## Co-foreword

---

*A few words to describe this year include unprecedented, unpredictable and unbelievable. Despite this unusual year, we would like to present the 2020 Minnesota Child Support Performance Report in the spirit of resilience and hope. The pandemic and social unrest made it one of the most economically and socially difficult years in decades. These conditions highlighted the importance of child support even more than in past years. In the midst of this unimaginable situation, Minnesota's child support staff adapted and adjusted to help children and families get the support they need. Our program continued to rank in the top five nationally for the percentage of current support collected, at 75.41%, and the percentage of cases with a payment toward past due support, at 79.65%, based on preliminary 2020 Federal Fiscal Year (FFY) data.*

*While we are proud of our achievements, we took steps this year to improve the program including:*

- Addressing issues contributing to systemic racism and program disparities*
- Waiving enforcement remedies as part of the pandemic Peacetime Emergency*
- Strengthening policies and practices for parents who may feel unsafe using child support services.*

*It seems like ages ago that Governor Walz declared a peacetime emergency closing school buildings and directing Minnesotans to stay home to prevent the spread of the coronavirus.*

*We knew we were entering into a time of uncertainty. We did not know how long it would last, or that our country would also face chaos and confusion after the murder of George Floyd. The plans we made for 2020 were quickly disrupted as we adjusted to working in a pandemic.*

*Goals changed as racial equity work took on a new sense of urgency. During these extraordinary times, we never lost track of the important role child support plays to ensure families can pay bills and buy groceries. We created ways to provide services that preserved the health and safety of our staff as well as the families we serve. As businesses closed and parents lost income, we recognized some parents simply could not pay their child support and enforcement remedies would only cause more hardship. Our usual ways of doing business had to change.*

*We made decisions in record speed and cut short the bureaucracy that often bogs us down. As we worried about the very basics of safety, security and health, we also realized how important it is to stay connected. We became more flexible. We learned how to do virtual meetings and appreciated the interruptions of dogs and kids. "You're on mute," became a commonly used phrase.*

*This year has also brought a new racial reckoning. We know 2021 will require continued flexibility, and more importantly, an emphasis on reducing disparities.*

*Hennepin County Child Support Services will launch a program with a community partner to provide wraparound services to parents court-ordered to pay support. These services will include mental and chemical health services, housing, food, career counseling and training. These services will focus on breaking the cycles of generational poverty that will help the entire family. This work is in addition to the county's broad commitment to reducing disparities and the county board's declaration that racism is a public health crisis.*

*Ramsey County Child Support Services will lead a collaborative process with community partners to review child support practices through an equity lens and advocate for changes to practice, policy, and law to reduce the impact of racial disparities on families. Ramsey County will continue working with the FATHER Project and Workforce Solutions to provide services to parents court-ordered to pay child support to help remove barriers to employment and self-sufficiency.*

*Many lessons learned from 2020 will help us shape the child support program for the future. We are thankful for our partnership and child support professionals across the state for making the program work during this challenging year. We will not forget 2020, and we hope for better, more enlightened approaches to our child support work in 2021.*

*Thank you for learning more about the child support program as we look forward to 2021.*

Shaneen Moore  
Director  
Child Support Division

Trish Skophammer  
Director  
Ramsey County

Casey White  
Senior Department Administrator  
Hennepin County

# Executive Summary

In Federal Fiscal Year (FFY) 2020, Minnesota's child support program provided services to 324,563 parents and 226,458 children through 1,417 county and state workers. The program collected and disbursed \$597.9 million. For every \$1 spent on Minnesota's child support program, it collected \$3.26 in support of children.

Minnesota's 2020 Child Support Performance Report presents the program's status, and highlights its accomplishments. The Child Support Division reports the most recent data showing statewide and individual county performance, and a five-year history for the five federal performance measures.

## The five performance measures are:

1. Paternity establishments
2. Child support order establishment
3. Collections on current support
4. Collections on arrears
5. Program cost effectiveness

Minnesota's Federal Performance Measures					
	FFY 2020	FFY 2019	FFY 2018	FFY 2017	FFY 2016
Paternities established	100.14%	100.98%	101.23%	101.05%	100.77%
Orders established	87.47%	88.62%	88.32%	88.56%	88.91%
Collections on current	75.41%	75.40%	74.94%	74.53%	74.29%
Collections on arrears	79.65%	72.91%	72.45%	72.26%	72.36%
Cost effectiveness	\$3.26	\$3.14	\$3.26	\$3.30	\$3.30

Minnesota's child support program competes with other state programs for federal incentive funding from the Office of Child Support Enforcement (OCSE). State programs maximize federal incentives by reaching performance thresholds on the five measures. Minnesota's program maximized its federal incentives on two of five measures, paternity establishment and orders established. Minnesota's program has opportunities to earn additional incentives based on collections, which maximize at 80% and cost effectiveness at \$5.00.

