

DATA BOOK

MINNESOTA STATE

Minnesota State Data Book

Table of Contents

A. Introduction

1. Biennial budget request summary – 2018-2019
2. Capital request summary – 2017
3. Capital project list – 2017

B. Students

1. Student demographic
2. Enrollment history
3. Enrollment by legislative district
4. Degrees and certificates by region
5. Tuition and fees as a percentage of median income - 2008-2017
6. Student debt
7. Tuition rate history and comparisons
8. Tuition affordability
9. Student fee history – FY2006-FY2017

C. Academic

1. Transfer pathways report
2. Program inventory report
3. PSEO/concurrent enrollment program
4. Completion rates by preparedness and financial need

D. Human Resources

1. Definitions
2. Employee headcount by college and university – FY2010-FY2015
3. Employee headcount by bargaining unit – FY2010-FY2015
4. Percent of total employee headcount – instructional faculty – FY2010-FY2015
5. Percent employees of color and American Indian – FY2010-FY2015

E. Facilities

1. Physical space overview
2. Facilities condition backlog FY2012-2016
3. Square footage and FYE distribution by region
4. Deferred maintenance and forecast renewal by system type - FY2010-FY2026
5. FY2016 HEAPR spending performance by project
6. Capital bonding program request and received – FY2006-FY2016

F. Administrative Costs

1. Administrators as percent of total employee headcount – FY2010-FY2015
2. System office budget as percent of total system general fund revenue – FY2009-FY2016
3. Institutional support spending as a percent of total expenses – FY2010-FY2015
4. Institutional spending per college and university– FY2010-FY2015

G. Financial

1. System expenditures summary by functional area and object of expenditure – FY2011-FY2015
2. System revenues – FY2011-FY2015
3. College and university FY2016 updated and FY2017 approved operating budgets
4. Allocation method and results – FY2016-FY2017
5. Reallocation of resources to advance priorities – FY2016
6. Composite financial index (CFI) – FY2009-FY2016-adjusted
7. State investment comparisons

H. Technology

1. ISRS Next Generation project summary
2. ISRS business process data
3. ISRS student process data
4. Next Generation proposed project timeline

INTRODUCTION

MINNESOTA STATE

FY2018-FY2019 Budget Request

\$178 million in new funding over the biennium

\$143 million to support and protect campuses

By funding inflationary costs at 3% each year of the biennium, your investment will enable Minnesota State to:

- Help meet Minnesota’s critical need for talent.
- Reduce economic and racial disparities.
- Improve student success (particularly for underrepresented students).
- Protect access and affordability (funding another two years of tuition freezes).
- Support the financial health of every campus, especially in greater Minnesota.

\$25 million for critical technology replacement (ISRS Next Generation)

(Seven-year project timeline, proposed 50/50 cost sharing)

Replace the 20-year-old core information system (ISRS) with a more cost effective tool to ensure:

- Our ability to process the more than 100,000 financial transactions that occur per business day, as well as the more than one million student logins that take place at the start of each semester.
- An optimal user experience for our students, faculty, and staff.
- Our ability to add the latest features for analytics, reporting, mobile use, and most importantly, for monitoring and promoting student success.
- Efficiencies in cost and operation, and reduction in risk.
- A more secure (cloud-based), agile, essential enterprise-wide technology infrastructure.

\$10 million for student incentive grants

Targeted financial support to reduce outcome disparities and improve student success:

- Provide one-time \$500 incentive grant to students making satisfactory academic progress but identified as at-risk for dropping out.
- Provide one-time \$500 scholarship incentives for college students who complete a two-year transfer pathway degree and enroll in the related bachelor’s degree program at one of our universities.

FY2017 Capital Budget Request

\$204.6 million General Obligation Bond funding

\$47.3 million Minnesota State user financing

\$251.9 million total capital program

- Improves academic space at 45 college and university campuses
- Investment in campuses serving 40 Minnesota communities
- Addresses most urgent facility investment needs

\$110 million for asset preservation - HEAPR

- #1 priority of colleges and universities
- Academic facilities are aging, 70% built prior to 1980
- Facility maintenance backlog has grown 25% since 2010, to \$783 million,
- Maintenance needs for next 10 years: \$1,040 million
- Total 10-year asset preservation need: \$1.8 billion

\$141.9 million for 18 major capital projects

Enhances college and university academic facilities to better meet demand for:

- Technical and trade programs
- Student services and success
- STEM and allied health
- Business, teacher education, and liberal arts

**Minnesota State
2017 Capital Budget Request**

MINNESOTA STATE

Priority	Institution	Title	Campus Location	Request
1	Systemwide	Higher Education Asset Preservation and Replacement (HEAPR)	Statewide	\$110,000,000
2	South Central College	Stem and Healthcare, renovation	North Mankato	\$9,600,000
3	Minnesota State Community and Technical College	Center for Student and Workforce Success	Fergus Falls	\$978,000
4	Minnesota State Community and Technical College	Library and Student Development Renovation	Wadena	\$820,000
5	Northland Community and Technical College	Laboratory Renovations	East Grand Forks	\$826,000
6	Bemidji State University	Academic Learning Center & campus renovation and Hagg-Sauer demolition	Bemidji	\$18,897,000
7	Rochester Community and Technical College	Memorial and Plaza Halls Demolition Design and Renovation	Rochester	\$21,713,000
8	Hibbing Community College	Campus Rightsizing	Hibbing	\$11,222,800
9	Winona State University	Education Village Phase II Renovation	Winona	\$25,306,000
10	St. Cloud State University	Student Health & Academic renovation	St. Cloud	\$18,572,000
11	Minnesota State University, Mankato	Clinical Sciences Phase 2	Mankato	\$6,525,000
12	Anoka Ramsey Community College	Nursing & Active Learning Center Design and Humanities Renovation	Coon Rapids	\$4,965,000
13	Century College	Applied Technology Center, East Campus	Mahtomedi	\$5,500,000
14	Normandale Community College	Classroom & Student Services Renovation Project	Bloomington	\$1,100,000
15	Minnesota State University Moorhead	Weld Hall Renovation	Moorhead	\$775,000
16	Inver Hills Community College	Technology and Business Center	Inver Grove Heights	\$1,000,000
17	Riverland Community College	Transportation, Trade and Industrial Education Center	Albert Lea	\$9,348,000
18	Minneapolis Community and Technical College	Hennepin Skyway Renovation	Minneapolis	\$4,469,000
19	Charting the Future Initiative	Twin Cities Baccalaureate Solution	Multiple	\$300,000
Total Program				\$251,916,800
Capital Projects Only				\$141,916,800
State Support (GO)				\$204,611,200
User Financing				\$47,305,600

STUDENTS

MINNESOTA STATE

Educating All of Minnesota

Total Headcount = 376,176 fiscal year 2016

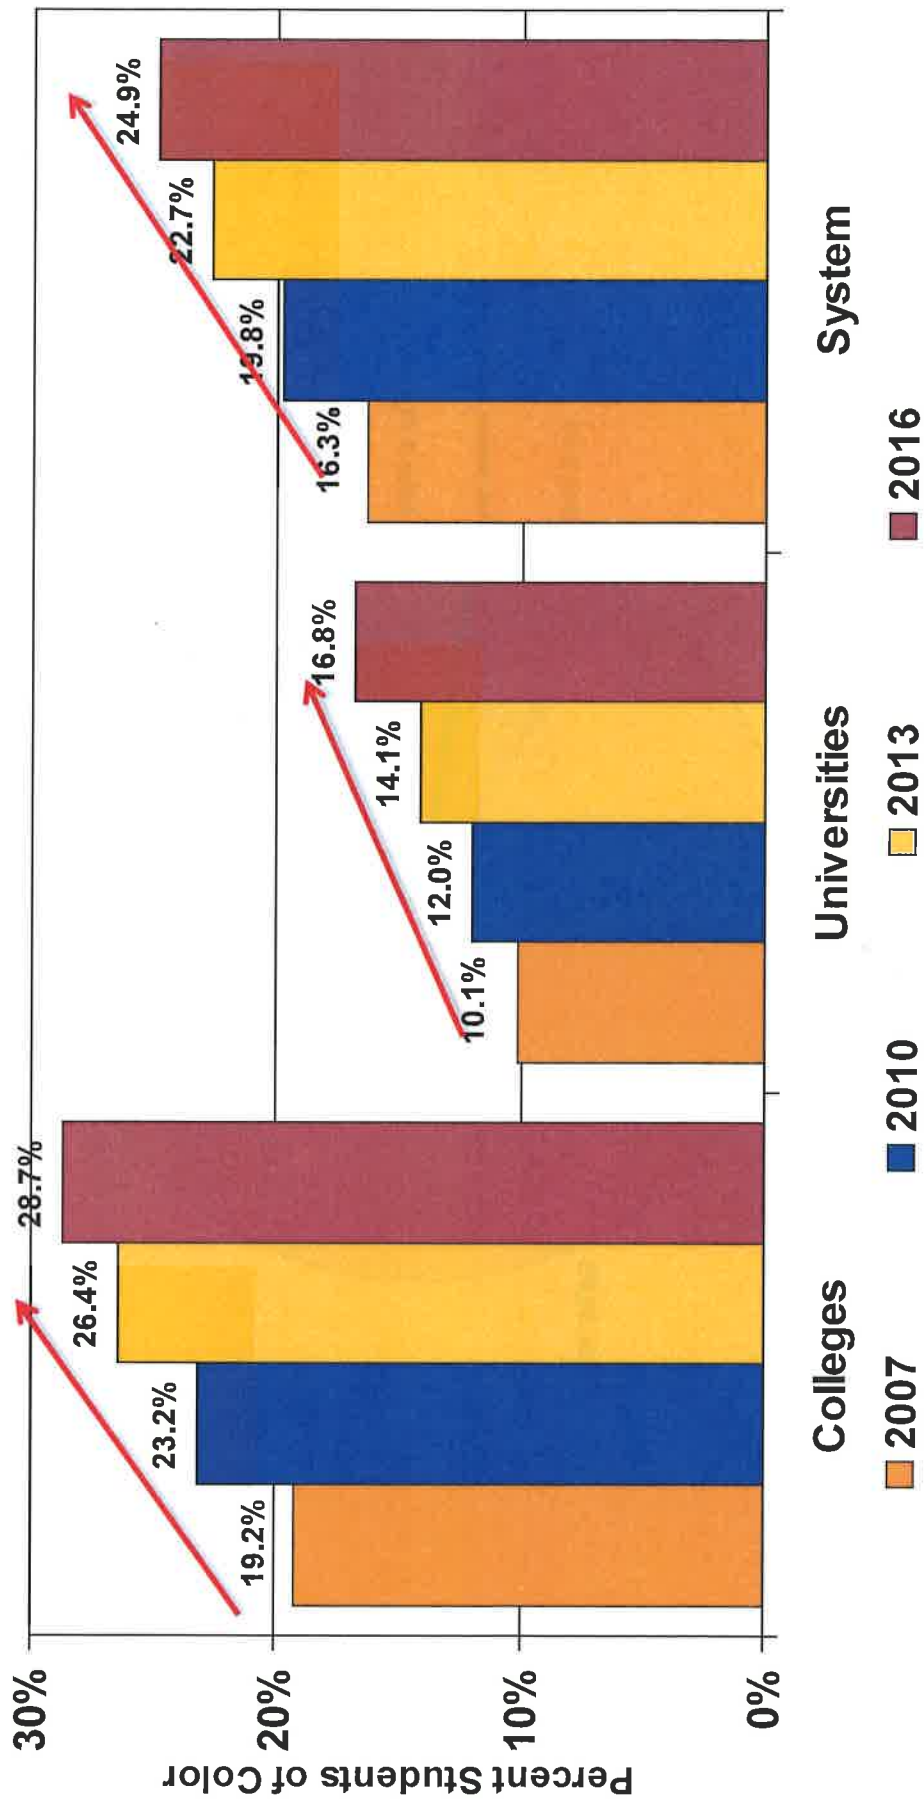

MINNESOTA STATE

Racial and Ethnic diversity

Total American Indian and Students of Color = 63,423
Total Credit Headcount = 254,206
fiscal year 2016

Students of color and American Indian students comprise an increasing percentage of our students

Student of color and American Indian enrollment has grown in all regions of the state

The percent of low income (eligible for Pell grants) students peaked during the recession

Age diversity

Total Credit Headcount = 254,206
fiscal year 2016

B6

Students with reported disabilities

**Student with Disabilities: 9,215 or 3.6% of
Total Credit Headcount = 254,206 fiscal year 2016**

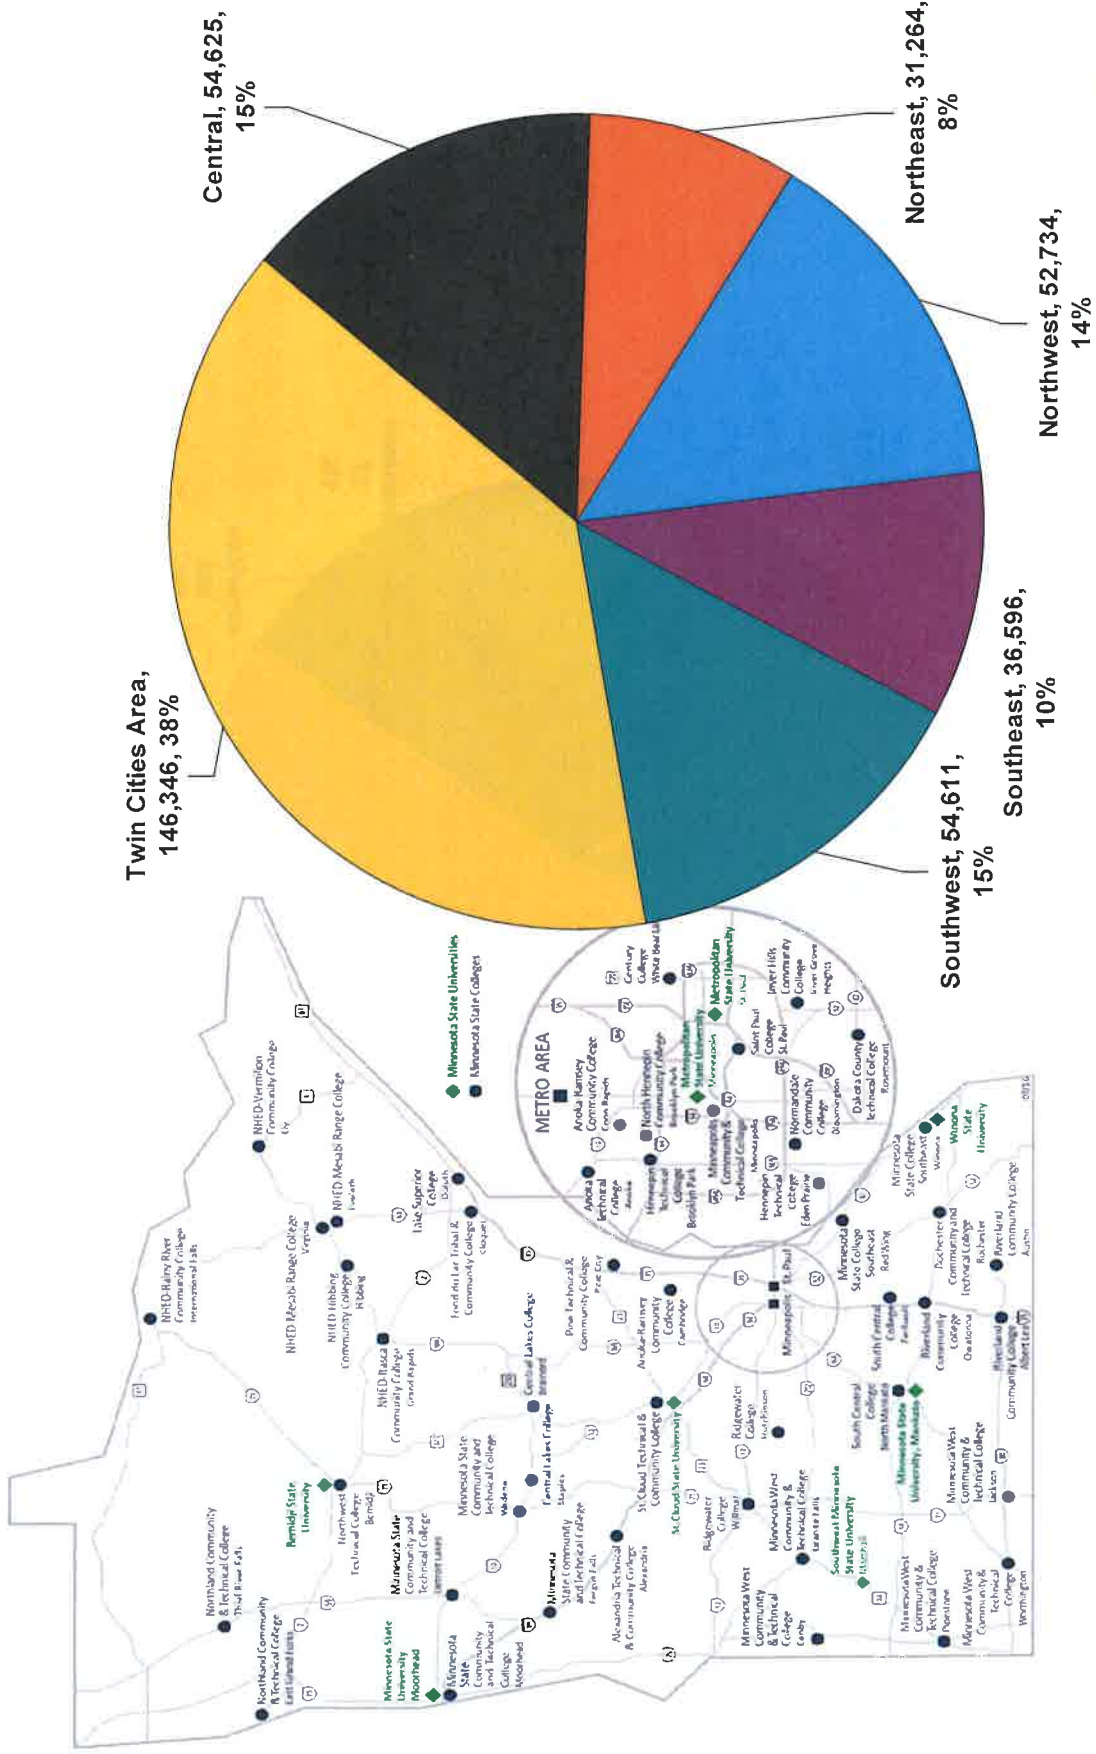

B7

International students come from around the world

**International Students = 3,930 or 1.5% of
Total Credit Headcount = 254,206 fiscal year 2016**

Educating All of Minnesota

Total Headcount = 376,176 fiscal year 2016
B9

Total headcount peaked during the recession and has decreased since fiscal year 2013 as the economy recovered

