Organizational Profile (Brief Overview)

The Minnesota Department of Natural Resources (DNR) is committed to creating a healthy, sustainable, and livable Minnesota. The mission of the DNR is to conserve and manage the state's natural resources, to provide outdoor recreation opportunities, and to sustainably provide for commercial uses of natural resources.

The Minnesota Department of Natural Resources works to integrate and sustain the interdependent values of a healthy environment, a sustainable economy, and livable communities. DNR's integrated resource management strategy shares stewardship responsibility with citizens and partners to manage for multiple interests. DNR protects the state's natural heritage by conserving the diversity of natural lands, waters, and fish and wildlife that provide the foundation for Minnesota's recreational and natural resource-based economy (M.S. 84, M.S. 97A). DNR manages natural lands such as forests, wetlands, and native prairies; maintains healthy populations of fish and wildlife; and protects rare plant and animal communities throughout the state. DNR manages the state's water resources, sustaining healthy waterways and ground water resources. DNR provides access to enrich public outdoor recreational opportunities, such as hunting, fishing, wildlife-watching, camping, skiing, hiking, biking, motorized recreation, and conservation education through a state outdoor recreation system that includes parks, trails, wildlife management areas, scientific and natural areas, water trails, and other facilities (M.S. 86A). DNR supports natural resource-based economies, managing state forest lands for multiple forest values (M.S. 89), ensuring the maximum long-term economic return from school trust lands (M.S. 127A), and providing other economic opportunities in a manner consistent with sound natural resource conservation and management principles.

Statement of Commitment

This statement reaffirms the DNR is committed to Minnesota's statewide affirmative action efforts and providing equal employment opportunity to all employees and applicants in accordance with equal opportunity and affirmative action laws.

I affirm my personal and official support of these policies which provide that:

- No individual shall be discriminated against in the terms and conditions of employment, personnel practices, or access to and participation in programs, services, and activities, or subject to harassment, on the basis of race, sex (including pregnancy), color, creed, religion, age, national origin, sexual orientation, gender expression, gender identity, disability, marital status, familial status, status with regard to public assistance, or membership or activity in a local human rights commission.
- The prohibition of discrimination on the basis of sex precludes sexual harassment, gender-based harassment, and harassment based on pregnancy.
- This agency is committed to the implementation of the affirmative action policies, programs, and procedures included in this plan to ensure that employment practices are free from

discrimination. Employment practices include, but are not limited to the following: hiring, promotion, demotion, transfer, recruitment or recruitment advertising, layoff, disciplinary action, termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship. We will provide reasonable accommodation to employees and applicants with disabilities.

- This agency will continue to actively promote a program of affirmative action, wherever minorities, women, and individuals with disabilities are underrepresented in the workforce, and work to retain all qualified, talented employees, including protected group employees.
- This agency will evaluate its efforts, including those of its directors, managers, and supervisors, in promoting equal opportunity and achieving affirmative action objectives contained herein. In addition, this agency will expect all employees to perform their job duties in a manner that promotes equal opportunity for all.

It is the agency's policy to provide an employment environment free of any form of discriminatory harassment as prohibited by federal, state, and local human rights laws. I strongly encourage suggestions as to how we may improve. We strive to provide equal employment opportunities and the best possible service to all Minnesotans.

Underutilization Analysis and Affirmative Action Goals

The DNR continues to strive for increased diversity within its employee populations and will make good faith efforts to better reflect Minnesota’s changing demographics and labor force availability.

The DNR’s utilization analysis was conducted using 2010 Minnesota Statewide Labor Force Availability census data as DNR worksite locations are spread throughout the state and are located in 64 of Minnesota’s 87 counties.

Other factors were then weighed to determine hiring goals and timeframes. These include the number of vacancies that could reasonably be expected based on the DNR’s historical job posting data, the manner in which the vacancies can be filled, and the availability of candidates in each category.

Through the underutilization analysis, the agency has identified the job categories in which women, minorities, and individuals with disabilities are underutilized and has set the following hiring goals for the next two years (Reference Table 2).

Table 2: Underutilization Analysis and Hiring Goals for 2018-2020

Job Categories	Women		Racial/Ethnic Minorities		Individuals w/ Disabilities	
	# Under-utilized	Hiring Goal	# Under-utilized	Hiring Goal	# Under-utilized	Hiring Goal
Officials/Administrators		2		1		
Professionals	76	15	26	8		
Protective Services: Sworn	2	2	1	1	9	1
Protective Services: Non-sworn	11	2	1	1	3	1
Administrative Support / Paraprofessional			1	2		
Technicians	56	5	11	2	5	2
Skilled Craft	1	1			1	1

Job Categories	Women		Racial/Ethnic Minorities		Individuals w/ Disabilities	
	# Under-utilized	Hiring Goal	# Under-utilized	Hiring Goal	# Under-utilized	Hiring Goal
Service Maintenance	24	3	78	3	22	3

Availability

The Agency determined the recruitment area to be statewide for all job categories as the Agency’s workforce comprises employees working in numerous worksite locations across the state in 64 of Minnesota’s 87 counties. In conducting its underutilization analysis, the Agency used the two-factor analysis. The agency determined it was best to use this type of analysis because the Agency uses both internal and external sources for hiring employees into designated job groups.

Underutilization Analysis worksheets are attached in the appendix. Numbers less than 10 are indicated with “<10” in accordance with Minnesota Management and Budget’s guidance on data privacy.

Women

At the Agency, the population of women has increased in the following job categories: Professionals; and Protective Services-Sworn. However, the utilization rate of women has not increased in the following job categories: Protective Services-Non-sworn; Technicians; Skilled Craft; and Service Maintenance.