## Minnesota's child support program in FFY 2020:

- Served 226,458 children; fewer than 11% of them received public assistance in the form of cash, as of Sept. 30, 2020.
- Distributed \$610.7 million, including:
  - \$387.8 million from employers withholding child support from parents paychecks
  - \$76.1 million through tax intercepts
  - \$66.6 million from cash, checks and unemployment insurance
  - \$37.5 million received from other states' and countries' collections
  - \$1.3 million from financial institution data match levies.

Payments towards past-due child support, or arrears, increased in 2020 because the Coronavirus Aid, Relief and Economic Security (CARES) Act did not exempt economic impact payments from going towards past-due child support. The federal government required state's child support programs to process these payments the same way they process federal income tax refunds.

As a result, Minnesota's child support program applied the economic impact payments for parents who owed past-due support with cases eligible for a federal income tax refund offset to pay their past-due support.

## In FFY 2020, Minnesota child support workers:

- Established paternity through 1,888 court orders and 648 Recognition of Parentage forms signed at county offices
- Established 9,693 orders for support; 87.47% of Minnesota child support cases have an order in place
- Adjusted 44,993 cases for cost of living, which increases the amount of child support ordered due every two years
- Modified more than 6,426 child support orders.

The division strives to allow children to depend on their parents for the support they need. In carrying out its vision, workers promote children's well-being and family self-sufficiency by delivering quality child support services. Its work reflects the division's core mission and values and shows commitment to:

- **Children**
- **Quality Customer Service**
- **Integrity, Respect and Ethics**
- **Innovation and Excellence**
- **Collaborative Relationships**

Supporting children is at the core of state and federal child support programs. The federal office's vision and mission diagram of innovative partnerships and initiatives that federal, state, county and tribal child support programs have developed demonstrates a shift to a more family-centered approach to delivering child support services. Together, staff help parents support their children. By intervening early, child support programs address underlying reasons for nonsupport – whether it is unemployment, parental conflict, or disengagement. By broadening strategies and partnering with other programs, child support staff can do more to ensure that parents provide their children with financial and emotional support throughout childhood.

# Minnesota Child Support Services

Together with county and tribal agency staff, the child support program serves 324,563 parents and 226,458 children across 87 counties and 11 tribes. The Minnesota Department of Human Services Child Support Division supervises the program. County offices administer services by working with parents to establish and enforce support orders. Congress enacted child support programs in 1975 under Title IV-D of the Social Security Act.

Child support staff, including 1,417 employees statewide, work in partnership to serve the needs of Minnesota families, providing support to children. The number of staff is important to the Cost Effectiveness performance measure. Annually, the division gathers staff counts through a survey that reports full time equivalencies (FTE). FTEs are staff dedicated to working directly on, and supporting child support cases, such as supervisors, managers and directors, child support officers, financial, administrative, training, technology and legal specialists, contractors, system programmers and others. Some staff included in the FTE count work outside the program under cooperative agreements. These agreements are initiated by county child support offices for resources outside the agency, including county attorneys, legal staff, office support, sheriff's personnel, public health workers and others.

## Minnesota's child support program benefits children by:

- Locating parents and establishing parentage
- Establishing and reviewing child support orders for modification
- Helping children receive financial, medical, and child care support, needed to enhance their growth and development
- Working with other state agencies to help families when one parent lives outside of Minnesota
- Helping families work toward becoming and remaining self-sufficient, ensuring parents establish a financial partnership.

Child support is money parents are court ordered to pay to their child's other parent or caregiver for support of their child. Support may be part of an interim, temporary, permanent, or modified court order in a divorce or legal separation, paternity action, order for protection, child custody action, or separate child support action.

## Child support services are available to:

- Parents of minor children if one parent does not live with their child
- Parents who pay child support through court-ordered income withholding
- Those who have court-ordered physical custody of a minor child
- Those who receive public assistance for a minor child living in their home.

