About the Minnesota Office of Higher Education

The Minnesota Office of Higher Education is a cabinet-level state agency providing students with financial aid programs and information to help them gain access to postsecondary education. The agency also serves as the state's clearinghouse for data, research and analysis on postsecondary enrollment, financial aid, finance and trends.

The Minnesota State Grant Program is the largest financial aid program administered by the Office of Higher Education, awarding more than \$210 million in need-based grants to Minnesota residents attending accredited institutions in Minnesota. The agency oversees tuition reciprocity programs, a student loan program, Minnesota's 529 College Savings Plan, licensing and early college awareness programs for youth.

Appendix B – Information on Loan Repayment	35

Executive Summary

Student loan debt continues to play a prominent role in the national conversation around college affordability and cost. Students who graduate with more debt likely face higher student loan payments that may be burdensome and may serve as a barrier to financial freedom. Because this is a critical area of concern for policymakers, the Office of Higher Education has reported on Cumulative Median Student Loan debt for graduates since 2012.

The data presented in this report represent the results of the 2019-2020 Cumulative Median Debt survey. The survey is sent annually to postsecondary institutions eligible to participate in the Minnesota State Grant program in Fiscal Year 2020. Data were collected for students who graduated from these institutions between July 1, 2019 and June 30, 2020 and represents the median cumulative student loan debt by type of certificate/degree for students who graduated with cumulative student loan debt.

In this report, cumulative median student loan debt (“cumulative median debt”) refers to the median amount of debt incurred by a student while attending a specific institution and pursuing a specific postsecondary credential. The debt figures include debt from federal, state, and private sources that is known to the institutions.

Debt figures do not include any debt incurred from previous institutions, and students who graduate with no debt are not included in the median. In addition, debt from students who do not complete a degree is not included, which is critical because even while federal student loans have been placed in pandemic-related forbearance, default rates are considerably higher for those who did not complete a degree¹. When aggregated across multiple institutions, the measure reported is the average cumulative median debt. OHE thanks institutions that took the time to compile data for their willingness to contribute to this report. Institution-level data can be found in the appendix.

In 2020, the borrowing patterns for students graduating with debt varied by program:

- Sub-baccalaureate certificates: Average cumulative median debt decreased by 2% from \$10,286 in 2019 to \$10,112 in 2020 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2020 (45%) declined by 1 percentage points from 2019 (46%).
- Associate degrees: Average cumulative median debt decreased by 2% from \$15,562 in 2019 to \$15,175 in 2020 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2020 (50%) declined by 2 percentage points from 2019 (52%).
- Bachelor’s degrees: Average cumulative median debt increased by less than one percent from \$24,641 in 2019 to \$24,793 in 2020 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2020 (65%) was unchanged from 2019 (65%).

¹ Wong, Nancy. “College Scorecard Data Show High Rates of Non-Repayment on Federal Student Loans and Signs of Forbearance Abuse.” Retrieved September 1, 2021, from <https://ticas.org/accountability/college-scorecard-data-show-high-rates-of-non-repayment-on-federal-student-loans-and-signs-of-forbearance-abuse/>

- Master's degrees: Average cumulative median debt increased by 1% from \$36,996 in 2019 to \$37,336 in 2020 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2020 (55%) increased by 1 percentage points from 2019 (54%).
- Graduate certificates: Average cumulative median debt increased by 12% from \$28,416 in 2019 to \$31,922 in 2020 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2020 (57%) increased by 3 percentage points from 2019 (54%).
- Doctoral degrees: Average cumulative median debt decreased by 11% from \$63,977 in 2019 to \$56,622 in 2020 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2020 (37%) increased by 4 percentage points from 2019 (33%).
- First professional degrees: Average cumulative median debt increased by 1% from \$143,912 in 2019 to \$145,674 in 2020 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2020 (73%) declined by 7 percentage points from 2019 (80%).

