

2016 Annual Report

January 12, 2017

Dear Governor Dayton,

On behalf of the board and staff of the Minnesota Public Facilities Authority, I am pleased to provide you with our fiscal year (FY) 2016 Annual Report as required by Minnesota Statues, section 446A.09.

The Public Facilities Authority (PFA) is a multi-agency authority that provides financing and technical assistance to local governments for infrastructure projects that support a thriving economy and a clean, healthy environment. The PFA board consists of the Commissioners of the Pollution Control Agency and the Departments of Health, Transportation, Agriculture, Management and Budget, and Employment and Economic Development, with the DEED Commissioner serving as PFA Chair.

In FY 2016 the PFA funded 53 infrastructure projects for local governments throughout the State, with loan and grant awards totaling \$182 million. Since inception in 1987, the PFA has made 966 loans totaling \$3.8 billion, primarily for water infrastructure improvements. During that time the PFA has also awarded 567 grants for \$502 million to provide supplemental assistance to meet affordability needs and address specific water quality protection and restoration goals.

The PFA's independently audited Financial Report for FY 2016 is included with this Annual Report. The PFA remains in excellent financial health. All three major revolving funds have bonds outstanding and are highly rated. PFA Clean Water and Drinking Water Revolving Fund bonds have AAA ratings by the three major national bond rating agencies, and Transportation Revolving Loan Fund bonds are rated from AAA to AA2.

Unfortunately the lack of a 2016 bonding bill with appropriations to support the PFA's loan and grant programs has caused many 2017 scheduled projects to be postponed. Hopefully a bonding bill can be approved in 2017 and we will work with cities to expedite these important infrastructure projects as soon as possible.

We look forward to continuing the PFA's mission of providing affordable financing to help meet the State's infrastructure needs. If there are any questions about the PFA's annual report please contact me.

Sincerely,

Jeff Freeman, Executive Director Minnesota Public Facilities Authority

Minnesota Public Facilities Authority

2016 Annual Report to the Governor and Legislature

Note (as required by Minnesota Statutes, section 3.197): Preparation of this report required an estimated 28 hours of staff time for an approximate cost of \$1,833.

Introduction

The Minnesota Public Facilities Authority (PFA) is a multi-agency authority that provides financing and technical assistance to local governments for infrastructure projects that support a thriving economy and a clean, healthy environment. The PFA board consists of the Commissioners of the Pollution Control Agency (MPCA) and the Departments of Health (MDH), Transportation (MnDOT), Agriculture (MDA), Minnesota Management and Budget (MMB), and Employment and Economic Development (DEED). The DEED Commissioner serves as the PFA Chair.

PFA priorities are to:

- Manage capital assets (currently \$2.4 billion) to ensure a stable source of infrastructure financing in perpetuity.
- Provide infrastructure financing programs to support water quality, public health, and other priorities identified by PFA member agencies.
- Help local governments maintain and improve the condition of their water infrastructure systems while keeping costs affordable for their residents.

The PFA manages three large revolving loan funds that have received federal capitalization grants and state match appropriations, and for which the PFA has authority to issue up to \$1.5 billion (max outstanding) in revenue bonds to raise additional capital to make loans. In addition, PFA manages several other grant and loan programs, funded primarily from state appropriations. All major programs of the PFA are administered in conjunction with member agencies. The MPCA, MDH, and MnDOT are responsible for establishing project priorities and for technical review and regulatory compliance for projects from their respective priority lists that are being considered for financing by the PFA.

The PFA Executive Director is responsible for carrying out the PFA's responsibilities, including compliance with state and federal regulations related to programs and debt issuance. PFA staff advise communities on financing requirements and options, review the creditworthiness of applicants, determine that full project financing is in place and that the necessary dedicated revenues are established, disburse loan and grant funds as eligible project costs are incurred, monitor project progress, and collect loan repayments.

The PFA receives no general fund appropriations. Funding for the PFA's revolving loan funds comes from federal capitalization grants, state match funds appropriated from state general obligation bond proceeds, revolving fund revenues, and proceeds of PFA's AAA-rated revenue bonds, which are backed solely by the assets and revenues of the revolving loan funds. Funding for the Wastewater Infrastructure Funding (WIF) program comes from state appropriated for general obligation bond proceeds. Dedicated Clean Water Legacy Funds are appropriated for certain municipal infrastructure programs to achieve specific water quality goals. Administrative costs for the PFA (10.5 FTEs), MPCA (12.0 FTE's), and MDH (4.35 FTEs) are paid primarily from service fees on loan repayments. Administrative and technical support services for the PFA are provided through an interagency agreement with DEED.

FY 2016 Program Activity

As described below, in fiscal year (FY) 2016 (July 1, 2015 to June 30, 2016) the PFA funded 53 infrastructure projects totaling \$182 million for local governments throughout the state. To finance these projects the PFA awarded 46 low interest loans totaling \$152.4 million and 27 grants totaling \$29.5 million. A summary of FY 2016 project awards by program is shown on page 7. Exhibit A on pages 11-14 provides a detailed list of project awards.

Clean Water Revolving Fund

The PFA's Clean Water Revolving Fund (CWRF, MS 446A.07) combines annual federal capitalization grants and state matching funds with loan repayments and PFA revenue bond proceeds to establish a permanent source of low interest capital to help local governments finance wastewater and stormwater infrastructure projects. Since 1990 the PFA has made over 500 CWRF loans totaling \$2.9 billion, and as allowed under federal and state law, has also used a portion of federal CWRF funds to make principal forgiveness grants totaling \$66.6 million based on affordability, energy conservation and other criteria. The PFA has also allocated \$89.6 million in CWRF funds to capitalize nonpoint source loan programs administered by MDA, MPCA and DEED.

In FY 2016, the PFA awarded 18 CWRF loans totaling \$106.1 million at an average interest rate of 1.08 percent and 4 principal forgiveness grants totaling \$8.4 million for municipal wastewater and stormwater infrastructure projects. In addition the MDA, MPCA and DEED used CWRF funds to make 59 loans totaling \$9.5 million through the Agriculture Best Management Practices (AgBMP), Clean Water Partnership (CWP) and Tourism Loan programs to finance 265 individual projects by private landowners and local governments to reduce nonpoint source pollution.

Drinking Water Revolving Fund

The PFA's Drinking Water Revolving Fund (DWRF, MS 446A.081) combines annual federal capitalization grants and state matching funds with net loan repayments and PFA revenue bond proceeds to establish a permanent source of low interest capital to help local governments finance drinking water infrastructure projects. Since 1999 the PFA has made over 380 DWRF loans totaling \$769 million, and as allowed under federal and state law, has also used a portion of federal DWRF funds to make principal forgiveness grants totaling \$62.5 million based on affordability and other criteria. The PFA has also provided \$48 million in DWRF funds to the MDH for wellhead protection, technical assistance to small systems, and other drinking water protection activities.

In FY 2016, the PFA awarded 25 DWRF loans totaling \$45.8 million at an average interest rate of 1.03 percent and 4 principal forgiveness grants totaling \$2.9 million for municipal drinking water infrastructure projects.

