AREAS OF SPECIAL INTEREST

(1) Decals

Decals are provided to the customer by this Bureau upon completion of a watercraft, snowmobile or all-terrain vehicle unregistered, renewal, or renewal and transfer application. The decals are sent with the registration card through the mail.

Replacement Decals

THERE IS NO CHARGE FOR REPLACEMENT DECALS. Replacement decals may be obtained by the owner of the watercraft, snowmobile and/or all-terrain vehicle from the DNR License Bureau upon verbal or written request. The decals will be sent to the owner upon verification of a valid registration.

(2) Watercraft and Snowmobile Guides

Encourage each customer to pick up a copy of the watercraft and/or snowmobile guide from your office. The customer may also write or call this office for a copy.

All-Terrain Vehicle Guides

Unavailable at this time.

(3) Weekly Report Forms

A weekly report of watercraft, snowmobile, and all-terrain vehicle applications is required from all deputy registrar offices. If no applications are collected for any of the above transactions during a given week, a report must be submitted with the "No Transactions" box checked.

All applications must be listed on the weekly report form in the appropriate column. This listing includes the complete name, address, and zip code of the customer. The application itself must be listed in the following manner:

- a) Watercraft, snowmobile, and all-terrain vehicle hard-copy applications must be listed using the receipt number found in the upper left-hand corner of the application. These receipt numbers must be used and listed in strict sequential order.
- b) Watercraft, snowmobile, and all-terrain vehicle soft-copy renewals--these are the renewals with the tear-off receipt-- must be listed using the registration number. They must be listed on a

- b) separate report page or clearly separated from the other transactions if listed on the same report page.

Lastly, you must list the fee paid for each transaction in the appropriate column, and total this amount at the bottom of the report. The grand total must be recorded on the last report page if more than one page is submitted. One check should be submitted to cover all transactions listed on the reports, and it must be made payable to the DNR License Bureau.

(4) Information Concerning Validated, 60 Day Receipts

A validated receipt is always issued when an application is submitted and a fee paid for a watercraft, snowmobile, or all-terrain vehicle transaction. The receipt is issued in lieu of the registration card and decal(s), and the registration card or validated receipt must be carried when the watercraft, snowmobile, or all-terrain vehicle is being used. Canoe, kayak, rowing shell, paddleboat, sailboat, and sailboard users are not required to carry the registration card or validated receipt when using these watercraft. These are the only exceptions to the rule.

Validated receipts are issued in two forms:

1. the carbon copy form issued with all watercraft, snowmobile, and all-terrain vehicle hard-copy applications forms, and
2. the soft-copy, tear off forms issued with all watercraft, snowmobile, and all-terrain vehicle renewal forms.

In both cases, the deputy registrar must validate the receipt with their green validation stamp.

The following list explains any exceptions to the issuance of a validated receipt other than a normal transaction:

A. Lost or Destroyed Original Receipt

When a customer loses or destroys the original, validated receipt, the customer must fill out a duplicate registration card application and pay the appropriate fee. A second receipt may not be issued "no fee" without approval from this office, i.e., the deputy registrar must record, on the top of the application, the initials of the individual from this office who approved the "no fee" transaction.

If the original transaction involved an unregistered watercraft, snowmobile, or all-terrain vehicle, the above procedure must be followed. In this case, the customer must write NEW on the line requesting the license number. In both

A. cases, be sure to write the words "duplicate receipt" at the top of the application. These applications are treated the same as a normal duplicate registration card application, i.e., a second registration card is issued to the customer.

B. Receipt Requests When The Original Application Has Been Sent Through The Mail

If a customer request a validated receipt from your office, and he/she has mailed in the original application, he/she must register the watercraft, snowmobile, or all-terrain vehicle again. The deputy registrar must write "second registration" at the top of the application, and the customer must submit the second payment in the form of a personal check.

Attach the customer's check to the back of the second application, and this office will hold it until the original application is processed. Once the first application has cleared, the customer's check will be returned for cancellation. This procedure allows the customer to use the watercraft, snowmobile, or all-terrain vehicle legally until the original application clears, and a registration card and decal(s) are sent.

(5) Information Concerning Expired, Validated, 60 Day Receipts

If a customer brings in an original receipt that has expired, contact this office for instructions. If this office cannot be reached, you may revalidate the receipt. Instruct the customer to contact this office so that the nature of the delay can be checked. If a customer has not received a watercraft, snowmobile, or all-terrain vehicle registration within the 60 day limit allowed by the receipt, this is an indication of some problem and we must be notified. DO NOT REVALIDATE ANY RECEIPT MORE THAN ONCE.

