Appendix E: Subdivision 7(11)-ii Student Enrollment by Legislative District. ..... 67
Appendix F: Subdivision 7(11)-v Employee Headcounts and Demographics. ..... 74

## Introduction

The following tables and paragraphs are provided by the University of Minnesota in response to reporting requirements under Minnesota Statutes, Section 135A,031, Subdivision 7. Expenditure and revenue data are either directly from the audited Financial Statements or a query from the general ledger for the years indicated. In some cases, the tables include adjusting information to make the displays clearer for the general reader. While not all nuances or definitions of the data can be footnoted in a report like this, there are a few points that are important to understand when reviewing the following tables:

- In the audited financial statements for the University, adjustments are made to certain revenues and expenditures related to scholarship/student aid spending, to reflect accrual accounting requirements for institutions of higher education. Specifically, in each year, the total amount of revenue recorded in the ledger for tuition, auxiliary and other sales revenues generated from student payments, are reduced equal to the amount of scholarships that were used to pay those "bills ". Similarly, that same scholarship expenditure is also then eliminated. This set of adjustments has the impact of reducing recorded revenues and expenditures in the exact same amount, and results in a more accurate display of net activity. An example of the resulting flow of transactions may be helpful:

1. A gift received by a University department for scholarships - $\$ 10,000$ is recorded by the University as gift revenue
2. Tuition is charged to student (before financial aid awards) - $\$ 10,000$ is recorded as gross tuition revenue by the University, and as tuition owed by the student
3. The gift revenue is spent by the department when scholarships are awarded for merit aid $\$ 10,000$ is recorded as scholarship expenditure when tuition is billed to the student and then credited to his/her student finance account
4. Tuition revenue earned in step 3 is spent by department - $\$ 10,000$ is recorded as instructional salaries/supplies expenditures

In this example, the $\$ 10,000$ scholarship expense (noted in step 3 ) is offset against the $\$ 10,000$ gross tuition revenue (noted in step 2), to eliminate "double counting" of the same $\$ 10,000$ - as both gift and tuition revenue, and as both scholarship and salaries/supplies expenditures. What remains in the totals are the original gift revenue received and the final expenditure for salaries/supplies.

- A second point to note is that the audited financial statements do not report the expenditures for capital assets. Rather, the annual depreciation of capital asset purchases is reported as the expense, rather than the actual asset purchase. Therefore, the "Depreciation" line of table 7-1 represents the annual expense for capital assets. Additional descriptive information, as requested in the legislation or to clarify data presented in the tables, is included in the subdivision sections below as appropriate.

## Subdivision 7(1): Expenditures

University of Minnesota, Fiscal Years 2017 to 2021

Table 7-1i: Expenditures by Functional Area

|  | FY 2017 | FY 2018 | FY 2019 | FY 2020 | FY 2021 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Instruction | \$827,780 | \$827,200 | \$801,626 | \$843,735 | \$799,352 |
| Research | \$763,410 | \$768,137 | \$720,614 | \$776,095 | \$780,587 |
| Public Services | \$304,268 | \$285,251 | \$243,734 | \$276,017 | \$315,145 |
| Academic Support | \$461,542 | \$465,319 | \$401,418 | \$465,292 | \$408,166 |
| Student Services | \$144,826 | \$142,865 | \$122,009 | \$140,212 | \$126,115 |
| Institutional Support | \$ 297,379 | \$314,769 | \$238,655 | \$293,619 | \$257,104 |
| Scholarships \& Fellowships* | \$ 62,060 | \$64,589 | \$64,524 | \$68,496 | \$71,212 |
| Auxiliary Enterprises | \$292,784 | \$297,711 | \$269,780 | \$340,786 | \$272,172 |
| Operations/Maintenance of Plant | \$288,588 | \$310,674 | \$268,839 | \$314,976 | \$236,706 |
| Depreciation | \$208,645 | \$221,797 | \$214,336 | \$215,954 | \$236,456 |
| Other (net) | \$294 | \$120 | \$1,070 | (\$388) | \$1,477 |
| Total | \$3,651,576 | \$3,698,432 | \$3,346,605 | \$3,734,794 | \$3,504,492 |

*Due to the methodology required by the audited financial statements for the elimination of tuition and other revenues supported by scholarships, and the corresponding elimination of scholarship expenditures, the following scholarship amounts are excluded - all dollars in thousands: \$290,725 (FY17); \$306,246 (FY18); $\$ 315,125$ (FY19); $\$ 332,152$ (FY20); and $\$ 333,374$ (FY21).

Table 7-1ii: Expenditures by Object of Expenditure

|  | FY 2017 | FY 2018 | FY 2019 | FY 2020 | FY 2021 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Salaries | \$1,687,080 | \$1,726,356 | \$1,772,668 | \$1,832,217 | \$1,710,723 |
| Fringe Benefits* | \$778,743 | \$695,946 | \$311,128 | \$619,045 | \$630,614 |
| Student Aid** | \$48,840 | \$51,209 | \$54,009 | \$56,351 | \$70,624 |
| Purchased Services | \$404,309 | \$406,814 | \$417,116 | \$394,180 | \$316,362 |
| Supplies | \$205,567 | \$237,988 | \$229,553 | \$264,645 | \$251,114 |
| Repairs, Maintenance | \$133,967 | \$185,291 | \$178,327 | \$187,006 | \$112,985 |
| Depreciation | \$208,645 | \$221,797 | \$214,336 | \$215,954 | \$236,456 |
| Grants to Other Organizations | \$127,812 | \$116,175 | \$112,837 | \$103,084 | \$117,906 |
| Other Expense | \$56,613 | \$56,856 | \$56,631 | \$62,312 | \$57,708 |
| Total | \$3,651,576 | \$3,698,432 | \$3,346,605 | \$3,734,794 | \$3,504,492 |

*Effective FY15 and fiscal years going forward, the University is required to record an adjustment for GASB 68/71 (net pension liability) for its percentage share participation in state pension plans (MSRS and PERA). This adjustment affects the fringe benefits line item in Table 7-1ii.
**Due to the methodology required by the audited financial statements for the elimination of tuition and other revenues supported by scholarships, and the corresponding elimination of scholarship expenditures, the following scholarship amounts are excluded - all dollars in thousands: \$290,725 (FY17); \$306,246 (FY18); \$315,125 (FY19); \$332,152 (FY20); and \$333,374 (FY21).

