

### **2017 Annual Report**

January 8, 2018

Dear Governor Dayton,

On behalf of the board and staff of the Minnesota Public Facilities Authority, I am pleased to provide you with our fiscal year (FY) 2017 Annual Report as required by Minnesota Statues, section 446A.09.

The Public Facilities Authority (PFA) is a multi-agency authority that provides financing and technical assistance to local governments for infrastructure projects that support a thriving state economy and a clean, healthy environment. The PFA board consists of the Commissioners of the Pollution Control Agency and the Departments of Health, Transportation, Agriculture, Management and Budget, and Employment and Economic Development, with the DEED Commissioner serving as PFA Chair.

In FY 2017 the PFA funded 45 infrastructure projects for local governments throughout the State, with loan and grant awards totaling \$175 million. Since inception in 1987, the PFA has made over 1,000 loans totaling \$3.9 billion, primarily for water infrastructure improvements. During that time the PFA has also awarded 592 grants for \$550 million to provide additional assistance to help local governments meet affordability needs and address specific water quality protection and restoration goals.

The PFA's independently audited Financial Report for FY 2017 is included with this Annual Report. The PFA remains in excellent financial health. PFA revenue bonds under all three major revolving loan funds have AAA ratings.

The 2017 legislative session saw a major increase in funding for PFA programs. This funding has allowed many new projects to begin construction this fall with many more gearing up for the 2018 construction season.

We look forward to continuing the PFA's mission of providing affordable financing to help meet the State's infrastructure needs. If there are any questions about the PFA and this report please contact me.

Sincerely,

Jeff Freeman, Executive Director Minnesota Public Facilities Authority

Note (as required by Minnesota Statutes, section 3.197): Preparation of this report required an estimated 28 hours of staff time for an approximate cost of \$1,882.

### Introduction

The Minnesota Public Facilities Authority (PFA) is a multi-agency authority that provides financing and technical assistance to local governments for infrastructure projects that support a thriving state economy and a clean, healthy environment. The PFA board consists of the Commissioners of the Pollution Control Agency (MPCA) and the Departments of Health (MDH), Transportation (MnDOT), Agriculture (MDA), Minnesota Management and Budget (MMB), and Employment and Economic Development (DEED). The DEED Commissioner serves as the PFA Chair.

### PFA priorities are to:

- Manage capital assets (currently \$2.4 billion) to ensure a stable source of infrastructure financing in perpetuity.
- Provide infrastructure financing programs to support water quality, public health, and other priorities identified by PFA member agencies.
- Help local governments maintain and improve their water infrastructure systems while keeping costs affordable for their residents.

The PFA manages three revolving loan funds that have received federal capitalization grants and state match appropriations, and for which the PFA has authority to issue up to \$2 billion (max outstanding) in revenue bonds to raise additional capital to make loans. In addition, PFA manages several other grant and loan programs, funded primarily by state appropriations. All major programs of the PFA are administered in conjunction with member agencies. The MPCA, MDH, and MnDOT are responsible for establishing project priorities and for technical review and regulatory compliance for projects on their respective priority lists that are being considered for financing by the PFA.

The PFA Executive Director is responsible for carrying out the PFA's responsibilities, including compliance with state and federal regulations related to programs and debt issuance. PFA staff advise communities on financing requirements and options, review the creditworthiness of applicants, determine that full project financing is in place and that the necessary dedicated revenues are established, disburse loan and grant funds as eligible project costs are incurred, and collect loan repayments.

The PFA receives no general fund appropriations. Funding for the PFA's revolving loan funds comes from federal capitalization grants, state match funds appropriated from state general obligation bond proceeds, revolving fund revenues, and proceeds of PFA's AAA-rated revenue bonds, which are backed solely by the assets and revenues of the revolving loan funds. Funding for PFA grant programs comes from state appropriations of general obligation bond proceeds and Clean Water Legacy Funds. Administrative costs for the PFA (10.5 FTEs), MPCA (12.0 FTE's), and MDH (4.35 FTEs) are paid primarily from service fees on loan repayments. Administrative and technical support services for the PFA are provided through an interagency agreement with DEED.

### **FY 2017 Program Activity**

As described below, in fiscal year (FY) 2017 (July 1, 2016 to June 30, 2017) the PFA funded 45 infrastructure projects totaling \$175 million for local governments throughout the state. To finance these projects the PFA awarded 37 low interest loans totaling \$126.7 million and 25 grants totaling \$48.7 million. A summary of FY 2017 project awards by program is shown on page 7. Exhibit A on pages 11-14 provides a detailed list of project awards.

### Clean Water Revolving Fund

The PFA's Clean Water Revolving Fund (CWRF, MS 446A.07) combines annual federal capitalization grants and state matching funds with loan repayments and PFA revenue bond proceeds to establish a permanent source of low interest capital to help local governments finance wastewater and stormwater infrastructure projects. Since 1990 the PFA has made 536 CWRF loans totaling \$2.9 billion and, as allowed under federal and state law, has also used a portion of federal CWRF funds to make principal forgiveness grants totaling \$69.7 million based on affordability, energy conservation and other criteria. The PFA has also allocated \$89.6 million in CWRF funds to capitalize nonpoint source loan programs administered by MDA, MPCA and DEED.

In FY 2017, the PFA awarded 19 CWRF loans totaling \$84.8 million at an average interest rate of 1.07 percent and 4 principal forgiveness grants totaling \$3.1 million for municipal wastewater and stormwater infrastructure projects. In addition the MDA and MPCA used CWRF funds to make 74 loans totaling \$12.2 million through the Agriculture Best Management Practices (AgBMP) and Clean Water Partnership (CWP) loan programs to finance 763 individual projects by private landowners and local governments to reduce nonpoint source pollution.

### **Drinking Water Revolving Fund**

The PFA's Drinking Water Revolving Fund (DWRF, MS 446A.081) combines annual federal capitalization grants and state matching funds with net loan repayments and PFA revenue bond proceeds to establish a permanent source of low interest capital to help local governments finance drinking water infrastructure projects. Since 1999 the PFA has made 398 DWRF loans totaling \$809 million and, as allowed under federal and state law, has also used a portion of federal DWRF funds to make principal forgiveness grants totaling \$63.6 million based on affordability and other criteria. The PFA has also provided \$48 million in DWRF funds to the MDH for wellhead protection, technical assistance to small systems, and other drinking water protection activities.

In FY 2017, the PFA awarded 16 DWRF loans totaling \$41.3 million at an average interest rate of 1.06 percent and 2 principal forgiveness grants totaling \$1.2 million for municipal drinking water infrastructure projects.

### Transportation Revolving Loan Fund

The Transportation Revolving Loan Fund (TRLF, MS 446A.085) is a smaller revolving fund established in 1997 that combines a one-time infusion of federal funds and prior state appropriations to create an alternative source of financing for certain transportation projects selected by the Department of Transportation. The PFA has also leveraged available funds by selling 4 series of closed pool revenue bonds for certain eligible projects. Net loan repayments revolve back to the fund for new loans. Since 1999 PFA has made 34 loans totaling \$175 million for state and local government transportation projects.

In FY 2017 the PFA did not award any TRLF loans.

### Water Infrastructure Funding Program

The Water Infrastructure Funding Program (WIF, MS 446A.072) provides supplemental grants to assist municipalities with high cost projects needed to address high priority environmental and public health needs. In 2017 the WIF program statutes were amended to, for the first time, make drinking water projects eligible for WIF grants in addition to wastewater projects, and the name was changed from 'Wastewater' to 'Water' Infrastructure Funding program. WIF funds are appropriated from state general obligation bond proceeds. The WIF program provides grants up to \$5 million to municipalities to supplement low-interest loans from the PFA's Clean Water and Drinking Water Revolving Funds or to match grant and loan funding from the U.S. Department of Agriculture (USDA) Rural Development. WIF grants are awarded for up to 80% of project costs based on household affordability criteria or up to 65% of the grant need determined by USDA Rural Development.

In FY 2017 the PFA awarded 4 WIF grants totaling \$4.8 million.