(6) Placement of Watercraft, Snowmobile, and All-Terrain Vehicle Decal(s) and Registration Numbers

At the end of this booklet is the instructions for the proper placement of watercraft, snowmobile and all-terrain vehicle decal(s) and registration numbers. These instructions are also found on the back of the decal itself, and in the watercraft and snowmobile guides. (No ATV guide available.)

Exceptions: Rubber raft owners may place the registration numbers and the decals on two pieces of board and attach the boards to the tow ropes of the raft on the outside of the raft.

- (6) **Exceptions:** Sailboard owners must affix the decals to the stern of the watercraft. If the decals will not adhere to the board, the owner should contact this office for instructions.

Removal of Decals

A copy of instructions from 3M concerning the removal of decals from watercraft, snowmobiles, and all-terrain vehicles is attached to the back of this booklet. Call this office if extra copies are needed.

- (7) Miscellaneous Information

The owner of a motorized canoe or sailboat must put the assigned registration number on the sides of the watercraft in the manner shown for a pleasure\* watercraft. The registration fee remains the same: \$7.00 for any canoe or sailboat 19 feet in length or under.

\*Pleasure watercraft are defined as: utility boats (including fishing), runabouts, cruisers (hardtop cabins), pontoons (twin-hulled), houseboats (except pontoons), rafts (inflatables except canoe-shaped inflatables), water sports craft (jetski, wet bikes), and "other" (otherwise unspecified watercraft).

FYI: The following is a list of sailboard makes:

Alpha	Hi Fly	Rocker Express
Bix	JJ	Sail-Co
Cayestar	Kirma	Sun Surger
Connely	Mach 3	Topflight
Dufour	Marken	Vinta
F 2 Comet	Mistrall	Whaler
Happy Marlin	O'Brien	Wiki

- (8) Supply Requests

To insure prompt delivery, order supplies well in advance using the supply order form provided by this office. Ordering in advance is especially important during the peak renewal times for watercraft, snowmobiles, and all-terrain vehicles as these are the busiest times for this office. Also, be sure to mark your envelope "SUPPLIES ORDER" for better service.

- (9) Change of Address, Phone Number, or Personnel

Please notify this office immediately should your office change its location, phone number(s), or lead personnel.

## LICENSING INFORMATION

### A. WATERCRAFT

All motorized and non-motorized watercraft must be licensed by the Department of Natural Resources.

Exceptions to this law are as follows:

1. Watercraft currently registered in another state not kept in Minnesota for more than 90 consecutive days.
2. Watercraft from a country other than the U.S. and not kept in Minnesota for more than 90 consecutive days.
3. Watercraft owned by the U.S. government, except those used for recreational purposes.
4. Watercraft documented with the U.S. Coast Guard.
5. A ship's lifeboat.
6. Duckboats during the duck hunting season; rice boats during the harvest season and seaplanes.
7. Non-motorized watercraft 9 feet in length or less.

### B. SNOWMOBILES

All snowmobiles must be licensed by the Department of Natural Resources. Exceptions to this law are as follows:

1. Snowmobiles owned and used by the U.S., another state, or a political subdivision thereof.
2. Snowmobiles registered in a country other than the U.S. temporarily used within this state.
3. Snowmobiles covered by a valid license of another state and which have not been within this state for more than 30 consecutive days.
4. Snowmobiles used exclusively in organized track racing events.

(The Commissioner of Natural Resources may issue special permits to out-of-state snowmobiles from a state or country where registration is not required to operate in Minnesota for limited periods of time not to exceed 30 days in connection with organized group outings, trailrides, races, rallies and other promotional events.)

### C. ALL-TERRAIN VEHICLES

An all-terrain vehicle (ATV) is a motorized flotation-tired vehicle of not less than three low-pressure tires, but not more than six tires, that is limited in engine displacement of less than 800 cubic centimeters and total dry weight less than 600 pounds.

No person may operate an ATV anywhere in the state unless it has first been registered with the Department of Natural Resources.

C. Exceptions to this law are as follows:

1. Vehicles being operated on private lands with permission of the landowner.
2. Vehicles being used for work exclusively on agricultural lands.
3. Vehicles owned and used by the U.S., another state, or a political subdivision.
4. Vehicles covered by a valid license of another state or country that have not been within this state for more than 30 consecutive days.
5. Vehicles used exclusively in organized track racing event.

D. ALL-TERRAIN VEHICLE TITLES

All-terrain vehicle owners who have secured a title from the Department of Public Safety, Motor Vehicles Division must retain the title for their records. This document is not to be collected at the time of the vehicle's registration by the Department of Natural Resources. No proof of ownership is required to register an all-terrain vehicle.