The Professionals category is the largest category at the DNR and also has the largest number of underutilizations. To address this disparity, the DNR has made efforts to recruit and hire more women into this category by attending women-focused recruitment events and publishing in women-focused publications.

The Protective Services – Sworn category is specific to the DNR’s Enforcement Division. This division has increased all recruitment activities, including those focused on recruiting women. If the DNR’s Enforcement Division continues these focused recruitment activities, more improvements should be realized.

The Protective Services – Non-sworn category is specific to the DNR’s Forestry and Parks and Trails Divisions. These divisions have made efforts toward reaching diversity goals, however, more targeted efforts should be made for this category to affect change in the 2018-2020 Plan.

The Technicians and Service Maintenance category includes many positions that are spread across many of the DNR’s divisions. More analysis is needed in order to develop a strategy to address underutilizations in this category.

The Skilled Craft category is the category with the fewest number of positions in the DNR. It also does not experience high turnover, therefore, when there is a job opening, recruitment efforts will be intentional and focused on increasing diversity.

Minorities

At the Agency, the population of minorities has increased in the following job categories: Protective Services – Sworn and Administrative Support / Paraprofessionals. The rate of minority utilization has not increased in the following job categories: Professionals; Protective Services: Non-sworn; Technicians; and Service Maintenance.

The Protective Services – Sworn category is specific to the DNR’s enforcement division. This division has increased all recruitment activities, including those that target diversity. If increased recruitment efforts continue through the 2018-2020 Plan period, more improvements should be seen.

Of the not-improved categories, the largest, by numbers, is Service Maintenance. Since jobs in this category are used by more than one of the DNR’s divisions, more analysis is needed in order to develop a strategic recruitment plan.

Individuals with Disabilities

At the agency, the population of individuals with disabilities has increased in the job categories Technicians and Service Maintenance, but has not increased in the job category Protective Services – Non-sworn.

Jobs in both the Technicians and Service Maintenance categories are used by more than one of the DNR’s divisions and the utilization rate improvement is reflective of the DNR’s overall efforts to increase diversity.

The Protective Services: Non-sworn category is specific to the DNR’s Forestry and Parks and Trails Divisions. These divisions have made efforts toward reaching diversity goals, however, more targeted efforts should be made for this category to effect change in the 2018-2020 Plan.

Separation and Retention Analysis by Protected Groups

The Agency is committed to the retention of all employees, including members of the following protected groups: women, racial/ethnic minorities, and individuals with disabilities. The Agency will strive to affirmatively ensure equal employment opportunity by retaining a diverse composite of talented and qualified employees, with emphasis on under-represented individuals. To be successful, the responsibility for these retention efforts lies with all employees. The Agency’s retention strategy is a multi-faceted approach, guided by Agency management, Human Resources Director, and Affirmative Action Officer.

Table 3: Persons Responsible for Agency Retention Programs/Activities

Program Objectives, Identified Barriers, and Corrective Action to Eliminate Barriers

The Agency's Affirmative Action Program is designed to implement the provisions of this Affirmative Action Plan and meet requirements found in Minnesota Statutes, Chapter 43A.191, and Subdivision 2.

This section will outline methods this agency has identified to eliminate barriers, provide corrective actions, and achieve affirmative action goals for underutilized protected group applicants/employees (broken down by specific job categories.) These objectives have been developed as strategic, actionable and measurable efforts the agency has committed to pursuing and implementing from 2018-2020.

The following corrective action has been planned to eliminate the barriers for women in each category.

Recruitment Action for Women in These Categories

To address the under-representation of women in both the Professionals and Protective Services: Sworn categories, the DNR has, and plans to continue, increased recruitment efforts by attending women-focused recruitment events and publishing in women-focused publications. These efforts will be further advanced with the addition of the newly created Diversity Program Coordinator position, the mandate of which is to ensure coordination of these efforts and measure outcomes.

The Protective Services - Non-sworn category is specific to the DNR's Forestry and Parks and Trails Divisions. The Diversity Program Coordinator will work directly with these divisions to develop targeted recruitment strategies for this category.

Both the Technicians and Service Maintenance category are included in more than one of the DNR's divisions. The Diversity Program Coordinator will perform an in-depth workforce analysis in these categories and develop targeted recruitment strategies.

The Skilled Craft category is the category with the fewest number of positions in the DNR. It also incurs minimal turnover; therefore, there are not many opportunities to hire affirmatively. Each time there is an opening in this category Employment Services will work with the Diversity Program Coordinator to create a plan that increases the opportunity to hire affirmatively.

For all categories the DNR has been given funding through the Legislative-Citizen Commission on Minnesota Resources (LCCMR) to partner with Conservation Corps of Minnesota and Iowa (CCMI) to develop a new pipeline program to bridge students with identified barriers from secondary school through college and into employment in natural resources.

Recruitment Barrier Identified for Women in These Categories

Many of the DNR's positions, especially in the Professionals category, are further categorized as STEM (Science, Technology, Engineering, and Math). Department of Education data shows less than 30% of STEM degree holders are women. To overcome this barrier the DNR is involved in many outreach activities with elementary and secondary schools. The DNR also participates in many pipeline programs for post-secondary students. The Diversity Program Coordinator will further evaluate these programs for coordination and measurement of outcomes. The Diversity Program Coordinator will also actively seek out new pipeline opportunities.

Future Evaluation

Each quarter the progress toward goals will be measured including percentages in categories, hire data, and separation data. After one year, the progress will be assessed and the program objective may be modified.

