About the Minnesota Office of Higher Education

The Minnesota Office of Higher Education is a cabinet-level state agency providing students with financial aid programs and information to help them gain access to postsecondary education. The agency also serves as the state's clearinghouse for data, research and analysis on postsecondary enrollment, financial aid, finance and trends.

The Minnesota State Grant Program is the largest financial aid program administered by the Office of Higher Education, awarding more than \$207 million in need-based grants to Minnesota residents attending accredited institutions in Minnesota. The agency oversees tuition reciprocity programs, a student loan program, Minnesota's 529 College Savings Plan, licensing and early college awareness programs for youth.

Executive Summary

The data presented in this report represent the results of the 2017-2018 Cumulative Median Debt survey. The survey is sent annually to postsecondary institutions eligible to participate in the Minnesota State Grant program in fiscal year 2018. Data were collected for students who graduated from these institutions between July 1, 2017 and June 30, 2018 and represents the median cumulative student loan debt by type of certificate/degree for students who graduated with cumulative student loan debt.

In this report, cumulative median student loan debt (“cumulative median debt”) refers to the median amount of debt incurred by a student while attending a specific institution and pursuing a specific postsecondary credential. When aggregated across multiple institutions, the measure reported is the average cumulative median debt. Cumulative median debt is only reported for students that completed a postsecondary credential at the given institution. The debt figures include debt from federal, state, and private sources that is known to the institutions. Debt incurred from previous institutions is not included. In addition, students with no debt are not included in the median.

In 2018, the borrowing patterns for students graduating with debt varied by program:

- Sub-baccalaureate certificates: Average cumulative median debt decreased by 5% from \$10,535 in 2017 to \$10,009 in 2018 across all sectors. The percentage of graduates from these programs taking out student loans remained unchanged from 2017 to 2018 (48%).
- Associate degrees: Average cumulative median debt decreased by 2% from \$16,594 in 2017 to \$16,297 in 2018 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2018 (60%) declined by 3 percentage points from 2017 (63%).
- Bachelor’s degrees: Average cumulative median debt was largely unchanged, decreasing by 0.4% from \$25,568 in 2017 to \$25,453 in 2018 across all sectors. The percentage of graduates from these programs taking out student loans in 2018 was unchanged from 2017 (68%).
- Master’s degrees: Average cumulative median debt decreased by 4% from \$37,634 in 2017 to \$36,074 in 2018 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2018 (51%) declined by 4 percentage points from 2017 (55%).
- Doctoral degrees: Average cumulative median debt decreased by 19% from \$73,458 in 2017 to \$59,390 in 2018 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2018 (36%) declined by 4 percentage points from 2017 (40%).
- First professional degrees: Average cumulative median debt increased by 3% from \$143,343 in 2017 to \$147,367 in 2018 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2018 (82%) declined by 2 percentage points from 2017 (84%).

Default rates

Minnesota’s fiscal year 2016 three-year default rate was 7.6%, decreasing from 8.3% in fiscal year 2015. Overall the state’s three-year default rate ranked ninth lowest compared to other states and U.S. territories.

Introduction

On average, loans made up the bulk of Minnesota undergraduate students' financial aid packages in 2018, for a total of roughly \$1.2 billion. In addition to grants, savings, and income earned from working while in school, loans are a critical means of financing a postsecondary education for most students. This report provides data on loans incurred by students by degree type, and includes information on debt for undergraduate students and students earning post-baccalaureate degrees.

The data presented in this report represent the results of the 2017-2018 Cumulative Median Debt survey. The survey is sent annually to postsecondary institutions eligible to participate in the Minnesota State Grant program in fiscal year 2018. Data were collected for students who graduated from these institutions between July 1, 2017 and June 30, 2018 and represents the median cumulative student loan debt by type of certificate/degree for students who graduated with cumulative student loan debt.¹

In this report, cumulative median student loan debt ("cumulative median debt") refers to the median amount of debt incurred by a student while attending a specific institution and pursuing a specific postsecondary credential. When aggregated across multiple institutions, the measure reported is the average cumulative median debt.² Cumulative median debt is only reported for students that completed a postsecondary credential at the given institution. The debt figures include debt from federal, state, and private sources that is known to the institutions. Debt incurred from previous institutions is not included. In addition, students with no debt are not included in the median. Data is not inflation-adjusted.

The Minnesota Office of Higher Education (OHE) thanks institutions that took the time to compile data for their willingness to contribute to this report. Institution-level data can be found in the appendix.