In this reporting period seven categories of spending in the table above had a material change, and each can be explained due to one of two factors: technical accounting adjustments due to changes in GASB 68, 71, 84 and 87; and changes in spending patterns driven by adjustments to COVID-19.

## Technical Accounting Adjustments:

- Fringe benefits increased $\$ 307.9$ million or $99 \%$ from FY19 to FY20, which resulted from GASB related changes (explained in the footnote to the table) that reduced the FY19 expense by $\$ 291$ million. Excluding that adjustment in FY19, overall expenditures increased from FY19 to FY20 by roughly 1.4\%.
- Supplies increased \$35.1 million or 15\% from FY19 to FY20 primarily due to a required reclassification of $\$ 32.5$ million as operating expense rather than agency expense.
- Other expenses increased $\$ 5.7$ million or $10 \%$ from FY19 to FY20 due to a required reclassification of $\$ 14.0$ million as operating expense rather than agency expense, partially offset by a reduction in other spending items in this category.

Spending Pattern Changes Due to COVID-19:

- Student aid increased $\$ 14.3$ million or $25 \%$ from FY20 to FY21 as a result of federal COVID-19 relief funds specifically directed by law to student aid (CARES and ARA), offset by a slight reduction in students' utilization of federal work study.
- Purchased services decreased $\$ 77.8$ million or $20 \%$ from FY20 to FY21 due to reduced activity overall. Three notable changes were a significant reduction in travel purchases due to global restrictions, a reduction in utility expenses with limited use of some facilities, and the absence in FY21 of a refund expense recorded in FY2O related to students' housing and dining contracts.
- Repairs and maintenance expenses decreased $\$ 74.0$ million or $40 \%$ from FY20 to FY21 due to limited use of some facilities and the corresponding reduction in required maintenance and repair projects.
- Grants to other organizations increased $\$ 14.8$ million or $14 \%$ from FY20 to FY21 as external contracts and subcontracts on sponsored research grants increased from the surge in COVID-19 related grant funding awarded to the University.

## Subdivision 7(2): Instructional Expenditures by FYE Student

University of Minnesota, Fiscal Years 2016 to 2020

Below are the direct instructional costs (salaries, supplies etc. directly associated with delivering instruction; excludes overhead or indirect costs) per full-year equivalent student, using data provided through annual IPEDS reporting. This provides direct instructional costs using IPEDS data, but not associated indirect costs. The use of the instruction function code as required by IPEDS and other federal reporting requirements is the same base data used for the University's broader cost of mission study.

| Undergraduate | 2015-16 | 2016-17 | 2017-18 | 2018-19 | 2019-20 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| UM - Crookston | \$ 6,877 | \$ 6,937 | \$ 6,858 | \$6,989 | \$7,253 |
| UM - Duluth | \$ 6,970 | \$ 7,067 | \$ 6,647 | \$6,557 | \$7,079 |
| UM - Morris | \$ 9,566 | \$ 9,634 | \$ 10,576 | \$11,183 | \$12,215 |
| UM - Rochester | \$ 8,129 | \$ 7,631 | \$ 8,235 | \$6,092 | \$5,950 |
| UM - Twin Cities | \$ 11,595 | \$ 11,709 | \$ 11,412 | \$12,127 | \$12,286 |

| Graduate/Professional | $\mathbf{2 0 1 5 - 1 6}$ | $\mathbf{2 0 1 6 - 1 7}$ | $\mathbf{2 0 1 7 - 1 8}$ | $\mathbf{2 0 1 8 - 1 9}$ | $\mathbf{2 0 1 9 - 2 0}$ |
| :--- | :---: | :---: | :---: | :---: | :---: |
| UM - Duluth | $\$ 14,111$ | $\$ 14,489$ | $\$ 13,186$ | $\$ 13,741$ | $\$ 14,358$ |
| UM - Twin Cities | $\$ 24,842$ | $\$ 24,822$ | $\$ 25,102$ | $\$ 25,804$ | $\$ 26,091$ |

Two points should be noted when viewing these data:

1. These costs represent the direct instructional costs on each campus. No attempt in this analysis was made to allocate the indirect or support costs of instruction.
2. Given the limitations of the IPEDS data, the University was unable to distinguish between lower division and upper division coursework at the undergraduate level.

## Subdivision 7(3): Revenues

University of Minnesota, Fiscal Years 2017 to 2021

|  | FY 2017 | FY 2018 | FY 2019 | FY 2020 | FY 2021 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| O\&M State Appropriation | \$560,011 | \$590,248 | \$580,198 | \$601,078 | \$602,818 |
| Tuition (gross)* | \$947,448 | \$980,003 | \$1,001,400 | \$1,038,753 | \$1,005,306 |
| State Specials | \$90,981 | \$94,240 | \$94,224 | \$94,183 | \$94,161 |
| Sales, Fees, Misc. Income | \$359,113 | \$375,585 | \$400,481 | \$352,308 | \$394,592 |
| Indirect Cost Recovery | \$144,076 | \$152,873 | \$165,142 | \$168,678 | \$178,379 |
| Auxiliary Enterprises | \$354,838 | \$383,210 | \$389,488 | \$343,669 | \$245,875 |
| Federal Appropriations | \$10,533 | \$17,463 | \$19,610 | \$15,276 | \$24,880 |
| Gifts \& Endowment Income | \$258,618 | \$258,162 | \$287,380 | \$261,972 | \$262,445 |
| Restricted Grants/Contracts | \$367,780 | \$355,282 | \$394,486 | \$479,626 | \$474,486 |
| Sponsored Grants | \$560,974 | \$581,238 | \$600,939 | \$606,229 | \$682,091 |
| Scholarship Adjustment* | \$(290,725) | \$(306,246) | \$(315,125) | \$(332,152) | \$(333,374) |
| Total | \$3,363,647 | \$3,482,058 | \$3,618,223 | \$3,629,620 | \$3,631,659 |

*For this display of revenues, tuition represents gross tuition charges. It has not been reduced to "net tuition" after scholarship expenditures (and the same is true for other sources which are paid by scholarships, such as auxiliary room and board charges). Instead, the "Scholarship Adjustment" line has been included to
result in a total revenue amount that corresponds to the total expenditure lines in the tables under Subdivisions 7(1) and 7(2).

