A young girl with blonde hair, wearing a pink raincoat and yellow rubber boots, stands in a grassy field during a rainstorm. She is holding a large, colorful umbrella with segments of blue, green, yellow, and red. Rain is falling heavily around her, creating a misty atmosphere. The background shows blurred green foliage and trees.

Co-foreword

Thank you for reading the 2019 Minnesota Child Support Performance Report. As you will see, Minnesota continues to rank in the top three nationally for the percentage of current support collected, at 75.4%, and for the percentage of cases with a payment toward past due support, at 72.91%, based on preliminary 2019 Federal Fiscal Year (FFY) data.

While we are proud of our achievements, we took steps this year to continue improving the program including:

- Sharing the final recommendations of the Child Support Task Force*
- Launching the Minnesota Child Support Parenting Time Calendar Tool*
- Hosting the 2019 National Child Support Enforcement Association Leadership Symposium*
- Analyzing results from the Minnesota State Survey to better understand what Minnesota residents know about our program.*

In Minnesota, we work hard to sustain a strong partnership between counties and the state. We share perspectives, concerns, and best practices to tackle the challenge of continuously improving the program, reaching our performance goals, and ultimately helping families meet the needs of their children.

Des Moines Valley Health and Human Services consistently ranks above the state average in all performance measures. We achieve this by working together as a team with the Jackson and Cottonwood County Attorney's Offices to resolve difficult issues and work with families more effectively. For example, we maintain regular contact with families on our caseload to build relationships, implement remedies with our courts to help parents meet their obligations, and stay proactive on court order modifications so they accurately reflect parents' current situation.

Thanks again for learning more about our program as we look forward to 2020.

Shaneen Moore
Child Support Division Director

Christine Macek
Des Moines Valley Health and Human Services

Executive Summary

In FFY 2019, Minnesota's child support program provided services to 331,606 parents and 230,153 children through 1,455 county and state workers. The program collected and disbursed \$570.1 million. For every \$1 spent on Minnesota's child support program, it collected \$3.14 in support of children.

Minnesota's 2019 Child Support Performance Report presents the program's status and highlights accomplishments. The Child Support Division (CSD) reports the most recent data showing statewide and individual county performance, and a five-year history for the five federal performance measures.

The five performance measures are:

1. Paternity establishments
2. Child support order establishment
3. Collections on current support
4. Collections on arrears
5. Program cost effectiveness

Minnesota's Federal Performance Measures					
	FFY 2019	FFY 2018	FFY 2017	FFY 2016	FFY 2015
Paternities established	100.98%	101.23%	101.05%	100.77%	99.00%
Orders established	88.62%	88.32%	88.56%	88.91%	88.70%
Collections on current	75.40%	74.94%	74.53%	74.29%	73.43%
Collections on arrears	72.91%	72.45%	72.26%	72.36%	72.11%
Cost effectiveness	\$3.14	\$3.26	\$3.30	\$3.30	\$3.54

Minnesota's child support program participates in and competes with other states in the federal incentive funding system evaluated by the federal Office of Child Support Enforcement (OCSE). States maximize federal incentives by reaching performance thresholds on the five measures. Minnesota maximized its federal incentives on two of five measures: paternitys established, at 100.98%, and orders established, at 88.62%. Minnesota has opportunities to earn additional incentives based on collections which maximize at 80.00% and cost effectiveness at \$5.00. For FFY 2019, collections on current support were 75.40%, collections on cases with arrears were 72.91% and cost effectiveness at \$3.14.

Minnesota's child support program in FFY 2019:

- Served 230,153 children, with fewer than 11.0% of them receiving public assistance as of Sept. 30, 2019.
- Collected \$575.3 million, including:
 - \$422.0 million from employers withholding child support from parents' paychecks
 - \$84.1 million from cash, checks and unemployment insurance
 - \$38.0 million received from other states' and countries' collections
 - \$29.7 million through tax intercepts
 - \$1.5 million from financial institution data match levies
- Managed cumulative past due support or arrears of \$1.4 billion, owed as of Sept. 30, 2019. Payments of \$129.4 million received for child support debt, with more than 72% of cases with arrears receiving some payment toward arrears during the year.

In FFY 2019, Minnesota child support workers:

- Established paternity through 2,503 court orders and 1,112 Recognition of Parentage forms signed at county offices
- Established 11,766 orders for support; 88.62% of Minnesota child support cases have an order in place
- Adjusted 45,346 cases for cost of living, which increases the amount of child support ordered due every two years
- Modified more than 7,739 child support orders.