Since the Office began collecting data in 2012, the average cumulative median debt of graduates has decreased by 10% or more for bachelor's degrees, associate degrees, and sub-baccalaureate certificates, while the average cumulative debt of graduate degree programs has increased by one to 17 percent. Across most award types, the percent of graduates who borrow has also decreased across this time span.

Introduction

On average, loans made up nearly half of Minnesota undergraduate students' financial aid in 2019, for a total of roughly \$1.1 billion². In addition to grants, savings, and income earned from working while in school, loans are a critical means of financing a postsecondary education for most students. This report provides data on loans incurred by students by award type, and includes information on debt for undergraduate and graduate students.

The data presented in this report represent the results of the 2019-2020 Cumulative Median Debt survey. OHE sends the survey annually to postsecondary institutions eligible to participate in the Minnesota State Grant and SELF Loan programs in Fiscal Year 2020. Data were collected for students who graduated from these institutions between July 1, 2019 and June 30, 2020 and details the median cumulative student loan debt by type of award for students who graduated with student loan debt.³

In this report, cumulative median student loan debt ("cumulative median debt") refers to the median amount of debt incurred by a student while attending a specific institution and pursuing a specific postsecondary credential. When aggregated across multiple institutions, the measure reported is the average cumulative median debt.⁴ Cumulative median debt is only reported for students that completed a postsecondary credential at the given institution, and for students completing two or more awards, the median debt for the highest award conferred is used. The debt figures include debt from all federal, state, institutional, and private sources that is known to the institutions. Debt incurred from previous institutions is not included. In addition, students with no debt are not included in the median, and where fewer than 10 students graduated with debt, median cumulative debt is suppressed. Data is not inflation-adjusted.

OHE thanks institutions that took the time to compile data for their willingness to contribute to this report. Institution-level data can be found in the appendix.

² Financial Aid Awarded to Undergraduates Attending Minnesota Institutions. Retrieved October 15, 2020, from <http://www.ohe.state.mn.us/sPages/finAidAwd.cfm>

³ This report provides data on the weighted average of median debt amounts across institutions. The median is the value for which half of borrowers borrowed more and half borrowed less. Many reports on student debt report average debt at the campus level, rather than median debt. However, a small number of borrowers who borrow large amounts can result in higher average debt, even though the larger amounts are not typical for most borrowers. When aggregating across multiple institutions, the average cumulative median debt is used. This is the weighted (by number of borrowing graduates) average of the cumulative median debt across each institution.

⁴ Each year institutions report median cumulative debt amount by award type to OHE. For each award type, OHE calculates an average median cumulative debt. To generate this measure for each award type, OHE weights each institution's median cumulative debt amount by the number of graduates that took out student loans for that award at the institution. These weighted median cumulative debt amounts by award type are then averaged across all institutions. Data was not collected for Walden University and Capella University.

Borrowing by Award Type, All Institutions

Between 2017 and 2020, the cumulative median debt of students graduating with debt from master's degree or lower programs was relatively stable. As shown in Figure 1, debt for those completing most programs was flat or decreased from 2019 to 2020.

In 2020, the borrowing patterns for students graduating with debt varies by program:

- Sub-baccalaureate certificates: In 2020, the average cumulative median debt for students graduating with debt from these programs was \$10,112.
- Associate degrees: In 2020, the average cumulative median debt for students graduating with debt from these programs was \$15,175.
- Bachelor's degrees: In 2020, the average cumulative median debt for students graduating with debt from these programs was \$24,793.
- Master's degrees: In 2020, the average cumulative median debt for students graduating with debt from these programs was \$37,336.
- Graduate certificates: In 2020, the average cumulative median debt for students graduating with debt from these programs was \$31,922
- Doctoral degrees: In 2020, the average cumulative median debt for students graduating with debt from these programs was \$56,622.
- First professional degrees⁵: In 2020, the average cumulative median debt for students graduating with debt from these programs was \$145,674.

A lower percentage of students in sub-baccalaureate (45%), associate (54%), master's (55%), graduate certificate (57%), and doctoral programs (37%) take out loans, compared to students in bachelor's (65%) and first professional degree programs (73%) (Figure 2).