Past Evaluation

Increasing recruitment efforts, outreach, and evaluations were each identified in the 2016-2018 Plan. Improvement was seen in two job categories by working toward these objectives. A critical difference in the 2018-2020 Plan is the addition of the Diversity Program Coordinator. This newly created, fulltime position will be primarily focused on strategic diversity recruitment.

Persons Responsible

- Diversity Program Coordinator

Target Dates

- Immediately – Employment Services will work with the Diversity Program Coordinator on each opening for the Skilled Craft job category
- 6 months – Diversity Program Coordinator will work directly with the Forestry and Parks and Trails Divisions to provide more targeted recruitment efforts in relation to the Protective Services - Non-sworn job category
- 1 year – Diversity Program Coordinator to perform a more in-depth workforce analysis in the Technicians and Service Maintenance job categories
- 1 year - Diversity Program Coordinator will evaluate, coordinate, and measure outcomes of increased recruitment efforts
- 1 year – Diversity Program Coordinator will evaluate, coordinate, and measure outcomes of pipeline programs
- 2 years – A new CCMI/DNR pipeline program will be developed

Recruitment action for ethnic/racial minorities in these categories:

The DNR plans to hire more minorities in the Professionals, Protective Services - Sworn, and Administrative Support/Paraprofessionals categories by continuing to increase recruitment efforts at minority-focused recruitment events and advertising jobs in minority-focused publications. These efforts will be further elevated with the addition of the newly created Diversity Program Coordinator position to ensure coordination and measure outcomes.

A large percentage (7%) of DNR employees choose not to disclose their status with regard to disability under Affirmative Action. To encourage voluntary disclosure, a training segment on Affirmative Action will be added to the New Employee Orientation and New Supervisor Orientation trainings. Also, to encourage more employees to voluntarily disclose, the Affirmative Action Officer will create a webpage on the DNR's intranet dedicated to Affirmative Action.

Methods of Auditing, Evaluating, and Reporting Program Success

Pre-Employment Review Procedure/Monitoring the Hiring Process

The DNR will evaluate its selection process to determine if its requirements unnecessarily screen out a disproportionate number of women, minorities, or individuals with disabilities. The agency will use the electronic monitoring the hiring process form for every hire to track the number of women, minorities, and individuals with disabilities in each stage of the selection process. Directors, managers, and supervisors will work closely with human resources and the Affirmative Action Officer in reviewing the requirements for the position, posting the position, and interviewing and selection to ensure that equal opportunity and affirmative action is carried out. Directors, managers, and supervisors will be asked to document their hiring decisions. Agency leadership, along with the Affirmative Action Officer, will review the hiring decisions to ensure the hiring decisions are free of bias.

Any time the agency cannot justify a non-affirmative hire, the agency takes a missed opportunity. Agency leadership will be asked to approve the missed opportunity. On a quarterly basis, the Agency will report to Minnesota Management and Budget the number of affirmative and non-affirmative hires as well as missed opportunities.

When candidates are invited to participate in the selection process, employees scheduling the selection process will describe the process format to the candidate (*e.g.*, interview process, testing process). All candidates will be provided information regarding the procedure to request reasonable accommodations, if necessary, to allow candidates with disabilities equal opportunity to participate in the selection process. For example, describe if interview questions are offered ahead of time or what technology may be used during a test. This allows for an individual with a disability to determine if they may need a reasonable accommodation in advance of the selection process.

All personnel involved in the selection process will be trained and accountable for the agency's commitment to equal opportunity and the affirmative action program and its implementation.

Pre-Review Procedure for Layoff Decisions

The DNR will follow the layoff procedures specified in the applicable bargaining unit agreements. Prior to implementation, all layoff decisions will be reviewed by the Human Resources Director and the Affirmative Action Officer to assess the effects on the agency's affirmative action goals and timetables.

If it is determined that there is an adverse impact on protected groups, the DNR will document the reasons why the layoff is occurring, such as positions targeted for layoff, applicable personnel policies, collective bargaining agreement provisions, or other relevant reasons. The agency will determine if other alternatives are available to minimize the impact on protected groups.

Other Methods of Program Evaluation

The agency submits the following compliance reports to Minnesota Management and Budget as part of the efforts to evaluate the agency's affirmative action program:

- Quarterly Monitoring the Hiring Process Reports;
- Biannual Affirmative Action Plan;
- Annual Americans with Disabilities Act Report;
- Annual Internal Complaint Report; and
- Disposition of Internal Complaint (submitted to MMB within 30 days of final disposition).

The Affirmative Action Officer also evaluates the Affirmative Action Plan in the following ways:

- Monitors progress toward stated goals by job category and update Human Resources staff on a quarterly basis;
- Periodically analyzes employment activity (hires, promotions, and terminations) by job category to determine if there is disparate impact;
- Periodically reviews the accessibility of online systems and websites, and ensures that reasonable accommodations can be easily requested; and
- Briefs agency leadership on progress toward affirmative action goals and other affirmative action and equal opportunity issues, discusses initiatives, and makes recommendations for improvement on a quarterly basis.

Any individual who believes that they have been subject to harassment, discrimination, or retaliation in violation of the Harassment and Discrimination Prohibited Policy or the Sexual Harassment Prohibited Policy is encouraged to use this internal complaint procedure.

If the individual chooses, a complaint can be filed externally with the Minnesota Department of Human Rights (MDHR), the U.S. Equal Employment Opportunity Commission (EEOC), or through other legal channels. The MDHR, EEOC and other legal channels have time limits for filing complaints; individuals may contact the MDHR, EEOC, or a private attorney for more information.

