2021 CANNABIS REPORT

MAY 2022

UNIVERSITY OF
WATERLOO

Forward

The International Cannabis Policy Study is an international research collaboration designed to examine cannabis policy and public health impact. The project started in 2018 and includes annual population-based surveys in Canada and the United States (since 2018), as well as Australia and New Zealand (since 2021).

The current report summarizes findings among respondents from Minnesota for the 2021 survey, with comparison to previous years. Additional details are available upon request.

Visit the study website for more information:
www.cannabisproject.ca.

FUNDING

FUNDING FOR THIS REPORT WAS PROVIDED BY THE MINNESOTA DEPARTMENT OF HEALTH. FUNDING FOR THE BROAD ICPS PROJECT WAS PROVIDED BY A CANADIAN INSTITUTES OF HEALTH (CIHR) PROJECT GRANT AND A CIHR PARTNERSHIPS FOR CANNABIS POLICY EVALUATION TEAM GRANT.

ETHICS CLEARANCE

THE PROJECT HAS BEEN REVIEWED BY AND RECEIVED ETHICS CLEARANCE THROUGH A UNIVERSITY OF WATERLOO RESEARCH ETHICS COMMITTEE (ORE#31330).

Methods

OVERVIEW

The International Cannabis Policy Study is a repeat cross-sectional survey conducted annually in the United States and Canada (since 2018), as well as Australia and New Zealand (since 2021) to examine trends in cannabis. This report summarizes key indicators from the 2021 ICPS survey in Minnesota from September 14 to November 8, 2021.

SAMPLE

Respondents were aged 16–65 years were recruited through the Nielsen Consumer Insights Global Panel. The analytic sample for 2021 comprised 52,938 respondents in Canada (n= 16,952), the United States (n= 30,081), Australia (2,925) and New Zealand (2,980). The results in the current report focus on the subsample of 2,055 respondents from Minnesota who participated in the 2018, 2019, & 2020 (n= 613) and 2021 (n= 1,442) surveys.

SURVEY

The survey covers the following content areas:

- prevalence and patterns of cannabis use;
- cannabis purchasing and price;
- cannabis consumption and modes of use;
- commercial retail environment;
- risk behaviours;
- cannabis knowledge, perceptions of risk and social norms;
- exposure to health warnings and

- public educational campaigns;
- exposure to cannabis marketing and branding;
- substance use and other risk behaviours; and
- socio-demographics and socio-economic status.

DATA ANALYSIS

Post-stratification survey weights were created using age-by-sex-by-state, ethnicity-by-census division, education-by-state, and age-by-smoking status groups. All estimates in the current report are weighted and rescaled to the original sample size within each state.

Comparisons are provided between Minnesota and other states. In the current report, the term ‘legal’ refers to states that had legalized non-medical cannabis for adult use at the time of data collection in each year. ‘Medical’ refers to states that had legalized medical but not non-medical adult use cannabis at the time of data collection. ‘Illegal’ refers to all other states.

TECHNICAL REPORT

The survey and technical report are available at:

www.cannabisproject.ca/methods.

The technical report includes detailed information on methodology and survey weighting.

Medical authorization

In 2021, 10% of past 12-month cannabis consumers reported having a recommendation for medical cannabis use in the past year, an increase from 4% across 2018/19/20.

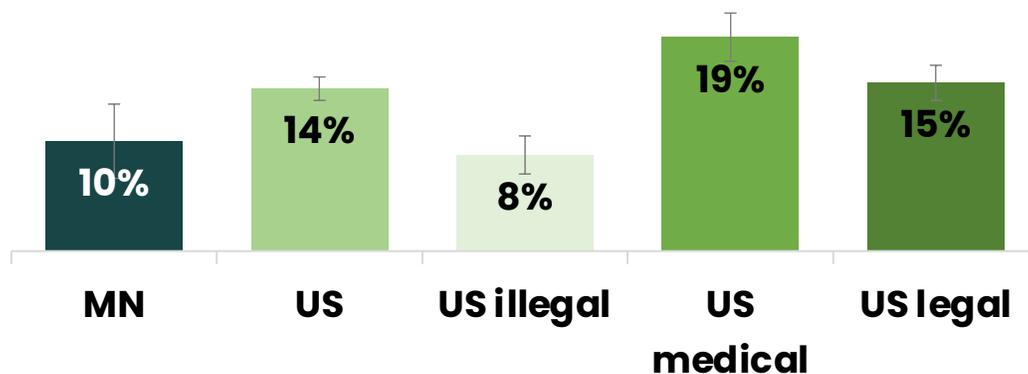

Did you have a recommendation to use medical marijuana at any time in the past 12 months?

% 'YES', PAST 12 MONTH CONSUMERS IN MINNESOTA, N=564

Did you have a recommendation to use medical marijuana at any time in the past 12 months?