### Point Source Implementation Grant Program

The Point Source Implementation Grant Program (PSIG, MS 446A.073) provides grants to help municipalities construct wastewater treatment and stormwater projects when the MPCA determines that higher levels of treatment are necessary to reduce discharge of certain pollutants in order to meet water quality goals. PSIG funds are appropriated from the Clean Water Legacy Fund, and for the first time in 2017, from state general obligation bonds. Eligible PSIG projects include those necessary to meet Total Maximum Daily Load (TMDL) wasteload requirements and water quality based effluent limit requirements, including phosphorus, chlorides, mercury, and other pollutants. In 2017 the program was amended to increase PSIG grants to 80% of eligible project costs up to \$7 million.

In FY 2017 the PFA awarded 8 PSIG grants totaling \$26.5 million.

### <u>Small Community Wastewater Treatment Program</u>

The Small Community Wastewater Treatment Program (MS 446A.075) provides loans and grants to help very small unsewered communities address environmental and public health problems from non-complying septic systems. Small Community program funds are appropriated from the Clean Water Legacy Fund. The program provides technical assistance

grants to help communities evaluate wastewater treatment alternatives, and construction financing through low interest loans and grants to replace individual systems with community subsurface treatment systems.

In FY 2017 the PFA awarded 4 technical assistance grants for \$186,485 and 2 construction loan/grant awards for \$1.9 million.

### **Credit Enhancement Program**

In addition to its direct financing programs, the PFA administers the Credit Enhancement Program (MS 446A.086) in conjunction with MMB to reduce borrowing costs for local governments that issue their general obligation bonds for eligible construction projects in the private market. The program provides a limited state guarantee of the local government's bond payments, thereby helping issuers achieve higher bond ratings and lower interest costs. Eligible projects include county law enforcement facilities, social and human services buildings, and solid waste facilities, and city wastewater, drinking water, and stormwater facilities. Through FY 2017, the PFA enrolled a total of 291 local government bonds in the program with a total original par amount of \$964 million and less than \$643 million outstanding.

In FY 2017, the PFA approved 36 local bond issues for inclusion in the credit enhancement program for \$151 million.

### **Summary of FY 2017 Project Awards**

The table below summarizes FY 2017 PFA project awards by program.

### MN Public Facilities Authority Project Awards by Program during FY 2017

Program	Count *	\$ Awarded as Grant	\$ Awarded as Loan	Average Loan Rate	Estimated Interest Savings from PFA Loans **
Clean Water Revolving Fund ***	23	3,088,462	84,797,696	1.074%	8,693,800
Drinking Water Revolving Fund ***	18	1,160,930	41,326,115	1.060%	4,352,000
Transportation Revolving Loan Fund	-				
Wastewater Infrastructure Fund	4	4,814,471			
Clean Water Legacy Fund: Point Source Implementation Grants Small Comm WWT Program	8	26,519,303			
Construction	4	1,344,299	580,874	1.000%	44,300
Technical Assistance	4	186,485			
Special Appropriations	1	11,589,273			
	62	48,703,223	126,704,685		13,090,100

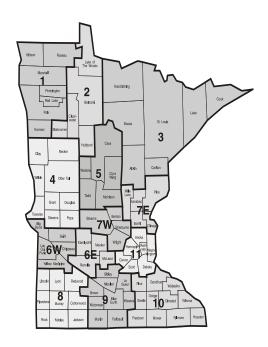

- \* Each loan and grant award is counted separately. A project may receive more than one award.
- \*\* Reflects estimated interest savings realized by PFA borrowers compared to market-rate financing.
- \*\*\* Federal appropriations for the Clean Water and Drinking Water Revolving Funds require a portion of the federal funds to be provided as principal forgiveness grants based on affordability and other criteria.

### **Loan and Grant History**

The table below shows total loans and grants awarded by the PFA from FY 1990 through FY 2017.

MN Public Facilities Authority Project Awards from Inception in 1990 thru June 30,2017, by RDC Region

	Grants Made	by Region	Loans Made	by Region

Totals	592	550,088,534	1,003	3,947,859,895	893,380,600

### **Bonding Activity**

The PFA sells revenue bonds to leverage state and federal monies in its revolving loan funds. The bonds are not backed by the State; they are secured and repaid entirely from revolving fund assets and revenues. PFA revenue bonds issued for its clean water and drinking water revolving funds (State Revolving Fund bonds) are rated AAA by all three rating agencies. The PFA has statutory authority to issue up to \$2 billion in outstanding bonds. As of June 30, 2017 the PFA had \$891 million in outstanding bonds. Bonds are sold on a cash flow basis to cover project disbursements.

The tax-exempt bonds issued by the PFA are subject to Internal Revenue Service regulations governing use of the funds and handling of the bond proceeds. These include limits on the amount of investment income that may be earned and requirements for excess earnings to be rebated at certain points in time to the IRS. This arbitrage rebate liability is calculated annually and reported in the PFA's audited annual Financial Reports. No rebate payments to the IRS were required for FY 2017. The PFA's estimated arbitrage rebate liability as of June 30, 2017 is \$15,270 which is not yet payable.

#### Water Infrastructure Needs

Based on recent needs surveys conducted by MPCA, MDH and the U.S. Environmental Protection Agency, clean water infrastructure needs for Minnesota cities over the next 20 years exceed \$4 billion and drinking water infrastructure needs exceed \$7 billion over the same period. These needs include replacing aging treatment plants and underground infrastructure, upgrading treatment plants to meet new requirements, and expanding systems in some areas to accommodate growth.

As municipalities identify specific construction projects for which they plan to seek state funding assistance within five years, they submit requests to the MPCA and MDH to have their projects ranked on the state's project priority lists. The MPCA 2018 project priority list for clean water (wastewater and stormwater) infrastructure identifies 302 projects totaling \$1.5 billion for construction over the next five years. The MDH 2018 project priority list for drinking water infrastructure lists 368 projects totaling \$607 million over the same time frame.

When municipalities on the project priority lists schedule their projects for construction in the coming year, they request placement on the PFA's annual CWRF and DWRF Intended Use Plans (IUPs). For 2018 the PFA received a total of 90 project requests totaling \$361 million for the CWRF IUP, compared to the CWRF average annual lending capacity of \$94 million per year. A total of 150 project requests totaling \$269 million were received for the DWRF IUP, compared to the DWRF average annual lending capacity of \$40 million per year.

IUP requests are always much greater than the average annual lending capacity of the revolving funds, although many projects are not able to proceed without significant grants to offset a portion of the debt. The PFA uses its reserves and bonding authority to approve IUPs much larger than the average lending capacity to give as many projects as possible an opportunity to

### Minnesota Public Facilities Authority 2017 Annual Report

use PFA loans to proceed to construction. However lending at higher levels reduces the long-term sustainable lending capacity of the revolving funds.

The growing number of IUP requests demonstrate that more and more cities are trying to address their water infrastructure needs. But they need state help to take on these projects which are critical to protecting public health, maintaining quality service for their residents, and protecting and restoring Minnesota's valuable water resources. The 2017 legislative session saw a large increase in state support for PFA loan and grant programs, and with so many projects moving through the application process these funds are having an immediate impact. Continued state funding will allow more cities to take on these essential, and in many cases long-delayed, projects and encourage them to invest in the planning and design work needed to make them ready for construction.

### Minnesota Public Facilities Authority

(a Component Unit of the State of Minnesota)

Financial Report June 30, 2017

During the state fiscal year ended June 30, 2017, the Public Facilities Authority awarded sixty two grant and loan contracts for approximately \$175 million. Two of the projects funded are pictured on the cover page:

The City of Sherburn used the proceeds of a low-interest loan from the Drinking Water State Revolving Fund to construct a new water treatment plant with reverse osmosis, and to rehabilitate the existing water tower.

Oronoco Township received a combination grant and low-interest loan from the Small Community Wastewater Treatment Program and a grant from the Point Source Implementation Grants Program to construct the Cedar Beach Community Wastewater Collection and Treatment System.