B18

MINNESOTA STATE

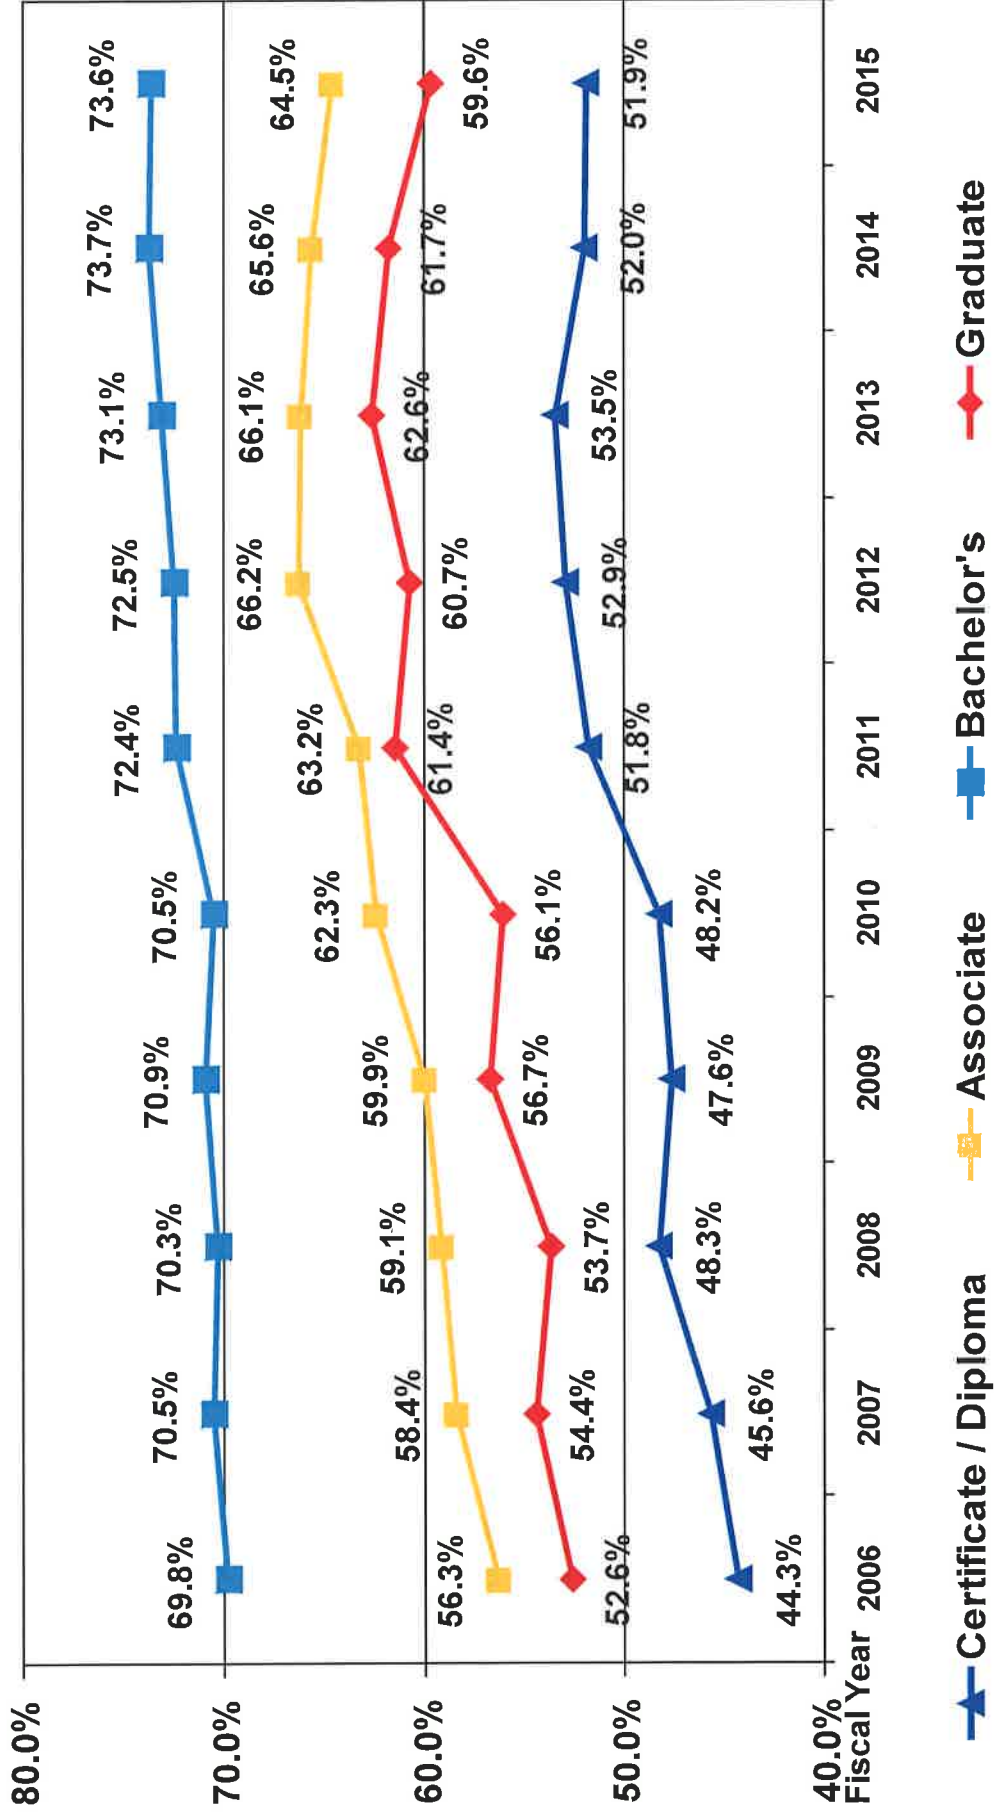

Minnesota State tuition & fees as a percent of median income* peaked in 2013 and has decreased

* Minnesota median income for a family of four.

Percent of graduates with student loan debt has begun to decline

Tuition & fees net of grants and scholarships as a percent of Minnesota median household income.^{B20}

Source: System Office Research – Academic and Student Affairs.

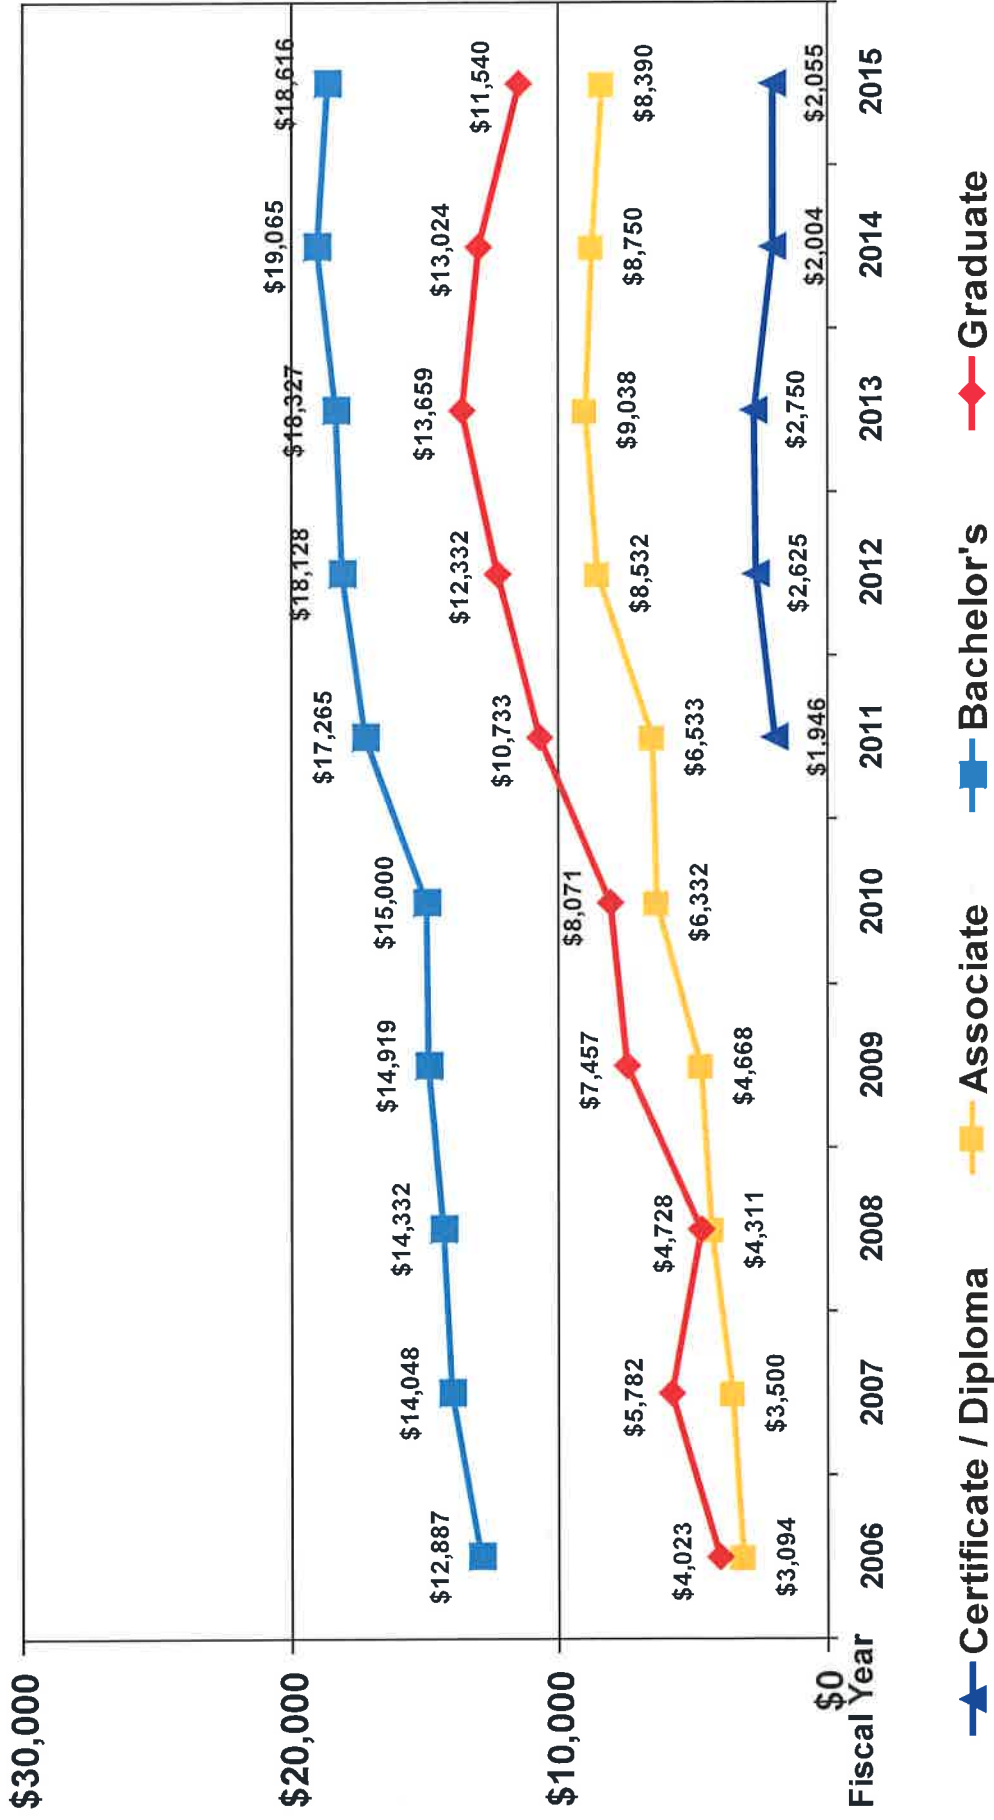

Median debt for graduates who borrowed has declined for bachelor's & graduate students and leveled off for certificate and associate students

Median debt at graduation for graduates who took out student loans.
B21

Source: System Office Research – Academic and Student Affairs

Median debt for all graduates has declined for bachelor's & graduate students and leveled off for certificate and associate students

Median debt at graduation for all graduates including those who borrowed and those who did not.

Tuition History and Comparisons

Minnesota State

This section provides information on tuition and fee rates charged by Minnesota State. Table 6-1 shows the standard tuition and fee rates charged by each college and university in the Minnesota State system for fiscal years 2008 to 2017. Sector averages are provided for the two-year colleges and the four-year universities; a system-wide tuition and fee rate is also calculated for each fiscal year. In fiscal year 2017, the average tuition and fee charges totaled \$5,363 at Minnesota State colleges and \$8,028 at Minnesota State universities.

Table 6-2 compares tuition and fee rates charged by Minnesota State to rates charged by similar public associate degree-granting colleges and public master's universities in states that border Minnesota and to national averages. Data used in this comparison is from the Integrated Postsecondary Data System (IPEDS). Each year, U.S. colleges and universities report tuition and fee data to IPEDS. The IPEDS data set includes data elements that allow the system to compare Minnesota State with similarly-classified public higher education institutions nationally.

The average tuition and fee rate charged at Minnesota State universities in fiscal year 2015 is lower than rates charged in similar public universities in states bordering Minnesota and nationally. The average tuition and fee rate charged at Minnesota State colleges is higher than rates charged in the bordering states and the national average for two-year public colleges.

FY2013 through FY2017 reflect the new system practice of reporting Revenue Fund fees typically charged to all students in addition to the standard fees previously reported. Revenue fund fees reported now include student union and health facilities/wellness fees. FY2010 and FY2011 tuition and fee rates include federal ARRA funds. A portion of these one-time federal funds were used to limit the tuition rate increases over this two-year period.

* South Central College moving from parking permit charge to per credit charge. FY09 rate is estimate based on what permit charges were for FY09. FY10 shows new per credit rate.

*BSU: Of \$5.75 per credit student activity fee, \$3.35 per credit is dedicated to the green/sustainability project. *WSU: The per credit parking fee is excluded from the annual fee calculation as it is assessed to only Rochester Center.

*Northwest Technical moving from a per credit parking rate to a parking permit program

* South Central College moving from parking permit charge to per credit charge. FY09 rate is estimate based on what permit charges were for FY09. FY10 shows new per credit rate.