% 'YES', PAST 12-MONTH CONSUMERS, 2021, N=10,468

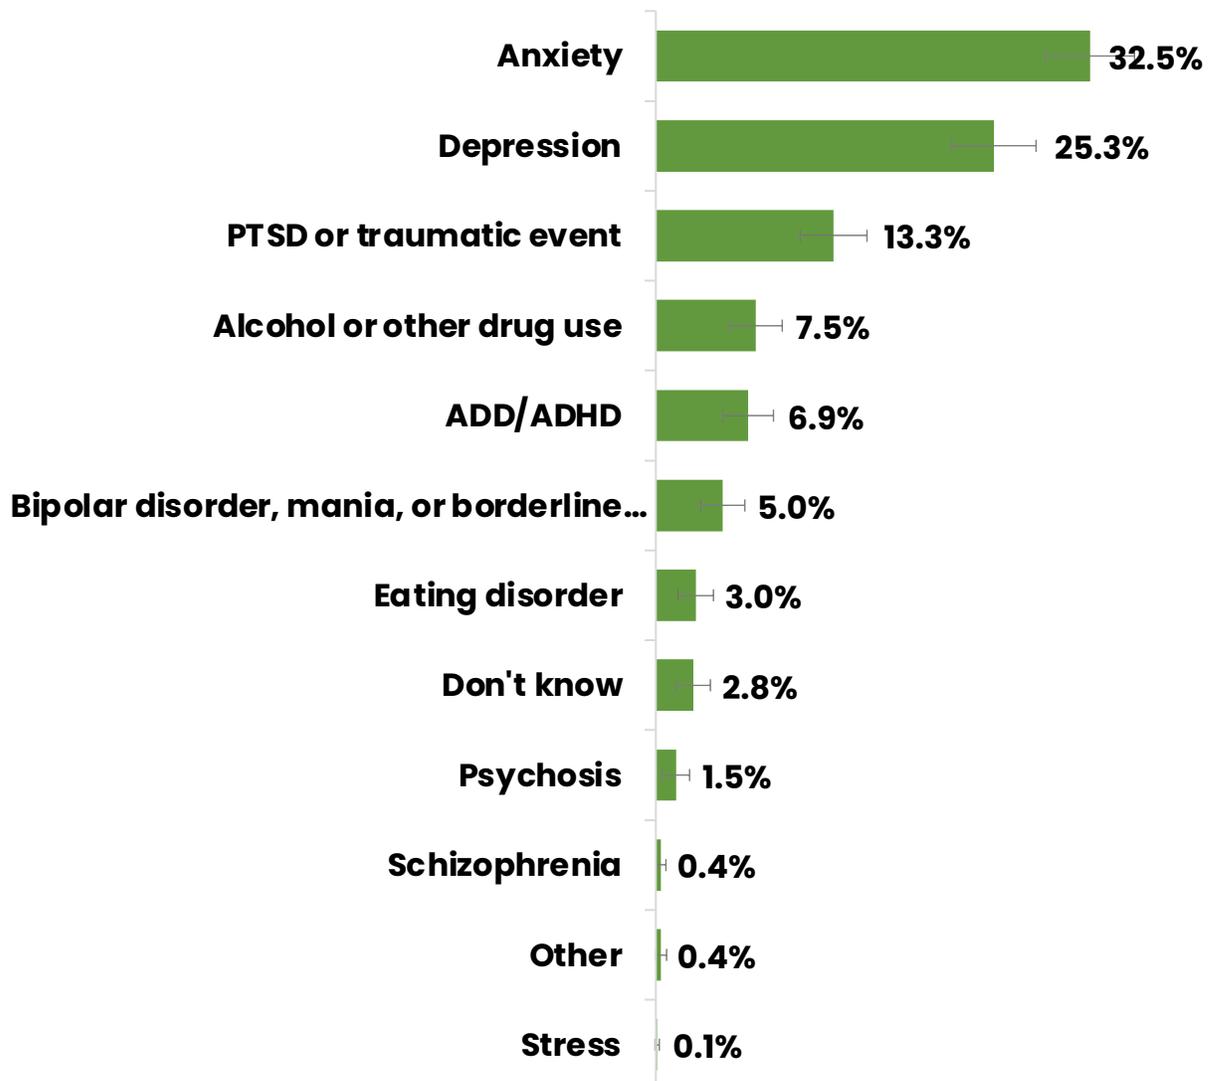

Cannabis use to manage or improve mental health

'Ever' cannabis consumers reported using cannabis to improve or manage anxiety, depression and PTSD.

Have you ever used marijuana to improve or manage symptoms for any of the following?

% 'YES', EVER CANNABIS CONSUMERS, 2021 N=957

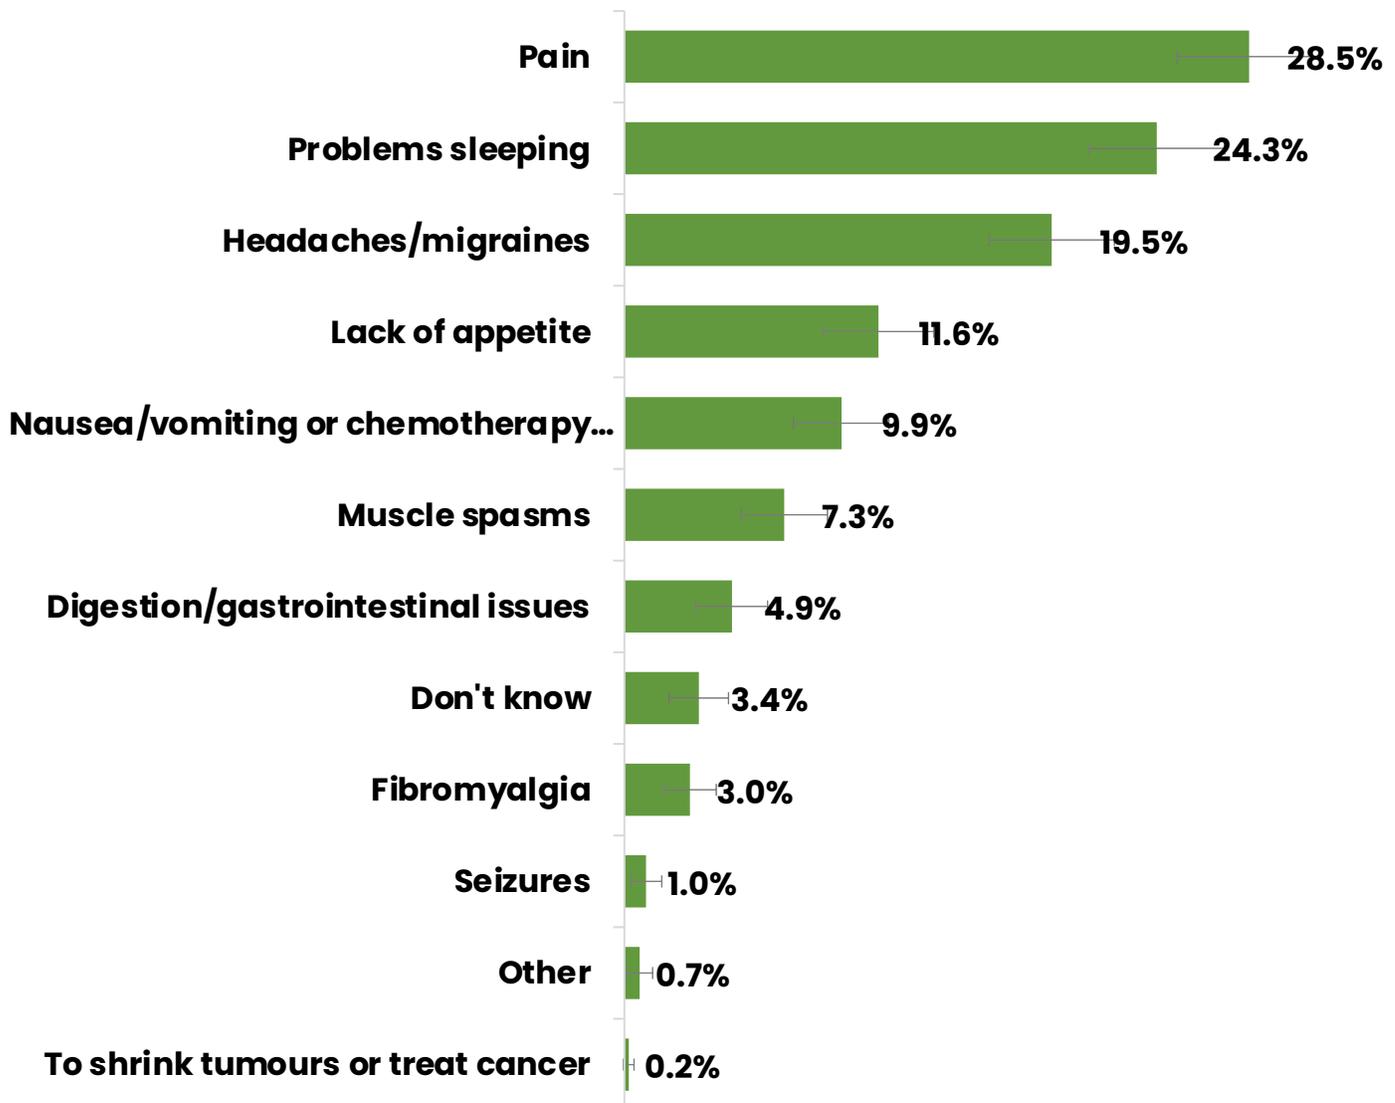

Cannabis use to manage or improve physical health

'Ever' cannabis consumers reported using cannabis to improve or manage a range of symptoms, including pain, sleeping problems and headaches/migraines.

