Minnesota Gambling Control Board

Annual Report

Minnesota Gambling Control Board

**Fiscal Year
2015**

July 1, 2014 - June 30, 2015

Message from the Board Chair and Executive Director

November 18, 2015

The mission of the Minnesota Gambling Control Board is to regulate the lawful (charitable) gambling industry to ensure the integrity of operations and provide for the lawful use of net profits. Charitable gambling is conducted only by registered, nonprofit organizations. The five forms of lawful gambling are bingo, paddlewheels, pull-tabs, raffles, and tipboards. This report summarizes the charitable gambling activity for the fiscal year beginning July 1, 2014, through June 30, 2015. Here are some of the highlights:

Fifth straight year of increased gross receipts

Lawful gambling gross receipts in Minnesota rose for the fifth straight year. At \$1.3 billion, fiscal year 2015 had the highest gross receipts in the U.S., and is a 10% increase from the previous fiscal year. Funds available for lawful purpose (charitable) expenditures in fiscal year 2015 topped \$113.6 million, while allowable expenses as a percentage of net receipts decreased by 3%.

Lawful gambling dollars—where the money goes

For every dollar spent on lawful gambling in Minnesota in fiscal year 2015, 83 cents was returned as prizes to players, leaving 17 cents for charitable contributions, expenses, and taxes. It takes a lot of diligent effort for organizations to raise lawful gambling dollars for their missions, but veterans, youth activities, wildlife management projects, scholarships, recognition of humanitarian service, food shelves, relieving effects of poverty, and many other charitable causes benefit from lawful gambling proceeds.

Looking ahead

Trends show the future of gaming is all about demographics and automation. Technology is changing rapidly, and regulators, state legislatures, and the industry must keep up. Markets are sometimes slow to accept change; however, automated reporting and inventory control are the focus of the latest technology in gaming. Vendors and organizations need to know their customers, both existing and upcoming. While paper pull-tabs are still extremely viable in Minnesota, it is reasonable to look at trends to maximize an organization's efforts to continue to successfully raise dollars for charitable causes.

Credit to lawful gambling industry

Because of licensed organizations' hard work and dedication, and the industry that supports the charities, over \$113.6 million was available in fiscal year 2015 for lawful purpose and charitable contributions, benefiting so many Minnesotans.

Bottom line

In terms of net proceeds from charitable gambling operations, fiscal year 2015 was a good year for the 1,200 licensed charities in Minnesota and the 2,800 sales locations that support the missions of the charities. The Gambling Control Board and staff will continue to work hard to provide the necessary oversight and regulation of this billion-dollar industry.

Comparison of Gross Receipts (Sales) by Activity — FY15

Ten-Year Comparison of Gross Receipts (with % change from previous year)

Lawful Purpose Expenditures (LPE)

Lawful Purpose Required Percentages. The majority of organizations are required to spend at least 30% of their net profits on lawful purposes, including taxes. Exception: Organizations that only conduct lawful gambling in a location where the primary business is bingo must spend 20% or more. Failure to meet the requirement subjects the organization to probation and possible sanctions by the Board.

Proceeds from lawful gambling may be used for lawful purpose expenditures (contributions) in the following categories.

LG500 CY14 Regulatory Tax, City or County Annual Report

Under Minnesota Statutes, section 349.213, subdivision 3, a city or county may impose a local gambling tax on each licensed organization within the city's or county's jurisdiction, only if they do not charge an investigation fee or other local taxes on lawful gambling. A township may not impose a local gambling tax.

The tax, up to 3% of gross receipts less prizes paid per year, may be imposed only if the amount is necessary to cover the costs to regulate lawful gambling in the city's or county's jurisdiction. A city or county may not use money collected for any purpose other than to regulate lawful gambling.

Cities or counties imposing a tax under section 349.213 must report to the Gambling Control Board annually by March 15 showing:

- (1) the amount of revenue produced by the tax during the preceding calendar year, and
- (2) the use of the proceeds of the tax.

The cities reporting in calendar year 2014 and the amounts collected, spent, refunded, and balances are:

Separate from the 3% regulatory tax and the 10% contribution, Minnesota Statutes, section 349.12, subdivision 25, paragraph (a), clause (10), allows a licensed organization to make a voluntary contribution to units of government (under lawful purpose code A10) for government programs and projects of the United States, the state of Minnesota, or local units of government.

In fiscal year 2015, a total of \$10,304,616 was voluntarily contributed to units of government for contributions allowed under code A10. Cities or counties are not required to report the receipt of the voluntary contributions to the Board.

For charitable contributions required by local units of government, see page 9.

LG510 CY14 10% Contribution Fund, When Mandated by Ordinance

As established by ordinance, a city or county (not a township) may require an organization to contribute up to 10% per year of net profits to a fund that the city or county administers.

- The city or county may only spend the funds for charitable contributions (Minn. Stat. 349.12, subd. 7a), or for police, fire, and other emergency or public safety-related services, equipment, and training.
- The fund may not be used for the payment of pension obligations or general government functions.
- A licensed organization that contributes to the 10% fund may not be a beneficiary of the fund.
- A city or county that has a 10% fund is required to file a report with the Gambling Control Board by March 15 each year.
 - √ In calendar year 2014, 115 cities reported fund contributions up to 10% as mandated by their city's ordinance.
 - √ A total of \$1,268,831 was contributed to cities under the "required" contribution allowance in statute.
 - √ A balance of \$1,878,464 was reported for future distribution.