Minnesota Public Facilities Authority 2016 Annual Report

Transportation Revolving Loan Fund

The Transportation Revolving Loan Fund (TRLF, MS 446A.085) is a smaller revolving fund established in 1997 that combines a one-time infusion of federal funds and prior state appropriations to create an alternative source of financing for certain transportation projects selected by the Department of Transportation. The PFA has also leveraged available funds by selling 4 series of closed pool revenue bonds for certain eligible projects. Net loan repayments revolve back to the fund for new loans. Since 1999 PFA has made 34 loans totaling \$175 million for state and local government transportation projects.

In FY 2016 the PFA did not award any TRLF loans.

Wastewater Infrastructure Funding Program

The Wastewater Infrastructure Funding Program (WIF, MS 446A.072) provides supplemental assistance grants to assist municipalities with high cost wastewater projects needed to address high priority environmental and public health needs. WIF funds are appropriated from state general obligation bond proceeds. The WIF program provides grants up to \$4 million to municipalities to supplement low-interest loans from the PFA's Clean Water Revolving Fund or to match grant and loan funding from the U.S. Department of Agriculture (USDA) Rural Development. WIF grants are awarded for up to 80% of project costs based on household affordability criteria or up to 65% of the grant need determined by USDA Rural Development.

In FY 2016 the PFA awarded 8 WIF grants totaling \$7.9 million.

Point Source Implementation Grant Program

The Point Source Implementation Grant Program (PSIG, MS 446A.073) provides grants to help municipalities construct wastewater treatment and stormwater projects when the MPCA determines that higher levels of treatment are necessary to meet water quality goals. PSIG funds are appropriated from the Clean Water Legacy Fund. Eligible PSIG projects include those necessary to meet Total Maximum Daily Load (TMDL) wasteload requirements, water quality based effluent limits including phosphorus reduction requirements, and nitrogen limits for soil-based wastewater treatment systems. The PSIG program provides grants for 50% of eligible project costs up to \$3 million.

In FY 2016 the PFA awarded 6 PSIG grants totaling \$7.8 million.

Small Community Wastewater Treatment Program

The Small Community Wastewater Treatment Program (MS 446A.075) provides loans and grants to help very small communities address environmental and public health problems from non-complying septic systems. Small Community program funds are appropriated from the Clean Water Legacy Fund. The program provides technical assistance grants to help communities evaluate wastewater treatment alternatives, and construction financing through low interest loans and grants to replace individual systems with community subsurface treatment systems.

Minnesota Public Facilities Authority 2016 Annual Report

In FY 2016 the PFA awarded 1 technical assistance grant for \$59,601 and 3 construction loan/grant awards for \$2.2 million.

Credit Enhancement Program

In addition to its direct financing programs, the PFA administers the Credit Enhancement Program (MS 446A.086) in conjunction with MMB to reduce borrowing costs for local governments that issue their general obligation bonds for eligible construction projects in the private market. The program provides a limited state guarantee of the local government's bond payments, thereby helping issuers achieve higher bond ratings and lower interest costs. For counties eligible projects are law enforcement facilities, social and human services buildings, and solid waste facilities. For cities eligible projects are wastewater, drinking water, and stormwater infrastructure facilities. To date, the PFA has enrolled a total of 276 local government bonds in the program with a total original par amount of \$941 million and approximately \$629 million outstanding.

In FY 2016, the PFA approved 21 local bond issues in the program for \$68.9 million.

Summary of FY 2016 Project Awards

The table below summarizes FY 2016 PFA project awards by program.

Program Clean Water Revolving Fund ***	$\frac{\text{Count}}{\frac{*}{22}}$	\$ Awarded as Grant 8,418,984	\$ Awarded as Loan 106,103,836	Average Loan Rate 1.08%	Estimated Interest Savings from PFA Loans ** 16,017,600

MN Public Facilities Authority Project Awards Since Inception in 1990, by RDC Region

Minnesota Public Facilities Authority 2016 Annual Report

Bonding Activity

The PFA sells revenue bonds to leverage state and federal monies in its revolving loan funds. The bonds are not backed by the State; they are secured and repaid entirely from the revolving fund assets and revenues. PFA revenue bonds issued for its clean water and drinking water revolving funds (State Revolving Fund bonds) are rated AAA by all three rating agencies. The PFA has statutory authority to issue up to \$1.5 billion in outstanding bonds. As of June 30, 2016 the PFA had \$974 million in outstanding bonds. Bonds are sold on a cash flow basis to cover project disbursements. In March 2016 the PFA issued \$354 million in State Revolving Fund bonds, including \$247 million for loans and \$107 million in refunding bonds.

The tax-exempt bonds issued by the PFA are subject to a variety of Internal Revenue Service regulations governing use of the funds and handling of the bonds. These include limits on the amount of investment income that may be earned and requirements for excess earnings to be rebated at certain points in time to the IRS. This arbitrage rebate liability is calculated annually and reported in the PFA's annual audit. In August and September of 2015 the PFA made payments of \$58,203 to the IRS, including \$15,542 for arbitrage rebate and \$42,661 through the IRS Voluntary Closing Agreement Program (VCAP) due to an inadvertent violation of tax-exempt regulations. The PFA's estimated arbitrage rebate liability as of June 30, 2016 is \$978,595 which is not yet payable.

Water Infrastructure Needs

Based on the most recent needs surveys conducted by MPCA, MDH and the U.S. Environmental Protection Agency, clean water infrastructure needs for Minnesota cities over the next 20 years total approximately \$4 billion and drinking water infrastructure needs exceed \$7 billion over the same period. These needs include replacing aging treatment plants and underground infrastructure, upgrading treatment plants to meet new requirements, and expanding systems in some areas to accommodate growth.

As municipalities identify specific construction projects for which they plan to seek state funding assistance within five years, they submit requests to the MPCA and MDH to have the projects ranked on the state's project priority lists. The MPCA 2017 project priority list for clean water (wastewater and stormwater) infrastructure identifies 307 projects totaling \$1.5 billion for construction over the next five years. The MDH 2017 project priority list for drinking water infrastructure lists 330 projects totaling \$559 million over the same time frame.

When municipalities on the project priority lists schedule their projects for construction in the coming year, they request placement on the PFA's annual CWRF and DWRF Intended Use Plans (IUPs). Unfortunately the 2016 legislative session ended without approval of a bonding bill and an appropriation for state matching funds for CWRF and DWRF federal capitalization grants. As a result, the PFA was not able to place any new project requests on its 2017 IUPs, which were approved in September 2016 with only carryover projects from the 2016 IUPs. (Carryover projects are those that have been approved and certified by the end of the fiscal year but have not yet taken bids and been awarded funding.) The 2017 CWRF IUP contains 36

Minnesota Public Facilities Authority 2016 Annual Report

carryover projects totaling \$107 million in requested financing, and the 2017 DWRF IUP contains 37 carryover projects totaling \$86 million.

In addition to these carryover projects, the PFA received 46 new project requests totaling \$227 million for the 2017 CWRF IUP and 109 new project requests totaling \$236 million for the 2017 DWRF IUP. If state matching funds are appropriated in the 2017 legislative session, the PFA may amend the 2017 IUPs to include some but likely not all of the new project requests. The average annual loan capacity of the CWRF is approximately \$94 million per year and \$39 million per year for the DWRF. While the PFA can and often has used its reserves and revenue bonding authority to make loans at higher levels, in the long term this reduces the sustainable lending capacity of the revolving funds and cannot be maintained without additional federal and state support.

