#### **Evaluating** Affordable Housing Efforts

### Program Assessment Report 2018

### MINNESOTA HOUSING

### HOME.

"...A safe place to go to every night. A safe place to take my son to. It relieved a lot of the pressures so I could focus on getting my education." — Jeremiah Program graduate Brittany Block

1

#### A NOTE FROM COMMISSIONER JENNIFER LEIMAILE HO

The Minnesota Housing 2018 Program Assessment Report is our annual report to the community on the work completed in 2018 with funding sources administered by Minnesota Housing.

At Minnesota Housing, we are driven by the fact that housing is the foundation for success and integral for health and well-being, school achievement, prosperous communities and the economic growth of our state. For communities to continue to attract and retain dedicated employees, they need affordable places to live. It is imperative that housing production significantly increase to meet the sharply-growing need and maintain Minnesota's competitive advantage.

The results in this report highlight our commitment and success in increasing the number of safe, stable housing options that are affordable while ensuring we are addressing housing needs geographically and with attention to racial equity.

In 2018, we assisted nearly 67,000 households, ranging from those ready to buy a home to those on the verge of losing their home to people experiencing homelessness. In terms of rental housing, we financed the development or preservation of more than 2,000 rental apartments. In addition, we provided assistance to nearly 10,000 vulnerable households to help them stay in or secure housing. For the fourth year in a row, we saw an increase in the number of Minnesota families who became homeowners with the help of our downpayment assistance and mortgage programs (almost 4,500 households in 2018). We also continue to see an increase in the number of households of color who access our homebuyer programs. In 2018, more than one-third of households we assisted with these programs were households of color, the most in our history.

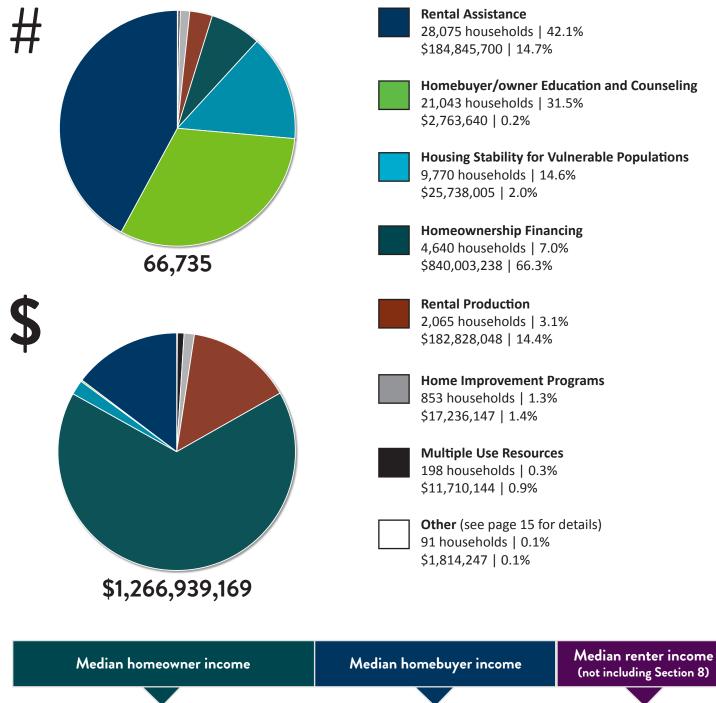

The accomplishments in this report were achieved through the work of hundreds of lenders, developers, property owners and social service providers throughout the state who help people access stable housing that is affordable.

I'm proud to lead Minnesota Housing and look forward to working around the state to create more homes. By tackling this challenge together, we strengthen families and communities.

# THE DATA: 2018 RESULTS

#### This report provides data on the 36 programs managed by Minnesota Housing in 2018.

Some programs are funded with stateappropriated dollars, while others reflect federally-funded programs administered by Minnesota Housing and programs funded through agency resources and the capital markets.

Many of the tables include information that must be reported to the State Legislature annually, which is why we report on each by its program name. Full descriptions of these programs can be found in the 2018 Affordable Housing Plan. Table 1 also includes a brief description of each program's activity type.

Here are the highlights of the seven tables:

- Table 1 (pages 8-9): Median incomes of households served by each program
- Table 2 (page 10): Income distribution for different types of households (owners and renters)
- Table 3 (pages 12-13): Number of households served by each type of program
- Table 4 (pages 14-15): Information about households of color or Hispanic ethnicity served by each program
- **Table 5 (pages 16-17)**: Distribution of resources in different regions of the state
- Table 6 (pages 18-20): Comparison of funding levels for each program for the years 2016, 2017, and 2018
- Table 7 (pages 21-23): Distribution of resources for households with certain characteristics

#### 2018 AFFORDABLE HOUSING PLAN PRINCIPLES

- Be flexible and responsive
- Develop effective partnerships
- Remove barriers and provide equitable access to programs and opportunity
- Solve problems through innovation and creativity
- Leverage our strong financial and operational capacity

#### 2016-2019 STRATEGIC PRIORITIES

- Reduce Minnesota's racial and ethnic homeownership disparity
- Preserve housing with federal project-based rent assistance
- Prevent and end homelessness
- Finance housing responsive to Minnesota's changing demographics
- Address specific and critical local housing needs

