## Major State Aids and Taxes A Comparative Analysis

2014 Update

## Research Department Minnesota House of Representatives

The Research Department of the Minnesota House of Representatives is a nonpartisan professional office serving the entire membership of the House and its committees. The department assists all members and committees in developing, analyzing, drafting, and amending legislation.

The department also conducts in-depth research studies and collects, analyzes, and publishes information regarding public policy issues for use by all House members.

## December 2017

## Major State Aids and Taxes A Comparative Analysis

2014 Update

This report presents a comparative analysis of the major state aids and taxes in Minnesota. It is the latest edition of this report, which has been prepared for over 20 years. Previous updates are available on the House Research website.

This report was prepared by **Nina Manzi** and **Sean Williams**, legislative analysts in the House Research Department.

Questions may be addressed to **Nina** at 651-296-5204 or **Sean** at sean.williams@house.mn.

**Rachel Koehler, Madeline Welter,** and **Julie Fastner** provided graphics, production, and research assistance.

Copies of this publication may be obtained by calling 651-296-6753. This document can be made available in alternative formats for people with disabilities by calling 651-296-6753 or the Minnesota State Relay Service at 711 or 1-800-627-3529 (TTY). Many House Research Department publications are also available on the Internet at: www.house.mn/hrd/.

# Introduction

This report presents a comparative analysis of the major state aids and taxes in Minnesota. It is a reference document and is **NOT INTENDED** to be a complete list of all the aids and credits paid by the state and all the taxes collected by the state. The report contains data on:

- **Major State Aids** including education aid, human services aid, highway aid, local government aid (LGA), disparity reduction aid (DRA), county program aid, community corrections funding, property tax refund, and targeting.
- **Property Tax Data** including the market value agricultural credit, miscellaneous property tax credits, property tax levies by type of taxing district, property valuation data, and average tax rates.
- **Major State Taxes** including individual income tax, sales/use tax, motor vehicle sales tax, motor vehicle registration tax, motor fuels tax, corporate franchise (income) tax, and state general levy.

This report is divided into four major sections.

Section 1 discusses the state aids, property tax data, and state taxes and gives the assumptions and caveats for using the report. It contains current and historical data using graphs, maps, and tables in both total dollars and on a per capita basis.

Section 2 presents STATEWIDE SUMMARY DATA. A sample table with a general explanation introduces the section. The section contains the summary data for the most recent available year on the statewide totals and compares the metro and the nonmetro economic development regions to each other.

Section 3 compares aid and tax data for the most recent available year for each of the 13 ECONOMIC DEVELOPMENT REGIONS to total statewide data.

Section 4 compares aid and tax data for the most recent available year for each COUNTY to total statewide data and to the economic development region in which the county is located.

Throughout the report, dollar values are rounded to the nearest whole dollar. Percentage values are rounded to the nearest one-tenth of 1 percent (0.1 percent). As a result, rounded values may not exactly sum to 100 percent.

## 1. Current and Historical Data

Section 1 contains the most recent available data for the major state aids, credits, and taxes and describes the programs under the general categories in the tables of this report. The assumptions and caveats for using the report are mentioned in this section. In addition to information from the most recent year, section 1 also contains historical information. The data is for a five-year time period.

Section 1 is divided into three parts:

- Major state aids
- Property tax data
- Major state taxes

Some of the data in this section are county-level, while other tables and graphs are by region or groupings of regions. One table and one graph use northern and southern groupings of the 80 nonmetro counties. The groupings were selected for convenience, rather than for any specific analytical purpose. The northern and southern regions are grouped as follows:

<u>North</u>	ern Regions	South 8	ern Regions
1	Northwest	<b>6</b> E	Six East
2	Headwaters	6W	Upper Minnesota Valley
3	Arrowhead	7W	Central Minnesota
4	West Central	8	Southwest
5	Five	9	Nine
7E	East Central	10	Southeastern Minnesota

The seven metro counties are not included in either the northern or southern regions and are region 11.

A table on page 6 lists the 2014 county population estimates, which were used to calculate per capita amounts in the report. A map and accompanying table on pages 4 and 5 show the counties and the economic development regions.

The standard format for each aid or tax consists of four or five pages of information. The first page or two contains information for the latest available year, followed by two maps and a page with historical data.

**Program Description:** The first one to two pages provide a program description of the aid or tax. They also provide the statewide total for the most recent available year, any relevant reporting information, and the source of the data. In some cases, summary tables itemizing the data in different ways (e.g., by program totals) are included. Any recent law changes that affect the program and are important in analyzing the data are noted on these pages.

**Maps:** The next two pages contain maps showing the per capita distribution of the aid or tax by **county** for the most recent year and by **economic development region** (EDR) for the most recent year. 2014 population is used to calculate per capita amounts throughout this report. The 2014 population estimates used in this report are from the Minnesota State Demographer.

The counties were grouped by dividing the data for each aid and tax into three ranges. The map legend shows the size of the ranges, the per capita amount received or paid by the average county or economic development region, the range from lowest to highest amount per capita, and the overall statewide per capita amount. In some cases, a small number of counties may have per capita aid or tax amounts much higher or lower than all other counties. For purposes of comparability, the groupings constructed on the county data ranges were also used for maps presenting data by economic development region.

All maps are on a per capita basis for comparability among counties. For some aids and taxes, however, other measures would probably be more appropriate. For example, a measure incorporating per pupil units could provide insight into the distribution of education aid. Construction of such measures on a county basis is beyond the scope of this report due to time and data limitations. Where appropriate, footnotes are provided suggesting alternatives.

**Historical Data:** The last page has a table containing the historical data for the state and its geographic areas. The right-hand column shows a percentage change for the time period presented, calculated using nominal dollars (i.e., not adjusted for inflation). Hennepin and Ramsey counties are shown separately from the rest of the metro counties on this page because of their greater size, and because each contains a city of the first class.

At the bottom of this page is a statewide graph containing a trend of the data in nominal dollars and in constant dollars, adjusted for inflation using the imlicit price deflator for state and local government expenditures, as published by the U.S. Bureau of Economic Analysis. This is the only place where amounts presented are adjusted for inflation.

**Major State Aids** 

## **Education Aid**

## **Program Description**

**Education aid** is the total amount of state aid paid to school districts for all K-12 educational purposes. This amount includes state aid for general education, special education, transportation, community education, capital expenditure, secondary vocational, and other miscellaneous programs. About 84 percent of the total aid (including aid to charter schools) is general education aid.

## Aid Amount and Reporting

## 2013/2014 Education Aid: \$7.9 billion

The total education aid for the 2013/2014 school year is \$7,901,200,460. This total includes \$467,608,519 that went to the 150 charter schools that received funding in the 2013/2014 school year. The amounts received by school districts for property tax credits (i.e., agricultural market value credit, taconite homestead credit, disparity reduction credit, etc.) are not included in this amount since they are itemized elsewhere in the report.

Education aid is paid to school districts, many of which operate in more than one county. Education aid paid to school districts that operate in more than one county is apportioned to the various counties based on each county's share of total residential market value in the school district. For example, if one-fifth of the residential market value of a school district is in County A, two-fifths in County B, and the remaining two-fifths in County C, then one-fifth of the school district's education aid is apportioned to County A, two-fifths to County B, and two-fifths to County C. Aid to charter schools is reported in the county in which each school is located. Appendix A lists education aid by school district for 2013/2014 and lists the counties in which each school district operates.

The 2013/2014 education aid total does not include amounts paid to entities other than school districts:

- \$88.6 million to intermediate school districts<sup>1</sup>
- \$51.6 million to cooperative school organizations
- \$29.1 million to colleges and universities participating in the postsecondary enrollment options (PSEO) program
- \$20.1 million to Head Start programs
- \$8.1 million to nonprofits operating adult basic education
- \$2.4 million to the Faribault Academies for the Deaf and Blind
- \$1.6 million to four tribal contract schools

<sup>&</sup>lt;sup>1</sup> An intermediate school district is an educational cooperative authorized by statute and voluntarily created by participating school districts. Intermediate school districts offer special education services, vocational services, alternative learning programs, and administrative services for member school districts.

• \$33,000 to South Dakota school districts, net of reciprocity payments

Education aid by home county by school district was obtained from the Minnesota Department of Education.

### **Recent Law Changes**

The state aid share of school district revenue that is promised to the school district through Minnesota's school finance formulas is called the "aid entitlement." This report shows the school state aid entitlement amounts for each district (these are listed in Appendix A). The amount actually paid to school districts by the state during each fiscal year is called the "appropriation." Since school districts use the accrual method of accounting, the full amount of the aid entitlement owed to the district for a fiscal year is booked by the school district as revenue for that year, regardless of when the state aid is actually received. The state, on the other hand, uses a cash-based system of accounting. As a result, the "cost" to the state of school aid is only the actual appropriation for a particular school year, not the aid entitlement.

Payment shifts have been used to address state budget shortfalls since the early 1980s. For fiscal years 2010 to 2012, the school aid payment shifts were reinstated and portions of school aid payments were delayed until the following fiscal year. The amounts of school aid shown in this document are the state aid entitlements (the amount of state aid received by the school district for the relevant fiscal year). The property tax recognition shift and the aid payment shift have no effect on the amounts shown in this report.

