January Nursing Facility Recipient Rates

Rates are per 1,000 people in each geographic area's population in the applicable age group.

Statewide and by County
2013 - 2019

This bulletin provides January recipiency rates for Title XIX (Medical Assistance / MA) nursing facilities (NFs) by county and by specific age groups for 2013, 2014, 2015, 2016, 2017, 2018 and 2019

The recipient rates are standardized by dividing each region's (county's) count of NF residents who were recipients of Medical Assistance by the U.S. Census Bureau's age-group population estimate for the county for the previous July and and then multiplying it by 1,000. NF resident recipients were counted using the payments data in the department's Data Warehouse.

NF residents were counted if MA paid at least one NF claim for January services within six months. Most claims for January are paid in February, but we also looked for late claims for January service processed in the following six months.

This new edition of the recipiency rates provides tables of utilization for four age cohorts: 0-64 years old, 65-84 years old, 85 years old and up, and for All-Ages.

A summary of statewide recipient rates for 1990, 1995, 2000, 2005, 2010, and 2015 for the age cohorts identified in this report, follows below.