Retaliation against any person who has filed a complaint either internally through this complaint procedure or through an outside enforcement agency or other legal channels is prohibited.

Individuals who knowingly file a false complaint will be subject to disciplinary or corrective action.

The following are the procedures for filing a complaint:

1. The individual is encouraged, but is not required, to complete the “Harassment and Discrimination Prohibited/ Sexual Harassment Prohibited Policies Complaint Form” attached to this plan or on the DNR’s [Equal Opportunity Diversity and Inclusion](#) intranet page. The Affirmative Action Officer will, if requested, provide assistance in filling out the form.
 - Individuals are encouraged to file a complaint within a reasonable period of time after the individual becomes aware that a situation may involve conduct in violation of the Harassment and Discrimination Prohibited Policy or the Sexual Harassment Prohibited Policy.
 - The complaint form may be submitted to the Human Resources Director, a Human Resources Sr. Investigator, the Affirmative Action Officer, or any DNR supervisor or manager. The recipient of the complaint will notify the Human Resources Director that a complaint has been filed. If the complaint involves the Human Resources Director, a Sr. Investigator or the Affirmative Action Officer, the complaint may be submitted to the Division Director of Operations Support or the Deputy Commissioner.

2. The Human Resources Director, in consultation with the Affirmative Action Officer or Sr. Investigator, determines if the complainant is alleging conduct in violation of the Harassment and Discrimination Prohibited Policy or the Sexual Harassment Prohibited Policy; or if the complaint instead is of a general personnel concern, a general concern of respect in the workplace, or other potential policy violation.
 - If it is determined that the complaint is not related to conduct that would violate the Harassment and Discrimination Prohibited Policy or the Sexual Harassment Prohibited Policy, but rather involves general personnel concerns, general concerns of respect in the workplace, or other potential policy violations, the Human Resources Director, Affirmative Action Officer, or Sr. Investigator, will inform the complainant, in writing, within ten (10) business days.
 - If it is determined that the complaint is related to conduct that would violate the Harassment and Discrimination Prohibited Policy or the Sexual Harassment Prohibited Policy, the Human Resources Director, in consultation with the Affirmative Action Officer or Sr. Investigator, will determine whether corrective action may be taken without an investigation. If it is determined that an investigation is necessary, the Human Resources Director will assign the Affirmative Action Officer or Sr. Investigator to investigate the complaint.
3. The Affirmative Action Officer or Sr. Investigator shall create a written investigation report of every investigation conducted. This report will be presented to the appropriate agency leadership. If the investigation shows sufficient evidence to substantiate the complaint, appropriate corrective action will be taken.
4. Within (60) days after the complaint is filed, the Affirmative Action Officer or Sr. Investigator shall provide a written answer to the complainant, unless reasonable cause for delay exists. The complainant will be notified if the written answer is not expected to be issued within the sixty (60) day period. The written answer to the complainant must comply with the data privacy restrictions of the Minnesota Government Data Practices Act.
5. Disposition of the complaint will be filed with the Commissioner of Minnesota Management and Budget within thirty (30) days after the final determination.
6. The status of the complaint may be shared with the complainant(s) and respondent(s). All data related to the complaint are subject to the provisions of the Minnesota Government Data Practices Act.
7. The Affirmative Action Officer or Sr. Investigator shall maintain records of all complaints, investigation reports, and any other data or information the Affirmative Action Officer or Sr. Investigator deems pertinent for seven (7) years after the complaint is closed.

8. In extenuating circumstances, the employee or applicant may contact the State Affirmative Action Officer in the Office of Equal Opportunity at Minnesota Management and Budget for information regarding the filing of a complaint (for example, if the complaint is against the agency head or the agency Affirmative Action Officer).

Statewide ADA Reasonable Accommodation Policy

Statewide HR/LR Policy #1433: ADA Reasonable Accommodation Policy

OBJECTIVE

The goals of this policy are:

- To ensure compliance with all applicable state and federal laws;
- To establish a written and readily accessible procedure regarding reasonable accommodation, including providing notice of this policy on all job announcements;
- To provide guidance and resources about reasonable accommodations;
- To provide a respectful interactive process to explore reasonable accommodations; and
- To provide a timely and thorough review process for requests for reasonable accommodation.

Policy Statement

State agencies must comply with all state and federal laws that prohibit discrimination against qualified individuals with disabilities in all employment practices. All state agencies must provide reasonable accommodations to qualified applicants and employees with disabilities unless to do so would cause an undue hardship or pose a direct threat. Agencies must provide reasonable accommodation when:

- A qualified applicant with a disability needs an accommodation to have an equal opportunity to compete for a job;
- A qualified employee with a disability needs an accommodation to perform the essential functions of the employee's job; and
- A qualified employee with a disability needs an accommodation to enjoy equal access to benefits and privileges of employment (e.g., trainings, office sponsored events).

Scope

This policy applies to all employees of the Executive Branch and classified employees in the Office of Legislative Auditor, Minnesota State Retirement System, Public Employee Retirement System, and Teachers' Retirement System.

Definitions

Applicant- A person who expresses interest in employment and satisfies the minimum requirements for application established by the job posting and job description.

Americans with Disabilities Act (ADA) Coordinator- Each agency is required to appoint an ADA coordinator or designee, depending on agency size, to direct and coordinate agency compliance with Title I of the ADA.

Direct Threat- A significant risk of substantial harm to the health or safety of the individual or others that cannot be eliminated or reduced by reasonable accommodation.

