

STATE OF MINNESOTA

Office of the State Auditor

Rebecca Otto
State Auditor

Minnesota County Finances

2013 Revenues, Expenditures, and Debt

Description of the Office of the State Auditor

The mission of the Office of the State Auditor is to oversee local government finances for Minnesota taxpayers by helping to ensure financial integrity and accountability in local governmental financial activities.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 150 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office currently maintains five divisions:

Audit Practice - conducts financial and legal compliance audits of local governments;

Government Information - collects and analyzes financial information for cities, towns, counties, and special districts;

Legal/Special Investigations - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government;

Pension - monitors investment, financial, and actuarial reporting for approximately 700 public pension funds; and

Tax Increment Financing - promotes compliance and accountability in local governments' use of tax increment financing through financial and compliance audits.

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

Scope and Methodology

This publication is intended to help the public, local government officials, and other policy makers understand county financial operations. The report summarizes, through data tables and charts, the financial operations of Minnesota counties for calendar year 2013.

The data presented in this report is divided into governmental funds and proprietary funds. The governmental funds consist of the General, Special Revenue, Debt Service, Capital Projects, and Permanent Funds. The revenues, expenditures, and debt of these funds are summarized in Table 1. Table 2 presents the data by each individual county.

The enterprise or proprietary funds of counties are presented separately from the governmental funds. Minnesota counties operate many types of public service enterprises. These enterprises furnish a variety of services that operate primarily from revenues derived from the sale of goods or services. The financial operations of the public service enterprises are presented in Table 3.

Table 4 lists the bonded and other long-term debt outstanding as of December 31, 2013 by county. Other long-term debt refers to liabilities such as long-term lease agreements, installment purchase contracts, and notes.

Tables 5 and 6 present an analysis of the 2012 and 2013 unrestricted fund balances in the General and Special Revenue Funds of counties. The tables show the actual unrestricted fund balances alphabetically by county and a ranking of 2013 unrestricted fund balances as a percent of total current expenditures.

Starting in fiscal year 2011, counties were required to implement the Governmental Accounting Standards Board's (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. GASB Statement 54 defines the classifications of fund balance based on the focus of the constraints placed on the use of current fund balance. The Statement also identifies the governmental fund type definitions.¹

Under GASB Statement 54, counties report separate fund balances for all of their governmental funds and denote the amounts that fall under the following classifications: *nonspendable, restricted, committed, assigned, and unassigned*. The *committed, assigned, and unassigned* classifications are considered the unrestricted portion of the fund balance. Appendix A provides a more detailed discussion of fund balances.

In addition to this publication, the Office of the State Auditor maintains an interactive database containing several years of data. The database can be accessed through the Office of the State Auditor's website at: <http://www.auditor.state.mn.us/default.aspx?page=ComparisonTools>.

¹For a more detailed discussion of GASB 54, please see Office of the State Auditor's Statement of Position on the topic, [Statement of Position: Fund Balances for Local Governments Based on GASB Statement No. 54](#).

Executive Summary

Current Trends

- Minnesota county revenues totaled \$5.9 billion in 2013. This represents a decrease of \$44.2 million, or 0.7 percent, from 2012. Decreases in interest earnings (-139.6 percent), federal grants (-11.3 percent), and all other revenues (-8.9 percent) contributed to the overall decrease in county revenues between 2012 and 2013 (pg. 5).
- Counties reported total expenditures of \$6.2 billion in 2013. This represents an increase of \$207.5 million, or 3.5 percent, over total expenditures in 2012. Between 2012 and 2013, current expenditures increased 3.7 percent to \$4.9 billion; capital outlays decreased 5.3 percent to \$884.0 million; and debt service increased 22.4 percent to \$456.0 million (pg. 8).
- In 2013, Minnesota counties reported outstanding long-term debt of \$3.5 billion.² This represents a very slight decrease from the long-term debt reported in 2012. Of the \$3.5 billion in long-term debt, \$3.3 billion was outstanding bonded debt, and \$241.3 million was other long-term debt (pg. 12).
- Minnesota county enterprises reported operating losses of \$34.9 million in 2013. This represents an increase of 409.3 percent from the operating losses of \$6.9 million reported in 2012. The net losses of county enterprises totaled \$7.1 million in 2013. This represents a decrease of 127.4 percent from the \$26.0 million in net income reported in 2012 (pg. 13).
- Minnesota counties' unrestricted fund balances of the General Fund and Special Revenue Funds totaled \$2.4 billion in 2013. This represents an increase of 0.4 percent over 2012. Among individual counties, unrestricted fund balances as a percent of total current expenditures ranged from 13.0 percent (Faribault County) to 112.2 percent (Mower County) (pg. 14).