*BSU: Of \$5.75 per credit student activity fee, \$3.30 per credit is dedicated to the green/sustainability project *WSU: The per credit parking fee is excluded from the annual fee calculation as it is assessed to only Rochester Center 11

*Northwest Technical moving from a per credit parking rate to a parking permit program

*MSU: Of \$5.75 per credit student activity fee, \$3.33 per credit is dedicated to the green/sustainability project. □
 **MSU: The per credit parking fee is excluded from the annual fee calculation as it is assessed to only Rochester Center
 *Northwest Technical moving from a per credit parking rate to a parking permit program
 *MSU, Mankato: Of the \$6.65 per credit student activity fee, \$8.85 per credit is dedicated to the green transportation fee which supports busing service for students (This was initially proposed by student leadership).
 **Metro State: New student center Revenue Fund fee of \$2 per credit for FY2014 and 2015, offset by reduction of \$2 per credit from Student Activity fee, as agreed to from students.
 (*) Minneapolis, CTC, MSU, Mankato and St. Cloud SU fees average out to 3% or below when including Revenue fund

*BSU: Of \$5.75 per credit student activity fee, \$3.33 per credit is allocated to the green/sustainability project.
 **WSU: The per credit parking fee is excluded from the annual fee calculation as it is assessed to only Rochester Center.
 ***Metro State: Revenue fund parking fee of \$10/credit begins January 2015; Student Center Revenue Fund fee of \$2 per credit for FY2014 and 2015 continues; offset by reduction of \$2 per credit from Student Activity fee, as agreed to from students.
 ****St. Paul College - Effective FY15, St. Paul College is converting their parking fee from a daily usage fee to per credit.
 (H) Student Activity/Life fee is capped at \$112.50 per term (15 credits)

*MSU: Of \$6.00 per credit student activity fee, \$3.33 per credit is dedicated to the green/sustainability project.
 **MSU: The per credit parking fee is excluded from the annual fee calculation as it is assessed to only Rochester Center.
 (*) MSU: Mankato: Of the \$7.38 per credit student activity fee, \$9.00 per credit is dedicated to the green transportation fee which supports busing service for students (This was initially proposed by student leadership).
 **MSU: State: For FY 16, the Student Activity fee is restored to the original amount of \$4/credit, as the revenue fund is accounting for the full \$8.50/credit for Student Center \$10 Parking fee authorized in FY15 not changed.
 St. Cloud State Health Services Flat Fee structure at \$0.50 per student per semester.
 Parking at Normandale, Saint Paul and Metro reduces a per credit charge for revenue fund facilities.

ACADEMIC

MINNESOTA STATE

Baccalaureate Degree Transfer Pathways: Report to the Legislature

Academic and Student Affairs

March 15, 2016

Minnesota
STATE COLLEGES
& UNIVERSITIES

Executive Summary

During the 2014 Minnesota legislative session, the Legislature directed the Minnesota State Colleges and Universities to develop a plan to address certain transfer problems through the implementation of multi-campus articulation agreements that would permit students who transfer with associate degrees associate in arts, associate in science, and associate in fine arts to complete baccalaureate degrees at the system's universities without accumulating excess course credits. The Legislature responded to MnSCU's March 2015 plan with session law requiring MnSCU to implement the transfer pathways and to report by March 15, 2016 the status of that implementation, including any deviations from the original plan.

2015 Session Laws Chapter 69--S.F. 5, Article 3, Sec. 21

Subd. 1. The Board of Trustees of the Minnesota State Colleges and Universities shall implement new transfer pathways for associate of arts degrees, associate of science degrees, and associate of fine arts degrees toward baccalaureate degree programs. The implementation must, to the greatest extent possible, be done in accordance with the implementation plan, including its timeline, developed pursuant to Laws 2014, chapter 312, article 1, section 12....

Subd. 3. By March 15, 2016, the board must report to the chairs and ranking minority members of the legislative committees with jurisdiction over higher education on the status of implementation of transfer pathways under subdivision 1 and any deviations from the implementation plan.

2014 Session Laws H.F. 3172, Chapter 312, Sec. 12

The Board of Trustees of the Minnesota State Colleges and Universities shall develop a plan to implement multi-campus articulation agreements that lead to baccalaureate degree completion upon earning the number of credits required for the degree minus 60 credits at a system university after transfer to the system university by a student with an associate in arts degree, associate of science degree, or an associate of fine arts (AFA) degree from a system college. The board shall assign the task of developing the plan to the appropriate committee formed under the board's "Charting the Future" initiative. The board shall report on this plan to the legislative committees with primary jurisdiction over higher education finance and policy by March 15, 2015.

This report describes timely progress to date in creating guaranteed pathways for baccalaureate completion. The Transfer Pathways to Baccalaureate Completion Plan of March 2015 provided sound and fairly comprehensive guidelines for the launch of this initiative, and the Transfer Pathways Coordinating Team charged with oversight of the project has been able to build upon the original plan's recommendations with a high degree of consensus. The team counts among its accomplishments after six months of work the following:

- Successfully and productively convened the recommended mix of faculty, staff, students, campus and system office administrators from around the system.

- Met approximately every three weeks in a central location.
- Identified and affirmed the first four disciplines and convened the four discipline Transfer Pathway Teams for an orientation meeting of approximately 100 individuals on December 11.
- Created a set of guidelines and background research, called a 'Transfer Pathway Team Toolkit,' for each of the four discipline groups, along with a set of key "guiding questions."
- Identified a need for liaisons between the coordinating team and the Transfer Pathway Teams, being met voluntarily by Transfer Pathways Coordinating Team members.
- Identified a need for conversation about revising the Minnesota Transfer Curriculum in conjunction with the transfer pathways work, and the system office has begun conversation with the University of Minnesota on this topic.
- Bargaining unit appointees to the Transfer Pathways Coordinating Team began communication with their respective bargaining units and campuses to explain the transfer pathways.
- Created a draft communications plan.
- Identified key talking points and a Frequently Asked Questions guide for use in familiarizing stakeholders throughout the system with the transfer pathways.
- Developed plans for statewide Discipline Stakeholder Meetings at a midpoint during the development of each pilot transfer pathway to engage and obtain input from as many affected faculty, staff, students, and administrators as possible.
- Learned that securing so many committee appointments from so many bargaining units presents a challenge, but one that all are committed to meeting because of the importance of this work.
- Held a successful kick-off meeting for Transfer Pathway Team members in December to provide them with a chance to meet, learn about the process, and discuss how they will begin.
- Provided liaison support for several meetings each held by the Transfer Pathway Teams between January and March, and for "discipline stakeholder meetings" open to all faculty, staff, and students to review first- draft pathways in March.

Elements and Status of the Implementation Plan

The specific elements of the Transfer Pathways to Baccalaureate Completion Plan are detailed below, and in each case where there is an update, it is provided at the end of the enumerated section in highlighted text.

A. Transfer Pathways Coordinating Team

- a. The Transfer Pathways for Baccalaureate Completion Plan of March 2015 called for a launch in Fall 2015 with meetings of a coordinating team composed of faculty, staff, students, campus administrators and system office staff.

STATUS: *The Transfer Pathways Coordinating Team was formed in September, 2015, and began meeting on October 10. The Transfer Pathways Coordinating Team has held nine extended meetings and reviewed and approved every significant element of the plan, while also identifying policy, procedural, and technological issues to be addressed for successful implementation. The team is co-chaired by a college faculty member and a university faculty member. See roster in Appendix A.*

B. Purpose and Goals

- a. The plan aimed to create opportunities to streamline transfer for all students who intend to prepare for the bachelor's degree by completing an associate degree at a two-year college.
- b. The plan called for the Transfer Pathways Coordinating Team and discipline-based Transfer Pathway Teams to facilitate communication and collaboration among faculty in the same discipline at all of the system's institutions to ensure that the transfer pathways align lower-division and upper-division curricula and enhance students' ability to prepare for and complete baccalaureate degrees.
- c. Students were to be the primary and fundamental focus of all transfer pathway planning processes, and maintaining a quality education was identified as the core of transfer pathways.
- d. Pathways to baccalaureate degrees must be easy for students to follow.
- e. The initiative was also intended to generate savings on many levels, including but not limited to cost to students, time to degree completion, and administrative overhead to maintain articulation agreements.
- f. Additionally, the following significant benefits were anticipated: an increase in the number of students completing associate degrees, which better prepare them for success as university students and result in higher rates of completion at the universities; decreased diversity and decreased complexity in the lower-division curriculum; and stronger partnership between college and university faculty.
- g. Transfer students who meet admission/program application requirements would be given the same opportunities/same consideration as direct entry students.

STATUS: *These goals were affirmed by the Transfer Pathways Coordinating Team and discussed with all pilot Transfer Pathway Team members at their first meeting on December 11 at Metropolitan State University.*

C. A Faculty-Led Process

- a. The plan required the Transfer Pathways Coordinating Team to assemble Transfer Pathway Teams that would meet as disciplinary groups to create transfer pathways for 25-30 of the system's most popular baccalaureate programs. Each Transfer Pathway Team was to have a majority of faculty members (12 out of 20), with two-year colleges and universities being equally represented. Each team was to be co-

chaired by a college faculty member and a university faculty member.

STATUS: *This structure has been approved and accepted, and the first four Transfer Pathway Teams have been constituted according to the plan's recommendations. See rosters in Appendix B. Twelve additional disciplines have been identified for fall 2016.*

D. Transfer Pathway Team Authority and Responsibility

- a. The Transfer Pathway Teams would, according to the plan, create the pathways. It was recommended they begin their work with a review of all of the current articulation agreements in the related fields of study and the individual university degree requirements for degrees in the discipline.
- b. Transfer Pathway Teams were to have full autonomy to consider the full range of strategies/ideas to achieve the goals. Once the membership has been determined, the Transfer Pathway Teams were to be self-governed to meet the designated timelines agreed upon by the Transfer Pathways Coordination Team.
- c. Transfer Pathway Teams were advised to seek college program advisory committee input where appropriate.
- d. Transfer Pathway Teams were charged to report their work to the system's Academic Programs division.
- e. The Transfer Pathway Teams are to determine what can be ensured for the students after the completion of the transfer pathways for the transfer of the full associate of arts, associate of science or associate of fine arts degree to the parallel baccalaureate degree.
- f. Once the pathways are determined, the faculty at all colleges and universities are to consider how their current curriculum will fit into the new pathways. Campuses will utilize current curriculum review and approval processes to implement the new pathways.

STATUS: *The charge to the first four Transfer Pathway Teams granted them the authority described in the plan. Since no pathways have yet been finalized, no implementation work as described in items c-f above has occurred. See charge documents in Appendix C.*

E. Timeline

- a. After a series of project launch meetings for planning purposes, implementation of the plan was to occur in six phases:
 - i. Phase 1 in Spring 2016 was to be a pilot project in four disciplines, to be followed by
 - ii. Phase 2, in Fall 2016, a first round of transfer pathway development in 10-12 target programs; and
 - iii. Phase 3, in spring 2016 a second round of transfer pathway development in the remaining 11-13 target programs.
 - iv. Phases 4 through 6, one-year each, starting in Fall 2016, Spring 2016, and Fall

2017, respectively, would see the newly designed transfer pathways fully implemented in Fall 2017, Spring 2018, and Fall 2018, after thorough review and approval by campus curriculum committees, inclusion in college and university catalogs, publication of transfer guides and degree maps, and promotion to students.

- b. The Phase 1 pilot was recommended to include major programs of four distinct types: one major that reflects sequential (pre-requisite) courses (biology); a major that has program-specific accreditation requirements (business); a major that is in the performing arts (theatre); and one that draws very high enrollment among both transfer and direct-entry university students (psychology). The pilot should also include each degree type: associate in arts, associate in science, associate in fine arts.

STATUS. *The original planned timeline and pilot disciplines were approved by the Transfer Pathways Coordinating Team, pending any need for revision after the first four pilot disciplines’ development of transfer pathways in spring semester 2016. During the first phase pilots, the Transfer Pathways Coordinating Team will observe, evaluate, and make final recommendations on the timeline, phases, and content of the work. Phase 2 disciplines for Fall 2016 are also identified.*

F. The Transfer Pathways: Curriculum Framework

- a. The plan said that transfer pathways should be designed to permit students to complete associate degrees as provided for in current board policy, but using a basic common structure that permits students to transfer from any college using the pathway to any university offering a parallel baccalaureate degree.
- b. The proposed degree structure for associate degree transfer pathways was as follows. The plan suggested a recommended common general education framework of multiple tiers of lower-division curriculum for all transfer pathways. This structure would be consistent with current board policy and could ensure: the completion of the MnTC (when possible); a common core across sub-fields within a discipline or multiple disciplines; common disciplinary specialization; and specific preparation for an upper-division major.

Proposed Model	Credit Range
Common set of general education/MnTC Goal Areas across the discipline	30
Broad Elective Courses/Additional MnTC Goals	9-12
Discipline Specific Courses/Major Courses	9-16
Remaining Credits*	6-12
Total Credits	60

**The remaining 6-12 credits gives room for flexibility in course credits (lab credits, variances, in courses between campuses, or other campus requirements.*

STATUS: *The first four pilot Transfer Pathway Teams have been charged to work with the proposed framework and to identify any challenges, as well as recommendations for subsequent Transfer Pathway Teams in their curriculum development work.*

G. Transfer Pathways: Guarantees

- a. The plan called for the Transfer Pathway Teams to create options for students to better plan and better prepare for transfer to state university majors. The Transfer Pathway Teams should ensure accessibility to programs for all qualified students. In addition, dual-admission options and strong 2+2 programs should be strongly considered for these degrees because studies show that these assist students in planning and preparing to enter the major. The plan said that the following pathway features, found in a number of other state systems' transfer degrees, should be strongly considered by the Transfer Pathway Team groups:
 - i. Ensure that a student has fully met the lower-division general education and major discipline requirements for a MnSCU university. (This may not be possible for all degree pathways, but should be accomplished where it is possible).
 - ii. Guarantee that a student has full junior status upon successful completion of the associate degree pathway.
 - iii. Ensure that a student who has followed a transfer pathway and received its associate degree can complete the baccalaureate degree upon earning the number of credits required for the degree minus 60 credits.
 - iv. Provide the opportunity for two-year college students to apply to a program at the same point in their academic progress as direct-entry students (assuming that pre-requisites have been completed). Students and advisors should be clearly informed about the difference between open and restricted-admission programs.
 - v. Guarantee, where capacity permits, that students who meet or exceed specific program requirements will be admitted to that program.
 - vi. Ensure that the pathway will specify required experiential, clinical or applied learning experiences (e.g., undergraduate research), where applicable, as part of the degree pathway.

STATUS: *The Transfer Pathways Coordinating Team has advised the Transfer Pathway Teams to incorporate these features and guarantees into the pathways that they create.*

H. Scope

- a. All MnSCU universities and eligible colleges (those who offer the associate in arts, associate in science or associate in fine arts would participate, according to the plan. Institutions would need to appeal to the Vice Chancellor for Academic and Student Affairs for an exemption. Possible reasons for an exemption would be that the

pathways are out of the current scope of degree or course offerings or that another degree pathway already exists for all two-year college students.

- b. The plan called for the creation of transfer pathways for about 25 to 30 of the most frequently enrolled baccalaureate programs. Currently, MnSCU universities grant about two-thirds of their collective bachelor's degrees in 30 programs.
- c. Project implementation would begin with a review of the most popular programs of study at the two year colleges; the most popular university degree programs and the most popular transfer programs (identified as those in which the content and competencies transfer to the junior level).
- d. During the implementation phases of the project, the chief academic officer (CAO) or designee at each college and university would identify current degree programs that would align with the transfer pathways for baccalaureate completion degrees created or drafted by the Transfer Pathway Teams.

STATUS: *The Transfer Pathways Coordinating Team has discussed and is in general agreement with the intended scope of the project—i.e., to include the programs that graduate the majority of the universities' baccalaureate students. In addition, the Transfer Pathways Coordinating Team wishes to carefully observe and discuss the relationship of the new transfer pathway degrees to existing associate degrees and their bilateral articulation agreements.*

I. Communications

- a. The plan called for a fully integrated public relations, marketing, and internal communications plan to help ensure that stakeholders receive, understand and realize benefit from the transfer pathways.
 - i. Identified stakeholders included existing MnSCU students, lapsed or stopped-out students; prospective students currently outside of MnSCU; faculty and staff; and the greater Minnesota citizenry whom we serve.
 - ii. Goals of the communications plan included creating awareness of transfer pathways among all prospective transfer students in our own system, both upper division and lower division, active and lapsed, so they ask and learn about them.
 - iii. In addition, the plan called for creating awareness of and interest in transfer pathways among prospective students who hadn't previously considered the MnSCU system as a solution they would invest in for their higher education, so they act to get more information about it.
 - iv. The communications plan must also motivate faculty and staff to become knowledgeable about the transfer pathways so that they can enthusiastically inform students about them.
 - v. Public communications about the pathways should shift public perception so that more Minnesotans see our system as collaboratively working to improve its efficiency and convenience while maintaining its quality and rigor.

