Greater Minnesota Business Public Infrastructure Grant (BDPI)

A list of BDPI projects since 2011 is provided along with their award amounts and type of project. These projects supported 8965 jobs and leveraged \$45,405,575. We do not keep records of how much of that leverage is private versus public.

The list is attached as Exhibit #1.

Small Cities Development Program (SCDP)

DEED has awarded \$114,055,945 of SCDP funds since 2011. Over that period, \$148,859,768 has been leveraged with 4290 units of housing being restored. We do not have information about how much of that leverage is comprised of private funds.

Attached as Exhibit #2 are lists of communities receiving SCDP awards from 2011 to 2016. We do not have information about jobs or private sector investment that correspond with these projects.

Exhibit #1

DEED Awards 51 Small Cities Development Grants

ST. PAUL – The Minnesota Department of Employment and Economic Development (DEED) has awarded nearly \$18.5 million in grants to 51 communities in Greater Minnesota for rehabilitating housing and commercial properties and improving infrastructure.

DEED awarded the grants under its Small Cities Development Program, which is funded by the U.S. Department of Housing and Urban Development. The projects include funding for a wastewater treatment facility in Wykoff , rehabilitation of housing damaged by floods in Truman last year, and expansion of a community center in Lancaster.

"This funding will improve the quality of life of people living in Minnesota's small towns and help create jobs in the construction industry," said DEED Commissioner Mark Phillips. "More than 100 communities across the state will see direct benefits from this round of grants."

The program, which is administered by DEED, makes grants available to cities and townships with populations under 50,000 and counties with populations under 200,000.

Funding is awarded to eligible communities for rehabilitating existing housing stock for low- to moderate-income residents; public infrastructure projects including sewer and wastewater treatment improvements, storm sewers and streets; and comprehensive projects that address a community need such as commercial revitalization, housing rehabilitation and improved public infrastructure.

DEED is the state's principal economic development agency, promoting business recruitment, expansion and retention, workforce development, international trade and community development. For more details about the agency and our services, visit us at www.PositivelyMinnesota.com. Follow us on Twitter at www.twitter.com/PositivelyMN.