¹ This report provides data on the weighted average of median debt amounts across institutions. The median is the value for which half of borrowers borrowed more and half borrowed less. Many reports on student debt report average debt at the campus level, rather than median debt. However, a small number of borrowers who borrow large amounts can result in higher average debt, even though the larger amounts are not typical for most borrowers. When aggregating across multiple institutions, the average cumulative median debt is used. This is the weighted (by number of borrowing graduates) average of the cumulative median debt across each institution.

² Each year institutions report median cumulative debt amount by award type to OHE. For each award type, OHE calculates an average median cumulative debt. To generate this measure for each award type, OHE weights each institution's median cumulative debt amount by the number of graduates that took out student loans for that award at the institution. These weighted median cumulative debt amounts by award type are then averaged across all institutions. Data was not collected for Walden University and Capella University.

Borrowing by Award Type, All Institutions

Between 2012 and 2018, the cumulative median debt of students graduating with debt from master's degree or lower programs was relatively stable. As shown in Figure 1, debt for those completing most programs was flat or decreased from 2017 to 2018. Debt for students completing their first professional degree increased slightly from last year.

In 2018, the borrowing patterns for students graduating with debt varies by program:

- Sub-baccalaureate certificates: The average cumulative median debt for students graduating with debt from these programs was \$10,009.
- Associate degrees: The average cumulative median debt for students graduating with debt from these programs was \$16,297.
- Bachelor's degrees: The average cumulative median debt for students graduating with debt from these programs was \$25,453.
- Master's degrees: The average cumulative median debt for students graduating with debt from these programs was \$36,074.
- Doctoral degrees: The average cumulative median debt for students graduating with debt from these programs was \$59,390.
- First professional degrees: The average cumulative median debt for students graduating with debt from these programs was \$147,367.

Fewer students in master's (51%) and doctoral programs (36%) take out loans, compared to students in bachelor's (68%), associate (60%), and sub-baccalaureate programs (48%). First professional degree programs had the highest rate of borrowing in 2018 at 82% (Figure 2).

Overall, the average cumulative median debt for students in doctoral and first professional programs saw greater year-to-year fluctuation between 2012 and 2018 than other award types. This may be due to a smaller sample size. There are fewer students enrolled in these programs and fewer programs overall compared to the availability of master's, bachelor's, associate, and sub-baccalaureate programs (see Table 1 for student counts by year). This may exacerbate differences in cost between programs and differences in borrowing patterns of students, which may shift annually depending on student preferences.

Figure 1: Average Cumulative Median Debt by Award Type, 2012-2018

Figure 2: Percent of Graduates with Loans by Award Type, 2012-2018

In addition to variances in borrowing by degree type, student loan borrowing patterns varied by sector in 2018 (Figure 3).

For sub-baccalaureate degrees, students at the University of Minnesota system had the highest average cumulative median debt, \$21,523.

For associate degrees, students at private for-profit institutions had the highest average cumulative median debt, \$19,815.

For bachelor's degrees, students at private for-profit institutions had the highest average cumulative median debt, \$33,037.

For master's degrees, students at the University of Minnesota system had the highest average cumulative median debt available, \$39,164. Note: Cumulative median debt for students attending private for-profit institutions is suppressed because the count of students graduating with loans is less than 10.

For doctoral degrees, students at private non-profit institutions had the highest average cumulative median debt, \$62,783.

For first professional degrees, students at the University of Minnesota had the highest average cumulative median debt, \$169,967.

Figure 3: Average Cumulative Median Debt by Award Type and Sector, 2018³

³ Debt reported for doctoral degree recipients at private for-profit institutions in 2018 represents data from one school, with a total of five graduates, none of whom reported cumulative debt. These totals were impacted by the closure of Argosy University in 2019, which did not report cumulative median debt data for 2017-2018.

As shown in Figure 4, for sub-baccalaureate certificate (76%), associate degree (91%), bachelor's degree (89%), and master's degree programs (80%), students from private for-profit institutions had the highest rates of borrowing across all sectors. For doctoral degree programs, the highest rate of borrowing among graduates was at Minnesota State Universities (75%). For first professional degree programs, the highest rate of borrowing among graduates was at the University of Minnesota system (84%) and private non-profit institutions (84%).