In fiscal year 2010, the state received about \$500 million in federal aid for education under the American Recovery and Reinvestment Act of 2009 (ARRA). The ARRA aid replaced state education aid, accounting for a large share of the state aid decrease from the 2008/2009 school year to the 2009/2010 school year, followed by an increase to the 2010/2011 school year.

## Education Aid per capita, 2013-2014 by County\*

\* Education aid is more often displayed on a per pupil basis (particularly since most education aids are generated on a per pupil basis). The data here is displayed on a per capita basis to remain consistent with other maps in this publication.

## Education Aid per capita, 2013-2014 by Economic Development Region

## The Past Five Years of Education Aid

The table shows the distribution of education aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of education aid for the same time period in nominal and constant (inflation-adjusted) dollars.

#### Education Aid: 2009/2010 School Year to 2013/2014 School Year Nominal dollars, in thousands

## **Statewide Education Aid**

# **Human Services Aid**

## **Program Description**

**Human services aid** is the total amount of state aid for human services programs, including all income maintenance and social service programs. Although the federal government and the counties contribute money to programs in varying degrees, the amounts in this report reflect only the **state's share** of the human services costs.

## Aid Amount and Reporting

## 2014 Human Services Aid: \$5.7 billion

The state's share of the human services expenditures for calendar year 2014 is \$5,737,904,894. The table shows the dollar amount and share of total human services and for each of the major income maintenance and social service programs.

Type of Program	Amount	Percent
Medical Assistance (MA)	\$3,925,764,482	68.5%
Minnesota Family Investment Program (MFIP)	66,159,180	1.2
General Assistance (GA)	50,926,930	0.9
MinnesotaCare (MNCare) <sup>2</sup>	13,247,620	0.2
Social Services (including CSSA)	1,503,070,637	26.2
Miscellaneous:		
Minnesota Supplemental Assistance	36,596,962	0.6
Group Residential Housing	139,252,678	2.4
Supplemental Nutrition Assistance Program (SNAP)	1,424,742	0.0
Title IV Child Support	1,461,663	0.0
Total	\$5,737,904,894	100.0%

State MFIP spending shown in this report is before offsetting any current year child support collections applied against current and prior years' MFIP payments. In calendar year 2014, MFIP spending in Minnesota totaled \$348.8 million (\$255.1 million federal, \$66.2 million state, \$27.6 million county), and offsetting child support collections totaled \$38.4 million, one-half offset federal costs and one-half offset state costs.

The human services amounts, other than MinnesotaCare, are not available by county in three cases:

• Des Moines Valley Health and Human Services (DVHHS)—Cottonwood and Jackson

<sup>&</sup>lt;sup>2</sup> A small share of MinnesotaCare subsidies are not identified by county (\$145,081 in 2014). This amount is included in the state total. MinnesotaCare subsidies are reported on a case basis so calendar year 2014 amounts may include adjustments to prior calendar years.

- Human Service Board—Faribault and Martin
- Southwest Health and Human Services (SWHHS)—Lincoln, Lyon, Murray, Pipestone, Redwood, and Rock

In these three groups, human services aid is administered through a "home" county: Jackson in DVHHS, Martin in the Human Service Board, and Lyon in SWHHS. The total human service amount for DVHHS is \$25.5 million, for the Human Service Board is \$40.4 million, and for SWHHS is \$78.3 million. An amount for these ten counties was estimated using population, and the estimated amounts appear in the county tables. Human services aid data was obtained from the Department of Human Services, Financial Management Division.

## Human Services Aid per capita, 2014 by County

## Human Services Aid per capita, 2014 by Economic Development Region

### The Past Five Years of Human Services Aid

The table below shows the distribution of human services aid in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of human services aid for that same time period in nominal and constant (inflation-adjusted) dollars.

#### Human Services Aid: Calendar Years 2010 to 2014<sup>3</sup> Nominal dollars, in thousands

#### **Statewide Human Services Aid**

<sup>3</sup> A small amount of MinnesotaCare subsidies are included in the state totals, but cannot to be identified by county or region; as a result the state total is slightly greater than the sum of the regions.

# **Highway Aid**

## **Program Description**

**Highway aid** is the total amount of state aid distributed to counties, cities, and towns for highway purposes. It includes four basic types of aid: (1) amounts distributed to all counties and eligible cities according to a combination of constitutional and statutory formulas from state tax revenues; (2) amounts distributed to counties, cities, and towns from state bond proceeds; (3) amounts distributed to towns for town roads and bridges; and (4) amounts distributed to some counties from sales taxes on motor vehicle leases. The sources of these funds are the Highway User Tax Distribution Fund (from a portion of the motor fuels tax, motor vehicle registration tax, and motor vehicle sales tax revenues), general sales tax from motor vehicle leases, and proceeds from state bonds.

The Minnesota Constitution sets the distribution formula for 95 percent of the money in the Highway User Tax Distribution (HUTD) fund: 29 percent is allocated to the County State-Aid Highway Fund, 9 percent to the Municipal State-Aid Street Fund for cities with populations over 5,000, and 62 percent to the state Trunk Highway Fund. Allocation of the remaining 5 percent of the HUTD fund is determined by the legislature. Following a statutory formula, in 2014 a little under half of the set-aside was used for town roads and town bridges. The rest went into a flexible highway account that was used for road improvements on "turnbacks" in which trunk highways become part of local road systems.

County and municipal turnback money is **not** included in the state totals. This money is used to repair former state highways that have been or are being "turned back" to counties and municipalities. In 2014, the state allocated approximately \$50.0 million to the county turnback account, and there was no allocation to the municipal turnback account. Disbursements from the turnback accounts of \$56.9 million to counties and \$13.6 million to municipalities were used for maintenance. The amount spent on turnbacks in each county is not readily available.

## Aid Amount and Reporting

## 2014 Highway Aid: \$721.1 million

The total \$721.1 million in state highway aid paid in calendar year 2014 to the counties, cities (i.e., municipal), and towns is shown by category in the following table. Road and bridge bond funding amounts are the total expenditures made during 2014 (using the proceeds from state bonds that had been authorized in 2014 or previous years).

In fiscal year 2014, total highway funding from state and federal resources other than bond proceeds amounted to nearly \$2.6 billion for both state and local road systems. This total includes the \$721.1 million in state aid in this report except for the \$15.1 million in bond funding.

Type of Highway Aid		Amount		Total
County Aid	County State Aid Highway	\$500,447,882		
	County Road and Bridge Bond Funding	12,429,284		
	Motor Vehicle Lease Sales Tax Aid	11,973,180		
			County	\$524,850,346
Municipal Aid	Municipal State Aid Street	\$154,615,011		
	Municipal Road and Bridge Bond	2,656,801		
	Funding			
			Municipal	\$157,271,812
Township Aid	Town Road Account	\$28,519,262		
-	Town Bridge Account <sup>4</sup>	10,472,647		
	Town Bridge Bond Funding	0		
			Township	<u>\$38,991,909</u>
		Total	Highway Aid	\$721,114,067

Highway aid data was obtained from the Department of Transportation.

## **Recent Law Changes**

The 2008 Legislature provided for 50 percent of motor vehicle lease sales tax revenues in excess of a base amount<sup>5</sup> to be transferred to the County State-Aid Highway Fund, for allocation to metro area counties other than Hennepin and Ramsey. The first year a transfer occurred under this provision was in 2012. A temporary cap on the amount going to counties was set for fiscal year 2014.

The legislature has regularly authorized bonding for local roads and bridges. Authorizations totaled \$66 million in 2010 (with an additional \$10 million for disaster relief), \$43 million in 2011, \$40 million in 2012, and \$36.6 million in 2014. There were no authorizations in 2013. This report shows local road and bridge bonding amounts in the year the bond funds were expended, which may lag behind when they were authorized. (The lag is largely because bonds are sold based on the cash flow needs of funded projects rather than all at once.)

<sup>&</sup>lt;sup>4</sup> The Department of Transportation sets aside a portion of Town Bridge Account funding for flexible distribution as needed throughout the state. Amounts in this special Town Bridge Account set-aside are not always spent within the calendar year and are not included in this report.

<sup>&</sup>lt;sup>5</sup> The remaining 50 percent over the base amount is transferred to the greater Minnesota transit account.

## Highway Aid: Calendar Years 2010 to 2014

## **State Highway Aid**

# Local Government Aid (LGA)

**Local government aid (LGA)** is a state program that provides property tax relief by giving general purpose financial support to cities. "Ability to pay" and "need" are the measures used in the formula. Ability to pay is the city's adjusted net tax capacity multiplied by the average city tax rate.

The legislature enacted a new LGA formula during the 2013 session, effective beginning with aids payable in 2014. The new formula contains three measures of need depending on a city's size:

- for small cities, with a population less than 2,500, need is based solely on the city size up to a maximum per capita amount;
- for medium cities, with a population of at least 2,500 but less than 10,000, need is based on (1) percent of housing built before 1940, (2) household size, and (3) population decline from a city's peak population in the last 40 years; and
- for large cities, with a population of 10,000 or more, need is based on (1) jobs per capita, (2) age of housing stock (both housing built before 1940 and housing built between 1940 and 1970), and (3) a sparsity adjustment for cities with a population less than 150 per square mile.