Ten-Year Trends

- In actual dollars, total revenues rose 32.6 percent from 2004 to 2013. When adjusted for inflation, there was a decrease in total revenues of 0.9 percent over this period³ (pg. 6).
- Since 2004, the share of total revenues derived from taxes has increased from 39.8 percent to 48.3 percent, while the share of total revenues derived from intergovernmental revenues has decreased from 42.1 percent to 36.9 percent (pg. 6).
- In actual dollars, total expenditures increased 34.8 percent from 2004 to 2013. When adjusted for inflation, county expenditures increased 0.7 percent. The primary categories of expenditures for counties over the ten-year period were consistently human services, streets and highways, public safety, and general government expenditures. Together, these four expenditure categories accounted for 77.1 percent of all county expenditures in 2013 (pg. 9).

²Long-term debt includes bonded indebtedness and other long-term debt such as notes or long-term leases.

³Constant dollars will refer to data adjusted for inflation using the Implicit Price Deflator for State and Local Governments (N.I.P.A. Table 1.1.9) setting 2004 as the base year.

Comparison and Overview

Governmental Fund Revenues

Current and Five-Year Trends

Minnesota county revenues totaled \$5.9 billion in 2013. This represents a decrease of \$44.2 million, or 0.7 percent, from 2012. Decreases in interest earnings (-139.6 percent), federal grants (-11.3 percent), and all other revenues (-8.9 percent) contributed to the overall decrease in county revenues between 2012 and 2013.

The large decrease in interest earnings, which includes investment income, realized gains and losses on investments, and the net increase or decrease in the fair value of investments, reflects steep declines in bond prices in 2013. The completion of substantial road, bridge, and transit projects that received federal funding in Blue Earth, Dakota, Ramsey, and Todd Counties contributed to the large decrease in federal grants.

Taxes, state grants, and federal grants were the most significant sources of county revenues in 2013, accounting for 82.5 percent of total revenues. The share of total revenues derived from federal grants decreased slightly between 2012 and 2013, while the share of revenues derived from taxes and state grants increased slightly.

Figure 1 below shows the relative shares of total governmental revenues by source.

Ten-Year Trends

Figure 2 below shows trends for total county revenues in actual and constant dollars for the years 2004 to 2013. In actual dollars, total revenues rose 32.6 percent from 2004 to 2013. When adjusted for inflation, there was a decrease in total revenues of 0.9 percent over this period.⁴

Primary Sources of Revenues

Over the past ten years, the primary sources of revenues for counties have been taxes, state grants, federal grants, and charges for services. Between 2004 and 2013, the share of total revenues derived from taxes increased from 39.8 percent to 48.3 percent, while the share of total revenues derived from intergovernmental revenues decreased from 42.1 percent to 36.9 percent. The decrease in intergovernmental revenues has resulted in a greater reliance on taxes.

There are two primary factors that have caused intergovernmental revenues as a share of total revenues to decrease. First, state and federal human services grants as a percent of total revenues decreased from 16.7 percent in 2004 to 11.9 percent in 2013. Second, due to ongoing state budget deficits, the County Program Aid (CPA) and the Homestead Market Value Credit (HMVC) programs were subject to cuts and flat funding over the ten-year period. In addition, after several years of reduced funding levels, the state eliminated the HMVC program in 2012. The CPA and HMVC programs accounted for 6.0 percent of county total revenues in 2004, compared to 3.0 percent in 2013.

⁴Constant dollars will refer to data adjusted for inflation using the Implicit Price Deflator for State and Local Governments (N.I.P.A. Table 1.1.9) setting 2004 as the base year.

Figure 3 below shows how the composition of primary sources of revenues for counties has changed between 2004 and 2013.

Table 1a below shows the ten-year trend in revenues adjusted for inflation. The table breaks down the data into two five-year segments and the overall ten-year trend.

Table 1a: County Revenues Summary (Constant Dollars), 2004 - 2013

Revenues	2004*	2008*	2009*	2013*	2004 - 08 5-Year Change	2009 - 13 5-Year Change	10-Year Change

*Due to rounding, the totals may not equal the sum of the individual categories.