States compete against each other for incentive funds based on federal performance measures.

Vision and Mission

The Child Support Division strives to allow children to depend on their parents for the support they need. In carrying out its vision, workers promote children's well-being and family self-sufficiency by delivering quality child support services. Its work reflects the division's core mission and values and shows commitment to:

- **Children**
- **Quality customer service**
- **Integrity, respect and ethics**
- **Innovation and excellence**
- **Collaborative relationships**

Supporting children is at the core of state and federal child support programs. OCSE's simple diagram of innovative partnerships and initiatives that federal, state, county and tribal child support programs have developed demonstrates a shift to a more family-centered approach to delivering child support services. Together, staff help parents support their children. By intervening early, child support programs address the underlying reasons for nonsupport – whether it is unemployment, parental conflict, or disengagement. By broadening strategies and partnering with other programs, child support staff can do more to ensure that parents provide their children with financial and emotional support throughout childhood.

Minnesota Child Support Services

Together with county and tribal agency staff, the child support program serves more than 331,606 parents and 230,153 children across 87 counties and 11 tribes. The Minnesota Department of Human Services, Child Support Division (CSD), supervises the program. County offices administer services by working with parents to establish and enforce support orders. Congress enacted child support programs in 1975 under Title IV-D of the Social Security Act.

Child support staff, including 1,455 employees statewide, work in partnership to serve the needs of Minnesota families, providing support to children. The number of staff is important to the Cost Effectiveness performance measure. Every year, CSD gathers staff counts through a survey that reports full time equivalencies (FTE). FTEs are staff dedicated to working directly on and supporting child support cases such as supervisors, managers and directors, child support officers, financial, administrative, training, technology and legal specialists, contractors, system programmers and others. Some staff included in the FTE count work outside the program under cooperative agreements. These agreements are initiated by county child support offices for resources outside the agency including county attorneys, legal staff, office support, sheriff's personnel, public health workers and others.

Minnesota's child support program benefits children by:

- Locating parents and establishing parentage.
- Establishing and reviewing child support orders for modification.
- Helping children receive financial basic support, medical support and child care support, needed to enhance their growth and development.
- Working with other state agencies to help families when one parent lives outside of Minnesota.
- Helping families work toward becoming and remaining self-sufficient, ensuring parents establish a financial partnership. Child support is money parents are court ordered to pay to their child's other parent or caregiver for support of their child. Support may be part of an interim, temporary, permanent, or modified court order in a divorce or legal separation, paternity action, order for protection, child custody action, or separate child support action.

Child support services are available to:

- Parents of minor children if one parent does not live with their child.
- Parents who pay child support through court-ordered income withholding.
- People who have court-ordered physical custody of a minor child.
- People who receive public assistance for a minor child who lives in their home. Child support cases open when either parent applies for services, or when a county public assistance office refers a case.

Minnesota's child support program benefits children by helping families work toward becoming and remaining self-sufficient.

A family-centered approach to supporting children is at the core of the child support program.

Payments

Partnership

The child support program helps parents establish a financial partnership by offering services for children to receive basic support, medical and child care support they need to enhance their growth and development. These three elements combine to form a monthly child support obligation. Child support is money parents are court ordered to pay to their child's other parent or caregiver for support of their child. The child support program provides services to parents who apply, and to those who are referred to the program from county financial assistance programs.

Once a parent applies for services, or after financial workers refer a case because a family receives public assistance, all child support payments must come through the Child Support Payment Center (CSPC). States are required to have a central payment center that receives and disburses child support collections so that a parent gets credit for making payments, and payments are disbursed correctly. Many state and federal agencies, employers, and other service programs help the child support program operate effectively and efficiently.

Processing

Division staff receipt payments. In most cases, they send the support collected and owed to the custodial parent within two business

days by direct deposit into a checking or savings account or stored value card. Staff may hold funds collected through certain tax refund offsets for up to six months to ensure refunds are properly intercepted.

In FFY 2019, the program collected \$575.3 million.

Payment center staff:

- Processed \$589.8 million in payments, about \$49 million each month
- Received 2,928,194 transactions, of which 895,683 were paper items such as checks, and 2,104,391 through automated clearing houses
- Deposited 95.5% of collections disbursed directly into parents' accounts.

Sources

The Child Support Division tracks the sources of child support payments to measure the effectiveness of enforcement activities and collection tools. The graph, Payment Sources, shows the payment sources for FFY 2019.

Income withholding

Most new or modified child support orders require income withholding where employers and payors of funds automatically withhold child support obligations from a parent's pay, or other sources of income, and send withholdings to the state. Through income withholding, employers collected \$422.0 million from parents' paychecks, 73.4% of all support disbursed.

