

STATE OF MINNESOTA

Office of the State Auditor

Julie Blaha
State Auditor

Minnesota County Finances

2017 Revenues, Expenditures, and Debt

Description of the Office of the State Auditor

The mission of the Office of the State Auditor is to oversee local government finances for Minnesota taxpayers by helping to ensure financial integrity and accountability in local governmental financial activities.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 100 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office currently maintains five divisions:

Audit Practice - conducts financial and legal compliance audits of local governments;

Government Information - collects and analyzes financial information for cities, towns, counties, and special districts;

Legal/Special Investigations - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government;

Pension - monitors investment, financial, and actuarial reporting for approximately 600 public pension funds; and

Tax Increment Financing - promotes compliance and accountability in local governments' use of tax increment financing through financial and compliance audits.

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

Scope and Methodology

This publication is intended to help the public, local government officials, and other policy makers understand county financial operations. The report summarizes, through data tables and charts, the financial operations of Minnesota counties for calendar year 2017.¹

The data presented in this report is divided into governmental funds and proprietary funds. The governmental funds consist of the General, Special Revenue, Debt Service, Capital Projects, and Permanent Funds. The revenues, expenditures, and debt of these funds are summarized in Table 1. Table 2 presents the data by each individual county.

The enterprise or proprietary funds of counties are presented separately from the governmental funds. Minnesota counties operate many types of public service enterprises. These enterprises furnish a variety of services that operate primarily from revenues derived from the sale of goods or services. The financial operations of the public service enterprises are presented in Table 3.

Table 4 lists the bonded and other long-term debt outstanding as of December 31, 2017, by county. Other long-term debt refers to liabilities such as long-term lease agreements, installment purchase contracts, and notes.

Tables 5 and 6 present an analysis of the 2016 and 2017 unrestricted fund balances in the General and Special Revenue Funds of counties. The tables show the actual unrestricted fund balances alphabetically by county and a ranking of 2017 unrestricted fund balances as a percent of total current expenditures.

In addition to this publication, the Office of the State Auditor maintains an interactive database containing several years of data. The database is available on the Office of the State Auditor's website at: www.auditor.state.mn.us/default.aspx?page=ComparisonTools.

¹Four counties did not fulfill the annual financial reporting requirements. Two of the counties, Hubbard and Kitson, submitted their reporting form without an accompanying audit. Unaudited data provided by these counties is included in this report for comparison purposes. OSA staff was not able to perform the standard data review because unaudited data was submitted. The other two counties, Koochiching and Red Lake, did not submit their financial reporting form or audit. The financial data for these counties is not available and is not included in this report.

Executive Summary

Current-Year Trends

- Minnesota county revenues totaled \$6.94 billion in 2017. This represents an increase of \$314.5 million, or 4.7 percent, over 2016 (pg. 5).
- Counties reported total expenditures of \$7.36 billion in 2017. This represents an increase of \$392.9 million, or 5.6 percent, over 2016 total expenditures. Between 2016 and 2017, current expenditures increased 4.3 percent to \$5.59 billion, capital outlays decreased 3.2 percent to \$1.13 billion, and debt service increased 44.1 percent to \$644.8 million (pg. 8).
- In 2017, Minnesota counties reported outstanding long-term debt of \$3.54 billion.² This represents a decrease of 3.4 percent from the long-term debt reported in 2016. Of the \$3.54 billion in long-term debt, \$3.21 billion was outstanding bonded debt, and \$333.4 million was other long-term debt³ (pg. 12).
- Minnesota county enterprises reported operating losses of \$46.9 million in 2017. This represents a decrease of 42.1 percent from the operating losses of \$81.1 million reported in 2016. County enterprises posted a net loss of \$10.0 million in 2017, a decrease of 61.7 percent from the \$26.1 million net loss reported in 2016 (pg. 13).
- Minnesota counties' unrestricted fund balances of the General Fund and Special Revenue Funds totaled \$2.65 billion in 2017. This represents a decrease of 1.5 percent from 2016. The average unrestricted fund balance as a percent of current expenditures for counties was 47.3 percent in 2017 compared to 50.1 percent in 2016. Among individual counties, unrestricted fund balances as a percent of total current expenditures ranged from -19.0 percent (Faribault County) to 148.3 percent (Lake County) (pg. 14).

Ten-Year Trends

- Between 2008 and 2017, in actual dollars, total county revenues rose 24.4 percent. When adjusted for inflation, the increase in total revenues was 5.5 percent over this period (pg. 6).⁴
- Between 2008 and 2017, the share of total revenues derived from taxes increased from 43.3 percent to 47.8 percent, while the share of total revenues derived from intergovernmental revenues decreased from 39.5 percent to 37.5 percent (pg. 6).
- Between 2008 and 2017, in actual dollars, total county expenditures increased 18.3. When adjusted for inflation, county expenditures increased 0.4 percent over the ten-year period (pg. 9).

²Long-term debt includes bonded indebtedness and other long-term debt such as notes or long-term leases.

³Counties primarily issue bonds to fund capital projects and purchases. Counties may issue tax anticipation certificates/certificates of indebtedness for current operations, but they must be due and payable within 15 months of the deadline for the certification of the property tax levy. See Minn. Stat. § 373.01, subd. 4.

⁴Constant dollars refers to data adjusted for inflation using the Implicit Price Deflator for State and Local Governments (N.I.P.A. Table 1.1.9, December 21, 2018) setting 2008 as the base year.