### **Independent Auditor's Report**

Minnesota Public Facilities Authority St. Paul, Minnesota

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the business-type activities and each major fund of Minnesota Public Facilities Authority (the Authority), a component unit of the State of Minnesota, as of and for the years ended June 30, 2017 and 2016, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of the Authority as of June 30, 2017 and 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

#### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedule of selected pension information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

RSM US LLP

Minneapolis, Minnesota October 31, 2017

This section of the Minnesota Public Facilities Authority's (the Authority) annual financial report presents a discussion and analysis of the financial condition as of and financial activities for the fiscal years ended June 30, 2017 and 2016. Please read it in conjunction with the financial statements and notes following this section.

*Introduction and Discussion of the Authority's Operations:* 

The Authority was created in 1987 by the State of Minnesota under Minnesota Statutes, Chapter 446A. The Authority provides grants and low interest loans to Minnesota municipalities to finance infrastructure for clean water, drinking water, and transportation projects. Federal grants and state appropriations received by the Authority may be used directly or leveraged with proceeds of the Authority's revenue bonds.

The Authority has issued tax-exempt revenue bonds the proceeds of which are deposited into multiple bond funds. Except for certain cross-collateralization provisions between the Clean Water and Drinking Water Bond Funds, revenues and assets of each bond fund are separately pledged to the holders of that fund's bonds for debt service payments. Assets and revenues of the Authority outside of the bond funds are not pledged, and are used for grant and loan programs and general administration.

#### Financial Statement Presentation:

The basic financial statements following Management's Discussion and Analysis consist of those required for a special purpose governmental entity engaged in business-type activities:

- Statement of Net Position This is presented in the format of assets (financial and capital resources) plus deferred outflows of resources, less liabilities, less deferred inflows of resources equals net position. The portion of net position that is reported as restricted has constraints on its use due to bond resolutions and or enabling legislation.
- Statement of Revenues, Expenses, and Changes in Fund Net Position This statement presents the accrual basis operations and the resulting change in fund net position of the Authority for the fiscal year.
- Statement of Cash Flows This statement presents useful information regarding the sufficiency
  of cash flows to meet debt service requirements, because it includes cash flows such as principal
  received on loans and principal paid on bonds.

Statements for the fiscal year ended June 30, 2017 are followed by statements for the fiscal year ended June 30, 2016 to allow comparison of the Authority's financial position and results of operations for the current and prior fiscal years.

These statements are prepared on the accrual basis and present information on the Authority's overall financial position and results of operations. Assets and revenues of the separate funds contained within these statements are generally restricted as to use and the reader should not assume they might be used in any aggregate manner.

The Authority defines activities under each of its separate bond resolutions as major funds for financial reporting purposes, with all other accounts and activities outside of these bond resolutions reported in the Other Fund. A summary of the major funds reported by the Authority follows. A more detailed description of each is presented later in the section headed Analysis of Individual Funds' Balances and Transactions for Bond Funds.

- Clean Water Bond Fund (CWBF): In conjunction with the Minnesota Pollution Control Agency (MPCA), the Authority provides loans from the fund to municipalities for wastewater treatment projects certified by the MPCA.
- Drinking Water Bond Fund (DWBF): In conjunction with the Minnesota Department of Health (MDH), the Authority provides loans for public drinking water facilities.
- Transportation Bond Fund (TBF): Four separate closed resolutions have been created to make loans in cooperation with the Minnesota Department of Transportation: (1) TBF Series 1999A, (2) TBF Series 2001, (3) TBF Series 2006A, and (4) TBF Series 2008A. During the fiscal year ended June 30, 2011, two series of refunding revenue bonds were issued to refund the outstanding Series 1999A and Series 2001 bonds, TBF Series 2010-T1, and TBF Series 2010-T1, respectively. All outstanding 2006A bonds were redeemed on March 1, 2016.
- Other Fund: All of the Authority's nonrevenue bond activity and accounts are aggregated in the Other Fund.

Within each of the bond funds, the Authority uses bond proceeds, federal capitalization grants, and state matching funds to make loans, pay for the costs of issuing debt, and to fund debt service reserve accounts when used. Federal capitalization grants and state matching grants within these funds are recognized as capital contributions. Net loan repayments and investment earnings provide the necessary cash flow to pay the required debt service on the bonds.

The operations in the Other Fund consist of grant and loan programs funded through federal grants and state appropriations, recognized in these accounts primarily as operating revenue, and administrative costs paid by a portion of the loan repayments, fees, interest earnings, or by federal grant funds.

### Condensed Financial Information:

The following page presents condensed financial statement information as of and for the fiscal years ended June 30, 2017, 2016, and 2015.

Condensed Statements of Net Position	Fiscal yr 2017	Fiscal yr 2016	Fiscal yr 2015
Assets:			
Cash and investments	\$ 443,078,113	\$ 483,008,948	\$ 360,580,998
Loans receivable	1,853,626,766	1,870,414,442	1,830,838,381

Drinking Water SRF federal grants			4,726,354		8,065,238		11,185,851
State approp	riations and fees		34,059,486		38,996,776		24,313,514
Totals		\$	65,860,999	\$	82,736,169	\$	89,185,221
Bonds Payable, par:	Issued	\$	-	\$	354,330,000	\$	-
	Defeased			(	110,070,000)		
	Redeemed		(83,100,000)	(	163,415,000)		(77,620,000)
	Net change	\$	(83,100,000)	\$	80,845,000	\$	(77,620,000)
Loans Receivable:	Disbursed	\$	122,216,735	\$	165,475,576	\$	138,195,970
	Principal repaid	(	139,004,411)	(	125,899,514)	(	113,594,839)
	Net change	\$	(16,787,676)	\$	39,576,062	\$	24,601,131

During the fiscal years ended June 30, 2017, 2016, and 2015, net position changed by: \$27.6, \$30.4, and \$44.9 million, respectively. Volatility in this change is due largely to the timing of federal and state capital contributions: \$22.7, \$24.8, and \$49.3 million, respectively.

The weighted average interest rate on outstanding loan balances at June 30, 2017, 2016, and 2015 was 1.95%, 2.01%, and 2.11%, respectively.

The weighted average investment earnings rate (earnings ÷ average daily cash and investments balance) during fiscal years 2017, 2016, and 2015 was 1.08%, 0.73%, and 0.71%.

Loan and grant approvals for the last three fiscal years were \$175 million (62 contracts) in fiscal year 2017, \$182 million (73 contracts) in fiscal year 2016, and \$227 million (80 contracts) in fiscal year 2015.

Discussion of Long-term Debt Activity, Credit Ratings, and Debt Limitations:

The Authority's outstanding debt limit is \$2,000,000,000. The Authority bonds do not constitute a debt of the State of Minnesota or any agency or political subdivision thereof (other than the Authority). The principal amount of bonds outstanding at June 30, 2017 was \$891,185,000.

During fiscal years 2012 through 2015, the Authority issued no bonds. During fiscal year 2016, the Authority issued State Revolving Fund Revenue Bonds Series 2016A (Clean Water and Drinking Water) of \$247,425,000 and State Revolving Fund Revenue Refunding Bonds Series 2016B (Clean Water and Drinking Water) of \$106,905,000. During fiscal year 2017, the Authority issued no bonds.

The Clean Water and Drinking Water bonds are rated triple A by Standard and Poor's (AAA), Moody's (Aaa), and Fitch Ratings (AAA). The transportation bonds were rated: Series 2008A: Standard and Poor's (AAA) and Moody's (Aaa); Series 2010-T1: Moody's (Aaa); and Series 2010-T2: Standard and Poor's (AAA).

Analysis of Individual Funds' Balances and Transactions for Bond Funds:

This section will provide general information on each bond fund, followed by presentation and analysis of more detailed financial information.

Clean Water Bond Fund (CWBF): This pooled bond fund is a part of the Authority's Clean Water State Revolving Fund, operated under the federal Clean Water program, CFDA #66.458. Initiated in 1989, twenty six series of bonds have been issued for \$2.63 billion par, which includes \$1.02 billion for refunding prior issues. Federal capitalization grant awards and state match appropriations through June 30, 2017 were approximately \$874 million, net of non-pledged set-asides and principal forgiveness. The Authority has over the years transferred out approximately \$90 million from the CWBF for related but non-pledged programs known as non point-source programs. During fiscal years 2017, 2016, and 2015, the Authority made no transfers out for these programs. Prior to removing assets from the CWBF, the Authority must meet conditions defined in the fund's basic bond resolution. The CWBF has made 536 loan commitments to 288 borrowers for approximately \$2.94 billion. The largest borrower, at approximately \$579 million in outstanding loans as of June 30, 2017, is the Metropolitan Council.

