Future Asset Preservation Projects

While 2021 is not a bonding year, should there be a bonding bill with additional Asset Preservation funds, the Minnesota Historical Society would continue through its Asset Preservation priority list and undertake work at the following Historic Sites: Split Rock Lighthouse, Historic Fort Snelling (Round Tower), Mill City Museum, Comstock House, Fort Ridgely, Ramsey House, Forest History Center, and Oliver Kelley Farm.

If you have any questions regarding the Society's Asset Preservation projects, any other capital budget project or other activity of the Minnesota Historical Society please contact David Kelliher, the Society's Director of Public Policy at 651.259.3103 or david.kelliher@mnhs.org.

The Minnesota Historical Society sincerely appreciates the State of Minnesota's continued support for the preservation of the state's most significant historic sites, thereby providing an important component of our state's educational system as well as a significant economic development tool.

Sincerely,

Kent Whitworth
Director and Chief Executive Officer