## Subdivision 7(4): Allocation Method

University of Minnesota, Fiscal Years 2022 and 2023 Combined
Allocation of the state appropriations from the current biennium (FY22 plus FY23):

| Unit | O\&M Appropriation | General Fund State Special <br> Appropriation | Health Care Access Fund <br> Allocation | Cigarette Tax <br> Allocation |  |
| :--- | ---: | ---: | ---: | ---: | :---: |
| UM - Crookston | $\$$ | $26,170,647$ | $\$$ | - | $\$$ |

UM - Twin Cities Academic:

| Academic Clinical Affairs | \$ | 67,524,001 | \$ | 12,948,422 | \$ | - | \$ | 7,226,602 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Ag Experiment Station | \$ | 6,497,672 | \$ | 4,294,658 | \$ | - | \$ | - |
| Biological Sciences | \$ | 49,255,274 | \$ | 719,602 | \$ | - | \$ | - |
| Carlson School of Management | \$ | 16,175,210 | \$ | 1,613,052 | \$ | - | \$ | - |
| Continuing and Professional Studies | \$ | 12,430,103 | \$ | - | \$ | - | \$ | - |
| Dentistry | \$ | 26,665,739 | \$ | 200,000 | \$ | - | \$ | 288,000 |
| Design | \$ | 14,108,191 | \$ | 902,888 | \$ | - | \$ | - |
| Education \& Human Dev | \$ | 42,067,069 | \$ | 1,975,314 | \$ | - | \$ | - |
| Food, Ag, Nat. Resource Sciences | \$ | 73,064,265 | \$ | 43,906,108 | \$ | - | \$ | - |
| Humphrey School of Public Affairs | \$ | 12,613,813 | \$ | 183,884 | \$ | - | \$ | - |
| Law | \$ | 29,127,677 | \$ | - | \$ | - | \$ | - |
| Liberal Arts | \$ | 92,535,056 | \$ | - | \$ | - | \$ | - |
| Medicine | \$ | 187,657,166 | \$ | 1,231,612 | \$ | 4,314,000 | \$ | 29,795,676 |
| MN Extension | \$ | 26,526,932 | \$ | 31,671,472 | \$ | - | \$ | - |
| Nursing | \$ | 11,619,341 | \$ | - | \$ | - | \$ | 1,036,000 |
| Pharmacy | \$ | 11,358,561 | \$ | - | \$ | - | \$ | 2,888,000 |
| Public Health | \$ | 15,305,520 | \$ | 681,486 | \$ | - | \$ | - |
| Science \& Engineering | \$ | 124,021,225 | \$ | 2,280,000 | \$ | - | \$ | - |
| Veterinary Medicine | \$ | 37,903,253 | \$ | 6,001,250 | \$ | - | \$ | 720,000 |
| Total Twin Cities Academic | \$ | 856,456,066 | \$ | 108,609,748 | \$ | 4,314,000 | \$ | 41,954,278 |

| President's Office | $\$$ | 771,801 | $\$$ | - | $\$$ | - |
| :--- | :---: | ---: | :---: | :---: | :---: | :---: |
| TC Intercollegiate <br> Athletics | $\$$ | $13,691,956$ | $\$$ | - | $\$$ | - |
| VP Research | $\$$ | $47,930,248$ | $\$$ | $1,407,366$ | $\$$ | - |

Executive VP \& Provost:

| Executive VP \& Provost | $\$$ | $25,334,644$ | $\$$ | $1,970,994$ | $\$$ | - | $\$$ |
| :--- | ---: | ---: | ---: | ---: | ---: | :---: | :---: |
| Academic Health Sciences | $\$$ | $2,587,243$ | $\$$ | - | $\$$ | - | $\$$ |
| Undergraduate Education | $\$$ | $6,224,384$ | $\$$ | - | $\$$ | - | $\$$ |
| Equity \& Diversity | $\$$ | $2,220,751$ | $\$$ | - | $\$$ | - | $\$$ |
| Graduate School | $\$$ | $3,171,086$ | $\$$ | - | $\$$ | - | $\$$ |
| Global Programs | $\$$ | $1,369,344$ | $\$$ | - | $\$$ | - | $\$$ |
| Student Affairs | $\$$ | $4,543,423$ | $\$$ | - | $\$$ | - | $\$$ |
|  <br> Provost | $\$ \mathbf{4 5 , 4 7 0 , 8 7 4}$ | $\$$ | $1,970,994$ | $\$$ | - | $\$$ | $1,970,994$ |

Sr. VP Finance \& Operations:

| Auxiliary Services | $\$$ | 587,168 | $\$$ | - | $\$$ |
| :--- | :--- | :--- | :--- | :--- | :--- |

Special Allocations:

| Unallocated Initiatives | \$ | 44,356,588 | \$ | - | \$ | - | \$ |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Rare Disease Council | \$ | 150,000 |  |  |  |  |  |  |  |

| U/Mayo Partnership | \$ | - | \$ | 15,982,000 | \$ | - | \$ |  |  |
| Debt Service Pool | \$ | 26,039,796 | \$ | - | \$ | - | \$ | - |  |
| New Building Operations | \$ | 3,412,031 | \$ | - | \$ | - | \$ | - |  |
| Utility Reserve | \$ | 1,981,929 | \$ | - | \$ | - | \$ |  |  |
| Total Special Allocations | \$ | 83,075,288 | \$ | 15,982,000 | \$ | - | \$ | - |  |
| Total Allocations | \$ | 1,243,936,000 | \$ | 137,376,000 | \$ | 4,314,000 | \$ | 44,500,000 |  |

Allocation of state appropriations to the units within the University is done in accordance with state law for the restricted state specials, and as part of the internal budget development process for the remainder. The allocation of the Operations \& Maintenance appropriation is not determined by formula, but instead is a set of discrete leadership decisions made every year as part of a comprehensive review under a base $+/-$, or "incremental budgeting" process. The budget model of the University incorporates the base $+/$ - process for unrestricted state appropriations, and revenue and expense forecasting for all other funding sources. Decisions are made in the context of an all-funds resource review of each unit, incorporating an analysis of available revenues from tuition, sales, clinical income and so forth before determining final reallocation expectations and the distribution of unrestricted state appropriations. The model is transparent, responsive, supportive of the values of the institution, allows for long-term financial investments, and addresses the overhead needs of the University while providing reliable, stable, and predictable incentives for sound financial planning and strong fiscal management.

