

Medical Care Surcharge Fund Quarterly Report

March 2018

Prepared by the
Minnesota Department of Human Services
Health Care Administration

I. INTRODUCTION

This report is prepared pursuant to Minnesota Statutes 1992, 256.9657, subdivision 8, reporting on the total billings and collections for the Medical Care Surcharge (MCS) and Intergovernmental Transfers (IGT's).

This report contains a brief summary of collection practice efforts and a data summary of the billings and collections of the surcharges and intergovernmental transfers. A separate Appendix is available by request that includes a summary of the surcharge history, procedure and a detailed explanation of the individual surcharges and intergovernmental transfers.

II. COLLECTION EFFORTS

1. Surcharges

The 1992 MCS currently has a 99 percent collection rate.

Of the outstanding overdue accounts, one provider is on a payment plan. Staff are also working with other providers that have fallen behind in making payments and need to become current.

2. Intergovernmental Transfer

The collection rate for all IGT's is 100 percent.

A. IGT 2: billing was discontinued July 1, 2017. These payments were due by noon on the 15th of every month. The billing and collection of the IGT 2 was done by the MCS system, which generated an invoice and account record for each month of the transfer.

University of Minnesota was discontinued August 1, 2005.

Hennepin County Medical Center was discontinued July 1, 2017.

B. IGT 3: billing was discontinued in 2008. It was billed to fifteen counties as identified by statute, with payment being due by noon on May 31. The billing and collection of this IGT 3 was done by the MCS system which generated an invoice and account record for each county.