Drinking Water Bond Fund (DWBF): This pooled bond fund is a part of the Authority's Drinking Water State Revolving Fund, operated under the federal Safe Drinking Water program, CFDA #66.468. Initiated in 1998, nine series of bonds have been issued for \$438.5 million, which includes \$62.9 million for refunding prior issues. Federal capitalization grant awards and state match appropriations through June 30, 2017 were approximately \$304.1 million, net of non-pledged set-asides and principal forgiveness. The fund has made 398 loan commitments to 258 borrowers for approximately \$820 million. The largest borrower, at approximately \$71.5 million in outstanding loans as of June 30, 2017, is the City of Minneapolis.

Transportation Bond Fund (TBF): This fund consists of three closed, stand-alone bond issuances with separate pledged assets and revenues for each:

- The series 1999A bonds of \$17.08 million par were issued in March 1999. The Authority transferred \$4.1 million in cash into the fund at issuance, from its non-pledged accounts. One loan for \$21.025 million was made to the Metropolitan Council. In November 2010, bonds outstanding were redeemed with proceeds of the Revenue Refunding Bonds Series 2010-T1.
- The series 2001 bonds of \$20.45 million par were issued in December 2001. The Authority transferred \$16.77 million in cash and loans into the fund. Nine loan commitments totaling \$34.78 million form the loan pool pledged to these bonds, and a \$1.9 million debt service reserve account was also created from the assets transferred in. In November 2010, bonds outstanding were redeemed with proceeds of the Revenue Refunding Bonds Series 2010-T2.
- The series 2008A bonds of \$7.7 million par were issued in January 2008. The Authority transferred \$2.25 million in cash into the fund at issuance, from its non-pledged accounts. One loan for \$10 million was made to the Metropolitan Council.

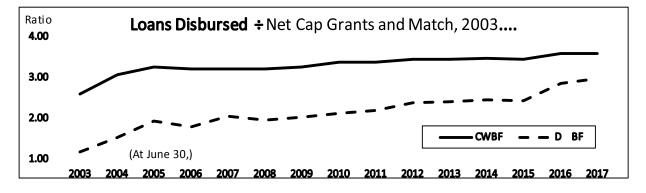

Criteria used in evaluating the financial results and conditions of the bond funds include:

- The efficient use of contributed capital to accomplish the goal of making below market rate loans to program participants (CWBF and DWBF).
- The ability to generate cash flows sufficient to make debt service payments (all bond funds).

Analysis of the efficient use of federal capitalization grants and state match:

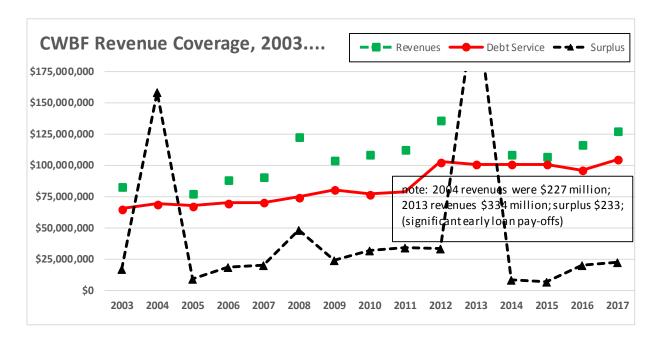

Comparing loans disbursement to the net amount of federal capitalization grants and state match recognized in the CWBF and DWBF gives a measure of the effective use of the capital contributions. Timing may affect the ratios at any point in time, but over time this ratio should grow as the programs grow in size and loan repayments become a larger portion of the available sources for new loans. The following chart displays the ratio at June 30th for the past fifteen years.

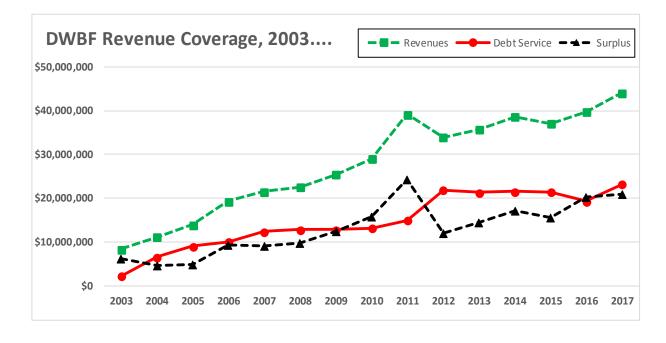

Clean Water and Drinking Water Bond Fund Programs Leveraging of Federal Capitalization Grants and State Match

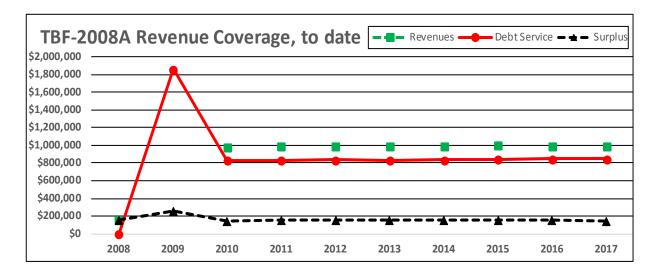

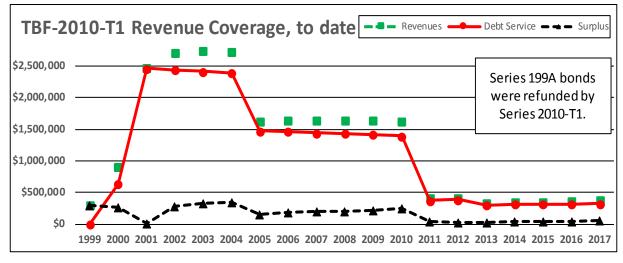

Analysis of historical cash flow sufficiency to make debt service payments:

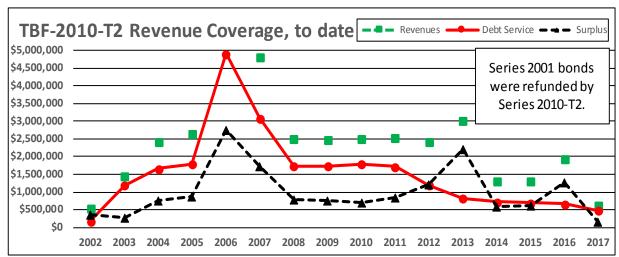

The following charts show each bond fund's cash flow history in meeting debt service payments. Annual total bond fund receipts, debt service, and net surplus are charted. Note that each chart uses a different scale, the amount of revenues and debt service varies considerably between the different funds.

*Financial ratios*: The following table presents financial ratios regarding financial position and ability to generate cash flows sufficient to pay debt service requirements.

	Clean Water	Drinking Water	Transportation Bond Fund						
	Bond Fund	Bond Fund	Series 2008A	Series 2010-T1	Series 2010-T2				
Current ratios:									
June 30, 2017	4.52	7.94	1.19	1.27	1.15				
June 30, 2016	4.76	9.13	1.21	1.23	1.58				
June 30, 2015	3.99	0.93	1.23	1.32	2.87				
Debt ratios:									
June 30, 2017	0.46	0.45	0.83	0.80	0.28				
June 30, 2016	0.50	0.35	0.83	0.80	0.34				
June 30, 2015	0.47	0.36	0.82	0.79	0.35				
Operating Income ratios:									
FY 2017	1.08	1.55	0.60	0.51	4.25				
FY 2016	1.00	1.71	0.61	-0.52	3.84				
FY 2015	0.95	1.28	0.63	0.55	4.04				
Debt Service Coverage:									
FY 2017	1.21	1.90	1.18	1.16	1.34				
FY 2016	1.21	2.05	1.18	1.15	2.94				
FY 2015	1.07	1.72	1.90	1.02	1.19				
current ratio:		current assets ÷ c	urrent liabilities						
debt ratio:		debt ÷ assets							
operating income r	ratio:	operating revenues	÷ operating expe	enses					
debt service covera	age ratio:	(loan repayments + investment interest) ÷ (bond debt service) note: debt service is net of early calls.							