If the aid a city received in the previous year exceeds its "unmet need" (the difference between its need and its ability to pay), its aid is reduced to its unmet need.<sup>6</sup> All other cities receive an amount equal to their previous year's aid plus an additional amount based on their unmet need.

## Aid Amount and Reporting

## 2014 Local Government Aid: \$507.6 million

The 2014 certified LGA total was \$507.6 million.

LGA data was obtained from the Department of Revenue.

## **Recent Law Changes**

#### LGA formula prior to 2014

The main formula used prior to 2014 also depended on "ability to pay" and "need" measures similar to the new formula, however there were only two measures of need:

• For cities with population of 2,500 or more, need was determined by five characteristics:

<sup>&</sup>lt;sup>6</sup> The reduction may occur over a few years since the maximum decrease in any year is limited to the lesser of \$10 per capita or 5 percent of its property tax levy in the previous year.

population decline, age of the housing stock, if the city was in the seven-county metro area, average number of vehicular accidents over the most recent three-year period, and household size.

• For cities with population less than 2,500, need was determined by population decline, age of housing stock, percent of the property in the city classified as commercial or industrial, and a population adjustment factor.

The program also distributed additional aid to cities with a population less than 5,000 based on population, and to cities with a population of 5,000 or more based on the ratio of jobs to population in the city.

The formula did not guarantee any city received its aid from the previous year, outside of certain minimums, but redistributed the entire appropriation every year. The resulting volatility of payments to individual cities was partially addressed in several formula changes made in 2009. The new formula enacted in 2013 significantly reduced payment volatility.

#### 2010 to 2012 aid reductions

- LGA reductions in 2010 consisted of two parts—\$102 million in the governor's unallotments, ratified retroactively in the 2010 special session, and \$7.8 million in additional reductions enacted in the regular 2010 session. The reduction in the governor's unallotment only applied to cities with a population greater than 1,000.
- The certified 2011 LGA amounts of \$527.1 million were reduced by \$101.9 million to actual payments of \$425.2 million.
- 2012 LGA payments to each city were reduced to the lesser of:
  - $\circ$  aid paid in 2010, or
  - aid certified in 2011.

## **Statewide Local Government Aid**

# **Disparity Reduction Aid (DRA)**

#### **Program Description and Aid Amount and Reporting**

#### 2014 Disparity Reduction Aid: \$18.0 million

Disparity reduction aid is a state aid program that distributed \$18,019,159 to counties, towns, and school districts in 2014. The aid is directed to taxing jurisdictions in areas that had inordinately high tax rates in the base year of 1988. The basis for computing the aid amount is the relationship of the area's 1988 tax rate to a benchmark tax rate of 100 percent of tax capacity.

# **County Program Aid**

### **Program Description**

One-half of the funding for county program aid is distributed based on each county's relative shares of (1) persons receiving food stamps, (2) age-adjusted population (population weighted more heavily for the number of persons over age 65), and (3) the reported number of Part I (serious) crimes. The other half is distributed based on a formula that takes into account each county's population and its property wealth. This distribution encompasses some of the distribution factors from the four programs that county program aid replaced in 2004: homestead and agricultural credit aid (HACA), county criminal justice aid (CCJA), family preservation aid (FPA), and attached machinery aid (AMA).

#### Aid Amount and Reporting

#### 2014 County Program Aid: \$205.5 million

The total amount of county program aid certified for taxes payable in 2014 was \$205.5 million. This total is after subtraction of \$457,266 to pay for court-ordered counsel<sup>7</sup> and \$214,000 to pay for preparation of local impact notes.

The county program aid data was obtained from the Department of Revenue.

#### **Recent Law Changes**

For 2009 and 2010, the initial allocation was increased to \$227 million (2009) and \$232 million (2010), except that in both years the actual payments were reduced by unallotment, eventually ratified by legislative enactment.

For 2011, the initial allocation was set at \$197.5 million. This was reduced by \$36.4 million to \$161.1 million in the 2011 special session tax law, which also set the 2012 aid amount at the lesser of the amount paid in 2010 or the amount certified in 2011.

For 2013, the legislature set the appropriation level at \$165.6 million. The 2013 Legislature increased the appropriation by \$40 million for aids payable in 2014 and thereafter.

<sup>&</sup>lt;sup>7</sup> \$500,000 was authorized for court-ordered counsel in 2014, which was offset by \$42,734 of the 2013 authorization that was unspent.

#### **County Program Aid**

# **Community Corrections Funding**

#### **Program Description**

Although counties assume much of the cost of their community correctional services, the state provides direct funding and in-kind services. Counties choose to receive funding and/or services from one of three basic funding systems: the community corrections act (CCA), county probation officer (CPO), and the Department of Corrections (DOC). For 2014, the counties were funded as follows:

- Thirty-two counties were CCA counties. This group contains about 70 percent of the state's population, including most of the Twin Cities metropolitan area.
- Fifty-five counties were non-CCA counties. Although the DOC provides adult felony supervision to all 55 of these counties, there are two delivery systems that are generally referenced as follows:
  - Twenty-seven counties (called "CPO" counties) provide their own juvenile and adult misdemeanant supervision
  - Twenty-eight counties (called "DOC" counties) have their juvenile and adult misdemeanant supervision provided by the DOC

To keep the counties on a comparable basis, the dollar amount of in-kind services provided by the DOC is included in this report, even though these counties do not receive an "aid payment" per se from the state.

### Aid Amount and Reporting

### 2014 Community Corrections Funding: \$86.3 million

In 2014, the state funding was \$86,346,900.<sup>8</sup> The table below lists the calendar year 2014 statewide total amounts for the various community corrections funding programs.

Program	Amount	Percent
CCA aid	\$38,055,000	44.1%
CPO reimbursement aid	5,049,000	5.8
DOC field services	17,485,970	20.3
Adult felony caseload reduction	956,000	1.1
Caseload/workload reduction	14,319,998	16.6
Intensive supervision	6,676,000	7.7
Enhanced supervision of adult sex offenders	3,804,932	4.4
Total Aid and In-kind Services	\$86,346,900	100.0%

<sup>8</sup> An additional \$18.0 million, not included in this report, was distributed for miscellaneous categorical services.

The DOC distributes some adult felony reduction aid, caseload/workload reduction aid, and intensive supervision aid to regional groups of counties. These counties and the DOC regions they belong to are listed in the table below.

Region	Counties	
Central Minnesota	Aitkin	
	Crow Wing	
	Morrison	
DFO	Dodge	
	Fillmore	
	Olmsted	
Tri-County	Norman	
	Polk	
	Red Lake	
Arrowhead	Carlton	
	Cook	
	Koochiching	
	Lake	
	St. Louis	
Region 6W	Chippewa	
	Lac Qui Parle	
	Swift	
	Yellow Medicine	
Rock/Nobles	Rock	
	Nobles	
Todd/Wadena	Todd	
	Wadena	

CCA amounts are apportioned to the individual counties within each region based on a five-year average distribution within the groups of counties of Part I crimes, as reported by the Department of Public Safety.

The community corrections funding data was obtained from the DOC.

House Research Graphics

# **Homestead Credit Refund - Homeowners**

#### **Program Description**

The homestead credit refund, formally called the property tax refund for homeowners, is a program in which the state partially reimburses homeowners for part of their property taxes if the taxes exceed a percentage of household income. Generally, the higher the property tax and the lower the income, the higher the refund. The legislature establishes the income and property tax thresholds, reimbursement rates, and maximum refund amounts for the program. Each qualifying homeowner must apply directly to the state for a refund.

#### **Aid Amount and Reporting**

#### 2013 Homestead Credit Refund: \$368.4 million

Total homestead credit refunds for 2013 returns is \$368,426,163. These returns are based on 2013 income and property taxes payable in 2014, and filed beginning in 2014.

Homeowners <sup>9</sup>	Number of Returns	<b>Total Amount</b>	Average Refund
Senior/Disabled	168,798	\$149,647,535	\$887
Under 65 Years	256,912	218,778,618	852
Total	425,710	\$368,426,153	\$865

#### **Recent Law Changes**

The 2011 Legislature expanded the homeowner program by increasing the maximum refund to \$2,460 for homeowners with household incomes less than \$37,280 and decreasing the copayment percentage for all claimants with incomes from \$10,880 to \$93,240.

The 2013 Legislature renamed the program to the homestead credit refund and further expanded the program by decreasing the threshold percentages to 2 percent for incomes from \$19,530 to \$65,049, and to 2.5 percent for higher incomes, effective for refunds based on taxes payable in 2014. In addition, the department was required to notify homeowners if available data suggests they might be eligible for a refund of at least \$1,000. The notification program was a onetime effort scheduled for 2014 and limited to homeowners not already claiming the refund.

Property tax refund data are from the Department of Revenue. The department is unable to identify the county from which a claim is filed for about 1 percent of 2013 claims. This report apportions these claims to counties based on each county's share of total claims.