This page left blank intentionally

Comparison and Overview

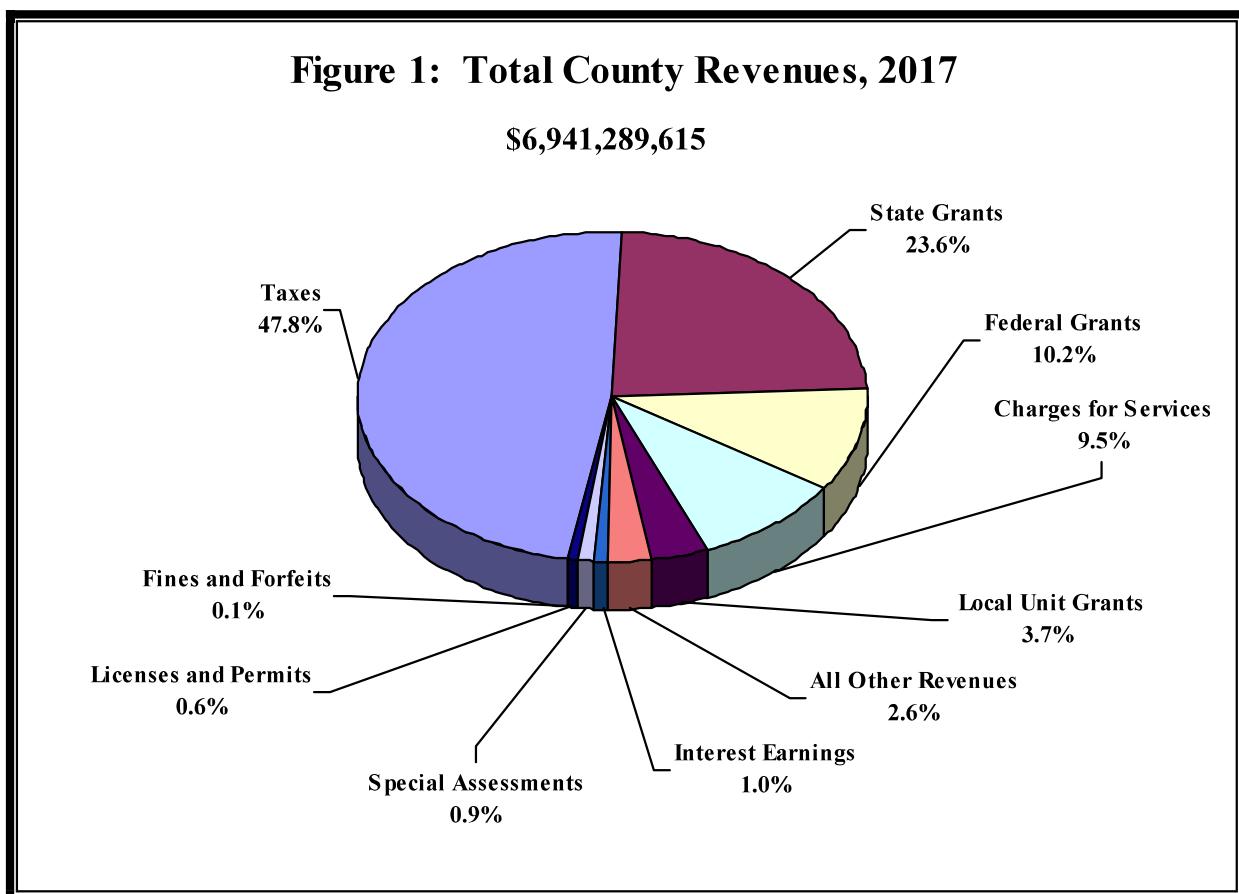

Governmental Fund Revenues

Current-Year Trends

Minnesota county revenues totaled \$6.94 billion in 2017. This represents an increase of \$314.5 million, or 4.7 percent, over 2016. Revenue growth occurred in seven of the ten categories shown in Figure 1 below. The categories showing the largest increases were local unit grants (97.7 percent) and interest earnings (52.6 percent).⁵ The categories showing decreases were fines and forfeits (-10.2 percent), all other revenues (-2.2 percent) and state grants (-2.0 percent).

Taxes, state grants, and federal grants were the most significant sources of county revenues in 2017, accounting for 81.7 percent of total revenues. The share of total revenues derived from taxes increased slightly between 2016 and 2017, while the shares of revenues derived from state and federal grants decreased slightly.

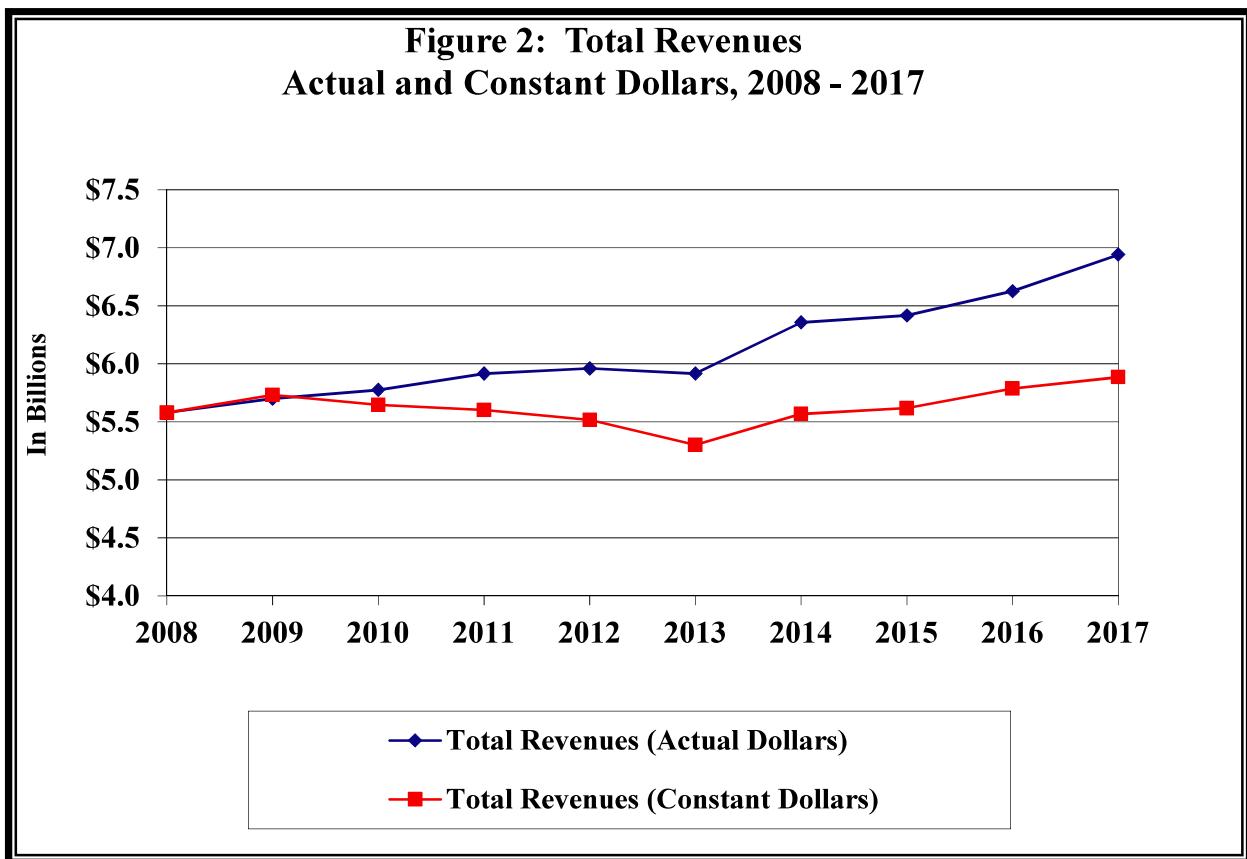

Figure 1 below shows the relative shares of total governmental revenues by source.

⁵The large increase in local unit grants reflects the distribution of assets of the recently-dissolved Counties Transit Improvement Board (CTIB) to its members (Anoka, Dakota, Hennepin, Ramsey, and Washington Counties.)

Ten-Year Trends

Figure 2 below shows trends for total county revenues in actual and constant dollars for the years 2008 to 2017. In actual dollars, total county revenues rose 24.4 percent over this ten-year period. When adjusted for inflation, the increase in total revenues was 5.5 percent over this period.⁶

Primary Sources of Revenues

Over the past ten years, the primary sources of revenues for counties have been taxes, state grants, federal grants, and charges for services. Between 2008 and 2017, the share of total revenues derived from taxes increased from 43.3 percent to 47.8 percent, while the share of total revenues derived from intergovernmental revenues decreased from 39.5 percent to 37.5 percent.

⁶Constant dollars refers to data adjusted for inflation using the Implicit Price Deflator for State and Local Governments (N.I.P.A. Table 1.1.9, December 21, 2018) setting 2008 as the base year.

Figure 3 below shows how the composition of primary sources of revenues for counties has changed between 2008 and 2017.