Municipal water infrastructure needs are growing, and cities throughout the state need more help to address these needs in order to continue to protect public health, provide expected levels of service to their residents, and do their part protect and restore Minnesota's valuable water resources. Over the past five years (FY 2012-2016), annual PFA financing to cities has averaged \$163 million for 47 clean water and drinking water projects per year, including an average of 135 million in loans and \$28 million in grants. These numbers must increase for Minnesota cities to keep pace with their growing water infrastructure needs. This will require additional state and federal support to increase the lending capacity of the CWRF and DWRF, and additional grant funding to help address affordability needs and upgrade treatment facilities to meet new requirements.

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and each major fund of Minnesota Public Facilities Authority (the Authority), a component unit of the State of Minnesota, as of and for the years ended June 30, 2016 and 2015, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of the Authority as of June 30, 2016 and 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion and Analysis (Unaudited)

This section of the Minnesota Public Facilities Authority's (the Authority) annual financial report presents a discussion and analysis of the financial condition as of and financial activities for the fiscal years ended June 30, 2016 and 2015. Please read it in conjunction with the financial statements and notes following this section.

Introduction and Discussion of the Authority's Operations:

The Authority was created in 1987 by the State of Minnesota under Minnesota Statutes, Chapter 446A. The Authority provides low interest loans and grants to Minnesota municipalities to help finance infrastructure for clean water, drinking water, and transportation projects. Federal grants and state appropriations received by the Authority may be used directly or leveraged with proceeds of the Authority's revenue bonds.

The Authority has issued tax-exempt revenue bonds the proceeds of which are deposited into multiple bond funds. Except for certain cross-collateralization provisions between the Clean Water and Drinking Water Bond Funds, revenues and assets of each bond fund are separately pledged to the holders of that fund's bonds for debt service payments. Assets and revenues of the Authority outside of the bond funds are not pledged, and are used for grant and loan programs and general administration.

Financial Statement Presentation:

The basic financial statements following Management's Discussion and Analysis consist of those required for a special purpose governmental entity engaged in business-type activities:

- *Statement of Net Position* This is presented in the format of assets (financial and capital resources) plus deferred outflows of resources, less liabilities, less deferred inflows of resources equals net position. The portion of net position that is reported as restricted has constraints on its use due to bond resolutions and or enabling legislation.
- *Statement of Revenues, Expenses, and Changes in Fund Net Position* This statement presents the accrual basis operations and the resulting change in fund net position of the Authority for the fiscal year.
- *Statement of Cash Flows* This statement presents useful information regarding the sufficiency of cash flows to meet debt service requirements, because it includes cash flows such as principal received on loans and principal paid on bonds.

Statements for the fiscal year ended June 30, 2016 are followed by statements for the fiscal year ended June 30, 2015 to allow comparison of the Authority's financial position and results of operations for the current and prior fiscal years.

These statements are prepared on the accrual basis and present information on the Authority's overall financial position and results of operations. Assets and revenues of the separate funds contained within these statements are generally restricted as to use and the reader should not assume they might be used in any aggregate manner.

The Authority defines activities under each of its separate bond resolutions as major funds for financial reporting purposes, with all other accounts and activities outside of these bond resolutions reported in the Other Fund. A summary of the major funds reported by the Authority follows. A more detailed description of each is presented later in the section headed Analysis of Individual Funds' Balances and Transactions for Bond Funds.

- Clean Water Bond Fund (CWBF): In conjunction with the Minnesota Pollution Control Agency (MPCA), the Authority provides loans from the fund to municipalities for wastewater treatment projects certified by the MPCA.
- Drinking Water Bond Fund (DWBF): In conjunction with the Minnesota Department of Health, the Authority provides loans for public drinking water facilities.
- Transportation Bond Fund (TBF): Four separate closed resolutions have been created to make loans in cooperation with the Minnesota Department of Transportation: (1) TBF Series 1999A, (2) TBF Series 2001, (3) TBF Series 2006A, and (4) TBF Series 2008A. During the fiscal year ended June 30, 2011, two series of refunding revenue bonds were issued to refund the outstanding Series 1999A and Series 2001 bonds, TBF Series 2010-T1, and TBF Series 2010-T1, respectively. All outstanding 2006A bonds were redeemed on March 1, 2016.
- Other: All of the Authority's nonrevenue bond activity and accounts are aggregated in the Other Fund.

Within each of the bond funds, the Authority uses bond proceeds, federal capitalization grants, and state matching funds to make loans, pay for the costs of issuing debt, and to fund debt service reserve accounts when used. Federal capitalization grants and state matching grants within these funds are recognized as capital contributions. Net loan repayments and investment earnings provide the necessary cash flow to pay the required debt service on the bonds.

The operations in the Other Fund consist of grant and loan programs funded through federal grants and state appropriations, recognized in these accounts primarily as operating revenue, and administrative costs paid by a portion of the loan repayments, fees, interest earnings, or by federal grant funds.

Condensed Financial Information:

The following page presents condensed financial statement information as of and for the fiscal years ended June 30, 2016, 2015, and 2014.

June 30, 2016, 2015, and 2014	2016	2015	2014

State appropriations			6,600,000.00	5,173,800.00
Drinking Water Bond Fund	(DWBF):			
Federal capitalization gran	nts	6,918,120.00	13,855,603.53	1,174,042.68
Federal Build America B	onds revenue	615,901.92	612,840.97	608,215.76
State appropriations			5,400,000.00	2,826,200.00
Other Fund:				
Clean water federal gran	ts	8,881,997.52	2,492,875.52	2,566,590.31
Drinking water federal gr	ants	8,065,237.85	11,185,851.25	11,623,939.05
State appropriations and	fees	38,996,775.95	24,313,513.52	16,482,606.85
		\$ 82,736,168.63	\$ 89,185,221.24	\$ 60,660,597.98
Bonds Payable (par):	issued	354,330,000.00		
	defeased	(110,070,000.00)		
	redeemed	(163,415,000.00)	(77,620,000.00)	(73,825,000.00)
	net change	\$ 80,845,000.00	\$(77,620,000.00)	\$(73,825,000.00)
Loans Receivable:	disbursed	165,475,575.74	138,195,969.89	130,653,065.06
	repaid	(125,899,513.95)	(113,594,839.00)	(115,532,613.09)
	net change	\$ 39,576,061.79	\$ 24,601,130.89	\$ 15,120,451.97

During the fiscal years ended June 30, 2016, 2015, and 2014, net position changed by: \$30.4, \$44.9, and \$23.3 million, respectively. Volatility in this change is due largely to the timing of federal and state capital contributions: \$24.8, \$49.3, and \$28.1 million, respectively.

The weighted average interest rate on outstanding loan balances at June 30, 2016, 2015, and 2014 was 2.01%, 2.11%, and 2.18%, respectively.

The weighted average investment earnings rate (earnings \div average daily cash and investments balance) during fiscal years 2016, 2015, and 2014 was 0.73%, 0.71%, and 0.66%.

Loan and grant approvals for the last three fiscal years were \$182 million (73 contracts) in fiscal year 2016, \$227 million (80 contracts) in fiscal year 2015, and \$144 million (70 contracts) in fiscal year 2014.

Discussion of Long-term Debt Activity, Credit Ratings, and Debt Limitations:

The Authority's outstanding debt limit is \$1,500,000,000. The Authority bonds do not constitute a debt of the State of Minnesota or any agency or political subdivision thereof (other than the Authority). The principal amount of bonds outstanding at June 30, 2016 was \$974,285,000.

