

MINNESOTA DEPARTMENT OF PUBLIC SAFETY

2017 Annual Report to the Legislature: State agency emergency management training

In compliance with Minnesota Statutes, section 12.09, subdivision 10

Compiled by:

MINNESOTA DEPARTMENT OF PUBLIC SAFETY
DIVISION OF HOMELAND SECURITY AND EMERGENCY MANAGEMENT

Background

The state emergency operations plan assigns roles to certain state agencies in the event of an emergency or disaster. Those state agencies must have at least one employee who has completed the emergency management training curriculum offered by the Minnesota Department of Public Safety Division of Homeland Security and Emergency Management (Minn. Stat., § 12.09, subd. 10). The statute also requires an agency to file a compliance plan with DPS-HSEM when all employees with an emergency management certificate leave the organization.

The current DPS-HSEM emergency management certificate program requires completion of 31 courses representing approximately 150 training hours. It often takes two to three years to finish the program of independent study and classroom instruction.

Status Report

In 2017, all affected agencies achieved compliance with the training requirement. Agencies are not required to list all who have or are working toward a DPS-HSEM emergency management certificate.

The Office of the Attorney General filed a new plan following the retirement of their designated employee. The new designated employee is working toward completing the DPS-HSEM curriculum. The Board of Animal Health continues to contract with a Department of Agriculture designated employee.

Department/Agency	Designated Employees
Administration	Amanda Baesler
