

March 21, 2023

Governor Tim Walz
Room 123 State Capitol
St. Paul, Minnesota 55155

Senator Foug Hawj, Chair
Senator Justin Eichorn, Minority Lead
Environment, Climate, and Legacy Committee

Representative Rick Hansen, Chair
Representative Josh Heintzeman, Minority Lead
Environment and Natural Resources Finance and Policy Committee

Dear Governor, Senators, and Representatives:

Please find enclosed a copy of the Minnesota Department of Natural Resources' Environmental Permit Performance Report for Fiscal Year 2022. This report is being submitted pursuant to Minnesota Statutes 84.027 Subd. 14a. The report is also being posted to the DNR website as per DNR policy and as required under this law.

If you have any questions, please feel free to contact Peter Holt, Data Systems Coordinator, DNR 651-259-5565 or peter.holt@state.mn.us.

Sincerely,

Jess Richards
Assistant Commissioner

Environmental Permit Performance: Report for Fiscal Year 2022

150-Day and 90-Day Permit Decision Goals

March 13, 2023

This report was prepared as required by Minnesota Statute (MS) 84.027, Subd. 14a. Estimated cost of preparing this report was \$2,500.

500 Lafayette Road
St. Paul, MN 55155-4040

Background

The Minnesota Department of Natural Resources' (DNR's) mission is to work with Minnesotans to conserve and manage the state's natural resources, to provide outdoor recreation opportunities, and to provide for commercial uses of natural resources in a way that creates a sustainable quality of life. The DNR uses a wide range of programs to fulfill this mission, including permitting programs established by the Minnesota Legislature. Many of these have been in place for decades, while others are more recent. It is important to review regulatory programs over time to ensure that they continue to address the needs of the state. The DNR is committed to maintaining a modern, efficient, and effective regulatory system.

This report meets the requirements of Minnesota Statute (MS) 84.027, Subd. 14a.

Scope of Report: Environmental and Natural Resource Permits

The DNR is reporting on the following natural resource permits:

- Aquatic plant management permits
- Invasive aquatic plant management permits
- Water appropriation permits
- Public waters work permits
- Endangered or threatened species taking permits
- Metallic mineral mining permits (ferrous and non-ferrous)
- Peat mining permits

These permits are relevant to the concerns underlying MS 84.027 Subd. 14a. This report does not include other DNR permit programs that focus mainly on recreational activities, such as hunting and fishing.

Summary Statistics for 150-Day and 90- Day Goal Attainment

The DNR's goal is to approve or deny permit applications within 90 days of receiving a complete application (Tier 1 permit applications) or within 150 days of receiving a complete application (Tier 2 permit applications). Tier 1 permit applications, which are subject to the 90-day goal, include general permits for work in public waters in addition to water appropriation and aquatic plant management permit renewals that do not require a site inspection. The remaining permit types listed above fall into Tier 2 and are thus subject to the 150-day goal. The DNR manages a large number of permit applications. DNR permitting activity for fiscal year 2022 included:

- 903 permit applications in progress on July 1, 2021,
- 9,209 new applications received,
- 8,416 applications approved or denied,
- 784 applications withdrawn, and
- 912 applications in progress after June 30, 2022.

DNR continued to do well in meeting the permitting goals. We found that low staffing levels contributed to several permit delays due to workload capacity issues. The number of permits and the complexity of the permits can impact workload. Permits with complex technical issues can take significant staff time to resolve, which can reduce the total hours available to process other applications. Vacancies in key permitting positions also contributed to workload capacity issues. Other delays were the result of project proposers submitting incomplete or inaccurate permit applications, or the need for additional information, environmental review, or resolution of compliance or technical issues. In some cases, the permit application was submitted in advance of a particular season and may not have been processed until closer to the start of the season or when seasonal conditions allowed certain requirements to be met. Table 1 summarizes how well DNR met the 90-day goal for Tier 1 applications and Table 2 summarizes how well DNR met the 150-day goal for Tier 2 applications.

Of the 5,053 Tier 1 permit applications for which a decision was made in fiscal year 2022:

- 4,880 Tier 1 permit applications, 96.6%, were approved or denied within 90 days of receiving an initial application,
- 4,981 Tier 1 permit applications, 98.6%, were approved or denied within 90 days of receiving a complete application, and
- 72 Tier 1 permit applications, 1.4%, took longer than 90 days to approve or deny following a complete application.

Of the 3,363 Tier 2 permit applications for which a decision was made in fiscal year 2022:

- 2,939 Tier 2 permit applications, 87.4%, were approved or denied within 150 days of receiving an initial application,
- 3,121 Tier 2 permit applications, 92.8%, were approved or denied within 150 days of receiving a complete application, and
- 242 Tier 2 permit applications, 7.2%, took longer than 150 days to approve or deny following a complete application.

Table 3 details the causes of delay for the 72 Tier 1 permit decisions that took more than 90 days from a complete application for a DNR decision. Table 4 details the causes of delay for the

242 Tier 2 permit decisions that took more than 150 days from a complete application¹ for a DNR decision. Many aquatic plant management permit applications were submitted well in advance of the permitting season, which can cause increased delays from application submission since site inspections (required for Tier 2 permit applications) cannot occur until plant growth begins. This is a major cause of delays for aquatic plant management permits.

¹ Endangered species takings permits where the decision took longer than 150 days from an initial application are also included in the list. All other programs list permits where the decision took longer than 150 days from a complete application.

Table 1: Summary Statistics for Tier 1 Permits (90 days)

7/1/2020 – 6/30/2021

Permit Program	Permit applications received	Active applications carried over from previous period	Permit applications deemed complete	Total decisions made	Decisions made within 90 days of initial application	Exceeding 90 days from initial application but within 90 days of a complete application	Exceeding 90 days from a complete application	Withdrawn applications	Active applications at the end of reporting period	Median days to decision from complete application: new applications	Median days to decision from complete application: permit modifications
Water Appropriations	481	35	486	439	431	6	2	55	22	4	0
Public Waters Work	199	60	206	194	154	27	13	19	46	30	0
Aquatic Plant Management ²	4,524	45	4,518	4,420	4,295	68	57	89	60	Not Available	1
Invasive Aquatic Plant Management											
Endangered Species Takings											
Mine – Iron Ore and Taconite											
Mine – Non-Ferrous Metallic Minerals											
Mine – Peat											
Total	5,204	140	5,210	5,053	4,880	101	72	163	128	N/A	N/A

² Aquatic plant management permits include restoration permits.

Table 2: Summary Statistics Tier 2 Permits (150 days)

7/1/2020 – 6/30/2021

Permit Program	Permit applications received	Active applications carried over from previous period	Permit applications deemed complete	Total decisions made	Decisions made within 150 days of initial application	Exceeding 150 days from initial application but within 150 days of a complete application	Exceeding 150 days from a complete application	Withdrawn applications	Active applications at the end of reporting period	Median days to decision from complete application: new applications	Median days to decision from complete application: permit modifications

DNR Actions and Planned Actions

DNR has consistently achieved a high compliance rate with the statutory permitting goals since first reporting results on August 1, 2011. DNR works to continue improving overall permitting performance.