Overall, the average cumulative median debt for students in doctoral programs saw greater year-to-year fluctuation between 2017 and 2019 than other award types. This may be due to a smaller sample size. There are fewer students enrolled in these programs and fewer programs overall compared to the availability of master's, bachelor's, associate, and sub-baccalaureate programs (see Table 1 for student counts by year). This may exacerbate differences in cost between programs and differences in borrowing patterns of students, which may shift annually depending on student preferences.

⁵ Awards in the First Professional Degree award category include law, medicine, and other specialized professional degrees.

Table 1: Statewide Cumulative Median Debt, 2017-2020

Award Type	Year	Award Recipients	Number of Graduates with Loans	Percent of Graduates with Loans	Average Cumulative Median Debt
Sub-Baccalaureate Certificate	2017	11,364	5,434	48%	\$10,535
	2018	10,336	4,915	48%	\$10,009
	2019	10,511	4,817	46%	\$10,286
	2020	9,587	4,326	45%	\$10,112

	2018	16,901	10,092	60%	\$16,297
	2019	16,702	9,401	56%	\$15,562
	2020	15,583	8,451	54%	\$15,175
Bachelor's Degree	2017	30,329	20,579	68%	\$25,568
	2018	32,027	21,664	68%	\$25,453
	2019	30,696	20,050	65%	\$24,641
	2020	30,273	19,684	65%	\$24,793
Master's Degree	2017	9,377	5,154	55%	\$37,634
	2018	11,371	5,768	51%	\$36,074
	2019	10,548	5,730	54%	\$36,996
	2020	10,219	5,583	55%	\$37,336
Graduate Certificate	2019	199	107	54%	\$28,416
	2020	210	120	57%	\$31,922
Doctoral Degree	2017	1,141	462	40%	\$73,458
	2018	1,110	405	36%	\$59,390
	2019	1,219	408	33%	\$63,977
	2020	1,162	428	37%	\$56,622
First Professional Degree	2017	1,362	1,142	84%	\$143,343
	2018	1,355	1,109	82%	\$147,367
	2019	1,357	1,087	80%	\$143,912
	2020	1,419	1,039	73%	\$145,674

In addition to variances in borrowing by degree type, student loan borrowing patterns varied by sector in 2020 (Figure 3).

- For sub-baccalaureate degrees, students at the University of Minnesota system had the highest average cumulative median debt (\$23,752).
- For associate degrees, students at private for-profit institutions had the highest average cumulative median debt (\$18,410).
- For bachelor's degrees, students at private for-profit institutions had the highest average cumulative median debt (\$29,164).

- For master's degrees, students at private for-profit institutions had the highest average cumulative median debt available (\$51,708).
- Information on graduates from graduate certificate programs is included on page 22.
- For doctoral degrees, students at private non-profit institutions had the highest average cumulative median debt (\$58,211).
- For first professional degrees, students at the University of Minnesota had the highest average cumulative median debt (\$172,692).

Figure 1: Average Cumulative Median Debt by Award Type, 2017-2020

Figure 2: Percent of Graduates with Loans by Award Type, 2017-2020

Figure 3: Average Cumulative Median Debt by Award Type and Sector, 2020

As shown in Figure 4, for sub-baccalaureate certificate (80%), associate degree (87%), bachelor's degree (87%), and master's degree (80%) students from private for-profit institutions had the highest rates of borrowing across all sectors. For doctoral (65%) programs, the highest rate of borrowing among graduates was at private non-profit institutions. For first professional degree programs (79%), the highest rate of borrowing among graduates was at the University of Minnesota system.