The determination that an individual poses a direct threat shall be based on an individualized assessment of the individual's present ability to safely perform the essential functions of the job.

Essential Functions- Duties so fundamental that the individual cannot do the job without being able to perform them. A function can be essential if:

- The job exists specifically to perform the function(s); or
- There are a limited number of other employees who could perform the function(s); or
- The function(s) is/are specialized and the individual is hired based on the employee's expertise.

Interactive Process- A discussion between the employer and the individual with a disability to determine an effective reasonable accommodation for the individual with a disability. To be interactive, both sides must communicate and exchange information.

Individual with a Disability- An individual who:

- Has a physical, sensory, or mental impairment that substantially limits one or more major life activities; or
- Has a record or history of such impairment; or
- Is regarded as having such impairment.

Qualified Individual with a Disability- An individual who:

- Satisfies the requisite skill, experience, education, and other job-related requirements of the job that the individual holds or desires; and
- Can perform the essential functions of the position with or without reasonable accommodation.

Major Life Activities- May include, but are not limited to, caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, and working.

Major life activities also include the operation of a major bodily function, including but not limited to, functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

Medical Documentation- Information from the requestor's treating provider which is sufficient to enable the employer to determine whether an individual has a disability and whether and what type of reasonable accommodation is needed when the disability or the need for accommodation is not obvious. Medical documentation can be requested using the standardized [Letter Requesting Documentation for Determining ADA Eligibility from a Medical Provider](#).

Reasonable Accommodation- An adjustment or alteration that enables a qualified individual with a disability to apply for a job, perform job duties, or enjoy the benefits and privileges of employment. Reasonable accommodations may include:

- Modifications or adjustments to a job application process to permit a qualified individual with a disability to be considered for a job; or
- Modifications or adjustments to enable a qualified individual with a disability to perform the essential functions of the job; or
- Modifications or adjustments that enable qualified employees with disabilities to enjoy equal benefits and privileges of employment.
- Modifications or adjustments may include, but are not limited to:
 - Providing materials in alternative formats like large print or Braille;
 - Providing assistive technology, including information technology and communications equipment, or specially designed furniture;
 - Modifying work schedules or supervisory methods;
 - Granting breaks or providing leave;
 - Altering how or when job duties are performed;
 - Removing and/or substituting a marginal function;
 - Moving to a different office space;
 - Providing telework;
 - Making changes in workplace policies;
 - Providing a reader or other staff assistant to enable employees to perform their job functions, where a reasonable accommodation cannot be provided by current staff;
 - Removing an architectural barrier, including reconfiguring work spaces;
 - Providing accessible parking;
 - Providing a sign language interpreter; or
 - Providing a reassignment to a vacant position.

Reassignment- Reassignment to a vacant position for which an employee is qualified is a “last resort” form of a reasonable accommodation. This type of accommodation must be provided to an employee, who, because of a disability, can no longer perform the essential functions of the position, with or without reasonable accommodation, unless the employer can show that it will be an undue hardship.

Support Person- Any person an individual with a disability identifies to help during the reasonable accommodation process in terms of filling out paperwork, attending meetings during the interactive process to take notes or ask clarifying questions, or to provide emotional support.

Undue Hardship- A specific reasonable accommodation would require significant difficulty or expense. Undue hardship is always determined on a case-by-case basis considering factors that include the nature and cost of the accommodation requested and the impact of the accommodation on the operations of the agency. A state agency is not required to provide accommodations that would impose an undue hardship on the operation of the agency.

GENERAL STANDARDS AND EXPECTATIONS

Individuals who may request a reasonable accommodation include:

- Any qualified applicant with a disability who needs assistance with the job application procedure or the interview or selection process; or
- Any qualified agency employee with a disability who needs a reasonable accommodation to perform the essential functions of the position; or
- A third party, such as a family member, friend, health professional or other representative, on behalf of a qualified applicant or employee with a disability, when the applicant or employee is unable to make the request for reasonable accommodation. When possible, the agency must contact the applicant or employee to confirm that the accommodation is wanted. The applicant or employee has the discretion to accept or reject the proposed accommodation.

The agency must abide by the [Minnesota Government Data Practices Act, Chapter 13](#), in obtaining or sharing information related to accommodation requests.

How to request a reasonable accommodation

An agency applicant or employee may make a reasonable accommodation request to any or all of the following:

- Immediate supervisor or manager in the employee's chain of command;
- Agency Affirmative Action Officer/Designee;
- Agency ADA Coordinator;
- Agency Human Resources Office;

- Any agency official with whom the applicant has contact during the application, interview and/or selection process.

Timing of the request

An applicant or employee may request a reasonable accommodation at any time, even if the individual has not previously disclosed the existence of a disability or the need for an accommodation. A request is any communication in which an individual asks or states that he or she needs the agency to provide or change something because of a medical condition.

The reasonable accommodation process begins as soon as possible after the request for accommodation is made.

Form of the request

The applicant or employee is responsible for requesting a reasonable accommodation or providing sufficient notice to the agency that an accommodation is needed.

An initial request for accommodation may be made in any manner (e.g., writing, electronically, in person or orally).

The individual requesting an accommodation does not have to use any special words and does not have to mention the ADA or use the phrase "reasonable accommodation" or "disability."

Oral requests must be documented in writing to ensure efficient processing of requests.

Agency request forms can be found at: "[Employee/Applicant Request for Reasonable Accommodation Form](#)".

When a supervisor or manager observes or receives information indicating that an employee is experiencing difficulty performing the job due to a medical condition or disability, further inquiry may be required. Supervisors or managers should consult with the agency ADA Coordinator for advice on how to proceed.

