**About the Office of Higher Education**

The Minnesota Office of Higher Education is a cabinet-level state agency providing students with financial aid programs and information to help them gain access to postsecondary education. The agency also serves as the state's clearinghouse for data, research and analysis on postsecondary enrollment, financial aid, finance and trends.

The Minnesota State Grant Program is the largest financial aid program administered by the Office of Higher Education, awarding more than \$210 million annually in need-based grants to Minnesota residents attending eligible colleges, universities and career schools in Minnesota. The agency oversees other state scholarship programs, tuition reciprocity programs, a student loan program, Minnesota's 529 College Savings Plan, licensing and early college awareness programs for youth.

# Executive Summary

Financial aid makes college affordable for many students. The amount and type of aid available to a student varies. Grants and scholarships lower the cost of college per student, while work study and loans allow students to pay for college by increasing current income or deferring payment against future income. The combination of types of aid and amounts available to an individual student may influence their decision to go to college, or which college they choose.

## Grants and loans make up most of the aid students receive

In 2019-2020, undergraduates enrolled in Minnesota institutions received roughly \$2.8 billion in financial aid. In Minnesota, students are eligible to receive federal grants (such as the Pell grant), the Minnesota State Grant, other grants administered by the state (such as the Postsecondary Child Care Award), and grants from institutional and private sources. More than half of all aid students receive are grants, and the total amount of grants received varies by institution type.

**Figure 1: Source of aid, by institutional sector, 2019-2020**

Roughly one third of grants that these students received in 2019-2020 came from federal or state sources. Almost 60% of grants received were from institutions themselves. These grants are primarily offered at private non-profit institutions and the University of Minnesota. Aid in the form of grants (from all sources) totaled \$1.6 billion in 2019-2020.

## Federal aid is the primary aid source for most institutions

For most institutions, the primary source of aid is federal aid. Just under half of all aid received in 2019-2020 came from federal sources, totaling nearly \$1.2 billion. Roughly 70% of federal aid awarded was in the form of

loans. At Minnesota State Universities and private-for-profit institutions, more than half of all aid students received came in the form of loans. At Minnesota State Colleges and the University of Minnesota system, loans represented just under half of all aid received. However, for students at private non-profit institutions, institutional aid made up nearly two-thirds of aid awarded to students. Institutional aid is primarily offered as grants, and sometimes as direct tuition discounts.

# Introduction

---

This report presents information on financial resources provided to undergraduates at Minnesota postsecondary institutions. The financial resources reported are grants<sup>1</sup>, loans and student earnings from work study jobs that help students pay tuition, fees, room and board and other costs of attending postsecondary education. This report presents information for fiscal year 2020, which corresponds to academic year 2019-2020. Corresponding information for survey years 1987 through 2020 is available from the Minnesota Office of Higher Education.

## Postsecondary institutions included

The data in this report cover student financial aid received by undergraduates attending all Minnesota postsecondary institutions eligible to participate in the Minnesota State Grant program in fiscal year 2020. Data were collected on aid received by undergraduates who attended these between July 1, 2019 and June 30, 2020.

## Sources of data

Data were obtained from several sources:

- Minnesota Office of Higher Education records were used for the following:
  - Minnesota State Grant Program
  - Minnesota American Indian Scholarship Program
  - Minnesota Postsecondary Child Care Grant Program
  - Minnesota Safety Officer Survivor Grant Program
  - Minnesota SELF Loan Program
  - Minnesota Work study Program<sup>2</sup>
  - Fall 2018 Undergraduate Headcount
- For institutions in the University of Minnesota and Minnesota State Colleges and Universities systems, data were obtained from the central office institutional research staff.
- For private institutions, institution financial aid directors provided data on the amount of grants, loans and earnings from federal work study jobs received by undergraduates who attended in fiscal year 2020.

## Privacy protection

In accordance with the Family Educational Rights and Privacy Act (FERPA), for categories of financial aid in which there were fewer than 10 recipients, the amount received is suppressed to protect private data on students.

---

<sup>1</sup> Grants are scholarships, grants, tuition discounts, tuition waivers and gift aid that does not have to be repaid.

<sup>2</sup> Award totals reported for Minnesota Work Study include the state contribution only. Institutions contribute additional award dollars that are not reported here.

## Data Verification

For University of Minnesota and Minnesota State system institutions, institutional research staff at central system offices reviewed a preliminary version of this report to verify data for their campuses. For private institutions, financial aid directors at each institution reviewed a preliminary version of this report to verify data for their institution.