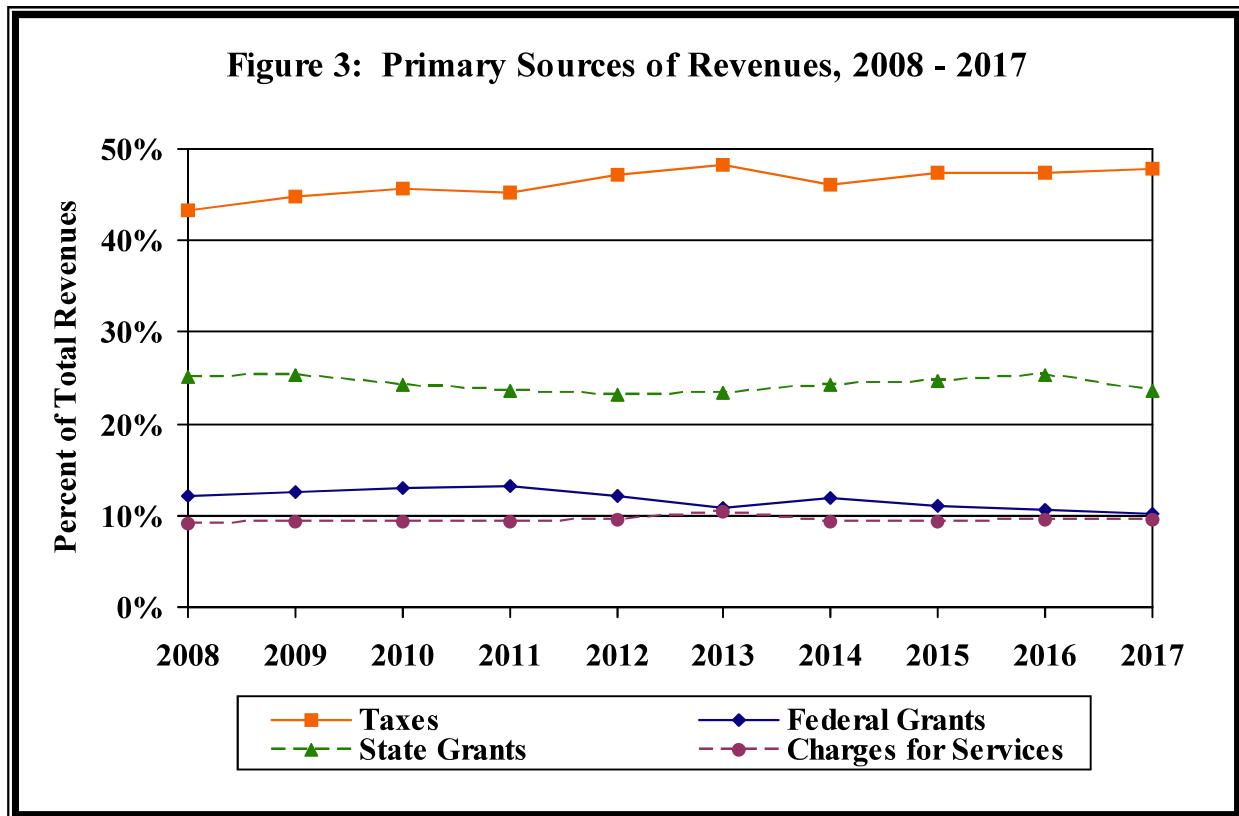

Table 1a below shows the ten-year trend in revenues adjusted for inflation. The table breaks down the data into two five-year segments and the overall ten-year change.

Table 1a: County Revenues Summary (Constant Dollars), 2008 - 2017

Revenues	2008*	2012*	2013*	2017*	2008 - 12 5-Year Change	2013 - 17 5-Year Change	2008 - 17 10-Year Change
Taxes	\$2,415,098,571	\$2,606,421,580	\$2,562,446,145	\$2,815,534,172	7.9%	9.9%	16.6%

Total Revenues	\$5,578,967,288	\$5,516,242,857	\$5,301,499,937	\$5,885,867,658	-1.1%	11.0%	5.5%

*Due to rounding, the totals may not equal the sum of the individual categories.

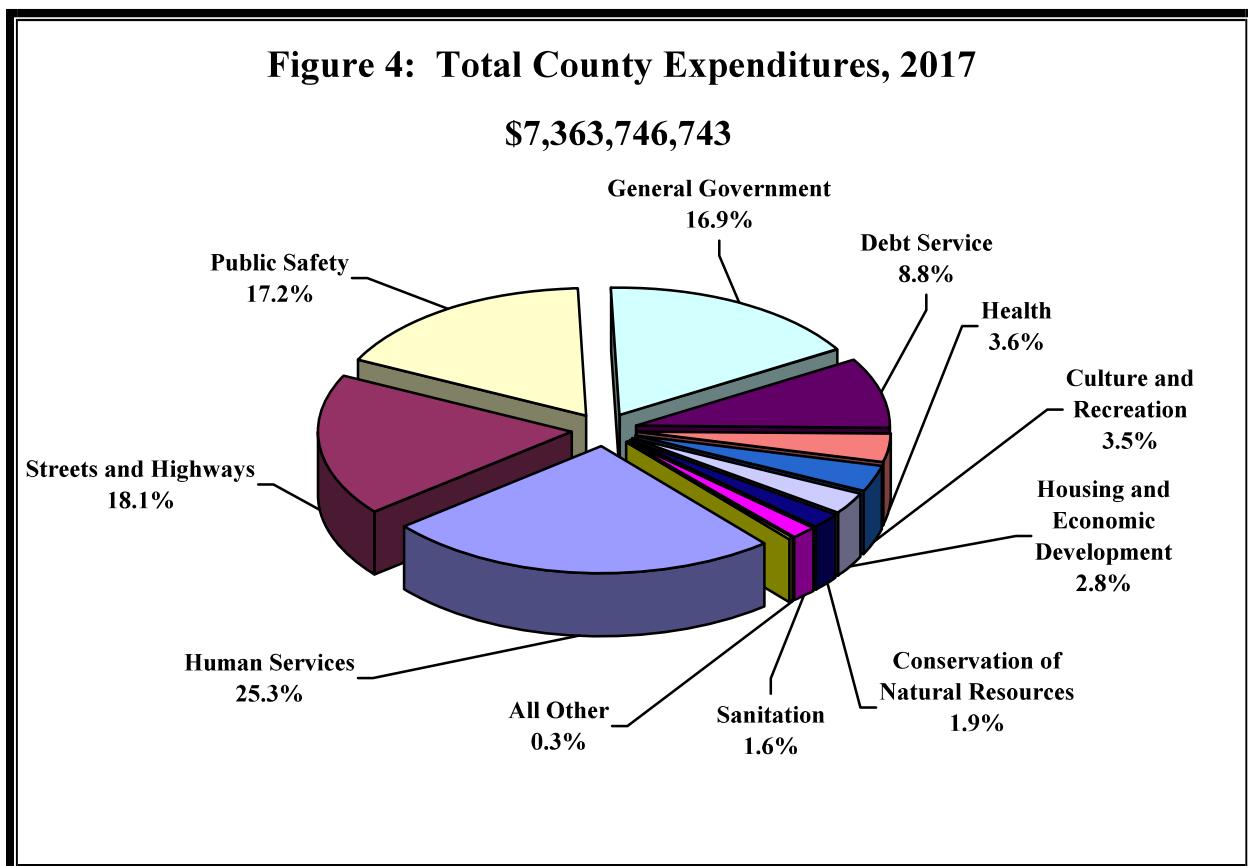

Governmental Fund Expenditures

Current-Year Trends

Counties reported total expenditures of \$7.36 billion in 2017. This represents an increase of \$392.9 million, or 5.6 percent, over 2016 total expenditures. Total county expenditures include current expenditures (day-to-day operations); capital outlays (expenditures on large fixed assets such as buildings and equipment); and total debt service (principal paid on bonds, other long-term debt, and interest and fiscal charges). Between 2016 and 2017, current expenditures increased 4.3 percent to \$5.59 billion, capital outlays decreased 3.2 percent to \$1.13 billion, and debt service increased 44.1 percent to \$644.8 million.

All but 3 of the 11 expenditure categories shown in Figure 4 below increased over the two-year period. Among those categories of expenditures showing increases, the largest were debt service (44.1 percent), conservation of natural resources (13.2 percent), and housing and economic development (10.3 percent).⁷ Counties spent less on all other expenditures (-14.1 percent), culture and recreation (-7.7 percent), and streets and highways (-3.7 percent). See Table 1 on page 17 for greater detail.