Have you ever used marijuana to improve or manage symptoms for any of the following?

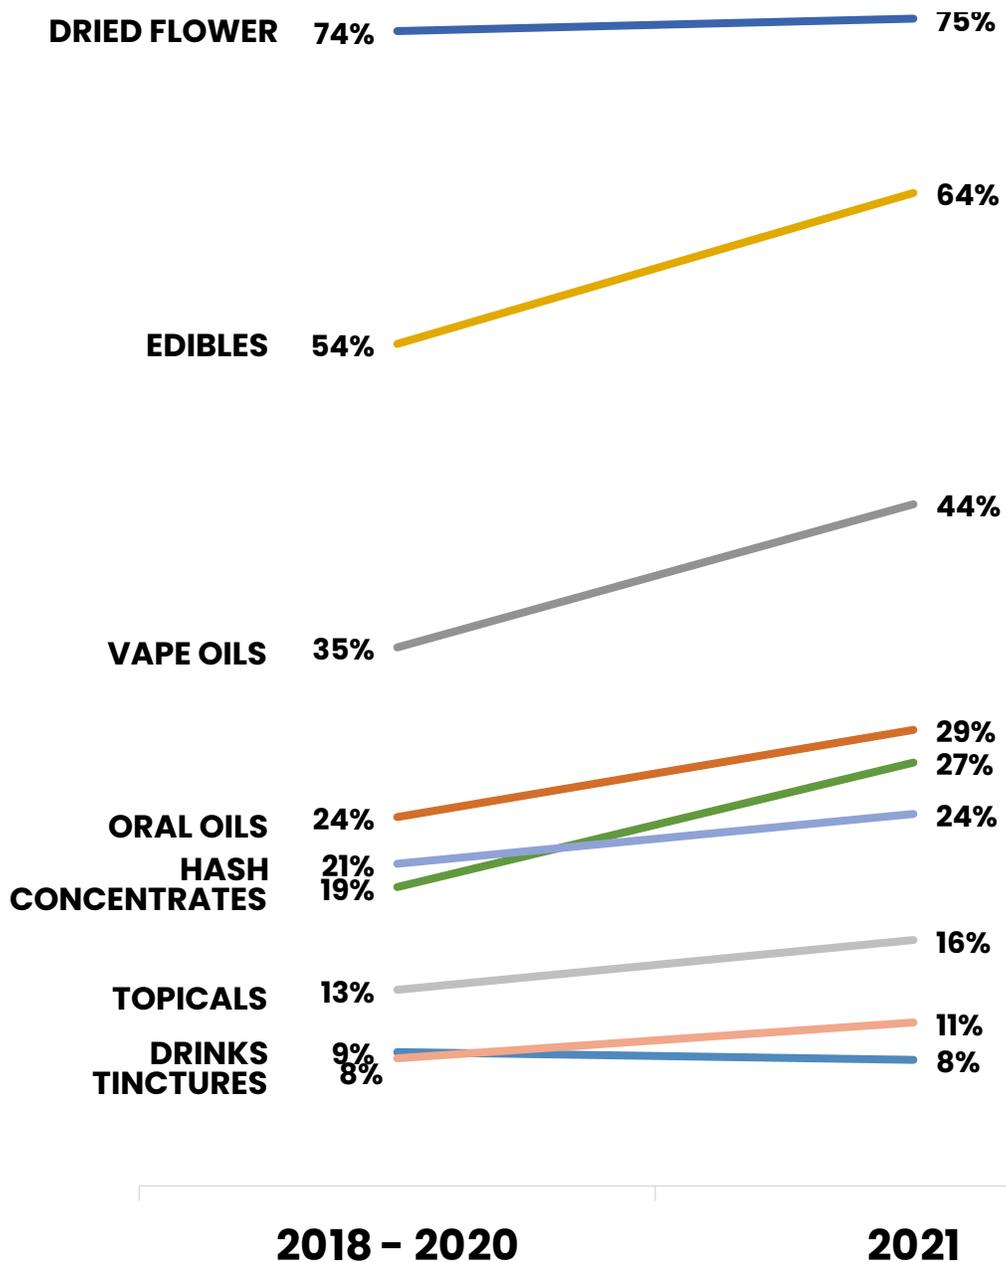

% 'YES', 'EVER' CANNABIS CONSUMERS, 2021, N=957

Types of cannabis products

Cannabis consumers 2018-2021

Dried flower was the most commonly used product among past 12-month consumers in all years. Most other products increased between 2018/29/20 and 2021.

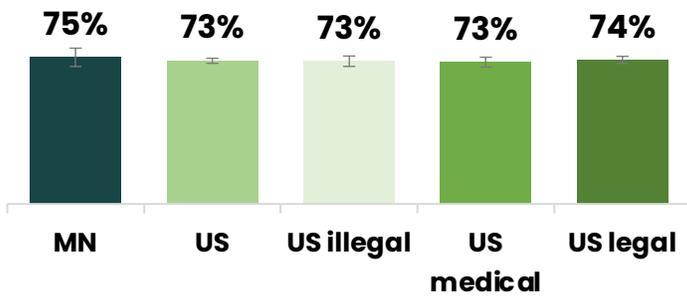

Types of cannabis products

Minnesota 2021

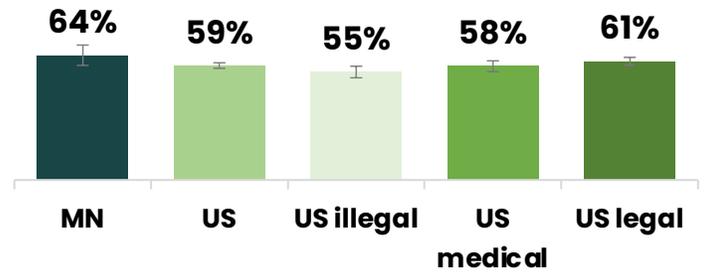

Use of cannabis products among past 12-month consumers in Minnesota was similar to other state categories; however, use of topicals and drinks were notably lower in Minnesota compared to the other state category averages.