Child support cases open when either parent applies for services, or when a county public assistance office refers a case.

*A family-centered approach to supporting children is at the core of the child support program.*

# Payments

## Partnerships

The child support program helps parents establish a financial partnership by offering services for children to receive financial, medical and child care support they need to enhance growth and development. These three elements combine to form a monthly child support obligation.

Once a parent applies for services, or after financial workers refer a case because a family receives public assistance, all child support payments must come through the Child Support Payment Center. States are required to have a central payment center that receives and disburses child support collections so parents get credit for making payments, and payments disburse correctly. Many state and federal agencies, employers, and other service programs help the child support program operate effectively and efficiently.

## Processing

Division staff receipt payments. In most cases, they send support collected and owed to the custodial parent within two business days by direct deposit into a checking or savings account or stored value card. Staff may hold funds collected through certain tax refund offsets for up to six months, ensuring proper interception of refunds.

In FFY 2020, the program distributed \$610.7 million to child support cases.

Payment center staff:

- Processed \$634.1 million in payments, of which approximately \$23.5 million was returned to sender
- Receipted 2,980,995 transactions, of which 736,074 were paper items such as checks, and 2,244,921 through automated clearing houses (ACH)
- Deposited 95.25% of collections directly into parents' accounts.

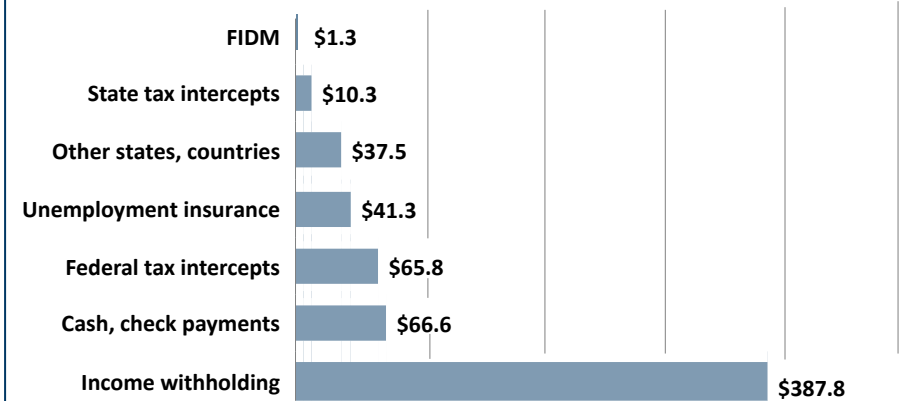

## Sources

The division tracks the sources of child support payments to measure the effectiveness of enforcement activities and collection tools. The graph, Payment Sources, shows the payment sources for FFY 2020.

### PAYMENT SOURCES

Amounts by source, \$610.7 million distributed

## Income withholding

Most new or modified child support orders require income withholding where employers and payors of funds automatically withhold child support obligations from parent's pay, or other sources of income, and send withholdings to the state agency. Through income withholding, employers collected \$387.8 million from parents' paychecks, 63.5% of all support distributed.

Employers play a pivotal role in Minnesota's child support efforts, making a valuable contribution to the lives of children. Employers are also required to report new hires to the [Minnesota New Hire Reporting Center](#), which helps match working parents with child support obligations. Cooperation among employers and child support agencies encourages parental responsibility, reduces taxpayer costs for public assistance, and helps families provide for their children.

## Cash, check payments

Parents who are self-employed or do not pay through income withholding send their child support to the payment center by check, cashier's check, money order, or automatic-recurring withdrawals. In FFY 2020, \$66.6 million, 10.9% of collections, were paid by these methods.

## Other states

Child support provides services to many families with complex and changing needs. Promises of increased income opportunities and job availability may influence a parent's decision to move to and from Minnesota while child support services continue. For parents who owe support and work outside of Minnesota, other states collected \$37.3 million, 6.1% of collections, of child support in FFY 2020.

*Most of the child support cases in Minnesota are non-public assistance cases. Children on these cases either never received or are no longer receiving public assistance.*

## Other sources

Sometimes child support obligations go unpaid or are collected only when child support workers enforce orders. In addition to enforcement methods below, parents who do not comply with their child support orders may be denied approval or renewal of a passport, reported to a credit bureau, be subject to civil contempt proceedings, charged with criminal nonsupport, or have their driver's license suspended.

