PRESIDENT'S REPORT

It was my great pleasure to have served as the president of the Minnesota State High School League Board of Directors during the 2012-2013 school year. School boards and school communities, like the League, have faced programmatic and economic challenges, but the League's Board of Directors continue to focus on policy decisions that provide education-based athletic and fine arts activities for students in our member schools in as many ways as possible.

Tournament related proposals, as well as expanded activities, were addressed by the Board of Directors. Continuing Education Requirements for head coaches and assistant coaches were reviewed and modified; new training modules were developed; the statemandated concussion education was monitored; educational initiatives through on-line rules meetings were developed; and the Why We Play Conference trained more than 675

coaches and activity directors. This first-time workshop drew rave reviews from coaches and presenters alike, and plans are already underway for a second such workshop in 2014. Some of the other actions approved by the Board include:

- o A request from the Minnesota State High School Clay Target League for the League to become a Presenting Partner of the Clay Target Shooting State Tournament beginning with the 2013-2014 school year.
- o Competitive Section Placement for 2013 -2015.
- o Format changes to the state girls' and boys' basketball tournaments for the next five years due to the inability to contract facilities.
- o Celebration plans during the 2015-2016 school year to commemorate the MSHSL 100 year anniversary.
- o A review of the League's Mission Statement and adoption of the tagline "Education and Leadership for a Lifetime".
- o New timelines for cooperative sponsorship submission.
- o Continued financial support for member schools through the MSHSL Foundation.

The MSHSL staff has continued to conduct the fall and spring area meetings throughout the state, and information was gathered from administrative groups, coaches associations, and others involved in the administration of education-based activity programs. This input formed the Board of Director goals for the 2013-2014 school year.

My four years as a member of the MSHSL Board of Directors have flown by. I was blessed to have had an opportunity to represent Administrative Region 1AA & 2AA and I want to thank them for the confidence they placed in me. Moreover, I want to assure our entire membership that we have a board and staff that listens to the input provided by all stakeholders well in advance of any decision-making. Board members have always made decisions without regard to personal agendas, and a thoughtful discussion always preceded any action item on the agenda.

As with all successful organizations, the strength of our League lies in the collective willingness to receive information shared with your Board of Directors representative(s) and the support provided by the League staff who carry out each new initiative with consistency and enthusiasm. And, the integrity and trust placed on each coach, advisor, and administrator provides a solid foundation upon which success can be achieved.

Thank you for allowing me to serve our students, our member schools, and our school communities as your Board of Directors president.

Mark Fredericksen Waconia High School MSHSL Board of Directors, President 2012-2013

Mission

The Minnesota State High School League is a non-profit, voluntary association of public and private schools with a history of service to Minnesota youth since 1916. Its mission is to provide educational opportunities through interscholastic athletics and fine arts programs for students and leadership and support for member schools.

We believe:

- Participation in school activity programs is a privilege and not a right.
- Sportsmanship needs to have a constant presence in all school-based activity programs.
- Students should have an equal opportunity to participate in all activities offered by their school.
- o Ethical behavior, dignity and respect are non-negotiable.
- o Student participants who choose to be chemically free must be supported.
- Collaborative relationships with parents enhance a school's opportunity to positively impact student success.
- Academic priorities must come before participation in athletics or fine arts activities.
- Positive role models and an active involvement in a student's life by parents and others are critical to student success.
- High school activity programs are designed for student participants and adults must serve in a supportive role.
- o The success of the team is more important than individual honors.
- Compliance with school, community and League rules is essential for all activity participants.
- Participation in school-sponsored activities must be inclusive, not exclusive.
- Ethical behavior, fairness, and embracing diversity best serve students and school communities.

History

The Minnesota State High School League was first organized in 1916 by a group of local superintendents. Then called the State High School Athletic Association, its mission was to promote amateur sports for boys and establish uniform rules for interscholastic contests.

In 1929, the Association broadened its scope to include speech and debate, and the Association's name changed to the Minnesota State High School League.

In 1960, the League incorporated under Minnesota Law as a non-profit, voluntary association of high schools. The League added music to its list of sponsored activities in 1965 and girls' athletics in 1969.

In 1973, Minnesota statutes provided that membership in the League is available to any high school in Minnesota that satisfied the compulsory attendance requirement under Minnesota Law. Thirty-seven non-public schools joined the League the next year.

A review of the League eligibility rules in 1980 resulted in the creation of the TARGET Minnesota, an award-winning program that supports chemically free student leaders.

During the 1990's the League became the first activity association in the nation to sponsor girls' ice hockey. In 1993, the organization took on a new challenge and now offers adapted athletic programs for students with disabilities.

In 2007, the Minnesota State High School League Foundation was created to promote student participation in interscholastic athletics and fine arts activities. The Foundation has awarded more than a million dollars in grants to fulfill its mission.