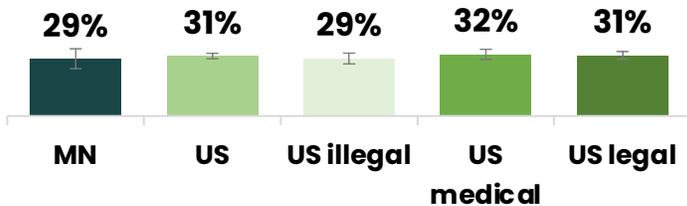

Dried herb

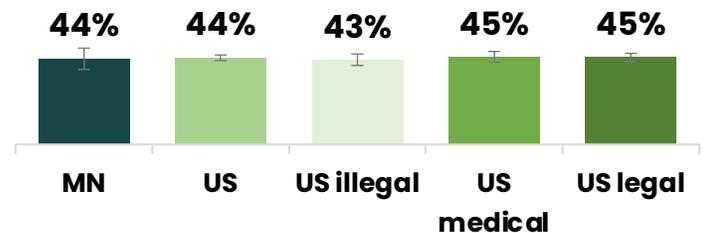

Edibles

Drops or capsules

Vape oils

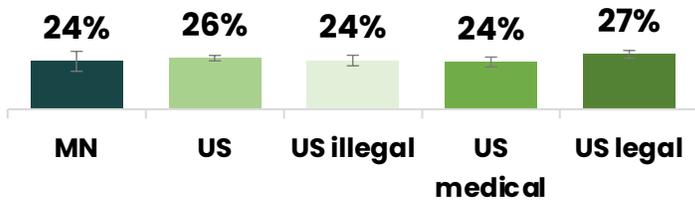

Types of cannabis products

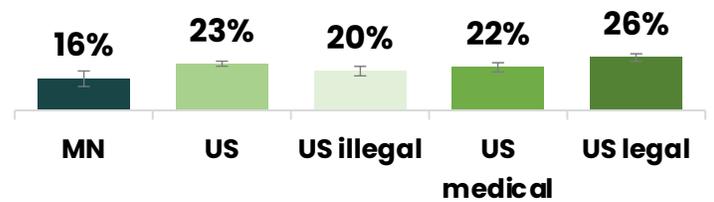

Minnesota 2021

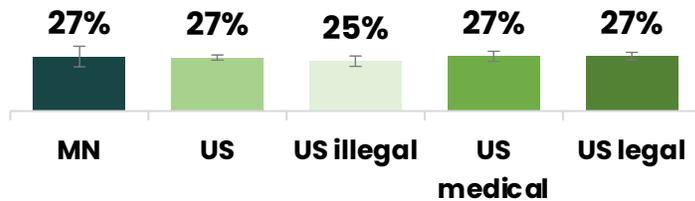

Hash or kief

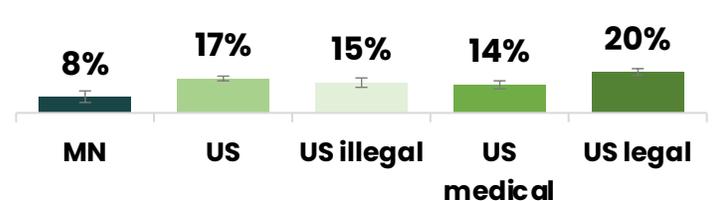

Topicals

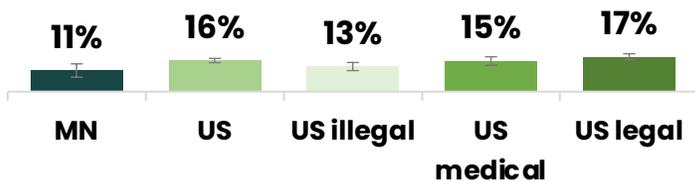

Solid concentrates

Drinks

Tinctures

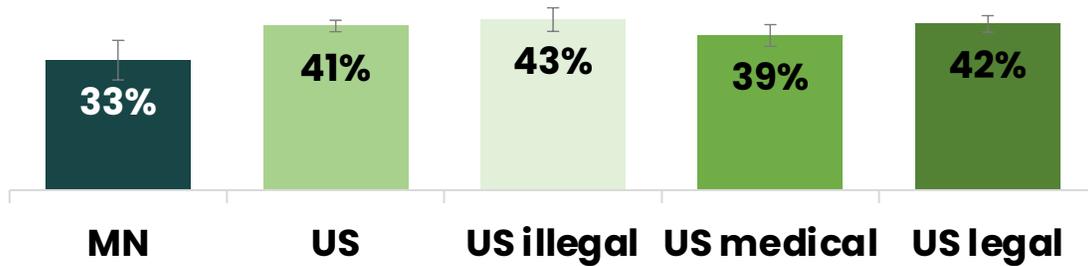

Use of 'non-THC' CBD products

In 2021, 1 in 3 respondents from Minnesota reported using “CBD-only products” (with no THC) in the past 12 months. The most common CBD product types were oil/liquid drops, topicals, and edibles.