The remaining payment sources include:

- 10.8% from intercepts of federal tax refunds, \$65.8 million
- 6.8% from withholdings from Unemployment Insurance, \$41.3 million
- 1.7% from intercepts of state tax refunds, \$10.3 million.

On page 48, the Collections – Sources table breaks down payment sources per county.

# Initiatives

---

## Covid-19 response

The COVID-19 global pandemic presented an unprecedented challenge to government programs and the people they served. Under Governor Walz's Executive Order 20-12, Minnesota Department of Human Services Commissioner Harpstead waived new driver's license and occupational license suspensions and reporting past-due child support to credit bureaus for parents who became eligible for these enforcement remedies starting in March. The waiver provides relief for families during the pandemic.

In addition to providing relief for families, division staff helped county agencies dealing with office closures and limited access to the courts. In July, the federal office approved the division's request to extend a number of federal timeframes for county agencies to perform several program-related tasks during Minnesota's Peacetime Emergency.

These tasks include:

- Establishing support and paternity orders
- Processing applications and referrals
- Sending income withholding orders and other notices, and
- Completing actions on intergovernmental cases.

The division also created a state-county workgroup to streamline the process to modify child support court orders for parents who may need to update their orders because of the pandemic's lasting impact on the economy.

## Equity initiatives

Formed in 2017, the division's Equity Team models behaviors that focus on exhibiting the importance of diversity, equity and inclusion, and recognizing the importance of having a team that addresses existing disparities among various communities. The team hosted a staff education event on institutional racism and discrimination in February 2020. The event included a screening of the film "Jim Crow of the North" and a panel discussion with the co-founder of the Mapping Prejudice Project, the filmmaker from Twin Cities PBS, and an urban planner from the City of Minneapolis. The same panel participated in the National Child Support Enforcement Association's "Inspire" professional development event in October 2020. Minnesota's child support program staff has a strong commitment

to diversity, equity and inclusion. Division staff will continue to sponsor initiatives and events that highlight the importance of this work for child support professionals and program participants.

## Enhancing our response to safety concerns

State statute changes effective Aug. 1, 2020 give child support participants increased ability to safely receive child support services, and provide a clearer voice in the process, through expanded address protection options. Updates to policies and procedures emphasize the importance of communication with survivors of family violence. Increased training opportunities for child support workers and legal staff, including a new partnership with the federal office, are better equipping child support staff to recognize and respond to family violence concerns. This includes a focus on giving child support participants the knowledge they need to make informed decisions to best meet their needs for safety. The division is also starting a long-term process to engage stakeholders to review all policies and processes for enhanced safety measures and to improve collaboration with other government and nonprofit resources working to increase safety for families.

## Electronic application for services

As part of the federal digital marketing grant, county, Minnesota Information Technology, and division staff developed a new electronic application for child support services. It provides applicants an opportunity to sign-up for services on a computer or mobile device. The primary goal of creating an electronic application was to improve families' access to services. The division will promote the new application in pilot counties with digital marketing ads starting in 2021.

## Minnesota Paths to Parenthood

The division received a federal demonstration grant to educate youth and young adults with criminal justice involvement on the financial, legal, and emotional responsibilities of parenting. The division will partner with the Minnesota Department of Corrections, University of Minnesota Prevention Research Center, University of Minnesota Extension, and community-based social service agencies to develop, implement, and evaluate a child-support-focused curriculum titled "Minnesota Paths to Parenthood." Grant activities began in fall 2020 and continue through summer 2023.

## Intergovernmental Cases

Approximately one of every seven child support cases involve parents who live in another state. Cases are intergovernmental when one party lives in a jurisdiction different from the other, when a child support order is from a jurisdiction other than the one where both parties live, or when more than one child support order is covering the same parties. Intergovernmental child support cases are governed by provisions of the Uniform Interstate Family Support Act (UIFSA). Provisions of UIFSA 2008 were adopted by every state.

Of the 87 Minnesota counties, 35 share a border with another jurisdiction. Working on cases that cross jurisdiction borders continue to be essential services provided by the child support program. By law, although each state has its independent court system with varying laws, policies and procedures, agency staff must cooperate in handling requests for assistance. When a Minnesota agency requests assistance from another jurisdiction for child support services, it is referred to as an initiating case. Alternatively, when an agency in another jurisdiction asks Minnesota for assistance, the case is referred to as a responding case. Minnesota's child support program demonstrates achievement in intergovernmental case establishment and collections.