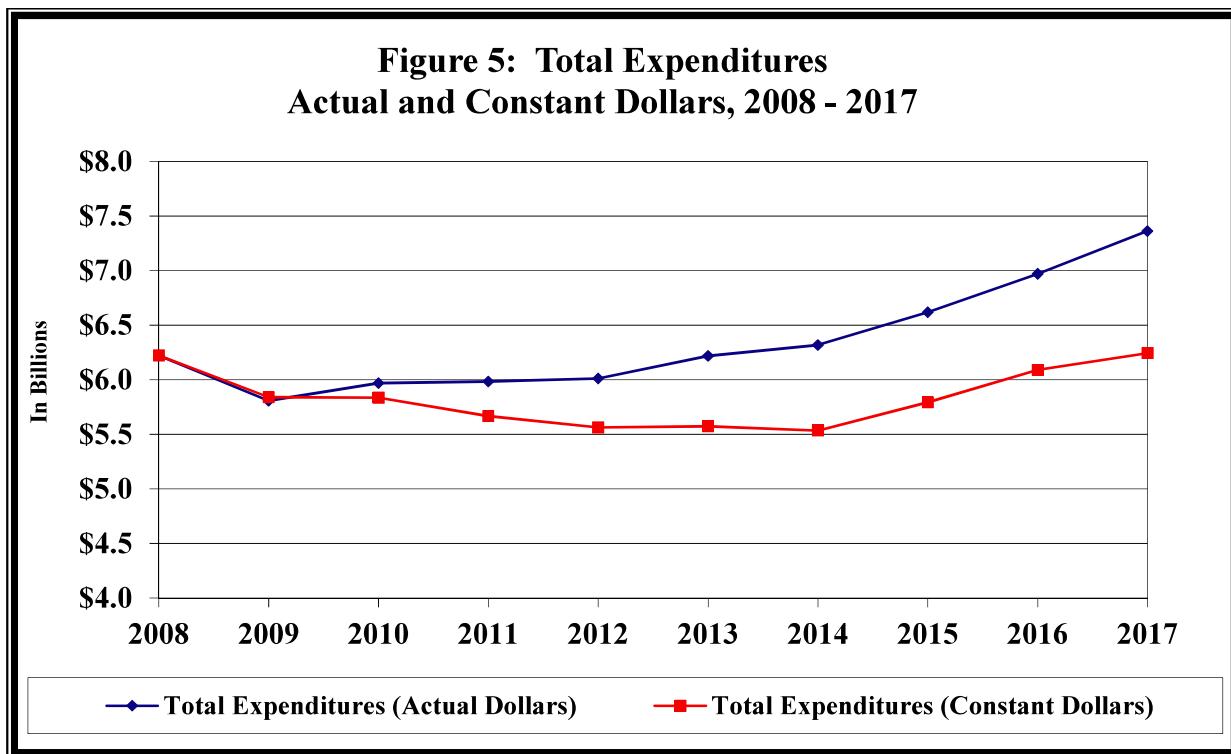

Figure 4 below shows the relative shares of total county expenditures by function.

⁷The large increase in debt service payments between 2016 and 2017 reflects, in part, significant principal payments resulting from the issuance of refunding bonds and subsequent payment of existing higher interest debt in Anoka, Hennepin, and Washington Counties.

Ten-Year Trends

In actual dollars, total expenditures increased 18.3 percent from 2008 to 2017. When adjusted for inflation, county expenditures increased 0.4 percent over the ten-year period.⁸ Figure 5 below illustrates trends in total county expenditures from 2008 to 2017 using actual and constant dollars. A comparison of the two five-year periods of 2008 to 2012 and 2013 to 2017 reveals a significant reversal during the most recent period. From 2008 to 2012, inflation-adjusted total expenditures decreased 10.6 percent, while from 2013 to 2017, inflation-adjusted total expenditures increased 12.0 percent.

Primary Categories of Expenditures

The primary categories of expenditures for counties over the ten-year period were consistently human services, streets and highways, public safety, and general government expenditures. In 2017, these four expenditure categories accounted for 77.5 percent of all county expenditures.

In constant dollars, general government declined 8.8 percent, human services expenditures declined 6.7 percent, and public safety declined 5.4 percent between 2008 and 2017, while streets and highways increased 9.5 percent.

⁸Constant dollars refers to data adjusted for inflation using the Implicit Price Deflator for State and Local Governments (N.I.P.A. Table 1.1.9, December 21, 2018) setting 2008 as the base year.

Figure 6 below illustrates the changing composition of county expenditures between 2008 and 2017. Table 2a below provides a ten-year analysis of total county expenditures in constant dollars.

