# Lessard-Sams Outdoor Heritage Council Laws of Minnesota 2014 Final Report

Date: November 05, 2019

Program or Project Title: Accelerated protection of grassland and prairie habitat with Reinvest In Minnesota (RIM) and Native

(NPB) easements

Funds Recommended: \$5,450,000

Manager's Name: Judy Schulte

Organization: MN DNR Address: 1241 E Bridge Street City: Redwood Falls, MN 56283 Office Number: 507-637-6016 Email: judy.schulte@state.mn.us

Legislative Citation: ML 2014, Ch.256, Art. 1, Sec. 2, Subd. 2(e)

Appropriation Language: \$3,000,000 in the second year is to the commissioner of natural resources and \$2,450,000 in the second year is to the Board of Water and Soil Resources to implement the Minnesota Prairie Conservation Plan through acquisition of permanent conservation easements to protect native prairie and grasslands. Of these amounts, up to \$112,000 to the Department of Natural Resources and up to \$65,000 to the Board of Water and Soil Resources are for establishing monitoring and enforcement funds as approved in the accomplishment plan and subject to Minnesota Statutes, section 97A.056, subdivision 17. Lands with easements acquired with this appropriation may not be used for emergency haying and grazing in response to federal or state disaster declarations. Conservation grazing under a management plan that is already being implemented may continue. Subject to the evaluation criteria under Minnesota Rules, part 6136.0900, priority must be given to acquisition of lands that are eligible for the native prairie bank under Minnesota Statutes, section 84.96, or lands adjacent to protected native prairie. A list of permanent conservation easements must be provided as part of the final report.

County Locations: Big Stone, Clay, Cottonwood, Lac qui Parle, Lincoln, Marshall, Otter Tail, Pipestone, Redwood, Swift, and Wilkin.

#### Eco regions in which work was completed:

- Forest / Prairie Transition
- Prairie

#### Activity types:

• Protect in Easement

#### Priority resources addressed by activity:

• Prairie

#### **Summary of Accomplishments:**

Reinvest In Minnesota (RIM) and Native Prairie Bank (NPB) coordinated to accelerate grassland protection efforts. Through this appropriation a total of 1,584 acres were protected. This included 604 RIM acres and 980 NPB acres. Easement acquisition focused on Minnesota Prairie Conservation Plan identified landscapes.

#### **Process & Methods:**

The loss of native prairie and grassland habitat is arguably the greatest conservation challenge facing western and southern Minnesota. This appropriation aimed to protect 1,120 acres of prairie and grassland habitat by coordinating and accelerating the enrollment of Reinvest In Minnesota (RIM) and the Native Prairie Bank (NPB) easements. Not only were the protection outcomes met but they were exceeded by 464 acres, for a total of 1,584 acres of prairie and grassland habitat protection.

Acceleration, such as this, is necessary to address the loss of native prairie and associated grasslands. Today, only about 1.3% of Minnesota's original 18 million acres of prairie remains. The few remaining acres of native prairie once were thought of as unsuitable for crop production, however with advancements in technology and equipment, in addition to growing competition for tillable acres, this is no longer the case. Unfortunately, grassland-to-cropland conversion is not the only impact to native prairie, significant degradation and loss is also occurring due to property development, mineral extraction and lack of prairie-oriented management. If the current trajectory of grassland and prairie loss continues it will be devastating to grassland dependent wildlife populations.

Recognizing that protecting grassland and wetland habitat is one of the most critical environmental challenges facing Minnesota, over a dozen leading conservation organizations developed a blue print for moving forward – the Minnesota Prairie Conservation Plan. This plan calls for several outcomes, including the protection of all remaining native prairie and the protection other grasslands through conservation easements. The two primary, state administered easement programs identified to accomplish this are Reinvest in Minnesota Program (RIM) and Native Prairie Bank Program (NPB). Between the historic priority lands for RIM and NPB enrollment lies a mix or restored grasslands and low diversity remnant prairies – without any protection from conversion. In order to achieve the Minnesota Prairie Plans goals this appropriation allowed RIM and NPB to re-tool to better address prairie, grassland and wetland threats.

Originally, this appropriation aimed to enroll 520 acres of RIM easements and 600 acres of Native Prairie Bank easements. These acres were to be focused on priority landscapes identified in the Minnesota Prairie Plan and Local Technical Teams, comprised of local conservation organizations, had already been assembled and eagerly awaited funding to deliver these programs to willing landowners. Ultimately, 8 high quality native prairie parcels for a total of 980 acres (380 acres more than initial 600 acre goal) were protected through this appropriation via Native Prairie Bank Easements. These now protected native prairies are unique natural resources that consist of thousands of different organisms, plants, animals, bacteria and soil fungi. Their complex interactions provide the food, water and shelter required by many of Minnesota's rare, threatened and endangered species. These prairies house a wide variety of pollinator species, some of which often cannot survive in other habitats, including prairie restorations. Additionally, 8 RIM easements for a total of 604 acres (84 acres more than initial 520 acre goal) were acquired through this appropriation to protect key grasslands that help connect high priority conservation lands, thus working towards building the prairie complexes identified in the Minnesota Prairie Plan. Grasslands protected were ecologically evaluated and recommended by Prairie Plan Local Technical Teams, which are made up of multiple conservation organizations.