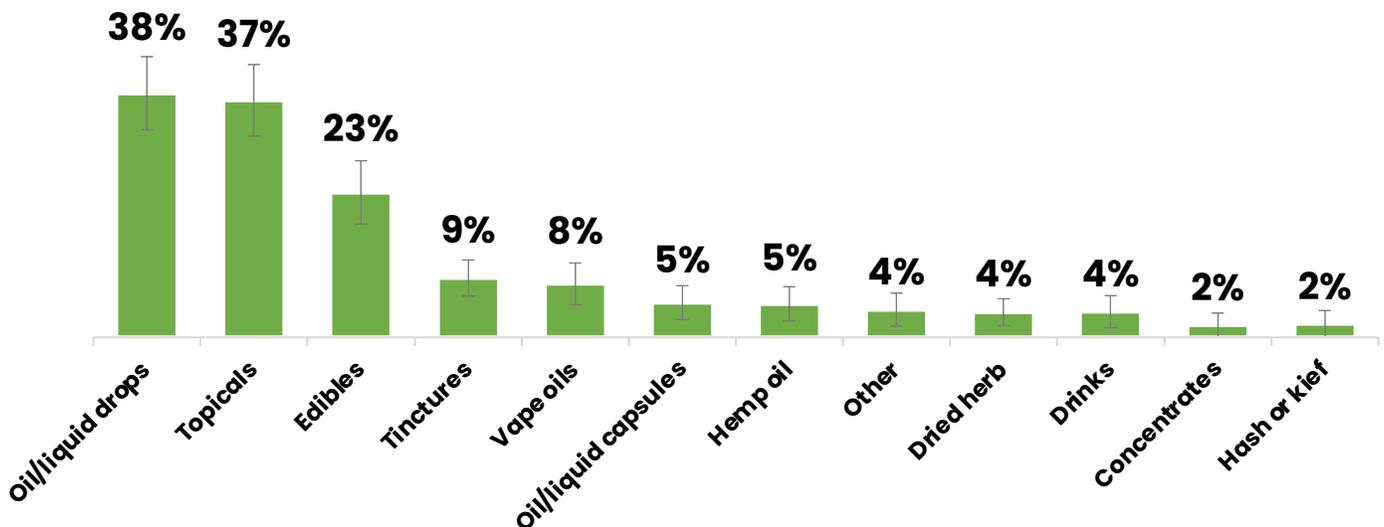

Use of CBD-only products

IN PAST 12 MONTHS N=10,385

Type of CBD-only products used

AMONG THOSE WHO REPORTED CBD-ONLY PRODUCT USE N=363

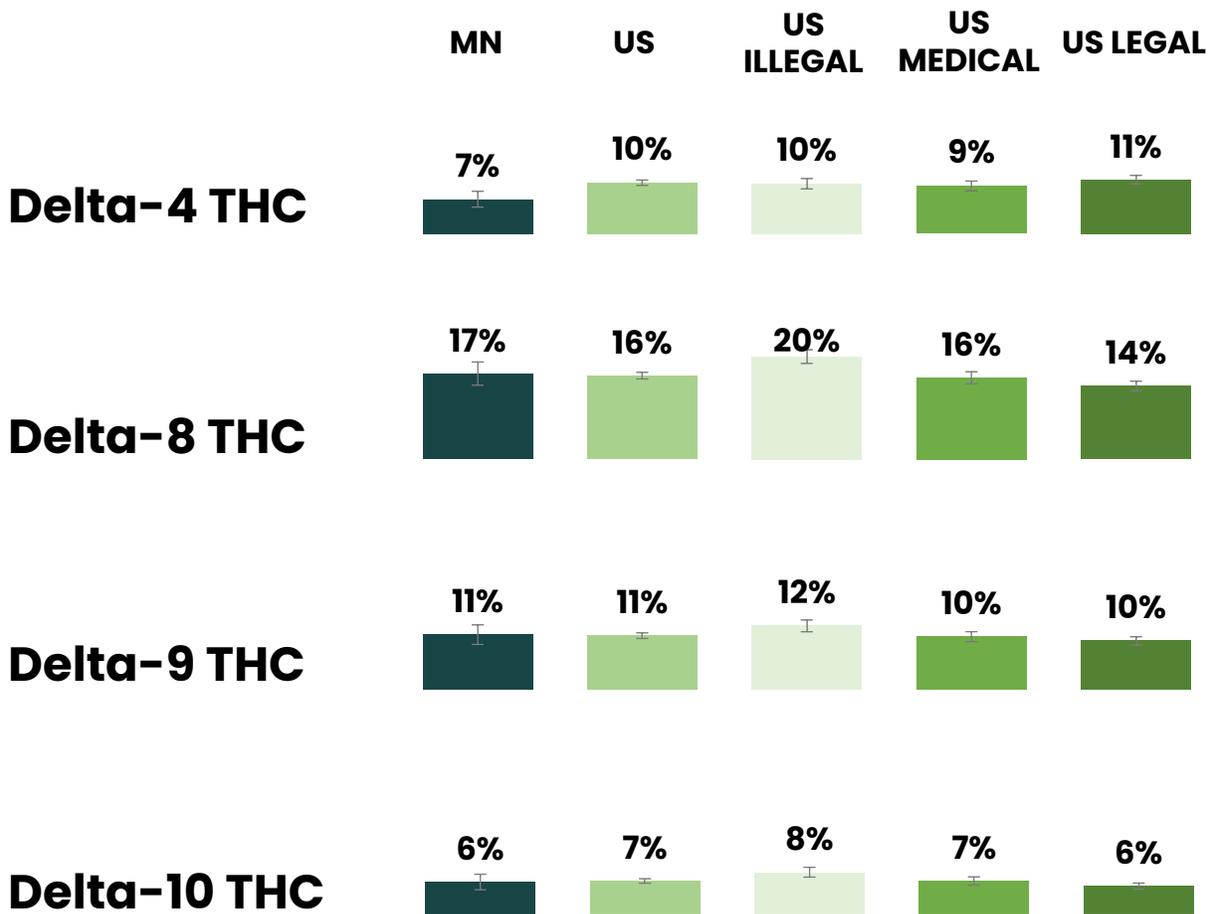

'Delta-8' THC products—Awareness

In 2021, 'Delta-8 THC' products were widely marketed in the US, particularly in jurisdictions in which conventional 'Delta 9 THC' products were illegal for adult use. Approximately 17% of Minnesota respondents reported hearing about Delta-8 products. Awareness levels for 'Delta-8' were more than twice the levels for 'Delta-4' or 'Delta-10' products, which were included as 'bogus' options given that these products are not currently marketed or sold in the US. The results suggests higher levels of awareness for Delta-8 products, despite a certain level of misreporting due to confusion about THC types.

Some new types of products contain DELTA-8 THC. Have you heard of products that contain the following?

% 'YES', ALL RESPONDENTS, 2021 n=1,442

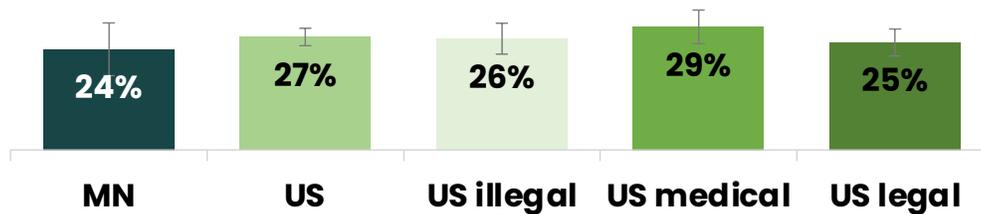

'Delta-8' THC products–Use

In 2021, 24% of respondents who had heard of 'Delta-8' THC reported using a Delta-8 THC product in the past 30 days, corresponding to approximately 4% of all respondents in Minnesota. These estimates should be interpreted with caution given the high likelihood of over-reporting due to confusion over 'Delta-8' products.

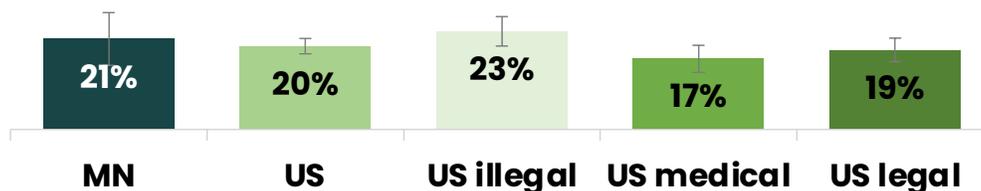

Have you ever used a DELTA-8 THC product?