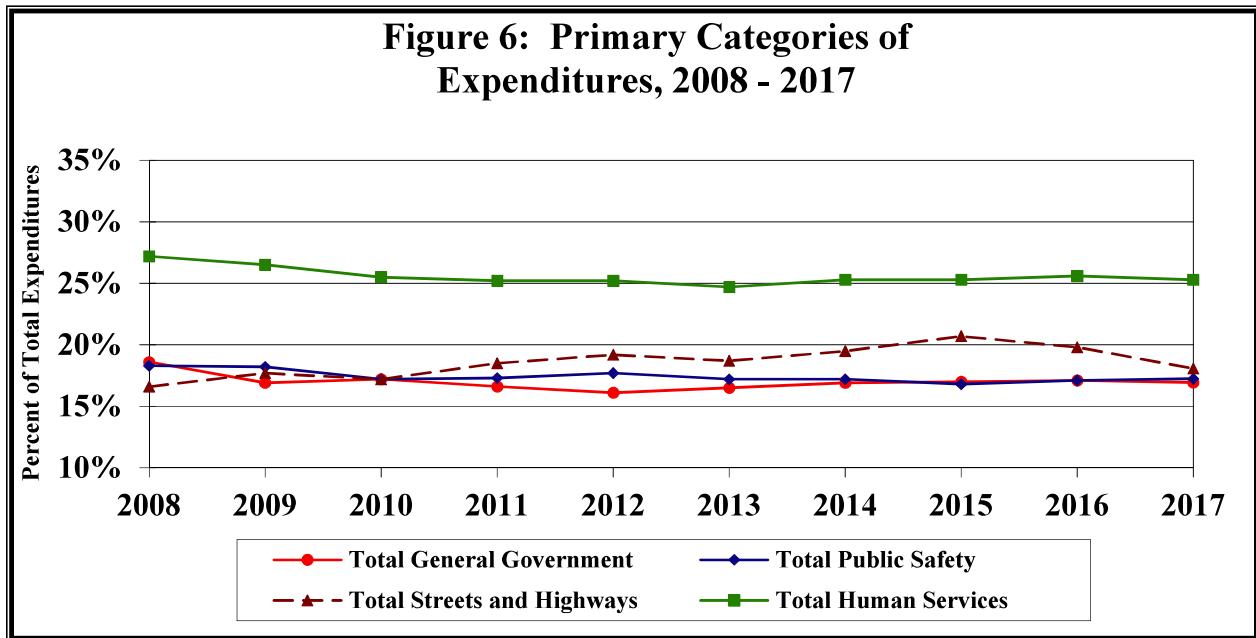

Table 2a: County Expenditures Summary (Constant Dollars), 2008 - 2017

Expenditures	2008*	2012*	2013*	2017*	2008 - 12 5-Year Change	2013 - 17 5-Year Change	2008 - 17 10-Year Change
General Government	\$1,158,643,816	\$894,468,740	\$918,789,513	\$1,057,146,740	-22.8%	15.1%	-8.8%
Public Safety	1,138,310,500	983,329,043	959,886,888	1,076,364,043	-13.6%	12.1%	-5.4%
Streets and Highways	1,030,918,152	1,070,784,639	1,039,390,187	1,128,736,726	3.9%	8.6%	9.5%
Sanitation	93,788,475	84,142,342	80,372,751	97,014,190	-10.3%	20.7%	3.4%
Human Services	1,692,773,856	1,401,347,370	1,377,921,768	1,579,820,677	-17.2%	14.7%	-6.7%
Health	271,924,485	257,802,164	259,147,191	224,301,180	-5.2%	-13.4%	-17.5%
Culture and Recreation	217,916,235	200,681,107	217,989,018	217,264,146	-7.9%	-0.3%	-0.3%
Cons. of Natural Resources	86,587,938	96,640,861	89,381,598	120,573,326	11.6%	34.9%	39.2%
Housing and Econ. Dev.	111,336,244	212,569,154	200,614,582	175,162,426	90.9%	-12.7%	57.3%
All Other	36,487,988	16,912,903	20,608,863	20,990,332	-53.6%	1.9%	-42.5%
Total Debt Service	383,379,434	344,810,386	408,667,019	546,716,461	-10.1%	33.8%	42.6%
 Total Expenditures	 \$6,222,067,123	 \$5,563,488,709	 \$5,572,769,376	 \$6,244,090,248	 -10.6%	 12.0%	 0.4%
 Total Current Expenditures	 \$4,793,233,201	 \$4,354,618,290	 \$4,371,886,642	 \$4,741,525,729	 -9.2%	 8.5%	 -1.1%
 Total Capital Outlay	 1,045,454,488	 864,060,033	 792,215,715	 955,848,058	 -17.4%	 20.7%	 -8.6%
 Total Debt Service	 383,379,434	 344,810,386	 408,667,019	 546,716,461	 -10.1%	 33.8%	 42.6%
 Total Expenditures	 \$6,222,067,123	 \$5,563,488,709	 \$5,572,769,376	 \$6,244,090,248	 -10.6%	 12.0%	 0.4%

*Due to rounding, the totals may not equal the sum of the individual categories.

Capital Outlay Expenditures

Capital outlay expenditures include the purchase, construction, or permanent improvements of buildings, equipment, machinery, and land. Between 2016 and 2017, capital outlays decreased \$37.0 million, or 3.2 percent, to total \$1.13 billion.

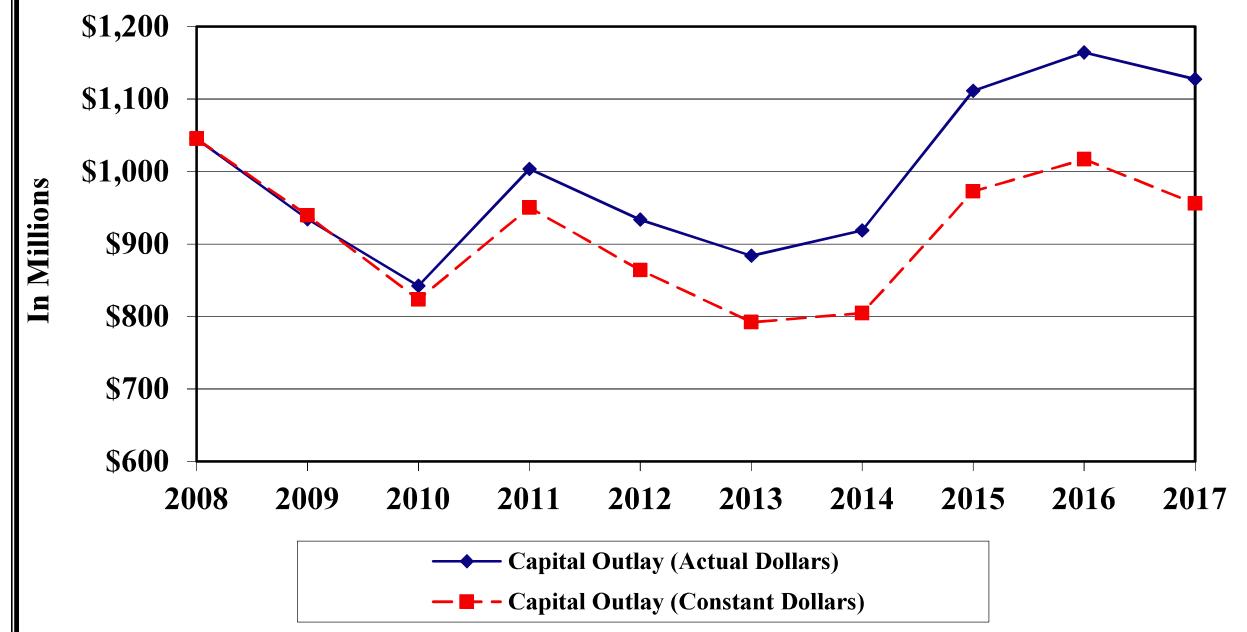

The largest category of capital outlay expenditures in 2017 was streets and highways, which represented 72.7 percent of total capital outlays. General government and public safety were the next two largest categories of capital outlay expenditures, accounting for 12.0 percent and 7.8 percent of total capital outlays, respectively.

Capital outlay expenditures can show significant changes from one year to the next since they include large construction projects and purchases. Between 2016 and 2017, the largest increase in capital outlay expenditures was \$38.3 million for public safety.

In actual dollars, capital outlay expenditures increased 7.8 percent from 2008 to 2017. When adjusted for inflation, capital outlay expenditures decreased 8.6 percent over this period. Although inflation-adjusted capital outlay expenditures decreased 8.6 percent over the ten-year period, a comparison of the two five-year periods of 2008 to 2012 and 2013 to 2017 reveals a significant reversal during the most recent period. From 2008 to 2012, inflation-adjusted capital outlay expenditures decreased 17.4 percent, while from 2013 to 2017, inflation-adjusted capital outlay expenditures increased 20.7 percent.

Figure 7 below shows capital outlay expenditures in actual and constant dollars from 2008 to 2017.

