2017 - 2018 Minnesota Campaign Finance Summary

The Campaign Finance and Public Disclosure Board is charged with collecting campaign finance disclosure reports from the state office candidates, political party units, political committees and funds, independent expenditure committees and funds, and ballot question committees and funds that are regulated by Minnesota Statutes Chapter 10A. This summary of campaign finance information is derived from the reports filed with the Board during 2017 and 2018, and provides condensed information on financial activity and status at the end of 2018 as reported by each candidate, party unit, and committee or fund. Additionally, this summary includes a comprehensive listing of all major donors during the two-year period with the amount of each contribution. The summary also lists independent expenditures made for and against candidates in 2018.

Contribution and spending limits apply to a two-year period of time. The two-year periods are referred to as election cycle segments. Each segment contains one odd-numbered non-election year and one even-numbered election year. However, while contribution and expenditure limits apply to a two-year segment, campaign finance activity is reported on a calendar year basis. The information for each committee or fund in the summary is provided for calendar years 2017 and 2018.

The 2017-2018 election cycle segment contained the 2018 general election at which all constitutional offices, state house of representatives, and select judicial offices were up for election.

Reports were filed by the principal campaign committees of 24 constitutional office candidates for 4 constitutional office seats, 284 house of representatives candidates for 134 house of representatives seats, 25 candidates for 16 judicial seats up for election, and nine candidates in three special elections to fill a vacancy in office. The summary includes indicators that identify the candidates who won primary and general elections. Additionally, this summary includes data supplied by 319 political party units and 370 political committees and funds registered with the Board.

Independent expenditure political committees and funds and ballot question committees and funds are permitted to accept corporate and other unregistered association contributions but are limited to making independent expenditures, making ballot question expenditures, and contributing to other independent expenditure and ballot question committees and funds. This summary includes reported information for 71 independent expenditure committees and funds and three ballot question committees and funds.

The information provided for each committee or fund includes total contributions received, total contributions made, total expenditures, beginning and ending cash balances, and, if applicable, the total amount of public subsidy payments received. Outstanding loans payable, unpaid bills, and disbursements other than campaign expenditures are not itemized in the summary but are reflected in the totals reported in the summary. The data filed in campaign finance reports generally has not been verified or audited by the Board. The data will not be updated to reflect amendments filed after the issue date of the summary.

Over the years 2017 and 2018, constitutional office candidates who filed for office reported receiving \$12,963,766 from individual contributors, \$866,579 from political committees and funds, \$267,153 from political parties, and \$371,812 from lobbyists. Public subsidy payments to constitutional office candidates totaled \$1,201,944. House candidates who filed for office reported receiving \$6,497,448 from individual contributors, \$1,297,172 from political committees and funds, \$941,629 from political parties, and \$323,753 from lobbyists. Public subsidy

payments to house of representatives candidates totaled \$1,040,062. A total of \$544,152 in receipts was reported received by 25 judicial candidates who filed for office.

Not included in the above totals are committees of candidates who did not file for office. Those committees for constitutional office candidates reported receiving \$1,980,757 in receipts and making total expenditures of \$2,253,129. Legislative and judicial candidates who did not file for office reported receiving \$2,399,062 in receipts and making \$2,159,001 in total expenditures.

The following is a summary of contributions of \$500 or more received in the 2017-2018 election cycle segment by candidates running for office. Constitutional office candidates received \$9,256,078 from 4,515 donors (64% of the total contributions received by constitutional candidates in 2017 and 2018). House candidates received \$1,877,695 from 2,435 donors (21% of the total contributions received by house candidates in 2017 and 2018). Judicial candidates received \$273,342 from 273 donors (49% of the total contributions received by judicial candidates in 2017 and 2018). A listing of the candidate committees that received contributions in aggregate of \$500 or more and the source of those contributions begins on page 118.

Most candidates voluntarily agree to limit expenditures in order to receive public subsidies. These subsidies include direct payments to eligible candidates during election years and the right to participate in the Political Contribution Refund (PCR) program. Agreements to abide by spending limits in order to receive public subsidies were signed by 92% of registered candidates filing for office. A total of \$2,242,006 in public subsidy was distributed to constitutional and house of representatives candidates for the 2018 election. See page 6 for a breakdown of public subsidy by office.

Campaign expenditures are made for the purpose of influencing the nomination or election of a candidate and apply toward the expenditure limit applicable to candidates who signed a public subsidy agreement. In the 2017-2018 election cycle segment, campaign expenditures for constitutional office candidates who filed for office totaled \$14,614,508. House candidate campaign expenditures for candidates who filed for office totaled \$8,299,528.

Reports filed by 319 political party units during the 2017-2018 election cycle segment disclosed receipt of contributions totaling \$37,712,820 from which they made contributions of \$10,758,426 to state candidate committees, political party units, and other political committees and funds, and \$8,732,591 in independent expenditures. Information on political party units starts on page 211.

The 370 political committees and funds (not including independent expenditure committees and funds) reported receiving \$52,733,213 in contributions from which they made contributions of \$24,342,562 to state candidate committees, political party units, and other political committees and funds and \$4,739,502 in independent expenditures. Information on political committees and funds starts on page 239.

The 71 independent expenditure committees and funds received cash contributions totaling \$42,320,691, contributed \$11,895,911 to other independent expenditure committees and funds, and made independent expenditures of \$20,100,036 during 2017 and 2018. Information on independent expenditure committees and funds starts on page 268.

During the 2017 and 2018 election cycle segment, 64% of all independent expenditures were made to influence constitutional races and 36% were made to influence races for the house of representatives. An itemization of the independent expenditures made for and against candidates during the election cycle segment begins on page 292.

**State Public Subsidy Program
Payments to State Committees of Political Parties and
Multicandidate Political Party Expenditures in 2017 - 2018**

Ten percent of the amount designated on a state income or property tax return for a political party is paid to the state central committee of that party. The amount that political parties receive from the state public subsidy program must be deposited in a separate bank account and used only for multicandidate political party expenditures as defined in statute.* The following chart provides the amount paid to the central committee of each qualified political party, and the multicandidate political party expenditures made by the party in 2017 and 2018.

(A) Beginning with tax year 1980, taxpayers may check off \$2.00; beginning in tax year 1987 taxpayers may check off \$5.00. (B) Beginning with tax year 1984, no minor parties qualified for inclusion on the state income tax blank; in 1995, two minor parties qualified.

(C) Beginning with tax year 1990, 3% of check-off is retained in the general fund for administrative costs. (D) For tax years 2001 - 2010, the Green Party is the only party qualifying under "Other". In 2011, the Green Party and the Grassroots Party are combined in the other column. In 2012, only the Grassroots Party is included in "Other". In 2013 and 2014, the Grassroots Party and Libertarian Party are included in "Other". In 2015, the "Other" column contains the Green Party, Legal Marijuana Now Party, Libertarian Party, and Grassroots Party.