- b. Tactics identified in the plan delivering messages to stakeholders in the most salient ways. Internal audiences, including existing students, may well be served by email, SharePoint, webinars, and live events. External audiences may well be best be served by landing pages that explain the benefit to them and provide access to the next step of more information or connection to a recruiter. Implied in this is the need for marketing tactics that drive traffic to those landing pages.

STATUS: *The Transfer Pathways Coordinating Team has reviewed and endorsed these objectives, and agrees with the authors of the original plan that targeted and broad and frequent communication of the pathways is essential to their successful implementation and adoption. In addition, the Transfer Pathways Coordinating Team has identified a strong need to communicate with faculty and other stakeholders throughout the curriculum development process. The team has created listservs for interaction with faculty in each discipline, as well as a public website with current information and a collaboration website for the work of the Transfer Pathways Coordinating Team and all the Transfer Pathway Teams. Most importantly, team members have determined that the best way to engage and get feedback from the statewide community is to hold “Discipline Stakeholder Meetings” in March 2016, so that all interested parties can provide their ideas and suggestions in response to the first draft of each of the four transfer pathway curricula.*

J. Operational and Procedural Issues

- a. The plan assigned to the Transfer Pathways Coordinating Team and the Transfer Pathway Teams the responsibility to identify and address procedural issues like the following:
 - i. The Transfer Pathways Coordinating Team and Transfer Pathway Teams must ensure that the receiving universities know when a student is transferring using a pathway.
 - ii. Evaluation tools and processes should be developed so that the pathways may be reviewed regularly to maintain or enhance quality and student success outcomes.
 - iii. The colleges’ and universities’ course equivalency system (Degree Audit Reports (DARS) system) must be regularly updated, and must support the inclusion of the Pathways.
 - iv. Updating of catalogs, websites, Transferology/DARS, transfer sheets, etc. should use normal timeframes.
 - v. Standard training tools should be developed for use by all campuses for advising staff and other constituents who may need training.
 - vi. The coordination team should review the current dispute resolution process/appeal process for students, colleges, and universities and adjust as needed.
 - vii. Regular MnSCU governance bodies should be responsible to ensure conflicts are resolved.
 - viii. Transfer Pathways should be incorporated into an easy to use and prominent website, including Transferology.

- ix. Standing committees and technology groups should be responsible for coordination to ensure the sustainability of transfer pathways.
- x. Annually, the enrollment and graduation numbers for pathway degree transfers and cohort degree completion will be reviewed and reported to the campuses, student associations, and other system stakeholders.
- xi. Transfer Pathway Teams should be encouraged to identify additional ways to streamline transfer process.

STATUS. *The Transfer Pathways Coordinating Team is continuing to meet during the spring semester to plan for these operational provisions and other academic considerations arising as the Transfer Pathway Teams do their curriculum planning work. A general sense conveyed in the group's fall meetings is that the changes to be achieved by the transfer pathways could be transformational in creating improved alignment between the two-year colleges and universities, and the work of that creation could be squandered if the operational and communication supports are not provided to ensure their success.*

K. Budget

- a. The original plan noted that budget for ongoing Transfer Pathway Teams meetings and travel expenses, as well as any funding for advertising, was not included in the plan, although it provided an estimate of \$500,000 for the three-year implementation, independent of media advertising and communication with the general Minnesota public.

STATUS. *The Legislature provided \$115,000 over the biennium 2015-2017 for the project. To date, approximately \$13,400 has been spent on meeting and travel expenses for the Transfer Pathways Coordinating Team and Transfer Pathway Teams members.*

Summary

The Minnesota State Colleges and Universities remain enthusiastic about this unique opportunity and responsibility to develop effective transfer pathways from community colleges to universities in order to increase the number of students who earn baccalaureate degrees. As the work begins, it is even more apparent than it was during the planning phase that this project will be challenging and require considerable investment of time and resources, but with the anticipation of significant outcomes. For example, the California “associate degrees for transfer” initiative, which served as a model for the MnSU Transfer Pathways, is now three years into full implementation, and each year the number of students taking these associate degrees has doubled, and now exceeds 22,000 degrees granted per year.

Our students’ investment in their education is also an investment in the greater good of our state. As a system, we continue to invest in students in many ways, not least by creating the most effective and efficient transfer system possible.

Baccalaureate Degree Transfer Pathways – Status Report

MnSCU is committed to providing students an extraordinary education and the highest-value, most affordable options. Transferability of courses is a key element in that value proposition, and the transfer pathways are a new and powerful element in improving transfer.

APPENDIX C

Transfer Pathways Team Charge Documents

Charge

A Transfer Pathway Team is a group of faculty, working within their discipline (or program cluster), and in consultation with staff and students, to create statewide discipline-specific pathways to baccalaureate degrees. Each transfer pathway will have a representative Transfer Pathway Team.

Transfer Pathway Team members are charged with developing a statewide pathway to baccalaureate degree that allows a student to transfer the full Associate of Arts, Associate of Science, or the Associate of Fine Arts degree in the Transfer Pathway Teams respective field of study into a parallel bachelor degree program offered at a MnSCU university.

Transfer Pathway Team members will work together to identify the competencies required for entry into the field of study at the junior-level. The resulting pathway will also build on the 24-40 OR 30 credit MnTC framework that is the basis of the MnSCU college credit transfer system.

The goal of the statewide pathways to baccalaureate degrees is not to create a common associate degree program or a bachelor degree program in the field of study. Rather, institutions will use the pathway to baccalaureate degree to ensure minimum competency requirements are met at the associate degree level and that students are academically prepared to transfer into the parallel bachelor degree program as juniors.

Members

Recognizing the importance of having faculty, administrators and staff from both two- and four-year institutions involved in the statewide pathways to baccalaureate degrees process, the Transfer Pathways Coordinating Team determined each Transfer Pathway Team shall include 20 members representative of the bargaining units and administration from across the community colleges and universities. In addition, a Transfer Pathways Coordinating Team member will act as a non-voting liaison:

- 6 Minnesota State College Faculty (MSCF) faculty from the discipline area
- 6 Inter Faculty Organization (IFO) faculty from the discipline area
- 6 administrators and staff
 - 2 transfer / advising staff (one MSUAASF, one MAPE)
 - 2 student affairs officers (one college, one university)
 - 2 academic deans (one college, one university)
- 2 Students (one college (MSCSA) and one university (MSUSA))

Baccalaureate Degree Transfer Pathways – Status Report

- 1 Transfer Pathways Coordinating Team liaison non-voting member(not from the discipline)

Member Criteria

Effective pathways to baccalaureate degrees are a combination of academic requirements, institutional policy and advising. For this reason, each Transfer Pathway Team shall consist of members with a collective knowledge and experience from the various academic, administrative and operational areas of higher education:

- Academics related to the Transfer Pathway Team field of study area(s)
- Curriculum development
- Transfer and articulation, such as transfer admissions, development of articulation agreements, determination of course equivalencies, etc.
- Advising (i.e. undergraduate student advising, transfer student advising, major-specific advising)
- Administration (i.e. institutional policies related to the major, transfer of credits, admissions, financial aid)
- Minnesota’s current statewide transfer system, the Minnesota Transfer Curriculum (MnTC) and course approval process, curriculum committees, Transferology website, DARS, etc.

Only representatives from universities with degree programs and current faculty teaching at the colleges in the Transfer Pathway Team’s field of study may serve as committee members.

Selection Process

Each of the bargaining units will determine its respective representation for each committee. The administrators will be solicited by the Vice Chancellor of Academic and Student Affairs.

The Transfer Pathways Coordinating Team liaison will be determined from within the Transfer Pathways Coordinating Team.

TRANSFER PATHWAY TEAM Leadership

Each Transfer Pathway Team will be led by faculty co-chairs, one from the university faculty and one from the college faculty. Each Transfer Pathway Team will be asked to elect co-chairs at its first meeting.

The Transfer Pathways Coordinating Team liaison will assist the co-chairs with agenda planning, meeting facilitation and serve as the liaison between the Transfer Pathway Team and the Transfer Pathways Coordinating Team.

Voting

Transfer Pathway Team members at the two- and four-year institutions are equal partners in developing the statewide pathways to baccalaureate degrees, and are expected to work toward consensus in crafting the pathways. In the case that a vote is called, all members have an equal vote, except the Transfer Pathways Coordinating Team representative who serves as a non-voting member. An exception would be in the likelihood that an appointed Transfer Pathway Team member is also the Transfer Pathways Coordinating Team liaison. In that case, the member would have equal voting rights. The final pathway must be reviewed within seven days of its presentation to the Transfer Pathway Team members. Approval will be deemed by a simple majority in a vote. In the case that a Transfer Pathway Team has uneven numbers of appointees of faculty, voting representation for each member will be equalized (e.g., 4 members would have 1.5 votes each as against 6 members). If the Transfer Pathway Team becomes deadlocked in its decision-making, the Transfer Pathways Coordinating Team will review and make a final decision. A minority report may be generated to assist the Transfer Pathways Coordinating Team in its decision-making process.

Deliverables

The Transfer Pathway Team is expected to develop a written pathway to baccalaureate degree that meets the above charge and receives Transfer Pathways Coordinating Team approval. The Transfer Pathway Team co-chairs must also submit interim reports to the Transfer Pathways Coordinating Team liaison by the first of each month, describing progress made, milestones achieved and next steps

Milestones

Each Transfer Pathway Team will be required to achieve the following milestones:

1. Affirm the Transfer Pathway Team co-chairs.
2. Develop a Transfer Pathway Team project timeline that works within the timeline outlined by the Transfer Pathways Coordinating Team and includes completion of project milestones and the final pathway to baccalaureate degree.
3. Develop a draft pathway to baccalaureate degree.
4. Obtain feedback from all relevant system constituents.
5. Develop a final pathway to baccalaureate degree.
6. Obtain approval of the pathway to baccalaureate degree from the full Transfer Pathways Coordinating Team.

The Transfer Pathway Team co-chairs serving on the Transfer Pathway Team are responsible for submitting the above items to the Transfer Pathways Coordinating Team liaison by the deadline indicated. All final deliverables should be sent by the Transfer Pathways Coordinating Team liaison to the system office. Once approved, the system office will send out the pathway to all institutions to begin making the adjustments to their curriculum if needed.

Authority

The Transfer Pathway Teams will create the pathways. It is recommended they will begin their work with a review of all of the current articulation agreements in the related fields of study and the individual university degree requirements for the degrees. The Transfer Pathway Teams will:

- have full autonomy to consider the full range of strategies/ideas to achieve the goals;
- be self-governed to meet the designated timelines agreed upon by the Transfer Pathways Coordination Team;
- seek program advisory committee input where appropriate;
- report their work to the Transfer Pathways Coordinating Team for approval;
- submit regular interim progress reports;
- develop a written statewide pathway to baccalaureate degree that allows students to transfer the full Associate of Arts, Associate of Science or Associate of Fine Arts degree in the Transfer Pathway Team’s respective field of study into a parallel bachelor program offered at any MnSCU university;
- identify the competencies required for entry into the field of study at the junior-level;
- develop a pathway to baccalaureate degree that builds on the MnTC framework. (24-40 credits?).

Once the pathways are determined, the faculty at the colleges will consider how their current curriculum will fit into the new pathways. Campuses will utilize current curriculum review and approval processes to implement the new pathways.

Expectations

- Participate in Transfer Pathway Team discussions and work with fellow Transfer Pathway Team members to develop the final pathway to baccalaureate degree.
- Meet all deadlines established by the Transfer Pathway Team and the Transfer Pathways Coordinating Team.
- Vote on the pathway before it is submitted to the Transfer Pathways Coordinating Team or review.
- Communicate with the Transfer Pathways Coordinating Team liaison member frequently.
- Assist with all other tasks as agreed upon by the Transfer Pathway Team to make progress.
- Work with all members to build consensus in Team decisions and recommendations.
- Identify and pursue opportunities for collaborating in program offerings.
- Members who miss meetings are expected to review recordings and notes to be prepared for subsequent meetings.
- Members may attend meetings remotely via teleconference.
- Members who miss more than two meetings will be excused from the team.

Team Leaders

Co-chairs will be selected by the IFO and MSCF bargaining units, one from each unit for each Transfer Pathway Team.

The Transfer Pathway Team co-chairs are responsible for the following tasks:

- Organizing the Transfer Pathway Team
- Coordinating meetings
- Keeping Transfer Pathway Team members on task
- Submitting to the Transfer Pathways Coordinating Team liaison all required deliverables, including the monthly progress reports and final agreement.
- Identifying issues to be discussed by the Team, and will consult with the Transfer Pathways Coordinating Team liaison to identify resources needed.

Role of the TRANSFER PATHWAY COORDINATING TEAM Liaison

The Transfer Pathways Coordinating Team co-chairs will appoint a Transfer Pathways Coordinating Team representative to serve as a liaison on each Transfer Pathway Team who is not a faculty member or administrator with responsibilities in the discipline. Except for voting, the Transfer Pathways Coordinating Team liaison member is expected to assume the same role as the other Transfer Pathway Team members in addition to the following tasks:

- Serve as the Transfer Pathway Team's liaison with the Transfer Pathways Coordinating Team
- Help the Transfer Pathway Team with understanding current systems and other policies, procedures and processes for transfer
- Provide support to the Transfer Pathway Team co-chairs and assist with agenda planning, meeting facilitation and coordination of the Transfer Pathway Team and related pathway project.
- Submit the Transfer Pathway Team deliverables to the Transfer Pathways Coordinating Team on behalf of the Transfer Pathway Team by the deadline indicated.
- Be prepared to provide project update at the Transfer Pathways Coordinating Team meetings.

Program Inventory Report 2016

Academic and Student Affairs

May 23, 2016

Minnesota
STATE COLLEGES
& UNIVERSITIES

Executive Summary

Board Policy 3.36, Part 5. Academic Program Approval, requires the chancellor to submit a report annually to the Board of Trustees on the status of the Program Inventory, the list of approved academic programs that the chancellor has approved to be offered by system colleges and universities. This report presents a snapshot of the current inventory of academic programs and discusses the dynamic nature of academic program planning to meet the workforce needs of the state.

The Program Inventory

There are 3,786 academic programs offered at MnSCU institutions, with colleges offering 2,770 programs and universities offering 1,016 programs. The number of programs at colleges has declined in the past decade, but has increased at universities. Certificate programs are the most numerous, followed by associate degree, diploma, and bachelor degree programs. Thirty-five percent of the programs offered by universities are at the graduate level.

In the past year, 105 new programs were added to the inventory and 109 programs were closed, most of them at the colleges. This compares to an annual average of 106 new programs and 134 closures for the past ten years.

The colleges and universities offer programs within their mission, so there is a wide variety of program offerings. The most commonly offered programs and the programs with the most completers are in the health professions, business, the liberal arts, law enforcement, and education. Online delivery of programs has increased; almost 16% of all programs are now available completely online. These 591 programs represent a 36% increase in online program offerings over the last decade.

Program Planning

The Program Inventory is dynamic. As new programs are developed, old programs are closed, and changes are made to existing programs daily. The Academic Programs unit provides a number of planning tools and data resources to help program planners on the campuses make informed decisions.

It appears that colleges and universities are making wise decisions when creating new programs and closing existing programs. The Graduate Outcome Survey from 2014 shows that the employment rate for MnSCU graduates of programs with most completers is well above 90%. This suggests that MnSCU programs are successfully preparing students to meet the employment needs in the Minnesota work force.

Program Inventory Report to the Board of Trustees 2016

As decreed by Minnesota Statutes 136F.05, the mission of the Minnesota State Colleges and Universities is to *provide programs of study that meet the needs of students for occupational, general, baccalaureate, and graduate education*. The 37 degree-granting colleges and universities in the system have developed academic programs in fields ranging from accounting to wood science, and they award undergraduate certificates, diplomas, and degrees ranging from the associate to doctoral level.

The Board of Trustees has recognized the need for an orderly development of academic programs and has mandated through Board Policy 3.36, Part 5, that *approval of the chancellor is required for new academic programs, changes to existing academic programs, suspension of academic programs, and closure of academic programs at system colleges and universities*. The chancellor is directed to maintain an inventory of approved academic programs, and system colleges and universities may only offer programs that are included in the Program Inventory.