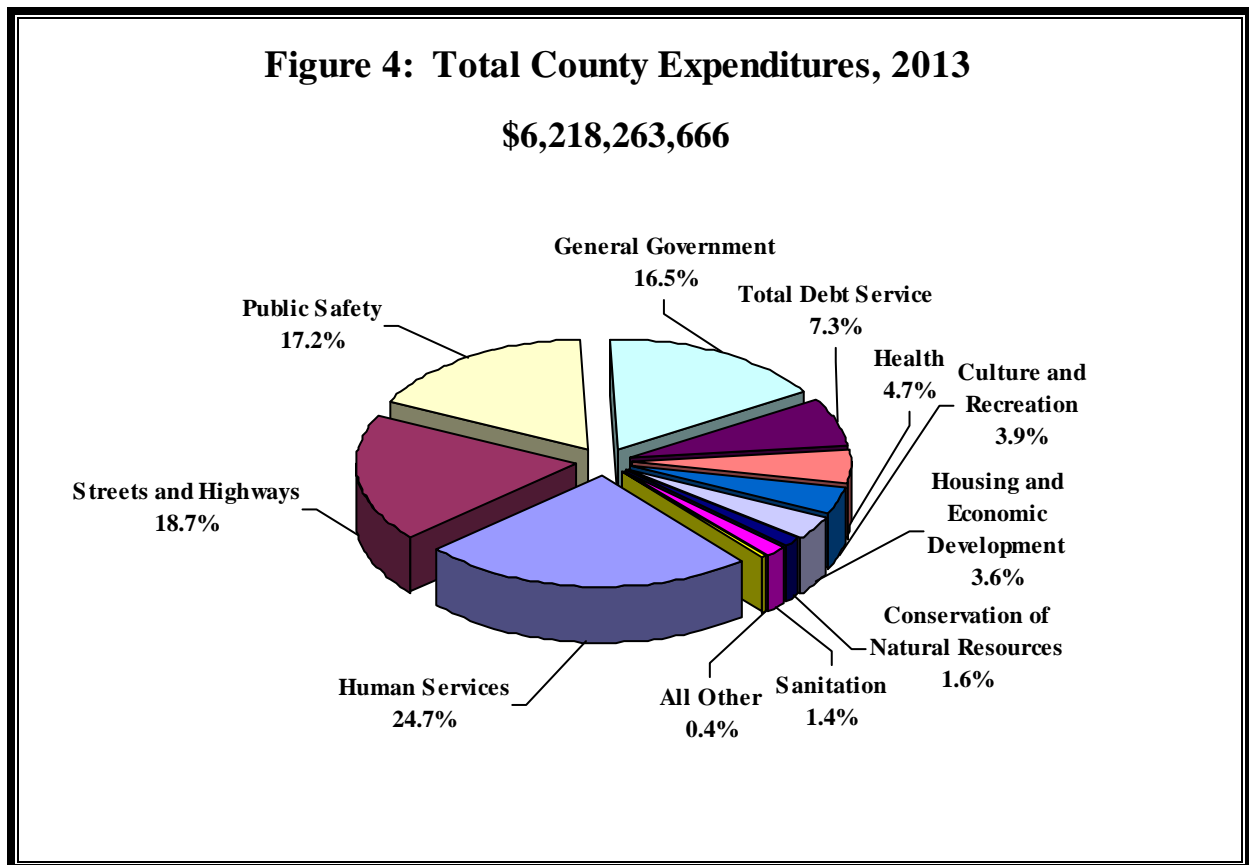

Governmental Fund Expenditures

Current Trends and Five-Year Trends

Counties reported total expenditures of \$6.2 billion in 2013. This represents an increase of \$207.5 million, or 3.5 percent, over total expenditures in 2012. Total county expenditures include current expenditures (day-to-day operations); capital outlays (expenditures on large fixed assets such as buildings and equipment); and total debt service (principal paid on bonds, other long-term debt, and interest and fiscal charges). Between 2012 and 2013, current expenditures increased 3.7 percent to \$4.9 billion; capital outlays decreased 5.3 percent to \$884.0 million; and debt service increased 22.4 percent to \$456.0 million.