## Subdivision 7(5): Reallocations

University of Minnesota

Internal reallocation of resources from lower priority to higher priority items is an important and consistent part of the University's budgeting process. Each year, most units are required to reallocate to pay for a
portion of known cost increases related to compensation, facilities, programmatic expansions, and so forth. Reallocation is considered one resource available to balance the annual budget, in addition to projected revenue increases from tuition, gifts, research grants, endowment earnings, sales income and so on. The most significant reallocations each year are achieved in the "O\&M" budget: spending supported by the pool of unrestricted resources that includes the Operations and Maintenance state appropriation and tuition. During the budget process, each Twin Cities college, system campus and major support unit is required to provide descriptive plans on proposed actions and impacts in response to potential reallocation targets. Leadership then considers those plans, the projected revenue increases from all sources, and the projected costs and desirable investments in each unit before finalizing the required reallocation. Incremental revenue increases and final reallocation targets are considered in total as available to fund the increased costs and investments within each unit. As a result, individual revenue changes or reallocation decisions are not directly aligned with a specific cost or investment increase: the combined resource changes pay for the combined cost increases/initiatives.

As part of the FY22 annual approved operating budget, $\$ 49.6$ million was reallocated to balance the "O\&M" budget (operations \& maintenance appropriation plus tuition) and to reduce costs in other funds as follows:

| Unit Type | Direct Mission <br> Activities |  <br> Facilities and <br>  <br> Oversight | Assigned: Not Yet <br> Reported | Total |
| :--- | :---: | :---: | :---: | :---: |
| Campuses/Colleges, <br> Auxiliaries | $\$ 17,700,000$ | $\$ 16,800,000$ | $\$ \quad 5,500,000$ | $\$ 40,000,000$ |
| Twin Cities/System <br> Support Units | $\$ 100,000$ | $\$ 9,500,000$ | $\$$ | - |
| Total | $\$ 17,800,000$ | $\$ 26,300,000$ | $\$ \mathbf{5 , 5 0 0 , 0 0 0}$ | $\$ 49,600,000$ |

Because the University's total revenues grew in FY22, most major units, whether academic or support, did receive additional revenues or remained stable. Individual departments within those units experienced increases or decreases in resources depending on their unique circumstances. The reallocation process in FY22 resulted in a redistribution of $\$ 49.6$ million of existing resources to higher priority initiatives and cost increases within units. An itemized list of all reallocations actually implemented in FY22 will be finalized by the University Budget Office over the next several months. The categorical breakdown of reallocations already identified as either "Direct Mission" or "Mission Support \& Facilities and Leadership \& Oversight" is in line with an internal University cost-benchmarking analysis that resulted in defining all expenditures based on their primary purpose. Amounts in the "Not Yet Reported" column will be identified within those same categories as the information is processed. The three categories of spending are defined as follows:

- Direct Mission Delivery - the expenses of the 'doers' of the mission (faculty, scientists, health science professionals, etc., plus the corresponding equipment, supplies etc. coded as for instruction, research and public service)
- Mission Support \& Facilities - the expenses to 'support' the delivery of mission activities (advisors, librarians, finance and technology personnel, skilled trades, etc. - all nonsupervisory - plus supplies, services and so forth coded as for academic support, institutional support, facility operations, etc.)
- Leadership \& Oversight - the expenses for the 'leadership, direction, control and management' of the mission (President, vice presidents, deans, chancellors, directors, all supervisory/management positions throughout the University plus their associated proportion of supplies and equipment)

The cost benchmarking analysis was developed to build a common understanding of how expenditures would be analyzed for purposes of managing the reallocation process and providing direction to units on the annual expectations or target for changes in spending. As part of the FY22 approved budget, many reallocations were implemented across a variety of functions. Examples include:

- Elimination of positions and reduction of staff costs without eliminating positions - Of the \$49.6 million in identified expense reductions, $\$ 31.1$ million ( $62.7 \%$ ) was planned through a reduction in compensation costs. In many cases the reduction of positions results in reassignment of existing work to others or restructuring processes to try and eliminate work and gain efficiencies. Technical actions units take to achieve these changes include a combination of the following:
- Eliminating open faculty and staff positions through natural attrition
- Eliminating open positions through a Retirement Incentive Option
- Sharing positions between units
- Hiring replacement employees at lesser salaries than previous employees
- Reducing appointments (portion of FTE) for continuing positions
- Reduction of general operating budgets throughout - decreased spending on supply purchases, project management costs, telephone services, temporary/consulting services, travel and conferences, technology solutions (through leveraging existing tools in other University units), consumable lab materials, equipment, lease arrangements, and so forth.

For the FY23 annual budget, \$28.1 million in planned reallocations were approved to balance the "O\&M" budget (operations and maintenance appropriation plus tuition) and to reduce costs in other funds as follows:

| Unit Type | Direct Mission <br> Activities |  <br> Facilities and <br>  <br> Oversight | Total |
| :--- | :---: | :---: | :---: |
| Campuses/Colleges, <br> Auxiliaries | $\$ 7,300,000$ | $\$ 17,100,000$ | $\$ 24,400,000$ |
| Twin Cities/System <br> Support Units | $\$ 100,000$ | $\$ 3,600,000$ | $\$ 3,700,000$ |
| Total | $\mathbf{\$ 7 , 4 0 0 , 0 0 0}$ | $\mathbf{\$} \mathbf{2 0 , 7 0 0 , 0 0 0}$ | $\mathbf{\$ 2 8 , 1 0 0 , 0 0 0}$ |

During the FY23 fiscal year, actual implementation of the planned reallocations will be tracked and final results will be summarized. At the time the FY23 budget was approved, total revenues for the University across all funding sources were projected to increase by roughly $3 \%$ when excluding the impacts of the federal COVID relief aid. As in every year, individual departments within units will experience increases or decreases in resources depending on their unique circumstances and will face unanticipated cost increases so final reallocations will likely exceed those planned in the approved budget for some of those units.

The primary mechanisms to reduce expenditures in FY23 will be the same as described above for FY22. Specific examples of planned reallocations as part of the FY23 approved budget (specified as of this date) include:

- Elimination of positions - instructors, mechanics, business analysts, faculty, career development administrators and other student service personnel, special assistants, program administrators; and so forth.
- Reduction of staff costs without eliminating positions - replacing retiring faculty with assistant professor appointments; phased faculty retirements; replacing positions through attrition at lower salaries throughout; reducing staff hours; and so forth.
- Reduction of general operating budgets throughout - decreased spending on video service, marketing events, faculty awards, information technology, office supplies, conferences, and so forth.

## Subdivision 7(6): Tuition History and Comparisons

University of Minnesota

The University of Minnesota establishes a peer group for each of its campuses, except for the Rochester campus which is still in its formative stage and fulfills an important but unique mission. We expect an established Rochester peer group for the next reporting cycle. For each campus, 10 years of tuition and fee data is provided as reported to IPEDS for the University of Minnesota campuses and their peer groups, at the undergraduate level. Provided as well are separate resident and non-resident tuition and fee rate comparisons.