Even though operating income ratios for several of the Bond Funds are or have been less than 1, the cash flows are sufficient to pay debt service because the outstanding loans receivable balance is greater than the outstanding bonds. This fact is reflected in the debt service coverage ratios, which includes principal repayments as well as interest. Principal repaid on the loans exceeds the bond principal requirements and more than overcome the lower interest earnings on the loans. These financings were structured such that projected repayments on the loans made are sufficient to pay debt service on the lesser amount of bonds issued.

Analysis of Individual Funds' Balances and Transactions for Non-Bond Funds:

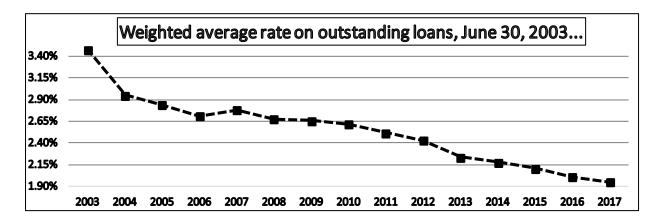

The Other Fund includes grant and loan programs not funded with Authority bond proceeds, and the administrative costs for the Authority including costs of the Department of Employment and Economic Development, the MPCA, and the MDH. These administrative costs are funded from application fees and the fee portion of loan repayments.

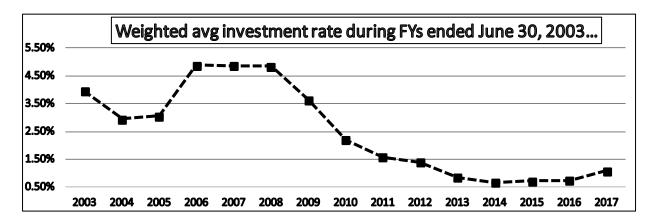

State Appropriations – Legislative appropriations to the Authority are recognized as operating revenue as related expenditure obligations are incurred. See Note 7 for a list of appropriations made to the Authority during the three most recent legislative sessions.

Discussion of Facts and Conditions Expected to Have a Significant Impact on Financial Position and or Results of Operations:

Between fiscal years 2004 and 2013, the Authority received early pay-offs on loans for several hundred million dollars. These repayments were used to make new loans, but projected net receipts for the bond funds (in particular the CWBF) were reduced from fiscal year 2005 through fiscal year 2022 because the new loans had lower rates than the paid-off loans.

The average rate on outstanding loans, and the average rate earned on investments, has dropped substantially. The lower loan rates are advantageous to the borrowers that get them, but everything else being equal, they reduce future lending capacity. The following two charts show the changes by fiscal year since 2004 in the weighted average interest rates on outstanding loans at the end of each fiscal year, and on the investment earnings during each fiscal year.

The Authority adopts an annual Intended Use Plan (IUP) for the Clean Water program and for the Drinking Water program. The IUPs identify which projects may be considered for funding during the fiscal year, based on priority lists established by the MPCA for Clean Water projects and by the MDH for Drinking Water projects. The Authority reviews the long term funding capacity of the Clean Water Bond Fund and the Drinking Water Bond Fund when determining the level of funding for the annual IUPs. Needs for wastewater system improvements continue to be substantial. Meeting current loan demand while preserving long term lending capacity for high priority projects throughout the State will be a continuing challenge.

On September 1 2016, the Authority advanced \$77,150,000 from the CWBF to the DWBF to call and redeem a like par amount of 2004A and 2005A DWBF bonds, without having to issue refunding bonds. The bond calls result in a reduction to future DWBF bond interest payments of nearly \$15 million. The Authority intends for the DWBF to repay the advance with interest, using a portion of each bond-year-end surplus. The scheduled principal payback matches the original maturity schedule of the called bonds. The interest rate charged will equal, for each month, the monthly rate reported by Minnesota Management and Budget on the state's collective cash pool know as Invested Treasurer's Cash. The Authority views the net effect of this transaction as a cost effective reduction to DWBF debt service while making the CWBF whole.

### Requests for Information

This financial report is designed to provide a general overview of the Minnesota Public Facilities Authority's finances. Questions concerning any of the information provided in this report should be addressed to:

#### 1. Summary of Significant Accounting Policies

The financial statements of the Authority have been prepared in conformity with accounting principles generally accepted in the United States as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standards setting body for establishing governmental accounting and financial reporting principles. Descriptions of the significant accounting policies follow:

Reporting Entity — The Authority was created in 1987 by the State of Minnesota under Minnesota Statutes, Chapter 446A (the Act). Under the Act, the members of the Authority are the Commissioner of Employment and Economic Development, the Commissioner of Management and Budget, the Commissioner of the MPCA, the Commissioner of Agriculture, the Commissioner of MDH, and the Commissioner of Transportation. The Commissioner of Employment and Economic Development serves as chair and chief executive officer of the Authority. These members serve as a result of their respective positions as commissioners, and their terms as members of the Authority coincide with their terms as commissioners. Pursuant to state law, commissioners may delegate and have delegated their duties as a member of the Authority in the event that the commissioner is unable to attend a meeting of the Authority.

The Department of Employment and Economic Development (DEED) provides administrative support services to the Authority. The MPCA and the MDH also provide staff to administer, in cooperation with the Authority, certain programs of the Authority.

GASB Codification Section 2100 states that a primary government that appoints a voting majority of the organization's governing body, and either (1) is able to impose its will on the organization or (2) has the potential to receive specific financial burdens imposed on it by the organization, is financially accountable to that organization. Based on this criterion, the Authority is considered a discretely presented component unit of the State of Minnesota and is included in its basic financial statements.

The Authority is authorized to issue bonds. These bonds do not constitute a debt of the State of Minnesota or any agency or political subdivision thereof (other than the Authority).

Basis of Accounting — The Authority is a special-purpose government engaged in business-type activities. The Authority has determined that all of its funds shall be classified as enterprise funds and are therefore accounted for on the proprietary fund-type basis. All assets, deferred outflows of resources, and liabilities (whether current or noncurrent) associated with their activity are included on their statements of net position. Proprietary fund measurement is focused upon determination of net income, financial position, and cash flows. The Authority's proprietary funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided that periodic determination of revenues earned, expenses

incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. Proprietary funds are accounted for using the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when incurred.

Fund Accounting — As a governmental entity the Authority organizes its accounts on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund net position, revenues, and expenses, as appropriate. Government resources are allocated and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. All of the Authority's funds are classified as proprietary funds. The Authority reports the following major proprietary funds:

- Clean Water Bond Fund (CWBF) The Authority receives federal capitalization grants under Title VI of the Federal Clean Water Act, and state matching grants. These funds are leveraged with proceeds from the Authority's pooled Clean Water revenue bonds to provide below-market-rate loans to municipalities and eligible political subdivisions to facilitate the construction of wastewater treatment facilities. Before the Authority can approve any particular loan, the MCPA must certify the applicant's project based on technical and environmental reviews.
- Drinking Water Bond Fund (DWBF) The Authority receives federal capitalization grants under Section 1452 of the Safe Drinking Water Act and state matching grants. These funds are leveraged with proceeds from the Authority's pooled Drinking Water revenue bonds to provide below-market-rate loans to municipalities to finance costs of drinking water system infrastructure. Before the Authority can approve any particular loan, the MDH must certify the applicants' projects based on technical and environmental reviews.
- Transportation Bond Fund (TBF) This program was initiated with a federal grant from the U.S. Department of Transportation to the Minnesota Department of Transportation (MnDOT) and state matching grants. The Authority administers the TBF, which provides loans to municipalities and eligible political subdivisions for construction of highways, bridges, and streets, and for purchasing transit capital. MnDOT must certify applicants' projects based on MnDOT's design standards. Four closed, stand-alone series of revenue bonds were issued.
- Other Fund In addition to the pledged bond funds, the Authority manages various legislative appropriations for similar purposes. One of the programs included in the Other Fund is the Wastewater Infrastructure Funding Program (WIF). The Authority receives appropriations from the Minnesota Legislature to fund the program, and in conjunction with any particular loan from the CWBF or financing from the U.S. Department of Agriculture's Rural Development Office, WIF Supplemental Assistance grants are given to eligible municipalities with high-cost wastewater projects. The Other Fund also includes the accounts and activities related to management of the Clean Water Bond Fund, Drinking Water Bond Fund, and Transportation Bond Fund.