Figure 4: Percent of Graduates with Loans by Award Type and Sector, 2018

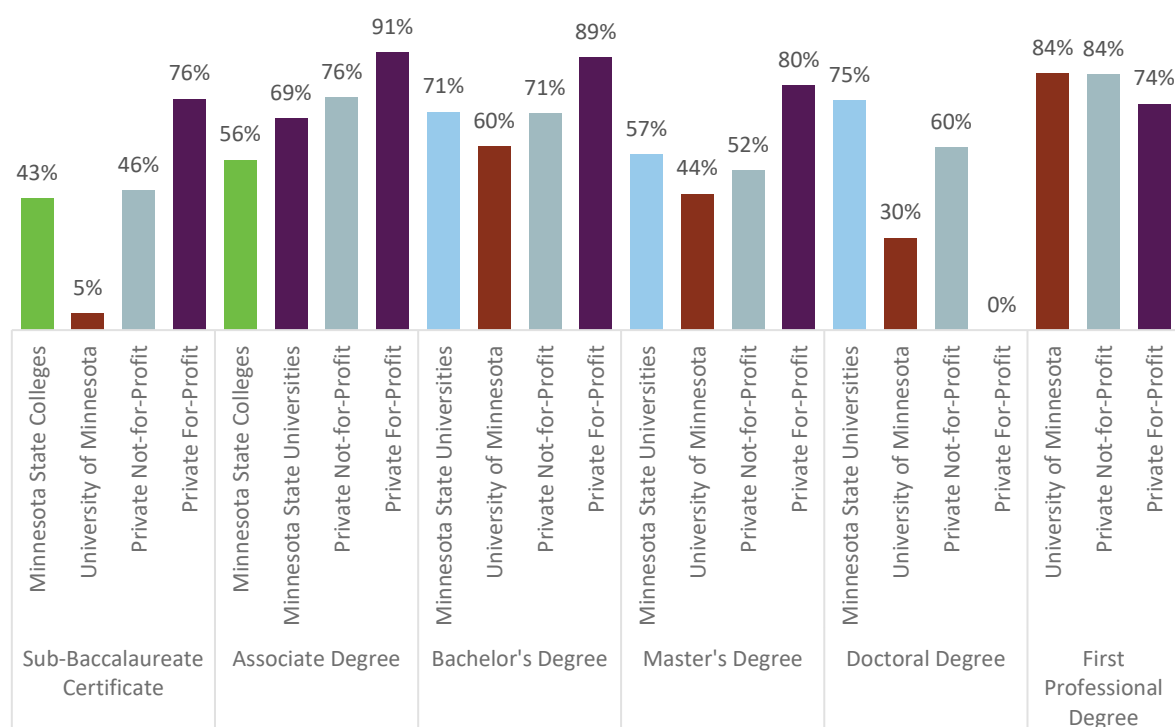

Figure 5 reflects the overall percent change in cumulative median debt from 2012 to 2018. For students in sub-baccalaureate certificate (-11%), associate degree (-12%), and bachelor's degree (-7%) programs, cumulative median debt declined during this period. For students in master's degree (+13%), doctoral degree (+5%), and first professional degree (+14%) programs, cumulative median debt increased during this period. Associate degree recipients saw the largest decline in median debt, while first professional degree recipients saw the largest increase in median debt (Figure 5).

Table 1: Statewide Cumulative Median Debt, 2012-2018

Award Type	Year	Award Recipients	Number of Graduates with Loans	Percent of Graduates with Loans	Average Cumulative Median Debt

Figure 5: Percent Change in Average Cumulative Median Debt, 2012-2018

Sub-Baccalaureate Certificates

The U.S. Department of Education sets yearly and maximum borrowing limits of federal loans for undergraduate dependent students that are lower than for independent students. Dependent students are allowed to borrow \$5,500 in their first year, followed by \$6,500 in their second year, and \$7,500 in their third and fourth years for a maximum of \$31,000 over their undergraduate career. Limits for independent students are \$9,500 in their first year, \$10,500 in their second year, and \$12,500 in their third and fourth years for a maximum of \$57,500 over their undergraduate career. The limits are the same for students seeking a sub-baccalaureate certificate, associate degree, or a bachelor's degree. Students may choose to take out additional private loans on top of these limits.

Students receiving sub-baccalaureate certificates in Minnesota primarily attended public two-year institutions. Certificates at the sub-baccalaureate level encompass programs in fields such as construction, health care, cosmetology, and many other fields. These programs generally take between nine and fifteen months to complete. Most students in these programs attend part time.

Among sub-baccalaureate certificate recipients, average cumulative median debt decreased by 5% from \$10,535 in 2017 to \$10,009 in 2018 across all sectors. The percentage of graduates from these programs taking out student loans remained unchanged from 2017 to 2018 (48%). This trend is not consistent across all sectors. In 2018, certificate recipients at:

- Minnesota State Colleges borrowed \$10,140 (down 10% from \$11,219 in 2017), with 43% of graduates borrowing (down from 47% in 2017).
- The University of Minnesota system borrowed \$21,523 (up 5% from \$20,522 in 2017), with 5% of graduates borrowing (unchanged from 2017).
- Private non-profit institutions borrowed \$13,310 (up 5% from \$12,633 in 2017), with 46% of graduates borrowing (up from 12% in 2017).
- Private for-profit institutions borrowed \$9,293 (up 13% from \$8,210 in 2017), with 76% of graduates borrowing (up from 73% in 2017).