ALL RESPONDENTS, 2021, n=211

Yes – In past 30 days

Yes – more than 30 days ago

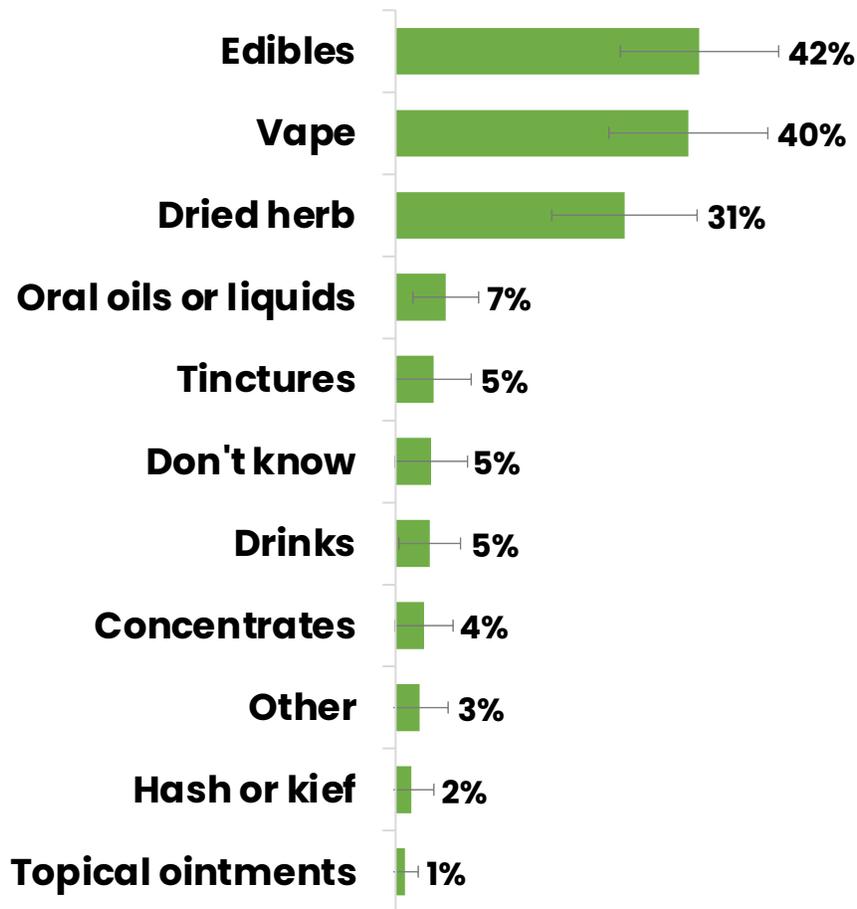

'Delta 8' THC products – Types

Among those that reported using 'Delta-8' THC products, edibles, vapes, and dried herb, were the most commonly used, although these estimates are subject to wide confidence intervals due to low numbers of respondents reporting use.

What type of DELTA-8 THC product have you used?

AMONG MINNESOTA RESPONDENTS THAT REPORTED AWARENESS AND USE OF DELTA-8 PRODUCTS, 2021, n=100

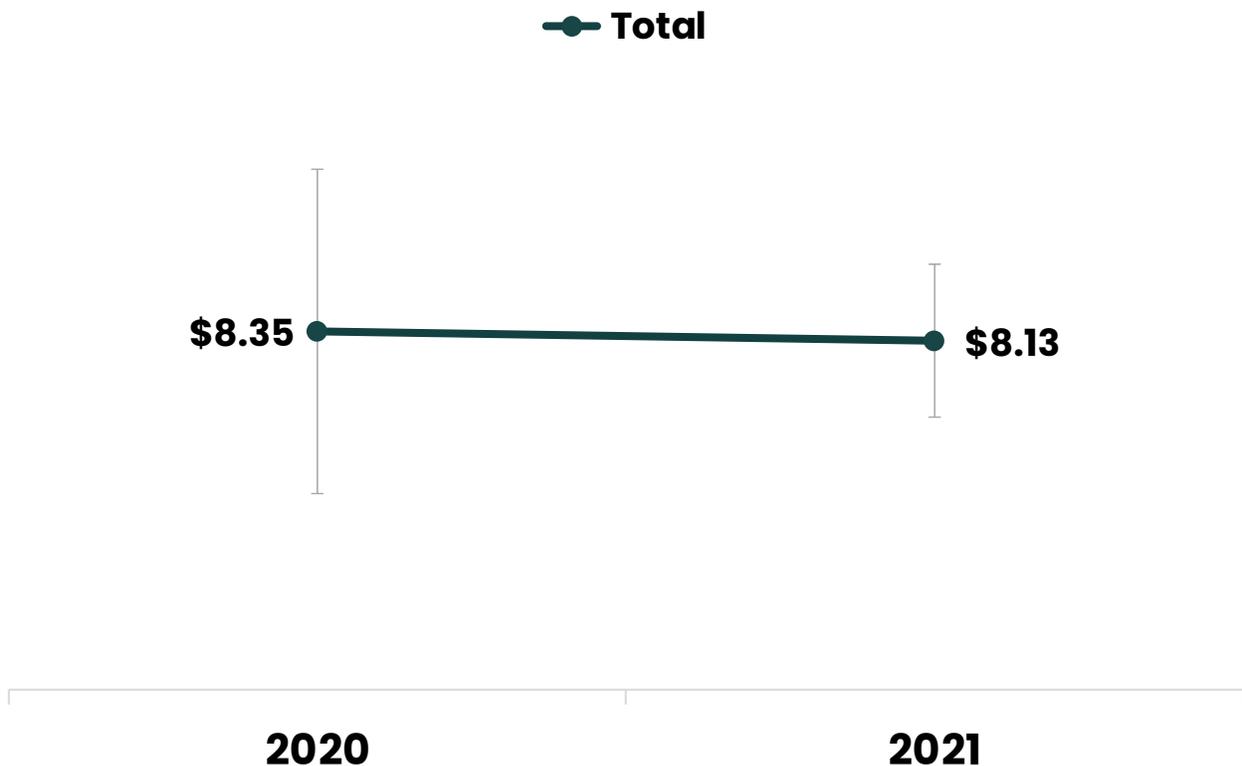

Price of dried flower

Consumers reported paying an average of \$8.13 per gram of dried flower in 2021, a modest decrease since 2018/19/20.

