An Equal Opportunity Employer DATE:

January 30, 2018

TO:

The Honorable Mark Dayton

Minnesota Legislative Reference Library

FROM:

Mansco Perry III

Executive Director and Chief Investment Officer

SUBJECT: External Money Manager Report Pursuant to Minnesota

Statutes Section 11A.04, clause (12)

Minnesota Statutes, Section 11A.04, clause (12) requires the State Board of Investment (SBI) to report annually to the Governor and Legislative Reference Library the cost and investment performance of external investment managers employed by the Board.

On June 30, 2017, the SBI utilized 17 domestic stock managers, 15 international stock managers and 7 fixed income managers for the defined benefit retirement assets under its control. The SBI also utilized a fixed income manager and an equity manager for the Assigned Risk Plan and a stable value manager for the conservative option in the defined contribution plan.

The investment performances of each manager, as well as the fees paid to each, are reported in the charts on the following pages. This information is also included in the Board's annual report for FY17.

It is important to note that all performance data reported by the SBI is net of fees and transactions costs associated with the various portfolios. The SBI's FY 2017 Annual Report contains additional detail on manager performance and may be accessed online at <a href="http://mn.gov/sbi">http://mn.gov/sbi</a>.

#### **Defined Benefit Plan**

### **Domestic Public Stock Managers**

The SBI evaluates domestic stock manager returns against the performance of Russell style indices which reflect the managers' specific investment approaches. The benchmark portfolios take into account the market forces that, at times, favorably or unfavorably impact certain investment styles. The aggregate domestic stock program is designed to outperform the Russell 3000 Index. Assets are allocated to managers within each Russell style index in the same proportion as in the Russell 3000 Index.

As a group, the managers outperformed the broad market by 0.8 percentage point for the fiscal year. For FY 2017, the active and semi-passive manager groups outperformed their respective benchmarks. Eight of the 15 active managers outperformed their respective benchmarks. (Four active, small-cap managers were hired in November of FY17 and do not have one year of performance data.) Both semi-passive managers outperformed the benchmark. One passive large-cap manager (Russell 1000) was hired in August of FY17 and does not have one year of performance data. The passive all-cap manager (Russell 3000) matched the benchmark for the fiscal year.

### **Fixed Income Public Managers**

The SBI evaluates the performance of its fixed income managers against the Bloomberg Barclays U.S. Aggregate Bond Index. As a group, the fixed income managers outperformed the broad bond market by 1.2 percentage points for the year. For FY 2017, the active managers and two of the semi-passive managers outperformed the benchmark, and one of the semi-passive managers matched the benchmark return.

### **International Public Stock Managers**

The SBI evaluates individual international stock managers against market indices published by Morgan Stanley Capital International (MSCI). Two indices are used: the World ex USA (net) and the Emerging Markets (net). As a group, the international stock managers underperformed the MSCI All Country World Index (ACWI) ex USA Index (net) by 0.3 percentage point for the fiscal year. Three of the six active developed markets managers outperformed their respective benchmarks for the year. (Six emerging market managers were hired in March of FY17 and do not have enough performance data available for the fiscal year.) The longstanding emerging markets manager underperformed the benchmark for the fiscal year. Two of the three semi-passive developed markets managers outperformed the benchmark for the year. The passive developed markets portfolio outperformed the MSCI World ex USA Index (net) and the passive emerging markets portfolio slightly underperformed the MSCI Emerging Markets Index (net).

#### **Assigned Risk Portfolio**

#### **Domestic Stock Manager**

The SBI evaluates the performance of the stock manager against the S&P 500 index. During the fiscal year 2017, the stock manager was transitioned from external management to internal management. The stock manager(s) outperformed the benchmark by 1.7 percentage points.

#### Fixed Income Manager

The SBI evaluates the performance of the bond manager against the Bloomberg Barclays Intermediate Government Index. During the fiscal year 2017, the bond manager outperformed its benchmark by 0.1 percentage point.

### Conservative Option in Defined Contribution Plan

### **Stable Value Portfolio**

The SBI evaluates the performance of the stable value manager against the 3-Year Constant Maturity Treasury + 45 basis points. During the fiscal year 2017, the stable value manager outperformed its benchmark by 0.3 percentage point.