**Figure 7: Capital Outlay Expenditures
Actual and Constant Dollars, 2008 - 2017**

Outstanding Long-Term Indebtedness

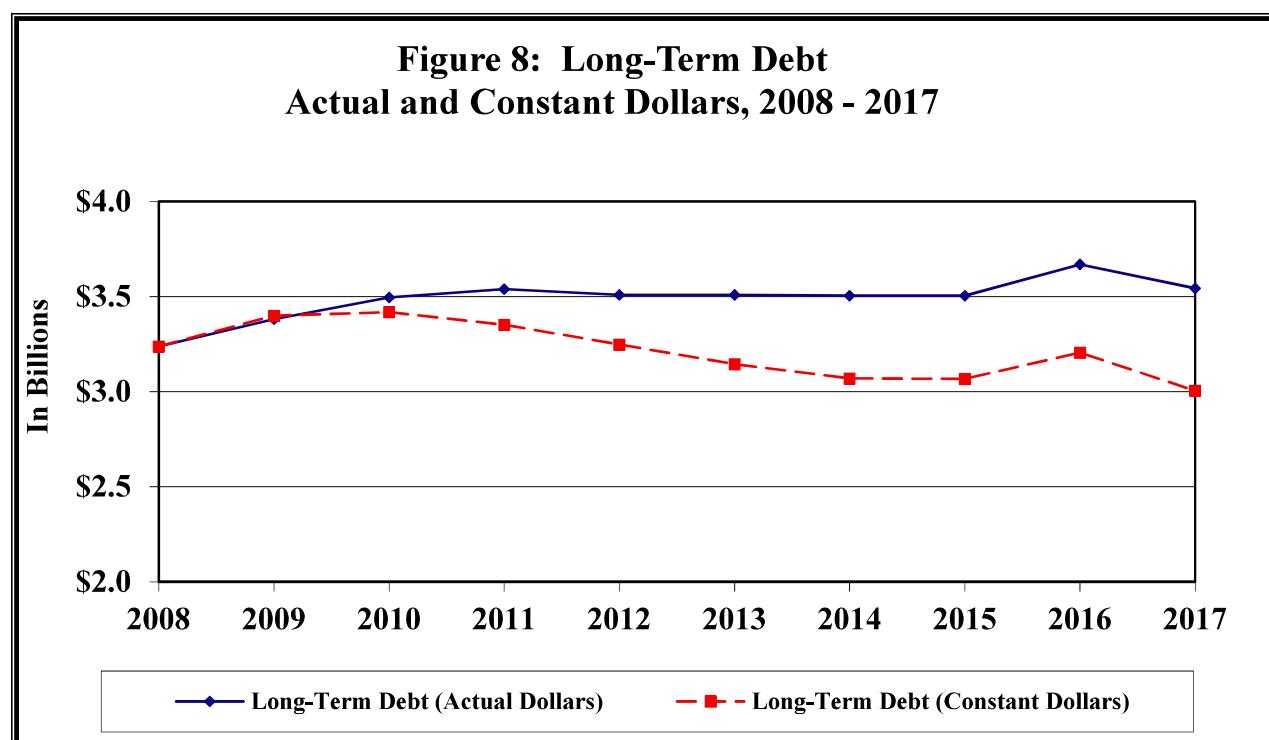

Current-Year Trends

Counties incur long-term debt through the financing of capital projects, such as the construction of government buildings, bridges, and other infrastructure improvements. In 2017, Minnesota counties reported outstanding long-term debt of \$3.54 billion.⁹ This represents a decrease of 3.4 percent from the long-term debt reported in 2016. Of the \$3.54 billion in long-term debt, \$3.21 billion was outstanding bonded debt, and \$333.4 million was other long-term debt.¹⁰

Ten-Year Trends

In actual dollars, outstanding long-term debt increased 9.4 percent from 2008 to 2017. When adjusted for inflation, outstanding long-term indebtedness decreased 7.2 percent over this period.

Figure 8 below shows outstanding long-term debt in actual and constant dollars from 2008 to 2017.

⁹Long-term debt includes bonded indebtedness and other long-term debt such as notes or long-term leases.

¹⁰Counties primarily issue bonds to fund capital projects and purchases. Counties may issue tax anticipation certificates/certificates of indebtedness for current operations, but they must be due and payable within 15 months of the deadline for the certification of the property tax levy. See Minn. Stat. § 373.01, subd. 4.

Public Service Enterprises

Some counties utilize public service enterprises, which are financed and operated in a manner similar to private business enterprises. The financial activities of these enterprises are accounted for in enterprise funds, which use accounting principles that provide more detailed financial information than governmental funds. Enterprise funds are generally intended to be self-sustaining operations maintained through fees for services and user charges. Many public enterprises, however, do not generate sufficient income to cover operating costs. In these cases, counties supplement operating revenues with transfers from other funds and nonoperating revenues, such as taxes and grants. The most common types of enterprises maintained by counties are economic development authorities and sanitation.

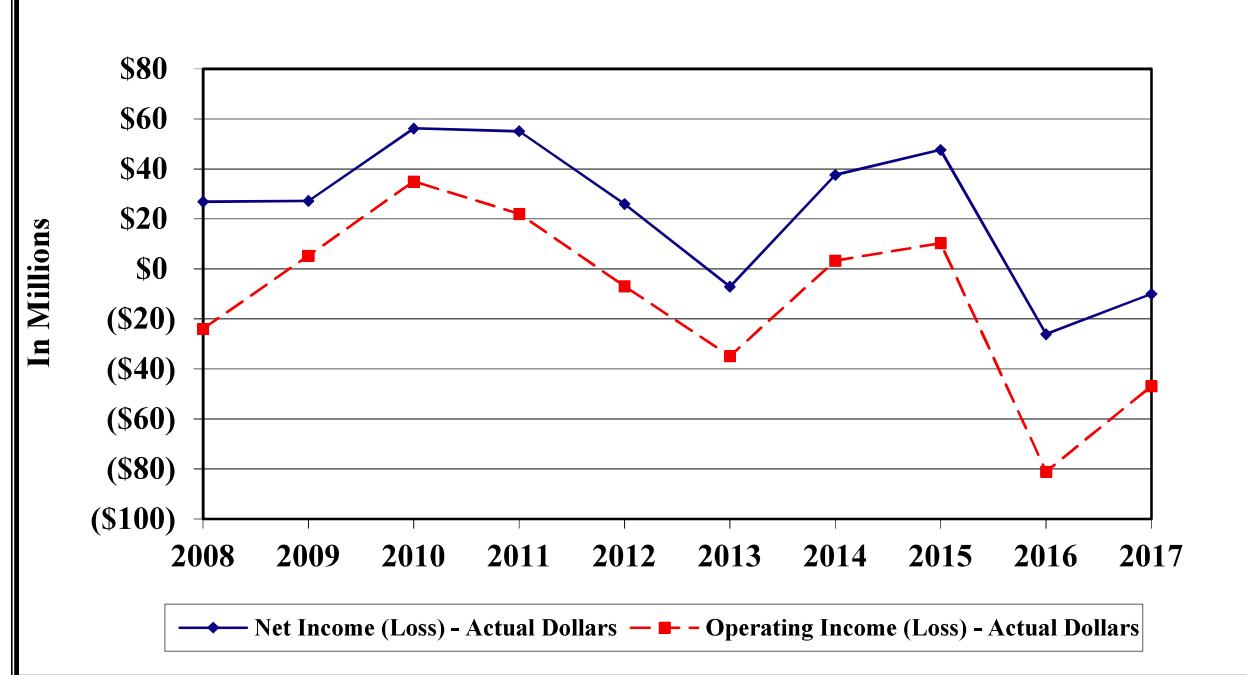

Current-Year Trends

Minnesota county enterprises reported operating losses of \$46.9 million in 2017. This represents a decrease of 42.1 percent from the operating losses of \$81.1 million reported in 2016. County enterprises posted a net loss of \$10.0 million in 2017, a decrease of 61.7 percent from the \$26.1 million net loss reported in 2016. The significant change in operating income and net income are primarily due to the Hennepin County Medical Center (HCMC). In 2017, HCMC posted an operating loss of \$28.3 million and a net loss of \$21.4 million, compared to an operating loss of \$49.4 million and net loss of \$27.9 million in 2016.

Ten-Year Trends

Figure 9 below shows net income (loss) and operating income (loss) in actual dollars from 2008 to 2017.

Figure 9: Net Income (Loss) and Operating Income (Loss) of County Enterprises, 2008 - 2017