Sub-Baccalaureate Certificate Recipients**

Associate Degrees

Students receiving associate degrees in Minnesota primarily attended public two-year institutions. Most students in these programs attend part time.

Among associate degree recipients, average cumulative median debt decreased by 2% from \$16,594 in 2017 to \$16,297 in 2018 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2018 (60%) declined by 3 percentage points from 2017 (63%). This trend is relatively consistent across all sectors. In 2018, associate degree recipients at:

- Minnesota State Colleges borrowed \$15,647 (down 1% from \$15,856 in 2017), with 56% of graduates borrowing (down from 60% in 2017).
- Minnesota State Universities borrowed \$15,406 (down 13% from \$17,710 in 2017), with 69% of graduates borrowing (unchanged from 2017).
- Private non-profit institutions borrowed \$17,875 (down 3% from \$18,469 in 2017), with 76% of graduates borrowing (unchanged from 2017).
- Private for-profit institutions borrowed \$19,815 (down 2% from \$20,128 in 2017), with 91% of graduates borrowing (up from 90% in 2017).

Table 3: Average Cumulative Median Debt for Minnesota Associate Degree Recipients, 2012-2018

	2018	16,901	10,092	60%	\$16,297

Note: No cumulative debt information was reported for the University of Minnesota, 2012-2018. No cumulative debt information was reported for Minnesota State Universities 2012 and 2013.

Figure 8: Average Cumulative Median Debt by Year and Sector, Associate Degree Recipients

Figure 9: Percent of Graduates with Loans by Year and Sector, Associate Degree Recipients

Bachelor's Degrees

Students receiving bachelor's degrees in Minnesota primarily attended public four-year institutions or private non-profit four-year institutions. Nearly three-quarters of students in these programs were enrolled full time.

Among bachelor's degree recipients, average cumulative median debt was largely unchanged, decreasing by 0.4% from \$25,568 in 2017 to \$25,453 in 2018 across all sectors. The percentage of graduates from these programs taking out student loans in 2018 was unchanged from 2017 (68%). This trend is not consistent across all sectors. In 2018, bachelor's degree recipients at:

- Minnesota State Universities borrowed \$24,784 (down 0.2% from \$24,831 in 2017), with 71% of graduates borrowing (down from 72% in 2017).
- The University of Minnesota system borrowed \$23,545 (down 1% from \$23,745 in 2017), with 60% of graduates borrowing (down from 61% in 2017).
- Private non-profit institutions borrowed \$27,530 (down 1% from \$27,935 in 2017), with 71% of graduates borrowing (up from 70% in 2017).
- Private for-profit institutions borrowed \$33,037 (down 7% from \$35,413 in 2017), with 89% of graduates borrowing (up from 86% in 2017).

Note: No cumulative debt information was reported for Minnesota State Colleges, 2012-2018.

Figure 10: Average Cumulative Median Debt of by Year and Sector, Bachelor's Degree Recipients

Figure 11: Percent of Graduates with Loans by Year and Sector, Bachelor's Degree Recipients

Master's Degrees

Students receiving master's degrees in Minnesota primarily attended private non-profit four-year institutions or the University of Minnesota system. Most students in these programs were enrolled full time.

Among master's degree recipients, average cumulative median debt decreased by 4% from \$37,634 in 2017 to \$36,074 in 2018 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2018 (51%) declined by 4% from 2017 (55%). This trend is not consistent across all sectors. In 2018, master's degree recipients at:

- Minnesota State Universities borrowed \$31,033 (down 3% from \$32,047 in 2017), with 57% of graduates borrowing (up from 54% in 2017).
- The University of Minnesota system borrowed \$39,164 (up 6% from \$36,817 in 2017), with 44% of graduates borrowing (down from 46% in 2017).
- Private non-profit institutions borrowed \$36,220 (down 10% from \$40,164 in 2017), with 52% of graduates borrowing (down from 63% in 2017).
- Because the number of students graduating with loans from these programs at private for-profit institutions was less than 10, cumulative median debt information is suppressed for 2018. In 2017, the average cumulative median debt for these students was \$52,204. In 2018, 80% of graduates borrowed (down from 88% in 2017).

