## Executive Summary

- The COVID-19 Minnesota fund was created to pay expenditures associated with the peacetime emergency declared by the Governor in executive order 20-01 related to COVID-19. The fund was established on March 28, 2020 with a starting balance of \$200 million.
- Money in the fund is appropriated to the Commissioner of Management and Budget to be disbursed or transferred to state agencies, as necessary, to:
  1. Protect Minnesota citizens from the COVID-19 outbreak, and;
  2. Maintain state government operations throughout the duration of the peacetime emergency.
- The Commissioner of Management and Budget may authorize expenditures of \$1 million or less. An expenditure request in excess of \$1 million must be submitted to the Legislative COVID-19 Response Commission for review and recommendation before it can be authorized.
- The COVID-19 Minnesota fund will expire December 31, 2020, pursuant to [Laws 2020, Chapter 81](#). Upon expiration, any money in the fund that remains unobligated will transfer back to the general fund.
- As of October 14, \$18.763 million remains unauthorized in the fund. \$170.946 million has been authorized by the Legislative COVID-19 Response Commission, of which \$34 thousand has cancelled, and \$10.325 million has been authorized as an expenditure of \$1 million or less.
- One expenditure adjustment in excess of \$1 million for the Minnesota Department of Agriculture, reducing LCRC Action Order #11 from \$10.952 million to \$4.202 million, was submitted to the Legislative COVID-19 Response Commission for review and recommendation between September 30, 2020 and October 14, 2020. The requisite number of commission members have provided a positive recommendation.
- No new expenditures of \$1 million or less were authorized between September 30, 2020 and October 14, 2020.
- LCRC Action Order #8 provides for discretionary spending on critical supplies. As of October 14, \$5.968 million of spending authority remains in this authorization. No purchases were authorized from LCRC Action Order #8 between September 30, 2020 and October 14, 2020.

## Background

The COVID-19 pandemic presented an unprecedented challenge to our State. On March 19, 2020, in a letter to the leaders of the Minnesota Senate and House of Representatives, Governor Walz and Lt. Governor Flanagan asked the Legislature to create a fund that would give the Administration the flexibility to deploy resources necessary to respond to the needs of Minnesotans in real time.

On March 28, 2020, the Legislature passed legislation creating the COVID-19 Minnesota fund, transferring to it \$200 million from the general fund, and appropriating all money to the Commissioner of Management and Budget to be disbursed or transferred to state agencies, as necessary, to:

1. Protect Minnesota citizens from the COVID-19 outbreak, and;
2. Maintain state government operations throughout the duration of the peacetime emergency.

The legislation also established the Legislative COVID-19 Response Commission to review expenditures. Members of the Commission are: Senate President Jeremy Miller, Senate Majority Leader Paul Gazelka, Senate Minority Leader Susan Kent, Senator Julie Rosen, Senator Dick Cohen, Speaker of the House Melissa Hortman, House Majority Leader Ryan Winkler, House Minority Leader Kurt Daudt, Representative Lyndon Carlson, and Representative Pat Garofalo.

The Commissioner of Management and Budget may authorize expenditures of \$1 million or less. However, the process for approving these requests adopted by the Administration requires additional approval from the Commissioner of Health and the Governor's Chief of Staff.

An expenditure request in excess of \$1 million must be submitted to the Legislative COVID-19 Response Commission for review and recommendation before it can be authorized. Upon submission, the Commission has 24 hours to review a request and provide a positive recommendation, a negative recommendation, or no recommendation. If a majority of commission members from the Senate and a majority of commission members from the House of Representatives provide a negative recommendation on a proposed expenditure, the commissioner is prohibited from expending the money. If a majority of the commission members from the senate or a majority of the commission members from the house of representatives do not make a negative recommendation, or if the commission makes no recommendation, the commissioner may expend the money.

The Commissioner of Management and Budget must provide reports on the spending from the COVID-19 Minnesota fund to the Legislative COVID-19 Response Commission on the 15th and last day of each month. The report must include the total amount of each expenditure, the purpose of each expenditure, and any additional information the commissioner of management and budget determines is necessary to properly document each expenditure.

The COVID-19 Minnesota fund will expire December 31, 2020, pursuant [Laws 2020, Chapter 81](#). Upon expiration, any money in the fund that remains unobligated will transfer back to the general fund.

## Authorized Expenditures

Below is a summary of total authorized expenditures from the COVID-19 Minnesota fund. The first chart highlights authorized expenditures in excess of \$1 million. The second chart highlights authorized expenditures of \$1 million or less.

### Authorized Expenditures in Excess of \$1 Million

## Commentary on Authorized Expenditures

One new LCRC request in excess of \$1 million was authorized between September 30, 2020 and October 14, 2020, reducing a previous LCRC authorization.

**1. LCRC-22: LCRC Action Order #11, regarding Animal Carcass Disposal, is reduced from \$10,952,000 to \$4,202,000 for the Minnesota Department of Agriculture.** When meat processing plants were closed earlier this year in response to COVID19 outbreaks, thousands of animals needed to be depopulated. The Department spent less than anticipated on disposal of livestock because rather than composting, producers were able to use rendering facilities to convert carcasses into usable materials. The Department will retain \$1,963,049, which will allow the state to respond to possible future depopulation and disposal needs.

**Appendix A:**

- LCRC-22: Reducing Authorization from LCRC Action Order #11 - Animal Carcass Disposal

**Coronavirus Relief / Health Care Response / COVID-19 Minnesota Funds Request Form**

Please complete this form in accordance with the process instructions.

Agency/Point of Contact: Agriculture/Andrea Vaubel

Title of Request: Reducing Authorization from LCRC Action Order #11 - Animal Carcass Disposal

Date: 10/5/2020

Request Amount: -\$ 6,750,000

Expenditure Time Period: 4/29/2020 to 12/31/2020

**Request Funding Source:**

Coronavirus Relief Fund  
(if selected complete page 2)

Health Care Response Fund

COVID-19 Minnesota Fund

**Brief Summary of Request:** (Summary must be complete on this page with supporting information attached)

The Department of Agriculture proposes reducing LCRC Action Order #11 for Animal Carcass Disposal from \$10.952 million to \$4.202 million. When meat processing plants were closed earlier this year in response to COVID-19 outbreaks, thousands of animals needed to be depopulated. The Department spent less than anticipated on disposal of livestock because rather than composting, producers were able to use rendering facilities to convert carcasses into usable materials.

If the authorization is reduced as requested, the Department will retain nearly \$2 million, which will allow the state to respond to possible future depopulation needs.

\$10,952,000 - original authorization  
(\$2,238,951) - expended and encumbered  
(\$6,750,000) - proposed reduction

**\$1,963,049 - remaining for future depopulation needs**