This report has been prepared in order to comply with the requirement that the chancellor annually report to the Board of Trustees on the status of the inventory. This report includes data and analyses regarding the alignment of college and university program offerings with the workforce needs of the state.

The Program Inventory

The Program Inventory is the official repository for all approved academic programs and is used for financial aid reporting, federal gainful employment accountability, awards conferred, the MnSCU Viewbook, and several websites. It is searchable online and can be filtered by institution or by program type, using the Classification of Instructional Program (CIP) code developed by the U.S. Department of Education's National Center for Education Statistics.

Each program entry in the inventory contains the name of the institution, a program name, the CIP code it has been assigned, the number of credits, the method of delivery, the award type, and other information that is used in various business processes.

The Program Inventory lists approximately 3,786 academic programs and is updated daily, so the numbers change as program requests are processed.

A program, for purposes of the inventory, is the separately identified group of courses and educational experiences associated with the award of a degree, diploma, or certificate. A college or university department might have several programs associated with any given major field of study. For example, the nursing department at Lake Superior College offers programs awarding a certificate for nursing assistant, a diploma for practical nursing, and an associate in science degree in for those seeking to be a registered nurse.

Over time, the number of programs offered by the colleges and universities changes as the workforce needs of the state and the needs of the students change. During the last decade, as shown in Figure 1, the number of programs has been reduced at two-year colleges, but has remained fairly consistent at the universities. In early 2016, colleges offered 2,770 programs, while universities offered 1,016 programs for a total of 3,786 academic programs. These numbers are down from the peak of the last decade, occurring in 2009 when colleges offered 3,106 programs and universities offered 975 programs for a total of 4,081 programs available within the system. Colleges offer a greater number of programs because of the wide variety of technical offerings required to meet workforce needs.

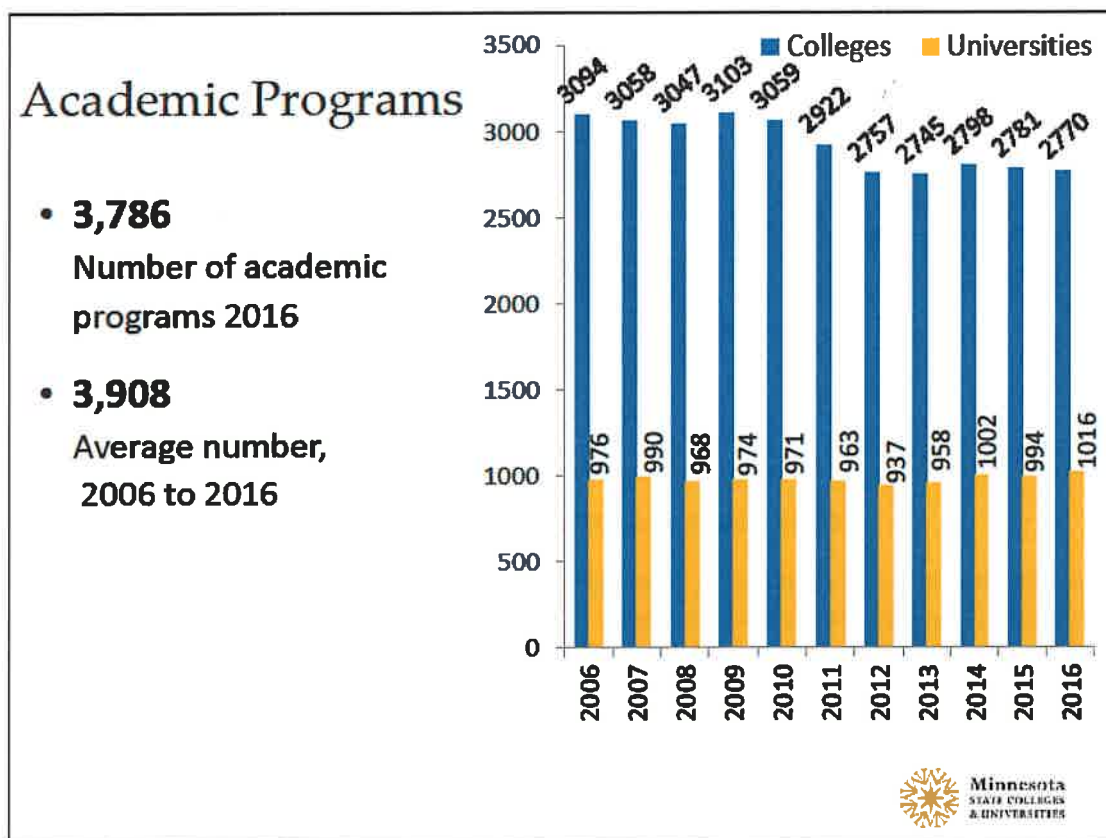

Figure 1: Academic Programs in Program Inventory 2016

Annual Program Change

The number of academic programs regularly increases or decreases over time. Changes reflect the state's occupational needs and student demand, as well as campus activities that address academic programs in regard to cost efficiencies, available resources, and program costs.

In the past year, 105 new programs were added to the Program Inventory, as shown in Figure 2, most of them at two-year colleges. This number was on par with the average of 106 new programs created annually over the previous decade. The trend in program creation shows the effects of the economic cycle. During poor economic periods, enrollments increase, and colleges and universities tend to increase the number of programs designed to meet the

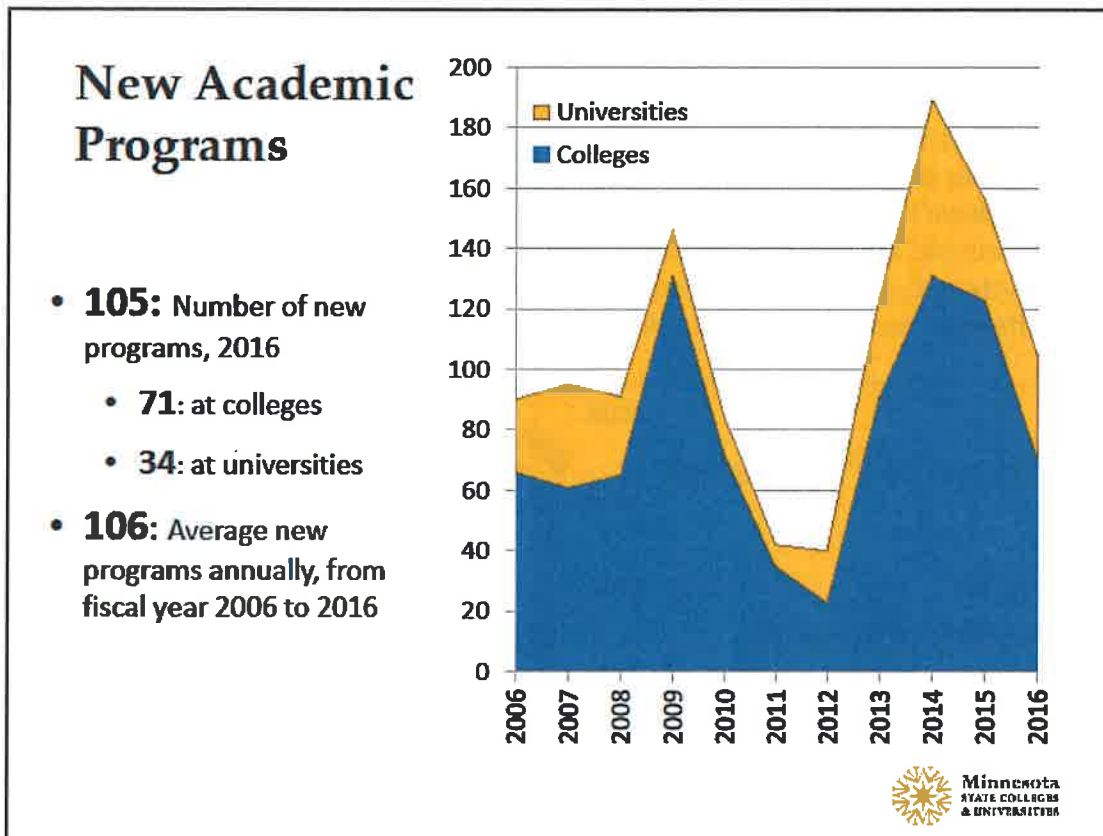

Figure 2: New Academic Programs Approved in Past Year

needs of the students and employers. When jobs are plentiful, student enrollment tends to decrease, and programs created for displaced workers are phased out. Of the new programs approved in the past year, 80% were in occupational and technical fields, while 20% were in the liberal arts and sciences.

Figure 3 shows that the number of program closures in the past year is lower than the yearly average during the last decade. Of the 109 programs closed, 78% were at two-year colleges and the remaining 22% were at universities. Although the numbers vary from year to year, it's important to note how stable the numbers are in closures and openings, with approximately two to three percent of all programs added and closed each year. Of the programs closed in the past year, 95% were in occupational and professional fields, while 5% were in the liberal arts and sciences.

Figure 3: Existing Programs Closed in Past Year

Basis for Closures

Colleges and universities submit proposals for new programs and requests for program closures through Program Navigator, a database management system that links to the Program Inventory. When a program initiator submits an application to close a program, he or she is presented with a series of questions about the program and the action requested. One set of questions concerns “Closure Rationale.” A review of the responses reveals some common bases for program closures. These are listed in Table 1. The college or university may indicate more than one reason, so the numbers do not correspond with the number of program closures.

Reasons for Program Closure	Number of Programs
Low program enrollment	40
Program Redesign or Reorganization	27
Cleanup of Program Inventory – previously closed on campus	14
Closed Enrollment – relationship with employer ended	9
Approved but never offered by campus	5
Recommendation of advisory committee or employer group	5
Availability of qualified faculty	4
Limited financial resources	3
Program duplicates another in close proximity	3
Projected employment opportunities for graduates is low	3
State Licensing Requirements Changed	3
Availability of internship sites	2
Low graduation rate	2
Related employment rate for graduates has been less than 60%	2
Program was not accredited	1

Table 1: Rationale for Program Closures 2016

Programs by Award Level

Colleges and universities offer a range of academic awards at the undergraduate and graduate levels. Undergraduate awards include certificates which may require as few as nine credits, diplomas, associate degrees, and bachelor degrees. Graduate awards include graduate certificates, master’s degrees, specialist degrees, and doctorates.

Two-year colleges may offer certificates, diplomas, and associate degrees. Of these, certificate programs outnumber associate degree programs 1,082 to 1,041, followed by 646 diploma programs. Universities offer a broader range of award levels, but most academic programs award the bachelor’s degree, accounting for 58% of all programs at universities. See Figure 4.

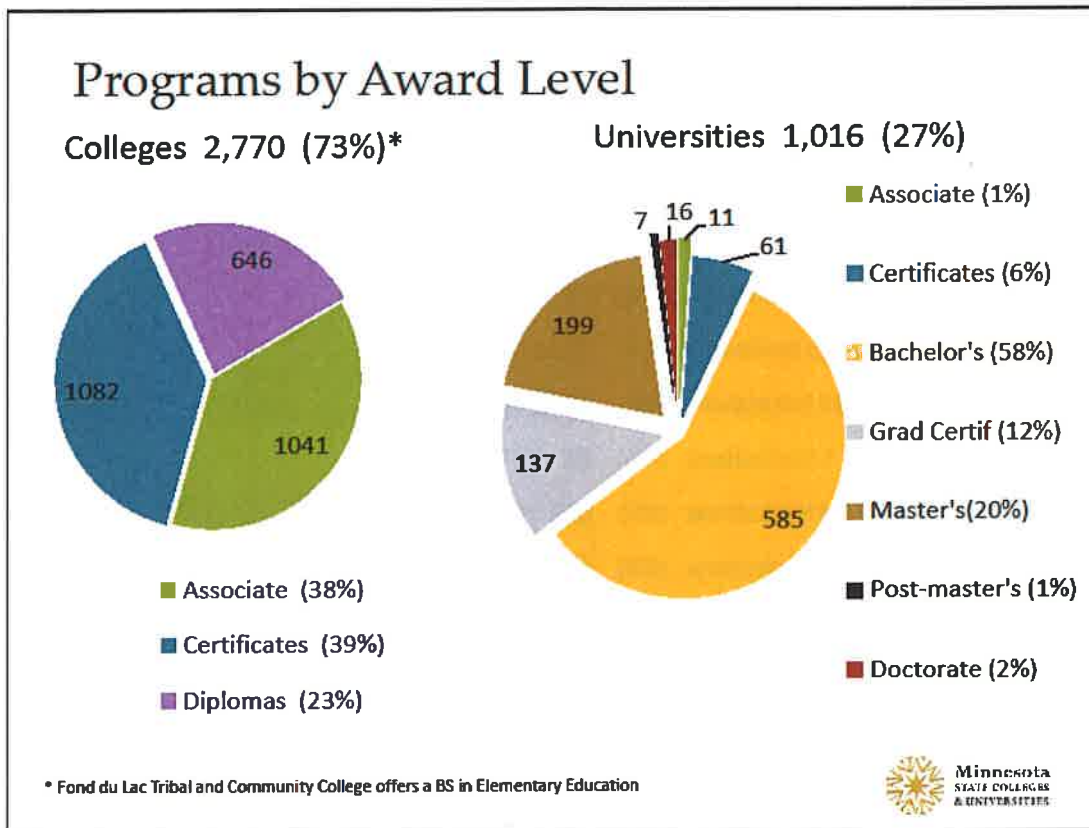

Figure 4: Academic Programs by Award Level 2016

Program Duplication

Each college and university has a specific missions to serve the community and region in which it is located. This attention to local needs can be seen in the diverse array of programs that are designed by the faculty and administration at each institution to meet community demands. Most programs are offered at five or fewer institutions, and those that are offered at more than five colleges and universities are typically the most in-demand programs such as business, education, liberal arts, and health care. The state legislature mandated that the Board of Trustees avoid duplicate program offerings, and the fact that few programs are duplicated across two-year colleges and universities is reflected in Figure 5.

Program Access: Number of Institutions Offering Programs

Figure 5: Program Variety and Lack of Duplication

Program Appeal

The variety of skill preparation needed to support workforce needs throughout Minnesota and local differences in student interest causes two-year college and university programs to vary in size and number. The appeal of specific programs can be demonstrated by the type of programs offered at most colleges and universities, and the numbers of graduates and completers in each instructional program category. The most commonly offered program is the associate degree in Liberal Arts and Sciences, which is offered at 31 institutions. Other most commonly offered programs listed in Table 2 are nursing, automotive technology, and business.

Program Groups Offered by Sixteen or More Institutions			
Minnesota State Colleges and Universities			
Fiscal Year 2016*			
February 26, 2016			
Program Group			Number of Institutions Offering Programs within Program Group
CIP Code	CIP Code Description	Award	
520301	Accounting	AAS	17
520401	Administrative Assistant and Secretarial Science, General	AAS	18
470604	Automobile/Automotive Mechanics Technology/Technician	DIP	20
520201	Business Administration and Management, General	AS	16
520701	Entrepreneurship/Entrepreneurial Studies	CERT	16
510000	Health Services/Allied Health/Health Sciences, General	AS	18
240101	Liberal Arts and Sciences/Liberal Studies	AA	31
513901	Licensed Practical/Vocational Nurse Training	DIP	22
510716	Medical Administrative/Executive Assistant and Medical Secretary	AAS	16
513902	Nursing Assistant/Aide and Patient Care Assistant/Aide	CERT	26
513801	Registered Nursing/Registered Nurse	AS	22
480508	Welding Technology/Welder	CERT	17

Table 2: Most Commonly Offered Programs 2016

Perhaps not surprisingly, the top-ranked programs in terms of graduates and completion in recent years align with the most-frequently offered programs. Across all colleges and universities, instructional programs with the highest number of completers are those in the health professions, followed by the liberal arts, and then business programs. Table 3 shows the top ten educational fields ranked by number of completers as of 2014.

**Instructional Program Groups Ranked By Completers
Fiscal Year 2014**

Educational Field		
CIP Code	Category Description	Completers
51	Health Professions	10,834
24	Liberal Arts and Sciences/Liberal Studies	7,412
52	Business Management and Marketing	5,872
13	Education	2,322
43	Homeland Security, Law Enforcement, Firefighting	2,008
47	Mechanic and Repair Technologies	1,600
15	Computer and Information Sciences	1,300
11	Engineering Technologies	1,288
50	Visual and Performing Arts	982
48	Precision Production	893

Table 3: Top Programs Ranked by Number of Completers

Programs by Occupational Field

Another way to analyze the programs listed in the Program Inventory is to examine the variety and breadth of occupational fields or disciplines represented. Of the 3,786 programs currently offered by colleges and universities, 829, or 22%, are in the fields of science, technology, engineering and mathematics (STEM). Minnesota State Colleges and Universities are consistently at the forefront of new technologies and are preparing students for the jobs of today and tomorrow. Other major fields include business and marketing with 566 programs, the health professions with 568 programs, and the trades, mechanics, and transportation areas with 495 programs. See Figure 6.