When an employee needs the same reasonable accommodation on a repeated basis (e.g., the assistance of a sign language interpreter), a written request for accommodation is required the first time only. However, the employee requesting an accommodation must give appropriate advance notice each subsequent time the accommodation is needed. If the accommodation is needed on a regular basis (e.g., a weekly staff meeting), the agency must make appropriate arrangements without requiring a request in advance of each occasion.

The interactive process entails

Communication is a priority and encouraged throughout the entire reasonable accommodation process. The interactive process is a collaborative process between the employee and/or applicant and the agency to explore and identify specific reasonable accommodation(s). (For information on

the Interactive Process see the U.S. Department of Labor, Job Accommodation Network at <http://askjan.org/topics/interactive.htm>). This process is required when:

- The need for a reasonable accommodation is not obvious;
- The specific limitation, problem or barrier is unclear;
- An effective reasonable accommodation is not obvious;
- The parties are considering different forms of reasonable accommodation;
- The medical condition changes or fluctuates; or,
- There are questions about the reasonableness of the requested accommodation.

The interactive process should begin as soon as possible after a request for reasonable accommodation is made or the need for accommodation becomes known.

The process should ensure a full exchange of relevant information and communication between the individual and the agency. An individual may request that the agency ADA Coordinator, a union representative, or support person be present.

The agency ADA Coordinator shall be consulted when:

- Issues, conflicts or questions arise in the interactive process; and
- Prior to denying a request for accommodation.

Agency responsibilities for processing the request

As the first step in processing a request for reasonable accommodation, the person who receives the request must promptly forward the request to the appropriate decision maker. At the same time, the recipient will notify the requestor who the decision maker is.

Commissioner

The commissioner of the agency or agency head has the ultimate responsibility to ensure compliance with the ADA and this policy and appoint an ADA Coordinator.

ADA Coordinator

The agency ADA Coordinator is the agency's decision maker for reasonable accommodation requests for all types of requests outside of the supervisors' and managers' authority. The agency ADA Coordinator will work with the supervisor and manager, and where necessary, with agency Human Resources, to implement the approved reasonable accommodation.

Supervisors and Managers

Agencies have the authority to designate the level of management approval needed for reasonable accommodation requests for low-cost purchases. For example:

Requests for standard office equipment that is needed as a reasonable accommodation and adaptive items costing less than \$100. [Agencies can adjust the dollar amount based on their needs]; and

Requests for a change in a condition of employment such as modified duties, or a change in schedule, or the location and size of an employee's workspace. [Agencies can choose to delegate specific requests to supervisors or managers or require these types of requests to work through the agency ADA Coordinator].

Analysis for processing requests

Before approving or denying a request for accommodation, the agency decision maker with assistance from the agency ADA Coordinator will:

1. Determine if the requestor is a qualified individual with a disability;
2. Determine if the accommodation is needed to:
 - Enable a qualified applicant with a disability to be considered for the position the individual desires;
 - Enable a qualified employee with a disability to perform the essential functions of the position; or
 - Enable a qualified employee with a disability to enjoy equal benefits or privileges of employment as similarly situated employees without disabilities;
3. Determine whether the requested accommodation is reasonable;
4. Determine whether there is a reasonable accommodation that will be effective for the requestor and the agency; and
5. Determine whether the reasonable accommodation will impose an undue hardship on the agency's operations.

An employee's accommodation preference is always seriously considered, but the agency is not obligated to provide the requestor's accommodation of choice, so long as it offers an effective accommodation, or determines that accommodation would cause an undue hardship.

Obtaining medical documentation in connection with a request for reasonable accommodation

In some cases, the disability and need for accommodation will be reasonably evident or already known, for example, where an employee is blind. In these cases, the agency will not seek further medical documentation. If a requestor's disability and/or need for reasonable accommodation are not obvious or already known, the agency ADA Coordinator may require medical information showing that the requestor has a covered disability that requires accommodation. The agency ADA Coordinator may request medical information in certain other circumstances. For example when:

- The information submitted by the requestor is insufficient to document the disability or the need for the accommodation;
- A question exists as to whether an individual is able to perform the essential functions of the position, with or without reasonable accommodation; or
- A question exists as to whether the employee will pose a direct threat to himself/herself or others.

Where medical documentation is necessary, the agency ADA Coordinator must make the request and use the [Letter Requesting Documentation for Determining ADA Eligibility from a Medical Provider](#). The agency ADA Coordinator must also obtain the requestor's completed and signed [Authorization for Release of Medical Information](#) before sending the Letter to, or otherwise communicating with, the medical provider. The employee may choose not to sign the Authorization. However, if the employee chooses not to sign the Authorization, it is the employee's responsibility to ensure that the agency receives the requested medical information.

Only medical documentation specifically related to the employee's request for accommodation and ability to perform the essential functions of the position will be requested. When medical documentation or information is appropriately requested, an employee must provide it in a timely manner, or the agency may deny the reasonable accommodation request. Agencies must not request medical records; medical records are not appropriate documentation and cannot be accepted. **Supervisors and managers *must not* request medical information or documentation from an applicant or employee seeking an accommodation.** Such a request will be made by the agency ADA Coordinator, if appropriate.

Confidentiality requirements

Medical Information

Medical information obtained in connection with the reasonable accommodation process must be kept confidential. All medical information obtained in connection with such requests must be collected and maintained on separate forms and in separate physical or electronic files from non-medical personnel files and records. Electronic copies of medical information obtained in connection with the reasonable accommodation process must be stored so that access is limited to only the agency ADA Coordinator. Physical copies of such medical information must be stored in a locked cabinet or office when not in use or unattended. Generally, medical documentation obtained in connection with the reasonable accommodation process should only be reviewed by the agency ADA Coordinator.