Federal Grants and State Appropriations - The Authority receives federal capitalization grants from the Environmental Protection Agency and, through MnDOT, the Authority has received federal highway money. This money is used primarily for funding of loans and has also been used as security on bonds, and a portion may be expended for administrative and other set-aside costs. The Authority also receives state appropriations as match to the federal grants and for other Authority loan and grant programs. These federal and state monies are recognized in the financial statements when the associated expenditure obligations have met the eligibility requirement. When used to capitalize the revolving loan funds they are recorded as capital contributions; when used for administrative costs or grants they are recorded as operating revenue.

Cash Equivalents - The Authority considers all investments with an original maturity when purchased of three months or less to be cash equivalents.

Loans Receivable - Loans receivable are carried at their unpaid principal balances, net of any allowances for loan losses. The allowances for loan losses are established based on management's evaluation of the loan portfolio. Generally, the Authority does not provide an allowance for loan losses as the loans are secured by the borrowers' general taxing and levy authority and revenue pledges.

Investments - The Authority reports investments at fair value in the statement of net position with changes in the fair value of investments reported in the statement of revenues, expenses, and changes in fund net position. Fair value of investments was determined based on quoted market prices as of the reporting date. Guaranteed investment contracts of the Authority are contracts purchased from life insurance companies who guarantee the principal and return, and allow money to be withdrawn if needed. The Authority's guaranteed investment contracts are nonparticipating and, as such, are reported at cost and annually tested for impairment. The Authority believes it has the ability and intent to hold all investments to maturity to recover the full carrying value of its investment portfolio and does not expect to realize any gain or loss from the market value adjustments as shown in the various funds.

Bond Discounts, Premiums, and Issuance Costs - Bond discounts and premiums are amortized using the effective interest method over the term of the bond series. Bond issuance costs are expensed in the period incurred.

*Income Taxes* - The Authority is a discretely presented component unit of the State of Minnesota and is exempt from federal and state income taxes.

Restrictions on Net Position – The use of assets held within each separate bond fund is restricted by the terms and conditions of that fund's bond resolutions. All assets of the Authority, including those not restricted by bond resolutions, are limited in their use by state and federal laws under which the funds were appropriated and / or grant conditions imposed by the federal funding agency. The net position in the Authority's administrative accounts is reported as unrestricted because it is used for general operating activities.

Defining Operating Revenues and Expenses and Operating Cash Flows - The Authority issues revenue bonds to leverage the capital contributions it receives from federal capitalization grants and state matching grants. These funds are then used to make below-market-rate loans to municipalities and to pay for certain costs of issuance. Investment interest and loan repayments generate the cash flow required to make bond debt service payments. Interest from loans and investments are included as part of operating revenues and interest expense on bonds is included in operating expenses.

*Use of Estimates* - The presentation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### 2. Deposits and Investments

Deposits – In accordance with state statutes, the Authority's cash deposits are held in the state treasury and managed by the State Board of Investment (SBI) in a state pool. Minnesota Department of Management and Budget (MMB) is responsible for ensuring balances are insured or collateralized in accordance with statutes. Further information regarding the state pool can be found in MMB's Comprehensive Annual Financial Reports for the state of Minnesota, and in SBI's financial reports. At June 30, 2017 and 2016, \$412,438,077 and \$445,980,592, respectively, of cash deposits were interest-bearing and \$12,313,629 and \$4,014,107, respectively, were non-interest-bearing.

*Investments* - The Authority's investment policy requires it to follow Minnesota state statutes and bond resolutions. Investments are composed primarily of notes of the U.S. Government and its agencies, guaranteed investment contracts, and municipal securities. Information regarding the Authority's investments is provided below to give an indication of the risk level assumed at year-end.

*Interest Rate Risk* - The Authority does not have a formal investment policy that limits maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk – For an investment, the custodial credit risk is that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, the Authority will not be able to recover the value of its investments that are in the possession of another party. The Authority requires for all securities purchased that the securities are at all times insured, registered in the Authority's name or in the possession of the Authority.

*Credit Risk* - Excluding U.S. Government-backed securities, the Authority's investments at June 30, 2017 and 2016 carried the following ratings by the three nationally recognized statistical rating organizations shown:

	Standard	Fitch	Moody's
Investment type	& Poors	Ratings	Investors Service
State & Municipal Securities	AAA	AAA	Aaa
Guaranteed Investment Contract	not rated <sup>1</sup>	not rated <sup>1</sup>	not rated <sup>1</sup>

<sup>&</sup>lt;sup>1</sup> The Guaranteed Investment Contract is not rated but is backed by U.S. Government securities as collateral.

Concentration of Credit Risk: For the investments held by the Authority at June 30, 2017 and 2016, state law and Authority investment policy places no limits on the amount that may be invested in any one issuer. Excluding U.S. Government-backed securities, more than 5% of the Authority's investments are in the following issuers:

	June 30, 20	)17	June 30, 20	)16
Investment Issuer	Fair Value	%	Fair Value	%

#### 3. Loans Receivable

The Authority lends funds to political subdivisions within the state of Minnesota, through bond purchase and project loan agreements. All of the loans pledged to bond-holders are secured by the borrowers' general taxing and levy authority and revenue pledges, except DWBF loans to the City of Saint Paul which are secured by revenue pledges only.

Loans receivable balances by Fund:

At June 30, 2017 and 2016 the Authority had outstanding loans receivable consisting of:

		Final	Outstanding Pri	ncipal, June 30
Fund	Loan rates from - to	Maturity	2017	2016
Clean Water Bond Fund	0.000% - 4.620%	08/20/46	\$ 1,307,806,356	\$ 1,323,393,952
Drinking Water Bond Fund	1.000% - 4.160%	08/20/46	486,236,454	483,637,087
Transportation Bond Fund	1.794% - 3.590%	08/20/30	6,202,000	10,699,334
Other Fund	0.000% - 3.645%	08/20/42	53,381,955	52,684,069
			\$ 1,853,626,766	\$ 1,870,414,442

The supplemental Schedule of Individual Loans Receivable by Fund lists outstanding loans by fund.

Borrower concentration in the open-pool bond funds (CWBF and DWBF):

The Clean Water Bond Fund and the Drinking Water Bond Fund both have large loan portfolios with many borrowers. These loans are a significant portion of the assets securing outstanding bonds, and provide a significant portion of the revenues pledged to the payment of debt service on the bonds.

The following tables show the borrowers whose loan balances make up more than 4% of the outstanding loan balances of, respectively: the Clean Water Bond Fund, the Drinking Water Bond Fund, and the combined loan portfolios of both funds.

	_	June 30, 20	)17	_	June 30, 20	)16

#### Projected loan repayments:

The tables on the following page show projected repayments on outstanding loans. The projections include only fully executed loans existing at June 30, 2017. The Authority anticipates that subsequent to June 30, 2017, a significant amount of new loans will be made from existing resources; these loans will add to future repayment streams but are not included in the following projections.

Fiscal Year(s)		Clean Wate	r B	ond Fund	Drinking Wat	ter I	Bond Fund	TBF Serie	es 20	08A

Bond Proceeds – The net bond proceeds have been used to fund loans to Minnesota municipalities for projects relating to wastewater treatment facilities, drinking water systems, and transportation. See Advanced and Current Refunding of Debt below for information on use of proceeds for refundings.

*Collateral* - The bonds are secured by bond program assets and revenues as defined in the applicable bond resolutions.

Bonding Authority - The Authority bonds do not constitute a debt of the State of Minnesota or any agency or political subdivision thereof (other than the Authority). The Authority's outstanding debt limit is \$2,000,000,000. The principal amount of bonds outstanding at June 30, 2017 was \$891,185,000.

