

to protect and preserve Minnesota's water

- **Build A Rain Garden!** By building a garden at home or at school, you can give stormwater a place to go while growing pretty plants or edible vegetables!

- **Ask Your School To Help!** Your school can make a big difference protecting our clean water by making environmentally friendly purchases for classrooms and activities.

**Hang this somewhere visible to remind you and your family to protect and preserve Minnesota's water for future generations!**
