August 1, 2019

Governor Tim Walz
Room 130 State Capitol
St. Paul, Minnesota 55155

Senator Bill Ingebrigtsen, Chair
Senator David Tomassoni, Ranking Minority Member
Environment and Natural Resources Finance Committee

Senator Carrie Ruud, Chair
Senator Chis Eaton, Ranking Minority Member
Environment and Natural Resources Policy and Legacy Finance Committee

Representative Rick Hansen, Chair
Representative Dan Fabian, Ranking Minority Member
Environment and Natural Resources Finance Division

Representative John Persell, Chair
Representative Dale Lueck, Ranking Minority Member
Environment and Natural Resources Policy Committee

Dear Governor, Chairs and Ranking Minority Members:

The Minnesota Department of Natural Resources (DNR) is submitting the Environmental Permit Performance Report for Fiscal Year 2018 pursuant to Minnesota Statutes 84.027 Subd. 14a. As required, this report will be posted to the DNR website and two hard-copies will be provided to the Legislative Reference Library.

If you or your staff have questions regarding this report, please contact Peter Holt at 651.259.5565 or Peter.Holt@state.mn.us.

Sincerely,

A handwritten signature in blue ink that reads 'Sarah Strommen'.

Sarah Strommen
Commissioner

MINNESOTA DEPARTMENT OF NATURAL
RESOURCES

**Environmental Permit Performance:
Report for Fiscal Year 2019**

150-Day and 90-Day Permit Decision Goals

July 31, 2019

This report was prepared as required by Minnesota Statute (MS) 84.027, Subd. 14a

Estimated cost of preparing this report was \$2,500.

This information is available in an alternative format upon request.

Equal Opportunity to participate in and benefit from programs of the Minnesota Department of Natural Resources is available regardless of race, color, national origin, sex, sexual orientation, marital status, status with regard to public assistance, age or disability. Discrimination inquiries should be sent to Minnesota DNR, 500 Lafayette Road, St. Paul, MN 55155-4049; or the Equal Opportunity Office, Department of the Interior, Washington D.C. 20240.

Background

The Minnesota Department of Natural Resources' (DNR's) mission is to work with citizens to conserve and manage the state's natural resources, to provide outdoor recreation opportunities, and to provide for commercial uses of natural resources in a way that creates a sustainable quality of life. The DNR uses a wide range of programs to fulfill this mission, including permitting programs established by the Minnesota Legislature. Many of these have been in place for decades, while others are more recent. It is important to review regulatory programs over time to ensure that they continue to address the needs of the state. The DNR is committed to maintaining a modern, efficient and effective regulatory system.

This report meets the requirements of Minnesota Statute (MS) 84.027, Subd. 14a.

Scope of Report: Environmental and Natural Resource Permits

The DNR is reporting on the following natural resource permits:

- Aquatic plant management permits
- Invasive aquatic plant management permits
- Water appropriation permits
- Public waters work permits
- Endangered or threatened species taking permits
- Metallic mineral mining permits (ferrous and non-ferrous)
- Peat mining permits

These permits are relevant to the concerns underlying MS 84.027 Subd. 14a. This report does not include other DNR permit programs that focus mainly on recreational activities such as hunting and fishing.

Summary Statistics for 150-Day and 90- Day Goal Attainment

The DNR's goal is to approve or deny permit applications within 90 days of receiving a complete application (Tier 1 permit applications) or within 150 days of receiving a complete application (Tier 2 permit applications). Tier 1 permit applications, which are subject to the 90-day goal, include general permits for work in public waters in addition to water appropriation and aquatic plant management permit renewals that do not require a site inspection. The remaining permit types listed above fall into Tier 2 and are thus subject to the 150-day goal. The DNR manages a large number of permit applications. DNR permitting activity for fiscal year 2019 included:

- 820 permit applications in progress on July 1, 2018,
- 8,515 new applications received,
- 8,013 applications approved or denied,
- 594 applications withdrawn, and
- 728 applications in progress after June 30, 2019

DNR continued to do well with its permitting goals. However, we did find that limited staff contributed to several permit delays, and permit applications not being filled out correctly or not containing enough information also contributed to delays. Table 1 summarizes how well DNR met its 90-day goal for Tier 1 applications and Table 2 summarizes how well DNR met its 150-day goal for Tier 2 applications.

Of the 4,712 Tier 1 permit applications where a decision was made in fiscal year 2019:

- 4,581 Tier 1 permit applications, 97.2%, were approved or denied within 90 days of receiving an initial application
- 4,666 Tier 1 permit applications, 99.0%, were approved or denied within 90 days of receiving a complete application
- 46 Tier 1 permit applications, 1%, took longer than 90 days to approve or deny following a complete application

Of the 3,301 Tier 2 permit applications where a decision was made in fiscal year 2019:

- 3,061 Tier 2 permit applications, 92.7%, were approved or denied within 150 days of receiving an initial application
- 3,173 Tier 2 permit applications, 96.1%, were approved or denied within 150 days of receiving a complete application
- 128 Tier 2 permit applications, 3.9%, took longer than 150 days to approve or deny following a complete application

Table 3 shows the causes of delay for the 46 Tier 1 permit decisions that took more than 90 days from a complete application for a DNR decision. Table 4 shows the causes of delay for the 128 Tier 2 permit decisions that took more than 150 days from a complete application¹ for a DNR decision. Many aquatic plant management permits were submitted well in advance of the permitting season, which can cause increased delays from application submission since site inspections (required for Tier 2 permit applications) cannot occur until plant growth begins.

¹ The mine permit program lists additional permits where the decision exceeded 150 days from initial application. All other programs list permits where the decision exceeded 150 days from a complete application.

Table 1: Summary Statistics for Tier 1 Permits (90 days)

7/1/2018 – 6/30/2019

Permit Program	Permit applications Received	Active applications carried over from previous period	Permit applications deemed complete	Total decisions made	Decisions made within 90 days of initial application	Exceeding 90 days from initial application but within 90 days of a complete application	Exceeding 90 days from a complete application	Withdrawn applications	Active applications at the end of reporting period	Median days to decision from complete application: new applications	Median days to decision from complete application: permit modifications

DNR Actions and Planned Actions

DNR has consistently achieved a high compliance rate with the statutory permitting goals since first reporting results on August 1, 2011. DNR works to continue improving overall permitting performance.

Amendment to Fiscal Year 2018 Report

The Environmental Permit Performance: Report for Fiscal Year 2018 incorrectly stated the percent of tier 1 permit applications that took longer than 90 days to approve or deny following a complete application. The correct percentage for FY18 is 1.1% of tier 1 permits (45 permit applications) took longer than 90 days to approve or deny following a complete application.