### Initiating cases

There were 18,857 initiating intergovernmental cases open in Minnesota in FFY 2020; of those, 17,594 had a child support order. Data shows an intergovernmental initiating ratio of 93.30% of cases with an order established either prior to or after Minnesota initiated to another jurisdiction.

For intergovernmental cases where Minnesota is the initiating state, the average case with a child support order collected \$2,467.51 in FFY 2020.

### Responding cases

In FFY 2020, there were 8,146 open intergovernmental cases where Minnesota was responding to another jurisdiction; of those, 7,747 had a child support order. This is a high establishment percentage for intergovernmental responding cases at 95.10%.

For intergovernmental cases where Minnesota is the responding state, the average case with a child support order collected \$3,182.73 in FFY 2020.

On page 45, the Collections to and from Other States table displays how much money each county distributes to other states, how much is received from other states, and size of initiating and responding caseloads.

*Employers reported information on more than two million new hires to Minnesota's New Hire Reporting Center. Because Minnesota's center is convenient and efficient, some employers that operate in multiple states choose to report all of their new hire information to Minnesota.*

# Guide and Introduction to Performance Data

## Calculations

The 2020 Child Support Performance Report highlights accomplishments and presents program performance measures for FFY 2020. It reports the most recent data showing statewide and individual county performance, and a five-year history for the five federal performance measures. The division participates in the federal incentive funding system based on program performance, as required by the Personal Responsibility and Work Opportunity Act of 1996. The federal office evaluates states competing for federal incentive funds based on five federal performance measures. The five measures are:

**PATERNITY ESTABLISHMENTS** – the number of open Title IV-D cases with paternity established during the federal fiscal year divided by the number of children in open Title IV-D cases born outside of marriage during the prior federal fiscal year.

**CHILD SUPPORT ORDERS ESTABLISHMENT** – the number of cases open at the end of the federal fiscal year with support orders established divided by the number of cases open at the end of the federal fiscal year.

**COLLECTIONS ON CURRENT SUPPORT** – the total amount of support disbursed as current support during the federal fiscal year divided by the total amount of current support due for the federal fiscal year.

**COLLECTIONS ON ARREARS** – the number of total cases with support disbursed as arrears during the federal fiscal year divided by the number of total cases with arrearages due during the federal fiscal year.

**PROGRAM COST EFFECTIVENESS** – for the federal fiscal year, the amount of collections forwarded to other states plus total collections disbursed, including fees retained by other states divided by total Title IV-D dollars expended during the federal fiscal year.

Distribution is the identification and allocation or apportionment of a support collection to current and past-due support, as applicable, of a specific case or individual. Disbursement is the actual process of dispensing or paying out the collection. (AT-20-06 OCSE 157 Instructions)

Unlike other performance measures, OCSE allows state agencies to choose between two methods of reporting paternity establishment percentages. One method uses all children born in the state. The second method, which is used by Minnesota, uses only children in the Title IV-D state system. Both methods involve paternitys and births that span more than one 12-month period. The paternitys established by child support workers during the federal fiscal year, therefore, are not necessarily for the same children born of non-marital births in the same federal fiscal year. This explains why some states have a paternity establishment percentage exceeding 100%. For the federal performance incentive, Minnesota's percentage is 100.14.

<b>PATERNITIES ESTABLISHED</b>	$\frac{\text{Children in open Title IV-D cases with paternity established}^1}{\text{Children in open Title IV-D cases born outside of marriage}^1 \text{ in previous year}}$
<b>ORDERS ESTABLISHED</b>	$\frac{\text{Cases open at the end of fiscal year with support orders established}^2}{\text{Cases open at end of fiscal year}^2}$
<b>COLLECTIONS ON CURRENT SUPPORT</b>	$\frac{\text{Total amount of support disbursed as current support during fiscal year}^2}{\text{Total amount of current support due for the fiscal year}^2}$
<b>COLLECTIONS ON ARREARS</b>	$\frac{\text{Total cases with support disbursed as arrears during fiscal year}^2}{\text{Total cases with arrearages due during fiscal year}^2}$
<b>COST EFFECTIVENESS</b>	$\frac{\text{Collections forwarded to other states + total collections disbursed + fees retained by other states}^3}{\text{Total Title IV-D dollars expended}^4}$

## Federal incentives

States are able to maximize federal incentives by reaching performance thresholds on each of the five measures. Minnesota maximized its federal incentives on two of five measures: Paternity establishment at 100.14%, and order establishment at 87.47%. Minnesota has opportunities to earn additional incentives based on collections, which maximize at 80.00% and cost effectiveness at \$5.00. For FFY 2020, collections on current support was 75.41%, collections on cases with arrears was 79.65%, and cost effectiveness at \$3.26.