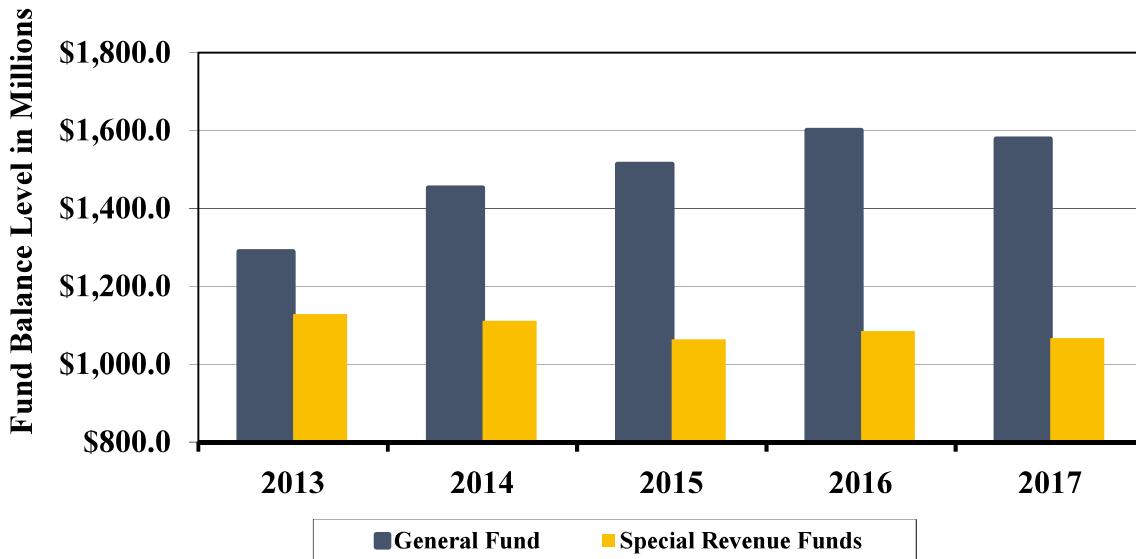

Unrestricted Fund Balances of the General Fund and Special Revenue Funds

Minnesota counties' unrestricted fund balances of the General Fund and Special Revenue Funds totaled \$2.65 billion in 2017. This represents a decrease of 1.5 percent from 2016. Comparing fund balance levels to total current expenditures helps to put fund balances in perspective and provides insight on the relative financial health of Minnesota counties. The average unrestricted fund balance as a percent of current expenditures for counties was 47.3 percent in 2017 compared to 50.1 percent in 2016. Among individual counties, unrestricted fund balances as a percent of total current expenditures ranged from -19.0 percent (Faribault County) to 148.3 percent (Lake County).

The Office of the State Auditor recommends that counties maintain an unrestricted fund balance in their General Fund and Special Revenue Funds of between 35 and 50 percent of operating revenues, or no less than five months of operating expenditures (similar to current expenditures).¹¹ Counties must rely on their fund balances to meet expenditures during the first five months of the next fiscal year until they receive the first property tax payments (May) and aid payments from the state (July). Maintaining adequate fund balances can also help counties better manage a financial crisis or emergency. Counties should have policies regarding fund balance levels to guide financial decisions and to provide a way for officials and the public to evaluate fund balances.¹² Appendix A provides a more detailed discussion of fund balances and GASB 54 (pg. 67).

Figure 10 below shows the unrestricted fund balances for the General Fund and Special Revenue Funds by type.

Figure 10: Unrestricted Fund Balances of the General and Special Revenue Funds for Counties - 2013 to 2017

¹¹Due to data limitations, this analysis uses current expenditures when examining unrestricted fund balance levels as a proxy for operating expenditures.

¹²The Office of the State Auditor has issued a Statement of Position on Local Government Fund Balances. See: [Statement of Position: Fund Balances for Local Governments Based on GASB Statement No. 54](#).

GOVERNMENTAL TABLES

**Submitted draft data that was not reviewed.

**Net transfers are calculated by subtracting transfers in from transfers out. A negative amount generally indicates that the enterprise is not self-supporting and requires transfers from other funds to maintain operations.

**Submitted draft data that was not reviewed.

**Net transfers are calculated by subtracting transfers in from transfers out. A negative amount generally indicates that the enterprise is not self-supporting and requires transfers from other funds to maintain operations.

*Submitted draft data that was not reviewed.

**Net transfers are calculated by subtracting transfers in from transfers out. A negative amount generally indicates that the enterprise is not self-supporting and requires transfers from other funds to maintain operations.

ENTERPRISE FUND FOOTNOTES

- [13] The enterprise fund fiscal year-end is June 30th.
- [14] The enterprise fund fiscal year-end is September 30th.
- [25] The operations were transferred to the governmental funds.
- [29] Discretely presented component unit.

APPENDIX A

COUNTY GENERAL AND SPECIAL REVENUE

UNRESTRICTED FUND BALANCES

This page left blank intentionally

Appendix A - County General and Special Revenue Unrestricted Fund Balances

It is important to provide context on fund balance as reported by counties for this report. Fund balances are reported at the close of the fiscal year, which runs concurrent with the calendar year. County fund balances should be relatively large at the end of the year because of local government cash flow cycles. Counties must rely on their fund balances to meet expenditures during the first five months of the next fiscal year until they receive the first property tax payments (May) and aid payments from the state (July).

Unlike state government, which collects income tax withholding and sales tax receipts regularly throughout the year, many counties do not have a constant flow of revenue from which they are able to fund local government operations. Property tax levies, state-aid, and property tax credits comprise the majority of county discretionary revenues. Minnesota laws govern the flow of these major revenue sources into county treasuries:

- The first half of property taxes from property owners is due by May 15 of each year and is distributed to counties generally by the end of June or early July.
- Counties receive the first half of their state-aid and property tax credits from the state on July 20 of each year.
- The second half of property taxes from property owners is due by October 15 of each year and is distributed to counties generally by the end of November.
- Counties receive the second half of their state-aid and property tax credits from the state on December 26 of each year.

Given this state-controlled flow of revenue, county fund balances (which are measured on December 31) are the primary source of funds available to counties for their operating expenditures during the first five months of the next fiscal year. An adequate fund balance will provide counties with the cash flow required to finance expenditures and avoid short-term borrowing.

Unique Circumstances of Each County Determine the Size of Fund Balance

While counties must rely on the unrestricted fund balances for cash flow purposes during the first five months of a year, the unique circumstances of each county will determine the fund balance level that must be maintained to avoid the need for short-term borrowing and to operate effectively.

Numerous factors must be considered when determining the level of reserves necessary to avoid short-term borrowing, including:

- If counties receive relatively large amounts of revenue from sources such as fees, fines, charges for services, other intergovernmental grants and aids, or interest on investments during the first five months of the calendar year, then they will be less dependent on their fund balances for cash flow purposes.
- Counties are often able to delay certain purchases until after the initial property tax and state-aid payments are received. While payments for employee salaries, wages, and most benefits cannot be delayed during the first five months of the year, purchases of supplies and capital equipment may be delayed.

The individual cash flow needs of a county will determine the minimum fund balance that is necessary for a county to operate effectively. Counties that are able to generate significant revenues from sources other than property taxes and state-aid payments may require relatively smaller fund balances to support their cash flow requirements. Conversely, counties that rely heavily on property taxes and state-aid for the majority of their revenues will need larger fund balances to meet their cash flow needs from January through June of every calendar year.

While there are many factors that help determine the minimum fund balance needed to maintain financial health, the Office of the State Auditor recommends that at year-end, or other key times of the year, local governments that rely significantly on property taxes maintain an unrestricted fund balance in their General Fund and Special Revenue Funds of approximately 35 to 50 percent of operating revenues, or no less than five months of operating expenditures. If the local government's unrestricted fund balance is less than or greater than this recommendation, the local government should be able to explain the reason for the difference.

The Office of the State Auditor recommends that each local government establish a formal policy on the level of unrestricted fund balance that should be maintained in the General Fund and other significant governmental funds. The policy should be set by the governing body and should provide both a time frame and a specific plan for increasing or decreasing the level of unrestricted fund balance. If the fund balance does not match the policy, a plan should be developed by the governing body that will allow for compliance with the policy. The fund balance policy should include a provision for a regular review of the sufficiency of the minimum fund balance level.