Advanced and Current Refunding of Debt - The Authority has issued bonds the partial proceeds of which were used to defease or call certain prior debt issuances. In each case of defeasance, the Authority established an irrevocable escrow fund pursuant to an escrow agreement between the Authority and an escrow agent. The escrow funds are pledged solely to the repayment of principal, premium, and interest on the refunded bonds. Under the agreements, the refunded bonds will be called for redemption at each series' applicable optional redemption dates. As these bonds have, in effect, been redeemed under the defeasance, they are no longer outstanding under the Authority's applicable bond resolutions and therefore, they are not entitled to the pledge of the applicable resolution. Accordingly, these bonds and the related escrow funds are not reflected in these basic financial statements of the Authority.

Amounts deferred on refunding is reflected in the statement of net position as a deferred outflow of resources and is charged to operations using the effective interest method. Refundings during fiscal year 2016 reduced debt service by approximately \$12.1 million and obtained an economic gain (the difference between the present value of the old and new debt service payments) of approximately \$11.0 million.

The following table lists all bonds defeased and not yet redeemed as of June 30, 2017:

CUSIP #	Series	Refunded	Maturity	Call Date	Unredeemed
604115BM6	2010C	03/03/16	03/01/21	03/01/20	\$ 20,950,000

Net outstanding bonds					\$ 1	,073,878,488

### 5. Arbitrage Rebate Payments

The bonds issued by the Authority are subject to a variety of Internal Revenue Service regulations that limit the amount of investment income that may be earned on certain funds to an amount not greater than the amount earned had the funds been invested at the yield on the related bonds. Excess earnings must be rebated annually, or every five years, depending on the date and type of bond issue. During fiscal years 2017 and 2016 the Authority paid \$-0- and \$58,203 respectively. At June 30, 2017 and 2016, the arbitrage rebate liability totaled \$15,270 and \$977,595, respectively.

### 6. Restricted Net Position

Restricted Net Position at the end of the current and prior fiscal year consisted of the following:

At June 30, 2017, Restricted Net Position consisted of the following:

Restricted for the purpose of	Clean Water Bond Fund	Drinking Water Bond Fund	Transportation Bond Fund	Other Fund	Total Business- type activity
Wastewater and Stormwater Infrastructure	\$ 889,908,543			\$ 20,598,515	\$ 910,507,058
Drinking Water Infrastructure		\$ 335,893,438			335,893,438
Transportation Infrastructure			\$ 3,944,740	65,460,745	69,405,484
	\$ 889,908,543	\$ 335,893,438	\$ 3,944,740	\$ 86,059,260	\$1,315,805,980

### At June 30, 2016, Restricted Net Position consisted of the following:

Restricted for the purpose of	Clean Water Bond Fund	Drinking Water Bond Fund	Transportation Bond Fund	Other Fund	Total Business- type activity
Wastewater and Stormwater Infrastructure	\$ 865,432,491			\$ 19,452,579	\$ 884,885,070
Drinking Water Infrastructure		\$ 331,572,094			331,572,094
Transportation Infrastructure			\$ 4,199,083	64,255,889	68,454,972
	\$ 865,432,491	\$ 331,572,094	\$ 4,199,083	\$ 83,708,468	\$1,284,912,136

#### 7. Related-Party Transactions

Administrative Services – The Authority, DEED, MPCA, and MDH provide administrative staff and services to Authority programs. During fiscal 2017 and 2016, the Authority paid approximately \$3.5 million, respectively, for these services.

Transfers - The Authority holds a loan receivable in the Other Fund, the net repayments from which have been transferred each year to the CWBF. In fiscal years 2017 and 2016, the transfers were approximately \$57 thousand and \$58 thousand, respectively. Each year, excess pledged revenues over debt service in the TBF Funds are transferred to the Other Fund. In fiscal years 2017 and 2017, these transfers were approximately \$358 thousand and \$2.5 million 838 thousand, respectively.

State Appropriations - Legislative appropriations to the Authority are recognized as operating revenue or capital contributions as related expenditure obligations are incurred. During the three most recent legislative sessions the following appropriations were made to the Authority:

		20	17 1st special	2	017 regular	2016 regular
Program Appropriations:						
2017 regular session chapter 91 "Clean Water Legac	cy Bill":					
Point Source Implementation Grants	446A.073			\$	15,750,000

Total appropriations		\$	120,388,000	\$	17,800,000	\$ -

#### 8. Commitments

At June 30, 2017 the Authority had committed approximately \$87 million for the origination or disbursement of future loans, and \$34 million for grants.

#### 9. Interfund Advance

During fiscal year 2016, the Authority advanced \$77,150,000 from the CWBF to the DWBF to call and redeem a like par amount of certain outstanding 2004A and 2005A DW bonds, without having to issue refunding bonds. The bond calls reduced future DWBF bond interest payments by nearly \$15 million. The Authority intends for the DWBF to repay the advance with interest, using a portion of each bond-year-end surplus. The following schedule shows the actual to-date and the planned principal payback, which matches the original maturity schedule of the called bonds:

Fiscal	Principal
Year	Amount
2017	\$ 2,200,000
2018	11,195,000
2019	12,250,000
2020	11,730,000
2021	9,775,000
2022	9,670,000
2023	9,125,000
2024	8,720,000
2025	2,485,000
	\$ 77,150,000

#### 10. New Accounting Pronouncements

#### Adoption of GASB Statement 72:

In February 2015, the GASB issued Statement No. 72 Fair Value Measurement and Application. This statement addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

This Statement requires a government to use valuation techniques that are appropriate under the circumstances and for which sufficient data are available to measure fair value. The techniques should

be consistent with one or more of the following approaches: the market approach, the cost approach, or the income approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets, liabilities, or a group of assets and liabilities. The cost approach reflects the amount that would be required to replace the present service capacity of an asset. The income approach converts future amounts (such as cash flows or income and expenses) to a single current (discounted) amount. Valuation techniques should be applied consistently, though a change may be appropriate in certain circumstances. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

This Statement establishes a hierarchy of inputs to valuation techniques used to measure fair value. That hierarchy has three levels. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are inputs—other than quoted prices—included within Level 1 that are observable for the asset or liability, either directly or indirectly. Finally, Level 3 inputs are unobservable inputs, such as management's assumption of the default rate among underlying mortgages of a mortgage backed security.

The requirements of this Statement will enhance comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This Statement also will enhance fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurements on a government's financial position. The provisions of this statement were implemented during the fiscal year ended June 30, 2016.

#### Adoption of GASB Statement 82:

In March 2016, the GASB issued Statement No. 82, Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73. The objective of this Statement is to address certain issues that have been raised with respect to GASB Statement No. 67, Financial Reporting for Pension Plans—an amendment to GASB Statement No. 25, GASB Statement No. 68, Accounting and Financial Reporting for Pensions—an amendment to GASB Statement No. 27, and GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information; (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes; and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

This Statement clarifies that payments made by an employer to satisfy contribution requirements identified by the pension plan terms as plan member contribution requirements should be classified as plan member contributions for purposes of Statement 67 and as employee contributions for purposes of Statement 68. It also requires that an employer's expense and expenditures for those amounts be recognized in the period for which the contribution is assessed and classified in the same manner as the

employer classifies similar compensation other than pensions (for example, as salaries and wages or as fringe benefits).

The requirements of this Statement are effective for reporting periods beginning after June 15, 2016, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017. Early implementation is encouraged.

### 11. Defined Benefit Pension Plan

The Authority contributes to the Minnesota State Retirement System (MSRS), a multiple-employer public employee retirement system, which provides pension benefits for all permanent employees.

The State Employees Retirement Fund ("SERF") is administered by the MSRS, and is established and administered in accordance with Minnesota Statutes, Chapters 352 and 356. SERF includes the General Employees Retirement Plan ("General Plan"), a multiple-employer, cost-sharing defined benefit plan, and three single-employer defined benefit plans: the Military Affairs Plan, the Transportation Pilots Plan, and the Fire Marshals Plan. Only certain employees of the Department of Military Affairs, the Department of Transportation, and the State Fire Marshal's Division are eligible to be members of those plans, but all state of Minnesota employees who are not members of another plan are covered by the General Plan.

MSRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at www.msrs.state.mn.us/financial-information; by writing to MSRS at 60 Empire Drive, #300, St. Paul, Minnesota, 55103; or by calling (651) 296-2761 or 1-800-657-5757.