<sup>&</sup>lt;sup>9</sup> Includes claimants who are part-year homeowners and part-year renters for that year's claim.

## Homestead Credit Refund: 2009 to 2013

#### **Statewide Homestead Credit Refund**

# **Property Tax Refund - Renters**

### **Program Description**

The property tax refund for renters, also called the "renters' credit," is a program in which the state partially reimburses renters for part of their qualifying property taxes if the taxes exceed a percentage of household income. Generally, the higher the property tax and the lower the income, the higher the refund. The legislature establishes the income and property tax thresholds, reimbursement rates, and maximum refund amounts for the program and sets the amount of rent deemed to represent property taxes. Each renter must apply directly to the state for a refund.

#### **Aid Amount and Reporting**

#### 2013 Filed 2014 Property Tax Refund for Renters: \$215.7 million

The total property tax refunds for 2013 returns filed in 2014 for renters is \$215,662,127. These returns are based on 2013 income and rent paid in 2013.

Renters	Number of Returns	<b>Total Amount</b>	Average Refund
Senior/Disabled	87,360	\$62,036,214	\$710
Under 65 Years	<u>245,831</u>	153,625,913	625
Total	333,191	\$215,662,127	\$647

#### **Recent Law Changes**

The 2010 Legislature reduced the percent of rent considered to represent property taxes from 19 percent to 15 percent, for refunds based on rent paid in 2009 only. This put into law the change made in Governor Pawlenty's 2009 unallotment, which reduced the percentage from 19 to 15 for refunds based on rent paid in 2009. A 2010 decision of the Minnesota Supreme Court invalidated other portions of the unallotment and suggested that the entire unallotment was likely invalid. For refunds based on rent paid in 2010, the percentage reverted to 19 percent.

The 2011 Legislature reduced the percentage of rent considered property taxes from 19 percent to 17 percent, effective beginning with refunds based on rent paid in 2011.

The 2013 Legislature expanded both the homeowner and renter property tax refunds. The legislature decreased the threshold percentages for renters to be no higher than those for homeowners and increased the maximum refund for renters to \$2,000.

Property tax refund data are from the Department of Revenue. The department is unable to identify the county from which a claim is filed for about 3 percent of 2013 claims. This report apportions these claims to counties based on each county's share of total claims.

# Additional Homestead Credit State Refund (Targeting)

## **Program Description**

"Targeting" is an extension of the homestead credit state refund program. The refund targets property tax relief to homeowners whose property tax increase over the previous year exceeds a threshold percentage set by the legislature. The homestead credit state refund return (M1PR) contains a separate schedule for the targeting refund. The taxpayer files for this refund at the same time and in the same manner as for the homestead credit state refund. However, unlike the homestead credit state refund, all homeowners qualify for targeting regardless of their household income if the tax increase exceeds the specified percentage.

## Aid Amount and Reporting

## 2014 Targeting Refunds: \$1.5 million

For returns filed in 2014 (for property taxes payable in 2014), the state paid 60 percent of the property tax increase over 12 percent (i.e., the taxpayer had to pay the first 12 percent increase over the previous year before qualifying for a refund), provided that the increase was greater than \$100. There were 16,778 returns filed in 2014 for a total amount of \$1,522,535. The average refund per return was \$118. (The maximum refund is \$1,000.)

Targeting refund amounts can change greatly from one year to the next in any given county. Factors resulting in large fluctuations in refunds in recent years include net tax changes due to volatility in the housing market and the phaseout of limited market value.

Twenty-six counties reported fewer than four claims for targeted refunds filed in 2014 by senior/disabled claimants or by nonsenior/nondisabled claimants (Benton, Big Stone, Brown, Chippewa, Clearwater, Cook, Cottonwood, Dodge, Faribault, Fillmore, Grant, Houston, Jackson, Kittson, Lac-qui-Parle, Mahnomen, Mower, Murray, Nicollet, Pipestone, Redwood, Rock, Roseau, Sibley, Watonwan, and Yellow Medicine). To protect taxpayer confidentiality, the Department of Revenue is unable to provide detailed counts for these counties. These refunds were included in the totals for "county undesignated."

The total for which the county is undesignated represents 1.6 percent of all claims. This report apportions these claims to the 87 counties based on each county's share of refunds.

#### **Recent Law Changes**

The statutory percentage of 60 percent was increased to 90 percent for taxes payable in 2012 only under Laws 2012, chapter 294, article 1, section 6. For refunds based on the change in tax from 2011 to 2012 only, the targeting refund equaled 90 percent of the property tax increase over 12 percent, up to the maximum refund of \$1,000.

### The Past Five Years of Targeting Refunds

The table below shows the distribution of targeting refunds in thousands of dollars for the past five years for the state and economic development regions. The graph shows total dollars of targeting refund for that same time period in nominal and constant (inflation-adjusted) dollars.

#### **Targeting Refunds**

**Property Tax Data** 

# **Market Value Agricultural Credit**

#### **Program Description**

The 2001 Legislature created a new market value agricultural credit for all agricultural homestead property. The credit took effect for taxes payable in 2002 and was enhanced by the 2002 Legislature for taxes payable in 2003 and thereafter.

For agricultural homestead property with a taxable market value of \$115,000 or less, the credit is equal to 0.3 percent of the taxable market value of the property. For agricultural homestead property with a value between \$115,000 and \$345,000, the credit is equal to \$345 minus 0.05 percent of the value over \$115,000. For property with a value over \$345,000, the credit is equal to \$230. This credit does not apply to the value of the house, garage, and one acre of agricultural homestead property.

#### Payable 2014 Aid Amount and Reporting: \$39.7 million

For taxes payable in 2003 to 2006 and 2008 to 2011, the state did not fully compensate local governments for the credit computed on each taxpayer's tax statement due to state budget shortfalls. The taxpayers still received the credit. Throughout this report, the credit amounts shown are after the reductions in compensation resulting from state budget shortfalls.

For taxes payable in 2007 and 2012 to 2014, the state paid the full amount of the credit to local governments. In payable 2014, the amount of the credit was \$39.7 million.

Total Metro		\$2,109,212	5.3%
State Total		\$39,748,938	100.0%

#### Market Value Agricultural Credit: Payable 2014

#### **Recent Law Changes**

The 2014 Legislature increased the market value agricultural credit beginning with taxes payable in 2014. Because property tax statements for 2014 had already been issued, the increased credit amounts for 2014 were authorized as supplemental credit payments sent directly to taxpayers by the Department of Revenue.

The supplemental payment was \$205 for each agricultural homestead, provided that the supplemental payment could not exceed the net tax payable on the agricultural portion of the property.

A portion, \$22.7 million, of the 2014 credit amount was based on the original credit amounts that were deducted on property tax statements. The total of the supplemental credits issued directly to taxpayers by the Department of Revenue was \$17.1 million.

Beginning with aids payable in 2015, the market value agricultural credit will be 0.3 percent of the first \$115,000 of market value, plus 0.1 percent of the market value over \$115,000, subject to a maximum credit of \$490 per agricultural homestead.

# **Miscellaneous Property Tax Credits**

#### Payable 2014 Miscellaneous Credits: \$26.6 million

The total of the miscellaneous property tax credits for 2014 is \$26.6 million. This includes the taconite homestead credit, disparity reduction credit, power line credit, agricultural preserves credit, county conservation credit, and the disaster credits. A statewide breakdown of these miscellaneous credits is shown below.

Type of Credit	Amount
Taconite Homestead Credit	\$16,578,792
Disparity Reduction Credit	8,653,247
Power Line Credit	157,680
Agricultural Preserves Credit	974,089
County Conservation Credit	195,070
State Disaster Credit	0
Local Option Disaster Credit	0
Total	\$26,558,878

The taconite homestead credit is the largest of the miscellaneous credits. Homeowners in the taconite tax relief areas, located in northern Minnesota on the Iron Range, receive a credit of either 57 percent of the net tax, capped at \$289.80 per homestead, or 66 percent of the net tax, capped at \$315.10 per household. The percentage of relief depends upon certain characteristics of the local jurisdiction, such as the value of the iron ore in the district, proximity to mines, etc. About two-thirds of the credit, \$11.3 million, is paid from proceeds of the taconite production tax, while \$5.3 million is paid from the state general fund. The portion paid from the general fund is referred to as the supplemental homestead credit. The mobile home taconite homestead credit and any adjustment amounts for prior years are not included in the amounts shown.

The disparity reduction credit provides additional property tax relief in the border cities of Breckenridge, Dilworth, East Grand Forks, and Moorhead. The credit applies to apartments, commercial-industrial, and public utility property only. The credit is the amount by which the net tax exceeds 1.9 percent of market value for affected properties.

# **Property Values, Levies, and Tax Rates**

Statewide Property Value: Assessment Year 2013, Taxes Payable in 2014

Market Value:	\$546.0 billion
Market Value Exclusion:	\$29.8 billion
Taxable Market Value:	\$516.1 billion
Net Tax Capacity:	\$6.03 billion
<b>Referendum Market Value:</b>	\$421.9 billion

The total market value for taxes payable in 2014 is \$546 billion<sup>10</sup>; homestead market value exclusions of \$29.8 billion reduced this to \$516.1 billion of taxable market value. Class rates are applied to the taxable market value, resulting in total net tax capacity of \$6.03 billion. Net tax capacity is the tax base used for levies other than most referendum levies.