Today, more than 500 high schools are League members. Those schools provide athletics and fine arts activities for more than 200,000 students statewide.

Services to Member Schools

The Minnesota State High School League is a service organization providing its membership with publications, training opportunities, recognition programs, post-season tournaments, rules interpretation meetings, and many other services that assist in the administration of interscholastic activities.

The League serves students first and foremost, providing educational experiences through participation in athletics and fine arts activities. Interscholastic competition leads to state tournament competitions which are conducted by the League. Students also are acknowledged through several recognition programs for academic achievements, community service, and leadership.

The League serves its 525 member schools by providing competitive environments with rules that support fair play and equitable competition. School personnel, from elected local school board members to superintendents, from principals to athletic/ activity directors, are invited twice annually to area meetings throughout the state to share concerns and discuss issues.

The League serves coaches and contest officials by providing educational and training opportunities. Through the Coaches Education Program, coaches can learn about the fundamentals of coaching, concussion management, emergency response planning, and the rules that govern both student eligibility and the activities they oversee. Officials are provided with online meetings to review contest rules and are provided opportunities for further training in the mechanics of officiating.

The League serves the public in general as a complimentary extension of the classroom by providing activities for high school youth that teach lifelong lessons and develop responsible citizens. Communication with the general public takes many forms, not the least of which is a comprehensive Web site – www.mshsl.org.

Grassroots Governance

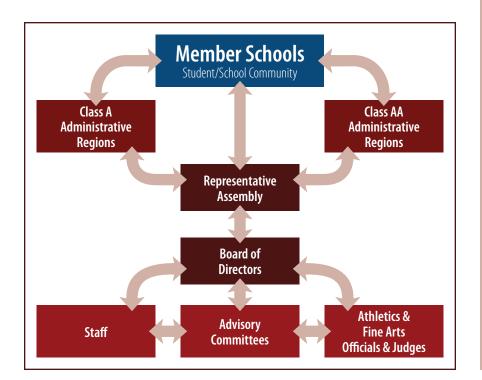

As a non-profit, voluntary association of public and private schools, the League is structured to listen to and respond to its members. Individual school boards decide every year to join the League. Each member school and its composite constituencies—students, parents, coaches, administrators, and school board members—have a voice at the grassroots level known as an administrative region.

A region committee comprised of representatives from League member schools manages the activities and events associated with each administrative region. Each of these 16 committees—8 Class A and 8 Class AA—make decisions about how subsection and section competition is conducted; elect or appoint three people to serve on the Representative Assembly which acts on bylaws that govern eligibility and the administration of League activities; and they review proposed changes to League bylaws before consideration by the Representative Assembly. The committees also report to the 20-member Board of Directors, which oversees the administration of all League activities and events.

Forty-eight people, representing the League's membership, comprise the Representative Assembly, the League's legislative body. The Assembly meets annually to consider all bylaw proposals that come from League member schools, region committees, the Board of Directors, and state athletics and fine arts associations. League bylaws govern the addition of new activities, season lengths, number of contests, eligibility standards, and amateurism requirements of student athletes and fine art participants. Bylaws also set requirements for conduct, enrollment, and they give direction to scholarship, student transfers, and many other areas important to the sound administration of high school athletic and fine arts programs.

Activity Advisory committees provide direct information to the Board of Directors about activity programs. These committees—there's one for each activity the League sponsors—meet once a year to review and recommend changes to athletics and fine arts programs. Activity associations appoint people to serve on the advisory committees. Committee members generally serve two-year terms.

The intent is to involve everyone from students and their parents and coaches to school administrators and their elected school board members, in the League's decision-making process.

LEAGUE FINANCES

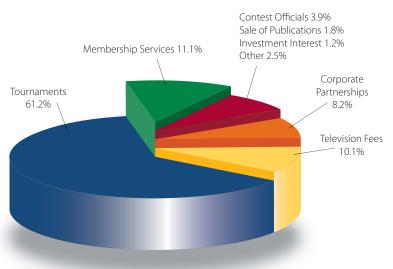

The Minnesota State High School League is a non-profit organization. The League operates on an annual budget of about \$8.3 million and receives no funding from the state legislature.

Revenues generated from tournament ticket sales, broadcast rights fees, and other tournament related-income make up the majority of the League's operating budget. The remaining portion of the budget comes from corporate sponsorships, publication sales, registration fees and investment income.

At the end of each fiscal year, revenue remaining after all expenses are paid, is distributed to member schools fortunate enough to have competed at the state level. Those shares of revenue during the past 10 years have averaged \$744,000 each year, an average of \$2,011 per school.

The Office of the State Auditor for Minnesota audits all financial records of the League. The audit report is mailed to League member schools.