## Minnesota State Grant program data

The amounts reported for the State Grant Program were reported earlier in Minnesota State Grant Program 2020, End-of-Year Statistics. As institutions close their State Grant accounts, the Minnesota Office of Higher Education makes adjustments that do not appear in this report or in the End-of-Year Statistics.

## Definitions of financial aid programs

Definitions of the financial aid programs and categories used in the report are included in Appendix A.

## Unreported data

Institutions that did not submit survey data for fiscal year 2020 (academic year 2019-2020) are included in this report if they participate in programs administered by the Office of Higher Education (e.g., Minnesota State Grant Program, Minnesota GI Bill, Minnesota SELF Loan Program). In these instances, survey data categories are not included.

## Suppressed data

Information on financial aid awarded is suppressed when the student count for that category is less than 10. In instances where data from only one financial aid program from the institution would be suppressed, data from a second financial aid program is suppressed to ensure student privacy. Suppressed data is marked as "Suppressed."

## COVID-19 funds disbursed as financial aid

In fiscal year 2020, many institutions received economic relief to mitigate the impacts of COVID-19 on institutions and students. As a result, many students received emergency aid through these relief programs. Per federal guidance, this aid was disbursed to students in the form of direct payments and was not included in the student's total cost of attendance. Therefore, COVID-relief funds are not included in this report.

# Appendix A. Definitions of Financial Aid Programs

---

This appendix describes the financial aid programs in place in Fiscal year 2020, the year for which the data were collected.

## Grant Programs

Grant programs include grants, scholarships, tuition waivers, tuition reimbursement and gift aid. Grant programs require no repayment from students or parents. Most grants require students to make satisfactory educational progress. Restrictions are placed on eligibility, award amounts and use.

### State and Local Grant Programs

The state of Minnesota funds the following grant programs:

#### Minnesota State Grant Program

Minnesota residents registering as undergraduates at Minnesota institutions can apply for State Grants. The award is based on the financial circumstances of students' families, recognized tuition and required fees and an allowance for living and education-related costs.

#### Minnesota American Indian Scholarship Program

The Minnesota Indian Scholarship Program provides postsecondary financial assistance to eligible Minnesota resident students attending Minnesota postsecondary institutions who are of one-fourth or more Indian ancestry and demonstrate financial need for an award.

#### Local and State Agency Grants

Local and state agency grants include grants, scholarships, fellowships and gift aid funded by counties, local governments and state agencies. Examples of these grants are Vocational Rehabilitation Services Grants and Workforce Investment Act Grants.

### Federal Grant Programs

The federal government funds the following grant programs:

#### Federal Pell Grant Program

Federal Pell Grants are awarded directly to students. The federal government determines the award based on the financial circumstances of students' families. The maximum federal Pell Grant in Fiscal year 2020 was \$6,195.

#### Federal Supplemental Educational Opportunity Grant (SEOG) Program

The federal government allocates funds to institutions to respond to special financial circumstances not recognized in the federal Pell Grant Program. Students receiving federal Pell Grants have priority for SEOG awards.

## **Federal Agency Grants**

Federal agency grants include all federal grants, scholarships, fellowships and gift aid, with the exception of Pell Grants, SEOGs and veterans benefits. Examples of these grants are health professions grants, federal Nursing Scholarships, ROTC stipends and Bureau of Indian Affairs grants.

## **Institution Grants**

Postsecondary institutions fund the following grants:

### **Institution Awarded Grants and Scholarships**

Institution grants and scholarships include all grants, fellowships and gift aid awarded by the institution, excluding that which has been reported in the categories above. These grants and scholarships are financed by revenues generated by the institution, funds appropriated to the institution and money donated to the institution that has been allocated for grants or donated explicitly for financial aid. These grants include awards to students who do not have financial need as well as awards to students with need.

### **Tuition Discounts or Remissions Provided by Institutions**

Awards include all reductions in the posted tuition and fee charges provided by the institution. Examples of these awards are: tuition waivers to non-residents, University of Minnesota Regents Scholarships, tuition forgiven or charged at a reduced rate as an employment benefit for institution staff, tuition charged at a reduced rate to members of a religious order and free tuition provided to wards of the state.

## **Private Grants and Other Grants**

Various organizations fund the following grants:

### **Private Grants and Scholarships**

Private grants include all grants, scholarships, fellowships and gift aid provided by organizations not associated with the federal or state government or organizations not associated with the institution. Examples of these grants are: grants awarded by service clubs (such as Lions Clubs, Kiwanis, PTA and churches), grants awarded by labor unions and fraternal organizations and Blandin Foundation grants to students living in northeastern Minnesota.