Referendum market value is the total market value excluding the value of agricultural and seasonal-recreational property, and is the tax base used for most referendum levies. The total referendum market value for taxes payable in 2014 is \$421.9 billion. The table shows the distribution of the two tax bases.

	Net Tax Capacity	% of Total	Referendum Market Value	% of Total 100%

Hennepin County	1,497,675,810	24.9	123,361,146,054	29.2	
Ramsey County	465,174,998	7.7	39,183,843,800	9.3	
Remaining Metro	1,183,345,983	19.6	104,070,647,562	24.7	
Total Metro	\$3,146,196,791	52.2%	\$266,615,637,416	63.2%	

<sup>&</sup>lt;sup>10</sup> The state total excludes \$446 million of market value that is located in Job Opportunity Building Zones (JOBZ) and exempt from most property taxes.

#### Payable 2014 Net Property Tax Levy Before Credits: \$8.69 billion

The payable 2014 net property tax levy made by each type of taxing district is shown in the following table (excluding special assessments). The table includes \$7,027 million of local net tax capacity levy, \$819 million of referendum market value levy, and \$847 million of state general levy. The statewide, region, and county tables show the net tax capacity levy and the market value levy combined by jurisdiction type, except they show the school district net tax capacity and referendum market value levies separately. The school district referendum market value levy is \$786 million, nearly all of the \$847 million in total statewide market value levy. "Special taxing districts" include the Metropolitan Council, regional transit authorities, hospital districts, port authorities, watershed districts, etc.

Type of Taxing District	Payable 2014 Net Property Tax Levy (dollars in millions)	Percent	
County	\$2,728	31.4%	
City	1,959		
Town	233		
City/Town	2,192	25.2	
School District	2,349	27.0	
Special Taxing Districts	331		
Tax Increment Financing	246		
Power Line	0.4		
Miscellaneous Districts	577	6.6	
State	847	9.8	
Total, all districts	\$8,693	100.0%	

Note that in the statewide, region, and county tables (sections 2 to 4 of the report), the fiscal disparities levy is included in the "Miscellaneous District Levy," since that is how it is reported to the Department of Revenue. A detailed breakdown of that levy by type of taxing jurisdiction by county is not available, while in the table above the fiscal disparities levy is included in the totals for the various jurisdiction types statewide.

#### Payable 2014 Net Property Taxes Payable: \$8.63 billion

"Net property tax levy" is the amount levied before reductions for state-paid property tax credits. The net property tax payable, which is the amount that appears on property tax statements, is \$8.63 billion, which is the total levy of \$8.69 billion minus property tax credits of \$65 million.

#### **Payable 2014 Average Tax Rate Calculations**

The average net tax capacity rate is computed by dividing the total net tax capacity levy excluding special assessments by the total net tax capacity, then multiplying by 100.

The tables show separate average tax rates for the net tax capacity levy and the referendum market value levy.

For purposes of the net tax capacity tax rate calculation:

- "levy" includes the tax increment financing levy and the fiscal disparities contribution levy; and
- "tax capacity" includes the total net tax capacity before the subtraction of the tax increment financing captured net tax capacity and before any fiscal disparities adjustments.

This rate represents the average local net tax capacity rate of taxation on all property.

### Payable 2014 Property Tax Levies before Credits by Type of Taxing District

House Research Graphics

\* Miscellaneous includes special taxing districts, tax increment financing, and power line levies, but excludes the fiscal disparities distribution levy, which in this graph has been allocated to counties, cities/towns, school districts, and special districts. (The tables later in the report show the fiscal disparities levy as part of "Miscellaneous District Levy.")

**Major State Taxes** 

# **Individual Income Tax**

### **Program Description**

**Individual income tax** is a tax imposed by the state upon (1) the income of Minnesota residents and (2) the income, derived from Minnesota sources, of nonresident individuals. The 2012 tax base is federal taxable income with minor modifications, including the addition of interest earned on bonds issued by non-Minnesota state and local governments, and subtractions for military pay, charitable contributions of nonitemizers, and certain dependent education expenses. Rates applied in 2012 ranged from 5.35 percent to 7.85 percent. In 2013, Minnesota allowed a refundable dependent care credit of up to \$720 for one child and \$1,440 for two or more children, a refundable credit of up to \$1,000 per child for K-12 education expenses, and a working family credit tied to the federal earned income credit. The maximum working family credit was \$1,879.

#### **Tax Amount and Reporting**

#### 2013 Individual Income Tax: \$8.8 billion \$8.2 billion from residents

The total amount of the 2013 individual income tax revenues is \$8,782 million. The tax shown is net tax (after refundable credits) reported on the basis of the filer's county of residence. The state total includes \$556.4 million of individual income taxes collected from returns filed by nonresident taxpayers. This report does not allocate the amount paid by nonresidents to counties, with a net amount of \$8,225 million collected from Minnesota residents.

Individual income tax data was obtained from the Department of Revenue.

#### **Recent Law Changes**

Minnesota has conformed with all major changes made in the federal tax code through tax year 2016, except that Minnesota did not allow the additional standard deduction amount for married filers for tax years 2011 to 2013. Instead, Minnesota taxpayers were required to add the additional deduction amount to state taxable income.

Effective in tax year 2013, Minnesota added a fourth rate of 9.85 percent. The new rate applies to taxable income in excess of \$250,000 for married joint filers, \$150,000 for single filers, and \$200,000 for head of household filers. The income brackets are adjusted annually for inflation.

#### **Statewide Income Tax, Residents Only**

# Sales/Use Tax

# **Program Description**

**Sales tax** is imposed by the state on the gross receipts of all persons who sell, lease, or rent tangible personal property at retail or provide taxable services. The **use tax** complements the sales tax and is imposed at the same rate on the storage, use, or consumption in Minnesota of taxable, tangible personal property and taxable services purchased from any retailer, unless the Minnesota sales tax was already paid on these items. Since July 1, 2009, the state sales and use rate has been 6.875 percent.

Major exemptions include: unprepared food, clothing, prescribed and nonprescribed drugs and medications, gasoline and special fuels taxed under the motor fuels excise tax, publications issued at intervals of three months or less (except over-the-counter magazines), motor vehicle purchases subject to the 6.5 percent sales tax on motor vehicles, materials used or consumed in agricultural or industrial production, textbooks, residential heating fuels and water services, and industrial capital equipment.

# **Tax Amount and Reporting**

# Calendar Year 2014 Sales/Use Tax: \$5.7 billion (gross) \$5.4 billion (net after refunds) \$4.5 billion from residents and in-state sellers

A total of \$5,662.0 million in state sales/use taxes was collected during calendar year 2014. The net amount of sales/use tax after the reduction of capital equipment refunds of \$225.5 million<sup>11</sup> was \$5,436.5 million. The total amount of capital equipment refunds is allocated to counties based on the ratio of each county's mining and manufacturing payroll to the total statewide mining and manufacturing payroll. Of the \$5.4 billion in net sales taxes, about \$926 million was collected from returns filed by out-of-state vendors, resulting in \$4.5 billion allocated to Minnesota. The amount collected from returns filed by out-of-state sellers is not allocated to Minnesota in this report since the taxpayer's residence and/or place of business is unknown, nor is it included in the five-year historical table on page 72. The table shows the amount and share of taxes that were allocated to Minnesota (paid by residents and in-state sellers) and the portion not allocated to Minnesota (paid by out-of-state sellers) over the last ten years.

<sup>&</sup>lt;sup>11</sup> This includes refunds paid on other exempt purchases where the tax is paid at the time of purchase and then refunded, mainly for some specific capital projects.

	Allocated to I	Minnesota	Not Allocate	Not Allocated to Minnesota	
Year	Amount	Percent	Amount	Percent	Total
2005	3,625,842	84.7	652,956	15.3	4,278,798
2006	3,729,834	84.2	701,410	15.8	4,431,245
2007	3,753,243	83.6	737,234	16.4	4,490,477
2008	3,704,922	83.6	725,751	16.4	4,430,673
2009	3,282,128	84.1	620,690	15.9	3,902,818
2010	3,792,834	84.1	719,073	15.9	4,511,908
2011	3,975,604	84.0	758,966	16.0	4,734,571
2012	4,192,302	83.7	815,555	16.3	5,007,858
2013	4,381,851	83.5	865,535	16.5	5,247,386
2014	4,510,068	83.0	926,466	17.0	5,436,534

Sales/Use Taxes (in thousands)	)
(after capital equipment refund)	١

Most of the amount not allocated to Minnesota is a tax on sales made by out-of-state businesses to Minnesota residents, which are reported on a single non-Minnesota return. The amount not allocated to Minnesota has gradually increased from about 14 percent to 17 percent.