#### 2018 HIGHLIGHTS

- Served nearly 67,000 households
- Achieved record level of 4,622 home mortgages
- Reached 34% of our home mortgages going to households of color, which is more than double the industry average of 15%
- Launched Homework Starts with Home, an innovative program to house homeless students and improve educational performance

### TABLE 1: MEDIAN INCOMES OF ASSISTED HOUSEHOLDS COMPARED WITH SELECTED INCOME STANDARDS, FFY 2018

### FIGURE 5: HOME MORTGAGE LOANS FOR HOUSEHOLDS OF COLOR OR HISPANIC ETHNICITY, FFY 2010-2018

Thirty-four percent of Minnesota Housing home mortgage loans went to households of color or Hispanic ethnicity in 2018. This compares to just 15 percent in the marketplace as a whole.

## Over the past three years, nearly half of competitive assistance has gone to Greater Minnesota.

Notes: Data available for this table include non-Section 8 resources Minnesota Housing provided in 2018.

Competitive funds are generally distributed to developers and service organizations through a competitive process, such as a Request for Proposals. Grants and deferred loans are state and federal appropriations (other than Section 8 and 236), and Minnesota Housing Pool 3 resources.

Housing tax credits are syndication proceeds in developments for which loans closed with 9% housing tax credits in 2018 (not including suballocators).

Amortizing loans involve regular principal and interest payments with borrowers deciding if they want to apply for a Minnesota Housing loan or pursue other lending options.

Regional total amounts include data for Duluth, Minneapolis, and Saint Paul, i.e., the sum of regional shares is 100%.

Share of lower income cost-burdened households is based on estimates of the number of households with income less than \$50,000 who pay more than 30% of income for housing (from the Census Bureau's *American Community Survey, 2013-2017*).

\*Estimated for multifamily tenants based on total households, not valid responses.

Seniors = Ages 62 and older

Long-term homeless = Lacking a permanent place to live continuously for a year or more, or at least four times in the past three years

### NOTES

<sup>1</sup>Data for all programs include loans purchased, closed, or disbursed during the fiscal year, **not** loans and grants currently committed but not yet disbursed. For programs in which Minnesota Housing provides second mortgages in conjunction with other Minnesota Housing assistance, total units are shown by program, but are unduplicated in subtotal and total unit counts.

Average assistance per unit of rental housing is based on program assistance amounts and the unadjusted count of assisted units by program.

Tenant demographics are reported to Minnesota Housing by owners of agency-funded developments being monitored for compliance with program rules. Data include characteristics of tenants occupying developments funded prior to the reporting year. With the exception of households with a disabled member, all percentage calculations are based on households with complete information reported; due to the availability of data, we calculated percentages of disabled households based on the total number of households reporting.

Tenant characteristics will vary from year-to-year reflecting the number, size, location, and type of developments on which owners report.

<sup>2</sup>These are households in which the householder (or coborrower, in the case of single family loans) is of a race other than white or is of Hispanic origin.

<sup>3</sup>Data include first mortgages that U.S. Bank Home Mortgage HFA Division purchased during the reporting year.

<sup>4</sup>Includes the number of households that received a tax credit, either with or without a first mortgage from Minnesota Housing.

<sup>5</sup>HECAT is also funded through other partners; the amount shown is only Minnesota Housing's contribution to households served.

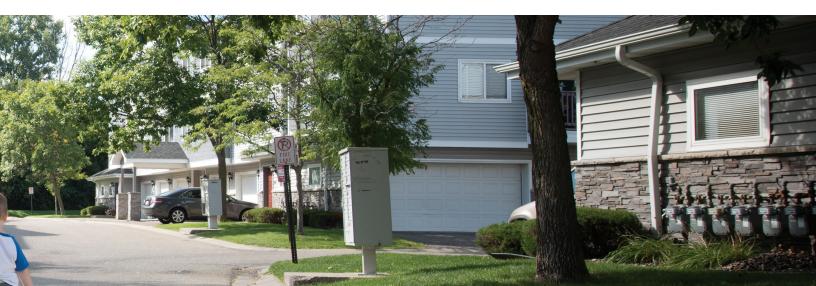

<sup>6</sup>Includes Financing Adjustment Factor and Financing Adjustment (FAF/FA) resources.

<sup>7</sup>Total assistance amount for Bridges and Housing Trust Fund Rental Assistance is the actual voucher, security deposit, and housing expense amounts disbursed during the reporting year. Average assistance per household is estimated for 12 months based on average monthly assistance paid in the reporting year.

<sup>8</sup>Beginning in 2009, for greater consistency and accuracy, data on FHPAP assistance has been reported by State Fiscal Year (July 1 through June 30), based on expenditures for assistance and services reported to Minnesota Housing by FHPAP providers and demographic data reported in HMIS. Because the organization administering the data for FHPAP is improving the system for maintaining the data, the FHPAP demographic information in this report should be considered estimates, not actuals. The household served and dollars are actuals.

<sup>9</sup>The Community Homeownership Impact Fund includes Single Family's Economic Development and Housing/Challenge Fund resources. This is a count of loans, not households; some households may receive more than one loan under this program.

<sup>10</sup>Includes NSP projects that closed out in FFY 2018, i.e., were completed.