The largest dollar increases were in the categories of debt service and general government expenditures. Debt service expenditures increased \$83.5 million between 2012 and 2013. The large increase in debt service expenditures was primarily the result of a number of counties issuing refunding bonds and the corresponding principal payments to pay off existing bonds in 2013. General government expenditures increased \$58.8 million over the two-year period. A significant portion of the increase reflects contributions from Hennepin County to the Metropolitan Council as part of cost sharing agreements for various projects. Overall, eight categories of expenditures increased, while three decreased between 2012 and 2013.

Figure 4 below provides a breakdown of total county expenditures in 2013.

Ten-Year Trends

In actual dollars, total expenditures increased 34.8 percent from 2004 to 2013. When adjusted for inflation, county expenditures increased 0.7 percent.⁵ Figure 5 illustrates trends in total county expenditures using actual and constant dollars from 2004 to 2013.

Primary Categories of Expenditures

The primary categories of expenditures for counties over the ten-year period were consistently human services, streets and highways, public safety, and general government expenditures. Together, these four expenditure categories accounted for 77.1 percent of all county expenditures in 2013.

In constant dollars, human services and general government expenditures declined 19.8 and 1.5 percent, respectively, between 2004 and 2013, while streets and highways and public safety expenditures increased 4.7 percent and 5.8 percent, respectively. The decrease in human services expenditures contributed to its share of total expenditures declining from 31.0 percent in 2004 to 24.7 percent in 2013.

⁵Constant dollars will refer to data adjusted for inflation using the Implicit Price Deflator for State and Local Governments (N.I.P.A. Table 1.1.9) setting 2004 as the base year.

Figure 6 below illustrates the changing composition of county expenditures between 2004 and 2013. Table 2a provides a ten-year analysis of total county expenditures in constant dollars.

Table 2a: County Expenditures Summary (Constant Dollars), 2004 - 2013

Expenditures	2004*	2008*	2009*	2013*	2004 - 08	2009 - 13	10-Year
					5-Year	5-Year	
					Change	Change	Change
General Government	\$777,913,897	\$944,197,828	\$803,591,120	\$765,968,885	21.4%	-4.7%	-1.5%

Total Expenditures	\$4,614,517,414	\$5,070,464,436	\$4,746,174,354	\$4,645,860,542	9.9%	-2.1%	0.7%
Total Current Expenditures	\$3,724,852,305	\$3,906,084,264	\$3,713,642,344	\$3,644,718,501	4.9%	-1.9%	-2.2%
Total Capital Outlay	677,321,720	851,957,990	763,440,520	660,447,882	25.8%	-13.5%	-2.5%
Total Debt Service	212,343,389	312,422,182	269,091,490	340,694,159	47.1%	26.6%	60.4%
Total Expenditures	\$4,614,517,414	\$5,070,464,436	\$4,746,174,354	\$4,645,860,542	9.9%	-2.1%	0.7%

*Due to rounding, the totals may not equal the sum of the individual categories.

Capital Outlay Expenditures

Capital outlay expenditures include the purchase, construction, or permanent improvements of buildings, equipment, machinery, and land. Between 2012 and 2013, capital outlays decreased \$49.6 million, or 5.3 percent, to total \$884.0 million.

The largest category of capital outlay expenditures in 2013 was streets and highways, which represented 76.8 percent of total capital outlays. General government and culture and recreation were the next two largest categories of capital outlay expenditures, accounting for 7.9 percent and 5.3 percent of total capital outlays, respectively.

Capital outlay expenditures, because they include large construction projects and purchases, can show significant swings from one year to the next. Among those categories of capital outlay expenditures showing double-digit increases were human services (173.2 percent), culture and recreation (114.6 percent), and public safety (39.8 percent). Among those categories showing double-digit decreases were health (-93.5 percent), housing and economic development (-59.7 percent), all other (-55.7 percent), sanitation (-33.0 percent), and conservation of natural resources (-32.6 percent). Overall, the largest dollar increase in capital outlay expenditures was \$25.1 million for culture and recreation, while the largest dollar decrease was \$44.8 million for housing and economic development.

In actual dollars, capital outlay expenditures increased 30.5 percent from 2004 to 2013. When adjusted for inflation, capital outlay expenditures decreased 2.5 percent over this period.

Figure 7 below shows capital outlay expenditures in actual and constant dollars from 2004 to 2013.