During fiscal years 2012 through 2015, the Authority issued no bonds. During fiscal year 2016, the Authority issued State Revolving Fund Revenue Bonds Series 2016A (Clean Water and Drinking Water) of \$247,425,000 and State Revolving Fund Revenue Refunding Bonds Series 2016B (Clean Water and Drinking Water) of \$106,905,000.

The Clean Water and Drinking Water bonds are rated triple A by Standard and Poor's (AAA), Moody's (Aaa), and Fitch Ratings (AAA). The transportation bonds were rated: Series 2006A bonds: Moody's (Aaa); Series 2008A bonds: Standard and Poor's (AAA) and Moody's (Aaa); Series 2010-T1 bonds: Moody's (Aaa); and Series 2010-T2 bonds: Standard and Poor's (AAA).

Analysis of Individual Funds' Balances and Transactions for Bond Funds:

This section will provide general information on each bond fund, followed by presentation and analysis of more detailed financial information.

Clean Water Bond Fund (CWBF): This pooled bond fund is a part of the Authority's Clean Water State Revolving Fund, operated under the federal Clean Water program, CFDA #66.458. Initiated in 1989, twenty six series of bonds have been issued for \$2.63 billion par, which includes \$1.02 billion for refunding prior issues. Federal capitalization grant awards and state match appropriations through June 30, 2016 were approximately \$864 million, net of nonpledged set-asides and principal forgiveness. The Authority has over the years transferred out approximately \$90 million from the CWBF for related but nonpledged programs known as non point-source programs. During fiscal years 2016, 2015, and 2014, the Authority transferred out \$-0- million, \$-0-, and \$0.9 million, respectively, from net position for these programs. This activity is reflected on the Statement of Revenues, Expenses, and Changes in Fund Net Position as transfers out of the CWBF to the Other Fund, then as expenditures in the Other Fund as sub-recipients expend the awards. Prior to removing assets from the CWBF, the Authority must meet conditions defined in the fund's basic bond resolution. The CWBF has made 517 loan commitments to 283 borrowers for approximately \$2.85 billion. The largest borrower, at approximately \$584.9 million in outstanding loans as of June 30, 2016, is the Metropolitan Council.

Drinking Water Bond Fund (DWBF): This pooled bond fund is a part of the Authority's Drinking Water State Revolving Fund, operated under the federal Safe Drinking Water program, CFDA #66.468. Initiated in 1998, nine series of bonds have been issued for \$438.5 million, which includes \$62.9 million for refunding prior issues. Federal capitalization grant awards and state match appropriations through June 30, 2015 were approximately \$297.1 million, net of nonpledged set-asides and principal forgiveness. The fund has made 382 loan commitments to 251 borrowers for approximately \$769.2 million. The largest borrower, at approximately \$75.9 million in outstanding loans as of June 30, 2016, is the City of Minneapolis.

Transportation Bond Fund (TBF): This fund consists of four closed, stand-alone bond issuances with separate pledged assets and revenues for each:

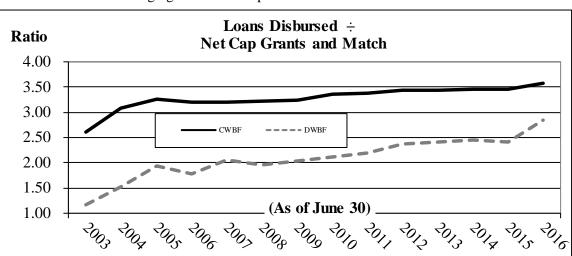

- The series 1999A bonds of \$17.08 million par were issued in March 1999. The Authority transferred \$4.1 million in cash into the fund at issuance, from its nonpledged accounts. One loan for \$21.025 million was made to the Metropolitan Council. In November 2010, bonds outstanding were redeemed with proceeds of the Revenue Refunding Bonds Series 2010-T1.
- The series 2001 bonds of \$20.45 million par were issued in December 2001. The Authority transferred \$16.77 million in cash and loans into the fund. Nine loan commitments totaling \$34.78 million form the loan pool pledged to these bonds, and a \$1.9 million debt service reserve account was also created from the assets transferred in. In November 2010, bonds outstanding were redeemed with proceeds of the Revenue Refunding Bonds Series 2010-T2.
- The series 2006A bonds of \$8.9 million par were issued in December 2006. The Authority transferred \$2.4 million in cash into the fund at issuance, from its nonpledged accounts. One loan for \$11.2 million was made to Stearns County. All outstanding 2006A bonds were redeemed on March 1, 2016.
- The series 2008A bonds of \$7.7 million par were issued in January 2008. The Authority transferred \$2.25 million in cash into the fund at issuance, from its nonpledged accounts. One loan for \$10 million was made to the Metropolitan Council.

Criteria used in evaluating the financial results and conditions of the bond funds include:

- The efficient use of contributed capital to accomplish the goal of making below market rate loans to program participants (CWBF and DWBF).
- The ability to generate cash flows sufficient to make debt service payments (all bond funds).

Analysis of the efficient use of federal capitalization grants and state match:

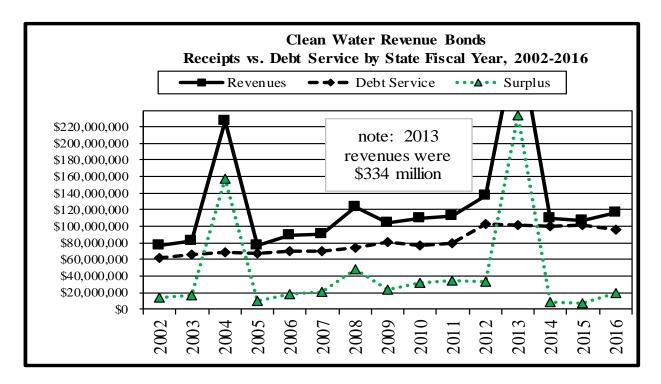

The amount of loans disbursed by the CWBF and DWBF, compared to the net amount of federal capitalization grants and state match recognized in the funds, gives a measure of the effective use of the capital contributions. Timing of loan disbursements and use of federal and state funds may affect the ratios at any point in time, but over time this ratio should grow as the programs grow in size and loan repayments become a larger portion of the available sources for new loans. The following chart displays the ratio at June 30th for the past fourteen years.