The sales tax amounts contained in this report exclude any local sales taxes that cities and counties impose. Local sales taxes are used primarily to support specific capital projects.<sup>12</sup> The amounts shown in the statewide tables are net of the capital equipment refund; the amounts shown by geographic region in the maps are also net of the total remitted by out-of-state sellers. Because sales tax is reported in the county where the seller is located, higher amounts tend to be reported in counties with a regional center (e.g., Twin Cities, Duluth, Rochester, etc.).

Sales/use tax data were obtained from the Department of Revenue.

<sup>&</sup>lt;sup>12</sup> As of December 2014, the cities of Albert Lea, Austin, Baxter, Bemidji, Brainerd, Clearwater, Cloquet, Fergus Falls, Hutchison, Lanesboro, Mankato, Marshall, Medford, Minneapolis, New Ulm, North Mankato, Proctor, Rochester, St. Paul, Two Harbors, Worthington, and St. Cloud-area cities imposed a 0.5 percent general sales tax. The cities of Duluth and Hermantown, and Cook County imposed a 1 percent general sales tax. Hennepin County imposed a 0.15 percent general sales tax. A Transit Improvement Area consisting of Anoka, Dakota, Hennepin, Ramsey, and Washington counties imposed a 0.25 percent general sales tax. The counties of Becker, Beltrami, Douglas, Rice, and Wadena imposed a 0.50 percent sales tax for transit, and the county of Olmsted imposed a 0.25 percent sales tax for transit.

# **Recent Law Changes**

The tax rate was 3.0 percent when enacted in 1967 and has risen gradually over time. The most recent increase, from 6.5 percent to 6.875 percent, is a temporary increase imposed from July 1, 2009, to June 30, 2034. The extra revenue from this temporary rate increase is constitutionally dedicated to fund clean water, parks and trails, and arts and cultural heritage.

The legislature fairly often modifies the goods and services included in the sales tax base. Some of the most significant changes in recent years include the following:

- 2011 exempting most purchases by townships
- 2012 exempting materials used to construct a new professional football stadium
- 2013 exempting most purchases by cities and counties
  - imposing the tax on most digital products
  - imposing the tax on repair and maintenance services for most business equipment
  - repealing an exemption for telecommunication equipment
  - providing a number of construction exemptions for certain businesses
- 2014 exempting most purchases by special districts
  - repealing the 2013 imposition of the tax on repair and maintenance services for most business equipment
  - reinstating the exemption for telecommunications equipment that was repealed in 2013
  - exempting purchases of coin-operated entertainment and amusement devices

#### Statewide Sales/Use Tax, Residents and In-State Sellers

# **Motor Vehicle Sales Tax**

# **Program Description**

The **motor vehicle sales tax** is imposed on new and used motor vehicles at the time of sale. It is imposed in lieu of the general state sales tax on the sale price of motor vehicles, minus any tradein allowance. (A flat tax of \$10 in lieu of the motor vehicle sales tax is imposed upon most lowvalue motor vehicles that are ten or more years old.)<sup>13</sup> The general sales tax is imposed on the lease of a motor vehicle. Beginning with this update, the motor vehicle sales tax presented in this report includes the general sales tax collected on motor vehicle leases.<sup>14</sup>

The rate of the motor vehicle sales tax is 6.5 percent, which is the rate of the general state sales tax prior to the 2008 passage of the constitutional amendment that increased the general sales tax rate to 6.875 percent (with the increase dedicated to outdoor heritage, clean water, parks and trails, and arts and cultural heritage). The increase did not apply to the motor vehicle sales tax. The rate of the general sales tax applied to motor vehicle leases is 6.875 percent.

Motor vehicle sales tax revenue is distributed 60 percent to the Highway User Tax Distribution fund and 40 percent to transit, which is further split 36 percent to Twin Cities metropolitan area transit and 4 percent to transit in greater Minnesota.

In 2014, the first \$32 million collected under the general sales tax on motor vehicle leases went to the general fund, with the balance distributed between the County State-Aid Highway fund and the greater Minnesota transit account. The highway aid section of this report includes distributions of the sales tax on motor vehicle leases in the county highway aid category.

# **Tax Amount and Reporting**

# Calendar Year 2014 Motor Vehicle Sales Tax: \$746.4 million

The total 2014 motor vehicle sales tax is \$746.4 million. The historical table has been adjusted to include the sales tax on motor vehicle leases for 2010 through 2014. In 2014, the motor vehicle sales tax was \$675.3 million, and the general sales tax on motor vehicle leases was \$71.1 million. The Department of Public Safety collects the motor vehicle sales tax. Due to the method of collection, the amount of actual tax liability from each county is not available. The state total is allocated to counties based on two equally weighted factors:

• the number of passenger vehicles and pickup trucks registered in each county, as reported by the Department of Public Safety

<sup>&</sup>lt;sup>13</sup> The flat tax in lieu is \$150 for certain collector vehicles and fire trucks.

<sup>&</sup>lt;sup>14</sup> The sales tax on motor vehicle leases is only available on a fiscal year basis. This report allocates collections in fiscal years using 50 percent of the revenue in each of the corresponding calendar years.

• motor vehicle registration tax by county, as estimated by the Department of Public Safety

Vehicle counts serve as a proxy for the residence of vehicle owners, who pay the sales tax. Motor vehicle registration tax estimates serve as a proxy for the value of vehicles purchased.

Motor vehicle sales tax data was obtained from the Department of Transportation.

#### **Recent Law Changes**

#### 2005 Laws:

At the 2006 general election, the voters approved a constitutional amendment dedicating all motor vehicle sales tax revenue to transportation purposes. The constitutional language requires that "no more than 60 percent" of the revenue go to the Highway User Tax Distribution (HUTD) fund and "not less than 40 percent" go to public transit assistance (Minn. Const. art. XIV, § 13). These distribution limits establish a ceiling for allocation to highways. Within the distribution limits, the Constitution allows legislation to set the actual division between highways and transit.

#### 2007 Laws:

2007 legislation established a motor vehicle sales tax phase-in schedule that occurred over fiscal years 2008 to 2012. Starting in fiscal year 2012 the revenues are distributed 60 percent to highways and 40 percent to transit, with the transit portion divided 36 percent for the Twin Cities metropolitan area and 4 percent for greater Minnesota.

#### 2009 Laws:

As part of the 2010-2011 budget, the motor vehicle sales tax phase-in schedule was adjusted to provide additional funds to both Twin Cities metropolitan and greater Minnesota transit.

#### Motor Vehicle Sales Tax: Calendar Years 2010 to 2014 Nominal dollars, in thousands

### **Statewide Motor Vehicle Sales Tax**

House Research Graphics

# **Motor Vehicle Registration Tax**

# **Program Description**

The **motor vehicle registration tax** is imposed annually on each motor vehicle registered in Minnesota. The tax on passenger cars, pickup trucks, and vans is equal to a \$10 flat tax, plus an additional tax based on the vehicle's original value. The tax starts at 1.25 percent of the vehicle's original value, and decreases as the vehicle ages to a minimum \$25 flat tax.

The tax on trucks and buses is based upon the type, weight, and age of the vehicle. A minimum tax applies to each type of vehicle. There is also a flat tax on motorcycles and mopeds. The tax is paid when the vehicle is first registered in Minnesota to use the public streets and annually thereafter when it is re-registered.

# **Tax Amount and Reporting**

## Calendar Year 2014 Motor Vehicle Registration Tax: \$666.7 million

The total motor vehicle registration tax for calendar year 2014 was \$666.7 million. The tax is collected by the Department of Public Safety. The amount of actual tax liability from each county is not available. The statewide total was allocated to counties based on Department of Public Safety estimates of the amount actually remitted from each county. Revenue from this tax is deposited in the Highway User Tax Distribution Fund.

The statewide motor vehicle registration tax amount came from the Department of Revenue.

# **Recent Law Changes**

The 2008 Legislature restructured the registration tax for passenger vehicles by:

- eliminating the maximum of \$189 in the first renewal and \$99 in subsequent renewals;
- amending the vehicle depreciation schedule for a vehicle's valuation; and
- restricting the tax changes so that the amount owed for vehicles previously registered in Minnesota does not increase from the amount paid in previous years.

#### Motor Vehicle Registration Tax: Calendar Years 2010 to 2014 Nominal dollars, in thousands

# **Statewide Motor Vehicle Registration Tax**

# Motor Fuels Tax (Gas Tax)

# **Program Description**

The **motor fuels tax** is imposed on gasoline, diesel fuel, and other motor fuels used by vehicles on public highways. Aviation fuel purchased, stored, or withdrawn from storage in Minnesota is also subject to the tax. The rate on highway motor fuels including gasoline and diesel<sup>15</sup> is 28.5 cents per gallon.

# **Tax Amount and Reporting**

## Calendar Year 2014 Motor Fuels Tax: \$882.7 million

The total net amount after refunds of the motor fuels tax for calendar year 2014 was \$882.7 million. This is the gross amount before distributions (based on motor fuel use attributed to nonhighway use) to snowmobile, motorboat, forest roads, and all-terrain vehicles (ATV) accounts.<sup>16</sup>

The motor fuels tax goes into the Highway User Tax Distribution Fund and is dedicated for highway use. (See page 20 for description of the allocation of the Highway User Tax Distribution Fund.)