Price paid for dried flower dried flower

SALES WEIGHTED PRICE-PER-GRAM OF
DRIED FLOWER AT LAST PURCHASE

Cannabis sources

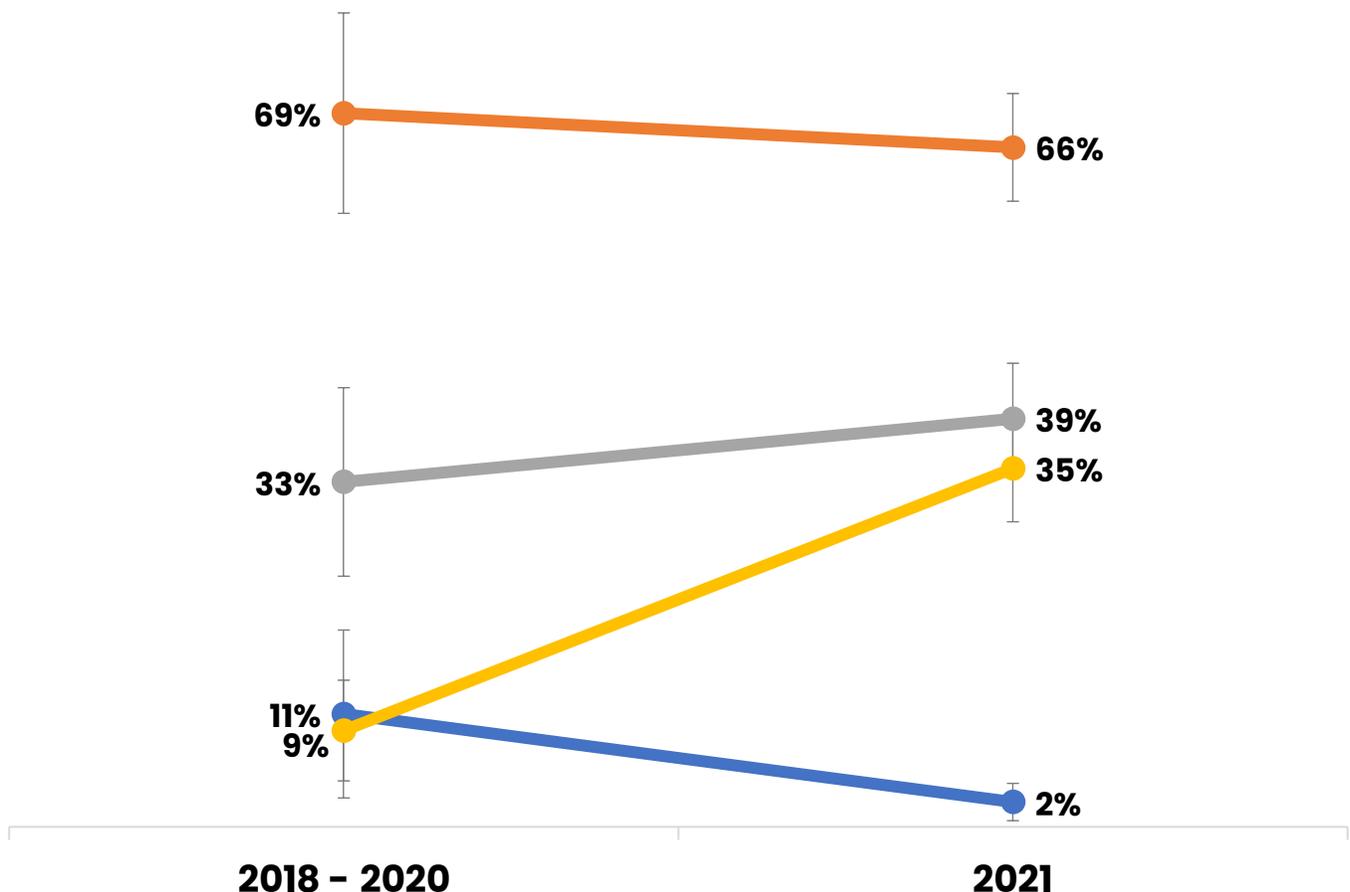

Minnesota 2021

Substantial changes have occurred in the source of cannabis among Minnesota consumers from 2018/19/20 to 2021 – Sourcing cannabis from a store or a dealer increased, while sourcing cannabis from family or friends and ‘home grow’ decreased.

Cannabis sources in the past 12-months

AMONG PAST 12-MONTH CONSUMERS

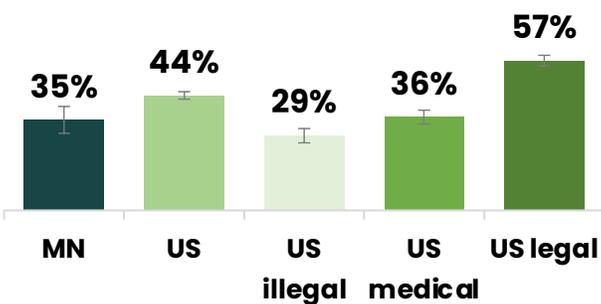

-  Made or grew my own
-  Family member or friend
-  Dealer
-  Store, co-operative or dispensary

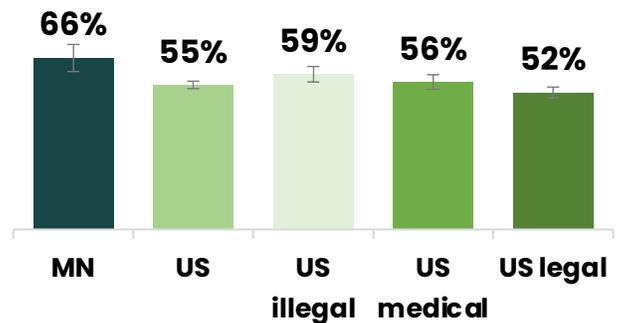

Cannabis sources

Compared to other state categories in 2021, Minnesota consumers were more likely to report sourcing cannabis family or friends and less likely to make or grow cannabis.