#### Explain Partners, Supporters, & Opposition:

The protection efforts through this appropriation were well supported by landowners and conservation organizations across the prairie landscape. Prairie Plan Local Technical Teams, made up of a variety of local conservation partners, recommended parcels and coordinated site visits. The majority of this support was volunteered by the conservation agencies. No appropriation dollars were allocated to partners outside of BWSR's normal working relationship with Soil and Water Conservation Districts for easement acquisition processing.

#### **Additional Comments:**

Exceptional challenges, expectations, failures, opportunities, or unique aspects of program

In 2016, Native Prairie Bank did a review and lowered payment rates to better reflect real estate market value. This allowed Native Prairie Bank to acquire 380 more acres than initially anticipated. This opportunity also came with a large set of challenges. Some landowners previously interested were no longer interested, in general it appears landowners are taking much more time to decide if they want to move forward with protection, and more landowners decline offers which in-return requires staff to find more potential sites and overall increases personnel costs. Despite these challenges, so far Native Prairie Bank staff have been able to meet or exceed protection outcomes promised on all of the appropriations requested prior to this change. Unfortunately due to this change, Native Prairie Bank has not always been able to completely spend down the funding appropriated.

#### Other Funds Received:

Not Listed

How were the funds used to advanced the program:

Not Listed

# What is the plan to sustain and/or maintain this work after the Outdoor Heritage Funds are expended:

DNR's Conservation Easement Stewardship policy is to protect both the conservation values of the protected property and the state's investment in those interests. Stewardship elements include baseline property report creation, enforcement protocols, regular compliance monitoring, effective record keeping and reporting, and maintaining good working relationships with the easement

landowners. Native Prairie Bank implements this policy by following DNR Operational Order 128 "Conservation Easement Stewardship" along with the "Ecological and Water Resources Division Conservation Easement Stewardship Plan and Guidelines", which call for annual landowner contact as well as on-the-ground monitoring once every three years. If a violation is found, annual site visits (or more frequently) are conducted until the violation is rectified. Through this appropriation, funding was deposited into an account dedicated to the perpetual monitoring and enforcement of Native Prairie Bank easements. Annual reporting on these stewardship dollars is submitted as part of the Annual Real Property Interest Report for each easement acquired.

Native Prairie Bank staff in partnership with the landowner will actively seek funding to execute the best on-going prairie management activities. These management activities, such as prescribed burning, invasive species control, woody control, etc., will be completed when feasible through a variety of funding sources.

#### **Outcomes:**

#### The original accomplishment plan stated the program would

#### Programs in forest-prairie transition region:

- Protected, restored, and enhanced nesting and migratory habitat for waterfowl, upland birds, and species of greatest conservation need
- Wetland and upland complexes will consist of native prairies, restored prairies, quality grasslands, and restored shallow lakes and wetlands
- Remnant native prairies are part of large complexes of restored prairies, grasslands, and large and small wetlands

#### How will the outcomes be measured and evaluated?

Prairies and grasslands perpetually protected through this appropriation, went through a rigorous selection process where they were scored based on ecological significance and the contribution they would make to the larger prairie landscape goals identified in the Minnesota Prairie Conservation Plan. Parcels protected through this appropriation consist of native prairie, restored prairie and quality grassland complexes. These parcels protect current habitat for a wide variety of non-game and game species, including but not limited to the nesting and migratory habitat for upland birds, waterfowl, pollinators, and species of greatest conservation need.

#### Programs in prairie region:

- Expiring CRP lands are permanently protected
- Remnant native prairies are part of large complexes of restored prairies, grasslands, and large and small wetlands
- Key core parcels are protected for fish, game and other wildlife
- Remnant native prairies and wetlands are perpetually protected and adequately buffered
- Protected, restored, and enhanced habitat for migratory and unique Minnesota species

#### How will the outcomes be measured and evaluated?

Prairies and grasslands perpetually protected through this appropriation, went through a rigorous selection process where they were scored based on ecological significance and the contribution they would make to the larger prairie landscape goals identified in the Minnesota Prairie Conservation Plan. Parcels protected through this appropriation consist of native prairie, restored prairie and quality grassland complexes. These parcels protect current habitat for a wide variety of non-game and game species, including but not limited to the nesting and migratory habitat for upland birds, waterfowl, pollinators, and species of greatest conservation need.

### **Budget Spreadsheet**

Final Budget line item reallocations are allowed up to 10% and do not need require an amendment to the Accomplishment Plan

#### Explain any budget challenges or successes:

Protection outcomes for Native Prairie Bank were exceeded by 380 acres, which lead to an increased number of acquisitions, which in return lead to increased professional service costs. Amendments were requested and approved as needed to adjust the budget to account for this change.