Employers play a pivotal role in Minnesota's child support efforts, making a valuable contribution to the lives of children. Employers are also required to report new hires to the [Minnesota New Hire Reporting Center](#) which helps match working parents with child support obligations. Cooperation among employers and child support agencies encourages parental responsibility, reduces taxpayer costs for public assistance, and helps families provide for their children.

Cash, check payments

Parents who are self-employed or do not pay through income withholding send their child support to the CSPC by check, cashier's check, money order or automatic-recurring withdrawals. In FFY 2019, \$72.5 million, 12.6% of collections, were paid in this manner.

Other states

Child support provides services to many families with complex and changing needs. Promises of increased income opportunities and job availability may influence a parent's decision to move to and from Minnesota while child support services continue. For parents who owe support and work outside of Minnesota, other states collected \$37.8 million, 6.6% of collections, of child support in FFY 2019.

Other sources

Sometimes child support obligations go unpaid or are collected only when child support workers enforce orders. In addition to the enforcement methods below, parents who do not comply with their child support orders may be denied approval or renewal of a passport, reported to a credit bureau, be subject to civil contempt proceedings, charged with criminal nonsupport, or have their driver's license suspended.

The remaining payment sources include:

- 3.6% from intercepts of federal tax refunds, \$20.8 million
- 2.0% from withholdings from Unemployment Insurance, \$11.7 million
- 1.6% from intercepts of state tax refunds, \$8.9 million.

On page 49, the Collections – Sources chart breaks down payment sources per county.

Most parents who owe child support pay their obligation regularly and on time.

Employers reported information on more than two million new hires to Minnesota's New Hire Reporting Center. Because Minnesota's center is convenient and efficient, some employers that operate in multiple states choose to report all of their new hire information to Minnesota.

Initiatives

Child Support Task Force Final Report

The Child Support Task Force issued its final report after three years of work. The report includes recommendations to update Minnesota's basic child support guidelines and adjust current methods of calculating support to create greater uniformity and ensure child support orders are appropriate for Minnesota families. The final report is on the task force website at <https://mn.gov/dhs/general-public/about-dhs/advisory-councils-task-forces/child-support-task-force.jsp>.

Minnesota Child Support Parenting Time Calendar Tool

The Minnesota Department of Human Services Child Support Division created this tool to help parents, attorneys, and child support professionals count the number of court-ordered overnights each parent has with their children when parents don't live together. The tool calculates an average number of overnights over a two-year period. This new tool is at <https://mn.gov/dhs/child-support-calendar/>.

National Child Support Enforcement Association Leadership Symposium

In August 2019, more than 700 child support professionals from across the country attended the National Child Support Enforcement Association's annual leadership symposium in Minneapolis. The symposium offered professional development opportunities in interagency collaboration, law and policy, and emerging technology. Keynote speakers addressed topics on institutional and structural racism, professional dynamics of influence, and achieving better outcomes through integrated child support and child welfare services.

Jason Ruona, Becker County child support supervisor, described his experience at the event. "The keynotes and sessions were excellent and had a mix of entertainment, general leadership knowledge and specific child support topics. The opportunity to network with peers from across the country was invaluable," said Ruona.

Digital Marketing Grant Update – Survey Results

The Child Support Division completed the first phase of its work on the federal digital marketing grant it received from the federal Office of Child Support Enforcement in 2018. For the first task, the division included questions in the 2018 Minnesota State Survey (MSS). MSS is an annual telephone survey conducted by the University of Minnesota designed to obtain information on characteristics of all Minnesota adults. The questions included awareness of child support services, how child support orders are determined, and how likely respondents would be to apply for child support services. Overall, 65% of Minnesota residents said they are aware of child support services and 54% would likely apply for services if they were separated from the other parent of their child. The division will use the survey results for future grant-related tasks. The survey results are at <https://edocs.dhs.state.mn.us/lfservlet/Public/DHS-7585P-ENG>.

Intergovernmental Cases

Approximately one of every seven child support cases involves a parent who lives in another state. A case is considered intergovernmental when one party lives in a jurisdiction different from the other, when a child support order is from a jurisdiction other than the one where both parties live, or when there is more than one child support order covering the same parties. Intergovernmental child support cases are governed by provisions of the Uniform Interstate Family Support Act (UIFSA). The 2007 international Hague Convention outlined changes, known as the UIFSA 2008 amendments. States are in the process of enacting or have enacted provisions of UIFSA 2008.