Figure 4: Percent of Graduates with Loans by Award Type and Sector, 2020

Table 2: Cumulative Median Debt by Sector, 2020

Award Type	Sector	Award Recipients	Number of Graduates with Loans	Percent of Graduates with Loans	Average Cumulative Median Debt
Sub-Baccalaureate Certificate	Minnesota State Colleges	7,667	3,152	41%	\$10,391

	Private Non-Profit	220	144	65%	\$58,211
	Private For-Profit	12	0	0%	\$0
First Professional Degree	University of Minnesota	781	619	79%	\$172,692
	Private Non-Profit	638	420	66%	\$105,855

Data collection on cumulative median debt began in 2012. Figure 5 reflects the overall percent change in cumulative median debt from 2012 to 2020. For students in sub-baccalaureate certificate (-0%), associate degree (-18%), and bachelor's degree (-10%) programs, cumulative median debt declined during this period. For students in master's degree (+17%), doctoral degree (+1%), and first professional degree programs (+12%), cumulative median debt increased during this period. Associate degree recipients saw the largest decline in median debt, while master's degree recipients saw the largest increase in median debt (Figure 5).

Figure 5: Percent Change in Average Cumulative Median Debt, 2012-2020

Sub-Baccalaureate Certificates

The U.S. Department of Education sets both annual and lifetime maximum borrowing limits of federal loans for undergraduate dependent students that are lower than for independent students. Dependent students are allowed to borrow \$5,500 in their first year, followed by \$6,500 in their second year, and \$7,500 in their third and fourth years for a maximum of \$31,000 over their undergraduate career. Limits for independent students are \$9,500 in their first year, \$10,500 in their second year, and \$12,500 in their third and fourth years for a maximum of \$57,500 over their undergraduate career. The limits are the same for students seeking a sub-baccalaureate certificate, associate degree, or a bachelor's degree. Students may choose to take out additional private loans on top of these limits.

Students receiving sub-baccalaureate certificates in Minnesota primarily attended public two-year institutions. Certificates at the sub-baccalaureate level encompass programs in fields such as construction, health care, cosmetology, and many other fields. These programs generally take between nine and fifteen months to complete.

Among sub-baccalaureate certificate recipients, average cumulative median debt decreased by 2% from \$10,286 in 2019 to \$10,112 in 2020 across all sectors. The percentage of graduates from these programs taking out student loans decreased from 2019 (46%) to 2020 (45%). This trend is not consistent across all sectors. In 2020, certificate recipients at:

- Minnesota State Colleges borrowed \$10,391 (down 1% from \$10,507 in 2019), with 41% of graduates borrowing (unchanged from 2019).
- Minnesota State Universities borrowed \$24,681, with 55% of graduates borrowing (data not reported in 2019).
- The University of Minnesota system borrowed \$23,752 (up 47% from \$16,162 in 2019), with 8% of graduates borrowing (up from 7% in 2019).
- Private non-profit institutions borrowed \$9,161 (down 26% from \$12,308 in 2019), with 38% of graduates borrowing (down from 49% in 2019).
- Private for-profit institutions borrowed \$8,765 (down 7% from \$9,382 in 2019), with 80% of graduates borrowing (down from 81% in 2019).

	2018	199	91	46%	\$13,310
	2019	229	113	49%	\$12,308
	2020	284	108	38%	\$9,161
Private For-Profit	2017	1,793	1,307	73%	\$8,210
	2018	1,742	1,316	76%	\$9,293
	2019	1,511	1,218	81%	\$9,382
	2020	1,277	1,023	80%	\$8,765

Note: Sectors with no graduates for the award type are not included.

Associate Degrees

Students receiving associate degrees in Minnesota primarily attended public two-year institutions.

Among associate degree recipients, average cumulative median debt decreased by 2% from \$15,562 in 2019 to \$15,175 in 2020 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2020 (54%) declined by 2 percentage points from 2019 (56%). This trend is relatively consistent across all sectors. In 2020, associate degree recipients at:

- Minnesota State Colleges borrowed \$14,325 (down 5% from \$15,040 in 2019), with 50% of graduates borrowing (down from 52% in 2019).
- Minnesota State Universities borrowed \$17,262 (down 2% from \$17,537 in 2019), with 68% of graduates borrowing (down from 63% in 2019).
- Private non-profit institutions borrowed \$17,896 (up 40% from \$12,816 in 2018), with 69% of graduates borrowing (down from 75% in 2019).
- Private for-profit institutions borrowed \$18,410 (down 5% from \$19,381 in 2019), with 87% of graduates borrowing (down from 91% in 2019).

