This unit is tasked with conducting officer involved use of deadly force investigations, criminal sexual conduct investigations involving peace officers, as well as conflict of interest cases involving peace officers.

## **Continuous Improvement**

In February 2020, the MN BCA began an in-depth continuous improvement process to review all aspects of BCA use of deadly force investigations. The purpose of this review is to assess the BCA's investigative process and protocols to insure investigative integrity, consistency and transparency. Although this process is ongoing, the BCA had already made several notable changes prior to the passage of MN §299C.80.

The BCA created a Victim, Family, and Community Relations Coordinator. This position meets with and is a conduit of information and resource referrals for families related to use of deadly force investigations. This person also works closely with communities, stakeholders and organizations to grow their understanding regarding the BCA's investigative and legal process and build community relationships.

As a part of the BCA's commitment to continuous improvement the bureau will at least annually review and adjust policies and procedures to create consistency as well as to ensure best practices are evaluated.