Outstanding Long-Term Indebtedness

Current and Five-Year Trends

Counties incur long-term debt through the financing of capital projects such as the construction of government buildings, bridges, and other infrastructure improvements. In 2013, Minnesota counties reported outstanding long-term debt of \$3.5 billion.⁶ This represents a very slight decrease from the long-term debt reported in 2012. Of the \$3.5 billion in long-term debt, \$3.3 billion was outstanding bonded debt, and \$241.3 million was other long-term debt.

Ten-Year Trends

In actual dollars, outstanding long-term debt increased 69.9 percent from 2004 to 2013. When adjusted for inflation, outstanding long-term indebtedness increased 26.9 percent over this period. When compared to the 0.9 percent decrease in constant total revenues during this period, the trend suggests that counties issued long-term debt to finance capital expenditures.⁷ As a result of the increase in long-term debt, interest and principal payments increased 114.7 percent in actual dollars, and 60.4 percent in constant dollars, over the ten-year period.

⁶Long-term debt includes bonded indebtedness and other long-term debt such as notes or long-term leases.

⁷Counties primarily issue bonds to fund capital projects and purchases. Counties may issue tax anticipation certificates/certificates of indebtedness for current operations, but they must be repaid within 15 months of the certification of the property tax levy.

Public Service Enterprises

Some counties utilize public service enterprises, which are financed and operated in a manner similar to private business enterprises. The financial activities of these enterprises are accounted for in enterprise funds, which use accounting principles that provide more detailed financial information than governmental funds. Enterprise funds are generally intended to be self-sustaining operations maintained through fees for services and user charges. Many public enterprises, however, do not generate sufficient income to cover operating costs. In these cases, counties supplement operating revenues with transfers from other funds and nonoperating revenues, such as taxes and grants. The most common types of enterprises maintained by counties are housing and redevelopment authorities and hospitals/nursing homes.

Current Trends

Minnesota county enterprises reported operating losses of \$34.9 million in 2013. This represents an increase of 409.3 percent from the operating losses of \$6.9 million reported in 2012. The net losses of county enterprises totaled \$7.1 million in 2013. This represents a decrease of 127.4 percent from the \$26.0 million in net income reported in 2012.

The Hennepin County Medical Center (HCMC) accounted for the large decreases in operating and net income. The HCMC often skews statewide totals because its operating revenues and expenses are greater than all other county enterprises combined.

Ten-Year Trends

Figure 9 below shows net income and operating income in actual dollars from 2004 to 2013 (includes the HCMC).

Unrestricted Fund Balances of the General Fund and Special Revenue Funds

Minnesota counties' unrestricted fund balances of the General Fund and Special Revenue Funds totaled \$2.4 billion in 2013. This represents an increase of 0.4 percent over 2012. Comparing fund balance levels to total current expenditures helps to put fund balances in perspective and provides insight on the relative financial health of Minnesota counties. The average unrestricted fund balances as a percent of current expenditures for counties was 49.5 percent in 2013 compared to 51.2 percent for unreserved fund balances as a percent of total current expenditures in 2012. Among individual counties, unrestricted fund balances as a percent of total current expenditures ranged from 13.0 percent (Faribault County) to 112.2 percent (Mower County).

The Office of the State Auditor recommends that counties maintain an unrestricted fund balance in their General Fund and Special Revenue Funds of between 35 and 50 percent of operating revenues, or no less than five months of operating expenditures (similar to current expenditures).⁸ Counties must rely on their fund balances to meet expenditures during the first five months of the next fiscal year until they receive the first property tax payments (May) and aid payments from the state (July). Maintaining adequate fund balances can also help counties better manage a financial crisis or emergency. Counties should have policies regarding fund balance levels to guide financial decisions, and to provide a way for officials and the public to evaluate fund balances.⁹ Appendix A provides a more detailed discussion of fund balances and GASB 54 (pg. 69).

Figure 10 below shows the unrestricted fund balances for the General Fund and Special Revenue Funds by type.

⁸ Due to data limitations, this analysis uses current expenditures when examining unrestricted fund balance levels as a proxy for operating expenditures.

⁹ The Office of the State Auditor has issued a Statement of Position on Local Government Fund Balances. See: [Statement of Position: Fund Balances for Local Governments Based on GASB Statement No. 54](#).

