

TRANSPORTATION ADVISORY BOARD
Mears Park Centre, 230 E. Fifth St., St. Paul, Minnesota 55101

ACTION TRANSMITTAL

No. 93-20

DATE: December 1, 1993

TO: Transportation Advisory Board

FROM: Technical Advisory Committee

MOTION: That the Transportation Advisory Board approve the attached amendments to the 1994-1996 Transportation Improvement Program (Adoption should occur at the January 19, 1994 meeting after completion of the public comment period.)

BACKGROUND AND PURPOSE OF ACTION: Attached are replacement tables to the Twin Cities 1994-96 TIP, which was adopted by the TAB on July 28, 1993, and approved by the Metropolitan Council on August 12, 1993. The TIP was conditionally approved by the Minnesota Department of Transportation on October 22, 1993, and transmitted to U.S. DOT for approval and incorporation into the State Transportation Improvement Program (STIP). The conditions of the state approval of the TIP require this amendment to the TIP, along with other necessary changes at this time. The content and reasons the proposed amendment is necessary are explained below.

1. A need for approximately \$50 million of deferrals of Mn/DOT projects was identified shortly after the TIP was approved in July. These adjustments to Mn/DOT projects were necessary due to the need to balance the state budget and to account for projects within the state fiscal year timeframe. These project deferrals were announced in August, but have yet to be formally approved as part of the TIP. Approval of the TIP by Mn/DOT and incorporation into the STIP was conditional on this action. Attachment 1 describes the shifts that were required to major projects scheduled for lettings in 1994 to 1996. The specific projects appear in the amended tables that follow. Table 3-B from the TIP has been modified to reflect these deferrals.
2. Mn/DOT's accounting of projects identified in the TIP indicates that the projects total more than the "targeted" amount identified for 1994-96 for the Twin Cities area. Reconciling these figures was also part of the condition for approval of the TIP. Therefore, an effort has been made to identify those projects shown in the TIP for 1994 which in fact will not be ready for lettings in federal fiscal year 1994. Those projects have been moved to 1995 and 1996. For now, amounts identified for future STP and CMAQ projects for 1995 and 1996 can be used for balancing within the annual targets. When future STP and CMAQ projects are identified, other projects in the TIP may have to be removed in order to balance the area's target. This strategy was selected by the Funding and Programming Committee because the process to develop the 1995-97 TIP will begin within the next two months, at which time all funding assumptions will be reviewed.
3. TAB solicited STP and CMAQ projects in May, 1993, and concurred with TAC project recommendations for funding in September, 1993. The 1994-96 TIP included a setaside of

funds for STP and CMAQ projects. This amendment identified those projects now recommended for funding (tables 3-X and 3-Y) which utilize those funds.

4. The 1994-96 TIP included tables identifying small area FAU and FAS projects. The FAU and FAS programs no longer exist, but there is still a commitment to the projects within a specified timeframe. This amendment deletes projects already authorized in 1993, identifies current funding source (STP) and a sunset date (April, 1994) for the remaining projects. This clarification was also a condition of the state for TIP approval.
5. Changes to Table 3-U are necessary in order to delete the city of Richfield bus purchase through the FTA Section 16 program, since Richfield has purchased the bus itself. Also, two projects have been added, a mid-sized bus purchase by the Ebenezer Ridges Care Center in Burnsville, and a passenger van purchase by the Vinland National Center in Loretto. These additional projects are possible due to the deletion of the Richfield project and availability of more program funds than originally anticipated.
6. A number of changes need to be made relative to transit projects (the attached memorandum from the MTC explains these changes in some detail). Modifications or additions have been provided to TIP tables 3-S, 1994 Transit Projects by Source of Federal Funds, and Table 3-T 1994-96 FTA Section 9 Capital and Operating Assistance. Appropriate changes are also needed to the tables in Appendix B, Conformity of the 1994-1996 Transportation Improvement Program with the 1990 Clean Air Act Amendments. These changes are attached.
7. All programmed projects will be reviewed for conformity with the requirements of the 1990 Clean Air Act Amendments. The TAC's adoption is made conditional on a finding of conformity. The analysis will be complete prior to TAB adoption.