Minnesota's child support program demonstrates achievements in intergovernmental case establishment and collections.

Of the 87 Minnesota counties, 35 share a border with another jurisdiction. Working on cases that cross jurisdictional lines continues to be part of essential services provided by the child support program. By law, although each state has an independent court system with varying laws, policies and procedures, agencies must cooperate in handling requests for assistance. When a Minnesota agency requests assistance from another jurisdiction for child support services, that case is referred to as the “initiating” case. Alternatively, when an agency in another jurisdiction asks Minnesota for assistance, that case is referred to as a “responding” case. Minnesota’s child support program demonstrates achievements in intergovernmental case establishment and collections.

Initiating cases

There were 19,819 initiating intergovernmental cases open in Minnesota in FFY 2019; of those, 18,520 had a child support order. This data shows an intergovernmental initiating ratio of 93.45% of cases with an order established either prior to or after Minnesota initiated to another jurisdiction.

For intergovernmental cases where Minnesota is the initiating state, the average case with a child support order collected \$2,578.74 in FFY 2019.

Responding cases

In FFY 2019, there were 8,618 open intergovernmental cases where the Minnesota Child Support Division was responding to another jurisdiction; of those, 8,110 had a child support order. This is a high establishment percentage for intergovernmental responding cases at 94.11%.

For intergovernmental cases where Minnesota is the responding state, the average case with a child support order collected \$3,053.01 in FFY 2019.

On page 46, the Collections to and from Other States chart displays how much money each county distributes to other states, how much is received from other states, and size of initiating and responding caseloads.

Most of the child support cases in Minnesota are non-public assistance cases. Children on these cases either never received or are no longer receiving public assistance.

Minnesota Child Support Program - Federal Performance for FFY19

National Ranking for FFY18*

County and State Staff

Child Support Staff's Achievements

During FFY 2019, Minnesota child support workers:

- Established paternity through 2,503 court orders and 1,112 Recognition of Parentage forms signed at county offices
- Established 11,766 orders for support; 88.6% of Minnesota child support cases have an order in place
- Adjusted 45,346 cases for cost of living, which increases the amount of child support ordered due every two years
- Modified 7,739 child support orders
- Trained 720 staff via classroom and webinar
- Receipted 2.9 million payment transactions

Guide and Introduction to Performance Data

Calculations

The 2019 Child Support Performance Report highlights accomplishments and presents program performance measures for FFY 2019. It reports the most recent data showing statewide and individual county performance, and a five-year history for the five federal performance measures. CSD participates in the federal incentive funding system based on program performance, as required by the Personal Responsibility and Work Opportunity Act of 1996. The federal Office of Child Support Enforcement evaluates states competing for federal incentive funds based on five federal performance measures. The five measures are:

Paternity establishments – the number of open Title IV-D cases with paternity established during the federal fiscal year divided by the number of children in open Title IV-D cases born outside of marriage during the prior federal fiscal year.

Child support order establishment – the number of cases open at the end of the federal fiscal year with support orders established divided by the number of cases open at the end of the federal fiscal year.

Collections on current support – the total amount of support distributed as current support during the federal fiscal year divided by the total amount of current support due for the federal fiscal year.

Collections on arrears – the number of total cases with support distributed as arrears during the federal fiscal year divided by the number of total cases with arrearages due during the federal fiscal year.

Program cost effectiveness – for the federal fiscal year, the amount of collections forwarded to other states plus total collections distributed, plus fees retained by other states divided by total Title IV-D dollars expended during the federal fiscal year.

Unlike other performance measures, OCSE allows state agencies to choose between two methods of reporting paternity establishment percentages. One method uses all children born in the state. The

second method, which is used by Minnesota, uses only children in the Title IV-D state system. Both methods involve paternities and births that span more than one 12-month period. The paternities established by child support workers during the federal fiscal year, therefore, are not necessarily for the same children born of non-marital births in the same federal fiscal year. This explains why some states have a paternity establishment percentage exceeding 100%. For the federal performance incentive, Minnesota's percentage is 100.98.