Like both the motor vehicle sales tax and the motor vehicle registration tax, the amount of motor fuels tax paid by taxpayers in each county is unknown. For purposes of this report, an estimate was made for each county based on the total number of vehicle miles traveled in each county in 2014 as a proportion of the total vehicle miles traveled within the state in 2014.

The statewide motor fuels tax amount and data on vehicle miles traveled was obtained from the Department of Transportation.

# **Recent Law Changes**

The 2008 transportation finance act provided for a phased-in increase in the motor fuels tax. The tax increased from 20 cents per gallon on April 1, 2008, phasing in over ensuing years to 28.5 cents per gallon on July 1, 2012 (which includes a 3.5 cents per gallon surcharge tied to trunk highway bonding). In 2009 only, low-income individuals were eligible to claim a refundable income tax credit of \$25 to offset the motor fuels tax increase. The credit was repealed in 2010.

<sup>&</sup>lt;sup>15</sup> Alternative fuels, such as liquefied natural gas and high-alcohol gasoline, are taxed at rates proportional to relative energy content.

<sup>&</sup>lt;sup>16</sup> Previous years' reports indicated that the total was the net after distributions, but the reporting changed several years ago so the amount shown was actually the gross.

# Motor Fuels Tax: Calendar Years 2010 to 2014

# **Statewide Motor Fuels Tax**

# **Corporate Franchise (Income) Tax**

# **Program Description**

**Corporate franchise (income) tax** is imposed on the net income of corporations. The rate of the tax is 9.8 percent. The tax base is federal taxable income with a variety of Minnesota adjustments. Corporations that do business both inside and outside of Minnesota apportion their income based on the percentage of their sales that are made to purchasers in Minnesota. Prior to 2007, companies apportioned income using a three-factor formula based on the share of the corporation's total property, payroll, and sales that were in Minnesota; the formula weighted sales 75 percent and property and payroll 12.5 percent each. Beginning in 2007, the formula gradually phased in 100 percent sales apportionment, reaching that percentage in 2014.

An alternative minimum tax (AMT) applies to federal alternative minimum taxable income, if it would result in a higher tax than the regular corporate franchise tax. This tax rate is 5.8 percent. A minimum fee is imposed on corporations (including S corporations) and partnerships in addition to the regular tax or the AMT. For tax year 2014, the minimum fee ranged from \$190 to \$9,500, depending upon the corporation's sales, property, and payroll in Minnesota. The fees are indexed annually for inflation.

# **Tax Amount and Reporting**

# 2014 Corporate Income Tax: \$1,177.1 million

The amount presented in this report was tabulated from all Minnesota corporate income tax returns filed during the calendar year ending December 31, 2014. (Most returns filed in 2014 were for calendar year 2013, but the total also includes some calendar year 2012 returns.) The total statewide amount of \$1,177.1 million includes taxes collected from corporations whose main offices are in other states and foreign countries. It does not include any taxes or minimum fees paid by S corporations or partnerships.

The corporate income tax data was obtained from the Department of Revenue. The location of each corporation's home office is not available. Instead, each county's total sales, reported in the U.S. Census Bureau's Survey of Business Owners, are used as an indicator of the source or location of the corporate tax.

Corporate tax for 2010 to 2011 was allocated using the Census Bureau's 2007 Survey<sup>17</sup>, adjusted for the change in gross sales from year to year in Department of Revenue data on gross sales of businesses reporting sales tax. The 2012 to 2014 state total of corporate tax was allocated using the Census Bureau's 2012 Survey, with the 2013 and 2014 data adjusted for the change in gross sales from year to year.

<sup>&</sup>lt;sup>17</sup> 2007 sales for Lake of the Woods County were unavailable. 2007 sales in Lake of the Woods County were estimated by increasing 2002 sales in Lake of the Woods County by the same percentage that sales increased statewide.

In addition to the total dollar amount of corporate tax shown by region and by county in sections 2 to 4 of the report, the tables below summarize statewide data by unitary/nonunitary and by type of corporation/return.

#### By Type of Return

<sup>&</sup>lt;sup>18</sup> Related corporations, such as subsidiary, brother-sister, and parent corporations, must file on a unitary basis. For these corporations, the denominator of the three-factor apportionment formula (property, payroll, and sales) includes the factors of all the corporations in the unitary group. The numerator is the factors of the individual corporation, and the taxable income apportioned is the total income of the unitary group.

#### Corporate Franchise Tax: Filed Calendar Years 2010 to 2014 Nominal dollars, in thousands

# **Statewide Corporate Franchise Tax**

# **State General Levy**

# **Program Description**

A state general property tax levy was instituted as part of the overall property tax reform adopted during the 2001 legislative session. Ninety-five percent of the state general levy is levied on commercial/industrial property (including public utility property), and the remaining 5 percent is levied on seasonal recreational property. That portion of public utility property consisting of attached machinery used in the generation of electrical energy is exempt from the state general levy, as well as the property at the Minneapolis-St. Paul International Airport and the St. Paul intermediate airport.

For its first year in taxes payable 2002, the state general levy was \$592 million. Each subsequent year's levy is increased from the previous year's levy by the increase in the implicit price deflator for government consumption expenditures and gross investments published by the U.S. Bureau of Economic Analysis (an index of inflation).<sup>19</sup>

# **Tax Amount and Reporting**

# Payable Year 2014 State General Levy: \$846.7 million

The total state general levy for taxes payable in 2014 was \$846.7 million.

For taxes payable in 2014, the state tax rate was 52.16 percent for commercial-industrial/public utility property and 22.836 percent for seasonal recreational property, which provides revenues of \$804.6 million and \$42.2 million respectively.<sup>20</sup>

The tax rates are computed by the Department of Revenue.

<sup>&</sup>lt;sup>19</sup> The historical graphs throughout this report adjust for inflation using the implicit price deflator for state and local government expenditures, as published by the U.S. Bureau of Economic Analysis, a slightly different measure than the general government expenditure index used to adjust the state general levy amount. Use of a different measure explains why the inflation-adjusted line in the graph on page 96 is not a flat line.

<sup>&</sup>lt;sup>20</sup> In addition to the amount formally levied, an additional amount of approximately \$2.4 million is collected from properties that are not included in the abstract of assessment (i.e., the majority of the tax is on certain transmission and distribution line property). This amount is not included in this report because its distribution is unknown.

#### State General Levy: Payable 2010 to 2014 Nominal dollars, in thousands

# **Statewide State General Levy**

# 2. Summary Data

This section contains summary data for the most recent available year on

- statewide totals
- the seven metro and the 80 nonmetro counties
- the 13 economic development regions

A sample table and a general explanation of the tables in sections 2, 3, and 4 of the report precede the data.

# **General Explanations of Tables**

The basic format is the same for all the regional and county tables in sections 3 and 4 of the report. (See adjacent page.)

I. MAJOR STATE AIDS/CREDITS. Although all of the aids/credits listed are paid by the state, there are three types of aids/credits.

#### A. Aids to Local Governments

- Are paid to or for the benefit of the local taxing district
- Are paid on behalf of individuals in the county (MinnesotaCare)
- Reduce what is needed from the property tax levy

#### **B.** Property Tax Credits

- Are paid to the local taxing district, but are listed on the property tax statement as a credit against the property's gross tax
- Benefit only certain types of property
- Are computed on a parcel-by-parcel basis on qualifying property

### C. Property Tax Refunds (Circuit Breaker/Targeting)

- Are paid directly to homeowners and renters (property tax refund)
- Are based upon a relationship between household income and the homeowner's property tax or the renter's share of property tax (property tax refund)
- Are targeted to homeowners who have large property tax increases in one year (targeting)

### II. PROPERTY TAX DATA

- **A. Property Tax Levy** for taxes payable in 2014 by type of taxing district, including the state property tax levy
- **B. Property Valuation** of taxable real and personal property for the 2013 assessment (taxes payable in 2014), including the total market value, referendum market value, and net tax capacity
- C. The Average Tax Rates for taxes payable in 2014 of the local net tax capacity and referendum market value

### III. MAJOR STATE TAXES

- Individual income tax
- Sales/use tax
- Motor vehicle sales tax
- Motor vehicle registration tax
- Motor fuels tax (i.e., gas tax)
- Corporate income tax
- State general property tax

The motor vehicle sales tax, the motor vehicle registration tax, the motor fuels tax, and the corporate income tax have been included in this report on a county-by-county basis. However, the county amounts are estimates since actual collections by county are not available. (See the sections for each of the apportioned taxes for detail on the county apportionment calculations.)

# **Statewide Summary**

**Tables 2-1 and 2-2** contain the statewide totals of all the state aids and taxes presented in this report. Table 2-1 summarizes the total amounts for Minnesota residents only; Table 2-2 also includes income and sales taxes paid by nonresidents.

2014 population is used to calculate per capita amounts in the tables and maps throughout the report.

The total state aids and credits contained in this report equal about \$15.8 billion, whereas the total of the seven major taxes listed in this report equal \$16.98 billion paid by residents and an additional \$1.48 billion paid by nonresidents (for a total tax amount of \$18.5 billion).