<u>Table</u>	<u>Changes in TIP Amendment</u>
3-A	No changes
3-B	Summary table; updated as appropriate
3-C	FAU projects incorporated into Table 3-X; project status updated, sunset date identified
3-D	FAS projects incorporated into Table 3-X; project status updated, sunset date identified
3-E	Bikeway/Walkway projects incorporated into Table 3-X; project status updated, sunset date identified
3-F	Enhancements project status updated, sunset date identified
3-G	Demonstration projects, add P.E. and R/W projects from Table 3-R; also add 77th St. in Richfield
3-H	IVHS, no change
3-I	Bridge projects - Mn/DOT and local bridge projects merged into one table
3-J	Preservation projects - all program category entries have been incorporated into other tables as specific projects, with the exception of 1996 bridge improvements and 94-96 Road Repair (state funded), and 95-96 Municipal Agreements
3-K	Mn/DOT CMAQ/NHS - delete table, include projects in NHS table
3-L	Interstate Maintenance - project information updated (including deferrals)
3-M	Mn/DOT NHS - project information updated (including deferrals)

3-N Mn/DOT STP - add "Any Area" to title, delete Hazard Elimination Safety (HES) projects from table, add to Table 3-O, project information updated, including deferrals

3-O STP Safety - add HES projects

3-P State funded projects - no change

3-Q Mn/DOT 1993 projects - delete table, add projects to be let in state fiscal 1994 to appropriate tables

3-R Delete table, add projects to Table 3-G

3-S Changes will be made to reflect approved projects as illustrated

3-T Changes will be made to reflect increased 1994 funds as illustrated

3-U Delete one project, add two projects as described above

3-V No change

3-W Updated to reflect current tables

3-X New table, STP Urban Guarantee, including Bikeway/Walkway projects

3-Y New table, CMAQ projects

4-A Modify to reflect changes

MEMORANDUM

TO : Chair and Members of the Funding and Programming
 Committee

FROM: Hank Imm *HE*

DATE: November 16, 1993

SUBJECT: Request of 1994-1996 TIP Amendments

The MTC just received the official announcement of FY-1994
Transit Funding apportionments as follows;

1. Section 9 Annual Grant:

	Actual	Estimate
Operating Assistance :	\$ 7,281,433	\$ 7,350,000
Capital Assistance :	\$ 11,966,338	\$ 7,625,000
Total :	\$ 19,247,771	\$14,975,000

- Section 9 grant is an annual grant to the MTC based on the formula, i.e. the combination of population and service miles of the preceding 2 year's operation.
 - The funding ratio is 80 - 20 and the FY-1994 apportionment is higher than the estimate.
 - The application has been submitted and under the FTA's review which requires the corresponding TIP elements.
 - The operating assistance portion is for the MTC's CY-1993 operating expenses and the entire amount will be reimbursed to the MTC early 1994.
 - The capital assistance portion of \$ 9.2 million will be used for up to 51-40 ft buses (project 3312) during 1994 and 1995. The remainder will be allocated for future capital projects.
- : Amendments needed in Tables : 3-S, 3-T, B4 and B5.

2. Section 3 Discretionary Grant

- This is a discretionary grant of \$ 7 million earmarked for the MTC's bus project(3312).
 - It will be used to pay for 41-40 ft buses together with the above Section 9 grant during during 1994 and 1995.
 - The funding ratio is 75-25 and the application is being prepared for submission to FTA.
- : Amendments needed in Tables : 3-S, 3-T, B4 and B5.

3. Section 26(b) grant for Team Transit Projects

- This is also another type of discretionary grant of \$ 500,000 for the MTC's Team Transit Project, which is a multi-agency cooperative project to implement solutions to mass transportation mobility and congestions in the urban and suburban area in and around Minneapolis-St. Paul.
- This grant is an operating grant to be expended during 1994 and does not require a local match.
- The application has already submitted.
- : Amendments needed in Tables : 3-T and B5.

The revised tables shall be as attached;

Table 3B

Project approvals are specifically limited to the federal fund amount identified here for purposes of plan specification and estimate approval as well as project authorization. The federal fund amount listed for each project may be used to fully fund any identifiable useable element of the project described or to fund the entire project with a flexible federal/nonfederal participation. The federal fund amount listed is the total which may be authorized for all advertisements of the project described. Any federal fund amounts authorized of placed under agreement in years prior to November 15, 1991 should be deducted from the amount identified in this annual llement.