Figure 12: Average Cumulative Median Debt of by Year and Sector, Master's Degree Recipients

Figure 13: Percent of Graduates with Loans by Year and Sector, Master's Degree Recipients

Doctoral Degrees

Among doctoral degree recipients, average cumulative median debt decreased by 19% from \$73,458 in 2017 to \$59,390 in 2018 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2018 (36%) declined by 4% from 2017 (40%). This trend is largely consistent across all sectors. In 2018, doctoral degree recipients at:

- Minnesota State Universities borrowed \$50,376 (down 3% from \$51,805 in 2017), with 75% of graduates borrowing (up from 72% in 2017).
- The University of Minnesota system borrowed \$58,565 (down 4% from \$61,110 in 2017), with 30% of graduates borrowing (down from 32% in 2017).
- Private non-profit institutions borrowed \$62,783 (down 19% from \$77,475 in 2017), with 60% of graduates borrowing (down from 66% in 2017).
- Private for-profit institutions borrowed \$0 (down 100% from \$198,316 in 2017), with 0% of graduates borrowing (down from 91% in 2017). Cumulative median debt totals for doctoral degrees from private for-profit institutions were impacted in 2018 by the closure of Argosy University in 2019 (Argosy did not report cumulative median debt for the 2017-2018 academic year).

Table 6: Average Cumulative Median Debt for Minnesota Doctoral Degree Recipients, 2012-2018

First Professional Degrees

Among first professional degree recipients, average cumulative median debt increased by 3% from \$143,343 in 2017 to \$147,367 in 2018 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2018 (82%) declined by 2 percentage points from 2017 (84%). This trend is relatively consistent across all sectors. In 2018, first professional degree recipients at:

- The University of Minnesota system borrowed \$169,967 (up 2% from \$166,926 in 2017), with 84% of graduates borrowing (down from 85% in 2017).
- Private non-profit institutions borrowed \$133,074 (up 15% from \$115,994 in 2017), with 84% of graduates borrowing (up from 83% in 2017).
- Private for-profit institutions borrowed \$89,426 (up 29% from \$69,228 in 2017), with 74% of graduates borrowing (down from 80% in 2017).

Default Rates

The Minnesota Office of Higher Education monitors debt trends and evaluates state financial aid policies. In fiscal year 2016, Minnesota undergraduates received \$1.1 billion from federal student loan programs. Students attending Minnesota's colleges were less likely to default on federal student loans than their peers nationally, according to information published by the U.S. Department of Education. Minnesota undergraduate borrowing has declined slightly in recent years.

Figure 18: Three-Year Cohort Default Rates by Sector, 2016

Minnesota's fiscal year 2016 three-year default rate was 7.6%, decreasing from 8.3% in fiscal year 2015. Overall the state's three-year default rate ranked ninth lowest compared to other states and U.S. territories. Nevada (18.6%) had the highest average three-year default rate and Puerto Rico (4.5%) had the lowest average three-year default rate. Nationally, the fiscal year 2016 three-year default rate was 9.4%, decreasing from 10.4% in 2015. Both in Minnesota and nationally, students attending public two-year colleges had the highest default rate among all institution types.

Figure 19: Three-Year Cohort Default Rates, Minnesota and Surrounding States, 2016

A three-year cohort default rate is the percentage of a school's borrowers who enter repayment on certain Federal Family Education Loan (FFEL) Program, or William D. Ford Federal Direct Loan (Direct Loan) Program loans during a particular federal fiscal year, from October 1 to September 30, and default or meet other specified conditions prior to the end of the second following fiscal year.

Data used for this report is provided by the U.S. Department of Education, and includes information on default rates for all students as of September 26, 2018, including undergraduates, graduate students, and those pursuing professional degrees or certificates. Default rates for students attending foreign schools were excluded from this analysis.

Conclusion

Overall, average cumulative median debt decreased across most award levels from 2017 to 2018. For undergraduate degree types (sub-baccalaureate certificates, associate degrees, and bachelor's degrees), this is reflective of a larger annual trend. Graduates receiving master's and doctoral degrees also saw a decrease in average cumulative median debt from 2017 to 2018, despite seeing steady increases in average debt levels from 2012 to 2017. For students receiving first professional degrees in 2018, average debt increased from last year's totals, continuing a steady trend of increases in debt for these awards. Across all award types, the percent of graduates borrowing has decreased from 2012 to 2018.

Minnesota's three-year cohort default rate also decreased this year, dropping from 8.3% to 7.6%. The State's overall default rate was ninth-lowest in the nation and second-lowest among surrounding states.
