# Minnesota Farmers Union

*Minnesota Farmers Union is proud to again be a major sponsor of this year's Minnesota Grown Directory.*

*Our organization stands on three principles: education, cooperation, and legislation, that is why Minnesota Farmers Union believes in sponsoring the Minnesota Grown Directory because it promotes cooperation with local farmers by showcasing their farm-fresh food, and educates consumers about where they can find quality, local food.*

*We are proud to be participating in this great program, and promoting the importance of buying farm-fresh, local food, and supporting our local economy.*

**Doug Peterson**  
*President, Minnesota Farmers Union*

Minnesota Farmers Union is a membership-based organization that works to protect and enhance the economic interests and quality of life of family farmers and rural communities.

MFU offers:

- grassroots, common sense approaches to policies that impact both rural and urban Minnesotans, and fights for them at the State Legislature, and U.S. Congress;
- a carbon credit program which pays farmers and land owners for storing carbon, and helping the environment with the fight against global warming;
- an insurance agency with a track record of over 60 years experience in protecting you and your family;
- youth leadership camps; and
- campground facilities.

**Search** Wine from Minnesota grown grapes?

► Definitely, thanks to the U of M's discovery of four cold-hardy varieties—Frontenac, Frontenac gris, La Crescent, and Marquette. These grapes not only have borne a full crop after temperatures dipped below -30°F, they also created an exploding wine industry. Today, Minnesota has over 600 vineyards, almost two-thirds of them planted since 2003. And 75 percent of new plantings are varietals developed by the U of M.

# CSA'S ARE HOT!

Just three years ago, this Directory listed 10 CSA farms. This volume lists 42!

CSA or "Community Supported Agriculture" is a system of direct-marketing in which the farm offers a weekly box of fresh produce through the growing season, for pickup at dropsite or at the farm. CSA's generally request payment for membership in advance of the season. Members are sharing in the risks and rewards of farm production.

CSA's are all unique. Many grow certified organic produce. Some offer extras such as eggs, meats, or flowers. Most invite members to be a part of the farm through events or participation in the harvest.

CSA farms may sell out of their shares by early spring (the best time to inquire is late winter). Regardless of season, take a moment to check out all the great Minnesota CSA farms listed in this directory. Maybe there's one delivering shares of fresh, Minnesota Grown produce near you!

Many CSA farms will add a new drop site if there are 10-15 shares at a location. Talk to your co-workers and have a CSA deliver right to your worksite.

# Minnesota Farmers Union

Minnesota Farmers Union (MFU) works to improve the lives of rural and urban families. Our issues include supporting our local economy; affordable health care for all Minnesotans; protecting our natural resources; and utilizing the working lands we have to produce great farm-fresh food, and clean, home-grown energy.

MFU uses grassroots, common sense approaches to policies that impact both rural and urban Minnesotans, and fights for them at the State Legislature and U.S. Congress. While you are working hard to provide for your family, Minnesota Farmers Union is working hard advocating for issues important to you. Become a member today!