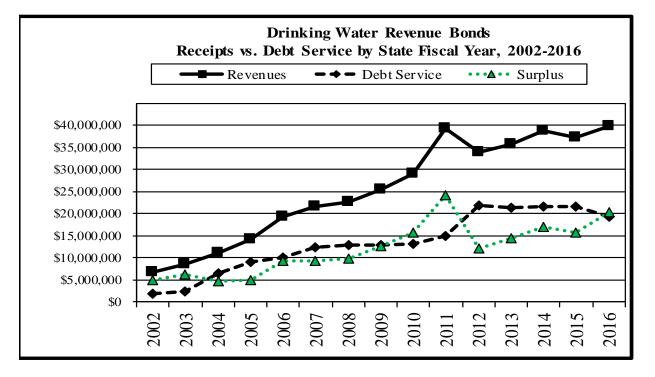

Clean Water and Drinking Water Bond Fund Programs Leveraging of Federal Capitalization Grants and State Match

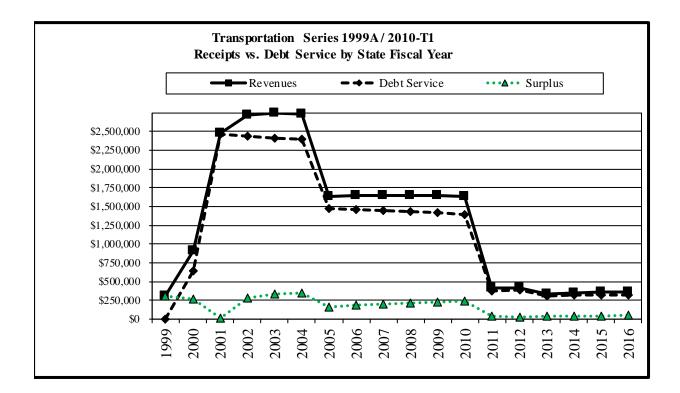

Analysis of historical cash flow sufficiency to make debt service payments:

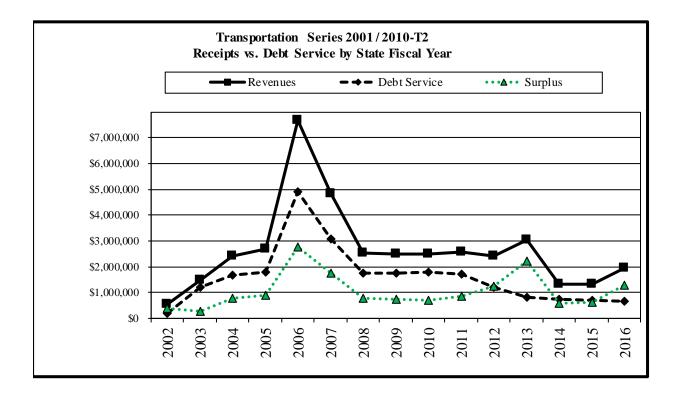

The following charts show each bond fund's cash flow history in meeting debt service payments. Annual total bond fund receipts, debt service, and net surplus are charted.

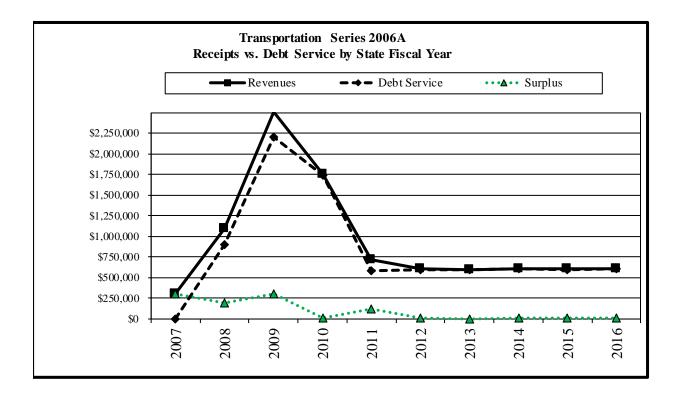

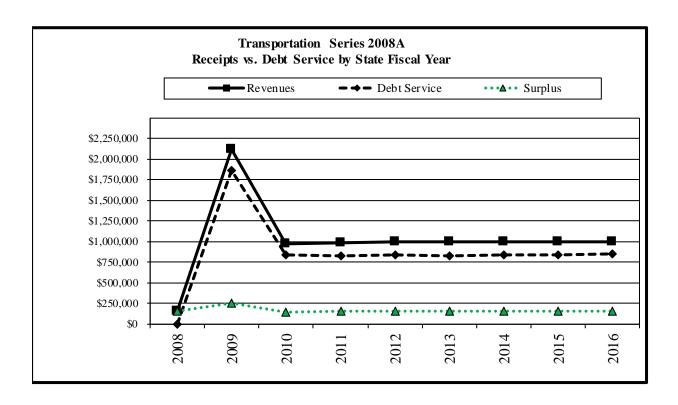

Charts of each fund's cash flow history to date in meeting debt service payments (note differing scales between the charts)

Financial ratios: The following table presents financial ratios regarding financial position and ability to generate cash flows sufficient to pay debt service requirements.

debt service cove	rage ratio:		nents + invest			ebt service)	

Even though operating income ratios for several of the Bond Funds are or have been less than 1, the cash flows are sufficient to pay debt service because the outstanding loans receivable balance is greater than the outstanding bonds. This fact is reflected in the debt service coverage ratios, which includes principal repayments as well as interest. Principal repaid on the loans exceeds the bond principal requirements and more than overcome the lower interest earnings on the loans. These financings were structured such that projected repayments on the loans made are sufficient to pay debt service on the lesser amount of bonds issued.

note: debt service is net of early calls.

Analysis of Individual Funds' Balances and Transactions for Non-Bond Funds:

The Other Fund includes grant and loan programs not funded with Authority bond proceeds, and the administrative costs for the Authority including costs of the Department of Employment and Economic Development, the Minnesota Pollution Control Agency (PCA), and the Department of Health. These administrative costs are funded partially from federal grants and partially from the fee portion of loans repayments.

The Authority, through inter-agency agreements, provides Clean Water and Drinking Water funds to Health, PCA, and the Department of Agriculture for related programs. The funds are from federal grant pass-thru or from net position removed from the CWBF. During the three most recent fiscal years these amounts were made available:

	MPCA Clean Water		Agricul	ture	Health Drinking Water		
			Best M	lgmt			
Sub-Grants	Partnership		Practi	ces	Set-Asides		
FY 2016	\$	-	\$	-	\$ 3,272,500		
FY 2015		-		-	3,459,060		
FY 2014	85	58,865		-	6,590,760		

State Appropriations – The Authority received no appropriations during the 2016 legislative session. During the 2015 session, \$10,000,000 was appropriated for the Wastewater Infrastructure Funding Program, \$18,000,000 for the Point Source Implementation Grants Program, and \$500,000 for the Small Community Wastewater Treatment Program, each reported in the Authority's Other Fund. These appropriations are recognized as operating revenue as related expenditure obligations are incurred.

Discussion of Facts and Conditions Expected to Have a Significant Impact on Financial Position and or Results of Operations:

Between fiscal years 2004 and 2013, the Authority received early pay-offs on loans for several hundred million dollars. These repayments were used to make new loans, but projected net receipts for the bond funds (in particular the CWBF) were reduced from fiscal year 2005 through fiscal year 2022 because the new loans had lower rates than the paid-off loans.

The average rate on outstanding loans, as well as the average rate earned on investments, has dropped substantially in recent (7-8) years. The lower loan rates are advantageous to the borrowers that get them, but everything else being equal, they do reduce future lending capacity.

The Authority adopts an annual Intended Use Plan (IUP) for the Clean Water program and for the Drinking Water program. The IUPs identify which projects may be considered for funding during the fiscal year, based on priority lists established by the MPCA for Clean Water projects and by the Department of Health for Drinking Water projects. The Authority reviews the long term funding capacity of the Clean Water Bond Fund and the Drinking Water Bond Fund when determining the level of funding for the annual IUPs. The average annual amount of Clean Water loans made has exceeded projected long-term sustainable capacity. Needs for wastewater system improvements continue to be substantial. Meeting current loan demand while preserving long term lending capacity for high priority projects throughout the State will be a continuing challenge.