E. HULL IDENTIFICATION AND SERIAL NUMBERS

1. Watercraft: Hull ID numbers (serial numbers) on watercraft are requested, not required information. Many older watercraft or homemade ones have no hull identification and must be registered without it. However, if a customer wants to record a hull ID on his/her watercraft, he/she may use any six (6) digit number, excluding their social security number, and permanently affix it to the hull of the watercraft. In any case, we encourage the deputy registrars to collect and record this information.
2. Snowmobiles: Serial numbers must be recorded on all snowmobile applications. If there is none, the customer must use any six (6) digit number, excluding their social security number. This six digit number must be permanently affixed to the body of the snowmobile.
3. All-Terrain Vehicles: Serial numbers must be recorded on every all-terrain vehicle application. If there is none, the customer must use any six (6) digit number, excluding his/her social security number. This six digit number must be permanently affixed to the body of the all-terrain vehicle.

F. LICENSE FEES LIST

3. All-Terrain - 00.00 Tax exempt ATVs owned by the state of Minnesota and operated by its agents and political subdivisions
  - 18.00 Unregistered and renewals
  - 4.00 Transfer or duplicate registration card

Snowmobile and All-Terrain Vehicle Dealers: These dealers must contact the DNR License Bureau for information concerning dealer licenses. They cannot be licensed at the deputy registrar offices.

- G. DEPUTY REGISTRAR FEE - 50¢ per application

H. INFORMATION PERTINENT TO THE REGISTRATION OF ALL WATERCRAFT, SNOWMOBILE, AND ALL-TERRAIN VEHICLES

1. Optional Information Requested On All Transactions:

The optional information includes the owner's phone number where he/she can be reached during the day, driver's license number, ( and, in the case of an ATV application only, a Public Safety ID number), and date of birth. No application may be denied if the owner refuses to provide this information.

2. County Codes:

Record a county code number on all watercraft, snowmobile and all-terrain vehicle applications in the space provided. The customer should refer to the standard county code list when recording this information. A copy of this list is included at the back of this booklet. Be sure to make it available for use.

3. Validation of All Watercraft, Snowmobile And All-Terrain Vehicle Applications And Receipts

- a. The deputy registrar must stamp the back of all hard- and soft-copy applications submitted to this office. This stamp enables this office to identify the date and place of each transaction and, if necessary, it provides a trace to the weekly report on which the transaction was recorded.
- b. A validated receipt must be issued for every transaction. This receipt is the customer's copy which must be stamped in such a way as not to obscure the information written on it. This receipt insures the customer's legal use of the watercraft, snowmobile, and/or all-terrain vehicle for 60 days or until the registration card and decal(s) are received by the owner.

4. Name And Address of the Owner:

Record the complete name and address of the owner on each application, e.g., as it is shown on his/her driver's license, if one is available. Nick names should be avoided. Also, resort owner's must use the same resort name for all of their registered watercraft, and avoid using variations

\*\*\*\*\*

The following pages contain examples of watercraft, snowmobile, and all-terrain vehicle (ATV) unregistered renewal, transfer, renewal and transfer, and duplicate registration card applications. Each page contains information appropriate to each application. Should this office generate any new forms concerning these applications, you will be supplied with a replacement page.

\*\*\*\*\*

Procedure For Unregistered Watercraft, Continued:

TOILET  
INFORMATION:

On all of the following watercraft applications, with the exception of the duplicate registration card and the renewal applications, the owner must check "yes" or "no" concerning the toilet information requested. If there is a toilet on the watercraft, the owner must check the box under "USCG CERT" if the toilet is certified by the U.S. Coast Guard.

MISCELLANEOUS  
INFORMATION:

On all of the following watercraft applications, the customer must check the appropriate boxes for the type of watercraft, the type of use, the hull material, and the propulsion of the watercraft.

DIRECTIONS FOR REMOVING  
WATERCRAFT, SNOWMOBILE, AND ATV DECALS

USING A RAZOR BLADE, START PULLING A CORNER OF THE  
DECAL AWAY FORM THE SURFACE.

APPLY MINERAL SPIRITS OR PAINT THINNER TO THAT  
CORNER TO MELT THE ADHESIVE. NOTE: TEST AN AREA THAT  
DOES NOT SHOW TO MAKE SURE IT DOESN'T HARM THE FINISH.  
DO NOT USE A LACQUER-BASED THINNER.

CONTINUE ALTERNATING BETWEEN THE RAZOR BLADE AND  
THE THINNER UNTIL THE DECAL IS REMOVED.
