

1837 TREATY BOUNDARY

This map of the approximate location of the North and South line of the 1837 Ceded Territory was prepared by the Department of Natural Resources, Bureau of Engineering.

The approximate North line of the 1837 Ceded Territory was plotted on the computed great circle (shortest) distance beginning at the junction of the Crow Wing and Mississippi Rivers, between twenty and thirty miles above where the Mississippi is crossed by the Forty-sixth parallel of north latitude, and running thence to the north point of Lake St. Croix, one of the sources of the St. Croix river.

The approximate South line of the 1837 Ceded Territory was plotted based on the Composite Map of the United States Land Surveyors Original Plats and Field Notes by J. W. Trygg.
