## Fiscal Report for QE 09/30/21

### Introduction

1. The METS fiscal report is a product of the METS Executive Steering Committee Finance Work Group. This group includes financial management from MNIT, DHS and MNsure.
2. The report is produced quarterly, in accordance with M.S. 62V.055, Subdivision 3, and is available approximately 45 days following quarter-end.
3. The report includes two tables:

Table 1: Overall View of METS Budget. This table provides a four year view of the METS budget, including: actual FY 2020, estimated actual FY 2021, budget for FY 2022 and preliminary budget FY 2023. The FY 2023 preliminary budget for development reflects the last quarter of the current federal award. The FY 2023 preliminary operations budgets are assumed to continue at the current level, but will be re-evaluated annually.

Table 2: Budget vs Est. YTD (expenditures & est. remaining encumbrances) Table 2A (for FY 2021) and Table 2B (for FY 2022) show the fiscal year budgets, quarterly actual expenditures, and estimated encumbrances. Note that these tables include an Expenditures After FY End column to report on the fiscal year expenditures that will be recognized after June 30th due to the standard procedural lag between invoicing and payments.

**Note: Expenditures often lag, i.e. do not occur at a steady rate throughout the year. Examples may include:**

- a. State Personnel, due to payroll processing and interagency billing.
- b. Staff Augmentation and Service Contracts, due to billing lag, timing of various projects based on development roadmap, and associated deadlines throughout the year.
- c. Hardware/Software, due to processing time and the execution of payments throughout the year (not shown as accruals).
- b. MNIT Central Services, due to processing and interagency billing.

4. The tables are based on the following standard reporting conventions:

Development v. Operations. Within both the Expenditure and Financing sections, development is distinguished from operations. Development includes federally defined and applicable work, and MNsure development contributions. All other expenses are considered operations.

Expenditure Categories. Within the Expenditure section, the costs are reported in standard categories.

State Personnel	Developers, architects, project managers, business analysts, quality assurance, release management, security, and other MNIT staff, along with necessary business subject matter experts. Includes total compensation (salaries and fringe).
Staff Augmentation	Contracted individuals or companies to increase capacity.
Service Contracts	Major vendor agreements that provide expertise and enhanced functionality to the system.
Hardware/Software	Initial purchases and ongoing support costs for licensing/software and hardware.
MNIT Central Services	System infrastructure components including, but not limited to, server capacity, data storage, networking, routing, and bandwidth, provided as a service from MNIT. Also includes staff equipment.
General Administration	Training, supplies, travel, occupancy, and other miscellaneous administrative costs.

Financing Categories. Within the Financing section, the revenues (by funding source) associated with the fiscal years' expenditures is estimated based on the standing federal Public Assistance Cost Allocation Plan (PACAP) methodology. Note that actual revenues lag behind the expenditures by approximately 45 days due to the standard timing of the federal PACAP process.

Notes:  
 - Development includes federally defined and applicable work, and MNSure development contributions. All other expenses considered operations.  
 - Fiscal year Financing numbers are based on the federally-approved cost allocation methodology that is generally applicable to each fiscal year (i.e. the report reflects a reasonable matching of expenditures and revenue).  
 - CCIIO/ARPA category within the Financing section represents federal grants used to fund METS development. The CCIIO grant was used to set up the METS system and concluded on 12/31/17. Beginning March 15, 2021, The American Rescue Plan Act (ARPA) is being used for system enhancements related to COVID-19 response.

Notes:  
 - Development includes federally defined and applicable work, and MNSure development contributions. All other expenses considered operations.  
 - Expended includes actual fiscal year expenditures. Due to normal processing and invoicing time, some expenditure reporting may lag.  
 - Fiscal year Financing numbers are based on the federally-approved cost allocation methodology that is generally applicable to each fiscal year (i.e. the report reflects a reasonable matching of expenditures and revenue).  
 - Expenditures After Fiscal Year (FY) End: Due to the standard lag between invoicing and payments, fiscal year expenditures may be recognized after June 30th.

Notes:  
 - Development includes federally defined and applicable work, and MNSure development contributions. All other expenses considered operations.  
 - Expended includes actual fiscal year expenditures. Due to normal processing and invoicing time, some expenditure reporting may lag.  
 - Fiscal year Financing numbers are based on the federally-approved cost allocation methodology that is generally applicable to each fiscal year (i.e. the report reflects a reasonable matching of expenditures and revenue).  
 - Expenditures After Fiscal Year (FY) End: Due to the standard lag between invoicing and payments, fiscal year expenditures may be recognized after June 30th.