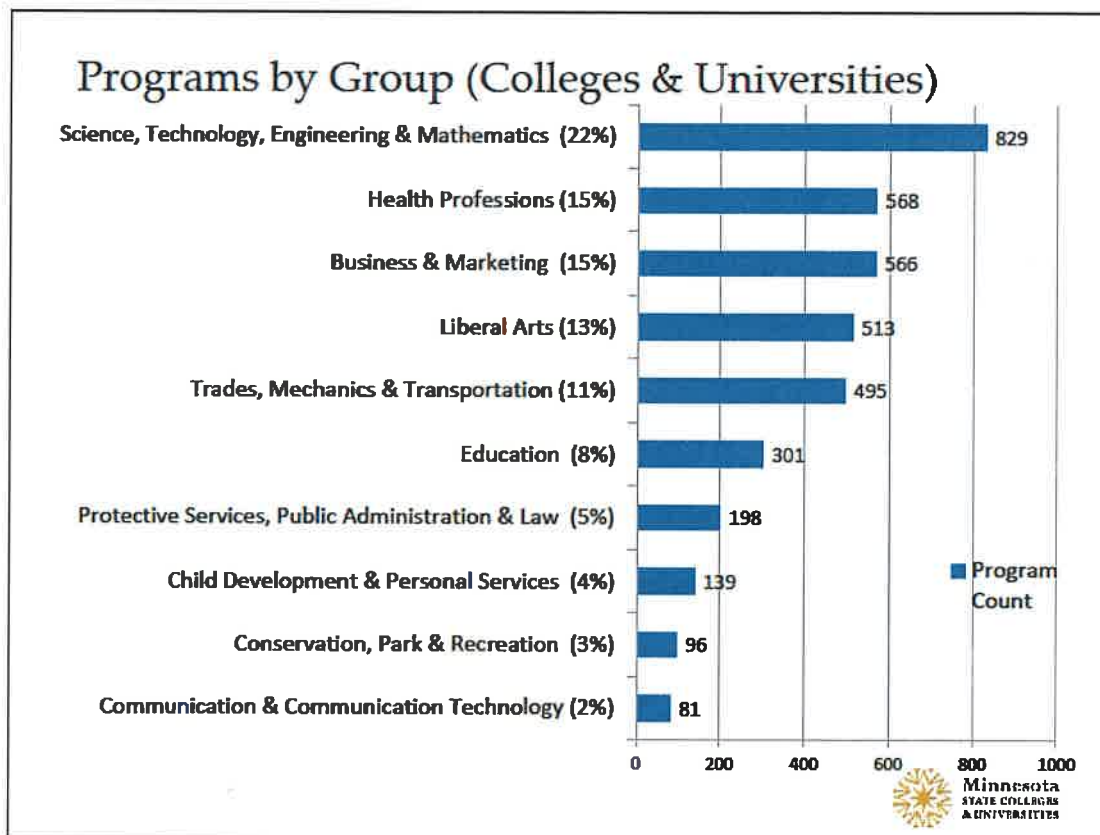

Figure 6: Program Appeal by Field of Study

Program Mode of Delivery

Mode of delivery refers to the way the classes in a program are taught. Minnesota State Colleges and Universities has defined three modes of program delivery. *Land* refers to programs delivered in face-to-face instructional settings. *Online Exclusive* refers to programs that are offered only online--no participation in face-to-face classes is available. *Online Plus* refers to an online program that is offered entirely online, but in which students may elect to take one or more classes through face-to-face delivery. The online delivery modes are especially beneficial to those students who face geographical or scheduling barriers to their education.

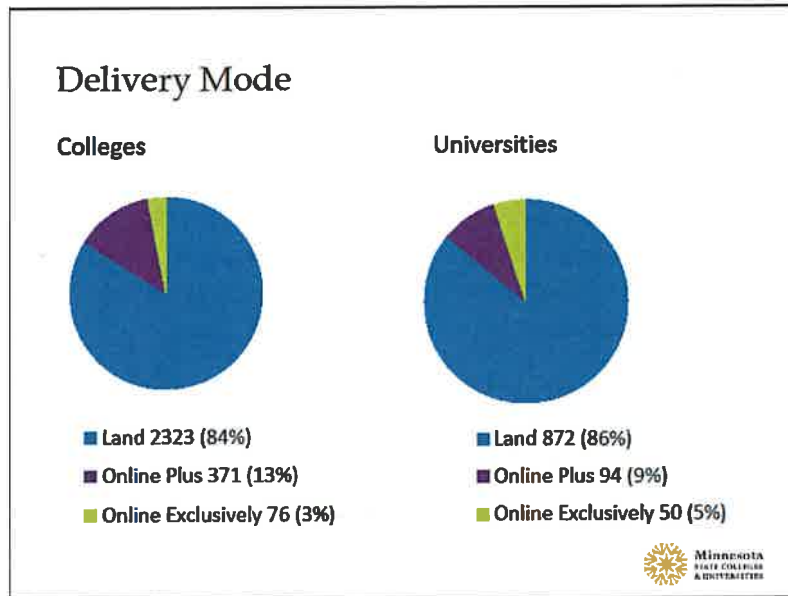

Figure 7: Programs by Delivery Mode 2016

As shown in Figure 7, approximately 84-86% of programs use the traditional mode of delivery, but a sizeable proportion of programs are delivered fully online at colleges and universities. In 2016, almost 16% of all programs were available completely online, compared to 10.6% of programs only ten years ago in 2006. Figure 8 shows the growth of online programs over the past decade.

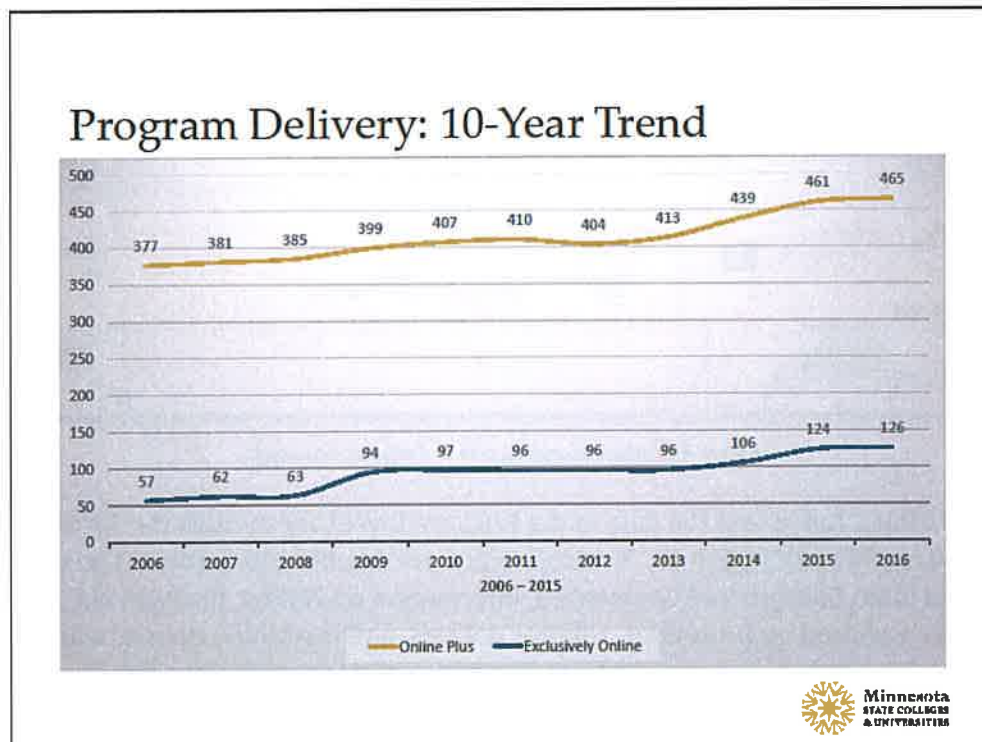

Figure 8: Growth of Online Programs 2006-2016

Use of Program Inventory

The Program Inventory is not a static data archive of academic programs, but is a dynamic representation of programs as they change, are opened, closed, or suspended. The Program Inventory is used by faculty, campus staff, and leadership. Students also have access to the Program Inventory through the College Search website and the MnSCU Viewbook. If students are looking for programs offered by any college or university, they can go to the MnSCU.edu web site and click on the link to *Find a Program or Major*. They may search by key word, program category, school, or zip code, or browse the programs by academic award, school, category, or delivery mode (Figure 9).

The screenshot displays the Minnesota State College Search interface. At the top, a navigation bar includes links for Admissions, Colleges & Universities, Academic Programs, Online Learning, Military & Veterans, Career Resources, and Apply Today. A search bar is located on the right. Below the navigation bar, a banner features a magnifying glass icon and the text: "Choose from 24 state community, technical and comprehensive colleges and 7 state universities ... with locations in 47 communities, offering over 5,400 educational programs statewide".

The main section is titled "College Search" and contains several filters on the left and a results list on the right. The filters include:

- Program Title:** Search for (with a search icon)
- Program Area:** Health (dropdown menu)
- Program:** Cardiovascular Technology (dropdown menu)
- Program Delivery:** No Preference (selected), Face-to-face, Online
- Award/Degree:** Associate (dropdown menu)
- Location:** Search within 50 miles from (with a search icon) and Zip/Postal Code (with a search icon)
- Tuition and fees:** MnSCU 2-year (1000) and MnSCU 4-year (50,000) (with a search icon)

The results list on the right shows three entries for "Cardiovascular Technology" programs:

Program Name	Institution	Award
Cardiovascular Technology	St. Cloud Technical and Community College 100% Matching Award Program, Program Area Match	AAAS
Cardiovascular Technology - Invasive	Minnesota State Community and Technical College 100% Match, Non-matching	AAAS
Cardiovascular Technology--Invasive	Northland Community and Technical College 100% Match, Non-matching	AAAS

Figure 9: College Search Access to Program Inventory

Students and others can access the data in the Program Inventory through the MnSCU Viewbook, represented by Figure 10. This online and print publication provides an overview of the Minnesota State Colleges and Universities, information on tuition, financial aid, student assistance, study abroad opportunities, transfer policies, and institution demographics. The Viewbook also lists programs organized by region and subject category (see inset).

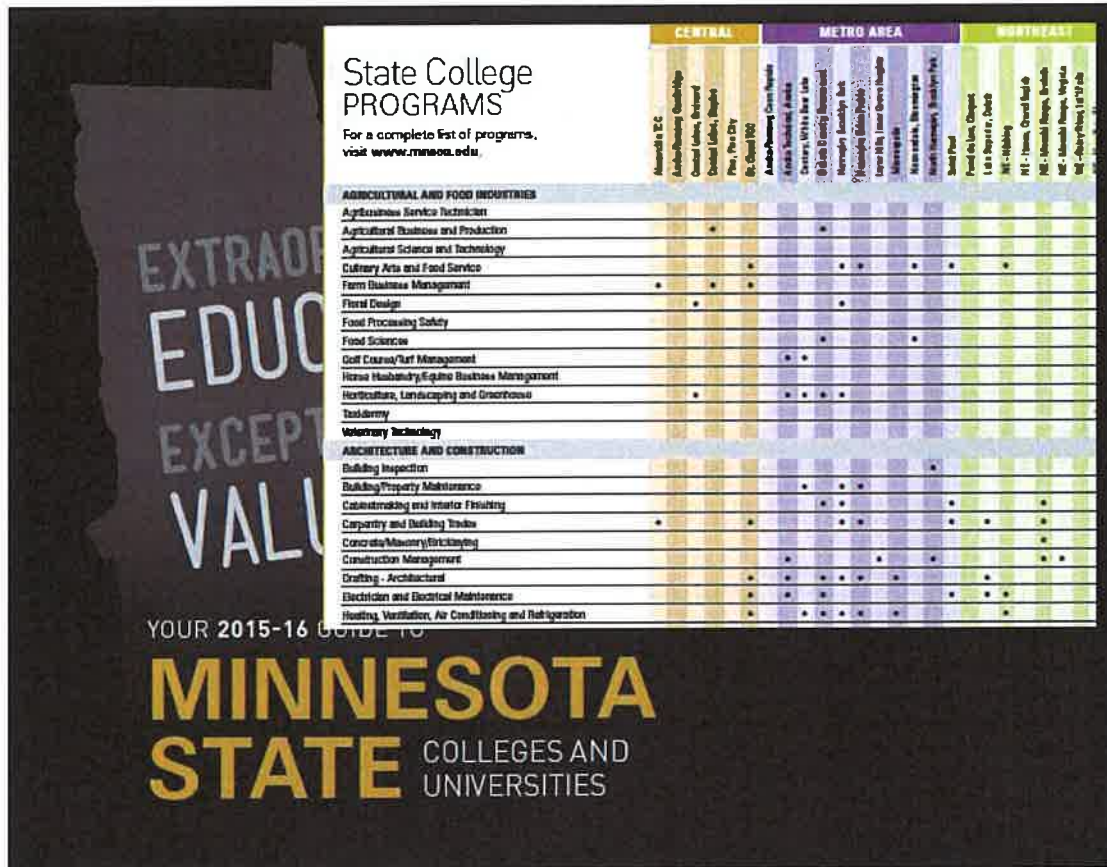

Figure 10: MnSCU Viewbook Includes Program Inventory Data

Faculty and staff at MnSCU colleges and universities have access to the online College Search catalog and the Viewbook but they can also access the Program Inventory in a more detailed environment. Oracle's Enterprise Performance Management System provides a customized Program Inventory dashboard, as shown in Figure 11, that allows faculty and staff to search the inventory by CIP (Classification of Instructional Programs) code, by career pathway, by award level, by institution, by delivery mode, and more. This tool is very helpful when colleges and universities are engaged in academic planning in that it helps them to avoid unnecessary duplication of programs, and to find opportunities for collaboration in program offerings.

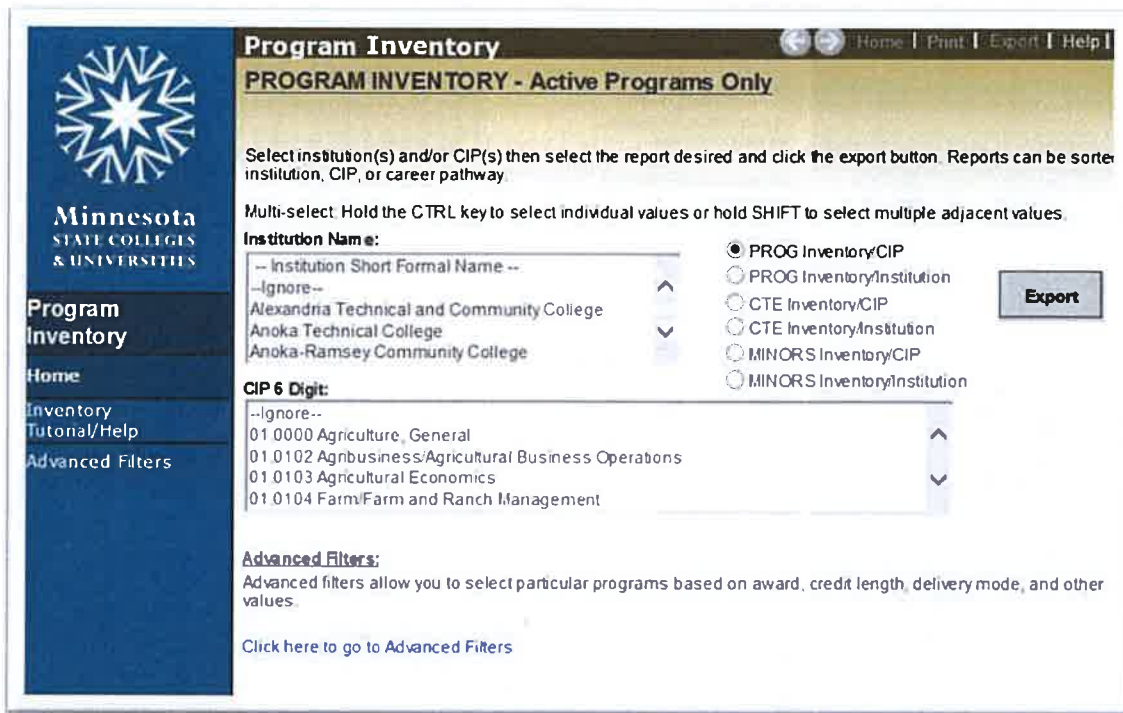

Figure 11: Program Inventory Dashboard for Faculty and Staff Access

Aligning Program Offerings to Workforce Needs

Most of the system's programs are intended to prepare students directly for joining the state's workforce. The concept of workforce alignment includes four specific dimensions:

1. Understanding the workforce needs of business and industry. The system office provides up-to-date information to college and university program planners that helps them identify current and changing employment markets, including predicted openings and wage levels.
2. Aligning supply of graduates with employers' needs: In proposing new programs, colleges and universities consider whether there is currently (or is likely to be in the future) a substantial difference between the supply and demand for program graduates. Supply/demand considerations also include:
 - a. *Geography*: Are programs offered in the appropriate locations?
 - b. *Educational Level*: Are graduates prepared with the appropriate degree (certificate, associate, baccalaureate, or graduate)?
3. Aligning the skills and knowledge in programs: Program planners provide evidence showing how curricula (e.g., learning outcomes, soft skills, tools, and technology) meet industry needs. Program evaluation at colleges and universities assesses whether program graduates are adequately prepared for jobs related to their training.
4. Developing awareness of employment markets: System campuses must constantly promote and explain to current and prospective students the occupational opportunities and requirements in each of their programs.

