

MEMORANDUM

TO: Environmental Quality Board

FROM: Robert J. Vorpahl, Program Development Engineer

SUBJECT: Anoka County and Crystal Airports

DATE: September 9, 1991

Minnesota Statutes 1986, Chapter 473, amended by Minnesota Statutes 1988, Chapter 664 states that "The Commission need not prepare an assessment for an airport when the Capital Improvement Program for the airport has not changed from the one adopted the previous year or when the changes in the program and plan will have only trivial environmental effects."

For the Anoka County and Crystal Airports there has been no change from plans adopted in the previous year(s). Therefore, an Assessment of Environmental Effects will not be prepared for these airports this year.

CRYSTAL AIRPORT
