating mandatory guardian ad litem appointments in dissolution/custody cases would be particularly troublesome in pro se cases where the parties are proceeding without legal counsel and would greatly complicate the work of the court.

As provided for in statute, a judge can order a permissive appointment in family court when the bench is in need of custody and/or parenting time recommendations. In those cases, when that happens, there are not typically other resources available to the judge as the parties are without resources to pay for services. The lack of a guardian ad litem in these cases will result in prolonged conflict in families where custody and visitation disputes place children in harm's way.

Another factor for consideration is the decrease in revenue in those cases where parties have the ability to pay and fees are assessed and collected. Due to increases in the last few years of mandated cases, the program has seen the number of permissive appointments decline and cases are put on a waiting list.

In making the cuts the board will consider the effect of not providing services on the safety and welfare of abused and neglected children including prolonged conflict in families where custody and visitation disputes remain unresolved, determine how the court process will be affected by not having a guardian ad litem, and estimate decreased revenue in those cases where fees are assessed and collected. In making the determination of which case types to eliminate, the board would seek input from the bench, juvenile and family law attorneys, social services and guardian ad litem program staff.

#### Results:

The number of children served by the program in the mandated juvenile case types increased each year from 2010 to 2013. Domestic abuse cases have remained fairly consistent with approximately 2000 children each year from 2010-2013.

The guardians ad litem advocate to ensure that children spend the least amount of time under court jurisdiction and permanency planning begins on Day 1. For calendar year 12, the percent of children who returned home or reached permanency within 7-12 months was 74%. The percent declined slightly to 72% in 2013.

#### Recommendation:

The Governor recommends \$1.197 million in FY 2016 and \$1.857 million in FY 2017 to fund employee compensation changes to address pay parity, to provide for 5% salary increases for each year of the biennium, and to pay for any unavoidable cost increases in employee insurance.

### Rationale/Background:

When the Judicial Council made the decision to move guardians ad litem from an independent contractor model to an employee model in 2010, a number of independent contractors, each with a number of years of service as a contractor guardian ad litem, were hired. Several districts brought employees in at a higher rate of pay based on years of experience. Due to budget concerns, most districts brought employees in at the beginning of the salary range.

This has created a wage disparity among the guardians ad litem with employees having the same level of guardian ad litem experience at different salaries. Additionally, due to budget constraints no merit or step increases have been given since 2009 to any employees. This has resulted in further disparity when you have a Guardian ad Litem who has a number of years of service making the same wage as a newly hired guardian ad litem.

Wage equalization and employee salary increases will assist the program with employee retention and reduce turnover which results in higher costs for recruitment and training of new employees. The turnover rate for guardians ad litem has been 9-11 % during the past few years. In addition to recruitment costs, training costs for new employees are extensive given the program training requirements.

#### Proposal:

This is a change to the existing program which, if funded, will help ensure internal equity among employees in the same job classification with similar years of experience. The pay equity issue is one that other state agencies have experienced when organizational changes have occurred.

The proposed change request will address pay parity and retention issues by placing experienced guardians ad litem on the appropriate step based on years of experience. By addressing the pay parity issue, the board has the ability to reduce the turnover rate and create a higher level of retention of trained and experienced guardians. Doing so supports the mission of the guardian ad litem program and the statewide outcome of strong and stable families and communities.

Losing trained and experienced guardians ad litem has an impact on the level of services and efficiencies that is expected by the Board. A trained and experienced guardian ad litem carries a certain caseload commensurate with their full time equivalent status. It takes time to get a newly hired guardian ad litem to that level and, therefore, impacts our ability to serve the children.

The proposal will allow the program to address the increasing caseload and ensure that assignment of a guardian ad litem is made as soon as possible and there are no waiting lists for guardian ad litem assignments. Effective implementation will be July 1, 2015 with employees being placed on the appropriate step based on years of service.

### Results:

Performance measures will include case filings, assignment of a guardian ad litem with 3 days of court appointment, and number and percentage of children reaching permanency.