The agency ADA Coordinator may disclose medical information obtained in connection with the reasonable accommodation process to the following:

- Supervisors, managers or agency HR staff who have a need to know may be told about the necessary work restrictions and about the accommodations necessary to perform the employee's duties. However, information about the employee's medical condition should only be disclosed if strictly necessary, such as for safety reasons;

- First aid and safety personnel may be informed, when appropriate, if the employee may require emergency treatment or assistance in an emergency evacuation;
- To consult with the State ADA Coordinator or Employment Law Counsel at MMB, or the Attorney General's Office about accommodation requests, denial of accommodation requests or purchasing of specific assistive technology or other resources; or
- Government officials assigned to investigate agency compliance with the ADA.

Whenever medical information is appropriately disclosed as described above, the recipients of the information must comply with all confidentiality requirements.

Accommodation Information

The fact that an individual is receiving an accommodation because of a disability is confidential and may only be shared with those individuals who have a need to know for purposes of implementing the accommodation, such as the requestor's supervisor and the agency ADA Coordinator.

General Information

General summary information regarding an employee's or applicant's status as an individual with a disability may be collected by agency equal opportunity officials to maintain records and evaluate and report on the agency's performance in hiring, retention, and processing reasonable accommodation requests.

Approval of requests for reasonable accommodation

As soon as the decision maker determines that a reasonable accommodation will be provided, the agency ADA Coordinator will process the request and provide the reasonable accommodation in as short of a timeframe as possible. The time necessary to process a request will depend on the nature of the accommodation requested and whether it is necessary to obtain supporting information. If an approved accommodation cannot be provided within a reasonable time, the decision maker will inform the requestor of the status of the request before the end of 30 days. Where feasible, if there is a delay in providing the request, temporary measures will be taken to provide assistance.

Once approved, the reasonable accommodation should be documented for record keeping purposes and the records maintained by the agency ADA Coordinator.

Funding for reasonable accommodations

The agency must specify how the agency will pay for reasonable accommodations.

Procedures for reassignment as a reasonable accommodation

Reassignment to a vacant position is an accommodation that must be considered if there are no effective reasonable accommodations that would enable the employee to perform the essential functions of his/her current job, or if all other reasonable accommodations would impose an undue hardship.

The agency ADA Coordinator will work with agency Human Resources staff and the requestor to identify appropriate vacant positions within the agency for which the employee may be qualified and can perform the essential functions of the vacant position, with or without reasonable accommodation. Vacant positions which are equivalent to the employee's current job in terms of pay, status, and other relevant factors will be considered first. If there are none, the agency will consider vacant lower level positions for which the individual is qualified. The EEOC recommends that the agency consider positions that are currently vacant or will be coming open within at least the next 60 days.

Denial of requests for reasonable accommodation

The agency ADA Coordinator must be contacted for assistance and guidance prior to denying any request for reasonable accommodation. The agency may deny a request for reasonable accommodation where:

- The individual is not a qualified individual with a disability;
- The reasonable accommodation results in undue hardship or the individual poses a direct threat to the individual or others. Undue hardship and direct threat are determined on a case-by-case basis with guidance from the agency ADA Coordinator; or
- Where no reasonable accommodation, including reassignment to a vacant position, will enable the employee to perform all the essential functions of the job.

The explanation for denial must be provided to the requestor in writing. The explanation should be written in plain language and clearly state the specific reasons for denial. Where the decision maker has denied a specific requested accommodation, but has offered a different accommodation in its place, the decision letter should explain both the reasons for denying the accommodation requested and the reasons that the accommodation being offered will be effective.

Consideration of undue hardship

An interactive process must occur prior to the agency making a determination of undue hardship. Determination of undue hardship is made on a case-by-case basis and only after consultation with the agency's ADA Coordinator. In determining whether granting a reasonable accommodation will cause an undue hardship, the agency considers factors such as the nature and cost of the accommodation in relationship to the size and resources of the agency and the impact the accommodation will have on the operations of the agency.

Agencies may deny reasonable accommodations based upon an undue hardship. Prior to denying reasonable accommodation requests due to lack of financial resources, the agency will consult with the State ADA Coordinator at MMB.

Determining direct threat

The determination that an individual poses a "direct threat," (i.e., a significant risk of substantial harm to the health or safety of the individual or others) which cannot be eliminated or reduced by a

reasonable accommodation, must be based on an individualized assessment of the individual's present ability to safely perform the essential functions of the job with or without reasonable accommodation. A determination that an individual poses a direct threat cannot be based on fears, misconceptions, or stereotypes about the individual's disability. Instead, the agency must make a reasonable medical judgment, relying on the most current medical knowledge and the best available objective evidence.

In determining whether an individual poses a direct threat, the factors to be considered include:

- Duration of the risk;
- Nature and severity of the potential harm;
- Likelihood that the potential harm will occur; and
- Imminence of the potential harm.

Appeals process in the event of denial

In addition to providing the requestor with the reasons for denial of a request for reasonable accommodation, agencies must designate a process for review when an applicant or employee chooses to appeal the denial of a reasonable accommodation request. This process:

- Must include review by an agency official;
- May include review by the State ADA Coordinator; and/or
- Must inform the requestor of the statutory right to file a charge with the Equal Employment Opportunity Commission or the Minnesota Department of Human Rights.