On September 1 2016, the Authority advanced \$77,150,000 from the CWBF to the DWBF to call and redeem a like par amount of 2004A and 2005A DWBF bonds, without having to issue refunding bonds. The bond calls result in a reduction to future DWBF bond interest payments of nearly \$15 million. The Authority intends for the DWBF to repay the advance with interest, using a portion of each bond-year-end surplus. The scheduled principal payback matches the original maturity schedule of the called bonds. The interest rate charged will equal, for each month, the monthly rate reported by Minnesota Management and Budget on the state's collective cash pool know as Invested Treasurer's Cash. The Authority views the net effect of this transaction as a cost effective reduction to DWBF debt service while making the CWBF whole.

Requests for Information

This financial report is designed to provide a general overview of the Minnesota Public Facilities Authority's finances. Questions concerning any of the information provided in this report should be addressed to:

Minnesota Public Facilities Authority Notes to the Financial Statements Years Ended June 30, 2016 and 2015

1. Summary of Significant Accounting Policies

The financial statements of the Minnesota Public Facilities Authority (the Authority) have been prepared in conformity with accounting principles generally accepted in the United States as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for establishing governmental accounting and financial reporting principles. Descriptions of the significant accounting policies follow:

Reporting Entity - The Minnesota Public Facilities Authority (the Authority) was created in 1987 by the State of Minnesota under Minnesota Statutes, Chapter 446A (the Act). Under the Act, the members of the Authority are the Commissioner of Employment and Economic Development, the Commissioner of Management and Budget, the Commissioner of the Minnesota Pollution Control Agency (MPCA), the Commissioner of Agriculture, the Commissioner of Health, and the Commissioner of Transportation. The Commissioner of Employment and Economic Development serves as chair and chief executive officer of the Authority. These members serve as a result of their respective positions as commissioners, and their terms as members of the Authority coincide with their terms as commissioners. Pursuant to state law, commissioners may delegate and have delegated their duties as a member of the Authority in the event that the commissioner is unable to attend a meeting of the Authority.

The Department of Employment and Economic Development (DEED) provides administrative support services to the Authority. The MPCA and the Minnesota Department of Health also provide staff to administer, in cooperation with the Authority, certain programs of the Authority.

GASB Codification Section 2100 states that a primary government that appoints a voting majority of the organization's governing body, and either (1) is able to impose its will on the organization or (2) has the potential to receive specific financial burdens imposed on it by the organization, is financially accountable to that organization. Based on this criterion, the Authority is considered a discretely presented component unit of the State of Minnesota and is included in its basic financial statements.

The Authority is authorized to issue bonds. These bonds do not constitute a debt of the State of Minnesota or any agency or political subdivision thereof (other than the Authority).

Basis of Accounting – The Authority is a special-purpose government engaged in business-type activities. The Authority has determined that all of its funds shall be classified as enterprise funds and are therefore accounted for on the proprietary fund-type basis. All assets, deferred outflows of resources, and liabilities (whether current or noncurrent) associated with their activity are included on their statements of net position. Proprietary fund measurement is focused upon determination of net income, financial position, and cash flows. The Authority's proprietary funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. Proprietary funds are accounted for using the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when incurred.

Fund Accounting – As a governmental entity the Authority organizes its accounts on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund net position, revenues,

and expenses, as appropriate. Government resources are allocated and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. All of the Authority's funds are classified as proprietary funds. The Authority reports the following major proprietary funds:

- *Clean Water Bond Fund (CWBF)* The Authority receives federal capitalization grants under Title VI of the Federal Clean Water Act, and state matching grants. These funds are leveraged with proceeds from the Authority's pooled Clean Water revenue bonds to provide below-market-rate loans to municipalities and eligible political subdivisions to facilitate the construction of wastewater treatment facilities. Before the Authority can approve any particular loan, the MCPA must certify the applicant's project based on technical and environmental reviews.
- Drinking Water Bond Fund (DWBF) The Authority receives federal capitalization grants under Section 1452 of the Safe Drinking Water Act and state matching grants. These funds are leveraged with proceeds from the Authority's pooled Drinking Water revenue bonds to provide below-market-rate loans to municipalities to finance costs of drinking water system infrastructure. Before the Authority can approve any particular loan, the Minnesota Department of Health must certify the applicants' projects based on technical and environmental reviews.
- *Transportation Bond Fund (TBF)* This program was initiated with a federal grant from the U.S. Department of Transportation to the Minnesota Department of Transportation (MnDOT) and state matching grants. The Authority administers the TBF, which provides loans to municipalities and eligible political subdivisions for construction of highways, bridges, and streets, and for purchasing transit capital. MnDOT must certify applicants' projects based on MnDOT's design standards. Four closed, stand-alone series of revenue bonds were issued.
- *Other Fund* In addition to the pledged bond funds, the Authority manages various legislative appropriations for similar purposes. One of the programs included in the Other Fund is the Wastewater Infrastructure Funding Program (WIF). The Authority receives appropriations from the Minnesota Legislature to fund the program, and in conjunction with any particular loan from the CWBF or financing from the U.S. Department of Agriculture's Rural Development Office, WIF Supplemental Assistance grants are given to eligible municipalities with high-cost wastewater projects. The Other Fund also includes the accounts and activities related to management of the Clean Water Bond Fund, Drinking Water Bond Fund, and Transportation Bond Fund.

Federal Grants and State Appropriations - The Authority receives federal capitalization grants from the Environmental Protection Agency and, through MnDOT, the Authority has received federal highway money. This money is used primarily for funding of loans and has also been used as security on bonds, and a portion may be expended for administrative and other set-aside costs. The Authority also receives state appropriations as match to the federal grants and for other Authority loan and grant programs. These federal and state monies are recognized in the financial statements when the associated expenditure obligations have met the eligibility requirement. When used to capitalize the revolving loan funds they are recorded as capital contributions; when used for administrative costs or grants they are recorded as operating revenue.

Cash Equivalents - The Authority considers all investments with an original maturity when purchased of three months or less to be cash equivalents.

Loans Receivable - Loans receivable are carried at their unpaid principal balances, net of any allowances for loan losses. The allowances for loan losses are established based on management's evaluation of the loan portfolio. Generally, the Authority does not provide an allowance for loan losses as the loans are secured by the borrowers' general taxing and levy authority and revenue pledges.

Investments - The Authority reports investments at fair value in the statement of net position with changes in the fair value of investments reported in the statement of revenues, expenses, and changes in fund net position. Fair value of investments was determined based on quoted market prices as of the reporting date. Guaranteed investment contracts of the Authority are contracts purchased from life insurance companies who guarantee the principal and return, and allow money to be withdrawn if needed. The Authority's guaranteed investment contracts are nonparticipating and, as such, are reported at cost and annually tested for impairment. The Authority believes it has the ability and intent to hold all investments to maturity to recover the full carrying value of its investment portfolio and does not expect to realize any gain or loss from the market value adjustments as shown in the various funds.

Bond Discounts, Premiums, and Issuance Costs - Bond discounts and premiums are amortized using the effective interest method over the term of the bond series. Bond issuance costs are expensed in the period incurred.

Income Taxes - The Authority is a discretely presented component unit of the State of Minnesota and is exempt from federal and state income taxes.

