COST OF REPORT

[Minnesota Statutes §3.197](#) states that a “report to the legislature must contain, at the beginning of the report, the cost of preparing the report, including any costs incurred by another agency or another level of government”. The estimated cost of preparing this report was **\$400.00**. That is the approximate value, in terms of salary and benefits, of the time that Board staff spent preparing the report.

(The rest of this page is intentionally blank).

Introduction

The Board of Pharmacy (Board) is submitting this report to the Legislature in compliance with Minn. Stats. §151.74, subdivision 13, which states:

Subd. 13. **Reports.** (a) By February 15 of each year, beginning February 15, 2021, each manufacturer shall report to the Board of Pharmacy the following:

- (1) the number of Minnesota residents who accessed and received insulin on an urgent-need basis under this section in the preceding calendar year;
- (2) the number of Minnesota residents participating in the manufacturer's patient assistance program in the preceding calendar year, including the number of Minnesota residents who the manufacturer determined were ineligible for their patient assistance program; and
- (3) the value of the insulin provided by the manufacturer under clauses (1) and (2).

For purposes of this paragraph, "value" means the wholesale acquisition cost of the insulin provided.

(b) By March 15 of each year, beginning March 15, 2021, the Board of Pharmacy shall submit the information reported in paragraph (a) to the chairs and ranking minority members of the legislative committees with jurisdiction over health and human services policy and finance. The board shall also include in the report any administrative penalties assessed under subdivision 10, including the name of the manufacturer and amount of the penalty assessed.

Reporting By Manufacturers

The three manufacturers participating in the Minnesota Insulin Safety Net Program are Eli Lilly and Company, Sanofi, and Novo Nordisk. All three manufacturers submitted the required data for calendar year 2021 by the February 15, 2022 deadline. The data and other information reported are provided below.

The data submitted indicates that, collectively, **the three manufacturers provided insulin under the Minnesota Insulin Safety Net Program to as many as 1,177 residents.** Since some residents may have received insulin under both the Urgent and Continuing Needs Programs, fewer total residents may have benefited. **The total value of the insulin received by residents was \$6,897,761.87.** (Based on the wholesale acquisition cost of the insulin – not the cost that the residents would have paid if they had purchased the insulin on their own). Note that the manufacturers only reported data concerning the insulin assistance programs mandated under Minn. Stats. §151.74. They pointed out in their reports that additional residents may have enrolled in other, non-mandated programs that they operate.

		Value (WAC) of insulin provided*	Number of MN residents who applied but were ineligible for PAP
URGENT NEED PROGRAM	Number of MN Residents who received insulin ⁺ : 109	\$ 50,196.79	N/A
PAP PROGRAM	Number of MN residents participating in PAP ⁺ *: 15	\$69,538.84	3

⁺ The report reflects participation in Lilly’s Minnesota patient assistance programs only. Lilly offers a number of other insulin affordability solutions for patients. Minnesota residents may have accessed Lilly insulin through Lilly’s other assistance programs, and these patients (and the value of the associated insulin) are not included in this report. Note a patient may have applied to the continuing care program to receive more than one product, or used the urgent needs program for more than one product. In those cases, the patient is counted only one time in the respective program.

* This “Number of MN residents” field reflects the number of unique patients who received product under the Lilly MN PAP Program in 2021. This includes individuals who enrolled in 2020, but who continued to receive product in 2021 (when their enrollment expired), as well as new patients who enrolled in the program and received product in 2021.

Novo Nordisk

Novo Nordisk provided the following data:

Urgent Need Recipients	93
Value of Insulin Provided to Urgent Need Recipients	\$947,582.08
Continuing Need Applicants	
Total number of participants	744
Total number of ineligible applicants	11
Value of Insulin Provided to Continuing Need Recipients	\$5,703,951.28
Total Value of Insulin Provided	\$6,651,533.36

Sanofi

Sanofi provided the following submission notes:

- WAC = Wholesale Acquisition Cost
- The below figures are reflective of the Minnesota mandated programs that Sanofi offers only and do not include data for any other Sanofi-run program
- *The "manufacturer's patient assistance program" in Clause 2 below is only referring to the Minnesota mandated program that Sanofi offers
- **The "Total number of participants" in Clause 2 below means the total number of Minnesota residents that received at least 1 shipment of product in calendar year 2021

Sanofi provided the following data:

Urgent Need Recipients	208
Value of Insulin Provided to Urgent Need Recipients	\$97,798.00
Continuing Need Applicants* (Clause 2)	
Total number of applicants	8
Total number of ineligible applicants	0
Value of Insulin Provided to Continuing Need Recipients	\$28,694.88
Total Value of Insulin Provided	\$126,492.88

Assessment of Civil Penalties

The three insulin manufacturers complied with the provisions of Minn. Stats. §151.74. Consequently, the Board did not assess any civil penalties under subdivision 10.