COUNTY GENERAL AND SPECIAL REVENUE

UNRESTRICTED FUND BALANCES

This page left blank intentionally

Appendix A - County General and Special Revenue Unrestricted Fund Balances

It is important to provide context on fund balance as reported by counties for this report. Fund balances are reported at the close of the fiscal year, which runs concurrent with the calendar year. County fund balances should be relatively large at the end of the year because of local government cash flow cycles. Counties must rely on their fund balances to meet expenditures during the first five months of the next fiscal year until they receive the first property tax payments (May) and aid payments from the state (July).

Unlike state government, which collects income tax withholding and sales tax receipts regularly throughout the year, many counties do not have a constant flow of revenue from which they are able to fund local government operations. Property tax levies, state aid, and property tax credits comprise the majority of county discretionary revenues. Minnesota laws govern the flow of these major revenue sources into county treasuries:

- The first half of property taxes from property owners is due by May 15 of each year and is distributed to counties generally by the end of June or early July.
- Counties receive the first half of their state aid and property tax credits from the state on July 20 of each year.
- The second half of property taxes from property owners is due by October 15 of each year and is distributed to counties generally by the end of November.
- Counties receive the second half of their state aid and property tax credits from the state on December 26 of each year.

Given this state-controlled flow of revenue, county fund balances (which are measured on December 31) are the primary source of funds available to counties for their operating expenditures during the first five months of the next fiscal year. An adequate fund balance will provide counties with the cash flow required to finance expenditures and avoid short-term borrowing.

Unique Circumstances of Each County Determine the Size of Fund Balance

While counties must rely on the unrestricted fund balances for cash flow purposes during the first five months of a year, the unique circumstances of each county will determine the fund balance level that must be maintained to avoid the need for short-term borrowing and to operate effectively.

Numerous factors must be considered when determining the level of reserves necessary to avoid short-term borrowing including:

- If counties receive relatively large amounts of revenue from sources such as fees, fines, charges for services, other intergovernmental grants and aids, or interest on investments during the first five months of the calendar year, then they will be less dependent on their fund balances for cash flow purposes.
- Counties are often able to delay certain purchases until after the initial property tax and state aid payments are received. While payments for employee salaries, wages, and most benefits cannot be delayed during the first five months of the year, purchases of supplies and capital equipment may be delayed.

The individual cash flow needs of a county will determine the minimum fund balance that is necessary for a county to operate effectively. Counties that are able to generate significant revenues from sources other than property taxes and state aid payments may require relatively smaller fund balances to support their cash flow requirements. Conversely, counties that rely heavily on property taxes and state aid for the majority of their revenues will need larger fund balances to meet their cash flow needs from January through June of every calendar year.

While there are many factors that help determine the minimum fund balance needed to maintain financial health, the Office of the State Auditor recommends that at year-end, or other key times of the year, local governments that rely significantly on property taxes maintain an unrestricted fund balance in their General Fund and Special Revenue Funds of approximately 35 to 50 percent of operating revenues, or no less than five months of operating expenditures.¹⁰ If the local government's unrestricted fund balance is less than or greater than this recommendation, the local government should be able to explain the reason for the difference.

The Office of the State Auditor recommends that each local government establish a formal policy on the level of unrestricted fund balance that should be maintained in the General Fund and other significant governmental funds. The policy should be set by the governing body and should provide both a time frame and a specific plan for increasing or decreasing the level of unrestricted fund balance. If the fund balance does not match the policy, a plan should be developed by the governing body that will allow for compliance with the policy. The fund balance policy should include a provision for a regular review of the sufficiency of the minimum fund balance level.

¹⁰The Governmental Accounting Standards Board's (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, went into effect for the 2011 reporting year. This statement provides new guidelines and classifications for fund balances. The new classifications: *nonspendable, restricted, committed, assigned, and unassigned*, replace the old designations of *reserved, unreserved designated, and unreserved undesignated*. Previously, the analysis of fund balance focused on the unreserved portion of the fund balances of the General and Special Revenue Funds. The new focus is on the unrestricted portion of these fund balances, and includes the *committed, assigned, and unassigned* classifications. For more information on GASB 54, please see the Office of the State Auditor's Statement of Position entitled, [Statement of Position: Fund Balances for Local Governments Based on GASB Statement No. 54.](#)

Fund Balance Classifications/Definitions for Governmental Funds

The fund balances of a local government’s governmental funds should be reported in the classifications based on the definitions in the following table:

<i>Fund Balance Reporting</i>			
<i>Classification</i>	<i>Definition</i>	<i>Examples</i>	
Nonspendable	“Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.” ¹¹	<ul style="list-style-type: none"> • Inventories, • Prepaid items, • Long-term receivables, and • Permanent principal of endowment funds. 	
Restricted	“Fund balance should be reported as restricted when constraints placed on the use of resources are either: <ol style="list-style-type: none"> Externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or Imposed by law through constitutional provisions or enabling legislation.”¹² 	<ul style="list-style-type: none"> • Restricted by state statute, • Unspent bond proceeds, • Grants earned but not spent, • Debt covenants, • Taxes dedicated to a specific purpose, and • Revenues restricted by enabling legislation. 	
Unrestricted	Committed	“Used for specific purposes pursuant to constraints imposed by formal action of the government’s highest level of decision-making authority.” ¹³	<ul style="list-style-type: none"> • The governing board has decided to set aside \$1 million for a new city hall, and • Property tax levies set for a specific purpose by resolution.
	Assigned	“Amounts that are constrained by the government’s intent to be used for specific purposes, but are neither restricted nor committed.” ¹⁴	<ul style="list-style-type: none"> • Governing board has set aside \$2 million for a county hospital, and the county manager may amend this up to \$100,000; • Governing body delegates the authority to assign fund balance to the finance officer; • Governing board has appropriated fund balance usually titled “subsequent year’s expenditures;” and • Positive residual balances in governmental funds other than the General Fund.
	Unassigned	Unassigned fund balance is the residual classification for the General Fund. This is fund balance that has not been reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Other governmental funds would report deficit fund balances as unassigned. ¹⁵

GLOSSARY

This page left blank intentionally

Glossary

ALL OTHER EXPENDITURES - These expenditures reflect the costs of activities that were not allocated to a specific function. Some activities included in this category are pension and insurance costs not allocated to a specific department.

ALL OTHER REVENUES - These revenues refer to refunds, reimbursements, donations, and lease payments.

ASSIGNED FUND BALANCES - Fund balances that are constrained by the government's intent that they be used for specific purposes, but are neither restricted nor committed.

BORROWING - These other financing sources reflect the sale of bonds and notes, certificates of indebtedness, and tax anticipation certificates. Counties are restricted by law from borrowing for current expenses.

CAPITAL OUTLAY - These expenditures include the purchase, construction, or permanent improvements of buildings, equipment, machinery, and land. Capital outlay varies from year to year based on the needs and resources of the counties.

CAPITAL PROJECTS FUND - A fund used to account for financial resources to be used for the acquisition, construction, or improvement of major capital facilities (other than those financed by enterprise funds).

CHARGES FOR SERVICES - These revenues represent user charges paid in exchange for a service, exclusive of revenues from enterprise funds. Examples include sanitation charges, golf fees, court costs, and public safety contracts.

COMMITTED FUND BALANCE - The fund balance amount that can be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority.

DEBT SERVICE EXPENDITURES - These expenditures reflect the annual costs of servicing the outstanding debt of the local government. These costs include principal, interest, and some fiscal charges.

DEBT SERVICE FUND - A fund to account for the collection of resources designated to pay the interest, fiscal charges, and principal on long-term debt.

ENTERPRISE FUND - A fund established to account for operations financed and operated in a manner similar to private business. Examples include hospitals, nursing homes, nursing services, and solid waste. The expenses of providing services are primarily financed by user charges.

FINES AND FORFEITS - These revenues reflect receipts from the payment of penalties for law violations, non-observance of contracts, and forfeited deposits.

GENERAL FUND - The fund used to account for all financial resources not required to be accounted for in another fund. This fund is the main operating fund.

Glossary

GENERAL GOVERNMENT EXPENDITURES - These expenditures reflect the costs associated with local government functions, such as administration, finance, and elections. Expenditures in this category include salaries, wages, and benefits of legislative, judicial, and administrative personnel, in addition to supplies and building maintenance.

GOVERNMENTAL FUNDS - These are funds through which most governmental activities are financed. The five governmental fund types are: General, Special Revenue, Debt Service, Capital Projects, and Permanent.

HEALTH - These expenditures are for the maintenance of vital statistics, restaurant inspection, communicable disease control, and various health services and clinics.

HRA AND ECONOMIC DEVELOPMENT - These expenditures are for development and redevelopment activities in blighted or otherwise economically disadvantaged areas. Activities may include low-interest loans to individuals and businesses, cleanup of hazardous sites, rehabilitation of substandard housing and other physical facilities, and other assistance to those wanting to provide housing and economic opportunity within a disadvantaged area.