Restrictions on Net Position – The use of assets held within each separate bond fund is restricted by the terms and conditions of that fund's bond resolutions. All assets of the Authority, including those not restricted by bond resolutions, are limited in their use by state and federal laws under which the funds were appropriated and / or grant conditions imposed by the federal funding agency. The net position in the Authority's administrative accounts is reported as unrestricted because it is used for general operating activities.

Defining Operating Revenues and Expenses and Operating Cash Flows - The Authority issues revenue bonds to leverage the capital contributions it receives from federal capitalization grants and state matching grants. These funds are then used to make below-market-rate loans to municipalities and to pay for certain costs of issuance. Investment interest and loan repayments generate the cash flow required to make bond debt service payments. Interest from loans and investments are included as part of operating revenues and interest expense on bonds is included in operating expenses.

Use of Estimates - The presentation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Deposits and Investments

Deposits – In accordance with state statutes, the Authority's cash deposits are held in the state treasury and managed by the State Board of Investment (SBI) in a state pool. Minnesota Department of Management and Budget (MMB) is responsible for ensuring balances are insured or collateralized in accordance with statutes. Further information regarding the state pool can be found in MMB's Comprehensive Annual Financial Reports for the state of Minnesota, and in SBI's financial reports. At June 30, 2016 and 2015, \$445,980,592 and \$319,998,457, respectively, of cash deposits were interest-bearing and \$4,014,107 and \$7,004,199, respectively, were non-interest-bearing.

Investments - The Authority's investment policy requires it to follow Minnesota state statutes and bond resolutions. Investments are composed primarily of notes of the U.S. Government and its agencies, guaranteed investment contracts, and municipal securities. Information regarding the Authority's investments is provided below to give an indication of the risk level assumed at year-end.

Interest Rate Risk - The Authority does not have a formal investment policy that limits maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk – For an investment, the custodial credit risk is that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, the Authority will not be able to recover the value of its investments that are in the possession of another party. The Authority requires for all securities purchased that the securities are at all times insured, registered in the Authority's name or in the possession of the Authority.

Credit Risk - Excluding U.S. Government-backed securities, the Authority's investments at June 30, 2016 and 2015 carried the following ratings by the three nationally recognized statistical rating organizations shown:

	Standard	Fitch	Moodys Investors
Investment type	& Poors	Ratings	Service
Federal Farm Credit Banks	AAA	AAA	Aaa
Federal Home Loan Mortgage Corporation	AAA	AAA	Aaa
State & Municipal Securities	AAA	AAA	Aaa
Guaranteed Investment Contracts	not rated ¹		

¹ The Guaranteed Investment Contracts are not rated but are backed by U.S. Government

Concentration of Credit Risk: For the investments held by the Authority at June 30, 2016 and 2015, state law and Authority investment policy places no limits on the amount that may be invested in any one issuer. Excluding U.S. Government-backed securities, more than 5% of the Authority's investments are in the following issuers:

	June 3	30, 2016	June 30, 2015		
Issuer	Fair Value	% of Investments	Fair Value	% of Investments	
Minneapolis MN	\$5,858,969	18%	\$5,633,828	17%

totals	\$ 33,578,343	\$ 407,592	\$ 17,301,508	\$ 6,847,572	\$ 9,021,671	6.77	

3. Loans Receivable

The Authority lends funds to political subdivisions within the state of Minnesota, through bond purchase and project loan agreements. All of the loans pledged to bond-holders are secured by the borrowers' general taxing and levy authority and revenue pledges, except DWBF loans to the City of Saint Paul which are secured by revenue pledges only.

Loans receivable balances by Fund:

At June 30, 2016 and 2015 the Authority had outstanding loans receivable consisting of:

			Final	Outstanding Principal, June 30:		
Fund	Loan rates	from - to	maturity	2016	2015	
CWBF	0.000% -	4.630%	Aug-2045	\$ 1,323,393,952	\$ 1,323,540,621	
DWBF	1.000% -	4.160%	Aug-2045	483,637,087	450,437,177	
TBF	1.390% -	3.590%	Aug-2030	10,699,334	14,275,670	
Other	0.000% -	3.645%	Aug-2042	52,684,069	42,584,913	
				\$ 1,870,414,442	\$ 1,830,838,381	

The supplemental Schedule of Individual Loans Receivable by Fund lists outstanding loans by fund.

Borrower concentration in the open-pool bond funds (CWBF and DWBF):

The Clean Water Bond Fund and the Drinking Water Bond Fund both have large loan portfolios with many borrowers. These loans are a significant portion of the assets securing the outstanding bonds of these two funds, and provide a significant portion of the revenues pledged to the payment of debt service on the bonds.

The tables on the following page show the borrowers whose loan balances make up more than 4% of the outstanding loan balances of, respectively: the Clean Water Bond Fund, the Drinking Water Bond Fund, and the combined loan portfolios of both funds.

[The remainder of this page is left blank intentionally.]

At June 30, 2016 and 2015, the Clean Water Bond Fund had outstanding loans to 241 and 245, respectively, Minnesota political subdivisions. Two of those borrowers' loan balances made up more than 4% of the outstanding total as shown below:

	June 30, 20	016	June 30, 2015			
CWBF Borrower	Balance	%	Balance	%		
Metropolitan Council	\$ 584,880,587	44.2%	\$ 559,635,144	42.3%		
Willmar, City of	65,384,094	4.9%	67,689,029	5.1%		
All other borrowers	673,129,272	50.9%	696,216,448	52.6%		
	\$ 1,323,393,953 100.0%		\$ 1,323,540,621	100.0%		

At June 30, 2016 and 2015, the Drinking Water Bond Fund had outstanding loans to 241 and 235, respectively, Minnesota political subdivisions. Five at June 30, 2016, and four at 2015 of those borrowers' loan balances made up more than 4% of the outstanding total as shown below:

	June 30, 2	016	June 30, 2015			
DWBF Borrower	Balance	%	Balance	%		
Minneapolis, City of	\$ 75,870,000	15.7%	\$ 80,230,000	17.8%		
Mankato, City of	26,285,508	5.4%	27,170,248	6.0%		
Saint Paul, City of	25,936,000	5.4%	27,406,067	6.1%		
Fairmont, City of	25,666,495	5.3%	26,422,495	5.9%		
Saint Cloud, City of	20,446,548	4.2%				
All other borrowers	309,432,535	64.0%	289,208,367	64.2%		
	\$ 483,637,086	100.0%	\$ 450,437,177	100.0%		

At June 30, 2016 and 2015, the two loan portfolios together had outstanding loans to 365 and 365, respectively, Minnesota political subdivisions. Two of those borrowers' loan balances made up more than 4% of the combined outstanding total as shown below:

	June 30, 2	016	June 30, 2015			
CWBF+DWBF combined	Balance	%	Balance	%		
Metropolitan Council	\$ 584,880,587	32.4%	\$ 559,635,144	31.5%		
Minneapolis, City of	75,870,000	4.2%	80,230,000	4.5%		
All other borrowers	1,146,280,452	63.4%	1,134,112,654	64.0%		
	\$ 1,807,031,039	100.0%	\$ 1,773,977,798	100.0%		

Projected loan repayments:

The tables on the following two pages show projected repayments on outstanding loans. The projections include only fully executed loans existing at June 30, 2016. The Authority anticipates that subsequent to June 30, 2016, a significant amount of new loans will be made from existing resources; these loans will add to future repayment streams but are not included in the following projections.