Tables can be found in Appendix A labeled Subdivision 7(6) - Tuition History and Comparisons.

## Subdivision 7(7): Graduation Rates

University of Minnesota

Appendix tables show four, five, and six-year graduation rates by campus, by gender and by race/ethnicity, for the most recent eight reporting years in the Integrated Postsecondary Education Data System (IPEDS). These data are arrayed by entering year cohort, taking the first time - full time cohort of freshman students on each campus and then showing the number and percent of the cohort graduating four, five, and six years later. Following IPEDS reporting rules, only new freshman starting and graduating from the campus are counted in these totals. Transfer students, even students that may start at one University of Minnesota campus and finish at another, are not counted in these graduation totals. The University reports on retention and graduation annually through its Plan, Performance, and Accountability report, the latest of which can be found at: https://conservancy.umn.edu/handle/11299/174174.

Tables can be found in Appendix B labeled Subdivision 7(7) - Graduation Rates.

## Subdivision 7(8): Under-Represented Students

University of Minnesota

Beyond gender and diversity measures, the University has studied and concentrated on ensuring that traditionally under-represented lower-income and first-generation students are enrolled and retained. Attached tables detail enrollment changes of the past five years for both Pell eligible students and firstgeneration students on each of our campuses. The tables can be found in Appendix C labeled Subdivision 7(8) - Under-represented students.

## Subdivision 7(9): Support of Research/Technology Commercialization

University of Minnesota

The research, discovery, and impact mission of the University provides for the generation, preservation, and translation of knowledge, understanding, and artistry that benefit students, researchers, industry, and communities across the state, the nation, and the world. In addition, we remain ever cognizant of the degree to which the research and discovery mission is tightly coupled to the teaching and outreach missions of the institution as well. It is the synergies across our tripartite mission that make us one of the top public research universities in the world.

The University's Twin Cities campus posted $\$ 1.072$ billion in R\&D spending in FY21, the latest available figure. The well-respected NSF HERD survey, which compares research expenditures at US colleges and universities, consistently ranks the Twin Cities campus among the top 15 US public research institutions. The survey requires the University to report Twin Cities alone, but when all UMN campuses' R\&D expenditures were combined, the FY21 total was $\$ 1.098$ billion.

Sources for total R\&D spending during FY21 (Twin Cities) as reported to the National Science Foundation for the Higher Education R\&D (HERD) Survey:

| U.S. Federal Government | $\$$ | 570,946 |
| :--- | :---: | ---: |
| State and Local Government | $\$$ | 69,842 |
| Business | $\$$ | 44,460 |
| Nonprofit Organizations | $\$$ | 45,879 |
| Institutional Funds (research plus overhead) | $\$$ | 309,620 |
| All Other (such as foreign governments, gifts, etc.) | $\$$ | 32,214 |
| Total Reported FY19 | $\$ \mathbf{1 , 0 7 2 , 9 6 1}$ |  |

Over the past five years, the University's Technology Commercialization (TC) office has experienced a positive growth trend in nearly every important measure of technology transfer success, including: new licenses, new U.S. patents and number of start-ups (see 2021 Annual Report on Technology Commercialization). The University's technology transfer work has been recognized for its excellence in several national and global rankings:

- According to AUTM, the tech transfer trade group, U of M was among the top 15 U.S. public research universities in fiscal 2020 based on five key measures.
- The University of Minnesota was ranked 18th in the world among universities granted U.S. utility patents according to the National Academy of Inventors, based on 2020 statistics.
- A 2022 report by the think tank Heartland Forward ranked the University of Minnesota Twin Cities first for technology transfer within the 20-state heartland region, and fifth among all U.S. public universities.

The University holds over 1,100 patents and more than 2,800 current licenses for UMN technology in medicine and health, biotechnology, chemistry, engineering, agriculture, and other fields important to society and the economy. Since 2006, the University has spun out more than 200 startup companies.

## Systemwide Strategic Plan (SWSP): Research and Discovery

Research and discovery are key components of the University of Minnesota MPACT 2025 systemwide strategic plan, and with respect to Commitments 2 and 3, "Discovery, Innovation, and Impact" and "MNtersections".

Thanks to MPact 2025 and unprecedented collaboration, the research enterprise has clear goals, priorities, and assessment metrics. While action for improved administrative efficiencies is underway, growth requires investment in research administration and related support services. Faculty development, doctoral student stipends, expeditious grant and contract processing, and compliance and safety monitoring all merit increased support. The University must ensure appropriate resources are allocated if it aims to sustain its core research mission. Increased investment is necessary if improvements in University ranking and impact metrics are to be realized.

At the same time we must ensure research integrity and that the University research remains in compliance with all relevant ethical and regulatory standards. To operationalize these strategic priorities, we craft an internal control structure that ensures good fiscal stewardship (Commitment 5 of the Systemwide Strategic Plan) while minimizing administrative burden; we seek to both protect and reduce administrative burden for our researchers so that they are free to engage in the advancement of scholarship and discovery.

Finally, mindful of our responsibility to translate our discoveries to the public as quickly as possible to advance the common weal, we work with researchers to facilitate the dissemination and development of their findings, which in some instances may include pursuing commercialization of inventions and technologies. This latter activity has the potential to generate income for the University, as well as the academic unit(s) of the inventor(s), although annual "profits" are not guaranteed, and indeed are extremely volatile in magnitude when accrued.