Fund Balance Classifications/Definitions for Governmental Funds

The fund balances of a local government's governmental funds should be reported in the classifications based on the definitions in the following table:

<i>Fund Balance Reporting</i>		
<i>Classification</i>	<i>Definition</i>	<i>Examples</i>
Nonspendable	"Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact." ¹³	<ul style="list-style-type: none"> • Inventories, • Prepaid items, • Long-term receivables, and • Permanent principal of endowment funds.
Restricted	"Fund balance should be reported as restricted when constraints placed on the use of resources are either: <ol style="list-style-type: none"> a. Externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b. Imposed by law through constitutional provisions or enabling legislation." ¹⁴	<ul style="list-style-type: none"> • Restricted by state statute, • Unspent bond proceeds, • Grants earned but not spent, • Debt covenants, • Taxes dedicated to a specific purpose, and • Revenues restricted by enabling legislation.
Unrestricted	Committed "Used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority." ¹⁵	<ul style="list-style-type: none"> • The governing board has decided to set aside \$1 million for a new city hall, and • Property tax levies set for a specific purpose by resolution.
	Assigned "Amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed." ¹⁶	<ul style="list-style-type: none"> • Governing board has set aside \$2 million for a county hospital, and the county manager may amend this up to \$100,000; • Governing body delegates the authority to assign fund balance to the finance officer; • Governing board has appropriated fund balance often to balance next year's budget; and • Positive residual balances in governmental funds other than the General Fund.
	Unassigned Unassigned fund balance is the residual classification for the General Fund. This is fund balance that has not been reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Other governmental funds would report deficit fund balances as unassigned. ¹⁷

GLOSSARY

This page left blank intentionally

ALL OTHER EXPENDITURES - These expenditures reflect the costs of activities that were not allocated to a specific function. Some activities included in this category are pension and insurance costs not allocated to a specific department.

ALL OTHER REVENUES - These revenues refer to refunds, reimbursements, donations, and lease payments.

ASSIGNED FUND BALANCES - Fund balances that are constrained by the government's intent that they be used for specific purposes, but are neither restricted nor committed.

BORROWING - These other financing sources reflect the sale of bonds and notes, certificates of indebtedness, and tax anticipation certificates. Counties are restricted by law from borrowing for current expenses.

CAPITAL OUTLAY - These expenditures include the purchase, construction, or permanent improvements of buildings, equipment, machinery, and land. Capital outlay varies from year to year based on the needs and resources of the counties.

CAPITAL PROJECTS FUND - A fund used to account for financial resources to be used for the acquisition, construction, or improvement of major capital facilities (other than those financed by enterprise funds).

CHARGES FOR SERVICES - These revenues represent user charges paid in exchange for a service, exclusive of revenues from enterprise funds. Examples include sanitation charges, golf fees, court costs, and public safety contracts.

COMMITTED FUND BALANCE - The fund balance amount that can be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority.

DEBT SERVICE EXPENDITURES - These expenditures reflect the annual costs of servicing the outstanding debt of the local government. These costs include principal, interest, and some fiscal charges.

DEBT SERVICE FUND - A fund to account for the collection of resources designated to pay the interest, fiscal charges, and principal on long-term debt.

ENTERPRISE FUND - A fund established to account for operations financed and operated in a manner similar to private business. Examples include hospitals, nursing homes, nursing services, and solid waste. The expenses of providing services are primarily financed by user charges.

FINES AND FORFEITS - These revenues reflect receipts from the payment of penalties for law violations, non-observance of contracts, and forfeited deposits.

GENERAL FUND - The fund used to account for all financial resources not required to be accounted for in another fund. This fund is the main operating fund.

GENERAL GOVERNMENT EXPENDITURES - These expenditures reflect the costs associated with local government functions, such as administration, finance, and elections. Expenditures in this category include salaries, wages, and benefits of legislative, judicial, and administrative personnel, in addition to supplies and building maintenance.

GOVERNMENTAL FUNDS - These are funds through which most governmental activities are financed. The five governmental fund types are: General, Special Revenue, Debt Service, Capital Projects, and Permanent.

HEALTH - These expenditures are for the maintenance of vital statistics, restaurant inspection, communicable disease control, and various health services and clinics.

HRA AND ECONOMIC DEVELOPMENT - These expenditures are for development and redevelopment activities in blighted or otherwise economically disadvantaged areas. Activities may include low-interest loans to individuals and businesses, cleanup of hazardous sites, rehabilitation of substandard housing and other physical facilities, and other assistance to those wanting to provide housing and economic opportunity within a disadvantaged area.

HUMAN SERVICES - These expenditures are for activities designed to provide public assistance and institutional care for individuals economically unable to provide essential needs for themselves.

INTEREST EARNINGS - These revenues reflect interest earned on checking and savings accounts, CDs, money market funds, and bonds. This category also includes dividends. In addition, the net increase or decrease in the fair value of investments is recorded here.

LIBRARIES - These expenditures relate to the current expenditures and capital outlays for county public libraries. Current expenditures include expenditures for staffing and administration, circulation, cataloging of library materials, reference services for library patrons, processing and forwarding materials, and general infrastructure costs. Examples of capital outlays are construction, renovation of existing facilities, and the purchase of mobile library units.

LICENSES AND PERMITS - These revenues reflect receipts from liquor licenses, cigarette licenses, other business licenses, building permits, and other non-business licenses and permits.

NET TAX LEVY - The net county property taxes, after state property tax relief aids or grants, required to be paid by the property owners of the county.

NET TAXABLE TAX CAPACITY - The tax capacity, less the tax increment district value, less the fiscal disparities contribution value, plus the fiscal disparities distribution value.

NONSPENDABLE FUND BALANCE - Amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

OTHER FINANCING SOURCES - These sources include long-term debt proceeds, sales of fixed assets, and transfers from other funds.

OTHER FINANCING USES - These sources include transfers to other funds, the refunding of bond proceeds deposited with an escrow agent and invested until they are used to pay principal and interest on the old debt at a future time, and remittance to other agencies.

OUTSTANDING LONG-TERM DEBT - This category refers to the long-term debt that a local government has incurred to finance its capital projects. Examples of long-term debt include various types of bonds and other obligations, such as notes and long-term leases.

PARKS AND RECREATION - These expenditures reflect park maintenance, mowing, planting, and removal of trees. Recreation expenditures include festivals, bands, museums, community centers, baseball fields, organized recreation activities, etc.

PERMANENT FUND - A fiduciary fund type used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the county programs.

PUBLIC SAFETY EXPENDITURES - These expenditures reflect the costs related to the protection of persons and property.

RESTRICTED FUND BALANCES - Fund balances that have constraints placed on the use of resources either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

SANITATION - These expenditures reflect the costs of refuse collection and disposal, recycling, as well as weed and pest control. Some local governments provide sanitation services through enterprise funds.

SPECIAL ASSESSMENTS - These revenues refer to levies made against certain properties to defray all or part of the costs of a specific improvement, such as ditch maintenance, deemed to benefit primarily those properties. The amount includes the penalties and interest paid on the assessments.

SPECIAL REVENUE FUND - A fund used to account for the proceeds of specific revenue sources that are restricted to expenditures for a specific purpose.

STREETS AND HIGHWAYS EXPENDITURES - These expenditures reflect the costs associated with the maintenance and repair of local highways, streets, bridges, and street equipment. Common expenditures include patching, seal coating, and snow removal. Expenditures for road construction are not included in current expenditures but are accounted for as capital outlay.

TAX CAPACITY - The value assigned to the property used to calculate the property taxes.

TOTAL CURRENT EXPENDITURES - This category reflects the total of all expenditures relating to current operations.

TOTAL EXPENDITURES - This category includes current operating expenditures, capital outlays, and debt service principal and interest payments.

TOTAL REVENUES - This category reflects all sources of revenue that increase the amount of available resources without creating a liability or a future payment. Borrowing and transfers between funds are not included in total revenues.

TRANSFERS - ENTERPRISE FUNDS - The transfer of available resources to or from public service enterprises. It is shown separately because enterprise funds are not included in the governmental funds.

TRANSFERS - GOVERNMENTAL FUNDS - The transfer of money between governmental fund types. The revenues and expenditures for these funds are always shown in the same tables.

UNALLOCATED INSURANCE - These expenditures refer to insurance premiums that were not allocated to a specific function of government.

UNALLOCATED PENSION CONTRIBUTIONS - These expenditures refer to contributions to pension plans that were not allocated to a specific function of government.

UNASSIGNED FUND BALANCE - Unassigned fund balance is the residual classification for the General Fund. This is fund balance that has not been reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Other governmental funds would report deficit fund balances as unassigned.