HUMAN SERVICES - These expenditures are for activities designed to provide public assistance and institutional care for individuals economically unable to provide essential needs for themselves.

INTEREST EARNINGS - These revenues reflect interest earned on checking and savings accounts, CDs, money market funds, and bonds. This category also includes dividends. In addition, the net increase or decrease in the fair value of investments is recorded here.

LIBRARIES - These expenditures relate to the current expenditures and capital outlays for county public libraries. Current expenditures include expenditures for staffing and administration, circulation, cataloging of library materials, reference services for library patrons, processing and forwarding materials, and general infrastructure costs. Examples of capital outlays are construction, renovation of existing facilities, and the purchase of mobile library units.

LICENSES AND PERMITS - These revenues reflect receipts from liquor licenses, cigarette licenses, other business licenses, building permits, and other non-business licenses and permits.

NET TAX LEVY - The net county property taxes, after state property tax relief aids or grants, required to be paid by the property owners of the county.

NET TAXABLE TAX CAPACITY - The tax capacity, less the tax increment district value, less the fiscal disparities contribution value, plus the fiscal disparities distribution value.

NONSPENDABLE FUND BALANCE - Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

OTHER FINANCING SOURCES - These sources include long-term debt proceeds, sales of fixed assets, and transfers from other funds.

OTHER FINANCING USES - These sources include transfers to other funds, the refunding of bond proceeds deposited with an escrow agent and invested until they are used to pay principal and interest on the old debt at a future time, and remittance to other agencies.

Glossary

OUTSTANDING LONG-TERM DEBT - This category refers to the long-term debt that a local government has incurred to finance its capital projects. Examples of long-term debt include various types of bonds and other obligations, such as notes and long-term leases.

PARKS AND RECREATION - These expenditures reflect park maintenance, mowing, planting, and removal of trees. Recreation expenditures include festivals, bands, museums, community centers, baseball fields, organized recreation activities, etc.

PERMAMENT FUND - A fiduciary fund type used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the county programs.

PUBLIC SAFETY EXPENDITURES - These expenditures reflect the costs related to the protection of persons and property.

RESTRICTED FUND BALANCES - Fund balances that have constraints placed on the use of resources either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

SANITATION - These expenditures reflect the costs of refuse collection and disposal, recycling, as well as weed and pest control. Some local governments provide sanitation services through enterprise funds.

SPECIAL ASSESSMENTS - These revenues refer to levies made against certain properties to defray all or part of the costs of a specific improvement, such as ditch maintenance, deemed to benefit primarily those properties. The amount includes the penalties and interest paid on the assessments.

SPECIAL REVENUE FUND - A fund used to account for the proceeds of specific revenue sources that are restricted to expenditures for a specific purpose.

STREETS AND HIGHWAYS EXPENDITURES - These expenditures reflect the costs associated with the maintenance and repair of local highways, streets, bridges, and street equipment. Common expenditures include patching, seal coating, and snow removal. Expenditures for road construction are not included in current expenditures but are accounted for as capital outlay.

TAX CAPACITY - The value assigned to the property used to calculate the property taxes.

TOTAL CURRENT EXPENDITURES - This category reflects the total of all expenditures relating to current operations.

TOTAL EXPENDITURES - This category includes current operating expenditures, capital outlays, and debt service principal and interest payments.

TOTAL REVENUES - This category reflects all sources of revenue that increase the amount of available resources without creating a liability or a future payment. Borrowing and transfers between funds are not included in total revenues.

Glossary

TRANSFERS - ENTERPRISE FUNDS - The transfer of available resources to or from public service enterprises. It is shown separately because enterprise funds are not included in the governmental funds.

TRANSFERS - GOVERNMENTAL FUNDS - The transfer of money between governmental fund types. The revenues and expenditures for these funds are always shown in the same tables.

UNALLOCATED INSURANCE - These expenditures refer to insurance premiums that were not allocated to a specific function of government.

UNALLOCATED PENSION CONTRIBUTIONS - These expenditures refer to contributions to pension plans that were not allocated to a specific function of government.

UNASSIGNED FUND BALANCE - Unassigned fund balance is the residual classification for the General Fund. This is fund balance that has not been reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Other governmental funds would report deficit fund balances as unassigned.