Information tracking and records retention

Agencies must track reasonable accommodations requested and report once a year by September 1st to MMB the number and types of accommodations requested, approved, denied and other relevant information.

Agencies must retain reasonable accommodation documentation according to the agency's document retention schedule, but in all cases for at least one year from the date the record is made or the personnel action involved is taken, whichever occurs later. 29 C.F.R. § 1602.14.

RESPONSIBILITIES

Agencies are responsible for the request:

- Adoption and implementation of this policy and development of reasonable accommodation procedures consistent with the guidance in this document.

MMB is responsible for:

- Provide advice and assistance to state agencies and maintain this policy.

The employee has the responsibility to ensure that the medical provider follows through on requests for medical information.</p> <div style="border: 1px solid black; padding: 5px;"><p>This form does not cover, and the information to be disclosed should not contain, genetic information. “Genetic Information” includes: Information about an individual’s genetic tests; information about genetic tests of an individual’s family members; information about the manifestation of a disease or disorder in an individual’s family members (family medical history); an individual’s request for, or receipt of, genetic services, or the participation in clinical research that includes genetic services by the individual or a family member of the individual; and genetic information of a fetus carried by an individual or a pregnant woman who is a family member of the individual and the genetic information of any embryo legally held by the individual or family member using an assisted reproductive technology.</p></div>

Evacuation Procedure for Individuals with Disabilities or Otherwise in Need of Assistance

A copy of the agency's weather and emergency evacuation plans can be found in the [DNR Site Emergency Plans](#) located on the DNR intranet.

Knowledge and preparation by both individuals needing assistance and those who don't is key to reducing the impact of emergencies. When developing a plan, safety needs should be determined on a case-by-case basis because it varies with each individual and building.

Everyone has a responsibility to develop their own personal emergency evacuation plan, this includes individuals with disabilities or individuals who will need assistance during evacuation. The DNR Emergency Manager, the Safety Committee, and the Americans with Disabilities Act Coordinator will work to develop a plan and consult the appropriate building and safety personnel.

Directors, managers, and supervisors should review the emergency evacuation procedures with staff, including informing all staff that if additional assistance may be needed, and individuals with disabilities should contact the Site Coordinator for their work location to request the type of assistance they may need.

Site Coordinators can be in the [DNR Site Coordinators](#) page located on the DNR intranet

Evacuation Options:

Individuals with disabilities have four basic, possibly five, evacuation options (Note: Not all of the options will apply to your work location depending on the location, building type, and type of equipment available for evacuations):

- **Horizontal evacuation:** Using building exits to the outside ground level or going into unaffected wings of multi-building complexes;
- **Stairway evacuation:** Using steps to reach ground level exits from building;
- **Area of rescue assistance:** Identified areas that can be used as a means of egress for individuals with disabilities. These areas, located on floors above or below the building's exits, can be used by individuals with disabilities until rescue can be facilitated by emergency responders; and/or
- **Shelter in place:** Unless danger is imminent, remain in a room with an exterior window, a telephone, and a solid or fire resistant door. If the individual requiring special evacuation assistance remains in place, they should dial 911 immediately and report their location to emergency services, who will in turn relay that information to on-site responders. The shelter in place approach may be more appropriate for sprinkler protected buildings where an area of

refuge is not nearby or available. It may be more appropriate for an individual who is alone when the alarm sounds.

Evacuation Procedures for Individuals with Mobility, Hearing, or Visual Disabilities:

Individuals with disabilities should follow the following procedures:

- **Mobility disabilities (individuals who use wheelchairs or other personal mobility devices (“PMDs”)):** Individuals using wheelchairs should be accompanied to an area of rescue assistance by an employee or shelter in place when the alarm sounds. The safety and security staff will respond to each of the areas of rescue assistance every time a building evacuation is initiated to identify the individuals in these areas and notify to emergency responders how many individuals need assistance to safely evacuate.
- **Mobility disabilities (individuals who do not use wheelchairs):** Individuals with mobility disabilities, who are able to walk independently, may be able to negotiate stairs in an emergency with minor assistance. If danger is imminent, the individual should wait until the heavy traffic has cleared before attempting the stairs. If there is no immediate danger (detectable smoke, fire, or unusual odor), the individual with a disability may choose to wait at the area of rescue assistance until emergency responders arrive to assist them.
- **Hearing disabilities:** The agency’s buildings are equipped with fire alarm horns/strobes that sound the alarm and flash strobe lights. The strobe lights are for individuals with who are deaf and/or hard of hearing. Individuals with hearing disabilities may not notice or hear emergency alarms and will need to be alerted of emergency situations.
- **Visual disabilities:** The agency’s buildings are equipped with fire alarm horn/strobes that sound the alarm and flash strobe lights. The horn will alert individuals who are blind or have visual disabilities of the need to evacuate. Most individuals with visual disabilities will be familiar with their immediate surroundings and frequently traveled routes. Since the emergency evacuation route is likely different from the common traveled route, individuals with visual disabilities may need assistance in evacuating. The assistant should offer assistance, and if accepted, guide the individual with a visual disability through the evacuation route.

Severe Weather Evacuation Options:

Individuals in need of assistance during an evacuation have three evacuation options based on their location in their building:

- **Horizontal evacuation:** If located on the ground or basement floor, severe weather shelter areas are located throughout each floor;

- **Elevator evacuation:** If there are no safe areas above the ground floor, the elevator may be used to evacuate to the ground or basement levels; and/or
- **Shelter in Place:** Seeking shelter in a designated severe weather shelter and remaining there until the all clear is used.