In addition, as colleges and universities consider whether to add, close, or revise programs, they are expected to address a number of factors, including program demand, curricular content, possibilities of collaboration or unnecessary duplication, the college or university mission, and available resources. In order to assist program planners in making decisions that benefit the students and increase program efficiencies, the system office provides and maintains useful tools on the Academic Programs web site (<http://asa.mnscu.edu/academicprograms>)

Program Planning Tools

LMIwise, using data provided by the Minnesota Department of Employment and Economic Development (DEED) and Minnesota State Colleges and Universities, allows users to easily access labor market supply and demand data. Program planners, using program or occupation titles and descriptions, or by browsing career clusters or occupation-program sets, can view a wide variety of occupational demand indicators, including current employment, wages, and projected growth. See Figure 12.

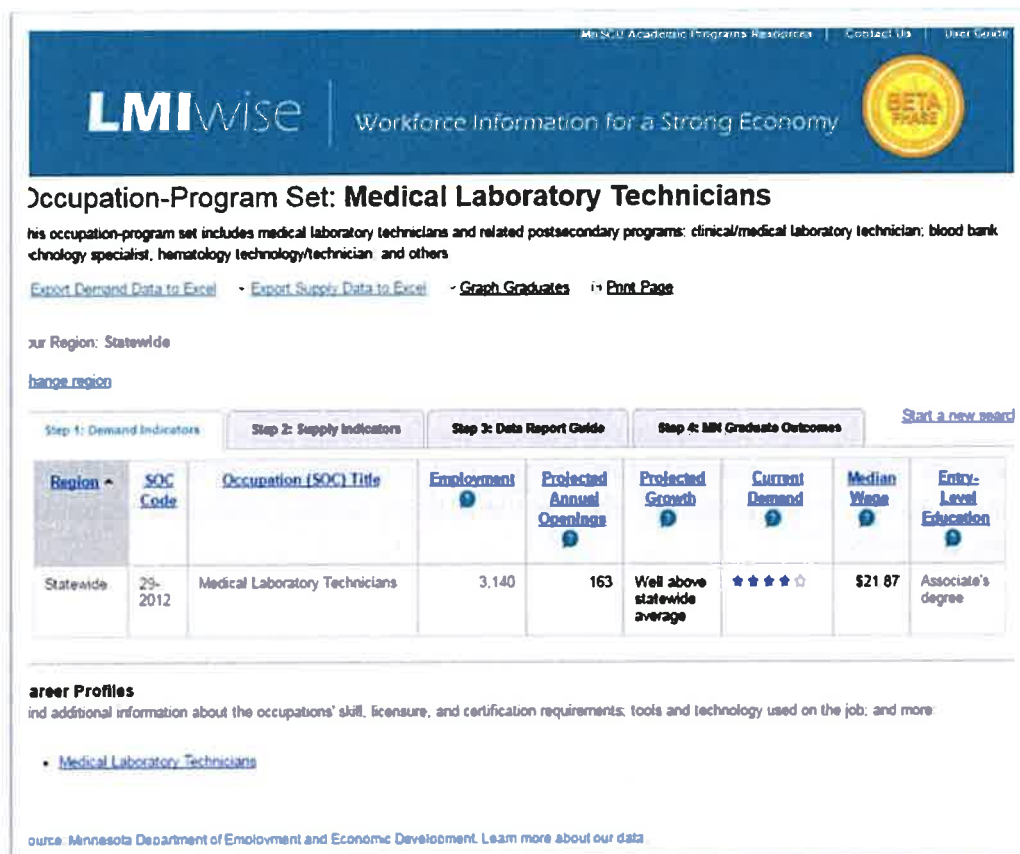

Figure 12: LMIwise Tool for Labor Market Research – Demand Indicators

They can also view the supply of recent graduates from Minnesota and neighboring states. A comprehensive interpretation guide walks users through the process of compiling and analyzing these data (see Figure 13).

Figure 13: LMIwise Tool for Labor Market Research – Supply Indicators

Other tools made available to campus program planners include a Student Interest Handbook compiled for MnSCU by Hanover Research, a link to the Economic Development and Employer Planning System (EDEPS), an analytical tool for business, education, workforce, and economic planners, a link to the O*NET program, which is the nation's primary source of occupational information, and more.

Within Program Navigator, the database management system custom designed for Minnesota State Colleges and Universities, program planners submit information concerning their program plans. For new programs, they submit a Notice of Intent that is published online for statewide review and comment by other system colleges and universities. The system office's Academic Programs staff reviews the comments and then works with campus leadership to resolve any concerns. For all proposals, staff offer advice on policy requirements and application completeness, and when compliance with policy is ensured, the program is added to the Program Inventory.

Program Effectiveness

The United States Department of Education requires postsecondary institutions to report data on the employment of its graduates as an indicator of program effectiveness. For the Minnesota State Colleges and Universities as a whole, the evidence on this key indicator is

strong. The employment rate for program graduates is typically quite high, indicating that the programs completed by the student are well-matched for the workforce needs of the state. Table 5 lists the top ten educational fields as ranked by the number of student completers and the corresponding employment rate.

**Completers' Employment Rates by Educational Field
Fiscal Year 2014**

Program Group		Employment Rate	Completers
CIP Code	Category Description		
13	Education	95%	2,322
47	Mechanic and Repair Technologies	95%	1,600
15	Computer and Information Sciences	95%	1,300
48	Precision Production	95%	893
51	Health Professions	93%	10,834
52	Business Management and Marketing	92%	5,872
50	Visual and Performing Arts	91%	982
24	Liberal Arts and Sciences/Liberal Studies	90%	7,412
11	Engineering Technologies	90%	1,288

Table 5: Employment Rate of Completers in Top Programs

Conclusion

The academic programs of the Minnesota State Colleges and Universities should prepare graduates for work, life, and citizenship. Academic programs should create graduates who are creative, innovative, and able to respond with agility to new ideas, new technologies, and new global relationships. Graduates should be able to lead their professions and adapt to the multiple careers they will have over their lifetimes.

--MnSCU Board Policy 3.36 Academic Programs

The MnSCU Program Inventory in 2016 continues to reflect a vibrant academic culture among faculty and administrators on our campuses who are working to offer programs designed to meet the workforce needs of the State of Minnesota, as well as the individual needs of the students. The breadth of program offerings at system colleges and universities provides ample opportunity for Minnesota citizens to learn a trade or occupation, to gain an education, to develop maturity and character, and to contribute back to society.

Concurrent Enrollment Update January 2017

Application to Higher Learning Commission - Faculty Qualifications for Concurrent Enrollment Instructors

In response to HLC's 2015 clarifications on the standards for minimum faculty qualifications for concurrent enrollment instructors, **Minnesota State completed a review of the credentials of all current concurrent enrollment instructors** and have established the scope and areas of credentialing needs statewide within our system. The review revealed that 76 percent of the nearly 1400 concurrent enrollment instructors presently teaching in high schools across the state need anywhere from one to 18 graduate-level credits within the discipline they teach. Minnesota State submitted an application for extension to the Higher Learning Commission on behalf of all of our colleges and universities on December 2, 2016.

On December 19th, **Minnesota State received approval for the extension from the Higher Learning Commission** relative to the credentialing of high school faculty teaching within our concurrent enrollment programs. The approval gives each college or university within Minnesota State that offers concurrent enrollment programming the five additional years requested (until September 1, 2022) to ensure that all current and new high school faculty teaching within concurrent enrollment programs meet the HLC requirements relating to qualifications for faculty providing dual credit instruction.

In the fall of 2016, **Education Minnesota, the Minnesota State College Faculty (MSCF), the Inter Faculty Organization (IFO), and Minnesota State joined together to move forward a comprehensive plan to support the vitality of high quality concurrent enrollment programs and to assist concurrent enrollment instructors in meeting minimum faculty qualification requirements.**

This comprehensive plan to address minimum faculty qualifications contains six key focal points:

1. Create processes that support concurrent enrollment instructors in meeting the credentialing standards by 2022. **IN PROGRESS**
2. [Create pathways](#) to support concurrent enrollment instructors to meet the minimum faculty requirement standards, including pathways that offer graduate-level, discipline-specific courses; and offer master of education degree programs that allow for 18 credits of discipline-specific content. **IN PROGRESS**
3. Provide opportunities and processes to award graduate-level credit to high school teachers who elect to demonstrate graduate-level learning and experience through a portfolio evaluation process. **IN PROGRESS**

4. Offer the option for concurrent enrollment instructors and college or university faculty members to team-teach concurrent enrollment courses. **EXPLORING**
5. Work collaboratively with other stakeholders and organizations to create processes and approaches to support concurrent enrollment instructors in meeting the minimum faculty qualification on an ongoing and sustainable basis. **IN PROGRESS**
6. Work with the State of Minnesota to seek options and resources to support the long-term sustainability of concurrent enrollment programs and to support concurrent enrollment instructors in meeting the minimum faculty qualification standards. **IN PROGRESS**

 This plan has been shared with Minnesota State campuses, local concurrent enrollment advisory boards, and other stakeholders, including both higher education and secondary stakeholders for review and input. We will move into implementation of the plan in spring 2017 and we anticipate that various parts of the plan would be rolled out in the next few years as we continue to discuss the elements in detail and create processes to implement the elements of the plan.

 Minnesota State universities are currently designing graduate coursework and programs that provide for discipline-specific content that will be available in formats that meet the needs of working professionals across the state (online, cohorts, summer, etc.). Visit the Minnesota State concurrent enrollment website for an updated list of courses and programs available at Minnesota State universities.

Concurrent Enrollment Advisory Boards

 As a result of legislation passed in 2015, all Minnesota State concurrent enrollment programs now have local advisory boards in place. Currently there are **249 secondary members** and 158 postsecondary members on these advisory boards.

 Minnesota State is working collaboratively with faculty and administrative leadership across K-12 and higher education, and with local Concurrent Enrollment Advisory boards to address this and other important concurrent enrollment issues.

Minnesota State is committed to supporting high quality, sustainable concurrent enrollment opportunities for all Minnesota students, as it makes a college education more accessible, more affordable, and decreases time to degree completion.

PSEO has increased from 5% of FYE enrollment in 2005 to 8% in 2015

Completion rates vary by academic preparation and financial need

Minnesota State Colleges Students Entering in Fall 2005 through Fall 2012

Completion Rates at Third Spring After Entry	Less Prepared	Moderately Prepared	Highly Prepared
Low Financial Need	49%	57%	57%
Moderate Financial Need	44%	52%	53%
High Financial Need	33%	42%	38%

Minnesota State Universities Students Entering in Fall 2003 through Fall 2009

Completion Rates at Sixth Spring After Entry	Less Prepared	Moderately Prepared	Highly Prepared
Low Financial Need	50%	53%	58%
Moderate Financial Need	46%	49%	56%
High Financial Need	39%	44%	51%

HUMAN RESOURCES

MINNESOTA STATE

**Human Resource Measures
Minnesota State**

Definitions

1. **Employees of Color and American Indian Employees:** Employees of Color and American Indian Employees are those who have identified one or more of the following racial-ethnic categories: American Indian or Alaskan Native, Asian, Black or African American, Native Hawaiian/Other Pacific Islander or Hispanic/Latino.

2. **FTE:** Full Time Equivalent is a measure of employee workload during a fiscal year. The FTE for an employee working exactly full-time is 1.0.

3. **Headcount:** Headcount represents the number of employees at a point in time and are measured as of March 1st of the year being reported. Headcount is reported on an unduplicated basis, so that each employee is counted only once, regardless of whether they work in more than one employee role. Unduplicated headcount is a more appropriate measure when reporting employee characteristics so that numbers are not inflated by counting an individual employee more than once. Counts are unduplicated at each institution and subtotal and total counts are unduplicated by the following: Anoka Colleges, Northeast Higher Education District, Colleges, Universities and Systemwide. Each employee is counted only once within each of these subtotals or totals. For example: staff employed at more than one college are only counted once in the college subtotal.

* Subtotal or total counts are unduplicated by the following: Anoka Colleges, Northeast Higher Education District, Colleges, Universities and Systemwide. Each employee is counted only once within each of these subtotals or totals. For example: staff employed at more than one college are only counted once in the college subtotal.

Note: Percents could be slightly different from the figures in the Strategic Performance Measures report due to the difference in rounding between EPM11 and Excel.

Minnesota State academic facility conditions

Facility Backlog (2010-2016)

Forecasted Renewal (2017-2026)

2016 Facility Backlog by System - \$782M

Key Points:

- Backlog has grown 25% since 2010
- Aging physical plant, and
- Last HEAPR funding was 2014
- Majority of investment required in:
 - HVAC
 - Building interiors
 - Roofs
- 10-year investment needs: **\$1.3 billion**

(Dollars in Thousands)

Source: Audited Financial Statements Fiscal Years 2011 through 2015.

*FY2015 includes an adjustment for GASB 68 related to unfunded pension liabilities in the amount of \$37.7 million. This adjustment lowers the salaries and benefits line item in Table 2.

This reduction in expenses is also reflected in the functional areas in Table 1.

Incremental costs have been outpacing incremental revenues

75% of general fund expenditures are dedicated to faculty and staff compensation. MMB negotiates 1/3 of our compensation costs and its results strongly influence the other 2/3 of our costs. Compensation has been increasing faster than new revenue.

<u>Employee Unit</u>	FY14 – FY17		FY14 – FY17	
	Average Annual	Average Annual	Average Fringe	Average Annual

Revenues
Minnesota State
Fiscal Years 2011 to 2015

This section provides a five-year history of the system's total revenues by funding source, including tuition (gross), fees (gross), state appropriations, federal grants, enterprise fund, revenue fund and other. The source of the data is Minnesota State annual audited financial statements for fiscal years 2011 to 2015.