The total taxes presented in this report **are not the total of all taxes collected by the state**. The total state net tax receipts were about \$20.5 billion in fiscal year 2013 and \$21.8 billion in fiscal year 2014. Furthermore, the taxes presented in this report are not for a specific time period but rather are the latest available data and/or the next data in sequence to the 2013 Update report (published March 2017). Therefore, the \$18.5 billion total taxes listed in this report (residents and nonresidents) is about 87 percent of the total taxes actually collected over that period.

The taxes not contained in this report include estate, mortgage registry and deed, insurance gross premiums, MinnesotaCare, mineral, cigarette and tobacco products, lawful gambling, and alcoholic beverages. The collections from some of these taxes are dedicated for specific purposes, and amounts are not available by county.

### Metro/Nonmetro Data

**Tables 2-3 and 2-4** contain data comparing the metro and nonmetro counties. The metro counties are the Twin Cities seven metropolitan counties—Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington. The nonmetro counties are the remaining 80 counties in the state.

Table 2-3 has the metro and nonmetro dollar amounts of aids and taxes and a per capita comparison.

Table 2-4 presents a statewide breakdown of metro versus nonmetro for each of the categories. Each item adds across to 100 percent; for example 57.1 percent of the education aid goes to metro counties and 42.9 percent goes to nonmetro counties.

2014 population is used to calculate per capita amounts in the tables and maps throughout this report.

Note: The metro and nonmetro totals add to the state totals in Table 2-1, which include only Minnesota residents.

The additional amounts paid by out-of-state taxpayers have not been allocated to any county. The amount of sales and income taxes which is unallocated to Minnesota is about \$1.5 billion. Appendix B has a list of the type of tax and amounts not entirely allocated to Minnesota counties.

### 3. Regional Data

There are four statewide maps comparing various tax/aid factors.

- Map on page 110 is total per capita aid and credits by economic development region
- Map on page 111 is total per capita taxes (residents only) by economic development region
- Map on page 112 is per capita personal income by county
- Map on page 113 is per capita personal income by economic development region

Table 3 compares the state aid/tax data for each of the 13 regions with the statewide totals. There is a separate table for each region.

## Statewide per capita amounts exclude income and sales taxes paid by nonresidents of Minnesota.

The map of Minnesota on page 4 and table on page 5 show the counties that are located in each of the 13 economic development regions.

2014 population is used to calculate per capita amounts in the tables and maps throughout this report, except for Appendix C and the maps on pages 112 and 113.

# Total Aids and Credits (\$15.8 billion), per capita by Economic Development Region

House Research Graphics

#### Total Taxes (\$17.1 Billion),\* per capita by Economic Development Region

\* Total taxes include only the taxes on residents. The \$1.5 billion paid by nonresidents and not allocated to Minnesota counties is excluded.

# Personal Income (\$268.1 billion in 2014), per capita by County

\*See Appendix C for listing of Personal Income by County and definition of Personal Income.

#### Personal Income (\$268.1 billion in 2014), per capita by Economic Development Region

\*See Appendix C for listing of Personal Income by County and definition of Personal Income.

## 4. County Data

This section compares data from each county with statewide data and data from the economic development region in which the county is located. The counties are listed in alphabetical order. There is a separate table for each county.

## Statewide per capita amounts exclude income and sales tax paid by nonresidents of Minnesota.

The table on page 6 shows 2014 estimated population, which was used for each county in determining the county and region per capita amounts. 2014 population is used to calculate per capita amounts throughout this report.

NOTE: The human service amounts, other than MinnesotaCare, were not available by county for the Human Services Board (Faribault and Martin). The total for the Human Service Board is \$40.4 million, which was allocated to the counties on a per capita basis (\$16.6 million estimated to Faribault county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the other programs such as MFIP, etc.

NOTE: The human service aid amounts, other than MinnesotaCare, were not available by county for Des Moines Valley Health and Human Services (Cottonwood and Jackson). The total for Des Moines Valley is \$25.5 million, which was allocated to the counties on a per capita basis (\$11.9 million estimated to Jackson county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the other programs such as MFIP, etc.

NOTE: The human service aid amounts, other than MinnesotaCare, were not available by county for Southwest Health and Human Services (Lincoln, Lyon, Murray, Pipestone, Redwood, and Rock). The total for SWHHS is \$78.3 million, which was allocated to the counties on a per capita basis (\$6.1 million estimated to Lincoln county), to approximate total human services spending in each county Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the other programs such as MFIP, etc.

NOTE: The human service aid amounts, other than MinnesotaCare, were not available by county for the Human Services Board (Faribault and Martin). The total for the Human Service Board is \$40.4 million, which was allocated to the counties on a per capita basis (\$23.8 million estimated to Martin county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the other programs such as MFIP, etc.

NOTE: The human service aid amounts, other than MinnesotaCare, were not available by county for Southwest Health and Human Services (Lincoln, Lyon, Murray, Pipestone, Redwood, and Rock). The total for SWHHS is \$78.3 million, which was allocated to the counties on a per capita basis (\$8.9 million estimated to Murray county), to approximate total human services spending in each county Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the other programs such as MFIP, etc.

NOTE: The human service aid amounts, other than MinnesotaCare, were not available by county for Southwest Health and Human Services (Lincoln, Lyon, Murray, Pipestone, Redwood, and Rock). The total for SWHHS is \$78.3 million, which was allocated to the counties on a per capita basis (\$9.8 million estimated to Pipestone county), to approximate total human services spending by county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation for the other programs such as MFIP, etc.

NOTE: The human service aid amounts, other than MinnesotaCare, were not available by county for Southwest Health and Human Services (Lincoln, Lyon, Murray, Pipestone, Redwood, and Rock). The total for SWHHS is \$78.3 million, which was allocated to the counties on a per capita basis (\$16.4 million estimated to Redwood county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation for the other programs such as MFIP, etc.

NOTE: The human service aid amounts, other than MinnesotaCare, were not available by county for Southwest Health and Human Services (Lincoln, Lyon, Murray, Pipestone, Redwood, and Rock). The total for SWHHS is \$78.3 million, which was allocated to the counties on a per capita basis (\$10.0 million estimated to Rock county), to approximate total human services spending in each county. Not enough information is available about the distribution of the components of human services aid relative to population to use this same allocation method for the other programs such as MFIP, etc.

#### Appendix A

Education aids include state aid for general education, special education, transportation, community education, capital expenditure, secondary vocational, and other miscellaneous programs, as well as charter school aid. Education aid paid to school districts that operate in more than one county is apportioned to the various counties based on each county's share of total residential market value in the school district.

	School

#### Selected Taxes That Are Not Entirely Allocated to Minnesota Counties

	Allocated to Minnesota Counties		Not Allocated to Minnesota Counties		
Type of Tax	Amount Percent*		Amount	Percent*	TOTAL
Individual Income Tax**	\$8,225,332,263	93.7%	\$556,390,324	6.3%	\$8,781,722,587
Sales/Use Tax**	\$4,510,067,953	83.0%	\$926,466,161	17.0%	\$5,436,534,114
Total	\$12,735,400,216	89.6%	\$1,482,856,485	10.4%	\$14,218,256,701

 \* Percents added across equal 100 percent.
 \*\* Income tax paid by nonresidents is not allocated to Minnesota counties. See page 68 for discussion of estimated sales/use tax amounts not allocated to Minnesota counties.

#### Appendix C

#### **2014** Personal Income by County

Personal income by county is estimated by the Bureau of Economic Analysis, and is defined as "the sum of wage and salary disbursements, other labor income, proprietors' income with inventory valuation and capital consumption adjustments, rental income of persons with capital consumption adjustment, personal dividend income, personal interest income, and transfer payments to persons, less personal contributions for social insurance."

#### **Appendix D**

#### 2014 Personal Income, Taxes, and Aids/Credits by Economic Development Region

Personal income by county is estimated by the Bureau of Economic Analysis and is defined as "the sum of wage and salary disbursements, other labor income, proprietors' income with inventory valuation and capital consumption adjustments, rental income of persons with capital consumption adjustment, personal dividend income, personal interest income, and transfer payments to persons, less personal contributions for social insurance." State per capita taxes exclude taxes attributed to nonresidents.

		Per Capita		
		Personal Income	Taxes	Aids/Credits
Northern Regions	Northwest (1)	\$44,750	\$2,647	\$3,439
	Headwaters (2)	35,250	2,091	3,550
	Arrowhead (3)	39,849	2,482	3,149
	West Central (4)	42,540	2,506	2,906
	Five (5)	37,973	2,257	3,051
	East Central (7E)	36,880	1,966	2,678
Southern Regions	Six East (6E)	43,839	2,546	2,896
	Upper MN Valley (6W)	47,505	2,501	3,536
	Central Minnesota (7W)	40,884	2,545	2,528
	Southwest (8)	46,148	2,535	3,261
	Nine (9)	42,347	2,434	2,712
	Southeastern MN (10)	44,078	2,552	2,690
Nonmetro Per Capita		\$41,675	\$2,454	\$2,876
Metro Per Capita		\$55,391	\$3,687	\$2,925
State Per Capita		\$49,168	\$3,399	\$2,903
