Table 11b. UCare: Types of treatments provided to children with ASD by category of service (n=1,113)

Category of service	Description	Unique # of children who receive service	Count of services	Total units submitted	Average units
051	Physical Therapy	539	13,115	35,647	66.1
053	Speech Therapy	89	1,618	2,582	29.0
054	Occupational Therapy	608	14,508	14,522	23.9

Notes

- Data are limited to final version Minnesota Health Care Programs (MHCP) paid claims with service dates between Jan. 1, 2021, and Dec. 31, 2021, inclusive.
- Analysis was limited to children enrolled in a Managed Care Organization (MCO). MCO assignment was selected based on the MCO in which the recipient had the most months of enrollment during the year. If a recipient was enrolled in fee-for-service (FFS) for the most months during the year, then they were excluded from this analysis.
- Only managed care claims were included in this analysis.
- Age was calculated as of Dec. 31, 2021.
- Analysis was limited to children ages 1 through 6.

- Diagnostic Assessments were identified using procedure codes 97151, 90791, 90792, 90785, 96101, 96102, 96103, 96116, 96118, 96119, and 90887.
- Children with a diagnosis of autism spectrum disorder (ASD) were identified with claims having an ICD10CM diagnosis code of F84.0, F84.2, F84.3, F84.5, F84.8, or F84.9.
- Treatments for children with a diagnosis of ASD were identified with claims having a procedure code beginning with 908 or equal to H0031, H2012, H2014, H2015, H2019, 99499 (CTSS and other mental health services); having a procedure code of T1013 or T1018 (IEP services); having a procedure code of T1024, T1027, H0032, 99366, 97153, 97154, 97155, 97156, 97157 (EIDBI services); or having category of service of 051 (Physical Therapy), 053 (Speech Therapy), or 054 (Occupational Therapy). The service count is the sum of all the unique services for all the children in each respective MCO. These counts were deduplicated using standard DHS procedures.
- All treatment claims were deduplicated using standard operating procedures.
- Analysis was designed in adherence to Minn. Stat. 256B.69, subd. 32a. (see below).

Minn. Stat. 256B.69, subd. 32a

Initiatives to improve early screening, diagnosis, and treatment of children with autism spectrum disorder and other developmental conditions.

(a) The commissioner shall require managed care plans and county-based purchasing plans, as a condition of contract, to implement strategies that facilitate access for young children between the ages of one and three years to periodic developmental and social-emotional screenings, as recommended by the Minnesota Interagency Developmental Screening Task Force, and that those children who do not meet milestones are provided access to appropriate evaluation and assessment, including treatment recommendations, expected to improve the child's functioning, with the goal of meeting milestones by age five.

(b) The following information from encounter data provided to the commissioner shall be reported on the department's public Web site for each managed care plan and county-based purchasing plan annually by July 31 of each year beginning in 2014:

(1) the number of children who received a diagnostic assessment;

(2) the total number of children ages one to six with a diagnosis of autism spectrum disorder who received treatments;

(3) the number of children identified under clause (2) reported by each 12-month age group beginning with age one and ending with age six; and

(4) the types of treatments provided to children identified under clause (2) listed by billing code, including the number of units billed for each child.