## Subdivision 7(10): Consulting Contracts

University of Minnesota, Fiscal Years 2021 and 2022
In some circumstances each fiscal year, hiring consultants to perform work for the University is the most effective and most efficient way to achieve business goals. Generally, this is done in the following circumstances when the work involved:

- addresses a one-time or nonrecurring need
- is to be completed over a defined time period
- requires a skill set or expertise that is not needed at the University on an ongoing basis and is therefore not currently held by existing University employees
- requires a skill set or expertise that is not currently available through reassigning existing University employees
- is less expensive purchased from experts in the field outside the University compared to hiring, training, and maintaining a position or group of positions as University employees

In the last two completed fiscal years, eight consulting contracts met the required reporting characteristics (exceeding $\$ 500,000$ and for "management, investment and financial advisory services, project management, computer/technology advisory services and construction project management.

| FY21-Consultant/Supplier | Value of Contract | Description of Work |
| :---: | :---: | :---: |
| Experis US Inc. | \$504,900 | Consulting services as Cloud Service Product Owner to facilitate the group of cross-functional and cross-institutional technologists in prioritizing and grooming the backlog of user stories, features and epics in a Lean Agile framework to deliver technology solutions to the entire University community. |
| Experis US Inc. | \$698,496 | Consulting services as Cloud Engineer to develop infrastructure as code as it pertains to either AWS, Azure or Google Cloud platform. Consultant will allow the Office of Information Technology to move toward cost saving measures that could enable the University to scale its infrastructure resources more efficiently and effectively. |
| Experis US Inc. | \$764,400 | Consulting services to support the University's Sponsored Projects Administration in implementation of an Electronic Proposal Preparation and Submission System. |
| Huron Consulting Group LLC | \$1,019,169 | Consulting services to support the design and implementation of the Positioned for Excellence, Alignment and Knowledge Initiative: a project to restructure and improve a set of administrative functions resulting in efficiencies and consistent quality services. |
| KPMG LLP | \$820,000 | Consulting services to assist the University's Office of Human Resources to design, gain alignment on and begin to implement the future-state Human Resources model. |
| Noodle Partners, Inc. | \$528,000 | Consulting services to strategically analyze and recommend opportunities related to the delivery of superior online training and courses for students across a number of schools and colleges. |
| FY22-Consultant/Supplier | Value of Contract | Description of Work |
| Google Inc. | \$1,900,800 | Consulting services to design, develop and implement a cutting-edge digital platform to enhance student learning and provide analytics for educational research. |

(note-contracts reported in the fiscal year the contract is first initiated)

## Subdivision 7(11): Aggregate Data

## University of Minnesota

## 11-i: Student Demographics

Official University census enrollments, by campus, displayed by ethnicity and gender consistent with subdivision 7(7) of this report. These data may be found in Appendix D labeled Subdivision 7(11)-i Student Demographics.

## 11-ii: Student Enrollment by Legislative District

Three tables in this section display University official student headcount, by home location (i.e., the student's original address at the time of initial application to the University), and our best attempt to match home location zip code data to congressional districts, and state senate and house districts. Where zip code data overlap with two or more legislative districts, a proportionality algorithm was used to assign students to districts.

Note that there are "Unknown" categories at the bottom of each table. These represent students where zip code data was not present in the data files. "Minnesota unknowns" are students that we can identify as being from Minnesota but cannot accurately place in a legislative district. A high majority of these students are likely College in Schools students, where we collect data through an alternate process to our standard admissions systems. This data may be found in Appendix E labeled Subdivision 7(11)-ii Student Enrollment by Legislative District.

## 11-iii: Student Debt

As reported to the Office of Higher Education and displayed on its web site (http://www.ohe.state.mn.us/sPages/grad debt.cfm):

Graduate Median Debt by Academic Award Received - weighted average of the cumulative median debt for graduates by award level. Graduates with no debt are not included in the calculation.

| Sub Baccalaureate <br> Certificate | Bachelor's <br> Degree | Master's Degree | Doctoral Degree | First Professional <br> Degree |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 2017 | $\$$ | 20,552 | $\$ 23,745$ | $\$$ | 36,817 | $\$$ | 61,111 | $\$$ | 166,926 |
| 2018 | $\$$ | 21,523 | $\$ 23,546$ | $\$$ | 39,164 | $\$$ | 58,565 | $\$$ | 169,967 |
| 2019 | $\$$ | 16,162 | $\$ 23,228$ | $\$$ | 39,823 | $\$$ | 58,507 | $\$$ | 173,069 |
| 2020 | $\$$ | 23,752 | $\$ 23,634$ | $\$$ | 39,922 | $\$$ | 56,101 | $\$$ | 172,692 |
| 2021 | $\$$ | 16,257 | $\$ 22,593$ | $\$$ | 39,552 | $\$$ | 71,061 | $\$$ | 176,549 |

Percent of Graduates with Debt by Academic Award Received:

| Sub Baccalaureate <br> Certificate | Bachelor's <br> Degree | Master's Degree | Doctoral Degree | First Professional <br> Degree |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 2017 | $5 \%$ | $61 \%$ | $46 \%$ | $32 \%$ | $85 \%$ |
| 2018 | $5 \%$ | $60 \%$ | $45 \%$ | $30 \%$ | $84 \%$ |
| 2019 | $7 \%$ | $59 \%$ | $45 \%$ | $26 \%$ | $80 \%$ |
| 2020 | $8 \%$ | $59 \%$ | $43 \%$ | $27 \%$ | $79 \%$ |
| 2021 | $6 \%$ | $57 \%$ | $44 \%$ | $25 \%$ | $79 \%$ |

|  | FY 2017 | FY 2018 | FY 2019 | FY 2020 | FY 2021 |
| :--- | ---: | ---: | ---: | ---: | :--- |
|  |  |  |  |  |  |
| Crookston | $\$ 1,520$ | $\$ 1,533$ | $\$ 1,539$ | $\$ 1,583$ | $\$ 1,577$ |
| Duluth | $\$ 1,242$ | $\$ 1,327$ | $\$ 1,351$ | $\$ 1,392$ | $\$ 1,392$ |
| Morris | $\$ 950$ | $\$ 1,056$ | $\$ 1,171$ | $\$ 1,254$ | $\$ 1,254$ |
| Rochester | $\$ 636$ | $\$ 636$ | $\$ 636$ | $\$ 656$ | $\$ 656$ |
| Twin Cities | $\$ 1,596$ | $\$ 1,620$ | $\$ 1,635$ | $\$ 1,709$ | $\$ 1,709$ |

The fees in the table above represent totals for the full academic year and are charged to all students unless granted a specific waiver. The activities and items funded by these fees varies by campus but generally fall within three categories:

1. Student Services Fees: as allowed by Board of Regents Policy -
https://regents.umn.edu/sites/regents.umn.edu/files/policies/Student Services Fee.pdf Each campus has its own autonomous review and recommendation process, and each is governed by a student-majority committee appointed by the student association on that campus.
Recommendations from the committees are submitted to the Provost and the President for potential inclusion in the President's annual operating budget, ultimately approved by the Board of Regents. On all campuses these fees provide funds for student clubs and organizations, student unions/centers, health services and recreational sports. In addition, for Crookston and Morris these fees encompass their campus "athletic fees" in support of intercollegiate athletics.
2. Campus/Collegiate/Durable Goods Fees: as allowed by Board of Regents Policy - Subdivision 3. Academic Fees.
a) Campus/Collegiate Fees - Campus/collegiate fees are campus- and college-wide fees that may be assessed to all students enrolled on a campus or in a college for goods and services that directly benefit students but that are not part of actual classroom instruction. Allowable goods and services include advising, career services, computer labs, special equipment, orientation activities, and other goods or activities intended to enhance the student experience outside of actual classroom instruction. Each campus shall assess no more than one campus-wide fee and each college shall assess no more than one college-wide fee.
b) Durable Goods Fees - Durable goods fees may be charged by a campus or a college to their enrolled students (or any cohort or subset of their enrolled students) for educational materials and equipment that will be owned by, potentially owned by, or assigned to a specific student for their use during the entire term. Durable goods fees may not be charged for services, or for use of any equipment owned and retained by the University, except for computer or other specialized equipment assigned for a full term to a specific student."

