<b>Total</b>	<b>5,475</b>	<b>100%</b>	<b>4,221</b>	<b>100%</b>	<b>9,696</b>	<b>100%</b>	<b>182.8</b>
<b>State Totals</b>	<b>5,475</b>		<b>4,221</b>		<b>9,697</b>		<b>182.8</b>

<sup>I</sup> Cases reported to the MDH, assumed to be alive, and currently residing in Minnesota as of December 31, 2021.

<sup>II</sup> HIV/AIDS prevalence rate calculated by dividing the total number of prevalent cases in a stratum (e.g. people aged 20-24 years) by the estimated population for that stratum and multiplying by 100,000. Population estimates are based on 2010 U.S. Census data.

<sup>III</sup> Residence information missing for 15 people living with HIV and 3 people living with AIDS.

<sup>IV</sup> Age missing for 8 people living with HIV and 0 people living with AIDS.

<sup>V</sup> Sex assigned at birth missing for 1 person living with HIV.

Suburban = Seven-county metropolitan area except Minneapolis & St. Paul (Anoka, Carver, Dakota, Hennepin (except Minneapolis), Ramsey (except St. Paul), Scott, and Washington counties). Greater Minnesota = Remaining 80 counties outside of the 7-county metropolitan area. Numbers exclude people who are incarcerated in federal and private prisons, but include 104 people incarcerated by the state, 163 refugees in the HIV-Positive Refugee Resettlement Program, and 166 additional refugees/immigrants with HIV infection prior to resettling in Minnesota.

Percentages may not add to 100 due to rounding.

**Table 2. Number of People Living with HIV and Rates (per 100,000) Living with HIV (non-AIDS) and AIDS by Race/Ethnicity and Mode of Exposure<sup>I</sup> by Sex Assigned at Birth- Minnesota, 2021**

<sup>I</sup> Cases reported to the MDH, assumed to be alive and currently residing in Minnesota as of December 31, 2021.

<sup>II</sup> African-born Black people are reported separately from other Black people (born in the U.S. or elsewhere). "Other" includes multi-racial people and people with unknown race.

<sup>III</sup> Rates calculated using U.S. Census 2010 data. The population estimate for African-born people calculated by the Minnesota State Demographic Center. The population estimate for Black, non African-born people (145,078) was calculated by subtracting the U.S. Census estimate for African-born people (125,939) from the total Black population (271,017). Note that this assumes that all African-born people are Black (as opposed to another race).

<sup>IV</sup> Race/ethnicity are missing for 2 people living with HIV(non-AIDS) and 0 people living with an AIDS diagnosis

MSM = Men who have sex with men. IDU = Injecting drug use. Heterosexual = For males: heterosexual contact with a female known to be HIV+, an injection drug user, or a hemophiliac/blood product or organ transplant recipient. For females: heterosexual contact with a male known to be HIV+, bisexual, an injection drug user, or a hemophiliac/blood product or organ transplant

recipient. Perinatal = Mother to child HIV transmission. Other = Hemophilia patient/blood product or organ transplant recipient. Unknown risk = Unreported or unknown risk. Numbers exclude people who are incarcerated at federal and private prisons, but include 104 people incarcerated by the state, 163 refugees in the HIV-Positive Refugee Resettlement Program, and 166 additional refugees/immigrants with HIV infection prior to resettling in Minnesota. Percentages may not add to 100 due to rounding.

<b>State Total<sup>II</sup></b>	5,461	4,218	9,679	182.5

<sup>l</sup> Cases reported to the MDH, assumed to be alive and currently residing in a Minnesota county as of December 31, 2021.

<sup>ll</sup> Residence information missing for 15 people living with HIV and 3 people living with AIDS.

Numbers by county exclude people who are federally and privately incarcerated, but include 163 refugees in the HIV-Positive Refugee Resettlement Program and 166 additional refugees/immigrants with HIV infection prior to resettling in Minnesota. Numbers for counties in which a state correctional facility is located include those incarcerated people. The total number of people incarcerated by the state is 20. State correctional facilities are located in the following counties: Anoka, Carlton, Chisago, Goodhue, Itasca, Rice, Scott, Sherburne, and Washington.

<sup>lll</sup> HIV/AIDS prevalence rate calculated by dividing the total number of prevalent cases in a stratum (e.g people living in Hennepin County) by the estimated population for that stratum and multiplying by 100,000. Population estimates are based on 2010 U.S. Census data. Rates not calculated for counties with fewer than 5 cases.

**Table 4. Number of New HIV Cases, People Living with HIV (PLWH), and All Deaths<sup>1</sup>, Minnesota 2012-2021**

	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
Total HIV Diagnoses	314	303	311	303	303	281	288	275	226	298
PLWH	7,516	7,723	7,988	8,215	8,554	8,789	8,981	9,193	9,422	9,696
All Deaths	80	77	95	92	69	85	85	79	93	99
Death Due to Underlying HIV Disease	26	39	40	31	35	36	28	22	23	27

<sup>1</sup>All deaths= Number of deaths known to have occurred among all people living with HIV infection in Minnesota, regardless of location of diagnosis and cause of death. Numbers include refugees in the HIV-Positive Refugee Resettlement Program and other refugees/immigrants diagnosed with AIDS after their arrival in the U.S. Case numbers exclude people who are federally and privately incarcerated.