The federal government matches 66% of state and county spending. It also provides funding based on performance, outcomes and collection base, which the division passes on to county agencies. Division staff determines a county's share using the same methodology that the federal office uses for states. County agencies are required to reinvest incentives in the Title IV-D program.

Secure, accurate, and reliable data is critical to the child support program's success and funding. In addition to meeting the federal office's performance standards, a state's data must meet a 95% data reliability standard. Reliable data is sufficiently complete and error-free. Federal auditors assess completeness, reliability, and security of data, as well as accuracy of reporting systems used in calculating performance measures.

Failure to meet any of the five federal performance standards, or the 95% data reliability standard, puts a state program at risk. Failure can mean loss of eligibility for incentive funds and the possibility of incurring significant penalties to the Temporary Assistance for Needy Families (TANF) grant – the Minnesota Family Investment Program (MFIP) – if there is no improvement during the corrective action year.

*States compete against each other for incentive funds based on federal performance measures.*

If a state falls below one or more of the performance measures, or does not meet data reliability criteria, the federal office imposes an automatic corrective action period of one year. If no corrections are made during that year, the federal office imposes a penalty at the end of the year, which reduces payments by 1 to 2% of the state TANF grant for the first finding; 2 to 3% for the second consecutive finding; and 3 to 5% for the third and subsequent consecutive findings. Total penalties may not exceed 25% of a state's TANF grant.

Historically, Minnesota has performed well in federal audits. The federal office's annual Data Reliability Audit validates performance and financial reporting are accurately reflected in review of the child support system. Minnesota has not had a corrective action or penalty in any of its audits regarding data reliability.

## Performance relative to other states

To show how Minnesota compares to other states, the most recent national data is included in report tables. Federal ranking is based on FFY 2019 data; Minnesota ranked third for collections on current support nationally and collections on arrears. National information is available online from the federal office. The table below shows Minnesota's performance measures for FFY 2019 compared to the four bordering states.

FFY 2019 Federal Performance Measures – Border State Comparison					
	MN	IA	ND	SD	WI
Paternities established	100.9%	96.4%	110.4%	104.5%	101.6%
Orders established	88.6%	92.7%	88.5%	91.1%	86.9%
Collections on current	75.4%	73.1%	76.6%	64.2%	75.0%
Collections on arrears	72.9%	69.2%	67.0%	60.3%	69.4%
Cost effectiveness	\$3.14	\$5.97	\$6.36	\$10.47	\$6.20

## Funding

The federal office provides funding to states by matching qualifying expenditures, and by basing funding on performance, outcomes, and the state's collection base. The collection base is the "baseline" of the incentive structure. Once established, the federal office applies performance on the five federal performance measures to the collection base for a national total and awards each state a prorated portion of the total incentive pool. Dollars in the incentive pool are limited. Each state's share is affected by how every other state performs under the incentive formula.

## Table tips

Tips for the tables in the 2020 report:

- Statewide data appears at the bottom of tables for convenient comparison on each page
- Statewide data figures include all county and tribal shared interest case data
- A dash indicates no data applicable
- Merged county agencies are reported as follows:
  - Faribault-Martin is listed as one agency
  - Southwest Health and Human Services is listed as SWHHS (Lincoln, Lyon and Murray (LLM), with the addition of Rock on Jan. 1, 2012, and Pipestone and Redwood on Jan. 1, 2013)
  - Des Moines Valley (Cottonwood and Jackson merged on Jan. 1, 2014)
  - MNPrairie (Dodge, Steele and Waseca merged on Jan. 1, 2015)
- Data sources are listed at the bottom of tables
- National data for state ranking is for FFY 2019.

*The child support program helps parents establish a financial partnership by offering services for children to receive the basic financial, medical, and child care support needed to enhance their growth and development.*
