AT A GLANCE

- 2,839 new credentials issued
- 27,235 active credentials
- 881 new complaints received
- 900 complaints resolved
- 400 credentialed professionals monitored under disciplinary order
- The Board is made up of 11 physicians and 5 public members appointed by the Governor.
- 22 FTE staff

PURPOSE

The Board of Medical Practice established July 1, 1887, is mandated by M.S. 214 & M.S. 147.01 to protect the public from the unprofessional, improper, incompetent, and unlawful practice of medicine. Laws and regulations provide authority to grant and govern the subsequent use of credentials to practice medicine and six allied health professions: Acupuncturists, Athletic Trainers, Naturopaths, Physician Assistants, Respiratory Therapists and Traditional Midwives. The board carries out its mission by granting qualified applicants the privilege to practice in Minnesota and by investigating complaints relating to the competency or behavior of credentialed individuals.

The Board contributes to the statewide outcomes of:

- All Minnesotans have optimal health
- People in Minnesota are safe
- Efficient and accountable government services

Recommendation:

The Governor recommends additional funding for compensation related costs associated with the delivery of agency services. This amount represents an annual increase of 1.8% for General Fund compensation costs.

Rationale/Background:

Each year, compensation costs rise due to labor contract settlements, and changes in employer-paid contributions for insurance, FICA, Medicare, retirement, and other factors. Absorbing this increase in compensation costs within existing agency base appropriations results in reduced staffing and/or reduced non-compensation spending.

Proposal:

The Governor recommends increasing agencies' general fund budgets for employee wage and benefit costs by 1.8% per year for FY 2016-17. Agencies were instructed to include a 1.8% increase to total compensation each year in their base budgets, based upon the compound annual compensation spending rate increase per FTE over the last ten years for executive branch employees. This recommendation is intended to allow agencies to maintain their current level of agency operations.

For non-General Fund direct appropriated funds, the Governor's budget recommendations also include an adjustment of 1.8% per year, where the amount can be supported by the source of revenue.

Results:

This proposal is intended to allow agencies to continue to provide current levels of service and information to the public.