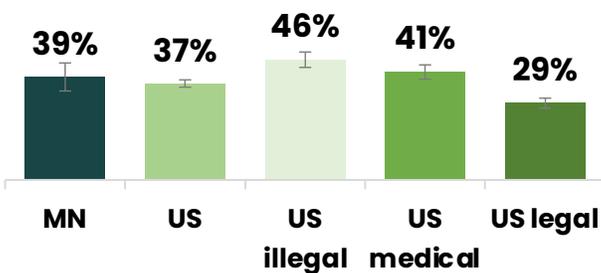

Store, co-op, or dispensary

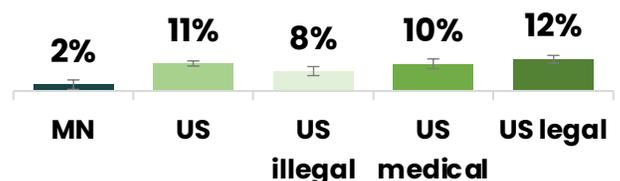

Family member or friend

Dealer

Made or grew my own

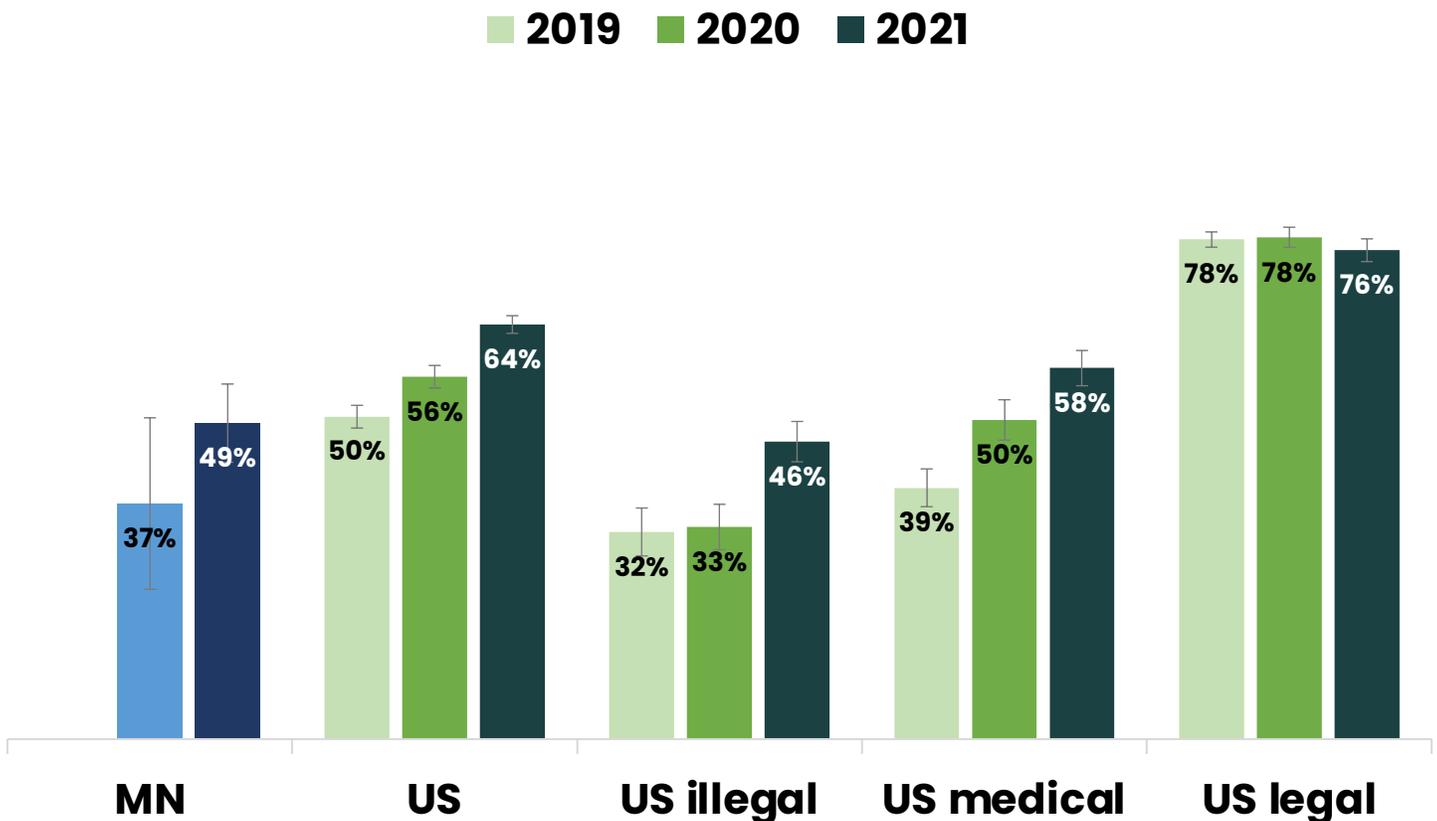

Purchasing cannabis from 'legal' sources

Consumers from Minnesota reported purchasing almost 50% of cannabis from legal retail sources in 2021, an increase from 2019/20 – However, this is lower than the national average, medical state average, as well as legal state average.

Mean percentage of all cannabis products purchased in last 12-months from a legal retail source

AMONG PAST 12 MONTHS CONSUMERS, RESPONDENTS AGE: 21+

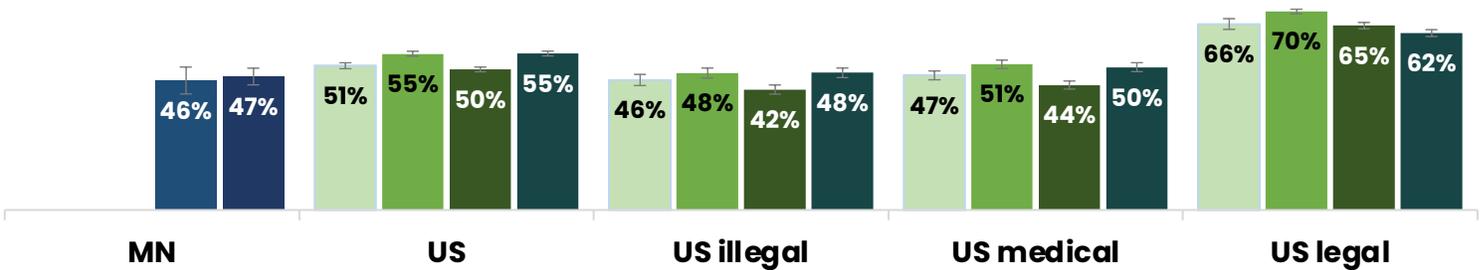

Perceptions of cannabis access

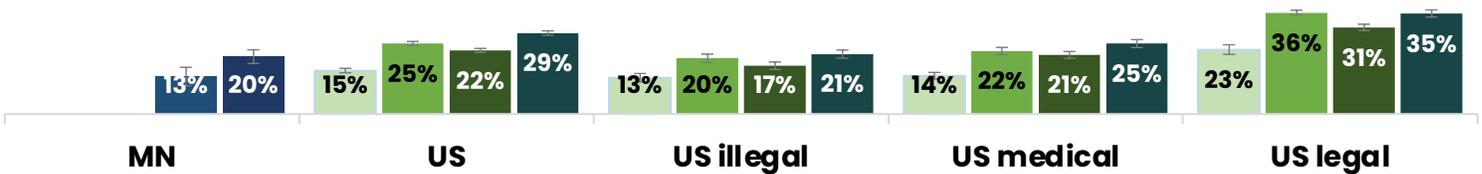

The ease of getting cannabis, purchasing cannabis from a legal store, and purchasing cannabis from a legal online source increased between 2018/19/20 and 2021. All 2021 Minnesota estimates were lower than other state categories.

2018 2019 2020 2021