Where these fees differ by college (on the Duluth and Twin Cities Campuses) the amounts in the table above represent an average of the undergraduate programs for six or more credits.

Other Required Fees: charged only on two campuses. They include a transportation fee and an Athletics/Athletics Facilities fee on the Duluth Campus, and the MN Student Association fee, the capital enhancement fee, the stadium fee and a transportation fee on the Twin Cities Campus.

## 11-v: Employee Headcount \& Demographics

Official University of Minnesota employee headcounts are taken on the 9th payroll period annually (usually late October). The tables provided do not include undergraduate student employees, graduate student employees, or other fellows or professionals in training. These data may be found in Appendix F labeled Subdivision 7(11)-v Employee Headcounts and Demographics.

## 11-vi: Facilities

1. Physical Space Overview

University of Minnesota facilities comprise approximately thirty-two million gross square feet (GSF) across five campuses and eighteen remote sites located throughout the state of Minnesota. These 900 plus buildings are home to the classrooms, research labs, clinics, office, and libraries needed to deliver the University's mission. While impressive due to magnitude and reach, the facility portfolio requires significant ongoing renewal to keep buildings safe and reliable for students, faculty, staff, and visitors. More than fifty percent of buildings are 50 years old or more. The backlog of already deferred renewal and projected upkeep for the next 10 years is $\$ 2.9$ billion and $\$ 5.1$ billion, respectively.

Managing this magnitude of need across a large and diverse portfolio starts with a thorough understanding of what is owned, what condition it is in, and what level and type of resources are needed to keep it functioning. To this end, the University employs a third-party Facility Condition Assessment (FCA) advisor to evaluate the condition and quality of facilities and infrastructure, culminating in prioritized recommendations for renewal.

Multiple funding strategies are used to address facility renewal. HEAPR is the primary source, followed by other stand-alone state investments in major facility renovation projects. In addition, the University invests its own funds through major renewal projects, repair \& replacement funds from the operating budget, utility infrastructure renewal projects from self-assessed utility charges, and self-generated auxiliary funds that are reinvested in auxiliary-supported buildings (note - auxiliary activities are those that generate income from sales of goods and services to the "public", such as housing, food service, bookstores, parking, athletics and so forth). Furthermore, the University seeks renewal cost avoidance by investing its own funds in the demolition of obsolete facilities.

Combined, these sources of funding fall well short of needs. During the past ten years (FY14 - FY23), enterprise renewal investments from all sources had an impact averaging $\$ 92$ million per year (down from $\$ 104$ million the last time reported due in large part to the lack of State bonding in 2021 and 2022). This level of reinvestment translates to approximately $\$ 2.88$ per square foot, whereas the FCA has identified a target of approximately $\$ 8$ per square foot to simply maintain existing condition. The University's mission will be compromised without continued, sustained investment in buildings and infrastructure.
2. Square Footage by Campus and by DEED Economic Development Region:

| Campus | City | County | DEED Econ Dev <br> Region | Bldg <br> Count | GSF |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Twin Cities - Minneapolis Campus | Minneapolis | Hennepin | $11-7$ County TC | 187 | $20,917,432$ |

4. Capital Bonding Requested and Received (2020 session)

| Project Name | Project Total |  | University/Non-State Investment |  | Request |  | Received |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Higher Ed Asset Preservation \& Replacement |  | 200.0 | \$ | - | \$ | 200.0 | \$ 38.5 |
| Child Development Building Replacement |  | 43.8 | \$ | 14.6 | \$ | 29.2 | \$ 29.2 |
| A.B. Anderson Hall Capital Renewal |  | 6.6 | \$ | 2.2 | \$ | 4.4 | \$ 4.4 |
| Chemistry Undergraduate Teaching Laboratory |  | 98.4 | \$ | 32.8 | \$ | 65.6 | \$ 3.3 |
| Clinical Research Facility - Design |  | 27.0 | \$ | 9.0 | \$ | 18.0 | See note |
| Total |  | 375.8 | \$ | 58.6 | \$ | 317.2 | \$ 75.4 |

(Dollars in Millions)

Note: Debt refinancing proceeds of approximately $\$ 36.6$ million to allow for design, site acquisition and preconstruction of a clinical research facility.

## 11-vii: Administrative Costs

In 2012 the University of Minnesota developed a "cost benchmarking analysis" for the purpose of defining and categorizing the University's costs to build a shared understanding of University expenditures and improve the University's ability to set spending benchmarks and monitor changes in spending over time. The analysis is conducted and reported on annually. In part, it was created to answer questions related to "administrative costs" at the University. Prior to this analysis, there was no shared definition of those costs, so there was no accepted and standard way to answer questions related to them. Through a consultative process involving stakeholders throughout the institution, the analysis was shaped in a way to define mission related spending separately from all other spending on support functions and basic infrastructure. Within the analysis, categories of spending are identified as the following:

- Direct Mission Delivery - the expenses of the 'doers' of the mission
- Mission Support \& Facilities - the expenses to 'support' the delivery of mission activities
- Leadership \& Oversight - the expenses for the 'leadership, direction, control and management’ of the mission

Expenses in all three categories occur throughout the organization (in academic and support units) and are supported by multiple funding sources. The benchmarking analysis focuses on current operating funds, including sponsored research activity. The intent is to categorize expenditures that relate to the regular ongoing operations of the University supported by annual revenues. As a result, it excludes non-current and agency funds, internal service organization (ISO) funds, and other cross-unit charges (except for transfers for facility projects).