#### Benefits Provided

MSRS provides retirement, disability, and death benefits through the SERF. Benefit provisions are established by state statute and can only be modified by the state legislature. Benefits are based on a member's age, years of credit, and the highest average salary for any sixty successive months of allowable service at termination of service. Benefit increases are provided to benefit recipients each January, and are related to the funded ratio of the plan. Annuitants receive benefit increases of 2.0 percent each year. When the fund reaches a 90 percent funded status for two consecutive years, annuitants will receive a 2.5 percent increase. If, after reverting to 2.5% increase, the funding ratio declines to less than 80% for the most recent actuarial valuation year or 85% for two consecutive years, the benefit increase will decrease to 2%.

Retirement benefits can be computed using one of two methods: the Step formula and the Level formula. Members hired before July 1, 1989, may use the Step or Level formula, whichever is greater. Members hired on or after July 1, 1989, must use the Level formula. Each formula converts years and months of service to a certain percentage. Under the Step formula, members receive 1.2 percent of the high-five average salary for each of the first 10 years of covered service, plus 1.7 percent for each year thereafter. It also includes full benefits under the Rule of 90 (age plus years of allowable service equals 90). In contrast, the Level formula does not include the Rule of 90. Under the Level formula, members receive 1.7 percent of the high-five average salary for all years of covered service, and full benefits are available at normal retirement age.

#### Contributions

Minnesota Statutes Chapter 352 sets the rates for employer and employee contributions. Eligible General Plan members and participating employers are required to contribute 5.5 percent of their annual covered salary in fiscal year 2017. The Authority's contribution to the General Plan for the fiscal year ending June 30, 2017 was \$103,000. These contributions were equal to the contractually required contributions for each year as set by state statute.

#### Actuarial Assumptions

The Authority's net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation
 Active Member Payroll Growth
 3.25 percent per year

• Investment Rate of Return 7.50 percent

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP-2014 generational mortality tables for males or females, as appropriate, with adjustments to match fund experience. Benefit increases for retirees are assumed to be 2.0 percent every January 1st.

Actuarial assumptions used in the June 30, 2016, valuation were based on the results of actuarial experience studies for the period July 1, 2008, through June 30, 2015, with an update of economic assumptions in 2016.

The long-term expected rate of return on pension plan investments is 7.5 percent. The rate assumption was selected as the result of a review of inflation and investment return assumptions dated September 11, 2014 and a recent liability study. The review combined the asset class target allocations and long-term rate of return expectations from the State Board of Investment (SBI).

The SBI, which manages the investments of MSRS, prepares an analysis of the reasonableness of the long-term expected rate of return on a regular basis using a building-block method. Best-estimates of expected future real rates of return are developed for each major asset class. These asset class estimates and target allocations are combined to produce a geometric, expected long-term rate of return as summarized in the following table:

		SBI's Long-Term Expected Real Rate of Return
Asset Class	Target Allocation	(Geometric Mean)
Domestic Stocks	45%	5.50%
International Stocks	15%	6.00%
Bonds	18%	1.45%
Alternative Assets	20%	6.40%
Cash	2%	0.50%

### Changes in Actuarial Assumptions

The changes in funding actuarial assumptions listed below have occurred since July 1, 2015. Assumption changes in the State Employee Retirement Fund are the result of an experience study dated June 30, 2015.

- Assumed salary increase rates average 0.2% greater than the previous rates
- Assumed rates of retirement were resulting in fewer unreduced (Normal) retirements and fewer Rule of 90 retirements
- Assumed rates of termination were changed and are generally greater than the previous rates for years 3 – 9 and less than the previous rates after 15 years
- Assumed rates of disability are 75% of previous rates for females and rates for male members were lowered by utilizing the same disability rates as for females
- The base mortality table for healthy annuitants and employees was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2014). The mortality improvement scale was changed from Scale AA to Scale MP-2015
- The percent married assumption was changed from 85% of active male members and 70% of female members to 80% of active members and 65% of active female members
- The assumed number of married male new retirees electing the 75% Joint & Survivor option changed from 10% to 15%. The assumed number of married female new retirees electing the 75% and 100% Joint & Survivor options changed from 0% to 10% and from 25% to 30%, respectively. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly
- The assumed post-retirement benefit increase rate was changed from 2.00% per year through 2043 and 2.50% per year thereafter to 2.00% per year for all future years

- The long-term expected rate of return on pension plan investments has been reduced from 7.90% to 7.50% as of July 1, 2016
- The single discount rate changed from 7.90% as of July 1, 2015 to 4.17% as of July 1, 2016
- The inflation assumption has been reduced from 2.75% to 2.50%, and the payroll growth assumption was reduced from 3.50% to 3.25%

#### Single Discount Rate

A Single Discount Rate of 4.17% was used to measure the total pension liability. This Single Discount Rate was based on an expected rate of return on pension plan investments of 7.50% and a municipal bond rate of 2.85%. The projection of cash flows used to determine this Single Discount Rate assumed that employees and employer contributions will be made at the current statutory contribution rates. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year ending June 30, 2042. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year ending June 30, 2042, and the municipal bond rate was applied to all benefit payments after that point of asset depletion.

#### *Net Pension Liability*

At June 30, 2017, the Authority reported a liability of \$8,124,000 for its proportionate share of MSRS' net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on the Authority's contributions received by MSRS during the measurement period July 1, 2015, through June 30, 2016, relative to the total employer contributions received from all of MSRS's participating employers. At June 30, 2016, the Authority's proportionate share of the entire plan was 0.06552 percent.

#### Pension Liability Sensitivity

The following presents the Authority's proportionate share of the net pension liability, calculated using the discount rate disclosed above, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease in		1% Increase in
	Discount Rate	Discount Rate	Discount Rate
	3.17%	4.17%	5.17%
Authority proportionate share			
of the net pension liability	\$10,711,000	\$8,124,000	\$6,044,000

#### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the MSRS Comprehensive Annual Financial Report, available on the MSRS website:

(www.msrs.state.mn.us/financial-information).

Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2017, the Authority recognized pension expense of \$3,029,000. At June 30, 2017, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred	Deferred
	Outflows	Inflows
	of Resources	of Resources
Differences between expected and actual experience	\$ 11,000	\$206,000
Changes of assumptions	5,195,000	388,000
Net difference between projected and actual earnings on investments	358,000	-
Changes in proportion and differences between actual contributions		
and proportionate share of contributions	22,000	-
Contributions paid to MSRS subsequent to the measurement date	103,000	-
	\$5,689,000	\$594,000

Amounts reported as deferred outflows of resources related to pensions resulting from Authority contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ending	Pension Expense
June 30	amount
2018	\$1,143,000
2019	1,143,000
2020	1,339,000
2021	1.367.000

## Schedule of Employer's Share of Net Pension Liability State Employees Retirement Fund Last 10 Fiscal Years\*

	2016
Employer Unit's Proportion of the Net Pension Liability	0.08781%
Employer Unit's Proportionate Share of the Net Pension Liability	\$8,124,000
Employer Unit's Covered-Employee Payroll	\$1,982,316
Employer Unit's proportionate share of the net pension liability as a percentage of its covered-employee payroll	409.824%
Plan fiduciary net position as a percentage of the total pension liability	47.510%

The measurement date is June 30 of each fiscal year.

\* This schedule is intended to show information for 10 years.

Additional years will be displayed as they become available.

## Schedule of Employer's Contributions State Employees Retirement Fund Last 10 Fiscal Years\*

	2016
Contractually Required Contribution	103
Contributions in relation to the contractually required contribution	103
Contribution deficiency (excess)	
Employer Unit's covered-employee payroll	\$1,982,316
Contributions as a percentage of covered-employee payroll	0.005%

\* This schedule is intended to show information for 10 years.

Additional years will be displayed as they become available.

#### Independent Auditor's Report on the Supplementary Information

Minnesota Public Facilities Authority St. Paul, Minnesota

We have audited the financial statements of Minnesota Public Facilities Authority as of and for the years ended June 30, 2017 and 2016, and have issued our report thereon, which contains unmodified opinions on those financial statements. Our audits were conducted for the purpose of forming opinions on the financial statements as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

RSM US LLP