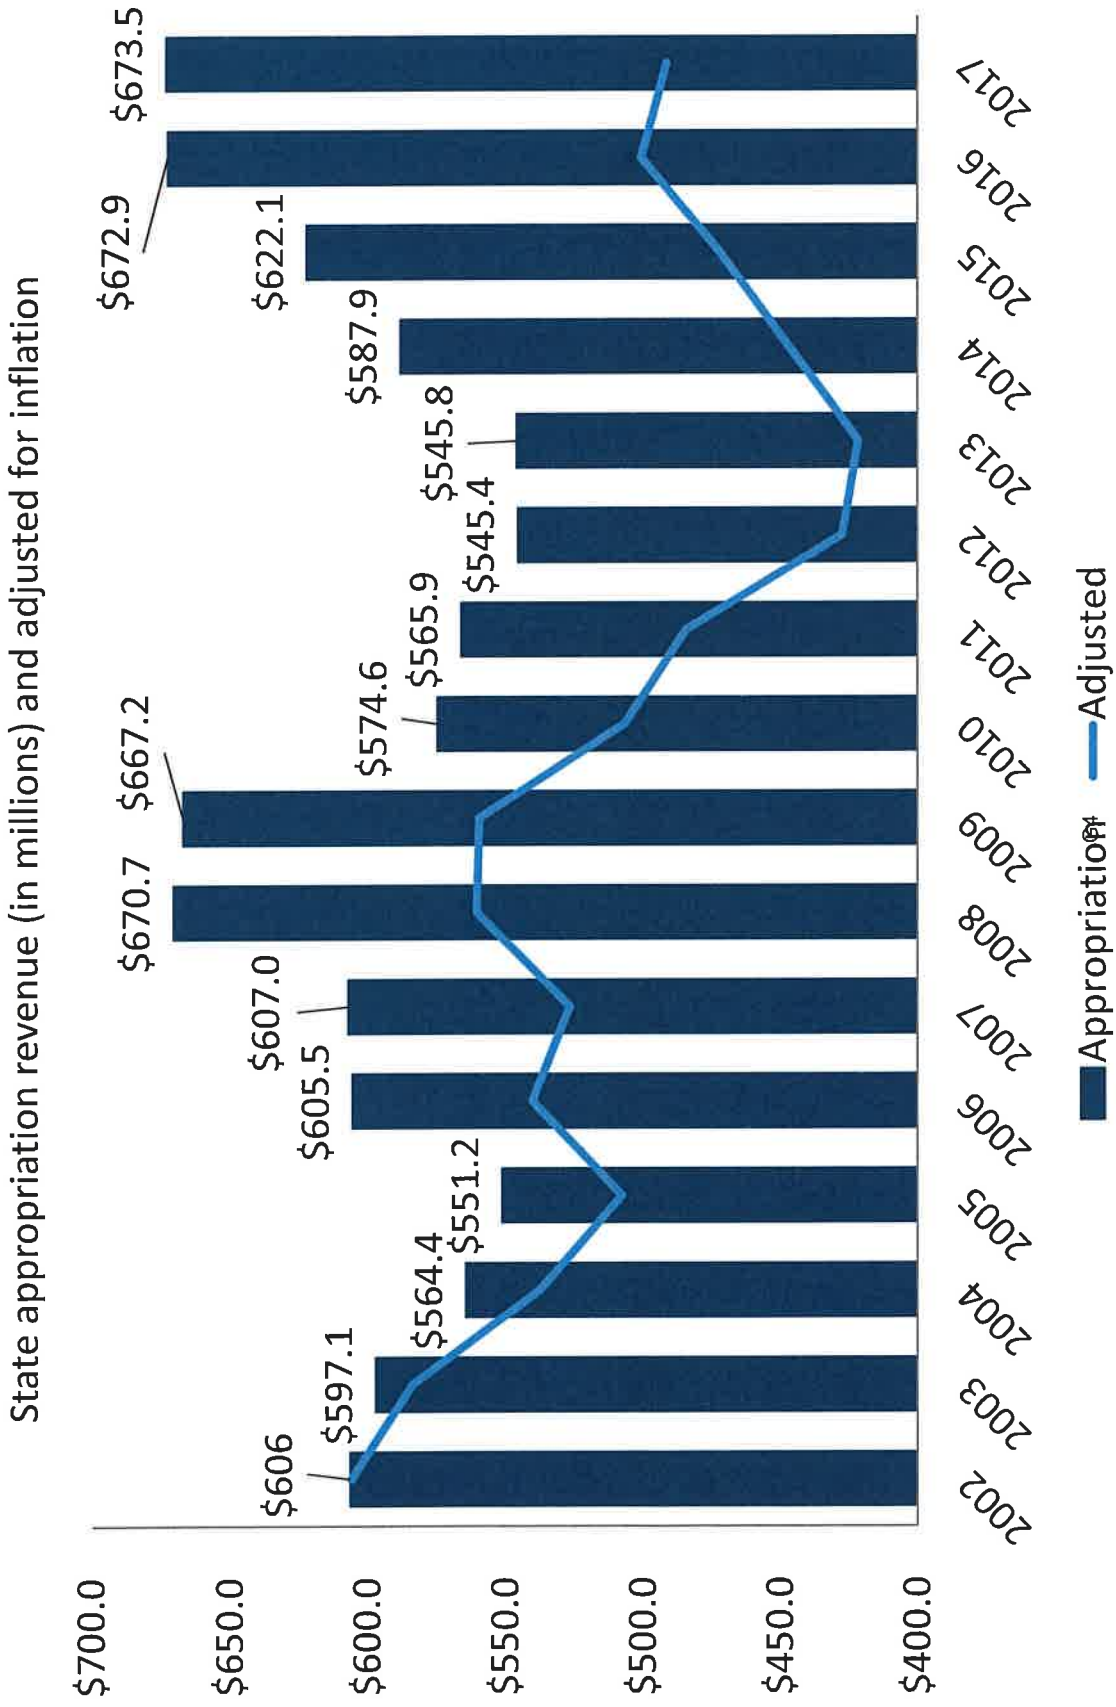

All Funds Revenue	2011	2012	2013	2014	2015
State Appropriation	\$613,382	\$551,293	\$553,246	\$591,242	\$624,988
Tuition (Gross)	\$832,637	\$853,040	\$864,849	\$837,191	\$813,247
Fees (Gross)	\$87,308	\$83,577	\$83,677	\$87,812	\$88,929
Other	\$143,440	\$123,257	\$123,217	\$114,572	\$120,863
Revenue Fund	\$106,393	\$109,796	\$107,434	\$107,863	\$110,063
Enterprise Fund	\$116,152	\$114,337	\$114,398	\$110,684	\$110,464
Federal Grants	\$80,275	\$43,820	\$42,974	\$42,982	\$42,148
TOTAL:	\$1,979,587	\$1,879,120	\$1,889,795	\$1,892,346	\$1,910,702

(Dollars in Thousands)

Enterprise fund revenues are generated from activities that are financed and operated in a manner similar to private business enterprises, such as campus bookstores and food service.

The revenue fund is used to acquire, construct, remodel, and operate revenue-generating campus facilities such as residence halls, dormitories, dining halls, student unions, and parking facilities. Fund revenues include fees paid for the use and operation of these facilities.

Despite significant increases, Minnesota's investment in higher ed is \$100 million less than 2002

Allocation Method

*Minnesota State
System and Institutional Allocations*

This section provides information on how state resources are allocated in the Minnesota State system, including:

- **Minnesota State Master Green Sheet:** This shows the system's state appropriation allocation for fiscal years 2016 and 2017 and how the appropriation was allocated between institutional basic allocations, priority allocations, and systemwide set asides. Specific legislative mandated priorities are included.
- **General Description of the Allocation Framework Components:** This provides a summary of all major components of the allocation framework which is used to distribute institutional basic allocations across the system.
- **College/University Allocations:** These sheets summarize the Minnesota State allocation model and shows the final fiscal years 2016 and 2017 allocations to individual colleges and universities.

Allocation Method
Minnesota State
Fiscal Years 2016 and 2017

Institutional Basic Allocations	FY2016	FY2017
Base	502,867,767	508,826,854
ITC earnings	2,000,000	2,000,000
Tuition Replacement	65,500,000	60,064,117
Subtotal Basic Allocations	570,367,767	570,890,971
Institutional Priority Allocations		
Workforce Education Priorities	5,112,000	5,112,000
Access and Opportunity	9,752,000	9,752,000
NHED - Range Voc Ed	900,696	900,696
Cook County Higher Education	40,000	140,000
Leveraged Equipment	7,278,000	7,278,000
16-17 Legislative Initiatives	782,000	783,000
Subtotal Institutional Priority Allocations	23,864,696	23,965,696
Systemwide Set Asides		
Attorney General	900,000	900,000
Debt Service - system level	17,500,000	17,420,000
- campus level	[16,000,000]	[16,500,000]
Enterprise Technology	20,443,682	20,443,682
Repair and Replacement	400,000	400,000
Leadership Transitions (Searches)	800,000	800,000
System audit program	1,200,000	1,200,000
PALS	1,559,855	1,606,651
Campus Service Cooperative	700,000	700,000
Subtotal - Set Asides	43,503,537	43,470,333
TOTAL COLLEGE/UNIVERSITY ALLOCATIONS	637,736,000	638,327,000
Learning Network of Minnesota	4,115,000	4,115,000
System Office	33,074,000	33,074,000
TOTAL ALLOCATIONS	674,925,000	675,516,000
STATE APPROPRIATION	672,925,000	673,516,000
ITC EARNINGS	2,000,000	2,000,000
TOTAL TARGET RESOURCES	674,925,000	675,516,000
Unallocated resources	0	0

Reallocation of Resources to Advance Priorities

Minnesota State

This chapter contains information on the reallocation of resources for fiscal year 2016. The data was collected by surveying each college and university and the system office within the Minnesota State system. Respondents were asked to identify both the source and use of all reallocated funds. Similar surveys have been conducted since fiscal year 2002.

Reallocation of resources is a permanent, ongoing strategy used by Minnesota State to advance the system's and the state's priorities. Those priorities include supporting the Minnesota State strategic framework, several statewide outcomes, and the higher education objectives identified in statute. The reallocation process also allows us to respond to changes in the instructional programs and services called for by industries and communities across the state.

Often funds are reallocated away from lower priority activities or programs to higher priority activities or programs. Savings generated by efficiencies in one area are also available to be redirected to higher priority areas. However, colleges and universities have increasingly used reallocation as a budget balancing strategy to maintain quality and encourage efficiency in the face of limited resources.

In fiscal year 2016, all colleges and universities and the system office reallocated funds to address higher priorities or balance their budgets. The major sources of reallocated funds came from eliminating vacancies or reducing faculty or staff positions and reducing operating budgets. The greatest share of reductions was used to balance the budget. Other uses of reallocated funds included adding or redesigning faculty and administrative staff positions and enhancing or adding new programs.

The table on the following page shows how \$38,756,000 in funds were reallocated in fiscal year 2016.

Reallocation of Resources to Advance Priorities

*Minnesota State
Fiscal Year 2016*

Reductions/Reallocations

	# Layoffs & Vacancies Eliminated (FTE)	# of Programs Impacted	Dollar Amount
Suspended or closed programs	9	8	\$1,132
Faculty positions	121	132	\$15,650
Administrative/staff positions	155	8	\$12,683
Equipment	0	0	\$1,068
Repair & replacement	0	0	\$365
Student services	12	0	\$861
Other	12	5	\$4,309
General operating budget	0	0	\$2,688
Total reductions/reallocations	309	153	\$38,756

Reinvestments and Cuts

	# Positions Added/ Reassigned (FTE)	# Programs Impacted	Dollar Amount
Enhanced, redesigned, or new programs	11	17	\$1,261
Added or reassigned faculty positions	24	31	\$1,963
Added or reassigned admin/staff positions	56	43	\$4,283
Equipment	0	0	\$1,169
Invest facilities and/or R&R	0	0	\$1,498
Student services	2	0	\$1,329
Other	3	2	\$3,129
Reinvestments subtotal	96	93	\$14,631
Cuts made to balance the budget	0	0	\$24,125
Total Reinvestments and Cuts	96	93	\$38,756

Invests in direct mission activities	\$11,085
Stems the growth in tuition and student fees	\$26,837
supports programs that benefit students	\$11,452

TECHNOLOGY

MINNESOTA STATE

FY2018-FY2019 Budget Request

\$178 million in new funding over the biennium

\$143 million to support and protect campuses

By funding inflationary costs at 3% each year of the biennium, your investment will enable Minnesota State to:

- Help meet Minnesota’s critical need for talent.
- Reduce economic and racial disparities.
- Improve student success (particularly for underrepresented students).
- Protect access and affordability (funding another two years of tuition freezes).
- Support the financial health of every campus, especially in greater Minnesota.

\$25 million for critical technology replacement (ISRS Next Generation)

(Seven-year project timeline, proposed 50/50 cost sharing)

Replace the 20-year-old core information system (ISRS) with a more cost effective tool to ensure:

- Our ability to process the more than 100,000 financial transactions that occur per business day, as well as the more than one million student logins that take place at the start of each semester.
- An optimal user experience for our students, faculty, and staff.
- Our ability to add the latest features for analytics, reporting, mobile use, and most importantly, for monitoring and promoting student success.
- Efficiencies in cost and operation, and reduction in risk.
- A more secure (cloud-based), agile, essential enterprise-wide technology infrastructure.

\$10 million for student incentive grants

Targeted financial support to reduce outcome disparities and improve student success:

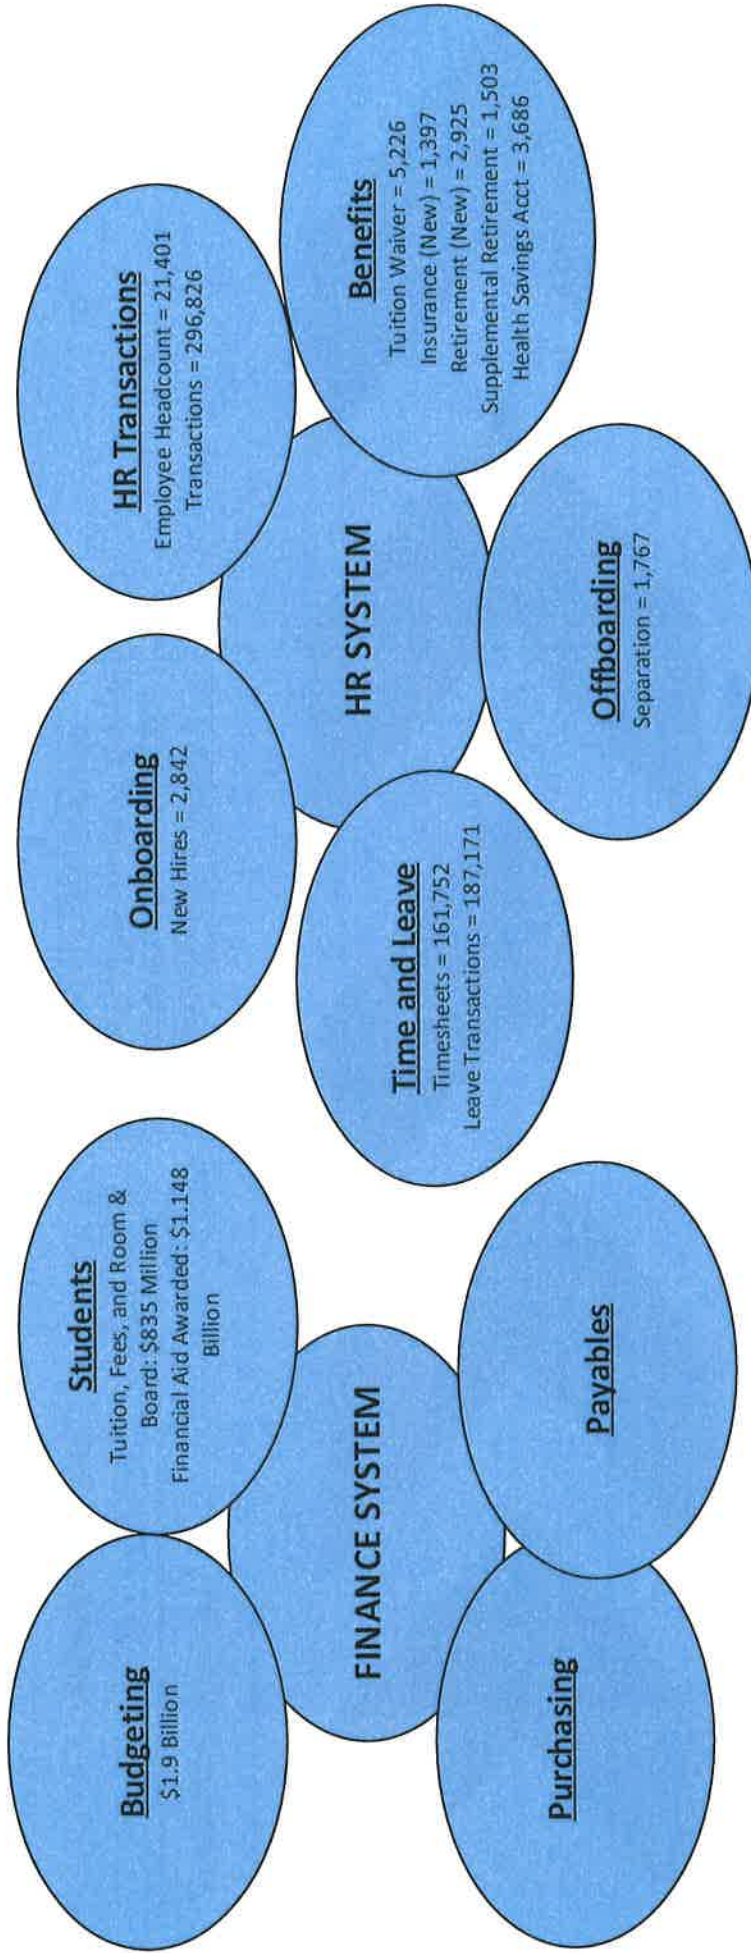

- Provide one-time \$500 incentive grant to students making satisfactory academic progress but identified as at-risk for dropping out.
- Provide one-time \$500 scholarship incentives for college students who complete a two-year transfer pathway degree and enroll in the related bachelor’s degree program at one of our universities.