MN GUIDESTAR - INTELLIGENT VEHICLE HIGHWAY SYSTEM OPERATION TASKS

Project	State Project Number	County	Letting Date	Year Operational	Objective	Estimated Cost (000s)					
						Total	Federal	State	Other Local	Private	Newest Project
ITMS Scoping Study		Seven-County Region	1993	1994	To build consensus on the Twin Cities Integrated Traffic Management (ITMS) design and to develop preliminary engineering details for the recommended options	500	400	100	0	0	F-1
ITMS Operations and Maintenance Study		Seven-County Region	1993	1994	To develop an Operations and Maintenance Program for the Twin Cities' Integrated Traffic Management System (ITMS)	50	35	10	5	0	F-1
Advanced Parking Information System		Ramsey	1993	1994	To examine the feasibility of an automated real-time parking information and guidance system	750	600	75	75	0	F-1
Rosedale		Ramsey	1993	1995	To evaluate the use of ATMS & ATIS technologies to improve access to and from a major activity center thus reducing congestion	549	269	140	140	0	F-1
St. Paul Incident Management		Ramsey	1993	1994	To manage incidents in the I-94/I-35E corridor area making use of comprehensive data communication between Mn/DOT's traffic management center (TMC) and the City of St. Paul	564	360	90	70	0	A-18
Trilogy		Seven-County Region	1992	1993	To develop and evaluate an advanced traveler information service using the Radio Data System - Traffic Message Channel (RDS-TMC)	280	0	280	0	44	A-18
Portable Traffic Management System		Anoka	1993	1994	To demonstrate and evaluate a fully portable traffic management and control system	670	358	159	155		A-18
Smart DARTS		Dakota	1993	1994	To improve existing transportation systems for seniors and persons with disabilities	562	272	20	244	26	F-1
ICTM		Seven-County Region	1993	1994	To demonstrate that more efficient corridor transportation movement can be achieved through cooperative jurisdictional efforts, freeway and arterial integration, real-time adaptive control strategies, advanced technologies and a comprehensive motorist information system	7,250	3,750	3,500	0	0	F-1
Cruise		Hennepin	1994	1995	To develop and test sensor systems which apply advanced detection technologies to traffic management and control	1,600	328	2	0	1,190	A-18
Third Avenue Distributor (TAD)		Hennepin	1994	1994	To define and develop strategies for coordinated corridor-based traffic management and to evaluate these strategies in a real-world environment.	2,895	1,090	30	1,600	175	F-1

Project approvals are specifically limited to the federal fund amount identified here for purposes of plan specification and estimate approval as well as project authorization. The federal fund amount listed for each project may be used to fully fund any identifiable useable element of the project described or to fund the entire project with a flexible federal/nonfederal participation. The federal fund amount listed is the total which may be authorized for all advertisements of the project described. Any federal fund amount authorized or placed under agreement in years prior to November 15, 1991 should be deducted from the amount identified in this annual report. Metropolitan Council approval of those projects which include interchange construction/reconstructions is conditioned on those interchanges including provisions for meters and high occupancy vehicle bypasses consistent with the HOV Facilities Plan.

Action	Recipient	Description	Federal	Local	Total
Delete	City of Richfield Richfield (Hennepin Co.)	22 passenger large bus	35,600	8,900	44,500
Add	Ebenezer Ridges Care Center Burnsville (Dakota Co.)	18 passenger mid-sized bus	32,400	8,100	40,500
Add	Vinland National Center Loretto (Hennepin Co.)	5 passenger standard van	22,240	5,560	27,800

Table 3-W TIP Tables Key

The tables are broken into the various "most likely" funding categories and are sorted by: Federal Fiscal Year, Trunk Highway, and State Project Numbers. The contents of each of these columns is as follows:

1. Year - the federal fiscal year the project is scheduled to be let.
2. STIP Seq - the sequence number from the Statewide Transportation Improvement Program if the project was included in the October 1993 printing of the 1994-1996 STIP.
3. Route - the route this project is located on. A "999" means multiple routes or a location has yet to be determined.
4. Prt - the major project this project is a part of - see attached list of Parent projects.
5. Project Number - the MN/DOT or State-Aid project number for the project.
6. Prg - the MN/DOT program designation of the project.

AM - agreements	BI - bridge improvement
BR - bridge replacement	MC - Major Construction
RC - reconstruction	RD - reconditioning
RS - resurfacing	RX - road repair
SC - safety-capacity improvements	SH - safety-hazard elimination
SR - railroad safety projects	TM - traffic management
7. Total \$ - the total project cost (in thousands) including federal, state and local funds. This figure excludes right-of-way.
8. Fed \$ - the total Federal funds (in thousands) being applied to the project (generally 80% of the total project cost).
9. State \$ - the total State funds (in thousands) being applied to the project.
10. Local \$ - the total Local jurisdiction funds (in thousands) being applied to the project.
11. Possible Funds - the highest ISTE program the project is eligible for funding: BRIDGE, CMAQ, DEMONSTRATION, ENHANCEMENTS, INTERSTATE MAINT, IVHS, NHS, STP-ANY AREA, STP-SAFETY, STP-URBAN GUARANTEE, STATE FUNDS.
12. Category - the STIP category of the project - EXPANSION, PRESERVATION, OTHER, REPLACE and SAFETY.
13. Description - the location and work to be accomplished by the project
14. MI - the length of the project in miles
15. Agency - the lead agency for the project.
16. A.Q. Excl - TIP air quality category. NO = not excluded from air quality analysis, GR = the project is grandfathered under a previously conforming TIP, and T-2 = the project is required to be analyzed using a "Table 2" analysis. All others are neutral and indicate the applicable air quality exclusions.
17. Sunset - the date the federal funds are no longer available for this project.
