

Lessard-Sams Outdoor Heritage Council Laws of Minnesota 2013 Final Report

Date: November 13, 2018

Program or Project Title: The Camp Ripley Partnership: Protecting the Mission and Mighty Mississippi River

Funds Recommended: \$1,450,000

Manager's Name: Helen McLennan

Organization: Morrison SWCD

Address: 16776 Heron Road

City: Little Falls, MN 56345

Office Number: (320)-616-2479

Email: Helen.McLennan@mn.nacdnet.net

Website: www.morrisonswcd.org

Legislative Citation: ML 2013, Ch. 137, Art. 1, Sec. 2, Subd. 3(b)

Appropriation Language: \$1,150,000 in the first year is to the Board of Water and Soil Resources and \$300,000 in the first year is to the Department of Natural Resources to acquire land in fee to be added to the wildlife management area system under Minnesota Statutes, section 86A.05, subdivision 8, and to acquire permanent conservation easements on lands adjacent to the Mississippi and Crow Wing Rivers and within the boundaries of the Minnesota National Guard Army Compatible Use Buffer. Of the amount appropriated to the Board of Water and Soil Resources, \$49,900 is for a grant to the Morrison County Soil and Water Conservation District and up to \$33,600 is for establishing a monitoring and enforcement fund, as approved in the accomplishment plan and subject to Minnesota Statutes, section 97A.056, subdivision 17. A list of proposed land acquisitions and permanent conservation easements must be provided as part of the required accomplishment plan.

County Locations: Crow Wing, and Morrison.

Eco regions in which work was completed:

- Northern Forest
- Forest / Prairie Transition

Activity types:

- Protect in Easement
- Protect in Fee

Priority resources addressed by activity:

- Wetlands
- Forest
- Prairie

Summary of Accomplishments:

Fourteen permanent RIM Easements on 766 acres of high quality, riparian and forested habitat have been recorded and will provide lasting wildlife habitat. Attempts were made to acquire three tracts in fee title that would have relied on this funding. The owner of one tract rejected an offer of the certified appraised value. Acquisition attempts on the other two tracts were discontinued when it became apparent that the planned use of the land as DNR Wildlife Management Area would be incompatible with local government plans for future municipal growth. Dollars budget for fee title acquisition will be returned to the Outdoor Heritage Fund. Over the life of the ACUB program the Department of Defense has contributed over \$30M towards easement acquisition. For this particular phase over \$4M in federal funding was leveraged making a fed:state ratio of 2.7:1.

Process & Methods:

The purpose of this initiative was to protect fish, migratory birds, big game, and oak habitat along the Crow Wing, Gull, Nokasippi, and Mississippi Rivers via fee title acquisitions and conservation easements. These river corridors are also very vulnerable to habitat degradation due to the potential for development. The Camp Ripley military training center is located immediately adjacent to the confluence of the Crow Wing and Mississippi Rivers. Camp Ripley contains 19 miles of Mississippi River frontage and 8 miles of Crow Wing River frontage that provide habitat for many species including 45 Species of Greatest Conservation Need. This project will build upon existing Camp Ripley partnership success with the Army Compatible Use Buffer program (ACUB). This federal program provides funds to protect adjacent lands from encroaching development and in the process protects the training center, water quality and wildlife habitat. As of this writing the ACUB program has protected over 25,000 acres through conservation easements and fee title including 204 RIM easements totaling over 22,000 acres. In 2013 alone BWSR received \$4,088,000 in from National Guard Bureau and Department of Army ACUB funds for easement acquisition. As of this writing, over the life of the ACUB program, over \$33,000,000 in from National Guard Bureau and Department of Army funds have been directed to BWSR for easement acquisition.