Paternities established =	$\frac{\text{Children in open Title IV-D cases with paternity established}^1}{\text{Children in open Title IV-D cases born outside of marriage}^1 \text{ in previous year}}$
Order established =	$\frac{\text{Cases open at the end of fiscal year with support orders established}^2}{\text{Cases open at end of fiscal year}^2}$
Collections on current support =	$\frac{\text{Total amount of support distributed as current support during fiscal year}^2}{\text{Total amount of current support due for the fiscal year}^2}$
Collections on arrears =	$\frac{\text{Total cases with support distributed as arrears during fiscal year}^2}{\text{Total cases with arrearages due during fiscal year}^2}$
Cost effectiveness =	$\frac{\text{Collections forwarded to other states + total collections distributed + fees retained by other states}^3}{\text{Total Title IV-D dollars expended}^4}$

Federal incentives

States are able to maximize federal incentives by reaching performance thresholds on each of the five measures. Minnesota maximized its federal incentives on two of five measures: Paternity establishment at 100.98%, and order establishment at 88.62%. Minnesota has opportunities to earn additional incentives based on collections which maximize at 80.00% and cost effectiveness at \$5.00. For FFY 2019, collections on current support was 75.40%, collections on cases with arrears was 72.91%, and cost effectiveness at \$3.14.

The federal government matches 66% of state and county spending. It also provides funding based on performance, outcomes and collection base, which CSD passes on to county agencies. CSD determines a county's share using the same methodology that OCSE uses for states. County agencies are required to reinvest incentives in the Title IV-D program.

Secure, accurate and reliable data is critical to the child support program's success and funding. In addition to meeting OCSE's performance standards, a state's data must meet a 95% data reliability standard. Reliable data is sufficiently complete and error-free. Federal auditors assess completeness, reliability and security of data, as well as accuracy of reporting systems used in calculating performance measures.

Failure to meet any of the five federal performance standards, or the 95% data reliability standard, puts a state program at risk. Failure can mean loss of eligibility for incentive funds and the possibility of incurring significant penalties to the Temporary Assistance for Needy Families (TANF) grant – the Minnesota Family Investment Program (MFIP) – if no improvement is made during the corrective action year.

If a state falls below one or more of the performance measures, or does not meet data reliability criteria, OCSE imposes an automatic corrective action period of one year. If corrections are not made during that year, OCSE imposes a penalty at the end of the year, which reduces payments by 1 to 2% of the state TANF grant for the first finding; 2 to 3% for the second consecutive finding; and 3 to 5% for the third and subsequent consecutive findings. Total penalties may not exceed 25% of a state's TANF grant.

Historically, Minnesota has performed well in federal audits. OCSE's annual Data Reliability Audit validates that performance and financial reporting are accurately reflected in reviewing the child support system. Minnesota has not had a corrective action or penalty in any of its audits regarding data reliability.

Performance relative to other states

To show how Minnesota compares to other states, the most recent national data is included in report tables. Federal rankings are based on FFY 2018 data; Minnesota ranked third for collections on current support nationally and collections on arrears. National information is available online from OCSE. The table below shows Minnesota's performance measures for FFY 2018 compared to the four bordering states.

FFY 2018 Federal Performance Measures – Border State Comparison					
	MN	IA	ND	SD	WI
Paternities established	101.2%	95.3%	105.6%	107.3%	102.6%
Orders established	88.3%	92.8%	92.5%	91.3%	86.8%
Collections on current	74.9%	72.7%	75.3%	63.7%	74.7%
Collections on arrears	72.5%	69.4%	65.8%	60.5%	69.6%
Cost effectiveness	\$3.26	\$5.86	\$6.22	\$10.24	\$5.77

Minnesota maximized its federal incentives on two of five federal performance measures.

Funding

OCSE provides funding to states by matching qualifying expenditures, and by basing funding on performance, outcomes, and the state's collection base. The collection base is the "baseline" of the incentive structure. Once established, OCSE applies performance on the five federal performance measures to the collection base for a national total. OCSE awards each state a prorated portion of the total incentive pool. Dollars in the incentive pool are limited. Each state's share is affected by how every other state performs under the incentive formula.

Table tips

Tips for the tables in the 2019 report:

- Statewide data appears at the bottom of tables for convenient comparison on each page.
- Statewide data figures include all county and tribal shared interest case data.
- A dash indicates no data applicable.
- Merged county agencies are reported as follows:
 - Faribault-Martin is listed as one agency.
 - Southwest Health and Human Services is listed as SWHHS (Lincoln, Lyon and Murray (LLM) with the addition of Rock on Jan. 1, 2012, and Pipestone and Redwood on Jan. 1, 2013).
 - Des Moines Valley (Cottonwood and Jackson merged on Jan. 1, 2014).
 - MNPrairie (Dodge, Steele and Waseca merged on Jan. 1, 2015).
- Data sources are listed at the bottom of tables.
- National data for state ranking is for FFY 2018.

The child support program helps parents establish a financial partnership by offering services for children to receive the basic financial, medical, and child care support needed to enhance their growth and development.