### **Other Grants**

Other grants are grants and scholarships that do not fit into the categories identified above. One example is a grant from a state government outside Minnesota for postsecondary education at a Minnesota institution.

## **Loan Programs**

Loans are long-term loans that students (or their families) will repay after they are no longer attending postsecondary education. Some loan programs, such as the Minnesota SELF Program described below, also require payments while students are enrolled in postsecondary education. Long-term loans do not include emergency loans and loans that cover the time between when tuition payments are due and other aid is received.

## State Loan Program

The state of Minnesota has one loan program for postsecondary students, the SELF Program.

### Minnesota Student Educational Loan Fund (SELF Program)

The Minnesota Office of Higher Education provides loan capital. Interest is charged while the borrower is enrolled in postsecondary education. The borrower repays principal and interest after leaving school. Borrowers must have a credit-worthy cosigner. Borrowers do not have to show financial need to be eligible.

## Federal Loan Programs

The federal government funds or guarantees the following loan programs:

### Federal Direct Stafford Loan Programs

Federal Direct Stafford Loans include federal Direct Subsidized Stafford Loans and federal Direct Unsubsidized Stafford Loans.

Federal Direct Stafford Subsidized Loans are made by institutions with capital from the federal government. The borrower does not pay interest while attending. Borrowers of federal Direct Stafford Subsidized Loans must demonstrate financial need.

Federal Direct Stafford Unsubsidized Loans are available to borrowers without demonstrated financial need. The loans limits and interest rates are the same as those for federal Direct Stafford Subsidized Loans. Borrowers are charged interest while they are in school.

### Federal Perkins Loans

The federal government awarded funds to institutions to create a loan fund. The program requires that institutions match the federal contributions per student. Institutions make the loans to students with financial need. Students pay no interest while attending. Upon leaving school, they pay a five percent fixed interest rate.

### Federal Parent Loans for Undergraduate Students (PLUS)

Loans are made to parents of dependent students and to graduate students. Borrowers do not have to show financial need to be eligible.

### Federal Agency Loans

Federal agency loans include loans made or guaranteed by an agency of the federal government other than the U.S. Department of Education. Examples are: Health Professions Student Loans, Nursing Loans and Veterans Administration Loans. Federal agency loans do not include federal Stafford Loans, federal Direct Stafford Loans, federal Perkins Loans and federal PLUS Loans made or guaranteed by the federal government.

## Institution Awarded Loans

Institution awarded loans are loans made by the institution to the student and their parents. Institution awarded loans include loans borrowers are expected to repay after completion of their education. Loans in this category are from institution controlled funds. Institution awarded loans do not include federal Perkins Loans.

## Loans Made by Private and Other Lenders

There are two categories for loans made by private and other lenders:

### Private Loans

Loans made by private lenders to students and their parents are from private sources (with no guarantee provided by a state or federal agency). Loans in this category are limited to those made to cover part or all of the cost of attendance. This does not include second mortgages or home-equity lines of credit. Examples are DEAL Loans, SallieMae Loans, Discover Student Loans, Wells Fargo Loans.

### Other Loans

Other loans include loans that are reported to campus financial aid administrators, but the loans do not fit into one of the categories identified above. An example is a loan provided by a state outside of Minnesota.

## Work study Programs

Student earnings from jobs at the postsecondary institution and work study jobs provide money to pay for postsecondary expenses. Since many institutions do not have records of student earnings at off-campus jobs and jobs where the employer contracts for services on campus, the information collected is only for jobs where the institution is the employer.

### State Work study Program

The state funds a work study program. The Minnesota Office of Higher Education allocates the money to institutions. Institutional financial aid directors make the awards. Employers must provide at least 25 percent of the wages paid to students awarded a State Work study job. Most jobs are on campus, but some may be with eligible off-campus employers. For this report, the 25 percent employer work study match is reported under the institutional work study category and titled "State Work study Institutional Match."

### Federal Work study Program

The federal government funds the federal Work study Program. The federal government makes an annual allocation to institutions. Institutional financial aid directors make the awards. Employers must provide at least 25 percent of the wages paid to students awarded federal Work study jobs. Most jobs are on campus, but some may be with eligible off-campus employers.

### Institutional Work study Programs

Institutions may also choose to offer work study programs, in addition to state and federally funded work study offerings. The student jobs are paid through institutional funding.

2021