This project utilized Camp Ripley's partnerships with the Board of Water and Soil Resources (BWSR), MN Department of Natural Resources (DNR), The Nature Conservancy (TNC), Morrison Soil and Water Conservation District (SWCD) to solicit applications and to score and rank applications. The partnership uses a variety of methods to generate landowner interest and solicit applications including; mailings, open houses, direct contact with landowners and special Camp Ripley events. Applications are sorted into agricultural easements (Non-OHF) and riparian and forested lands easements (OHF). They are then scored and ranked against a GIS based system that ranks parcels based upon a number of factors including habitat quality and proximity to Camp Ripley. Applications are then funded in priority order from appropriate funding sources until all funds are used up. The application process is continuous and there is generally a considerable backlog of interested landowners at any specific point in time. Once a funding decision has been made Morrison SWCD and BWSR work together to accomplish the standard RIM easement acquisition process and the easement becomes part of the RIM portfolio.

Although there were no fee title projects that came to fruition during this appropriation the general process is that DNR, with the support of partners, negotiates directly with landowners that are in the approved boundaries for Wildlife Management Areas. Standard DNR fee title acquisition processes are followed.

Explain Partners, Supporters, & Opposition:

This project utilized Camp Ripley's partnerships with the Board of Water and Soil Resources (BWSR), MN Department of Natural Resources (DNR), The Nature Conservancy (TNC), Morrison Soil and Water Conservation District (SWCD). Local support for the ACUB program continues to be strong with a waiting list of landowners who want to enroll in the program.

Additional Comments:

Exceptional challenges, expectations, failures, opportunities, or unique aspects of program

No fee title acquisitions were completed with this round of funding. Attempts were made to acquire three tracts in fee title that would have relied on this funding. The owner of one tract rejected an offer of the certified appraised value. Acquisition attempts on the other two tracts were discontinued when it became apparent that the planned use of the land as DNR Wildlife Management Area would be incompatible with local government plans for future municipal growth. Dollars budget for fee title acquisition will be returned to the Outdoor Heritage Fund.

Other Funds Received:

- Not Listed

How were the funds used to advanced the program:

Not Listed

What is the plan to sustain and/or maintain this work after the Outdoor Heritage Funds are expended:

Not Listed

Outcomes:

The original accomplishment plan stated the program would

Programs in the northern forest region:

- Forestlands are protected from development and fragmentation
- Healthy populations of endangered, threatened, and special concern species as well as more common species
- Increased availability and improved condition of riparian forests and other habitat corridors
- Maintain high quality habitat

How will the outcomes be measured and evaluated?

Forest and riparian acres were protected by easement from development. These are part of the larger Camp Ripley ACUB effort which has created a buffer zone around Camp Ripley of high quality habitat that benefits species such as the Red-shouldered Hawk and timber wolf.

Programs in forest-prairie transition region:

- Increased availability and improved condition of riparian forests and other habitat corridors
- Protected, restored, and enhanced aspen parklands and riparian areas

How will the outcomes be measured and evaluated?

Not Listed

Budget Spreadsheet

Final Budget line item reallocations are allowed up to 10% and do not need require an amendment to the Accomplishment Plan

Total Amount: \$1,450,000

Total	0.30	6.00	\$57,300	\$0		\$57,300

Explain any budget challenges or successes:

The BWSR Personnel budget was overspent by \$8,500. BWSR personnel budgeting/tracking process is to 1) predict expenses and load budgets accordingly, 2) track actual time spent, and 3) make expenditure corrections. Unfortunately EC's could not be made prior to this appropriation being closed out in SWIFT. If one considers the ACUB program as a whole, over the five appropriations from 2011-2015, the personnel budget has been underspent. This issue was discussed with LSOHC staff on 11/1/18 and documenting the issue here was the agreed upon solution. New agency processes are being developed to prevent future occurrences.

All revenues received by the recipient that have been generated from activities on land with money from the OHF:

Target Lake/Stream/River Feet or Miles (original)

13

Target Lake/Stream/River Feet or Miles (final)

0

Explain the success/shortage of acre goals:

Rising land values during this time period reduced the number of acres we were able to protect.