Bachelor's Degrees

Students receiving bachelor's degrees in Minnesota primarily attended public four-year institutions or private non-profit four-year institutions. Just over half of students in these programs were enrolled full time for both fall and spring terms.

Among bachelor's degree recipients, average cumulative median debt increased by less than one percent, from \$24,641 in 2019 to \$24,793 in 2020, across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2020 (65%) was unchanged from 2019. This trend is not consistent across all sectors. In 2020, bachelor's degree recipients at:

- Minnesota State Universities borrowed \$24,021 (down less than one percent from \$24,117 in 2019), with 68% of graduates borrowing (unchanged from 2019).
- The University of Minnesota system borrowed \$23,634 (up 2% from \$23,227 in 2019), with 59% of graduates borrowing (unchanged from 2019).
- Private non-profit institutions borrowed \$26,647 (up than 1% from \$26,516 in 2019), with 69% of graduates borrowing (unchanged from 2019).
- Private for-profit institutions borrowed \$29,164 (up 8% from \$26,937 in 2019), with 87% of graduates borrowing (up from 86% in 2019).

Note: Sectors with no graduates for the award type are not included.

Master's Degrees

Students receiving master's degrees in Minnesota primarily attended private non-profit four-year institutions or the University of Minnesota system. Most students in these programs were enrolled full time.

Among master's degree recipients, average cumulative median debt increased by 1% from \$36,996 in 2019 to \$37,336 in 2019 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2020 (55%) increased by 1 percentage points from 2019 (54%). This trend is not consistent across all sectors. In 2020, master's degree recipients at:

- Minnesota State Universities borrowed \$34,985 (up 6% from \$32,914 in 2019), with 57% of graduates borrowing (down from 58% in 2019).
- The University of Minnesota system borrowed \$39,922 (up less than 1% from \$39,822 in 2019), with 43% of graduates borrowing (down from 45% in 2019).
- Private non-profit institutions borrowed \$36,452 (down 1% from \$36,942 in 2019), with 61% of graduates borrowing (up from 60% in 2019).
- Because the number of students graduating with loans from these programs at private for-profit institutions was limited in 2019 and 2020, cumulative median debt information is suppressed for both years. In 2020, 79% of graduates borrowed (up from 57% in 2019).

Graduate Certificates

Beginning with this report, the Office of Higher Education includes information on cumulative debt of graduates from graduate certificate programs. Graduate certificate programs are short term programs conferring a post-baccalaureate certificate. In 2019 and 2020, information on graduates for these programs was reported only for Minnesota State Universities. For those graduating with debt, the average median debt was \$31,922 (an increase of 12% from \$28,416), and 57% of graduates had debt at graduation (up from 54% in 2019). See the appendix of this report for additional information by institution.

Table 7: Average Cumulative Median Debt for Minnesota Graduate Certificate Recipients, 2019-2020

Sector	Year	Award Recipients	Number of Graduates with Loans	Percent of Graduates with Loans	Average Cumulative Median Debt
Minnesota State Universities	2019	199	107	54%	\$28,416
	2020	210	120	57%	\$31,922
All Minnesota Total	2019	199	107	54%	\$28,416
	2020	210	120	57%	\$31,922

Note: Sectors with no graduates for the award type are not included.