Fiscal Year(s)		Clean Wate	er Bo	ond Fund	 Drinking Water Bond Fund			
Ending		Interest		Principal	 Interest		Principal

¹ Final maturity reflects the latest maturity outstanding as of June 30, 2016.

Bond Proceeds – The net bond proceeds have been used to fund loans to Minnesota municipalities for projects relating to wastewater treatment facilities, drinking water systems, and transportation. See *Advanced and Current Refunding of Debt* below for information on use of proceeds for refundings.

Collateral - The bonds are secured by bond program assets and revenues as defined in the applicable bond resolutions.

Bonding Authority - The Authority bonds do not constitute a debt of the State of Minnesota or any agency or political subdivision thereof (other than the Authority). The Authority's outstanding debt limit is \$1,500,000,000. The principal amount of bonds outstanding at June 30, 2016 was \$974,285,000.

Advanced and Current Refunding of Debt - The Authority has issued bonds the partial proceeds of which were used to defease or call certain prior debt issuances. In each case of defeasance, the Authority established an irrevocable escrow fund pursuant to an escrow agreement between the Authority and an escrow agent. The escrow funds are pledged solely to the repayment of principal, premium, and interest on the refunded bonds. Under the agreements, the refunded bonds will be called for redemption at each series' applicable optional redemption dates. As these bonds have, in effect, been redeemed under the defeasance, they are no longer outstanding under the Authority's applicable bond resolutions and therefore, they are not entitled to the pledge of the applicable resolution. Accordingly, these bonds and the related escrow funds are not reflected in these basic financial statements of the Authority.

Amounts deferred on refunding is reflected in the statement of net position as a deferred outflow of resources and is charged to operations using the effective interest method. Refundings during fiscal year 2016 reduced debt service by approximately \$12.1 million and obtained an economic gain (the difference between the present value of the old and new debt service payments) of approximately \$11.0 million.

Totals	\$ 971,060,000	\$	\$ (77,620,000)	\$	893,440,000
Plus remain	43,787,896				
Net bonds j	\$ 937,227,896				

5. Arbitrage Rebate Payments

The bonds issued by the Authority are subject to a variety of Internal Revenue Service regulations that limit the amount of investment income that may be earned on certain funds to an amount not greater than the amount earned had the funds been invested at the yield on the related bonds. Excess earnings must be rebated annually, or every five years, depending on the date and type of bond issue. During fiscal years 2016 and 2015 the Authority paid \$58,203 and \$-0- respectively. At June 30, 2016 and 2015, the arbitrage rebate liability totaled \$977,595 and \$1,030,183, respectively.

6. Restricted Net Position

At June 30, 2016, Restricted Net Position	n consisted of the following:
---	-------------------------------

Restricted for					Total Business-type
the purposes of	CWBF	DWBF	TBF	Other	Activity
Wastewater and Stormwater Infrastructure	\$ 865,432,491	\$-	\$-	\$ 19,452,579	\$ 884,885,070
Drinking Water Infrastructure		331,572,094			331,572,094
Transportation Infrastructure			4,199,083	64,255,889	68,454,972
	\$ 865,432,491	\$ 331,572,094	\$ 4,199,083	\$ 83,708,468	\$ 1,284,912,136

At June 30, 2015, Restricted Net Position consisted of the following:

Restricted for the purposes of	CWBF	DWBF	TBF	Other	Total Business-type Activity
Wastewater and Stormwater Infrastructure	\$ 847,329,911	\$-	\$ -	\$ 19,336,412	\$ 866,666,323
Drinking Water Infrastructure		320,540,819			320,540,819
Transportation Infrastructure			6,686,950	60,975,434	67,662,383
	\$ 847,329,911	\$ 320,540,819	\$ 6,686,950	\$ 80,311,846	\$ 1,254,869,525

7. Related-Party Transactions

Administrative Services – The Authority, DEED, MPCA, and the Department of Health provide administrative staff and services to Authority programs. During fiscal 2016 and 2015, the Authority paid approximately \$3.5 million and \$3.3 million, respectively, for these services.

Transfers - The Authority holds a loan receivable in the Other Fund, the net repayments from which have been transferred each year to the CWBF. In fiscal years 2016 and 2015, the transfers were approximately \$58 thousand and \$57 thousand, respectively. Each year, excess pledged revenues over debt service in the TBF Funds are transferred to the Other Fund. In fiscal years 2016 and 2015, these transfers were approximately \$2.5 million and \$838 thousand, respectively.

State Appropriations:

The Authority received no appropriations during the 2016 legislative session.

The Legacy funding bill of 2015 (special session 1 chapter 2 article 2 section 4) appropriated \$18,000,000 for the Point Source Implementation Grants Program and \$500,000 for the Small Community Wastewater Treatment program.

The Capital Improvements bill of 2015 (special session 1 chapter 5 article 1 section 15) appropriated \$10,000,000 for the WIF program.

8. *Commitments*

At June 30, 2016 the Authority had committed approximately \$117 million for the origination or disbursement of future loans, and \$21 million for grants.

9. Accounting Standards Adoption of GASB Statement 72

New Accounting Pronouncements

In February 2015, the GASB issued Statement No. 72 *Fair Value Measurement and Application*. This statement addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

This Statement requires a government to use valuation techniques that are appropriate under the circumstances and for which sufficient data are available to measure fair value. The techniques should be consistent with one or more of the following approaches: the market approach, the cost approach, or the income approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets, liabilities, or a group of assets and liabilities. The cost approach reflects the amount that would be required to replace the present service capacity of an asset. The income approach converts future amounts (such as cash flows or income and expenses) to a single current (discounted) amount. Valuation techniques should be applied consistently, though a change may be appropriate in certain circumstances. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

This Statement establishes a hierarchy of inputs to valuation techniques used to measure fair value. That hierarchy has three levels. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are inputs—other than quoted prices—included within Level 1 that are observable for the asset or liability, either directly or indirectly. Finally, Level 3 inputs are unobservable inputs, such as management's assumption of the default rate among underlying mortgages of a mortgage backed security.

The requirements of this Statement will enhance comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This Statement also will enhance fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurements on a government's financial position. The provisions of this statement were implemented during the fiscal year ended June 30, 2016.

10. Interfund Advance

During fiscal year 2016, the Authority advanced \$77,150,000 from the CWBF to the DWBF to call and redeem a like par amount of certain outstanding 2004A and 2005A DW bonds, without having to issue refunding bonds. The bond calls result in a reduction to future DWBF bond interest payments of nearly \$15 million. The Authority intends for the DWBF to repay the advance with interest, using a portion of each bond-year-end surplus. The following schedule shows the planned principal payback, which matches the original maturity schedule of the called bonds:

Fiscal Year	Principal Amount					
2017	\$ 2,200,000					
2018	11,195,000					
2019	12,250,000					
2020	11,730,000					
2021	9,775,000					
2022	9,670,000					
2023	9,125,000					
2024	8,720,000					
2025	2,485,000					
total	\$ 77,150,000

Independent Auditor's Report on the Supplementary Information

Minnesota Public Facilities Authority St. Paul, Minnesota

We have audited the financial statements of Minnesota Public Facilities Authority as of and for the years ended June 30, 2016 and 2015, and have issued our report thereon, which contains unmodified opinions on those financial statements. Our audits were conducted for the purpose of forming opinions on the financial statements as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.