Within the analysis, cost types are distributed among the spending categories in different ways. Personnel costs are distributed based on job code: each individual job code has been reviewed and assigned to one of the three spending categories based on the definitions of those categories and a reasonable judgement of the function represented by the job code description. Non-personnel expenditures are distributed based on a combination of function designation (research, instruction, etc.) and/or account code definition (consulting, supplies, etc.). Examples of the types of expenditure included in each spending category are noted in the table below. Note that direct student aid is treated as a separate category related to but not included in the delivery of mission.

## Expenditures by Expense Category

Direct Mission Delivery: "doers" of the mission
Personnel: tenured and tenure-track professors, adjunct instructors, lecturers, clinical professors, extension educators, health science professionals, scientists and laboratory technicians, students in teaching assistant, research assistant or fellowship roles

Non-personnel: all non-personnel expenses with instruction, research, or public service function codes in the general ledger (excludes facility related activity: utilities, rents, leases and repairs \& maintenance)

## Mission Support \& Facilities: "support" the delivery of the mission

Personnel (non-supervisory): audit/finance/HR/info tech/legal, clerical support, advisors, librarians, curators, child care workers, coaches, coordinators, analysts, building and grounds workers, skilled trades, engineers, safety technicians, environmental health and safety workers, police, temporary and casual workers

Non-personnel: prorated share of supplies and services, etc. in non-mission functions; equipment purchases in non-mission functions, all consulting in non-mission functions, facilities costs (utilities, rents, leases, repairs \& maintenance, transfers for facility projects, debt).

Leadership \& Oversight: "leadership, direction, control and management" of the mission
Personnel: executive leadership - president, vice presidents, chancellors, provost, vice provosts; academic leadership - deans, associate deans, department chairs; directors - program, department, campus and system-wide; supervisor and managerial titles across the organization

Non-Personnel: prorated share of supplies and services, non-capital equipment, etc. in non-mission functions.

Note that the definition for Leadership \& Oversight encompasses all supervisory and manager positions regardless of their function in the institution. For example, job codes that designate someone as a manager of $x$ are included in that category, rather than in Mission or Mission Support \& Facilities categories, where their "functional" home might be.

In recent years, the Leadership \& Oversight category of expenditures in this analysis was determined to best correspond to the request for total administrative costs at the University for purposes of responding to the statutory reporting requirements of M.S. 135A in coordination with the MN State system. It is the category of information that most closely aligns with what the MN State System is reporting as administrative expense. In FY21, the most recent completed year of the cost benchmarking analysis (FY22 will be final in December 2022), the totals associated with that category of spending were as follows:

- Total Leadership \& Oversight expenditures = \$310.0 million
- Total Leadership \& Oversight expenditures as a percent of total expenditures $=8.3 \%$
- Total Leadership \& Oversight headcount $=2,065$ (fall 2020 point in time)
- Total Leadership \& Oversight headcount as a percent of total headcount = 7.6\%

## Moving Forward:

In 2021, the University embarked on an effort to review administrative and support functions once again with the goal of gaining efficiencies and improving the quality and timing of service delivery throughout the institution. Through that process, conversations led to an updated definition of "administrative costs" to guide internal analysis and reporting. Because this new definition has not been discussed with Minnesota Management and Budget and the Office of Higher Education for compatibility with the requirements of M.S. 135A and comparability with the MN State System, only a summary version of the new calculations is presented here. This new definition can replace the results presented above for inclusion in the 2026-2027 version of this report if considered to be appropriate at the time.

The new definition of "administration" is again presented only in the context of total University expenditures and two other categories of spending that make up that total. While similar to the cost-benchmarking analysis presented above, the definition of administration in this version reflects more of a functional view of activities rather than a strong focus on positions. The three categories of spending to be tracked in this
updated definition set are most easily understood through job examples, but include all the associated supplies, equipment, contracts, etc. as well. The categories are as follows:

1. Mission: activities that directly provide instruction, research, and public service (the "doers" of the mission);
2. Operations: activities that supplement and directly contribute to mission delivery (the "doers" of activities that round out the missions and create the full "campus experience"); and 3. Administration: activities that conduct "business" and provide the organizational framework, processes, and direction to all University undertakings (the "doers" of activities that enable the strategic, compliant and efficient conduct of mission and operations).

In FY21, the most recent completed year of the new analysis (FY22 will be final in December 2022), the total for Administration was $\$ 433.4$ million, or $11.0 \%$ of total expenditures. Headcount reporting is not yet aligned with this new definition set for expenditures.

## 11-viii: University Operating Budget

The Board of Regents of the University of Minnesota approves the annual operating budget for the institution in June of each year. Those documents can be accessed from the University Budget Office web site (http://finance.umn.edu/budget anops.html). For the current biennium, the approved revenue and expenditure estimates (including "internal sales") were as follows at the time the FY23 budget was approved (June of 2022):

| Estimated <br> FY 2022 | Budget Plan <br> FY 2023 |
| :---: | :---: |

Revenues:

| Operations \& Maintenance Appropriation | \$ | 621,968,000 | \$ | 621,968,000 |
| :---: | :---: | :---: | :---: | :---: |
| Gross Tuition | \$ | 1,016,180,882 | \$ | 1,050,697,671 |
| State Special Appropriations | \$ | 93,095,000 | \$ | 93,095,000 |
| Indirect Cost Recovery | \$ | 185,601,109 | \$ | 184,152,125 |
| Federal Appropriations | \$ | 18,321,999 | \$ | 18,321,999 |
| Grants \& Contracts (non-sponsored) | \$ | 430,506,868 | \$ | 331,456,980 |
| Private Practice | \$ | 132,290,675 | \$ | 138,905,209 |
| Gifts \& Endowment Income | \$ | 266,451,974 | \$ | 275,777,793 |
| Auxiliary Enterprise Revenue | \$ | 343,149,092 | \$ | 360,306,547 |
| Internal Sales | \$ | 248,116,831 | \$ | 254,319,752 |
| Sales, Fees, Misc. Unrestricted | \$ | 369,696,512 | \$ | 405,181,338 |
| Sponsored Grants (revenue = reimbursed expenses) | \$ | 700,000,000 | \$ | 675,000,000 |
| Total Revenue | \$ | 4,425,378,942 | \$ | 4,409,182,414 |

Expenditures:

| Instruction | \$ | 864,501,809 | \$ | 910,255,910 |
| :---: | :---: | :---: | :---: | :---: |
| Research | \$ | 417,745,539 | \$ | 439,854,887 |
| Public Service | \$ | 201,152,555 | \$ | 211,798,634 |
