

Projected New Receipts to Charities from Addition of Electronic Pull-Tabs and Electronic Bingo
Preliminary - Projected Modernization Schedule

The Gambling Control Board publishes an annual report for all charities engaged in charitable gambling and it can be reviewed at www.gcb.state.mn.us.

The Preliminary - Projected Modernization Schedule uses the published annual reports as the starting point to show the results from Fiscal Year 2011 and then the Preliminary - Schedule projects the increase expected with the modernization of electronic pull-tabs and electronic bingo. Note some figures may vary slightly from the annual report on line because of tax refunds or other minor adjustments made after the reports were posted.

The Preliminary - Projected Modernization Schedule provides six columns. Three of the columns represent the Fiscal Year 2011 reported levels of gross receipts, taxes (paid), and charitable profits (after taxes) available for use in charitable activities. The other three columns represent the projected increase from the addition of electronic pull-tabs and electronic bingo.

The projections were calculated by using a tax rate reduction of 14% and the elimination of the upfront distributors tax. The projections estimate that the total gross receipts will increase from approximately \$1 billion in Fiscal Year 2011 to approximately \$2.3 billion for the first full fiscal year after electronic pull-tabs and bingo are enacted. With the tax relief and simplification provided, it is estimated that the charities will receive about \$62.5 million in additional profits for the first fiscal year and the state will receive about \$62.5 million in additional revenue for the first full fiscal year. The projected total profits for charities will increase from \$44.3 million to \$106.8 million. The projected total revenue for the state will increase from \$37 million to \$99.5 million. By adding the projected increase to each charity as a percentage of its 2011 activity, the Preliminary - Schedule shows the projected results for charities. A full report for all charities is not yet completed. The actual results will of course vary for each charity, but the schedule shows that the charities' profits will increase by about 141% and the overall effective tax rate will be about 4.33% of gross receipts.