Doctoral Degrees

Among doctoral degree recipients, average cumulative median debt decreased by 11% from \$63,977 in 2019 to \$56,622 in 2020 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2020 (37%) increased by 4 percentage points from 2019 (33%). This trend is largely consistent across all sectors. In 2020, doctoral degree recipients at:

- Minnesota State Universities borrowed \$54,845 (down 20% from \$67,808 in 2019), with 59% of graduates borrowing (up from 50% in 2019).
- The University of Minnesota system borrowed \$56,101 (down 4% from \$58,507 in 2019), with 27% of graduates borrowing (up from 26% in 2019).
- Private non-profit institutions borrowed \$58,211 (down 22% from \$74,340 in 2019), with 65% of graduates borrowing (unchanged from 2019).
- Less than 10 students from private for-profit institutions graduated with debt in 2020, with 0% of graduates borrowing (unchanged from 2019). Cumulative median debt totals for doctoral degrees from private for-profit institutions were impacted in 2019 by the closure of Argosy University in 2019 (Argosy did not report cumulative median debt for the 2018-2019 academic year).

First Professional Degrees

Among first professional degree recipients, average cumulative median debt increased by 1% from \$143,912 in 2019 to \$145,674 in 2020 across all sectors. Additionally, the percentage of graduates from these programs taking out student loans in 2020 (73%) decreased by 7 percentage points from 2019 (80%). This trend varies from sector to sector. In 2020, first professional degree recipients at:

- The University of Minnesota system borrowed \$172,692 (down less than 1% from \$173,069 in 2019), with 79% of graduates borrowing (down from 80% in 2019).
- Private non-profit institutions borrowed \$105,855 (down less than 1% from \$106,064 in 2019), with 66% of graduates borrowing (down from 80% in 2019).

Conclusion

Overall, average cumulative median debt decreased across most award levels in recent years, with some award types seeing an increase in borrowing during the 2019-2020 academic year. For most undergraduate degree types (associate degrees, and bachelor's degrees), this is reflective of a larger annual trend. Graduates receiving master's and doctoral degrees saw an increase in average cumulative median debt from 2018 to 2019, reversing a decrease in median debt reported for the 2017-2018 academic year. For students receiving first professional degrees in 2019, average debt increased from last year's totals, continuing a steady trend of increases in debt for these awards. Across all undergraduate award types, the percent of graduates borrowing has decreased from 2015 to 2019.

Appendix B – Information on Loan Repayment

Depending on the types and amounts of their loans, graduates may have several repayment options. For each award type in this report, available repayment options will be presented. Several factors determine their repayment amount, including:

- Total amount borrowed
- Interest rate(s)
- Interest accruing while in school or deferment
- Loan forgiveness options
- Loan term(s)
- Graduates' income

Potential repayment options for graduates include:

- **Standard repayment plan:** monthly payments made for up to 10 years.
- **Graduated repayment:** monthly payments made for up to 10 years (payments start low and increase every two years).
- **Pay as you earn:** monthly payments are limited to 10% of discretionary income; outstanding balances are forgiven after 20 years.
- **Revised pay as you earn:** monthly payments are limited to 10% of discretionary income; outstanding balances are forgiven after 20 years (undergraduate loans) or 25 years (graduate loans).
- **Income-based repayment:** monthly payments are generally equal to 15% of current discretionary income (10% if one is borrowing federal loans for the first time); outstanding balances are forgiven after 20-25 years.
- **Income-contingent repayment:** monthly payments are limited to 20% of current discretionary income; outstanding balances are forgiven after 25 years.
- **Extended fixed repayment:** monthly payments made for up to 25 years.
- **Extended graduated repayment:** monthly payments made for up to 25 years (payments start low and increase every two years).

Estimates use the annual median wage for an award holder in that degree type two years after graduating during the 2016-2017 academic year and the statewide average of median cumulative debt for that degree type⁶. Estimates use an estimated graduated monthly repayment amount across eligible repayment plans, and are based on current interest rates for federal unsubsidized loans for undergraduate and graduate degrees. All income-based information assumes 5% annual wage growth. It is important to remember that these estimates do not include debt incurred at other institutions or for other degrees.

⁶ Median wage data by award type is not available for degrees above a bachelor's degree. Loan data for all graduate degree types uses average median wages for all graduate certificates and degrees. Source: <https://apps.deed.state.mn.us/lmi/etd/Results.aspx>