Education Programs

Part of the Board's mission is educating the lawful gambling industry. To ensure the integrity of the industry, education is provided to organizations through the following opportunities.

Continuing Education Classes

Gambling managers are required to attend one class each calendar year. In addition to gambling managers, organizations' chief executive officers, members, and employees are welcome to attend as well. Continuing education classes are conducted at various locations throughout the state free of charge and are open to the public.

There were 66 continuing education classes provided during fiscal year 2015, 18 of which were classes at industry conventions, and nine of which were presentations to conventions such as Lions, VFWs, and CPAs. Topics included internal controls, lawful expenditures, illegal gambling, reporting requirements, electronic filing, new rules, conduct of lawful gambling (all forms), electronic games, bar bingo, and other topics.

Other Education Programs

Gambling Manager Seminars. Gambling manager seminars are conducted each month by Board staff. Each seminar consisted of two days of training and included information on statutes, rules, the conduct of lawful gambling, internal controls, reporting and licensing requirements, and the organization's responsibilities.

Mentoring. The Board's mentoring program provides one-on-one training to organizations on how to properly manage their gambling operation and comply with all reporting requirements. The program also provides guidance to licensed organizations that have experienced serious operational difficulties. New organizations or existing organizations with a new gambling manager may voluntarily participate in this program.

Gambling Control Board Website, www.mn.gov/gcb

The Gambling Control Board updated its website in 2015. The website, long overdue for a makeover, is now easier to use and navigate than the former format—which served its purpose since 1999.

The website contains information on how nonprofit organizations can become licensed to conduct lawful gambling, as well as specific information on each of the five forms of lawful gambling. Continuing education schedules, lists of licensees, and forms are all available on the website. The site continues to provide Board meeting information, and links to Board publications such as the *Gaming News*, *Lawful Gambling Manual*, and annual reports for both the Board and licensed organizations. There are also links to lawful gambling statutes and rules and to other state agencies, and email links to Board staff.

Gaming News

The Board's quarterly newsletter, *Gaming News*, provides information on compliance, licensing, and education issues. The newsletter is mailed to all licensed gambling managers. *Gaming News* also includes information on legislative and rule changes, scheduled continuing education classes, forms, and Board activities. The Departments of Revenue and Public Safety and the Internal Revenue Service periodically contribute articles for the newsletter.

Gaming News can be found on the Board's website under Publications. Subscriptions are available through Minnesota's Bookstore, 651-297-3000 or 800-657-3757.

Lawful Gambling Manual

The *Lawful Gambling Manual* is a reference guide for CEOs, gambling managers, and organizations—whether new or experienced. The Manual provides information on statutory and rule requirements in an easy-to-understand format, and was last updated in 2015. The Manual is divided into chapters that are easily referenced for:

- licensing requirements;
- conducting each form of lawful gambling: paper and electronic pull-tabs, paper and electronic bingo, raffles, paddlewheels, and tipboards;
- managing gambling equipment inventory;
- guidelines for internal controls of the gambling operation including accounting and administrative controls, with a section on monthly oversight;
- how net receipts may be spent; and
- cross-reference indexing.

The Manual may be purchased from Minnesota's Bookstore and is found on the Board's website under Publications.

Gambling Control Board Members

The Gambling Control Board is comprised of seven citizens. Five of the members are appointed by the Governor. The Attorney General and Commissioner of Public Safety each appoint one member.

The Board has the power to issue, suspend, and revoke licenses. Under Minnesota Statutes, section 349.11, the Board's purpose is "to regulate lawful gambling, to insure integrity of operations, and to provide for the use of net profits only for lawful purposes."

Statutes and Rules

Legislative Changes: The 2015 Legislature made several changes to lawful gambling laws. Some of the changes include:

- Organizations who wish to conduct only electronic pull-tabs may do so at a site where another organization conducts paper pull-tabs. Consent is required.
- Hot ball prizes for bingo are allowed, at no additional cost to players.
- Organizations conducting electronics no longer have to register a player. Organizations still must verify a player is age 18 or older.
- Disposable sealed bingo number selection placards (bingo boards) are allowed.
- Organizations may conduct a raffle in conjunction with an organization membership event once each calendar year.
- A volunteer conducting small (meat) raffles may participate/play in charitable gambling the next business day. An employee or a volunteer involved with the conduct of electronic linked bingo, pull-tabs, tipboards with more than 32 numbers, or paddlewheels with a table now only has to wait two weeks (had been six weeks) after ceasing their involvement before being allowed to participate in these games.
- Deposits for electronic gambling net receipts at a premises changed from a four-day requirement to when the total net receipts reach \$2,000 or on or before the first day of the next month, whichever comes first.

Rule Changes: There were no rule changes in FY15. Information on the Board's rules docket, any current rules processes, and obsolete rules can be found under the Statutes & Rules tab at mn.gov/gcb.
